Medicaid Section 1115 SUD Demonstrations Monitoring Report – Part B Version 3.0
 Oregon, Oregon Health Plan Substance Use Disorder 1115 Demonstration

State	Oregon
Demonstration name	Oregon Health Plan Substance Use Disorder 1115 Demonstration
Approval period for section 1115 demonstration	04/8/2021- 03/31/2026
SUD demonstration start date^a	04/08/2021
Implementation date of SUD demonstration, if different from SUD demonstration start date^b	04/08/21
SUD (or if broader demonstration, then SUD -related) demonstration goals and objectives	<p>This demonstration provides Oregon with the opportunity to provide a fuller continuum of care to OHP members with substance use disorder (SUD). A key part of this will be the state’s ability to receive FFP for members who are short-term residents in residential and inpatient treatment settings that qualify as Institutions for Mental Diseases (IMDs). It will also support Oregon’s efforts to implement models of care focused on increasing support for individuals in the community and home, outside of institutions, and improve access to a continuum of SUD evidence-based services at varied levels of intensity. This continuum of care is based on the American Society of Addiction Medicine (ASAM) criteria, nationally recognized assessment and placement criteria that reflect evidence-based clinical treatment guidelines. This demonstration will also allow Oregon to provide community integration services which consists of housing and employment supports to individuals transitioning back into the community from an IMD or other residential setting.</p> <ol style="list-style-type: none"> 1. Assist Oregon in increasing identification, initiation, and engagement of Medicaid beneficiaries diagnosed with SUD; 2. Assist the state in increasing beneficiary adherence to, and retention in, SUD treatment programs; 3. Assist Oregon in reducing inappropriate or preventable utilization of emergency departments and inpatient hospital settings through improved access to a continuum of care services; and 4. Provide a continuum of care to increase the chances of Medicaid beneficiaries of having a successful recovery process.

SUD demonstration year and quarter	DY2 Q3 Quarterly Report Health Systems Division OHA
Reporting period	10/01/2022-12/31/2022

^a **SUD demonstration start date:** For monitoring purposes, CMS defines the start date of the demonstration as the *effective date* listed in the state’s STCs at time of SUD demonstration approval. For example, if the state’s STCs at the time of SUD demonstration approval note that the SUD demonstration is effective January 1, 2020 – December 31, 2025, the state should consider January 1, 2020 to be the start date of the SUD demonstration. Note that the effective date is considered to be the first day the state may begin its SUD demonstration. In many cases, the effective date is distinct from the approval date of a demonstration; that is, in certain cases, CMS may approve a section 1115 demonstration with an effective date that is in the future. For example, CMS may approve an extension request on 12/15/2020, with an effective date of 1/1/2021 for the new demonstration period. In many cases, the effective date also differs from the date a state begins implementing its demonstration.

^b **Implementation date of SUD demonstration:** The date the state began claiming federal financial participation for services provided to individuals in institutions for mental disease.

2. Executive summary

This quarterly report summarizes OHA activities for Demonstration Year 2 Quarter 3, October 01, 2022 through December 31, 2022. The first quarter of demonstration year two focused primarily on ASAM implementation planning.

Oregon focused primarily on project implementation and planning, working to receive approval of the Monitoring Protocol and Evaluation Design.

Demonstration Year 2 Quarter 3 Accomplishments:

- Engaged with providers receive feedback on ASAM implementation related to ASAM licensure and use of ASAM tools.
- Provided ASAM continuum overview to providers by ASAM.
- Completed Rules Advisory Committees to rule changes relating to ASAM implementation.

10. Budget neutrality		
10.1 Current status and analysis		
10.1.1 If the SUD component is part of a broader demonstration, the state should provide an analysis of the SUD-related budget neutrality and an analysis of budget neutrality as a whole. Describe the current status of budget neutrality and an analysis of the budget neutrality to date.	X	Oregon continues to strive towards compliance with budget neutrality.

11. SUD-related demonstration operations and policy		
11.1 Considerations		
11.1.1 The state should highlight significant SUD (or if broader demonstration, then SUD-related) demonstration operations or policy considerations that could positively or negatively affect beneficiary enrollment, access to services, timely provision of services, budget neutrality, or any other provision that has potential for beneficiary impacts. Also note any activity that may accelerate or create delays or impediments in achieving the SUD demonstration’s approved goals or objectives, if not already reported elsewhere in this document. See report template instructions for more detail.		Delays through DY1 and DY2 were experienced as Oregon actively supported BH providers during COVID-19 to ensure quality services and treatments were accessible to Medicaid recipients. Many programs struggled financially due to COVID restrictions, resulting in lower admissions and longer wait times to access care. A large focus in DY1 was COVID relief and workforce, as well as policy development and implementation. Additionally, due to staffing shortages which began in COVID-19 and continued through DY2Q3, providers are struggling to hire sufficient levels of staffing needed to provide their full array of services and treatments to patients. Staffing for OHA and this project have also seen some delays. New hires for this project started in DY2Q2 and continue to onboard to the work.
11.2 Implementation update		
11.2.1 Compared to the demonstration design and operational details, the state expects to make the following changes to: 11.2.1.i. How the delivery system operates under the demonstration (e.g. through the managed care system or fee for service)	X	No Anticipated Changes
11.2.1.ii. Delivery models affecting demonstration participants (e.g. Accountable Care Organizations, Patient Centered Medical Homes)	X	No Anticipated Changes
11.2.1.iii. Partners involved in service delivery	X	No Anticipated Changes
11.2.2 The state experienced challenges in partnering with entities contracted to help implement the demonstration (e.g., health plans, credentialing vendors, private sector providers) and/or noted any performance issues with contracted entities		Contracts related to external review, evaluation design, are in process. Contract related to ASAM has been signed and is in process of implementation.
11.2.3 The state is working on other initiatives related to SUD or OUD		Block SAPT Grant, SB755, SOR Grants, Opioid Overdose response with Public Health.

11.2.4 The initiatives described above are related to the SUD or OUD demonstration (The state should note similarities and differences from the SUD demonstration)		All initiatives are focused on improving access to care and reducing overdose and overdose related deaths. The population covered under the initiatives are different--1115 Waiver Medicaid, other indigent or non-Medicaid covered services and support (such as Harm Reduction, Housing, infrastructure, room and board, etc.)
12. SUD demonstration evaluation update		
12.1 Narrative information		
12.1.1 Provide updates on SUD evaluation work and timeline. The appropriate content will depend on when this report is due to CMS and the timing for the demonstration. There are specific requirements per Code of Federal Regulations (CFR) for annual reports. See report template instructions for more details.		External evaluation plan was submitted to CMS and has been approved. Draft contract with external review organization is underway.
12.1.2 Provide status updates on deliverables related to the demonstration evaluation and indicate whether the expected timelines are being met and/or if there are any real or anticipated barriers in achieving the goals and timeframes agreed to in the STCs		External evaluation plan was submitted to CMS and has been approved. Contracting continues to be underway but there is not an anticipated delay with meeting the timelines of the STCs.

12.1.3 List anticipated evaluation-related deliverables related to this demonstration and their due dates		<p>The Evaluator will deliver Mid-Point Assessment, Interim and Summative Evaluation Reports that are meaningful and accessible to the primary audiences for the evaluation. Given the six-month time lag for maturation of claims/encounters data and the time needed to analyze these data, we anticipate that the reports will cover results for the following time periods:</p> <ul style="list-style-type: none"> • The Mid-Point Assessment Report due to CMS in December 2023 will include results through June 2022. • The Interim Report due to CMS in July 2025 will include results through December 2023 • The Summative Report due to CMS in September 2027 will present results through December 2025. <p>We anticipate that each report will contain a large volume of quantitative results, including descriptive statistics, data trends over time, change associated with the waiver as identified by regression analysis, and results for subgroups. The reports will use visual presentations to convey this information quickly and concisely and enable readers to explore the data. To provide context and help explain results, the reports will draw on information from Oregon’s quarterly monitoring reports to CMS and other background documents as needed.</p>
13. Other demonstration reporting		
13.1 General reporting requirements		
13.1.1 The state reports changes in its implementation of the demonstration that might necessitate a change to approved STCs, implementation plan, or monitoring protocol		Implementation of ASAM tools may see some delay in full implementation due to COVID, funding and workforce issues. SMEs are currently assessing any changes that might take place in DY2.
13.1.2 The state anticipates the need to make future changes to the STCs, implementation plan, or monitoring protocol, based on expected or upcoming implementation changes	X	No Anticipated Changes; awaiting CMS approval on Monitoring Protocol

13.1.3 Compared to the demonstration design and operational details, the state expects to make the following changes to: 13.1.3.i. The schedule for completing and submitting monitoring reports		No anticipated changes.
13.1.3.ii. The content or completeness of submitted reports and/or future reports		Content for DY2Q3 is minimal due to the Monitoring Protocol not yet approved by CMS, majority of the demonstration services being implemented 01/01/2022 and Licensure changes taking place in 12-24 months out.
13.1.4 The state identified real or anticipated issues submitting timely post-approval demonstration deliverables, including a plan for remediation		Monitoring Protocol has not yet been approved, as such there may be impact to timely demonstration deliverables.
13.2 Post-award public forum		
13.2.2 If applicable within the timing of the demonstration, provide a summary of the annual post-award public forum held pursuant to 42 CFR § 431.420(c) indicating any resulting action items or issues. A summary of the post-award public forum must be included here for the period during which the forum was held and in the annual report.		Oregon has a SUD 1115 Advisory Committee that meets every other month and provides feedback on the progress of the demonstration. Oregon is planning on holding a larger annual public forum meeting to solicit additional feedback.
14. Notable state achievements and/or innovations		
14.1 Narrative information		
14.1.1 Provide any relevant summary of achievements and/or innovations in demonstration enrollment, benefits, operations, and policies pursuant to the hypotheses of the SUD (or if broader demonstration, then SUD related) demonstration or that served to provide better care for individuals, better health for populations, and/or reduce per capita cost. Achievements should focus on significant impacts to beneficiary outcomes. Whenever possible, the summary should describe the achievement or innovation in quantifiable terms, e.g., number of impacted beneficiaries.		While Oregon still awaits its approved Monitoring Protocol, there is not much qualitative data at this time.
