Indianapolis, IN 46204

Dear Ms. Taylor:

Your title XXI Children’s Health Insurance Program (CHIP) State Plan Amendment (SPA) number IN-20-0012-CHIP, submitted on August 11, 2020, has been approved. This amendment has an effective date of July 1, 2020.

Through this SPA, Indiana amends its previously approved Modified Adjusted Gross Income (MAGI) Methodology template by updating the budgeting methodology for accounting for reasonable and predictable changes in income. Specifically, the methodology will allow for prorating gross monthly income for temporary or seasonal employment. The state received approval for the same type of amendment under Medicaid SPA IN-20-0008, which was approved August 26, 2020. A copy of the approved CS15 state plan page is attached and to be incorporated into the state’s approved CHIP state plan. This page supersedes the previous CS15 that was approved on January 15, 2014.

Your title XXI project officer is Ms. Dietrich Graham. She is available to answer questions concerning this amendment and other CHIP-related issues. Ms. Graham’s contact information is as follows:

Acting Deputy Director
The CHIP Agency will apply Modified Adjusted Gross Income methodologies for all separate CHIP covered groups, as described below, and consistent with 42 CFR 457.315 and 435.603(b) through (i).

In the case of determining ongoing eligibility for enrollees determined eligible for CHIP on or before December 31, 2013, MAGI-based income methodologies will not be applied until March 31, 2014 or the next regularly-scheduled renewal of eligibility, whichever is later.

If the state covers pregnant women, in determining family size for the eligibility determination of a pregnant woman, she is counted as herself plus each of the children she is expected to deliver.

In determining family size for the eligibility determination of the other individuals in a household that includes a pregnant woman:

- The pregnant woman is counted just as herself.
- The pregnant woman is counted just as herself, plus one.
- The pregnant woman is counted as herself, plus the number of children she is expected to deliver.

Financial eligibility is determined consistent with the following provisions:

When determining eligibility for new applicants, financial eligibility is based on current monthly income and family size.

When determining eligibility for current beneficiaries, financial eligibility is based on:

- Current monthly household income and family size.
- Projected annual household income for the remaining months of the current calendar year and family size.

In determining current monthly or projected annual household income, the state will use reasonable methods to:

- Include a prorated portion of the reasonably predictable increase in future income and/or family size.
- Account for a reasonably predictable decrease in future income and/or family size.

Except as provided at 42 CFR 457.315 and 435.603(d)(2) through (d)(4), household income is the sum of the MAGI-based income of every individual included in the individual's household.

Household income includes actually available cash support, exceeding nominal amounts, provided by the person claiming an individual described at §435.603(f)(2)(i) as a tax dependent. No

The CHIP Agency certifies that it has submitted and received approval for the conversion for all separate CHIP covered group income standards to MAGI-equivalent standards.

An attachment is submitted.
