Separate Child Health Insurance Program General Eligibility - Continuous Eligibility

CS27

2107(e)(1)(K) of the SSA and 42 CFR 457.342 and 435.926; 2107(e)(1)(J) and 1902(e)(16) of the SSA

Mandatory 12-Month Postpartum Continuous Eligibility in CHIP for States Electing This Option in Medicaid

At state option in Medicaid, states may elect to provide continuous eligibility for an individual's 12-month postpartum period consistent with section 1902(e)(16) of the SSA. If elected under Medicaid, states are required to provide the same continuous eligibility and extended postpartum period for pregnant individuals in its separate CHIP. A separate CHIP cannot implement this option if not also elected under the Medicaid state plan.

State elected the Medicaid option to provide continuous eligibility through the 12- month postpartum period

Mandatory Continuous Eligibility for Children

The CHIP Agency must provide that children who have been determined eligible under the state plan shall remain eligible, regardless of any changes in the family's circumstances, for a 12-month continuous eligibility period.

☐ Consistent with section 2107(e)(1)(K) of the SSA, the state assures that continuous eligibility is provided to its targeted low-income children for a duration of 12 months, regardless of any changes in circumstances, unless:

- ☒ The child attains age 19.
- ☒ The child or child's representative requests voluntary disenrollment.
- ☒ The child is no longer a resident of the state.
- ☒ The Agency determines that eligibility was erroneously granted at the most recent determination or renewal of eligibility because of Agency error or fraud, abuse, or perjury attributed to child or child's representative.
- ☒ The child dies.
- ☒ The child becomes eligible for Medicaid.

The state elects to provide coverage to the from-conception-to-end-of-pregnancy (FCEP) population (otherwise known as the "unborn").

Yes

☒ The state assures continuous eligibility for the FCEP population is provided in the same manner as continuous eligibility for other targeted low-income children, except for the duration of the continuous eligibility period.

The duration of continuous eligibility for the FCEP population depends on whether a state enrolls the birthing parent into Medicaid for coverage of labor and delivery or pays for the delivery under CHIP. The state conducts at least one of the following actions upon birth of the child:

CHIP pays for labor and delivery and the state screens the child for potential eligibility for Medicaid.

No
