MAGI Eligibility & Methods:

SPA number MN 13-0006 provides assurance on page CS15 that the state will apply methodologies based on MAGI for all separate CHIP covered groups; and, using the approved MAGI conversion plan income thresholds, the state indicates on page CS9 that it will cover children from conception to birth when the mother is not eligible for Medicaid. A copy of the approved CS15 is attached and should be incorporated within a separate subsection under Section 4.3 of the state's approved CHIP state plan. A copy of the approved CS9 is attached and supersedes the current Geographic Area, Age and Income Sections 4.1.1, 4.1.2 and 4.1.3 of the current CHIP state plan.

XXI Medicaid Expansion

SPA number MN-13-0007 converts the state's existing income eligibility standards to modified adjusted gross income (MAGI)-equivalent standards, by age group, for children covered in its title XXI-funded Medicaid program. A copy of the approved state plan page (CS3) is attached, and should be incorporated into the state's approved CHIP state plan. This page supersedes the current Medicaid expansion Section (4.0) of the current CHIP state plan.

Establish 2101(f) Group:

SPA number MN-13-0008 describes the state's plan to provide coverage in its separate CHIP, as specified in the state's submission of CS14: Children Ineligible for Medicaid as a Result of the Elimination of Income Disregards. A copy of the approved state plan page (CS14) is attached, and should be incorporated within a separate subsection under Section 4.1 of Minnesota's approved CHIP state plan.

CHIP Eligibility

Child Health Insurance Program Eligibility - Children Ineligible for Medicaid as a Result of the Elimination of Income Disregards CS14

Section 2101(f) of the ACA and 42 CFR 457.310(d)

Children Ineligible for Medicaid as a Result of the Elimination of Income Disregards

The CHIP agency provides coverage for this group of children as follows:

The state has received approval from CMS to maintain Medicaid eligibility for children who would otherwise be subject to Section 2101(f) such that no child in the state will be subject to this provision.

The state assures that separate CHIP coverage will be provided for children ineligible for Medicaid due to the elimination of income disregards in accordance with 42 CFR 457.310(d). Coverage for this population will cease when the last child protected from loss of Medicaid coverage as a result of the elimination of income disregards has been afforded 12 months of coverage in a separate CHIP (expected to be no later than April 1, 2016).

Describe the methodology used by the state to identify and enroll children in a separate CHIP who are subject to the protection afforded by Section 2101(f) of the Affordable Care Act:

The state has demonstrated and CMS has agreed that all children qualifying for section 2101(f) protection will qualify for the state's existing separate CHIP.

The state will enroll all children in a separate CHIP who lose Medicaid eligibility because of an increase in family income at their first renewal applying MAGI methods.

The state will enroll children in a separate CHIP whose family income falls above the converted MAGI Medicaid FPL but at or below the following percentage of FPL. The state has demonstrated and CMS has agreed that all or almost all the children who would have maintained Medicaid eligibility if former disregards were applied will be within this income range and therefore covered in the separate CHIP.

% FPL

The state will enroll children in a separate CHIP who are found to be ineligible for Medicaid based on MAGI but whose family income has not increased since the child's last determination of Medicaid eligibility or who would have remained eligible for Medicaid (based on the 2013 Medicaid income standard) if the value of their 2013 disregards had been applied to the family income as determined by MAGI methodology.

Other.

The state will identify children protected by Section 2101(f) and enroll such children in a separate CHIP based on the following methodology and procedures as approved by CMS.

Until 1/1/2014, the state covered children age two up to age 19 under the Medicaid State Plan with a net income test up to 150% of the federal poverty level, and children under a Medicaid section 1115 waiver program with family gross income up to 275% of poverty. Because the Medicaid-elected income standard for children under age 19 will be 275 % of the federal poverty level on 1/1/2014, it is anticipated that the elimination of income disregards will affect very few children. At renewal or redetermination of Medicaid eligibility, workers will be instructed before terminating children to evaluate whether family income might have been reduced below 275% by earned income disregards, and other larger amounts such as child support paid or multiple children with child care expenses.

CHIP Eligibility

Describe the benefits provided to this population:

- This population will be provided the same benefits as are provided to children in the state's Medicaid program.
- This population will be provided the same benefits as are provided to children in the state's separate CHIP.
- Other (consistent with Section 2103 of the SSA and 42 CFR 457 Subpart D).

Describe premiums and cost sharing required of this population:

- Cost sharing is the same as for children in the Medicaid program.
- Premiums and cost sharing are the same as for targeted low-income children in the state's separate CHIP.
- No premiums, copayments, deductibles, coinsurance or other cost sharing is required.
- Other premiums and/or cost-sharing requirements (consistent with Section 2103(e) of the SSA and 42 CFR 457 Subpart E).
