Suzanne Bierman
Medicaid Administrator
Division of Health Care Financing and Policy
Las Vegas Medicaid District Office
1210 S. Valley View, Suite 104
Las Vegas, NV 89102

Dear Ms. Bierman:

Your title XXI Children's Health Insurance Program (CHIP) state plan amendment (SPA), NV-20-0007, submitted on May 12, 2020, has been approved. This SPA updates state plan language related to the carve out of ground emergency medical transportation services from the managed care organization contracts. These benefits will now be provided on a fee-for-service basis. This SPA has an effective date of April 1, 2020. Medicaid SPA NV-20-0006, approved on June 29, 2020, implements the same policy in that program.

Your title XXI project officer is Ms. Joyce Jordan. She is available to answer questions concerning this amendment and other CHIP-related issues. Her contact information is as follows:

Centers for Medicare & Medicaid Services
Center for Medicaid and CHIP Services
Mail Stop: S2-01-16
7500 Security Boulevard
Baltimore, MD 21244-1850
Telephone: (410) 786-3413
E-mail: Joyce.Jordan@cms.hhs.gov

If you have additional questions, please contact Meg Barry, Acting Director, Division of State Coverage Programs at (410) 786-1536. We look forward to continuing to work with you and your staff.

Sincerely,

/signed Amy Lutzky/

Amy Lutzky
Acting Deputy Director

Section 3. Methods of Delivery and Utilization Controls

- Check here if the State elects to use funds provided under Title XXI only to provide expanded eligibility under the State’s Medicaid plan, and continue on to Section 4 (Eligibility Standards and Methodology).

Guidance: In Section 3.1, describe all delivery methods the State will use to provide services to enrollees, including: (1) contracts with managed care organizations (MCO), prepaid inpatient health plans (PIHP), prepaid ambulatory health plans (PAHP), primary care case management entities (PCCM entities), and primary care case managers (PCCM); (2) contracts with indemnity health insurance plans; (3) fee-for-service (FFS) paid by the State to health care providers; and (4) any other arrangements for health care delivery. The State should describe any variations based upon geography and by population (including the conception to birth population). States must submit the managed care contract(s) to CMS’ Regional Office for review.

3.1. Delivery Systems (Section 2102(a)(4)) (42 CFR 457.490; Part 457, Subpart L)

3.1.1 Choice of Delivery System

3.1.1.1 Does the State use a managed care delivery system for its CHIP populations? Managed care entities include MCOs, PIHPs, PAHPs, PCCM entities and PCCMs as defined in 42 CFR 457.10. Please check the box and answer the questions below that apply to your State.

- No, the State does not use a managed care delivery system for any CHIP populations.
- Yes, the State uses a managed care delivery system for all CHIP populations.
- Yes, the State uses a managed care delivery system; however, only some of the CHIP population is included in the managed care delivery system and some of the CHIP population is included in a fee-for-service system.

If the State uses a managed care delivery system for only some of its CHIP populations and a fee-for-service system for some of its CHIP populations, please describe which populations are, and which are not, included in the State’s managed care delivery system for CHIP. States will be asked to specify which managed care entities are used by the State in its managed care delivery system below in Section 3.1.2. Chip eligible members that reside in urban Washoe or Clark counties are mandatorily enrolled into one of three contracted MCOs, and a dental PAHP.

Guidance: Utilization control systems are those administrative mechanisms that are designed to ensure that enrollees receiving health care services under the State plan receive only appropriate and medically necessary health care consistent with the benefit package.

Examples of utilization control systems include but are not limited to: requirements for referrals to specialty care; requirements that clinicians use clinical practice guidelines; or demand management systems (e.g., use of an 800 number for after-hours and urgent care). In addition, the State should describe its plans for review, coordination, and implementation of utilization controls, addressing both procedures and State developed standards for review, in order to assure that necessary care is delivered in a cost-effective and efficient manner. (42 CFR 457.490(b))

If the State does not use a managed care delivery system for any or some of its CHIP populations, describe the methods of delivery of the child health assistance using Title XXI funds to targeted low-income children. Include a description of:

- The methods for assuring delivery of the insurance products and delivery of health care services covered by such products to the enrollees, including any variations. (Section 2102(a)(4); 42 CFR 457.490(a))
- The utilization control systems designed to ensure that enrollees receiving health care services under the State plan receive only appropriate and medically necessary health care consistent with the benefit package described in the approved State plan. (Section 2102(a)(4); 42 CFR 457.490(b))

Guidance: Only States that use a managed care delivery system for all or some CHIP populations need to answer the remaining questions under Section 3 (starting with 3.1.1.2). If the State uses a managed care delivery system for only some of its CHIP population, the State’s responses to the following questions will only apply to those populations.

3.1.1.2 Do any of your CHIP populations that receive services through a managed care delivery system receive any services outside of a managed care delivery system?

- No
 Yes

If yes, please describe which services are carved out of your managed care delivery system and how the State provides these services to an enrollee, such as through fee-for-service. Examples of carved out services may include transportation and dental, among others.

The following services are carved out of the MCO contracts: dental services provided under a contract PAHP vendor, non-emergency transportation (NET), ground emergency medical transportation (GEMT), school-based child health services, intermediate care facility for individuals with intellectual disabilities, targeted case management, skilled nursing facility benefits after 45 days, swing bed stays in an acute hospital over 45 days, hospice and orthodontic services. The State elects to provide these services to enrollees through fee-for-service.

3.1.2 Use of a Managed Care Delivery System for All or Some of the State’s CHIP Populations

3.1.2.1 Check each of the types of entities below that the State will contract with under its managed care delivery system, and select and/or explain the method(s) of payment that the State will use:

- Managed care organization (MCO) (42 CFR 457.10)
 - Capitation payment risk adjusted per member per month capitation payment.
Describe population served: Nevada Check Up/CHIP members residing in urban Washoe and Clark counties.
- Prepaid inpatient health plan (PIHP) (42 CFR 457.10)
 - Capitation payment
 - Other (please explain)
Describe population served:

Guidance: If the State uses prepaid ambulatory health plan(s) (PAHP) to exclusively provide non-emergency medical transportation (a NEMT PAHP), the State should not check the following box for that plan. Instead, complete section 3.1.3 for the NEMT PAHP.

- Prepaid ambulatory health plan (PAHP) (42 CFR 457.10)
 - Capitation payment risk adjusted per member per month capitation payment.
 - Other (please explain)
Describe population served:
- Primary care case manager (PCCM) (individual practitioners) (42 CFR 457.10)
 - Case management fee
 - Other (please explain)
- Primary care case management entity (PCCM Entity) (42 CFR 457.10)
 - Case management fee
 - Shared savings, incentive payments, and/or other financial rewards for improved quality outcomes (see 42 CFR 457.1240(f))
 - Other (please explain)
