CHIP Disaster Relief - 4.1.9.2 Continuous Eligibility
At State discretion, temporarily provide continuous eligibility to CHIP enrollees who might otherwise have coverage terminated after a change in circumstances by waiving the following exceptions of the continuous eligibility period to align with Medicaid requirements for beneficiaries who reside and/or work in a State or Federally declared disaster area, to the end of the emergency period: b" There is a failure to pay required premiums or enrollment fees on behalf of a child, as provided for in the state plan.

CHIP Disaster Relief: - 4.3 Methodology
b" At State discretion, requirements related to timely processing of applications may be temporarily waived for CHIP applicants who reside and/or work in a State or Federally declared disaster area. b" At State discretion, requirements related to timely processing of renewals and/or deadlines for families to respond to renewal requests may be temporarily waived for CHIP beneficiaries who reside and/or work in a State or Federally declared disaster area. b" At State discretion, the State may provide for an extension of the reasonable opportunity period for non-citizens declaring to be in a satisfactory immigration status, if the non-citizen is making a good faith effort to resolve any inconsistencies or obtain any necessary documentation, or the agency is unable to complete the verification process within the 90-day reasonable opportunity period due to the State or Federally declared disaster or public health emergency. b" At State discretion, the State may temporarily delay acting on certain changes in circumstances for CHIP beneficiaries whom the state determines are impacted by a State or Federally declared disaster area such that processing the change in a timely manner is not feasible. The state will continue to act on the required changes in circumstance described in 42 CFR 457.342(a) cross-referencing 42 CFR 435.926(d).

CHIP Disaster Relief: - Section 6 Coverage Requirements for Children's Health Insurance
At the State's discretion, it may temporarily provide nonemergency transportation to CHIP enrollees who reside and/or work in a State or Federally declared disaster area. CHIP Disaster Relief - Cost Sharing and Premiums
Section 8.2.1 - At State discretion, premiums may be waived for CHIP applicants and/or beneficiaries who meet income and other eligibility requirements and who reside and/or work in a State or Federally declared disaster area for a specified period of time. Section 8.7 - Exception to Disenrollment for Failure to Pay Premiums-At State discretion, premiums may be waived for CHIP applicants and/or enrollees who meet income and other eligibility requirements and who reside and/or work in a State or Federally declared disaster area. The
premium balance will be waived if the family is determined to have been residing and/or working in a State or Federally declared disaster area on self-declared application information or other documentation provided by the family.

Enrollment and Uninsured Data

Part 1: Number of Children Enrolled in CHIP

This table is pre-filled with your SEDS data for the two most recent federal fiscal years (FFY). If the information is inaccurate, adjust your data in SEDS (go to line 7: "Unduplicated Number Ever Enrolled" in your fourth quarter SEDS report) and then refresh this page. If you're adjusting data in SEDS, allow one business day for the CARTS data below to update.

Program Outreach

1. Have you changed your outreach methods in the last federal fiscal year?

☐ Yes
☐ No

2. Are you targeting specific populations in your outreach efforts?

For example: minorities, immigrants, or children living in rural areas.

☐ Yes
☐ No

3. What methods have been most effective in reaching low-income, uninsured children?

For example: TV, school outreach, or word of mouth.

Delaware reaches its low-income/uninsured population via a combination of "Notify Me" messages posted to the Member Portal website, as well as communication posted to the DMMA website.

Eligibility, Enrollment, and Operations

Substitution of Coverage

Substitution of coverage (also known as crowd-out) occurs when someone with private insurance drops their private coverage and substitutes it with publicly funded insurance such as CHIP.

1.

Do you track the number of CHIP enrollees who have access to private insurance?

- Yes
- No
- N/A
2.
Do you match prospective CHIP enrollees to a database that details private insurance status?

○ Yes
○ No
○ N/A

5. Is there anything else you'd like to add about substitution of coverage that wasn't already covered? Did you run into any limitations when collecting data?

Renewal, Denials, and Retention

Part 1: Eligibility Renewal and Retention

1.

Does your state provide presumptive eligibility, allowing children to access CHIP services pending a final determination of eligibility?

This question should only be answered in respect to Separate CHIP.

○ Yes

● No

○ N/A

2.

In an effort to retain children in CHIP, do you conduct follow-up communication with families through caseworkers and outreach workers?

○ Yes

● No
3. Do you send renewal reminder notices to families?
   - Yes
   - No

4. What else have you done to simplify the eligibility renewal process for families?
   Some families are eligible for passive renewal, which uses data available to the agency to make eligibility determination.

5. Which retention strategies have you found to be most effective?

6. How do you measure the effectiveness of your retention strategies? What data sources and methodology do you use to track retention?
   Delaware does not track retention data.

7. Is there anything else you'd like to add that wasn't already covered?

**Part 2: CHIP Eligibility Denials (Not Redetermination)**

1. How many applicants were denied CHIP coverage in FFY 2020?
   Don't include applicants being considered for redetermination - this data will be collected in Part 3.
   12774
2.

How many applicants were denied CHIP coverage for procedural reasons?

For example: They were denied because of an incomplete application, missing documentation, or a missing enrollment fee.

11410

3.

How many applicants were denied CHIP coverage for eligibility reasons?

For example: They were denied because their income was too high or too low, they were determined eligible for Medicaid instead, or they had other coverage available.

818

3a.

How many applicants were denied CHIP (Title XXI) coverage and determined eligible for Medicaid (Title XIX) instead?

246

4.

How many applicants were denied CHIP coverage for other reasons?

546
5. Did you have any limitations in collecting this data?

No.

Part 3: Redetermination in CHIP

Redetermination is the process of redetermining whether a child is eligible to renew in CHIP (Title XXI) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1. How many children were eligible for redetermination in CHIP in FFY 2020?

8786
2. Of the eligible children, how many were then screened for redetermination?

3687

3. How many children were retained in CHIP after redetermination?

2441
4.

How many children were disenrolled in CHIP after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

**Computed: 1246**

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

886

4b.

How many children were disenrolled for eligibility reasons?

This could be due to income that was too high or too low, eligibility in Medicaid (Title XIX) instead, or access to private coverage.

258
4c.

How many children were disenrolled for other reasons?

102

5. Did you have any limitations in collecting this data?

**Part 4: Redetermination in Medicaid**

Redetermination is the process of redetermining whether a child is eligible to renew in Medicaid (Title XIX) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1. How many children were eligible for redetermination in Medicaid in FFY 2020?

   **79062**

2. Of the eligible children, how many were then screened for redetermination?

   **13137**
3.

How many children were retained in Medicaid after redetermination?

11045
4.

How many children were disenrolled in Medicaid after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

**Computed:** 2092

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

1686

4b.

How many children were disenrolled for eligibility reasons?

This could be due to an income that was too high and/or eligibility in CHIP instead.

**Part 5: Tracking a CHIP cohort (Title XXI) over 18 months**

Tracking a cohort of children enrolled in CHIP (Title XXI) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years who are newly enrolled in CHIP and/or Medicaid as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This year you'll report on the number of children at the start of the cohort (Jan - Mar 2020) and six months later (July - Sept 2020). Next year you'll report numbers for the same cohort at 12 months (Jan - Mar 2021) and 18 months later (July - Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.
Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2020. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2020 must be born after January 2004. Similarly, children who are newly enrolled in February 2020 must be born after February 2004, and children newly enrolled in March 2020 must be born after March 2004.

1. How does your state define "newly enrolled" for this cohort?

- Newly enrolled in CHIP: Children in this cohort weren't enrolled in CHIP (Title XXI) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP in December 2019.

- Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

2. Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-16 years) instead.

- Yes

- No
January - March 2020 (start of the cohort)

3.

7. How many children were no longer enrolled in CHIP six months later?
Possible reasons for no longer being enrolled:
- Transferred to another health insurance program other than CHIP
- Didn’t meet eligibility criteria anymore
- Didn’t complete documentation
- Didn’t pay a premium or enrollment fee

| Part 6: Tracking a Medicaid (Title XIX) cohort over 18 months |

Tracking a cohort of children enrolled in Medicaid (Title XIX) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years, who are newly enrolled in Medicaid and/or CHIP as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This year you'll report the number of children identified at the start of the cohort (Jan-Mar 2020) and six months later (July-Sept 2020). Next year you'll report numbers for the same cohort at 12 months (Jan-Mar 2021) and 18 months later (July-Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.

Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2020. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2020 must be born after January 2004. Similarly, children who are newly enrolled in February 2020 must be born after February 2004, and children newly enrolled in March 2020 must be born after March 2004.
1. How does your state define "newly enrolled" for this cohort?

- Newly enrolled in Medicaid: Children in this cohort weren't enrolled in Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in Medicaid in December 2019.

- Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

Cost Sharing (Out-of-Pocket Costs)

States can choose whether or not to require cost sharing in their CHIP program. Cost sharing includes payments such as enrollment fees, premiums, deductibles,
coinsurance, and copayments.

1.

Does your state require cost sharing?

- [ ] Yes
- [ ] No
2. Who tracks cost sharing to ensure families don't pay more than the 5% aggregate household income in a year?

- Families ("the shoebox method")
- Health plans
- States
- Third party administrator
- Other

3. How are healthcare providers notified that they shouldn't charge families once families have reached the 5% cap?

Since cost sharing is per family per month (PFPM), rather than per member per month, each family will pay the same amount no matter the number of children in the household. The premium rates are significantly less than those allowed by the Balance Budget Act of 1997 for premiums (see chart below). Delaware believes these levels of cost sharing are affordable but, at the same time, provide an incentive for clients to responsibly use health care services.

4. Approximately how many families exceeded the 5% cap in the last federal fiscal year?

0
5. Have you assessed the effects of charging premiums and enrollment fees on whether eligible families enroll in CHIP?

- Yes
- No

6. Have you assessed the effects of charging copayments and other out-of-pocket fees on whether enrolled families use CHIP services?

- Yes
- No

4. What safeguards and procedures are in place for the prevention, investigation, and referral of fraud and abuse cases?

Delaware Program Integrity section combines all aspects of fraud, waste and abuse prevention, investigations and referrals for both providers and recipients with Medicaid. The SUR unit does not differentiate between CHIP and Medicaid during investigations of fraud, waste and abuse audits. Therefore Delaware does not have a written plan specific to CHIP prevention, investigation and referral of cases of fraud and abuse.

**Dental Benefits**

Tell us about the children receiving dental benefits in your Separate CHIP program. Include children who are receiving full benefits and those who are only receiving supplemental dental benefits. Include the unduplicated number of children enrolled in all types of delivery systems (Managed Care, PCCM, and Fee for Service).
Note on age groups

Children should be in age groups based on their age on September 30th, the end of the federal fiscal year (FFY). For example, if a child turns three years old on September 15th, the child should be included in the "ages 3-5" group. Even if the child received dental services on September 1st while they were still two years old, all dental services should be counted as their age at the end of the FFY.

Health Services Initiative (HSI) Programs

All states with approved HSI program(s) should complete this section. States can use up to 10% of their fiscal year allotment to develop Health Services Initiatives (HSI) that provide direct services and other public health initiatives for low-income children. [See Section 2105(a)(1)(D)(ii) of the Social Security Act.] States can only develop HSI programs after funding other costs to administer their CHIP State Plan, as defined in regulations at 42 CFR 457.10.

1. Does your state operate Health Service Initiatives using CHIP (Title XXI) funds?

   Even if you're not currently operating the HSI program, if it's in your current approved CHIP State Plan, please answer "yes."

   ☐ Yes
   ☐ No

Tell us about your HSI program(s).
1. What is the name of your HSI program?

Mobile Vision Services

2. Are you currently operating the HSI program, or plan to in the future?

- Yes
- No

3. Which populations does the HSI program serve?

Uninsured children under the age of 19 who attend a Title I schools in which at least 51% of the student body receives free or reduced price meals.

4. How many children do you estimate are being served by the HSI program?

16

5. How many children in the HSI program are below your state's FPL threshold?

Computed:
Skip to the next section if you're already reporting HSI metrics and outcomes to CMS, such as in quarterly or monthly reports.

6. How do you measure the HSI program’s impact on the health of low-income children in your state? Define a metric to measure the impact.

DELAWARE MEDICAID AND MEDICAL ASSISTANCE MEASURES THE NUMBER OF UNINSURED CHILDREN THAT RECEIVE VISION SCREENINGS BY THE MOBILE VISION SERVICES, AS WELL AS THE NUMBER OF CHILDREN THAT RECEIVE GLASSES BY THE MOBILE VISION SERVICES.

7. What outcomes have you found when measuring the impact?

100% OF THE CHILDREN THAT RECEIVED VISION SCREENINGS ALSO RECEIVED GLASSES.

8. Is there anything else you’d like to add about this HSI program?

As a result of COVID-19 and remote learning, the number of children served through this school-based program has been greatly impacted.

Part 1: Tell us about your goals and objectives

Tell us about the progress you've made on your performance goals in the past year. The objectives and goals you add to this section should match those reflected in your CHIP State Plan, Section 9. Submit a CHIP State Plan Amendment (SPA) if any of them are different.

Objective 1 is required. We've provided examples for other objectives, but you can edit them so they match the objectives in your CHIP State Plan. You can add additional objectives and goals to fit what's in your CHIP State Plan.
1. Briefly describe your goal for this objective.

For example: In an effort to reduce the number of uninsured children, our goal is to enroll 90% of eligible children in the CHIP program.

1) to decrease the number of uninsured children and thereby improve their health and chances for life success; 2) to mainstream uninsured children in the health care industry so they receive the same quality of care as insured children; and 3) to go from a clinical based system (fee-for-service/sick care) to a community-based system (managed care/preventive care) which provides genuine access to high quality care.

2.

What type of goal is it?

- New goal
- Continuing goal
- Discontinued goal
Define the numerator you're measuring

3. Which population are you measuring in the numerator?

For example: The number of children enrolled in CHIP in the last federal fiscal year.

Uninsured children under 19 below 200% of the poverty line.

4.

Numerator (total number)

4000

Define the denominator you're measuring

5. Which population are you measuring in the denominator?

For example: The total number of eligible children in the last federal fiscal year.

Total number of children in system.

6.

Part 2: Additional questions

1. Do you have other strategies for measuring and reporting on your performance goals? What are these strategies, and what information have you found through this research?

2. Do you plan to add new strategies for measuring and reporting on your goals and objectives? What do you plan to do, and when will this data become available?
3. Have you conducted any focused studies on your CHIP population? (For example: studies on adolescents, attention deficit disorder, substance use, special healthcare needs, or other emerging healthcare needs.) What have you discovered through this research?

Table 3: Federal and State Shares

CHIP is funded by federal and state budgets. The federal share of funding is calculated by multiplying your state's Federal Medical Assistance Percentage (eFMAP) by your total program costs (the sum of your benefit and administrative costs). The remaining amount of your total program costs is covered by your state share of funding.

This table is auto-calculated using the data you entered above. The federal and state shares for FFY 2022 will be calculated once the eFMAP rate for 2022 becomes available. In the meantime, these values will be blank.

Challenges and Accomplishments

1. How has your state's political and fiscal environment affected your ability to provide healthcare to low-income children and families?

   Delaware's political and fiscal environment supports the Division's efforts in providing healthcare to low-income children and families.

2. What's the greatest challenge your CHIP program has faced in FFY 2020?

   The greatest challenge the CHIP program face in 2020 is the COVID-19 Public Health Emergency (PHE).
3. What are some of the greatest accomplishments your CHIP program has experienced in FFY 2020?

Delaware received approval of a COVID-19 Disaster SPA and waived CHIP Premiums for families during the COVID-19 PHE to ensure that no families would lose coverage due to an inability to pay.

4. What changes have you made to your CHIP program in FFY 2020 or plan to make in FFY 2021? Why have you decided to make these changes?

Changes in the CHIP DR SPA described earlier in the report were made during FFY 2020 and will remain until the end of the PHE. Additionally, revisions were made to the CHIP HSI to align with the Delaware Department of Education's (DDOE's) definition of low-income in its Vision Services - School-Based Initiative, and to revise the data collection process to aid in identification of uninsured children. No other changes are anticipated for FFY 2021.

5. Is there anything else you'd like to add about your state's challenges and accomplishments?

N/A
