### **Part 4: Separate CHIP Program and Policy Changes**

#### Part 1: Number of Children Enrolled in CHIP

This table is pre-filled with your SEDS data for the two most recent federal fiscal years (FFY). If the information is inaccurate, adjust your data in SEDS (go to line 7: "Unduplicated Number Ever Enrolled" in your fourth quarter SEDS report) and then refresh this page. If you're adjusting data in SEDS, allow one business day for the CARTS data below to update.

Medicaid Expansion CHIP	0	0	0%
Separate CHIP	0	0	0%

1. If you had more than a 3% percent change from last year, what are some possible reasons why your enrollment numbers changed?

#### Part 2: Number of Uninsured Children in Your State

This table is pre-filled with data on uninsured children (age 18 and under) who are below 200% of the Federal Poverty Level (FPL) based on annual estimates from the American Community Survey. Due to the impacts of the COVID-19 PHE on collection of ACS data, the 2020 children's uninsurance rates are currently unavailable. Please skip to Question 3.

### Part 2: CHIP Eligibility Denials (Not Redetermination)

1. How many applicants were denied CHIP coverage in FFY 2021?  Don't include applicants being considered for redetermination - this data will be collected in Part 3.
5483
2. How many applicants were denied CHIP coverage for procedural reasons? For example: They were denied because of an incomplete application, missing documentation, or a missing enrollment fee.
2138
3. How many applicants were denied CHIP coverage for eligibility reasons? For example: They were denied because their income was too high or too low, they were determined eligible for Medicaid instead, or they had other coverage available 2897
3a. How many applicants were denied CHIP (Title XXI) coverage and determined eligible for Medicaid (Title XIX) instead?
4. How many applicants were denied CHIP coverage for other reasons?

Denials for other reasons	8.17%

#### **Part 3: Redetermination in CHIP**

Redetermination is the process of redetermining whether a child is eligible to renew in CHIP (Title XXI) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1. How many children were eligible for redetermination in CHIP in FFY 2021?

4968

2. Of the eligible children, how many were then screened for redetermination?

4487

3. How many children were retained in CHIP after redetermination?
3762
4. How many children were disenrolled in CHIP after the redetermination process? This number should be equal to the total of 4a, 4b, and 4c below.
869
4a. How many children were disenrolled for procedural reasons? This could be due to an incomplete application, missing documentation, or a missing enrollment fee.
63
4b. How many children were disenrolled for eligibility reasons? This could be due to income that was too high or too low, eligibility in Medicaid (Title XIX) instead, or access to private coverage.
473
4c. How many children were disenrolled for other reasons?
418
5. Did you have any limitations in collecting this data?

Table: Redetermination in CHIP

These tables are auto-populated with the data you entered above.

#### **Part 4: Redetermination in Medicaid**

Redetermination is the process of redetermining whether a child is eligible to renew in Medicaid (Title XIX) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1. How many children were eligible for redetermination in Medicaid in FFY 2021?
43770
2. Of the eligible children, how many were then screened for redetermination?
40204
3. How many children were retained in Medicaid after redetermination?
40589

4. How many children were disenrolled in Medicaid after the redetermination process? This number should be equal to the total of 4a, 4b, and 4c below.
2807
4a. How many children were disenrolled for procedural reasons? This could be due to an incomplete application, missing documentation, or a missing enrollment fee.
545
4b. How many children were disenrolled for eligibility reasons? This could be due to an income that was too high and/or eligibility in CHIP instead.

Children disenrolled after redetermination	100%
Children disenrolled for procedural reasons	19.42%
Children disenrolled for eligibility reasons	87.74%
Children disenrolled for other reasons	19.31%

# Part 5: Tracking a CHIP cohort (Title XXI) over 18 months

Tracking a cohort of children enrolled in CHIP (Title XXI) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years who are newly

enrolled in CHIP and/or Medicaid as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This last year you reported on the number of children at the start of the cohort (Jan - Mar 2020) and six months later (July - Sept 2020). This year you'll report on the same cohort at 12 months (Jan - Mar 2021) and 18 months later (July - Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.

#### Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2020. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2020 must be born after January 2004. Similarly, children who are newly enrolled in February 2020 must be born after February 2004, and children newly enrolled in March 2020 must be born after March 2004.

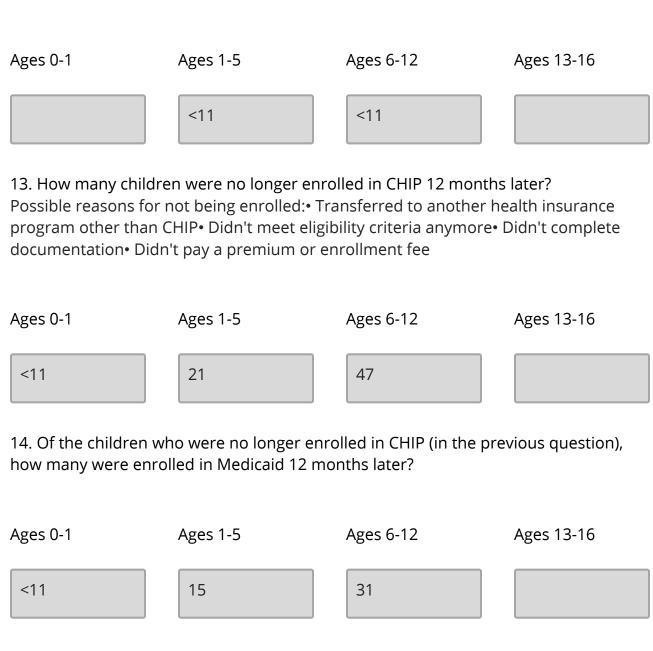

- 1. How does your state define "newly enrolled" for this cohort?
- Newly enrolled in CHIP: Children in this cohort weren't enrolled in CHIP (Title XXI) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP in December 2019.
- Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

2. Do you have data for individual age groups? If not, you'll report the total number for all age groups (0-16 years) instead.

## Part 6: Tracking a Medicaid (Title XIX) cohort over 18 months

Tracking a cohort of children enrolled in Medicaid (Title XIX) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years, who are newly enrolled in Medicaid and/or CHIP as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This last year you reported the number of children identified at the start of the cohort (Jan-Mar 2020) and six months later (July-Sept 2020). This year you'll report numbers for the same cohort at 12 months (Jan-Mar 2021) and 18 months later (July-Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.

#### Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2021. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

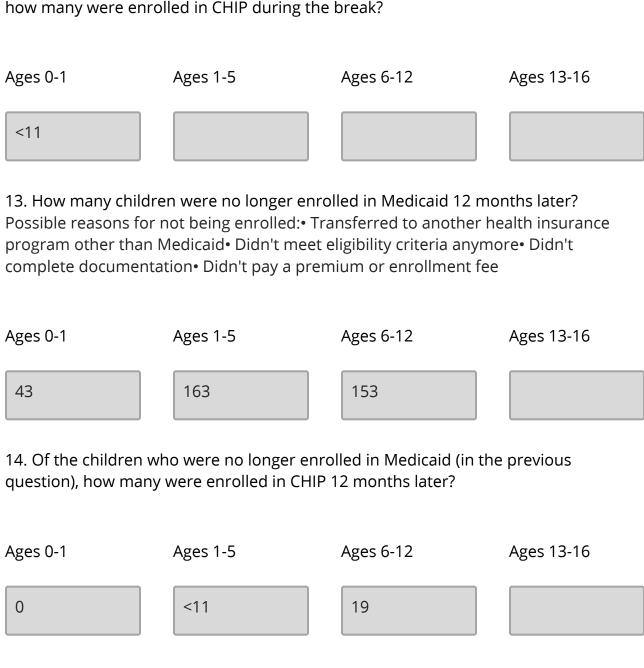

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2021 must be born after January 2004. Similarly, children who are newly enrolled in February 2021 must be born after February 2004, and children newly enrolled in March 2021 must be born after March 2004.

- 1. How does your state define "newly enrolled" for this cohort?
- Newly enrolled in Medicaid: Children in this cohort weren't enrolled in Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in Medicaid in December 2019.
- Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

18. How many children were no longer enrolled in Medicaid 18 months later? Possible reasons for not being enrolled:• Transferred to another health insurance program other than Medicaid• Didn't meet eligibility criteria anymore• Didn't complete documentation• Didn't pay a premium or enrollment fee

# **Cost Sharing (Out-of-Pocket Costs)**

States can choose whether or not to require cost sharing in their CHIP program. Cost sharing includes payments such as enrollment fees, premiums, deductibles, coinsurance, and copayments.

# **Employer Sponsored Insurance and Premium Assistance**

States with a premium assistance program can use CHIP funds to purchase coverage through employer sponsored insurance (ESI) on behalf of eligible children and parents.

1. Does your state offer ESI including a premium assistance program under	the CHI	P
State Plan or a Section 1115 Title XXI demonstration?

# **CAHPS Survey Results**

Children's Health Insurance Program Reauthorization Act (CHIPRA) requires that all CHIP programs submit survey results from the Consumer Assessment of Healthcare Providers and Systems (CAHPS). The survey assesses your CHIP program quality and customer satisfaction. For the 2021 CARTS report, we highly encourage states to report all raw CAHPS data to the Agency for Healthcare Research and Quality (AHRQ) CAHPS Database instead of reporting a summary of the data via CARTS. For 2022, the only option for reporting CAHPS results will be through the submission of raw data to ARHQ.

### **Health Services Initiative (HSI) Programs**

All states with approved HSI program(s) should complete this section. States can use up to 10% of their fiscal year allotment to develop Health Services Initiatives (HSI) that provide direct services and other public health initiatives for low-income children. [See Section 2105(a)(1)(D)(ii) of the Social Security Act.] States can only develop HSI programs after funding other costs to administer their CHIP State Plan, as defined in regulations at 42 CFR 457.10.

1. Does your state operate Health Service Initiatives using CHIP (Title XXI) funds?
Even if you're not currently operating the HSI program, if it's in your current approved
CHIP State Plan, please answer "yes."

# Part 1: Tell us about your goals and objectives

Tell us about the progress you've made on your performance goals in the past year. The objectives and goals you add to this section should match those reflected in your CHIP State Plan, Section 9. Submit a CHIP State Plan Amendment (SPA) if any of them are different. Objective 1 is required. We've provided examples for other objectives, but you can edit them so they match the objectives in your CHIP State Plan. You can add additional objectives and goals to fit what's in your CHIP State Plan.

1. Briefly describe your goal for this objective.
For example: In an effort to reduce the number of uninsured children, our goal is to enroll 90% of eligible children in the CHIP program.
Reduce the number of North Dakota children from birth to 19 years of age who are uninsured.
2. What type of goal is it?
O New goal
Continuing goal
O Discontinued goal
Define the numerator you're measuring
3. Which population are you measuring in the numerator?
For example: The number of children enrolled in CHIP in the last federal fiscal year.
The number of children from that previous year that were uninsured.
4. Numerator (total number)
5000

Define the denominator you're measuring

5. Which population are you measuring in the denominator?

For example: The total number of eligible children in the last federal fiscal year.

The number of children from the current year. No number was listed in the section this year.

Table 2: Administrative Costs

This table is auto-populated with the data you entered above. Your total administrative costs cannot be more than 10% of your total CHIP program costs (the sum of your benefit and administrative costs). The 10% administrative cap is calculated by dividing the total benefit costs by 9.

#### Table 3: Federal and State Shares

CHIP is funded by federal and state budgets. The federal share of funding is calculated by multiplying your state's Federal Medical Assistance Percentage (eFMAP) by your total program costs (the sum of your benefit and administrative costs). The remaining amount of your total program costs is covered by your state share of funding. This table is auto-calculated using the data you entered above. The federal and state shares for FFY 2023 will be calculated once the eFMAP rate for 2023 becomes available. In the meantime, these values will be blank.
