Basic State Information

Welcome!

We already have some information about your state from our records. If any information is incorrect, please contact the mdct_help@cms.hhs.gov.

1. State or territory name:
   Nevada

2. Program type:

   - Both Medicaid Expansion CHIP and Separate CHIP
   - Medicaid Expansion CHIP only
   - Separate CHIP only

3. CHIP program name(s):
   Nevada Check Up
Who should we contact if we have any questions about your report?

4. Contact name:

| Sandie Ruybalid |

5. Job title:

| Deputy Administrator |

6. Email:

| sruybalid@dhcfp.nv.gov |

7. Full mailing address:

Include city, state, and zip code.

| Nevada Department of Health and Human Services Division of Health Care Financing and Policy 1100 E. William Street, Suite 101 Carson City, NV 89701 |

8. Phone number:

| (775) 684-3676 |
PRA Disclosure Statement.

This information is being collected to assist the Centers for Medicare & Medicaid Services (CMS) in partnership with States with the ongoing management of Medicaid and CHIP programs and policies. This mandatory information collection (42 U.S.C. 1397hh) will be used to help each state meet the statutory requirements at section 2108(a) of the Social Security Act to assess the operation of the State child health plan in each Federal fiscal year and to report the results of the assessment including the progress made in reducing the number of uncovered, low-income children. Under the Privacy Act of 1974 any personally identifying information obtained will be kept private to the extent of the law. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148 (CMS-10398 #1). The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to CMS, 7500 Security Boulevard, Attn: Paperwork Reduction Act Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

Program Fees and Policy Changes

Part 1: Medicaid Expansion CHIP Enrollment Fees, Premiums, and Delivery Systems

1. Does your program charge an enrollment fee?

☐ Yes

☒ No
2. Does your program charge premiums?
   - Yes
   - No

3. Is the maximum premium a family would be charged each year tiered by FPL?
   - Yes
   - No

4. Do premiums differ for different Medicaid Expansion CHIP populations beyond FPL (for example, by eligibility group)? If so, briefly explain the fee structure breakdown.

5. Which delivery system(s) do you use?
   Select all that apply.
   - Managed Care
   - Primary Care Case Management
   - Fee for Service
6. Which delivery system(s) are available to which Medicaid Expansion CHIP populations? Indicate whether eligibility status, income level, age range, or other criteria determine which delivery system a population receives.

**Part 2: Separate CHIP Enrollment Fees, Premiums, and Delivery Systems**

1. Does your program charge an enrollment fee?
   - Yes
   - No

2. Does your program charge premiums?
   - Yes
   - No

3. Is the maximum premium a family would be charged each year tiered by FPL?
   - Yes
   - No
4. Do your premiums differ for different CHIP populations beyond FPL (for example, by eligibility group)? If so, briefly explain the fee structure breakdown.

No. The only exception is AI/AN children, they are exempt from the quarterly CHIP premiums.

5. Which delivery system(s) do you use?

Select all that apply.

- [x] Managed Care
- [ ] Primary Care Case Management
- [x] Fee for Service

6. Which delivery system(s) are available to which CHIP populations? Indicate whether eligibility status, income level, age range, or other criteria determine which delivery system a population receives.

FFS is used for those living in rural areas and MCO's are used for those living in urban areas.

**Part 3: Medicaid Expansion CHIP Program and Policy Changes**

Indicate any changes you've made to your Medicaid Expansion CHIP program policies in the past federal fiscal year. Many changes listed in this section require a State Plan Amendment (SPA), while some don't, such as changing outreach efforts or changing the health plan enrollment process. Please submit a SPA to reflect any changes that do require a SPA.
1.
Have you made any changes to the eligibility determination process?

- Yes
- No
- N/A

2.
Have you made any changes to the eligibility redetermination process?

- Yes
- No
- N/A

3.
Have you made any changes to the eligibility levels or target populations?

For example: increasing income eligibility levels.

- Yes
- No
- N/A
4. Have you made any changes to the benefits available to enrollees?  
For example: adding benefits or removing benefit limits.

- Yes
- No
- N/A

5. Have you made any changes to the single streamlined application?

- Yes
- No
- N/A
6.
Have you made any changes to your outreach efforts?
For example: allotting more or less funding for outreach, or changing your target population.

☐  Yes

☒  No

☐  N/A

7.
Have you made any changes to the delivery system(s)?
For example: transitioning from Fee for Service to Managed Care for different Medicaid Expansion CHIP populations.

☐  Yes

☐  No

☐  N/A
8. Have you made any changes to your cost sharing requirements? For example: changing amounts, populations, or the collection process.

- Yes
- No
- N/A

9. Have you made any changes to the substitution of coverage policies? For example: removing a waiting period.

- Yes
- No
- N/A

10. Have you made any changes to the enrollment process for health plan selection?

- Yes
- No
- N/A
11. Have you made any changes to the protections for applicants and enrollees?
   For example: changing from the Medicaid Fair Hearing process to the review process used by all health insurance issuers statewide.
   ○ Yes
   ○ No
   ○ N/A

12. Have you made any changes to premium assistance?
   For example: adding premium assistance or changing the population that receives premium assistance.
   ○ Yes
   ○ No
   ○ N/A
13. Have you made any changes to the methods and procedures for preventing, investigating, or referring fraud or abuse cases?

- Yes
- No
- N/A

14. Have you made any changes to eligibility for "lawfully residing" pregnant women?

- Yes
- No
- N/A

15. Have you made any changes to eligibility for "lawfully residing" children?

- Yes
- No
- N/A
16. Have you made changes to any other policy or program areas?

- Yes
- No
- N/A

17. Briefly describe why you made these changes to your Medicaid Expansion CHIP program.

In response to the COVID-19 Public Health Emergency (PHE) a CHIP Disaster Relief SPA was submitted and approved on 6/4/2020. The SPA authorized the State to make changes to delay processing of renewals and extend deadlines for families to respond to renewal requests, waive the collection of premiums, suspend the premium lock-out policy, and conduct tribal consultation subsequent to the submission of the SPA, as permitted under Section 1135 of the Social Security Act. The PHE is currently ongoing as a 90 day extension was granted on October 15th, 2021.

18. Have you already submitted a State Plan Amendment (SPA) to reflect any changes that require a SPA?

- Yes
- No
- N/A
Part 4: Separate CHIP Program and Policy Changes

Indicate any changes you've made to your Separate CHIP program and policies in the past federal fiscal year. Many changes listed in this section require a State Plan Amendment (SPA), while some don't, such as changing outreach efforts or changing the health plan enrollment process. Please submit a SPA to reflect any changes that do require a SPA.

1.
Have you made any changes to the eligibility determination process?

- [ ] Yes
- [ ] No
- [ ] N/A

2.
Have you made any changes to the eligibility redetermination process?

- [x] Yes
- [ ] No
- [ ] N/A
3. Have you made any changes to the eligibility levels or target populations?
   For example: increasing income eligibility levels.
   
   • Yes
   • No
   • N/A

4. Have you made any changes to the benefits available to enrollees?
   For example: adding benefits or removing benefit limits.
   
   • Yes
   • No
   • N/A

5. Have you made any changes to the single streamlined application?
   
   • Yes
   • No
   • N/A
6.

Have you made any changes to your outreach efforts?

For example: allotting more or less funding for outreach, or changing your target population.

○ Yes
○ No
○ N/A

7.

Have you made any changes to the delivery system(s)?

For example: transitioning from Fee for Service to Managed Care for different Separate CHIP populations.

○ Yes
○ No
○ N/A
8.
Have you made any changes to your cost sharing requirements?
For example: changing amounts, populations, or the collection process.

- Yes
- No
- N/A

9.
Have you made any changes to substitution of coverage policies?
For example: removing a waiting period.

- Yes
- No
- N/A

10.
Have you made any changes to an enrollment freeze and/or enrollment cap?

- Yes
- No
- N/A
11.
Have you made any changes to the enrollment process for health plan selection?

- Yes
- No
- N/A

12.
Have you made any changes to the protections for applicants and enrollees?

For example: changing from the Medicaid Fair Hearing process to the review process used by all health insurance issuers statewide.

- Yes
- No
- N/A
13.

Have you made any changes to premium assistance?

For example: adding premium assistance or changing the population that receives premium assistance.

○ Yes

○ No

○ N/A

14.

Have you made any changes to the methods and procedures for preventing, investigating, or referring fraud or abuse cases?

○ Yes

○ No

○ N/A
15. Have you made any changes to your conception to birth expansion (as described in the October 2, 2002 final rule)?
For example: expanding eligibility or changing this population's benefit package.

- Yes
- No
- N/A

16. Have you made any changes to your Pregnant Women State Plan expansion?
For example: expanding eligibility or changing this population's benefit package.

- Yes
- No
- N/A
17. Have you made any changes to eligibility for "lawfully residing" pregnant women?

- Yes
- No
- N/A

18. Have you made any changes to eligibility for "lawfully residing" children?

- Yes
- No
- N/A

19. Have you made changes to any other policy or program areas?

- Yes
- No
- N/A
20.

Have you already submitted a State Plan Amendment (SPA) to reflect any changes that require a SPA?

☐ Yes

☐ No

21. Briefly describe why you made these changes to your Separate CHIP program.

In response to the COVID-19 Public Health Emergency (PHE) a CHIP Disaster Relief SPA was submitted and approved on 6/4/2020. The SPA authorized the State to make changes to delay processing of renewals and extend deadlines for families to respond to renewal requests, waive the collection of premiums, suspend the premium lock-out policy, and conduct tribal consultation subsequent to the submission of the SPA, as permitted under Section 1135 of the Social Security Act. The PHE is currently ongoing as a 90-day extension was granted on October 15th, 2021.

Enrollment and Uninsured Data

Part 1: Number of Children Enrolled in CHIP

This table is pre-filled with your SEDS data for the two most recent federal fiscal years (FFY). If the information is inaccurate, adjust your data in SEDS (go to line 7: "Unduplicated Number Ever Enrolled" in your fourth quarter SEDS report) and then refresh this page. If you're adjusting data in SEDS, allow one business day for the CARTS data below to update.
<table>
<thead>
<tr>
<th>Program</th>
<th>Number of children enrolled in FFY 2020</th>
<th>Number of children enrolled in FFY 2021</th>
<th>Percent change</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medicaid Expansion CHIP</td>
<td>23,165</td>
<td>75,759</td>
<td>227.041%</td>
</tr>
<tr>
<td>Separate CHIP</td>
<td>42,667</td>
<td>108,116</td>
<td>153.395%</td>
</tr>
</tbody>
</table>

1. If you had more than a 3% percent change from last year, what are some possible reasons why your enrollment numbers changed?

With unemployment rates spiking and the economy seeing a downturn, during the pandemic and since, we have seen an increase in eligible participants to CHIP and children enrolled in the Medicaid Expansion program. Additionally, the Division of Welfare and Supportive Services has suspended regular enrollee recertification due to the COVID crisis which has also contributed to the increase in enrollment for both programs. At this time there is no estimated return to the regular recertification process in the immediate future.

Part 2: Number of Uninsured Children in Your State

This table is pre-filled with data on uninsured children (age 18 and under) who are below 200% of the Federal Poverty Level (FPL) based on annual estimates from the American Community Survey. Due to the impacts of the COVID-19 PHE on collection of ACS data, the 2020 children's uninsurance rates are currently unavailable. Please skip to Question 3.
<table>

**Percent change between 2019 and 2020**

Not Available

1. What are some reasons why the number and/or percent of uninsured children has changed?
2. Are there any reasons why the American Community Survey estimates wouldn't be a precise representation of the actual number of uninsured children in your state?

☐ Yes

☐ No

3. Do you have any alternate data source(s) or methodology for measuring the number and/or percent of uninsured children in your state?

☐ Yes

☐ No

4. Is there anything else you'd like to add about your enrollment and uninsured data?

No.

5. Optional: Attach any additional documents here.

Click Choose Files and make your selection(s) then click Upload to attach your files. Click View Uploaded to see a list of all files attached here.

Files must be in one of these formats: PDF, Word, Excel, or a valid image (jpg or png)
Eligibility, Enrollment, and Operations

Program Outreach

1. Have you changed your outreach methods in the last federal fiscal year?
   
   - Yes
   
   - No

2. Are you targeting specific populations in your outreach efforts?
   
   For example: minorities, immigrants, or children living in rural areas.
   
   - Yes
   
   - No
3. What methods have been most effective in reaching low-income, uninsured children?

For example: TV, school outreach, or word of mouth.

The Abbi Agency and Nevada Health Link (NVHL) have worked diligently to reach uninsured children and their caregivers to ensure that they have the opportunity to access quality, affordable insurance offered through Nevada Health Link. In particular, NVHL partnered with community organizations to sponsor and/or participate in community events designed to reach children in our target demographics, with a specific emphasis on milestone moments for children throughout the year, including Back-to-School and Halloween events. Some examples of this outreach include: Family Health Festivals organized by Northern Nevada Food Bank, City of North Las Vegas Movie Madness series, Toy Drive with Las Vegas Councilmember Olivia Diaz Ward 5 (Las Vegas) Summer Splash Nevada Partners Back to School Fair Washoe County Sheriff's Department Christmas in July Back to School event Back to School Backpack Giveaway with Las Vegas Councilmember William McCurdy. Las Vegas PBS 'Be My Neighbor' Day. Nevada Health Link closely tracks the estimated number of event attendees as well as the number of interactions that our Navigators have with event attendees. Through our community event outreach we have spread our message to tens of thousands of Nevadans.

4. Is there anything else you'd like to add about your outreach efforts?

Nevada Health Link has had strong success reaching the uninsured populations throughout the state. During the Open Enrollment Period and Special Enrollment Periods covered in this time frame, Nevada Health Link enrolled nearly 90,000 Nevadans in coverage.
5.

---

**Eligibility, Enrollment, and Operations**

**Substitution of Coverage**

Substitution of coverage (also known as crowd-out) occurs when someone with private insurance drops their private coverage and substitutes it with publicly funded insurance such as CHIP.

1.

Do you track the number of CHIP enrollees who have access to private insurance?

- [ ] Yes
- [x] No
- [ ] N/A
2. Do you match prospective CHIP enrollees to a database that details private insurance status?

- Yes
- No
- N/A

5. Is there anything else you'd like to add about substitution of coverage that wasn't already covered? Did you run into any limitations when collecting data?

No

Click Choose Files and make your selection(s) then click Upload to attach your files. Click View Uploaded to see a list of all files attached here.

Files must be in one of these formats: PDF, Word, Excel, or a valid image (jpg or png)
Eligibility, Enrollment, and Operations

Renewal, Denials, and Retention

Part 1: Eligibility Renewal and Retention

1. Does your state provide presumptive eligibility, allowing children to access CHIP services pending a final determination of eligibility?
   
   This question should only be answered in respect to Separate CHIP.

   - [ ] Yes
   - [x] No
   - [ ] N/A

2. In an effort to retain children in CHIP, do you conduct follow-up communication with families through caseworkers and outreach workers?

   - [ ] Yes
   - [x] No
3. Do you send renewal reminder notices to families?

- Yes
- No

4. What else have you done to simplify the eligibility renewal process for families?

Enrollees can create an Access Nevada account online, where they can review an electronic version of their annual redetermination. Requested documentation can be submitted electronically, which has streamlined the application and renewal process. Also, if an enrollee elects electronic communications, they can receive emails or text messages notifying them that there is information regarding their annual redetermination to review in their Access Nevada account.

5. Which retention strategies have you found to be most effective?

6. How do you measure the effectiveness of your retention strategies? What data sources and methodology do you use to track retention?

This data is not tracked

7. Is there anything else you'd like to add that wasn't already covered?

Managed Care enrollees are contacted by telephone to remind them to complete their annual redetermination.
Part 2: CHIP Eligibility Denials (Not Redetermination)

1. How many applicants were denied CHIP coverage in FFY 2021?

Don't include applicants being considered for redetermination - this data will be collected in Part 3.

17099

2. How many applicants were denied CHIP coverage for procedural reasons?

For example: They were denied because of an incomplete application, missing documentation, or a missing enrollment fee.
3.

How many applicants were denied CHIP coverage for eligibility reasons?

For example: They were denied because their income was too high or too low, they were determined eligible for Medicaid instead, or they had other coverage available.

3a.

How many applicants were denied CHIP (Title XXI) coverage and determined eligible for Medicaid (Title XIX) instead?

4.

How many applicants were denied CHIP coverage for other reasons?
5. Did you have any limitations in collecting this data?

The DWSS does not track procedural and/or eligibility denials separately, so this data cannot be extrapolated. Also, because the Division uses a single streamlined application to determine eligibility, the system does not recognize any application as just CHIP. The household would apply for family medical and then eligibility is determined via an eligibility trickle-down. Because CHIP is the last category on the trickle-down, an applicant would not be denied title XXI and enrolled in XIX. The applicant would be evaluated under XIX first and if ineligible, evaluated for XXI.

Table: CHIP Eligibility Denials (Not Redetermination)

This table is auto-populated with the data you entered above.

</tbody>
</table>

**Part 3: Redetermination in CHIP**

Redetermination is the process of redetermining whether a child is eligible to renew in CHIP (Title XXI) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).
1. How many children were eligible for redetermination in CHIP in FFY 2021?

2. Of the eligible children, how many were then screened for redetermination?

3. How many children were retained in CHIP after redetermination?
4.

How many children were disenrolled in CHIP after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

Computed:

4a.

How many children were disenrolled for procedural reasons?

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

4b.

How many children were disenrolled for eligibility reasons?

This could be due to income that was too high or too low, eligibility in Medicaid (Title XIX) instead, or access to private coverage.
4c.

How many children were disenrolled for other reasons?

5. Did you have any limitations in collecting this data?

The DWSS does not have a system indicator that separates RD's from initial applications; therefore, this data cannot be extrapolated.

Table: Redetermination in CHIP

These tables are auto-populated with the data you entered above.

**Part 4: Redetermination in Medicaid**

Redetermination is the process of redetermining whether a child is eligible to renew in Medicaid (Title XIX) every 12 months. This section doesn't apply to any mid-year changes in circumstances that may affect eligibility (for example: income, relocation, or aging out of the program).

1. How many children were eligible for redetermination in Medicaid in FFY 2021?

2. Of the eligible children, how many were then screened for redetermination?
3.

How many children were retained in Medicaid after redetermination?
4.

How many children were disenrolled in Medicaid after the redetermination process?

This number should be equal to the total of 4a, 4b, and 4c below.

**Computed:**

4a.

**How many children were disenrolled for procedural reasons?**

This could be due to an incomplete application, missing documentation, or a missing enrollment fee.

4b.

**How many children were disenrolled for eligibility reasons?**

This could be due to an income that was too high and/or eligibility in CHIP instead.
4c.

How many children were disenrolled for other reasons?

5. Did you have any limitations in collecting this data?

**Part 5: Tracking a CHIP cohort (Title XXI) over 18 months**

Tracking a cohort of children enrolled in CHIP (Title XXI) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years who are newly enrolled in CHIP and/or Medicaid as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This last year you reported on the number of children at the start of the cohort (Jan - Mar 2020) and six months later (July - Sept 2020). This year you'll report on the same cohort at 12 months (Jan - Mar 2021) and 18 months later (July - Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.
Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2020. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2020 must be born after January 2004. Similarly, children who are newly enrolled in February 2020 must be born after February 2004, and children newly enrolled in March 2020 must be born after March 2004.

1. How does your state define "newly enrolled" for this cohort?

- Newly enrolled in CHIP: Children in this cohort weren't enrolled in CHIP (Title XXI) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP in December 2019.

- Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

2. Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-16 years) instead.

- Yes
- No

You completed this section in your 2020 CARTS Report. Please refer to that report to assist in filling out this section if needed.

3.

How many children were newly enrolled in CHIP between January and March 2020?

<table>
<thead>
<tr>
<th>Ages</th>
<th>Counts</th>
</tr>
</thead>
<tbody>
<tr>
<td>0-1</td>
<td>88</td>

20. Is there anything else you'd like to add about your data?

See technical notes.

**Part 6: Tracking a Medicaid (Title XIX) cohort over 18 months**

Tracking a cohort of children enrolled in Medicaid (Title XIX) will indicate how long a specific group of children stays enrolled over an 18-month period. This information is required by Section 402(a) of CHIPRA.

To track your cohort, identify a group of children ages 0 to 16 years, who are newly enrolled in Medicaid and/or CHIP as of January through March 2020 (the second quarter of FFY 2020). Children in this cohort must be 16 years and 0 months or younger when they enroll to ensure they don't age out of the program by the end of the 18-month tracking period.

You'll identify a new cohort every two years. This last year you reported the number of children identified at the start of the cohort (Jan-Mar 2020) and six months later (July-Sept 2020). This year you'll report numbers for the same cohort at 12 months (Jan-Mar 2021) and 18 months later (July-Sept 2021). If data is unknown or unavailable, leave it blank - don't enter a zero unless the data is known to be zero.
Helpful hints on age groups

Children should be in age groups based on their age at the start of the cohort, when they're identified as newly enrolled in January, February, or March of 2021. For example, if a child is four years old when they're newly enrolled, they should continue to be reported in the "ages 1-5" group at 6 months, 12 months, and 18 months later.

The oldest children in the cohort must be no older than 16 years (and 0 months) to ensure they don't age out of the program at the end of the 18-month tracking period. That means children in the "ages 13-16" group who are newly enrolled in January 2021 must be born after January 2004. Similarly, children who are newly enrolled in February 2021 must be born after February 2004, and children newly enrolled in March 2021 must be born after March 2004.

1.

How does your state define "newly enrolled" for this cohort?

- Newly enrolled in Medicaid: Children in this cohort weren't enrolled in Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in Medicaid in December 2019.

- Newly enrolled in CHIP and Medicaid: Children in this cohort weren't enrolled in CHIP (Title XXI) or Medicaid (Title XIX) during the previous month. For example: Newly enrolled children in January 2020 weren't enrolled in CHIP or Medicaid in December 2019.

2.

Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-16 years) instead.

- Yes

- No
### January - March 2020 (start of the cohort): included in 2020 report

You completed this section in your 2020 CARTS Report. Please refer to that report to assist in filling out this section if needed.

20. Is there anything else you’d like to add about your data?

Technical Notes: The Division of Health Care Financing and Policy (DHCFP) data warehouse is comprised of claims data submitted by over 35,000 Medicaid providers from within Nevada and across the country. While DHCFP staff conscientiously make every effort to validate these data through continuous provider education and the use of highly experienced audit staff, the Division relies heavily on providers to submit accurate and complete information on Medicaid patients. It should therefore be understood by the users of DHCFP reports on disease morbidity and patient health that the data source for these reports are based solely on patient claims data and may not be a complete and comprehensive health record. The data for this report is procured from databases that are currently being modernized from their legacy versions. Considering the unpredictable technical challenges that may arise during the migration of data from legacy to modernized versions of the databases, it is advised to use the data with caution. Due to changes in methodology, rates for subgroups published in this edition may not match or be directly comparable to past years, and should be used with caution when compared to other published rates. Monthly enrollment data for this reporting was gathered from Nevada Medicaid Data Warehouse DSS. Nevada Medicaid and Nevada Check Up enrollees are included. Medicaid and Nevada Check Up were defined using the benefit plan field. The report was produced to report each individual month an enrollee is covered. Nevada Medicaid enrollment is determined on a monthly basis.
Eligibility, Enrollment, and Operations

Cost Sharing (Out-of-Pocket Costs)

States can choose whether or not to require cost sharing in their CHIP program. Cost sharing includes payments such as enrollment fees, premiums, deductibles, coinsurance, and copayments.

1.

Does your state require cost sharing?

☐ Yes

☐ No
2. Who tracks cost sharing to ensure families don't pay more than the 5% aggregate household income in a year?

- Families ("the shoebox method")
- Health plans
- States
- Third party administrator
- Other

3. How are healthcare providers notified that they shouldn't charge families once families have reached the 5% cap?

Nevada's State Plan only charges premiums (no co-pays or deductibles), so the providers are not allowed to collect any payment from enrollees as stated on the provider contract policies.

4. Approximately how many families exceeded the 5% cap in the last federal fiscal year?

0
5.

Have you assessed the effects of charging premiums and enrollment fees on whether eligible families enroll in CHIP?

- Yes
- No

6.

Have you assessed the effects of charging copayments and other out-of-pocket fees on whether enrolled families use CHIP services?

- Yes
- No

7. You indicated in Section 1 that you changed your cost sharing requirements in the past federal fiscal year. How are you monitoring the impact of these changes on whether families apply, enroll, disenroll, and use CHIP health services? What have you found when monitoring the impact?

Terminations for non-payment of premium has been suspended for the duration of the Public Health Emergency (PHE) due to COVID-19. A 90-day extension of the PHE was authorized on 10/15/2021. By suspending terminations for non-payment of premiums the Agency has provided continuity of care to ensure CHIP enrollees received all necessary health care services during the PHE.

8. Is there anything else you'd like to add that wasn't already covered?
Optional: Attach any additional documents here.

Eligibility, Enrollment, and Operations

Employer Sponsored Insurance and Premium Assistance

States with a premium assistance program can use CHIP funds to purchase coverage through employer sponsored insurance (ESI) on behalf of eligible children and parents.

1.

Does your state offer ESI including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI demonstration?

☐ Yes
☐ No
Eligibility, Enrollment, and Operations

Program Integrity

States with a premium assistance program can use CHIP funds to purchase coverage through employer sponsored insurance (ESI) on behalf of eligible children and parents.

1.
Do you have a written plan with safeguards and procedures in place for the prevention of fraud and abuse cases?

☐ Yes
☐ No

2.
Do you have a written plan with safeguards and procedures in place for the investigation of fraud and abuse cases?

☐ Yes
☐ No
3.

Do you have a written plan with safeguards and procedures in place for the referral of fraud and abuse cases?

- Yes
- No
4. What safeguards and procedures are in place for the prevention, investigation, and referral of fraud and abuse cases?

Nevada Medicaid (DHCFP) Program Integrity consists of two units, Provider Enrollment (PE) and Surveillance & Utilization Review (SUR). Both use written policies and procedures that assure safeguards and methods for prevention, investigation and referral of cases of fraud, waste, abuse and improper payments (FWA). Prevention: PE uses written policies and procedures to ensure that all Affordable Care Act (ACA) initiatives, as stated in 42 CFR 455 subpart B and E for enhanced screening and disclosure information, are being completed. Measures include mandated database checks and pre-enrollment on site visits for moderate and high risk providers. The CMS Fingerprint Based Criminal Background Checks (FCBC) requirement was implemented on 7/1/2017. As a condition of new or continued enrollment, providers shall consent and submit to criminal background checks, including fingerprinting, when required to do so under State law or by the level of screening based on risk of fraud, waste or abuse as determined for the provider. All Medicaid and CHIP providers must complete these processes, regardless of whether they are providing services under fee-for-service (FFS) or solely under a Managed Care Organization (MCO). During the Public Health Emergency (PHE) and by CMS Waiver 1135, all site visits and FCBC requirements are waived. SUR likewise uses its written policies and procedures to: b” educate providers on improper billing; b” make referrals to the PE for provider terminations; b” make referrals to policy staff for policy changes or clarifications; and b” make referrals to the Business Process Management Unit (BPMU) for claims processing edits Investigation: SUR also has written policies and procedures that cover reviews of fee-for-service (FFS) claims and identifies, prevents, and recovers overpayments to providers due to fraud, waste, abuse, and improper payments. SUR conducts reviews based on tips, complaints and referrals received from various sources including the Managed Care Organizations (MCOs), recipients, providers, the general public, the Medicaid Fraud Control Unit (MFCU), and other State agencies. Data mining and analytics are also utilized to identify potential provider fraud, waste, abuse and improper payments. 4. Referral: In addition to the referrals outlined above, SUR is the point of contact for the Medicaid Fraud Control Unit (MFCU), in large part to process Credible Allegations of Fraud (CAFs). Written policies and procedures include those for CAFs within the Nevada Medicaid and CHIP programs, which are referred to SUR. When SUR identifies a CAF, a referral is sent to the MFCU. The MFCU meets monthly with SUR, and has
conducted multiple trainings regarding what they would look for in a quality CAF referral.

5.
Do the Managed Care plans contracted by your Separate CHIP program have written plans with safeguards and procedures in place?

- Yes
- No
- N/A

6.
How many eligibility denials have been appealed in a fair hearing in FFY 2021?

1964

7.
How many cases have been found in favor of the beneficiary in FFY 2021?

5
8. How many cases related to provider credentialing were investigated in FFY 2021?

0

9. How many cases related to provider credentialing were referred to appropriate law enforcement officials in FFY 2021?

0

10. How many cases related to provider billing were investigated in FFY 2021?

2353

11. How many cases were referred to appropriate law enforcement officials in FFY 2021?

50
12.
How many cases related to beneficiary eligibility were investigated in FFY 2021?

1230

13.
How many cases related to beneficiary eligibility were referred to appropriate law enforcement officials in FFY 2021?

0

14.
Does your data for Questions 8-13 include cases for CHIP only or for Medicaid and CHIP combined?

- CHIP only
- Medicaid and CHIP combined

15.
Do you rely on contractors for the prevention, investigation, and referral of fraud and abuse cases?

- Yes
- No
16.
Do you contract with Managed Care health plans and/or a third party contractor to provide this oversight?

- Yes
- No

17. Is there anything else you’d like to add that wasn’t already covered?

No.

18.

---

Eligibility, Enrollment, and Operations

Dental Benefits

Tell us about the children receiving dental benefits in your Separate CHIP program. Include children who are receiving full benefits and those who are only receiving supplemental dental benefits. Include the unduplicated number of children enrolled in all types of delivery systems (Managed Care, PCCM, and Fee for Service).
Note on age groups

Children should be in age groups based on their age on September 30th, the end of the federal fiscal year (FFY). For example, if a child turns three years old on September 15th, the child should be included in the "ages 3-5" group. Even if the child received dental services on September 1st while they were still two years old, all dental services should be counted as their age at the end of the FFY.

1. Do you have data for individual age groups?

If not, you'll report the total number for all age groups (0-18 years) instead.

- Yes
- No

2. How many children were enrolled in Separate CHIP for at least 90 continuous days during FFY 2021?

<table>
<thead>
<tr>
<th>Ages 0-1</th>

Dental care service codes and definitions

The dental service must be provided by or under the supervision of a dentist as defined by HCPCS codes D0100-D9999 (or equivalent CDT codes D0100-D9999, or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim. All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

4.

How many children (who were enrolled in Separate CHIP for at least 90 continuous days) received at least one preventative dental care service during FFY 2021?

</tr>
</tbody>
</table>

Dental treatment service codes and definitions

The dental service must be provided by or under the supervision of a dentist as defined by HCPCS codes D2000-D9999 (or equivalent CDT codes D2000-D9999 or equivalent CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services) based on an unduplicated paid, unpaid, or denied claim. All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).
6. How many children in the "ages 6-9" group received a sealant on at least one permanent molar tooth during FFY 2021?

1203

Sealant codes and definitions

The sealant on a permanent molar tooth is provided by a dental professional for whom placing a sealant is within their scope of practice. It's defined by HCPCS code D1351 (or equivalent CDT code D1351) based on an unduplicated paid, unpaid, or denied claim. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, and 31, and additionally - for states covering sealants on third molars ("wisdom teeth") - teeth numbered 1, 16, 17, and 32. All data should be based on the definitions in the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416).

7. Do you provide supplemental dental coverage?

☐ Yes

☐ No

8. Is there anything else you’d like to add about your dental benefits? If you weren't able to provide data, let us know why.
9.

**Eligibility, Enrollment, and Operations**

**CAHPS Survey Results**

Children’s Health Insurance Program Reauthorization Act (CHIPRA) requires that all CHIP programs submit survey results from the Consumer Assessment of Healthcare Providers and Systems (CAHPS). The survey assesses your CHIP program quality and customer satisfaction. For the 2021 CARTS report, we highly encourage states to report all raw CAHPS data to the Agency for Healthcare Research and Quality (AHRQ) CAHPS Database instead of reporting a summary of the data via CARTS. For 2022, the only option for reporting CAHPS results will be through the submission of raw data to ARHQ.

1.

Did you collect the CAHPS survey?

- [ ] Yes
- [ ] No

**Part 2: You collected the CAHPS survey**

Since you collected the CAHPS survey, please complete Part 2.
1. Upload a summary report of your CAHPS survey results.

This is optional if you already submitted CAHPS raw data to the AHRQ CAHPS database. Submit results only for the CHIP population, not for both Medicaid (Title XIX) and CHIP (Title XXI) together. Your data should represent children enrolled in all types of delivery systems (Managed Care, PCCM, and Fee for Service).

Click Choose Files and make your selection(s) then click Upload to attach your files. Click View Uploaded to see a list of all files attached here.
Files must be in one of these formats: PDF, Word, Excel, or a valid image (jpg or png)

2. Which CHIP population did you survey?

- Medicaid Expansion CHIP
- Separate CHIP
- Both Separate CHIP and Medicaid Expansion CHIP
- Other
3. Which version of the CAHPS survey did you use?

- [ ] CAHPS 5.0
- [x] CAHPS 5.0H
- [ ] Other

4. Which supplemental item sets did you include in your survey?
   Select all that apply.

- [ ] None
- [x] Children with Chronic Conditions
- [ ] Other

5. Which administrative protocol did you use to administer the survey?
   Select all that apply.

- [x] NCQA HEDIS CAHPS 5.0H
- [ ] HRQ CAHPS
- [ ] Other
6. Is there anything else you’d like to add about your CAHPS survey results?

Part 3: You didn't collect the CAHPS survey

Eligibility, Enrollment, and Operations

Health Services Initiative (HSI) Programs

All states with approved HSI program(s) should complete this section. States can use up to 10% of their fiscal year allotment to develop Health Services Initiatives (HSI) that provide direct services and other public health initiatives for low-income children. [See Section 2105(a)(1)(D)(ii) of the Social Security Act.] States can only develop HSI programs after funding other costs to administer their CHIP State Plan, as defined in regulations at 42 CFR 457.10.

1.

Does your state operate Health Service Initiatives using CHIP (Title XXI) funds?

Even if you’re not currently operating the HSI program, if it’s in your current approved CHIP State Plan, please answer "yes."

- Yes
- No

Tell us about your HSI program(s).
1. What is the name of your HSI program?

Resources for the Early Advancement of Child Health (REACH)

2. Are you currently operating the HSI program, or plan to in the future?

- Yes
- No

Do you have another in this list?
Optional

State Plan Goals and Objectives

Part 1: Tell us about your goals and objectives

Tell us about the progress you've made on your performance goals in the past year. The objectives and goals you add to this section should match those reflected in your CHIP State Plan, Section 9. Submit a CHIP State Plan Amendment (SPA) if any of them are different. Objective 1 is required. We've provided examples for other objectives, but you can edit them so they match the objectives in your CHIP State Plan. You can add additional objectives and goals to fit what's in your CHIP State Plan.
1. Briefly describe your goal for this objective.

For example: In an effort to reduce the number of uninsured children, our goal is to enroll 90% of eligible children in the CHIP program.

Increase the percentage of children enrolled in Nevada Check Up by 5% annually, thus decreasing overall uninsured child rates in Nevada

2.

What type of goal is it?

- New goal
- Continuing goal
- Discontinued goal
Define the numerator you're measuring

3. Which population are you measuring in the numerator?

For example: The number of children enrolled in CHIP in the last federal fiscal year.

Average monthly CHIP-NCU FFY 2021 enrollment

4.

Numerator (total number)

25725

Define the denominator you're measuring

5. Which population are you measuring in the denominator?

For example: The total number of eligible children in the last federal fiscal year.

Average monthly CHIP-NCU FFY 2020 enrollment

6.

Denominator (total number)

27095

Computed: 94.94%
7. What is the date range of your data?

**Start**
mm/yyyy

10 / 2020

**End**
mm/yyyy

09 / 2021

8. Which data source did you use?

- Eligibility or enrollment data
- Survey data
- Another data source
9. How did your progress towards your goal last year compare to your previous year's progress?

Due to the ongoing Pandemic our conclusion is that individuals are still unemployed or working lower wage jobs, thus making individuals eligible for Medicaid. As a result, the enrollment figures for CHIP have actually decreased.

10. What are you doing to continually make progress towards your goal?

Ensuring that CHIP eligible children are enrolled.

11. Anything else you'd like to tell us about this goal?

Yes, once employment rates increase our expectation is that more children will transition off of Medicaid into CHIP.

12. Do you have any supporting documentation?

Optional

Click Choose Files and make your selection(s) then click Upload to attach your files. Click View Uploaded to see a list of all files attached here. Files must be in one of these formats: PDF, Word, Excel, or a valid image (jpg or png)

Do you have another in this list?

Optional
1. What is the next objective listed in your CHIP State Plan?

You can edit the suggested objective so it matches what's in your CHIP State Plan.

Improve the Health and Wellness of Nevada's Medicaid Population by Increasing Access to and the Use of Preventive Services.
1. Briefly describe your goal for this objective.

For example: In an effort to increase access to care, our goal is to increase the number of children who have visited a primary care physician by 5%.

Increase well-child visits 0-15 months (W30-CH) by 5%

2.

What type of goal is it?

- New goal
- Continuing goal
- Discontinued goal
Define the numerator you're measuring

3. Which population are you measuring in the numerator?

For example: The number of children enrolled in CHIP who visited a primary care physician in the last federal fiscal year.

This population includes a unique count of eligible enrollees who visited a PCP at least 6 times from birth to 15 month of age.

4.

Numerator (total number)

13
Define the denominator you're measuring

5. Which population are you measuring in the denominator?

For example: The total number of children enrolled in CHIP in the last federal fiscal year.

The population includes all Nevada resident enrollees with continuous enrollment who turned 15 months of age with less than one month gap in enrollment from birth to 15 months of age.

6.

Denominator (total number)

627

Computed: 2.07%
7. What is the date range of your data?

**Start**
mm/yyyy

01 / 2020

**End**
mm/yyyy

12 / 2020

8. Which data source did you use?

- [ ] Eligibility or enrollment data
- [ ] Survey data
- [x] Another data source

9. How did your progress towards your goal last year compare to your previous year's progress?

This is a new goal.
10. What are you doing to continually make progress towards your goal?

A quarterly meeting is held with all the MCO partners led by the Health Services Advisory Group to continually discuss what measures are being met and what measures that need to be prioritized. This is also an avenue to collaborate and discuss challenges and barriers across meeting the measures. This goal is planned to be consistent year over year with the exception of new criteria and or measures that are required or recommended from CMS or from our partners at the Health Services Advisory Group.

11. Anything else you'd like to tell us about this goal?

Data gathered for this measure are defined by the well-care visits value set provided on the 'Child Value Sets to Codes' tab of this workbook. Visits were calculated using a unique count of service dates indicated on the header of a claim. Rate 1: Visits incurred from birth to 15 months of age of children who turned 15 months during the measurement period were reported. Rate 2: Visits incurred from 15 months and 1 day of age of children who turned 30 months during the measurement period were reported. Claims paid at the header and detail level are used for this reporting. Denied claims have been excluded. The calculations in this measure adhere to the HEDIS 14-Day Rule which specified that well-child visits must occur 14 days apart to avoid double counting events. Beneficiaries in hospice are excluded from the eligible population. - Please see Technical Notes.
12.

Do you have any supporting documentation?

Optional

Click Choose Files and make your selection(s) then click Upload to attach your files. Click View Uploaded to see a list of all files attached here.

1. Briefly describe your goal for this objective.

For example: In an effort to increase access to care, our goal is to increase the number of children who have visited a primary care physician by 5%.

In an effort to increase the use of preventative care, our goal is to increase immunizations for adolescents (IMA-CH) for Meningococcal rate 11th - 13th birthday by 5%

2. What type of goal is it?

- [ ] New goal
- [ ] Continuing goal
- [ ] Discontinued goal
Define the numerator you're measuring

3. Which population are you measuring in the numerator?

For example: The number of children enrolled in CHIP who visited a primary care physician in the last federal fiscal year.

This population is a unique count of eligible enrollees who received at least two Human papillomavirus (HPV) vaccines at least 146 days apart on or between the adolescent's 9th and 13th birthday or at least three HPV vaccines on three different dates on or between the adolescent's 9th and 13th birthdays.

4. Numerator (total number)

155
Define the denominator you're measuring

5. Which population are you measuring in the denominator?

For example: The total number of children enrolled in CHIP in the last federal fiscal year.

The population includes all Nevada resident enrollees with continuous enrollment who turned 13 years old during the measurement year. Ages have been broken down into three stratifications: 3-11, 12-17, and 18-21 years.

6.

Denominator (total number)

1535

Computed: 10.1%
7. What is the date range of your data?

**Start**

mm/yyyy

01 / 2020

**End**

mm/yyyy

12 / 2020

8. Which data source did you use?

- Eligibility or enrollment data
- Survey data
- Another data source

9. How did your progress towards your goal last year compare to your previous year's progress?

This is a new measure.
10. What are you doing to continually make progress towards your goal?

A quarterly meeting is held with all the MCO partners led by the Health Services Advisory Group to continually discuss what measures are being met and what measures that need to be prioritized. This is also an avenue to collaborate and discuss challenges and barriers across meeting the measures. This goal is planned to be consistent year over year with the exception of new criteria and or measures that are required or recommended from CMS or from our partners at the Health Services Advisory Group.

11. Anything else you'd like to tell us about this goal?

Data gathered for this measure are defined by the designated vaccine value sets provided on the 'Child Value Sets to Codes' tab of this workbook. Enrollment and claims data were gathered from the Nevada Medicaid Data Warehouse for this reporting. The WebIZ Immunization Database was not used to gather the data for this measurement period. Beneficiaries in hospice are excluded from the eligible population. There were no additional exclusions considered for this reporting. See Technical Notes.

Part 2: Additional questions

1. Do you have other strategies for measuring and reporting on your performance goals? What are these strategies, and what information have you found through this research?

2. Do you plan to add new strategies for measuring and reporting on your goals and objectives? What do you plan to do, and when will this data become available?

3. Have you conducted any focused studies on your CHIP population? (For example: studies on adolescents, attention deficit disorder, substance use, special healthcare needs, or other emerging healthcare needs.) What have you discovered through this research?

4. Optional: Attach any additional documents here.

For example: studies, analyses, or any other documents that address your performance goals.

Table 3: Federal and State Shares

CHIP is funded by federal and state budgets. The federal share of funding is calculated by multiplying your state’s Federal Medical Assistance Percentage (eFMAP) by your total program costs (the sum of your benefit and administrative costs). The remaining amount of your total program costs is covered by your state share of funding. This table is auto-calculated using the data you entered above. The federal and state shares for FFY 2023 will be calculated once the eFMAP rate for 2023 becomes available. In the meantime, these values will be blank.

8.
What were your state funding sources in FFY 2021?
Select all that apply.

- [x] State appropriations
- [x] County/local funds
- [ ] Employer contributions
- [ ] Foundation grants
- [ ] Private donations
- [ ] Tobacco settlement
- [ ] Other

9.
Did you experience a shortfall in federal CHIP funds this year?

- [ ] Yes
- [x] No

**Part 3: Managed Care Costs**

Complete this section only if you have a Managed Care delivery system.
1. How many children were eligible for Managed Care in FFY 2021? How many do you anticipate will be eligible in FFY 2022 and 2023?

<table>
<thead>

**Part 4: Fee for Service Costs**

Complete this section only if you have a Fee for Service delivery system.
1. How many children were eligible for Fee for Service in FFY 2021? How many do you anticipate will be eligible in FFY 2022 and 2023?

<table>
<thead>
<tr>
<th>Year</th>
<th>Eligible Children</th>
</tr>
</thead>
<tbody>
<tr>
<td>2021</td>
<td>4577</td>
</tr>
<tr>
<td>2022</td>
<td>5008</td>
</tr>
<tr>
<td>2023</td>
<td>5061</td>
</tr>
</tbody>
</table>

2. What was your per member per month (PMPM) cost based on the number of children eligible for Fee For Service in FFY 2021? What is your projected PMPM cost for FFY 2022 and 2023?

The per member per month cost will be the average cost per month to provide services to these enrollees. Round to the nearest whole number.

</tbody>
</table>
1. Is there anything else you’d like to add about your program finances that wasn’t already covered?

A blended FMAP was used for the EFMAP calculation due to the Covid Enhanced FMAP running from 12/01/2020 to 03/31/2021.

Challenges and Accomplishments

1. How has your state's political and fiscal environment affected your ability to provide healthcare to low-income children and families?

The State of Nevada continues to be one of the hardest hit states when it relates to the fiscal impact due to the pandemic. In October 2021, Nevada's total Medicaid caseload reached 852,673 surpassing October 2020's case load of 765,057. This remains approximately 25% if the state's population (1 in 4 Nevadans) receive their health coverage through one of these programs. Nevada's medical systems within the State continue to be overwhelmed with patients and remain fiscally challenged. Nevada has seen a decrease in available providers and often here about wait lists to see a specialist. The Division overall was able to hold off on any reductions to services including the proposed 6% rate cut to providers prior to the American Rescue Plan.
2. What's the greatest challenge your CHIP program has faced in FFY 2021?

One of the greatest challenges has been adjusting to the policy and case processing flexibilities that were adopted due to the PHE; however, DWSS eligibility staff have continued to be productive. While a majority of DWSS field staff have returned to the office, a portion of staff are still working from home. DWSS staff that have been transitioned back into the office are still required to adhere to the CDC social distancing guidelines and are required to wear facial coverings, even when vaccinated. Additionally, it has been a challenge to ensure that Outreach staff maintain health and safety as they are regularly exposed to the virus in the natural course their duties. All State of Nevada employees are now required to be vaccinated or receive weekly COVID testing. This has required a significant amount of coordination between medical professionals conducting the tests and various agency Division Administrators and HR staff. In spite of all the challenges faced within the last several months, DWSS and DHCFP continue to provide exceptional customer service to the citizens of the great State of Nevada.

3. What are some of the greatest accomplishments your CHIP program has experienced in FFY 2021?

Due to the ongoing PHE, the Medicaid and CHIP program has continued to utilize the flexibilities that were adopted due to the PHE i.e., suspension of terminations for non-payment of premiums, suspension of the 90-day sit out, delaying the processing of renewals, etc. This has provided a continuity of care for both Medicaid and CHIP enrollees. Medicaid enrollment in October of 2021 was 852,673, while CHIP enrollment was 23,643. Coverage for these individuals ensures that those in our community can receive the health care they need during this ongoing pandemic and these times of uncertainty.
4. What changes have you made to your CHIP program in FFY 2021 or plan to make in FFY 2022? Why have you decided to make these changes?

In FFY 2021, Nevada still had an approved Disaster Relief SPA which allowed the state to make changes to delay the processing of renewals and extend deadlines for families to respond to renewal requests, waive the collection of premiums, suspend the premium lock-out policy, and conduct tribal consultation after the submission of the SPA, as permitted under Section 1135 of the Social Security Act. Nevada continues to work under these flexibilities and will continue to do so, until the PHE is officially declared over. In FFY 2022, if the PHE is declared over, agencies will begin the unwinding of all the flexibilities implemented during the PHE. This will require coordination amongst CMS, agency Administrators, Office Managers, Supervisors, Policy and Field staff. The DWSS and DHCFP continue to work with CMS regarding the unwinding of the PHE, review the guidance provided and plan accordingly to ensure a smooth transition forward.

5. Is there anything else you'd like to add about your state's challenges and accomplishments?

Nevada Medicaid was able to open Tobacco Cessation coverage for all residents. This had previously been available to pregnant women only.
