

services were provided prior to CBAS starting on April 1, 2012¹. From April 1, 2012, through June 30, 2012, CBAS was only provided as a Medi-Cal FFS benefit. On July 1, 2012, 12 of the 13 County Organized Health Systems (COHS) began providing CBAS as a managed care benefit. The final transition of CBAS benefits to managed care took place beginning October 1, 2012. In addition, the Two-Plan Model (available in 14 counties), Geographic Managed Care plans (available in two counties), and the final COHS county (Ventura) also transitioned at that time. As of December 1, 2014, Medi-Cal FFS only provides CBAS coverage for CBAS-eligible participants who have an approved medical exemption from enrolling into managed care. The final four rural counties (Shasta, Humboldt, Butte, and Imperial) transitioned the CBAS benefit to managed care in December 2014.

Effective April 1, 2012, eligible participants can receive unbundled services (i.e. component parts of CBAS delivered outside of centers with a similar objective of supporting participants, allowing them to remain in the community) if there are insufficient CBAS Center capacity to satisfy the demand. Unbundled services include local senior centers to engage participants in social and recreational activities, group programs, home health nursing, and/or therapy visits to monitor health status and provide skilled care and In-Home Supportive Services (IHSS) (which consists of personal care and home chore services to assist participants with Activities of Daily Living or Instrumental Activities of Daily Living). If the participant is residing in a Coordinated Care Initiative (CCI) county and is enrolled in managed care, the Medi-Cal MCP will be responsible for facilitating the appropriate services on the participants' behalf.

Enrollment and Assessment Information:

Per STC 52(a), CBAS enrollment data for both Managed Care Plans (MCPs) and Fee-for-Service (FFS) members per county for DY14-Q2, represents the period of October to December 2018. CBAS enrollment data is shown in the table, titled *Preliminary CBAS Unduplicated Participant - FFS and MCP Enrollment Data with County Capacity of CBAS*. The table titled *CBAS Centers Licensed Capacity* provides the CBAS capacity available per county, which is also incorporated into the first table.

The CBAS enrollment data as described in the table below is self-reported quarterly by the MCPs. Some MCPs report enrollment data based on the geographical areas they cover which may include multiple counties. For example, data for Marin, Napa, and Solano are combined, as these are smaller counties and they share the same population.

¹ CBAS access/capacity must be provided in every county except those that did not previously have ADHC centers: Del Norte, Siskiyou, Modoc, Trinity, Lassen, Mendocino, Tehama, Plumas, Glenn, Lake, Colusa, Sutter, Yuba, Nevada, Sierra, Placer, El Dorado, Amador, Alpine, San Joaquin, Calaveras, Tuolumne, Mariposa, Mono, Madera, Inyo, Tulare, Kings, San Benito, and San Luis Obispo.
