1. Preface

1.1 Transmittal Title Page for the state's SUD Demonstration or SUD Components of Broader Demonstration

State	Indiana
Demonstration Name	Healthy Indiana Plan
Approval Date	February 1, 2018
Approval Period February 1, 2018 through December 31, 2020	
SUD (or if broader demonstration, then SUD Related) Demonstration Goals and Objectives	All Medicaid beneficiaries in Indiana will continue to have access to all current mental health and SUD benefits. In addition, all beneficiaries, ages 21 through 64 will have access to expanded covered services provided while residing in an Institution for Mental Diseases (IMD) for SUD short-term residential stays. The SUD program will allow beneficiaries with SUD to access benefits that include SUD residential treatment, crisis stabilization and withdrawal management services provided in IMDs, which would otherwise be excluded from federal reimbursement.

2. Executive Summary

Indiana Medicaid has been making notable progress towards increasing SUD treatment for its members. The following provides some key highlights to activities between February 1 and March 31, 2018:

- Inpatient IMD stays for substance use disorder treatment are now reimbursable.
- Residential stays for substance use disorder treatment are now reimbursable.
- An ASAM designation process for our State's residential providers is now live, along with a new provider specialty for SUD residential addiction treatment facilities.
- The State is completing an active procurement for an independent evaluator of the 1115 SUD demonstration.
- The State has submitted draft versions of the Health IT Protocol and the Monitoring Protocol.
- FSSA has launched several new initiatives, including a Project ECHO for Medication Assisted Treatment (MAT), a partnership between Open Beds and Indiana 211, and a new addictions resources website.

3. Assessment of Need and Qualification for SUD Services

(Required) The state has attached the required assessment of need and qualification for SUD services metrics in Appendix A.
(If applicable) The state does not have any issues to report related to assessment of need and qualification for SUD services metrics in Appendix A and has not included any narrative on this topic in the section that follows.

As indicated in the draft 1115 SUD Monitoring Protocol, Indiana will be working on modifying the State's Adults Needs and Strengths Assessment (ANSA) and Child and Adolescent Needs and Strengths (CANS) assessment tools to reflect the number of individuals who have been assessed and qualified for SUD treatment needs. Until those modifications are complete, Indiana will not be able to report on the individuals assessed and qualified for SUD treatment.

The State is currently not aware of any issues are individuals being assessed and qualified for SUD treatment.

3.1 Assessment of Need and Qualification for SUD Services Issues/Trends: New and Continued

Summary of Issue	Date and Report in which Issue was First Reported	Estimated Number of Impacted Beneficiaries	Known or Suspected Cause(s) of Issue (if applicable)	Remediation Plan and Timeline for Resolution (If applicable)/Status Update if Issue Previously Reported*

3.2 Anticipated Changes to Assessment of Need and Qualification for SUD Services

☐ The state does not anticipate changes to assessment of need and qualifications for SUD services at this time.

4. SUD Treatment Initiation and Treatment at Each Level of Care

- (Required) The state has attached the treatment-related metrics in Appendix A.
- (If applicable) The state does not have any issues to report related to the treatment-related metrics in Appendix A and has not included any narrative.

Indiana's data shows that our SUD population is largely in managed care (specifically, the Healthy Indiana Plan); that outpatient treatment is the largest source of SUD treatment; and that medication assisted treatment shows very minimal usage in relation to the number of individuals identified with a substance use disorder.

4.1 SUD Treatment-related Issues: New and Continued

Summary of Issue	Date and Report in which Issue Was First Reported	Estimated Number of Impacted Beneficiaries	Known or Suspected Cause(s) of Issue (if applicable)	Remediation Plan and Timeline for Resolution (if applicable)/Status Update if Issue Previously Reported*

4.2 Anticipated Changes to SUD Treatment Initiation and Treatment at Each Level of Care

Mathematical The state does not anticipate changes to treatment initiation and treatment at each level of care at this time.

5. SUD Demonstration-related Grievances and Appeals

\boxtimes	(Required)	The state has attached	the SUD only	grievances a	nd appeals	metrics in	Appendix
	Α.						

(If applicable) The state does not have any issues to report related to the SUD only grievances and appeals metrics in Appendix A and has not included any narrative.

5.1 SUS Specific Grievances and Appeals Issues: New and Continued

As indicated in the draft 1115 SUD Monitoring Protocol, Indiana is working with its managed care entities (MCEs) to begin reporting on SUD-related grievances and appeals starting on July 1, 2018. Reporting will not be available until Fall 2018. Additionally, the Division of Mental Health and Addiction (DMHA) does not currently require critical incidents for SUD treatment services to be reported; this will be fixed as a part of the overall certification process update in 2019.

Summary of Issue	Date and Report in Which Issue Was First Reported	Estimated Number of Impacted Beneficiaries	Known or Suspected Cause(s) of Issue (if applicable)	Remediation Plan and Timeline for Resolution (if applicable)/Status Update if Previously Reported*

5.2 Anticipated Changes to SUD Specific Grievances and Appeals					

The State will be pursuing additional reporting requirements with our managed care entities around SUD-related grievances and appeals beginning July 1, 2018.

☐ The state does not anticipate changes to SUD grievances or appeals at this time.

6. SUD-Related Quality

- (Required) The state has attached the SUD-related quality measures in Appendix A.
- (If applicable) The state does not have any issues to report related to the SUD-related quality measures in Appendix A and has not included any narrative.

As indicated in the draft 1115 SUD Monitoring Protocol, Indiana is currently developing all quality measures to be reported on a quarterly basis. An OMPP/DMHA data team continues to meet biweekly to discuss specifications and monitor progress towards completing these quality measures. The State expects to be able to report on most quality measures during Summer 2018.

6.1 SUD-Related Quality Issues: New and Continued

Summary of Issue	Date and Report in which Issue Was First Reported	Estimated Number of Impacted Beneficiaries	Known or Suspected Cause(s) of Issue (if applicable)	Remediation Plan and Timeline for Resolution (if applicable)/Status Update if Issue Previously Reported*

6.2 Anticipated Changes to SUD-Related Quality

	diana a arter.	nticipates being able to report on most quality measures beginning during the next reporting
		The state does not anticipate changes related to quality at this time.
7.	Othe	r SUD-Related Demo Specific Metrics
	\boxtimes	(If applicable) The state has attached completed the other metrics in Appendix A.
		(If applicable) The state does not have any issues to report related to the other metrics in Appendix A and has not included any narrative.

7.1 Other SUD-Related Metric Issues: New and Continued

Indiana has included a breakdown of the number of providers related to mental health or addiction treatment. Indiana Medicaid has only recently begun to enroll providers who specifically provide addiction treatment (for Opioid Treatment Programs and SUD Residential Addiction Treatment Facilities), so the list largely contains providers (both individuals and facilities) that provide some form of mental health or SUD treatment.

Summary of Issue	Date and Report in which Issue Was First Reported	Estimated Number of Impacted Beneficiaries	Known or Suspected Cause(s) of Issue (if applicable)	Remediation Plan and Timeline for Resolution (if applicable)/Status Update if Issue Previously Reported*
		_		

^{*} Note: If an issue was noted as resolved in the previous report, it should not be reported in the current report.

7.2 Anticipated Changes to Other SUD-Related Metrics

As previously discussed,	, Indiana is currently	working on ma	king quality mea	asures available	during the
next reporting quarter.					

☐ The state does not anticipate future changes to other metrics at this time	÷.
--	----

8. Financial/Budget Neutrality

(Required) The state has attached completed the budget neutrality workbook in Appendix B.

8.1 Financial/Budget Neutrality Issues: New and Continued

Summary of Issue, Including Fiscal Impact and Impacted MEG(s)	Date and Report in which Issue Was First Reported	Known or Suspected Cause(s) of Issue (if applicable)	Remediation Plan and Timeline for Resolution (if applicable)/Status Update if Issue Previously Reported

8.2 Anticipated Changes to Financial/Budget Neutrality

☐ The state does not anticipate future changes to budget neutrality at this time.

9. SUD (or if Broader Demonstration, then SUD Related) Demonstration Operations and Policy

Consideration 1:

Type of Consideration	Prior Authorization Requests
Summary of Consideration	Since the residential reimbursement structure
	went live, providers have complained about only
	receiving approval for a short amount of days as
	well as not understanding prior authorization
	criteria in general.
Date and Report in Which Consideration Was	Early March 2018
First Reported	
Summary of Impact	Individuals are receiving approval for residential
· -	treatment, but there continue to be issues with
	enough medical necessity documentation.
Estimated Number of Affected SUD Beneficiaries	Data is unavailable at this time
If Issue, Remediation Plan and Timeline for	A meeting with representatives from each of the
Resolution / Updates in Status if Previously	MCEs, DMHA, and OMPP was held in late April
Reported	2018. As a result of that meeting, an updated
_	provider publication around residential treatment

specificly for residential providers is being planned for late summer 2018.

10. SUD Implementation Update

Item	Date and Report in Which Item Was First Reported	Implementation Status
	cal levels of care for OUD and other SU	UDs
Residential Treatment	March 1, 2018	The State began providing authorization and reimbursement for low-intensity and high-intensity residential treatment on March 1, 2018.
Inpatient IMD Stays	February 1, 2018	The State began providing authorization and reimbursement for inpatient stays for OUD in facilities that qualify as IMDs across all populations, including FFS, on February 1, 2018. Indiana had been utilizing the "in lieu of" authority for IMD stays for the managed care population since July 2016.
2. Widespread us	se of evidence-based, SUD-specific pati	
ANSA Assessment Tool	April 1, 2018	Indiana is working on procuring the services of the Indiana Prevention Resource Center (through Indiana University) to build the algorithm to produce an appropriate ASAM level of care for our ANSA assessment tool.
3. Use of national provider qualification		rogram standards to set residential treatment
ASAM Designation Process	March 1, 2018	DMHA began providing ASAM designations for our State's residential providers on March 1, 2018. As of May 7, there are four providers designated to provide Level 3.1 (low-intensity residential services) and 14 providers designated to provide Level 3.5 (high-intensity residential services). Five providers currently have pending designations.
4. Sufficient prov	vider capacity at each level of care, incl	uding MAT
New Provider Specialty		A new provider specialty for SUD Residential Addiction Treatment Facilities went live on March 1, 2018. This specialty will be required for billing as of July 1, 2018. As of May 7, there are five providers who have completed the new enrollment.
5. Implementation	on of comprehensive treatment and pre	vention strategies to address opioid abuse

Naloxone for		Indiana is working on a sustainable	
Emergency	reimbursement system for emergency		
Responders		responders who utilize naloxone. This will likely require providers to report usage for	
		Medicaid members to their local health	
		departments, and these entities will then be	
		able to bill Indiana Medicaid for the	
		naloxone used and resupply the emergency	
		responders. Conversations with local health	
		departments are ongoing.	
6. Improved care coordination and transitions between levels of care			
_			
7. Progress on substance use disorder health information technology plan			
1		l l	

11. SUD Demonstration Evaluation Update

Indiana has been following a fair procurement process to procure an independent evaluator for the 1115 SUD demonstration waiver. Below are some key dates for activity:

- February 8, 2018 RFP 18-061 (Substance Use Disorder) was publicly posted
- March 9, 2018 Responses were received by the State

The State is currently under negotiation with the selected vendor to finalize the contract award. The State expects to have a draft version of the evaluation plan submitted to CMS by July 31, 2018.

Type of Evaluation	Due Date	State Notes or Comments	Description of Any Anticipated Issues

Summative			
Evaluation			
Report			

12. Other Demonstration Reporting

12.1 Post Award Public Forum

- ☐ The state has provided the summary of the post-award forum (due for the period during reporting during which the forum was held and in the annual report).
- ☐ There was not a post-award public forum held during this reporting period and this is not an annual report.

13. Notable State Achievements and/or Innovations

Indiana recently launched two project ECHOs, including clinics on hepatitis C treatment and <u>Medication Assisted Treatment (MAT)</u>. Both of these efforts are being led by the Indiana University School of Medicine.

On March 1, 2018, FSSA launched <u>a new website</u> to help individuals locate addiction treatment by level of service (outpatient, residential, inpatient, and opioid treatment program).

On March 15, 2018, FSSA formally began a partnership linking Open Beds with Indiana 211 to help individuals in need of addiction treatment find resources for treatment. On May 3, 2018, it was <u>reported</u> that more than 100 people have utilized the service in the first six weeks of operation.
