Email: Shanna.janu@cms..hhs.gov

COMMUNICATIONS TO:

Shanna Janu and
Ms. Ruth Hughes
Associate Regional Administrator
Division of Medicaid and Children Health Operations
233 North Michigan Avenue, Suite 600
Chicago, IL 60601
Email: Ruth.hughes@cms.hhs.gov

Date Submitted to CMS: 00/00/0000

END STAGE RENAL DISEASE (ESRD) DEMONSTRATION

Introduction:

The End Stage Renal Disease (ESRD) 1115 demonstration waiver will allow Indiana to provide Medicare-enrolled individuals with ESRD, who are otherwise ineligible for Medicaid, with supplemental wrap-around coverage including supplemental coverage for kidney transplant services.

The goals of this approved demonstration are to:

- Increase overall coverage of low-income individuals with a diagnosis of ESRD; and
- Ensure access to comprehensive coverage for low-income individuals with a diagnosis of ESRD and primary coverage through Medicare.

Ouestions that will be addressed are:

- 1. How many enrollees are on the kidney transplant list during enrollment?
- 2. How many enrollees received a kidney transplant during enrollment?
- 3. How many enrollees no longer have Medicare coverage? Note: this question had originally been submitted as "How many enrollees no longer have a diagnosis of ESRD?" The question was modified to be in alignment with the Waiver requirement that the enrollees have Medicare coverage.
- 4. How many enrollees expired during enrollment? Note: this question had originally been submitted as "How many enrollees expired due to ESRD during enrollment?" The question was modified due to the goals of the waiver being to increase coveralge for low-income individuals with a diagnosis of ESRD and primary coverage through Medicare and to ensure access to comprehensive coverage. The goals of the Waiver do not include preventing the enrollees from expiring.

Indiana's HIP 1.0 demonstration began in 1994 to supplement state plan benefits for Medicaid eligible children and otherwise eligible adults who are not aged, blind or disabled. HIP 1.0 was scheduled to expire at the end of 2013, but was extended for an additional year through December 31, 2014.

In May 2014, CMS approved an amendment to include former spend down enrollees diagnosed with End Stage Renal Disease (ESRD) as a HIP 1.0 demonstration population. ESRD enrollees are Medicare beneficiaries in need of supplemental health care coverage. By providing coverage through HIP, beneficiaries were able to access kidney transplant and related services that they might not be able to afford without the additional supplemental benefits.

In January 2015, CMS approved the Healthy Indiana Plan 2.0 (HIP 2.0) demonstration whereby former HIP 1.0 enrollees transitioned into the HIP 2.0 demonstration; the ESRD enrollees were the only population remaining in the HIP 1.0 demonstration. The HIP 1.0 demonstration with only the ESRD enrollees operated on a temporary extension until its approval on July 28, 2016 and renamed the End Stage Renal Disease (ESRD) Demonstration

This demonstration will continue to provide coverage for individuals with ESRD that are not currently eligible under the Medicaid state plan. The demonstration originally covered approximately 350 individuals with ESRD who would otherwise be unable to access kidney transplant services. Corrections made with data processing showed there were 694 enrollees in Population 1. With this demonstration extension, Indiana expects to achieve program objectives.

Overview:

The State of Indiana respectfully submits FFQ2 2016 End Stage Renal Disease 1115 Demonstration report.

If there are any questions or comments regarding these changes please do not hesitate to contact the State contacts listed below.

Outreach/Innovative Activities:
Source: Family & Social Services Administration Data and Analytics
Summarize outreach activities and/or promising practices for the current quarter.
Prior to this quarter, OMPP created training materials for staff of the Division of Family Resources (DFR). Training
was subsequently provided to the Regional Managers of DFR throughout the State of Indiana. A Powerpoint
presentation was provided to Treatment Centers that are involved in assisting new applicants with the process. Notices
were mailed to members over a 5 day timeframe with 185,000 notices being sent.

Table 4

Operational/Policy Developments/Issues:

Source: Family & Social Services Administration Data and Analytics

Identify all significant program developments/issues/problems that have occurred in the current quarter, including, but not limited to, approval and contracting with new plans, benefit changes, legislative activity and non-emergency medical transportation.

Previous issues with data were identified and resolved. Data continues to be monitored to ensure accuracy.

Table 5

Financial/Budget Neutrality Developments/Issues:

Source: OMPP Finance

Identify all significant developments/issues/problems with financial accounting, budget neutrality, and CMS-64 reporting for the current quarter. Identify the state's actions to address these issues.

The State is reviewing its internal controls related to budget neutrality and CMS64 reporting. The State is working to re-tool our reporting logic to assure compliance with the Special Terms and Conditions set forth in the 1115 demonstration waiver.

Below, please find the OMPP Finance process to achieve control objectives of accurate, timely and complete reporting in compliance with the Special Terms and Conditions:

- Budget neutrality submissions will be developed utilizing CMS64 data.
- Budget neutrality and CMS64 reporting will be reconciled quarterly prior to submitting reports to CMS.
- Federal Funding Director/OMPP Controller will be the final approver on all budget neutrality submissions.

Reconciliation documentation will be maintained to support quarterly submissions.

Table 6

Budget Neutrality-Member Months

Source: Family & Social Services Administration Data and Analytics

This table contains the number of member months for each population of enrollees. Information was obtained from the Social Services Warehouse and the Data Warehouse. Demonstration Population 1 and 2 are defined by: Federal Poverty Level (FPL) is between 150% and 300%, resource limit is below \$1,500 per individual or \$2,250 per married couple, member is not assigned to Level of Care during the month, member is not in long term care during the month, member is not assigned to managed care, member is dually eligible for Medicare and Medicaid **and** member age is below 65 years.

Medicaid Eligibility Group (MEG)	Period	Month 1	Month 2	Month 3	Total
Demonstration Population 1 – Former Spend Down Individuals	Quarter	637	628	612	1,877
Demonstration Population 2 – New Enrollees	Quarter	571	579	604	1,754

Table 7

Consumer Issues

Source: Family & Social Services Administration Communications Services

A summary of the types of complaints or problems consumers identified about the program in the current quarter. Include any trends discovered, the resolution of complaints and any actions taken or to be taken to prevent other occurrences.

In February 2016 OMPP was contacted by a news reporter who was researching Senate Bill 276 which would deny dialysis to undocumented residents. The reporter asked if Medicaid covered ESRD. The reporter was told that Medicaid covers ESRD, as dialysis is an emergency service available to undocumented immigrants who receive Medicaid. The rate paid to providers for dialysis is based on what revenue code is billed and could result in payment of anywhere between \$10 and \$270 per session (excluding any additional supplies or drugs) before the Hospital Assessment Fee (HAF) is added in.

Before HAF, Indiana Medicaid was spending roughly \$21,672.95 a quarter on dialysis claims for undocumented members. This would be less than \$100,000 per year.

Table 8

Quality Assurance/Monitoring Activity

Source: Family & Social Services Administration/Office of Medicaid Policy & Planning Quality & Outcomes Identify any quality assurance/monitoring activity in current quarter.

The waiver had not been approved during this quarter, therefore, no quality assurance and monitoring was done.

Table 9

Demonstration Evaluation
