¹ This measure includes individuals new to the Flint waiver and individuals who have disenrolled and re-enrolled.

² Individuals that do not meet all population category requirements from one month to the next are considered disenrolled from the category. This does not necessarily mean that individuals have been disenrolled from the Flint Water Waiver.

³ The State has completed 38 total non-elevated blood level lead investigations in Flint since October 1, 2015. MDHHS continues to refine current reporting processes to report this information specifically for Medicaid eligible individuals.
