

MICHIGAN
SECTION 1115 FAMILY PLANNING DEMONSTRATION
FACT SHEET

Program Name: Michigan “Plan First!” Family Planning Demonstration Program

Initial Application

Date Proposal Submitted: October 30, 2004
Date Proposal Approved: March 1, 2006
Date of Implementation: April 1, 2006
Expiration Date: March 31, 2011 - *Operating under Temporary Extension through June 30, 2016*

SUMMARY

The demonstration provides family planning and family planning-related services to women, ages 19 to 44, who have family income at or below 185 percent of the federal poverty level (FPL), and who are not otherwise eligible for Medicaid, the Michigan Medicaid non-pregnant Childless Adults section 1115 demonstration, or other health insurance coverage that provides family planning services. Under this demonstration, Michigan expects to promote the objectives of title XIX by:

- Increasing access to family planning services;
- Increasing child spacing intervals through effective contraceptive use;
- Reducing the number of unintended pregnancies in Michigan; and
- Reducing Michigan’s Medicaid costs by reducing the number of unintended pregnancies by women who otherwise would be eligible for Medicaid pregnancy-related services.

ELIGIBILITY

Women, ages 19 to 44, who have family income at or below 185 percent of the FPL, and who are not otherwise eligible for Medicaid, the Michigan Medicaid non-pregnant Childless Adults Section 1115 demonstration, or other health insurance coverage that provides family planning services.

DELIVERY SYSTEM

The benefits for this demonstration are offered through a fee for service model.

BENEFITS

Family planning services and supplies are those services and supplies whose primary purpose is family planning and which are provided in a family planning setting, such as approved methods of contraception, sexually transmitted infection (STI)/sexually transmitted disease (STD) testing, pap smears and pelvic exams, contraceptive management, patient education and counseling.

Family planning-related services and supplies are defined as those services provided as part of or as follow-up to a family planning visit and are reimbursable at the state's regular Federal Medical Assistance Percentage (FMAP) rate. Such services are provided because a "family planning-related" problem was identified and/or diagnosed during a routine or periodic family planning visit. Examples of family planning-related services and supplies include:

- a) Colposcopy (and procedures done with/during a colposcopy) or repeat Pap smear performed as a follow-up to an abnormal pap smear which is done as part of a routine/periodic family planning visit.
- b) Drugs for the treatment of STIs/STDs, except for HIV/AIDS and hepatitis, regardless of the initial purpose of the visit consistent with CMS guidance issued April 14, 2014, SMDL#14-003, ACA #31. This includes behavioral counseling and a follow-up visit/encounter for the treatment/drugs and subsequent follow-up visits to rescreen for STIs/STDs based on the Centers for Disease Control and Prevention guidelines.

EVALUATION PLAN

The state's evaluation plan focuses on objectives such as:

- Increasing access to family planning services;
- Reducing the number of unintended pregnancies in Michigan; and
- Reducing Medicaid costs by reducing the number of unintended pregnancies by women who otherwise would be eligible for Medicaid pregnancy-related services.
