

**Mississippi Family Planning Waiver
Project Number 11-W-00157/7
Section 1115 Quarterly Operational Report
Demonstration Year 14, Quarter 1
May 31, 2017**

INTRODUCTION PROGRAM OVERVIEW

Historical Background

The Mississippi Division of Medicaid (DOM) began implementation of the Family Planning Waiver (FPW) Demonstration Program, Section 1115(a), on October 1, 2003. This program was initially approved by the Centers for Medicare & Medicaid Services (CMS) for a five (5) year period. A three (3) year extension of the FPW was approved on October 30, 2008 through September 30, 2011. The FPW then operated under a temporary extension through December 31, 2014. Currently, the demonstration's special terms and conditions (STCs) are approved from January 1, 2015 through December 31, 2017.

Historical Data of FPW Enrollees & Participants for Demonstration Years 8-13

Source: Cognos Family Planning Enrollment Report/ Note: All data reported on a calendar year

Quarterly Operational Report

Six (6) year average enrollment and participation in the FPW demonstration is 43,415 and 32,019 respectively. DY 13 FPW had an enrollment increase of nine and nine-tenths (9.9%) and participation increase of nine and seven-tenths (9.7%) in comparison to DY 12.

Seventy-two and seven-tenths (72.7%) percent of the total FPW participants had at least one (1) paid Medicaid claim of family planning and family planning related services for the demonstration years reported.

EXECUTIVE SUMMARY

Description of the demonstration populations

The FPW demonstration allows Mississippi to provide family planning and family planning related services to women who are losing Medicaid pregnancy coverage at the expiration of the 60-day postpartum period and women and men, ages 13 through 44, who have family incomes at or below 194 percent of the federal poverty level (FPL) post modified adjusted gross income (MAGI) conversion, and who are not otherwise enrolled in Medicaid, the Children's Health Insurance Plan (CHIP) or any other health insurance plan that provides coverage for family planning services.

Goals of the demonstration

The overarching goal of the Family Planning Section 1115(a) Demonstration Waiver is to reduce the number of unintended pregnancies and improve birth outcomes among Medicaid beneficiaries in the target population, thus reducing associated pregnancy and birth related Medicaid expenditures.

Under this demonstration, DOM expects to promote the objectives of Title XIX by:

- Increasing access to and use of family planning and family planning related services by the targeted population (women and men);
- Improving the access to and use of Medicaid family planning services by women who have received Medicaid pregnancy related services;
- Improving birth outcomes and the health of women by increasing the birth-intervals among the target population;
- Decreasing the number of Medicaid-paid deliveries which will reduce annual expenditures for prenatal, delivery, newborn and infant care;
- Reducing the number of unintended and unwanted pregnancies among Medicaid eligible women;
- Reducing teen pregnancy by reducing the number of repeat teen births;

Quarterly Operational Report

- Increasing the number of primary care referrals to improve the health of the target population; and
- Increasing the overall savings attributable to providing family planning services by covering women for one (1) year postpartum.

Program Highlights

Since the inclusion of men in the FPW demonstration program, more males are actively engaged in receiving family planning and family planning related services. There has been a steady increase in the number of men who are enrolling and participating in the FPW.

Table 1: Reporting Quarter Dates

Demonstration Year (DY) 14	Begin Date	End Date	Quarterly Report Due Date
Quarter 1	January 1, 2017	March 31, 2017	May 31, 2017
Quarter 2	April 1, 2017	June 30, 2017	August 31, 2017
Quarter 3	July 1, 2017	September 30, 2017	November 30, 2017
Quarter 4	October 1, 2017	December 31, 2017	February 28, 2018

DOM required timeline to submit quarterly reports

Significant program changes

There were no significant program changes during the 1st quarter.

Policy issues and challenges

There were no policy issues or challenges during the 1st quarter.

ENROLLMENT

This demonstration has three eligible populations, as described in the Special Terms & Conditions (STCs):

Population 1: Women losing Medicaid pregnancy coverage at the expiration of the 60-day postpartum period.

Population 2: Women who have a family income at or below 194 percent of the FPL (post Modified Adjusted Gross Income (MAGI) conversion) who are capable of reproducing.

Population 3: Men who have a family income at or below 194 percent of the FPL (post MAGI conversion) who are capable of reproducing.

CERTIFICATION OF MEMBER MONTHS

DOM certifies the accuracy of the reported Member Months of eligible FPW enrollees in the current and previous quarters for DY 12, DY 13 and DY 14.

SERVICES AND PROVIDERS

Service Utilization

The demonstration project covers approved preventive services that are routinely provided in a family planning setting and treatment of major complications arising from a family planning procedure.

Family planning services and supplies provided to beneficiaries include:

- Approved methods of contraceptives;
- Medications for the treatment of a STI/ STD identified or diagnosed during a routine or periodic FPW visit (except for human immunodeficiency virus infection/ acquired immune deficiency syndrome (HIV/AIDS) and hepatitis);
- Voluntary vasectomy and tubal ligation procedures, including tubal sterilization by hysteroscopy, if the criteria in Miss. Admin. Code Part 202, Rule 5.3 is met; and
- Medications and/or treatments for vaginal infections/disorders, other lower genital tract and genital skin infections/disorders, and urinary tract infections when these conditions are identified or diagnosed during a routine or periodic FPW visit.

Table 4: First Quarter DY 14 Utilization of Approved Methods of Contraception

Oral Contraceptives	Patch	Nuva-Ring	LARCs	Tubal Ligation	Vasectomy	Method Unknown
5,233 (46.2%)	832 (7.3%)	348 (3.1%)	3,669 (32.4%)	85 (0.8%)	11 (0.1%)	1,150 (10.2%)

Source: Cognos Report Drug Utilization by Dates of Service, PTC & COE. For DY 14 quarter one (1), 89.9% of the total FPW participants (11,328) chose a contraceptive method.

Provider Participation

There were two hundred ninety-eight (298) unique providers that submitted claims under the FPW in demonstration year 14 quarter one (1).

PROGRAM OUTREACH AWARENESS AND NOTIFICATION

General Outreach and Awareness

DOM coordinates outreach and education activities with the MS State Department of Health (MSDH) to improve family planning participation. DOM provider and beneficiary relation’s staff used various education activities to increase the promotion of family planning services among hard-to-reach populations. Along with, continuous on-going efforts to integrate preconception health messages into the various outreach activities, such as health fairs and community forums.

Target Outreach Campaign(s)

DOM Provider Beneficiary Relation Outreach team attended thirty-eight (38) events in various settings and provided FPW education and outreach information to seven thousand two hundred fifty-four (7,254) Medicaid beneficiaries and providers in quarter one (1) DY 14. The following tables, depicts the types of events, number of events for each type, and the number of attendees for the report period.

Mississippi State Department of Health Coordination of Services for the FPW Demonstration

The MSDH is piloting a new initiative in Leflore County, through the Contraceptive Access Learning Collaborative (CALC). The purpose of the project is to increase:

- Awareness and access to long-acting reversible contraceptives (LARCs),
- Participation in the FPW demonstration,
- Assist clients with enrollment
- Eliminate barriers to reproductive health care services for women and men who are eligible, and
- Ensure participants are knowledgeable of the full benefits of the FPW program to gain access to family planning and family planning related services.

During the months of February and March, two hundred and twelve (212) Family Planning and Maternal Child Health (MCH) Nurses and District staff were trained on client-centered approaches to reach teens in the reproductive health setting.

MSDH Central office and District staffs met to review new challenges, policy and procedures related to quality improvement and outreach to communities for continuous awareness of family planning services and the FPW demonstration program. The Chief Nurse in Health Services provides on-going training to new nursing staff to ensure they have knowledge of the FPW demonstration program and can accurately complete an application to provide guidance and assistance to clients upon request.

The MSDH Family Planning and Breast and Cervical Cancer programs, participated in a “See, Test, Treat” event hosted by University of Mississippi Medical Center (UMMC) Pathology Department. The event was held to support women in the Jackson Metro Area,

Quarterly Operational Report

who did not have access to Papanicolaou tests, clinical breast exams, and mammograms. Sixty-two (62) women participated in the “See, Test, Treat” event, and were provided information about the FPW demonstration program and how to enroll.

There were one hundred thirty-six (136) calls made to the MSDH 1-800-Take Care Hotline for inquiries related to FPW demonstration program and how to access family planning and family planning related services.

PROGRAM EVALUATION, TRANSITION PLAN AND MONITORING

DOM performs desk audits of medical records to determine whether FPW participants have received appropriate medical care for family planning and family planning related services and are appropriately referred for primary care services that are not family planning or family planning related services. Providers selected for an audit are determined through a random selection process.

During quarter one (1), Jan 1, 2017-Mar 31, 2017, there were forty-two (42) medical providers audited and one thousand seventy-four (1,074) records reviewed. Medical documentation and quality assurance issues that may require a written plan of correction and/or follow-up audit include, but are not limited to:

- Health education,
- Primary care referral,
- Labs, and/or
- Contraceptive choices.

Quarterly Operational Report

At the conclusion of the audit, the Medicaid Program Nurse conducts a phone interview with appropriate staff to discuss the findings of the audit, when there is significant deficiency in more than one area and the score is less-than ninety-five percent (95%) compliant. A follow-up letter with the audit results is mailed to the provider within twenty-one (21) days of the completion date of the audit.

Providers must submit a plan of correction following a desk audit if the audit results are ninety-eight percent (98%) and above, no written plan of correction is necessary, ninety-five percent (95%) to ninety-seven and nine tenths percent (97.9%) compliance a written plan of correction is required and no-follow-up on-site or desk audit review, and ninety-four and nine tenths (94.9%) and below, a written plan of correction and a six (6) month follow-up review.

QUARTERLY EXPENDITURES

Demonstration expenditures are reported quarterly using Form CMS-64. Please refer to the quarterly expenditure data for DY 14 as listed in the table below.

Table 9: Quarterly Demonstration Expenditures

Demonstration Year 14 (January 1, 2017-December 31, 2017)				
	Service Expenditures as Reported on the CMS-64	Administrative Expenditures	Total Expenditures as Reported on the CMS-64	Expenditures as requested on the CMS-37
Quarter 1 Expenditures	\$ 1,516,246	\$9,281	\$1,525,527	*N/A
Quarter 2 Expenditures				
Quarter 3 Expenditures				
Quarter 4 Expenditures				
Total Annual Expenditures	\$1,516,246	\$9,281	\$1,525,527	*N/A

**CMS-37 Expenditures are not allocated by each Waiver. Source Data: CMS-64 Quarterly Report*

Quarterly Operational Report

ACTIVITIES FOR THE NEXT QUARTER

Activities for the next quarter include:

- Continuous periodic quality assurance reviews of FPW providers;
- Continuous coordination of outreach activities with DOM and MSDH to bring awareness to eligible beneficiaries and providers;
- Continue DOM and MSDH Interagency quarterly meeting, next meeting schedule for May 9, 2017; and
- Continue reporting to CMS historical data and trends from previous DOM FPW Demonstration years.
- DOM Annual FPW demonstration Public Forum is planned for the month of July, 2017.
