#### Mississippi Family Planning Waiver Project Number 11-W-00157/7 Section 1115 Quarterly Operational Report Demonstration Year 13, Quarter 4 February 28, 2017

### INTRODUCTION PROGRAM OVERVIEW

#### Historical Background

The Mississippi Division of Medicaid (DOM) began implementation of the Family Planning Waiver (FPW) Demonstration Program, Section 1115(a), on October 1, 2003. This program was initially approved by the Centers for Medicare & Medicaid Services (CMS) for a five (5) year period. A three (3) year extension of the FPW was approved on October 30, 2008 through September 30, 2011. The FPW then operated under a temporary extension through December 31, 2014. Currently, the demonstration's special terms and conditions (STCs) are approved from January 1, 2015 through December 31, 2017.

Historical Data of FPW Enrollees & Participants for Demonstration Years 8-13

Source: Cognos Family Planning Enrollment Report/ Note: All data reported on a calendar year

Six (6) year average enrollment and participation in the FPW demonstration is 43,304 and 31,861 respectively. DY 13 FPW had an enrollment increase of eight and three-tenths (8.3%) and participation increase of six and seven-tenths (6.7%) in comparison to DY 12.

Seventy-three and six-tenths (73.6%) percent of the total FPW participants had at least one (1) paid Medicaid claim of family planning and family planning related services for the demonstration years reported.

# **EXECUTIVE SUMMARY**

# Description of the demonstration populations

The FPW demonstration allows Mississippi to provide family planning and family planning related services to women who are losing Medicaid pregnancy coverage at the expiration of the 60-day postpartum period and women and men, ages 13 through 44, who have family incomes at or below 185 percent of the federal poverty level (FPL) post modified adjusted gross income (MAGI) conversion, and who are not otherwise enrolled in Medicaid, the Children's Health Insurance Plan (CHIP) or any other health insurance plan that provides coverage for family planning services.

# Goals of the demonstration

The overarching goal of the Family Planning Section 1115(a) Demonstration Waiver is to reduce the number of unintended pregnancies and improve birth outcomes among Medicaid beneficiaries in the target population, thus reducing associated pregnancy and birth related Medicaid expenditures.

Under this demonstration, DOM expects to promote the objectives of Title XIX by:

- Increasing access to and use of family planning and family planning related services by the targeted population (women and men);
- Improving the access to and use of Medicaid family planning services by women who have received Medicaid pregnancy related services;
- Improving birth outcomes and the health of women by increasing the birthintervals among the target population;
- Decreasing the number of Medicaid-paid deliveries which will reduce annual expenditures for prenatal, delivery, newborn and infant care;
- Reducing the number of unintended and unwanted pregnancies among Medicaid eligible women;
- Reducing teen pregnancy by reducing the number of repeat teen births;
- Increasing the number of primary care referrals to improve the health of the target population; and
- Increasing the overall savings attributable to providing family planning services by covering women for one (1) year postpartum.

### Program Highlights

- The FPW Demonstration renewal extension application was submitted to CMS on December 20, 2016 requesting a five (5) year renewal period.
- Pursuant to 42 CFR Section 431.408, two (2) public hearings and teleconferences were held for the FPW Demonstration extension request, on November 8, 2016 and November 16, 2016.

Demonstration Year (DY) 13	Begin Date	End Date	Quarterly Report Due Date
Quarter 1	January 1, 2017	March 31, 2017	May 31, 2017
Quarter 2	April 1, 2017	June 30, 2017	August 31, 2017
Quarter 3	July 1, 2017	September 30, 2017	November 30, 2017
Quarter 4	October 1, 2017	December 31, 2017	February 28, 2018

#### Table 1: Reporting Quarter Dates

DOM required timeline to submit quarterly reports

#### Significant program changes

There were no significant program changes during the 4<sup>th</sup> quarter.

#### Policy issues and challenges

There were no policy issues or challenges during the 4<sup>th</sup> quarter.

### ENROLLMENT

This demonstration has three eligible populations, as described in the Special Terms & Conditions (STCs):

- *Population 1:* Women losing Medicaid pregnancy coverage at the expiration of the 60-day postpartum period.
- *Population 2:* Women who have a family income at or below 185 percent of the FPL (post MAGI conversion) who are capable of reproducing.
- *Population 3:* Men who have a family income at or below 185 percent of the FPL (post MAGI conversion) who are capable of reproducing.

### **CERTIFICATION OF MEMBER MONTHS**

DOM certifies the accuracy of the reported Member Months of eligible FPW enrollees in the current and previous quarters for DY 12 and DY 13.

### SERVICES AND PROVIDERS

#### Service Utilization

The demonstration project covers approved preventive services that are routinely provided in a family planning setting and treatment of major complications arising from a family planning procedure.

Family planning services and supplies provided to beneficiaries include:

- Approved methods of contraceptives;
- Medications for the treatment of a STI/ STD identified or diagnosed during a routine or periodic FPW visit (except for human immunodeficiency virus infection/ acquired immune deficiency syndrome (HIV/AIDS) and hepatitis);
- Voluntary vasectomy and tubal ligation procedures, including tubal sterilization by hysteroscopy, if the criteria in Miss. Admin. Code Part 202, Rule 5.3 is met; and
- Medications and/or treatments for vaginal infections/disorders, other lower genital tract and genital skin infections/disorders, and urinary tract infections when these conditions are identified or diagnosed during a routine or periodic FPW visit.

Oral Contraceptives	Patch	Nuva- Ring	LARCs	Tubal Ligation	Vasectomy	Method Unknown
5,091	776	348	3,376	56	8	1,456
45.82%	7.0 %	3.13%	30.38%	0.50%	0.07%	13.10%

#### **Provider Participation**

There were two hundred sixty-four (264) unique providers that submitted claims under the FPW in demonstration year 13 quarter four (4).

### PROGRAM OUTREACH AWARENESS AND NOTIFICATION

### General Outreach and Awareness

DOM coordinates outreach and education activities with the MS State Department of Health (MSDH) to improve family planning participation. DOM provider and beneficiary relation's staff used various education activities to increase the promotion of family planning services among hard-to-reach populations. Along with, continuous on-going efforts to integrate preconception health messages into the various outreach activities, such as health fairs and community forums.

### Target Outreach Campaign(s)

DOM Provider Beneficiary Relation Outreach team attended 43 events in various settings and provided FPW education and outreach information to 4,862 Medicaid beneficiaries and providers in quarter four (4) DY 13. The following tables, depicts the types of events, number of events for each type, and the number of attendees for the report period.

Beneficiary Outreach Event by Types	October *E/AS	November *E/AS	December *E/AS	Quarter 4 Totals *E/AS

Mississippi State Department of Health Coordination of Services for the FPW Demonstration

MSDH Comprehensive Reproductive Health Program (CRHP) provided FPW training on eligibility criteria, reimbursements, application process, Medicaid auto transfer after maternity, and treatment and procedures through a power point training with job aides to three (3) of the nine (9) Public Health Districts staff. The staff was also provided locations of regional Medicaid offices and phone numbers to promote and provide Waiver information to the populations they serve. Currently MSDH staff is enrolling all clients that meet the criteria for the Medicaid Waiver. Information is being provided statewide through posters, brochures, and MSDH website. In addition, the District Clinicians are trained on long acting reversible contraceptives (LARCS) insertions.

In an effort to increase awareness within communities in the state, the DOM Family Planning Waiver demonstration information has been provided to Jackson Metro Community Leaders on Saturday mornings at a local coffee shop and at health fairs events. MSDH continues to partner with other providers statewide on reproductive health to offer a broad range of contraceptive methods to help families plan their children and reduce the number of unintended pregnancies.

CRHP staff continues to meet quarterly with District staff to review any new challenges; policy and procedures regarding QI for the agency, and communities to ensure women and men have access to affordable contraceptive services and supplies. MSDH staff is trained to teach the client on how to use contraceptives effectively to avoid an unintended pregnancy or an unplanned birth.

The Central, District Offices and county staff of CRHP conducted community meetings to review the FPW demonstration statewide relative to barriers, challenges and guidelines for the continued implementation and accountability of the Districts is being upheld by the State Health Officer.

There were one hundred ninety-nine (199) calls to the MSDH 1-800-Take-Care-Line for inquiries related to Family Planning and Family Planning related services (Waiver) during quarter four (4).

#### PROGRAM EVALUATION, TRANSITION PLAN AND MONITORING

DOM performs desk audits of medical records to determine whether FPW participants have received appropriate medical care for family planning and family planning related services and are appropriately referred for primary care services that are not family planning or family planning related services. Providers selected for an audit are determined through a random selection process.

During quarter four (4), Oct 1, 2016-Dec 31, 2016, there were forty-three (43) medical providers audited and one thousand seventy-four (1,074) records reviewed. Medical documentation and quality assurance issues that may require a written plan of correction and/or follow-up audit include, but are not limited to:

- Health education,
- Primary care referral,
- Labs, and/or
- Contraceptive choices.

At the conclusion of the audit, the Medicaid Program Nurse conducts a phone interview with appropriate staff to discuss the findings of the audit, when there is significant deficiency in more than one area and the score is less-than ninety-five percent (95%) compliant. A follow-up letter with the audit results is mailed to the provider within twenty-one (21) days of the completion date of the audit.

Providers must submit a plan of correction following a desk audit if the audit results are ninety-eight percent (98%) and above, no written plan of correction is necessary, ninety-five percent (95%) to ninety-seven and nine tenths percent (97.9%) compliance a written plan of correction is required and no-follow-up on-site or desk audit review, and ninety-four and nine tenths (94.9%) and below, a written plan of correction and a six (6) month follow-up review.

## **QUARTERLY EXPENDITURES**

Demonstration expenditures are reported quarterly using Form CMS-64. Please refer to the quarterly expenditure data for demonstration year (13) as listed in the table below.

1 4010 21 24410	eny bemonstration						
Demonstration Year 13 (January 1, 2016-December 31, 2016)

\*CMS-37 Expenditures are not allocated by each Waiver. Source Data: CMS-64 Quarterly Report

## **ACTIVITIES FOR THE NEXT QUARTER**

Activities for the next quarter include:

- Submission of the FPW Annual Report to CMS;
- Continuous periodic quality assurance reviews of FPW providers;
- Continuous coordination of outreach activities with DOM and MSDH to bring awareness to eligible beneficiaries and providers;
- Continue DOM and MSDH Interagency quarterly meeting, next meeting schedule for February 16, 2017; and
- Continue reporting to CMS historical data and trends from previous DOM FPW Demonstration years.
