Centers for Medicare & Medicaid Services  
7500 Security Boulevard, Mail Stop: S2-01-16  
Baltimore, Maryland 21244-1850

MAR 31 2014

Dr. Nirav R. Shah, M.D.  
Commissioner  
Office of Health Insurance Programs  
New York Department of Health  
Empire State Plaza  
Corning Tower Building  
Albany, NY 12237

Dear Dr. Shah:

This letter is to inform you that the Centers for Medicare & Medicaid Services (CMS) has approved your request to amend New York's Medicaid section 1115 of the Social Security Act (the Act) demonstration, entitled the "Partnership Plan" (Project No. 11-W-00114/2). This amendment is effective as of April 1, 2014.

This award effectuates several changes to the Partnership Plan demonstration New York requested. At this time, CMS is approving the following requests:

- Extending the authority for the state to claim Federal Financial Participation (FFP) for an Indigent Care Pool in order to provide uncompensated care grants to clinics.
- Extending the authority for the state to claim FFP for certain Designated State Health Programs (DSHP) in order to claim allowable expenditures to provide benefits to the former-Family Health Plus (FHPlus) program for parents and caretaker relatives. This authority has been extended to December 31, 2014.
- Extending the authority for continuous eligibility for current Medicaid eligible individuals.
- Approving authority for the state to provide continuous eligibility for the new Medicaid population of adults determined eligible using the Modified Adjusted Gross Income (MAGI) methodology. Under this authority, the state will be required to apply a 2.6 percent downward adjustment to expenditures at the newly eligible Federal Medical Assistance Percentage (FMAP) rate, and instead claim for such expenditures at the regular FMAP rate to ensure that such claims accurately distinguish between demonstration expenditures and expenditures for newly eligible individuals.
- Extending the authority to provide facilitated enrollment services.
- Extending the authority to provide Home and Community Based Services (HCBS) under the HCBS Expansion Program.

- Moving the authority for Medicaid eligibles receiving services under the phased out Federal-State Health Reform Partnership (F-SHRP) demonstration into the Partnership Plan.

Although not included in the state's request, CMS is approving the extension of expenditure authority for the following demonstration population in the Partnership Plan that expires March 31, 2014:

- Individuals Moved from Institutional Settings to Community Settings for Long Term Care Services

Extending the expenditure authority for this population will assist the state in continuing to provide individuals who are moving from nursing facilities into community settings with appropriate benefits and less restrictive environments. The authority for this population is extended until December 31, 2014.

The demonstration expenditure and waiver authorities and Special Terms and Conditions (STCs) have been changed to reflect the changes above.

This approval is conditioned upon compliance with the enclosed STCs and is subject to our receiving your acknowledgement of the award and the acceptance of the STCs within 30 days of the date of this letter.

Your acceptance and any questions regarding the Partnership Plan demonstration may be directed to your project officer, Jessica Woodard. Ms. Woodard can be reached at (410) 786-9249 or [Jessica.Woodard@cms.hhs.gov](mailto:Jessica.Woodard@cms.hhs.gov). Communications regarding program matters and official correspondence concerning the demonstration should be submitted to Ms. Woodard at the following address:

Centers for Medicare & Medicaid Services  
Center for Medicaid & CHIP Services  
Mail Stop: S2-01-16  
7500 Security Boulevard  
Baltimore, MD 21244-1850

Official communications regarding program matters should be sent simultaneously to Ms. Woodard and to Mr. Michael Melendez, Associate Regional Administrator, in our New York Regional Office. Mr. Melendez's contact information is as follows;

Centers for Medicare & Medicaid Services  
New York Regional Office  
Division of Medicaid and Children's Health  
26 Federal Plaza  
New York, New York 10278  
Telephone: (212) 616-2430  
E-mail: [Michael.Melendez@cms.hhs.gov](mailto:Michael.Melendez@cms.hhs.gov)

We look forward to continuing to work with you and your staff.

Sincerely,

Cindy Mann  
Director

Enclosure

**CENTERS FOR MEDICARE & MEDICAID SERVICES**

**SECTION 1115 OF THE SOCIAL SECURITY ACT MEDICAID DEMONSTRATION**

**NEW YORK PARTNERSHIP PLAN**

**WAIVER NUMBER 11-W-00114/2**

**CENTERS FOR MEDICARE & MEDICAID SERVICES  
WAIVER AUTHORITY**

**NUMBER: 11-W-00114/2**

**TITLE: Partnership Plan Medicaid Section 1115 Demonstration**

**AWARDEE: New York State Department of Health**

All requirements of the Medicaid program expressed in law, regulation, and policy statement, not expressly waived in this list, shall apply to the demonstration, beginning April 1, 2014 through December 31, 2014.

The following waivers shall enable New York to implement the approved Special Terms and Conditions (STCs) for the New York Partnership Plan Medicaid section 1115 demonstration.

**1. Statewideness** **Section 1902(a)(1)**

To permit the exclusion of some residents of some counties in New York from participation in Mandatory Mainstream Managed Care (MMMC) and Managed Long Term Care (MLTC) under this demonstration.

**2. Income Comparability** **Section 1902(a)(17)**

To enable New York to apply a more liberal income standard for individuals who are deinstitutionalized and receive home and community-based services (HCBS) through the managed long term care program than for other individuals receiving community-based long term care.

**3. Freedom of Choice** **Section 1902(a)(23)(A)**

To the extent necessary to enable New York to require beneficiaries to enroll in managed care plans, to the extent of the services furnished through the MMMC and MLTC programs. Beneficiaries shall retain freedom of choice of family planning providers.

**CENTERS FOR MEDICARE & MEDICAID SERVICES  
EXPENDITURE AUTHORITY LIST**

**NUMBER: 11-W-00114/2**

**TITLE: Partnership Plan Medicaid Section 1115 Demonstration**

**AWARDEE: New York State Department of Health**

Under the authority of section 1115(a)(2) of the Social Security Act (the Act), expenditures made by New York for the items identified below, which are not otherwise included as expenditures under section 1903 of the Act shall, for the period beginning April 1, 2014, until the ending date specified for each authority, be regarded as expenditures under the state's title XIX plan.

The following expenditure authorities shall enable New York to implement the approved Special Terms and Conditions (STCs) for the New York Partnership Plan Medicaid Section 1115 demonstration.

1. **Demonstration-Eligible Populations.** Expenditures for healthcare related costs for the following populations that are not otherwise eligible under the Medicaid state plan. (End Date: December 31, 2014).
  - Demonstration Population 9 (HCBS Expansion). Medically needy individuals who are receiving HCBS, and who are medically needy after application of community spouse and spousal impoverishment eligibility and post-eligibility rules under 1924 of the Act are applied.
  - Demonstration Population 10 (Individuals Moved from Institutional Settings to Community Settings for Long Term Care Services). Expenditures for health care related costs for individuals moved from institutional nursing facility settings to community settings for long term services and supports who would not otherwise be eligible based on income, but whose income does not exceed a more liberal income standard, and who receive services through the managed long term care program under the demonstration.
2. **Twelve-Month Continuous Eligibility Period.** Expenditures for health care related costs for individuals who have been determined eligible under groups specified in Table 1 of STC 4 in Section IV for continued benefits during any periods within a twelve month eligibility period when these individuals would be found ineligible if subject to redetermination (End Date: December 31, 2014)
3. **Twelve-Month Continuous Eligibility Period.** Expenditures for health care related costs for individuals in the new adult population determined eligible under the Modified Adjusted Gross Income (MAGI) methodology. This population will receive continued benefits during any period within a twelve month eligibility period when these individuals would be found ineligible if subject to redetermination. To reflect that only the regular matching rate is

available for these demonstration expenditures, the state shall make a downward adjustment of 2.6 percent in claimed expenditures for federal matching at the enhanced federal matching rate, and will instead claim those expenditures at the regular matching rate.

4. **Facilitated Enrollment Services.** Expenditures for enrollment assistance services provided by organizations that do not meet the requirements of Section 1903(b)(4) of the Act, as interpreted by 42 CFR 438.810(b)(1) and (2). Inasmuch as these services may be rendered by MCOs and therefore included in the MCOs' capitation payments, no expenditures other than these payments may be submitted for FFP. (End Date: December 31, 2014)
5. **Designated State Health Programs Funding.** Expenditures for the designated state health programs specified in Section VII which provide health care services to low-income or uninsured New Yorkers in an amount not to exceed \$531.2 million of the demonstration period, including \$186.2 million for direct funding for an indigent care pool. (End Date: December 31, 2014.)
6. **Designated State Health Programs Funding.** Expenditures for the designated state health program specified in STC 10 in Section VII which provides transitional Family Health Plus (FHPlus) benefits to parents and caretaker relatives with incomes up to 150 percent of the FPL. This authority expires December 31, 2014.
7. **Designated State Health Programs Funding.** Expenditures for the designated state health program specified in Section VII which provides premium subsidies to FHPlus individuals and new applicants between 133 percent and 150 percent FPL who have coverage through the Marketplace. This authority expires December 31, 2014.

**CENTERS FOR MEDICARE & MEDICAID SERVICES  
SPECIAL TERMS AND CONDITIONS**

**NUMBER:** 11-W-00114/2

**TITLE:** Partnership Plan Medicaid Section 1115 Demonstration

**AWARDEE:** New York State Department of Health

**I. PREFACE**

The STCs have been arranged into the following subject areas:

- I. Preface
- II. Program Description and Objectives
- III. General Program Requirements
- IV. Populations Affected by and Eligible Under the Demonstration
- V. Demonstration Benefits and Enrollment
- VI. Delivery Systems
- VII. Quality Demonstration Programs and Clinic Uncompensated Care Funding
- VIII. General Reporting Requirements
- IX. General Financial Requirements
- X. Monitoring Budget Neutrality
- XI. Evaluation of the Demonstration
- XII. Schedule of State Deliverables for the Demonstration Extension.

Additionally, attachments have been included to provide supplementary information and guidance for specific STCs. More attachments will be developed to provide additional guidance for the health system transformation for individuals with developmental disabilities.

**II. PROGRAM DESCRIPTION AND OBJECTIVES**

The state's goal in implementing the Partnership Plan section 1115(a) demonstration is to improve access to health services and outcomes for low-income New Yorkers by:

- Improving access to health care for the Medicaid population;
- Improving the quality of health services delivered;
- Expanding access to family planning services; and
- Expanding coverage with resources generated through managed care efficiencies to additional low-income New Yorkers.

The demonstration is designed to use a managed care delivery system to deliver benefits to Medicaid recipients, create efficiencies in the Medicaid program, and enable the extension of coverage to certain individuals who would otherwise be without health insurance. It was approved in 1997 to enroll most Medicaid recipients into managed care organizations (MCOs) (Medicaid managed care program). As part of the demonstration's renewal in 2006,

authority to require some disabled and aged populations to enroll in mandatory managed care was transferred to a new demonstration, the Federal-State Health Reform Partnership (F-SHRP). Effective April 1, 2014, this authority was restored to this demonstration as F-SHRP was phased out.

In 2001 the Family Health Plus (FHPlus) program was implemented as an amendment to the demonstration, providing comprehensive health coverage to low-income uninsured adults, with and without dependent children, who have income greater than Medicaid state plan eligibility standards. FHPlus was further amended in 2007 to implement an employer-sponsored health insurance (ESHI) component. Individuals eligible for FHPlus who have access to cost-effective ESHI are required to enroll in that coverage, with FHPlus providing any wrap-around services necessary to ensure that enrollees get all FHPlus benefits. FHPlus expires on December 31, 2013 and will become a state-only program, but federal matching funding for state expenditures for FHPlus will continue to be available as a designated state health program through December 31, 2014.

In 2002 the demonstration was expanded to incorporate a family planning benefit under which family planning and family planning-related services are provided to women losing Medicaid eligibility and to certain other adults of childbearing age (family planning expansion program). The family planning expansion program expires on December 31, 2013 and becomes a state plan benefit.

In 2010 the Home and Community Based Services Expansion program (HCBS expansion program) was added to the demonstration. It provides cost-effective home and community based services to certain adults with significant medical needs as an alternative to institutional care in a nursing facility. The benefits and program structure mirrors those of existing section 1905(c) waiver programs, and strives to provide quality services for individuals in the community, ensure the well-being and safety of the participants and increase opportunities for self-advocacy and self-reliance.

As part of the 2011 extension, the state was authorized to develop and implement two new initiatives designed to improve the quality of care rendered to Partnership Plan recipients. The first, the Hospital-Medical Home (H-MH) project, will provide funding and performance incentives to hospital teaching programs in order to improve the coordination, continuity and quality of care for individuals receiving primary care in outpatient hospital settings. By the end of the demonstration extension period, the hospital teaching programs which receive grants under the H-MH project will have received certification by the National Committee for Quality Assurance as patient-centered medical homes and implemented additional improvements in patient safety and quality outcomes.

The second 2011 initiative was intended to reduce the rate of preventable readmissions within the Medicaid population, with the related longer-term goal of developing reimbursement policies that provide incentives to help people stay out of the hospital. Under the Potentially Preventable Readmissions (PPR) project, the state will provide funding, on a competitive basis, to hospitals and/or collaborations or hospitals and other providers for the purpose of developing and implementing strategies to reduce the rate of PPRs for the

Medicaid population. Projects I target readmissions related to both medical and behavioral health conditions.

Finally, in 2011 CMS began providing matching funding for the state's program to address clinic uncompensated care through its Indigent Care Pool. Prior to this extension period, the state funded (with state dollars only) this program which provides formula-based grants to voluntary, non-profit and publicly-sponsored Diagnostic and Treatment Centers (D&TCs) for services delivered to the uninsured throughout the state.

In 2012, New York added to the demonstration an initiative to improve service delivery and coordination of long term care services and supports for individuals through a managed care model. Under the Managed Long Term Care (MLTC) program, eligible individuals in need of more than 120 days of community-based long term care are enrolled with managed care providers to receive long term services and supports as well as other ancillary services. Other covered services are available on a fee-for-service basis to the extent that New York has not exercised its option to include the individual in the Mainstream Medicaid Managed Care Program (MMMC). Enrollment in MLTC was phased in geographically and by group.

The state's goal specific to managed long term care (MLTC) are as follows:

- Expanding access to managed long term care for Medicaid enrollees who are in need of long term services and supports (LTSS);
- Improving patient safety and quality of care for enrollees in MLTC plans;
- Reduce preventable inpatient and nursing home admissions; and
- Improve satisfaction, safety and quality of life.

In April 2013 New York had three amendments approved. The first amendment was a continuation of the state's goal for transitioning more Medicaid beneficiaries into managed care. Under this amendment, the Long Term Home Health Care Program (LTHHCP) participants were transitioned from New York's 1915(c) waiver into the 1115 demonstration and into managed care. Second, this amendment eliminated the exclusion from MMMC of, bot foster care children placed by local social service agencies and individuals participating in the Medicaid buy-in program for the working disabled.

Additionally the April 2013 amendment approved expenditure authority for New York to claim FFP for expenditures made for certain designated state health program beginning April 1, 2013 through March 31, 2014. During this period, the state was also required to submit several deliverables to demonstrate that the state was successful in its efforts to transform its health system for individuals with developmental disabilities.

A December 2013 amendment was approved to ensure that the demonstration made changes that were necessary in order to coordinate its programs with the Medicaid expansion and other changes made under the Affordable Care Act (ACA) beginning January 1, 2014.

Effective April 1, 2014 CMS approved an amendment to extend several authorities that expired in calendar year 2014. As part of the amendment CMS extended authorities related

to the transitioning of parents into state plan coverage and other authorities that provide administrative ease to the state's programs and continuing to provide services to vulnerable populations, i.e. HCBS Expansion program and individuals moved from institutional settings into community based settings.

Also effective April 1, 2014, the Federal-State Health Reform Partnership (F-SHRP) demonstration phased out and populations receiving managed care or managed long term care in the 14 counties that encompassed the F-SHRP demonstration were moved into the Partnership Plan demonstration.

### **III. GENERAL PROGRAM REQUIREMENTS**

- 1. Compliance with Federal Non-Discrimination Statutes.** The state must comply with all applicable federal statutes relating to non-discrimination. These include, but are not limited to, the Americans with Disabilities Act of 1990, title VI of the Civil Rights Act of 1964, section 504 of the Rehabilitation Act of 1973 and the Age Discrimination Act of 1975.
- 2. Compliance with Medicaid Law, Regulation and Policy.** All requirements of the Medicaid program expressed in law, regulation and policy statement, not expressly waived or identified as not applicable in the waiver and expenditure authority documents (of which these terms and conditions are part), must apply to the demonstration.
- 3. Changes in Medicaid Law, Regulation and Policy.** The state must, within the timeframes specified in law, regulation or policy statement, come into compliance with any changes in federal law, regulation or policy affecting the Medicaid program that occur during this demonstration approval period, unless the provision being changes is expressly waived or identified as not applicable.
- 4. Impact on Demonstration of Changes in Federal Law, Regulation and Policy.**
  - a.** To the extent that a change in federal law, regulation or policy requires either a reduction or an increase in federal financial participation (FFP) for expenditures made under this demonstration, the state must adopt, subject to CMS approval, a modified budget neutrality agreement for the demonstration as necessary to comply with such change. The modified agreement will be effective upon the implementation of the change. The modified agreement will be effective upon the implementation of the change. The trend rates for the budget neutrality agreement are not subject to change under this subparagraph.
  - b.** If mandated changes in the federal law require state legislation, the changes must take effect on the day such state legislation becomes effective, or on the last day such legislation was required to be in effect under the law.
- 5. State Plan Amendments.** The state will not be required to submit title XIX state plan amendments for changes affecting any populations made eligible solely through the demonstration. If a population eligible through the Medicaid state plan is affected by a

change to the demonstration, a conforming amendment to the state plan may be required, except as otherwise noted in these STCs.

- 6. Changes Subject to the Amendment Process.** Changes related to program design, eligibility, enrollment, expansion of program benefits, sources of non-federal share of funding and budget neutrality must be submitted to CMS as amendments to the demonstration. All amendment requires are subject to approval at the discretion of the Secretary in accordance with section 1115 of the Social Security Act (the Act). The state must not implement changes to these elements without prior approval by CMS. Amendments to the demonstration are not retroactive, and FFP will not be available for changes to the demonstration that have not been approved through the amendment process outlined in STC 7 below.
- 7. Amendment Process.** Requests to amend the demonstration must be submitted to CMS for approval no later than 120 days prior to the planned date of implementation of the change and may not be implemented until approved. Amendment requests must include, but are not limited to, the following:

  - a.** An explanation of the public process used by the state, consistent with the requirements of STC 14, to reach a decision regarding the requested amendment.
  - b.** A data analysis which identifies the specific “with waiver” impact of the proposed amendment on the current budget neutrality agreement. Such analysis shall include current total computable “with waiver” and “without waiver” status on both a summary and detailed level through the current approval period using the most recent actual expenditures, as well as summary and detailed projections of the change in the “with waiver” expenditure total as a result of the proposed amendment, which isolates (by eligibility group/EG) the impact of the amendment;
  - c.** A detailed description of the amendment, including impact on beneficiaries, with sufficient supporting documentation; and
  - d.** If applicable, a description of how the evaluation design will be modified to incorporate the amendment provisions.
- 8. Extension of the Demonstration.**

  - a.** Should the state intend to request an extension of the demonstration under section 1115(a), 1115(e) or 1115(f), the state must submit an extension request no later than 12 months prior to the expiration of the demonstration extension request or a phase-out plan consistent with the requirements of STC 9.
  - b.** Compliance with Transparency Requirements of 42 CFR 431.412. Effective April 27, 2012, as part of the demonstration extension requests, the state must provide documentation of compliance with the transparency requirements of 42 CFR 431.412 and

the public notice and tribal consultation requirements outlined in STC 14 regarding Public Notice, Tribal Consultation and Consultation with Interested Parties.

**9. Demonstration Phase-Out.** The state may suspend or terminate this demonstration in whole, or in part, consistent with the following requirements:

**a. Notification of Suspension or Termination:** The state must promptly notify CMS in writing of the reason(s) for the suspension or termination, together with the effective date and phase-out plan. The state must submit its notification letter and a draft phase-out plan to CMS no less than 4 months before the effective date of the demonstration's suspension or termination. Prior to submitting the draft phase-out plan to CMS, the state must publish on its website the draft phase-out plan for 30 day public comment period. In addition, the state must conduct tribal consultation in accordance with its approved tribal consultation state plan amendment. Once the 30 day public comment period has ended, the state must provide a summary of each public comment received, the state's response to the comment, and the way the state incorporated the received comment into a revised phase-out plan.

CMS must approve the phase-out plan prior to the implementation of the phase-out activities. There must be a 14 day period between CMS approval and the phase-out plan implementation of phase-out activities.

**b. Phase-Out Plan Requirements:** The state must include, at a minimum, in its phase out plan its process by which it will notify affected beneficiaries, the content of said notices (including information on the beneficiary's appeal rights), the process by which the state will conduct administrative reviews of Medicaid eligibility for the affected beneficiaries, and any community outreach activities.

**c. Phase-Out Procedures:** The state must comply with all notice requirements found in 42 CFR § 431.206, § 431.210 and § 431.213. In addition, the state must ensure all appeal and hearing rights afforded to demonstration participants as outlined in 42 CFR § 431.220 and § 431.221. If a demonstration participant requests a hearing before the date of action, the state must maintain benefits as required in 42 CFR § 431.230. In addition, the state must conduct administrative renewals for all affected beneficiaries in order to determine whether they qualify for Medicaid eligibility under a different eligibility category as discussed in the October 1, 2011 State Health Official Letter #10-008.

**d. Federal Financial Participation (FFP):** If the project is terminated or any relevant waivers suspended by the state, FFP shall be limited to normal closeout costs associated with terminating the demonstration including services and administrative costs of disenrolling participants.

**10. CMS Right to Terminate or Suspend.** CMS may suspend or terminate the demonstration, subject to adequate public notice, (in whole or in part) at any time before the date of expiration, whenever it determines following a hearing that the state has materially failed to comply with the terms of the project. CMS will promptly notify the state in writing of the

determination and the reasons for the suspension or termination, together with the effective date.

- 11. Finding of Non-Compliance.** The state does not relinquish its rights to challenge CMS findings that the state materially failed to comply.
- 12. Withdrawal of Waiver Authority.** CMS reserves the right to withdraw waivers or expenditure authorities at any time it determines that continuing the waivers or expenditure authorities would no longer be in the public interest or promote the objectives of title XIX of the Act. CMS will promptly notify the state in writing of the determination and the reasons for the withdrawal, together with the effective date and afford the state an opportunity to request a hearing to challenge CMS' determination prior to the effective date. If a waiver or expenditure authority is withdrawn, FFP is limited to normal closeout costs associated with terminating the waiver of expenditure authority, including services and administrative costs of disenrolling participants.
- 13. Adequacy of Infrastructure.** The state must ensure the availability of adequate resources for implementation and monitoring of the demonstration, including education, outreach and enrollment; maintaining eligibility systems; compliance with cost sharing requirements; monitoring and oversight of managed care plans providing long term services and supports including quality and enrollment processes; and reporting on financial and other demonstration components.
- 14. Public Notice, Tribal Consultation and Consultation with Interested Parties.** The state must comply with the state Notice Procedures set forth in 59 Fed. Reg. 49249 (September 27, 1994). The state must also comply with the tribal consultation requirements in section 1902(a)(73) of the Act as amended by section 5006(e) of the American Recovery and Reinvestment Act (ARRA) of 2009 and the tribal consultation requirements contained in the state's approved state plan, when the state proposes any program changes to the demonstration, including (but not limited to) those referenced in STC 6.

In states with federally recognized Indian tribes, consultation must be conducted in accordance with the consultation process outlined in the July 17, 2001 letter or the consultation process in the state approved Medicaid state plan, if that process is specifically applicable to consulting with tribal governments on waivers (42 CFR § 431.408(b)(2)).

#### **IV. POPULATIONS AFFECTED BY AND ELIGIBILITY UNDER THE DEMONSTRATION**

- 1. Demonstration Components.** The Partnership Plan includes five distinct components, each of which affects different populations, some of which are eligible under the state plan and some of which are eligible only as an expansion population under the demonstration.
  - a. Mainstream Medicaid Managed Care Program (MMMC).** This component provides Medicaid state plan benefits through a managed care delivery system comprised of

managed care organizations (MCOs) and primary care case management (PCCM) arrangements to most recipients eligible under the state plan. All state plan eligibility determination rules apply to these individuals.

Specifically the state has authority to expand mandatory enrollment in mainstream managed care to all individuals identified in Table 2 (except those otherwise excluded or exempted as outlined in STC 9). When the state intends to expand mandatory managed care enrollment to additional counties, it must notify CMS 90 days prior to the effective date of the expansion and submit a revised assessment of the demonstration's budget neutrality agreement, which reflects the projected impact of the expansion for the remainder of the demonstration approval period.

- b. Managed Long Term Care (MLTC).** This component provides a limited set of Medicaid state plan benefits including long term services and supports through a managed care delivery system to individuals eligible through the state plan who require more than 120 days of community based long term care services.

Services not provided through the MLTC program are provided on a fee-for-service basis. The state has authority to expand mandatory enrollment into MLTC to all individuals identified in Table 3 (except those otherwise excluded or exempted as outlined in STC 10) with initial mandatory enrollment starting in any county in New York city and then expanding statewide based on the enrollment plan outlined in Attachment F. When the state intends to expand into a new county outside of New York City, it must notify CMS 90 days prior to the effective date of the expansion and submit a revised assessment of the demonstration's budget neutrality agreement along with all other required materials as outlined in Section V.

- c. Home and Community Based Services Expansion Program (HCBS Expansion).** This component provides home and community based services to those provided under three of the state's section 1915(c) HCBS waivers (Long Term Home Health Care Program/LTHHCP, Nursing Home Transition and Diversion Program/NHTD, and Traumatic Brain Injury Program/TBI) to certain medically needy individuals. These services enable these individuals to live at home with appropriate supports rather than in a nursing facility.

- 2. Individuals Eligible under the Medicaid State Plan (State Plan Eligibles).** Mandatory and optional Medicaid state plan populations derive their eligibility through the Medicaid state plan and are subject to all applicable Medicaid laws and regulations in accordance with the Medicaid state plan, except as expressly waived and as further described in these STCs.
- 3. Individuals Not Otherwise Eligible under the Medicaid State Plan.** Individuals made eligible under this demonstration by virtue of the expenditure authorities expressly granted include those in the HCBS Expansion component of the demonstration and are subject to all

applicable Medicaid laws and regulations in accordance with the Medicaid state plan, except as specified as not applicable in the expenditure authorities for this demonstration.

**4. Continuous Eligibility Period.**

**a. Duration.** The state is authorized to provide a 12 month continuous eligibility period to the groups of individuals specified in Table 1, regardless of the delivery system through which they receive Medicaid benefits. Once the state begins exercising this authority, each newly eligible individual’s 12 month period shall begin at the initial determination of eligibility; for those individuals who are redetermined eligible consistent with Medicaid state plan rules, the 12-month period begins at that point. At each annual eligibility redetermination thereafter, if an individual is redetermined eligible under the Medicaid state plan the individual is guaranteed a subsequent 12 month continuous eligibility period. 12 month continuous eligibility is also authorized for the new adult group 1902(a)(10)(A)(i)(VIII).

**b. Exceptions.** Notwithstanding subparagraph (a), if any other following circumstances occur during an individual’s 12 month continuous eligibility period, the individual’s Medicaid eligibility shall be terminated:

- i.** The individual cannot be located.
- ii.** The individual is no longer an New York State resident.
- iii.** The individual requests termination of eligibility.
- iv.** The individual dies.
- v.** The individual fails to provide, or cooperate in obtaining a Social Security Number, if otherwise required.
- vi.** The individual provided an incorrect or fraudulent Social Security Number.
- vii.** The individual was determined eligible for Medicaid in error.
- viii.** The individual is receiving treatment in a setting where Medicaid eligibility is not available (e.g. institution for mental disease).
- ix.** The individual is in receipt of long term care services.
- x.** The individual is receiving care, services or other supplies under a section 1915 waiver.
- xi.** The individual was previously otherwise qualified for emergency medical assistance benefits only, based on immigration status, but is no longer qualified because the emergency has been resolved.
- xii.** The individual fails to provide the documentation of citizenship or immigration status required under federal law.
- xiii.** The individual is incarcerated.

**Table 1: Groups Eligible for a 12 Month Continuous Eligibility Period**

<b>State Plan Mandatory and Optional Groups</b>	<b>Statutory Reference (Social Security Act)</b>
Pregnant women aged 19 or older	1902(a)(10)(A)(i)(III) or (IV); and 1902(a)(10)(A)(ii)(I) and (II)
Children aged 19 or 20	1902(a)(10)(A)(ii)(I) and (II)
Parents or other caretaker relatives aged 19 or	1902(a)(10)(A)(ii)(I) and (II)

older	
Members of low income families, except for children	1931 and 1925
Medically needy pregnant women, children and parents/caretaker relatives	Without spend down under 1902(a)(10)(C)(i)(III)

**5. Individuals enrolled in MMMC.** Table 2 below lists the groups of individuals who receive Medicaid benefits through the Medicaid managed care component of the demonstration, as well as the relevant expenditure reporting category (demonstration population) for each.

**Table 2: Mainstream Medicaid Managed Care Program**

State Plan Mandatory and Optional Groups	FPL and/or Other Qualifying Criteria	Expenditure and Eligibility Group Reporting
Pregnant Women	Income up to 200% of FPL	Demonstration Population 2/Temporary Assistance to Needy Families (TANF) Adult
Children under age 1	Income up to 200% of FPL	Demonstration Population 1/TANF Child
Children 1 through 5	Income up to 133% of the FPL	Demonstration Population 1/TANF Child
Children 6 through 18	Income up to 133% of FPL	Demonstration Population 1/TANF Child
Children 19 through 20	Income at or below the monthly income standard (determined annually)	Demonstration Population 1/TANF Child
Foster Children Aged 0 through 20, (IV-E Foster Children and non IV-E Foster Children)	Categorically Medicaid Eligible, Disregard all Income	Demonstration Population 1/TANF Child
The New Adult Group (effective January 1, 2014)	Income up to 133% of FPL	New Adult Group
Parents and Caretaker Relatives	Income at or below the monthly income standard (determined annually)	Demonstration Population 2/TANF Adult

**6. Individuals enrolled in MLTC.** Table 3 below lists the groups of individuals who may be enrolled in the Managed Long Term Care component of the demonstration as well as the relevant expenditure reporting category (demonstration population) for each. To be eligible, all individuals in this program must need more than 120 days of community based long term care services and for MAP and PACE have a nursing home level of care.

**Table 3: Managed Long Term Care Program**

State Plan Mandatory and Optional Groups	FPL and/or Other Qualifying Criteria	Expenditure and Eligibility Group Reporting
Adults aged 65 and older	Income at or below SSI level	Demonstration Population 11/MLTC Adults 65 and

		above – Duals
Adults/children aged 19 through 64	Income at or below SSI level	Demonstration Population 10/MLTC Adults 18 through 64 – Duals
Adults aged 65 and older	Income at or below the monthly income standard, or with spend down to monthly income standard	Demonstration Population 11/MLTC Adults 65 and above - Duals
Adults/children aged 18 through 64 blind and disabled	Income at or below the monthly income standard, or with spend down to monthly income standard	Demonstration Population 10/MLTC Adults 18 through 64 – Duals
Aged 18 through 64 Medicaid Buy In for Working People with Disabilities	Income up to 250% of FPL	Demonstration Population 10/MLTC Adults 18 through 64 – Duals
Parents and Caretaker Relatives 21 through 64	Income at or below the monthly income standard, or with spend down to monthly income standard	Demonstration Population 10/MLTC Adults 18 through 64 – Duals
Children aged 18 through 20	Income at or below the monthly income standard or with spend down	Demonstration Population 10/MLTC Adults 18 through 64 – Duals
Pregnant Women	Income up to 200% of FPL	Demonstration Population 10/MLTC Adults 18 through 64 – Duals
Poverty Level Children Aged 18 through 20	Income up to 133% of FPL	Demonstration Population 10/MLTC Adults 18 through 64 – Duals
Foster Children Aged 18 through 20	In foster care on the date of 18 <sup>th</sup> birthday	Demonstration Population 10/MLTC Adults 18 through 64 – Duals
Individuals Moved from Institutional Settings to Community Settings for Long Term Care Services	Income based on higher income standard to community settings for long term services and supports pursuant to STC 8	Demonstration Population 10 and 11/MLTC Adults 18 through 64 and MLTC Adults 65 and above

**7. Individuals enrolled in HCBS Expansion Program.** This group, identified as Demonstration Population 9/HCBS Expansion, includes married medically needy individuals:

- a. Who meet a nursing home level of care;
- b. Whose spouse lives in the community; and

- c. Who could receive services in the community but for the application of the spousal impoverishment eligibility and post-eligibility rules of section 1924 of the Act.

**8. Individuals Moved from Institutional Settings to Community Settings for Long Term Services and Supports.** Individuals discharged from a nursing facility who enroll into the MLTC program in order to receive community based long term services and supports or who move from an adult home as defined in subdivision twenty-five of section two of the social services law, to the community and, if applicable, enroll into the MLTC program, are eligible based on a special income standard. Spousal impoverishment rules shall not apply to this population. The special income standard will be determined by utilizing the average Housing and Urban Development (HUD) Fair Market Rent (FMR) dollar amounts for each of the seven regions in the state, and subtracting from that average, 30 percent of the Medicaid income level (as calculated for a household of one) that is considered available for housing. The seven regions of the state include: Central, Northeast, Western, Northern Metropolitan, New York City, Long Island and Rochester.

The state shall work with Nursing Home Administrators, nursing home discharge planning staff, family members and the MLTC health plans to identify individuals who may qualify for the housing disregard as they are able to be discharged from a nursing facility back into the community and enrolled into the MLTC program. Spousal impoverishment rules shall apply to individuals who have a spouse living in the community who enroll into the MLTC program.

Enrollees receiving community based long term services and supports must be provided with nursing facility coverage through managed care, if nursing facility care is needed for 120 days or less and there is an expectation that the enrollee will return to community based settings. During the short term nursing facility stay, the state must retain the enrollees' community maintenance needs allowance. In addition, the state will ensure that the MLTC Managed Care Organizations (MCOs) work with individuals, their families, nursing home administrators, and discharge planners to help plan for the individual's move back into the community, as well as to help plan for the individual's medical care once he/she has successfully moved into his/her home. For dually eligible enrollees, the MCO is responsible for implementing and monitoring the plan of care between Medicare and Medicaid. The MCO must assure the services are available to the enrollee.

**9. Exclusions and Exemptions from MMMC.** Notwithstanding the eligibility criteria in STC 1, certain individuals cannot receive benefits through the MMMC program (i.e. excluded), while others may request an exemption from receiving benefits through the MMMC program (i.e. exempted). Tables 6 and 7 list those individuals either excluded or exempted from MMMC.

**Table 4: Individuals Excluded from MMMC**

Individuals who become eligible for Medicaid only after spending down a portion of their income
Residents of state psychiatric facilities or residents of state-certified or voluntary treatment facilities for children and youth

Patients in residential health care facilities (RHCF) at time of enrollment and residents in an RHCF who are classified as permanent.
Participants in capitated long term care demonstration projects
Medicaid eligible infants living with incarcerated mothers
Individuals with access to comprehensive private health insurance if cost effective
Foster care children in the placement of a voluntary agency
Certified blind or disabled children living or expected to live separate and apart from their parents for 30 days or more
Individuals expected to be Medicaid eligible for less than 6 months (except for pregnant women)
Individuals receiving hospice services (at time of enrollment)
Individuals with a “county of fiscal responsibility” code of 97 (Individuals residing in a state Office of Mental Health facility)
Individuals with a “county of responsibility” code of 98 (Individuals in an Office for People with Developmental Disabilities/OPWDD facility or treatment center)
Youth in the care and custody of the commissioner of the Office of Family & Children Services
Individuals who are under 65 years of age (screened and require treatment) in the Centers for Disease Control and Prevention breast, cervical, colorectal or prostate cancer, and who are not otherwise covered under creditable health coverage
Individuals who are eligible for Emergency Medicaid

**Table 5: Individuals who may be exempted from MMMC**

Individuals with chronic medical conditions who have been under active treatment for at least 6 months with a sub-specialist who is not a network provider for any Medicaid MCO in the service area or whose request has been approved by the New York State Department of Health Medical Director because of unusually severe chronic care needs. Exemption is limited to six months
Individuals designated as participating in OPWDD-sponsored programs
Individuals already scheduled for a major surgical procedure (within 30 days of scheduled enrollment) with a provider who is not a participant in the network of any Medicaid MCO in the service area. Exemption is limited to six months
Individuals with a developmental or physical disability receiving services through a Medicaid home and community based services (HCBS) waiver authorized under section 1915(c) of the Act
Residents of alcohol/substance abuse long term residential treatment programs
Native Americans
Individuals with a “county of fiscal responsibility code of 98” (POWDD in Medicaid Management Information System/MMIS) in counties where program features are approved by the state and operational at the local district level to permit these individuals to voluntarily enroll

**10. Exclusions and Exemptions from MLTC.** Notwithstanding the eligibility criteria in STC 1, certain individuals cannot receive benefits through the MLTC program (i.e. excluded while others may request an exemption from receiving benefits through the MLTC program (i.e. exempted). Tables 8 and 9 list those individuals either excluded or exempted from MLTC.

**Table 6: Individuals excluded from MLTC**

Residents of psychiatric facilities
Residents of residential health care facilities (RHCF) at time of enrollment

Individuals expected to be Medicaid eligible for less than six months
Individuals eligible for Medicaid benefits only with respect to tuberculosis-related services
Individuals with a “county of fiscal responsibility” code 99 in MMIS (Individuals eligible only for breast and cervical cancer services)
Individuals receiving hospice services (at time of enrollment)
Individuals with a “county of fiscal responsibility “ code of 97 (Individuals residing in a state Office of Mental Health facility)
Individuals with a “county of fiscal responsibility” code of 98 (Individuals in an OPWDD facility or treatment center)
Individuals who are under 65 years of age (screened and require treatment) in the Centers for Disease Control and Prevention breast, cervical, colorectal and/or prostate early detection program and need treatment for breast, cervical, colorectal or prostate cancer and who are not otherwise covered under creditable health coverage
Residents of intermediate care facilities for the mentally retarded (ICF/MR)
Individuals who could otherwise reside in an ICF/MF, but choose not to
Residents of alcohol/substance abuse long term residential treatment programs
Individuals eligible for Emergency Medicaid
Individuals in the Office for People with Developmental Disabilities Home and Community Based Services (OPWDD HCBS) section 1915(c) waiver program
Individuals in the following section 1915(c) waiver programs: Traumatic Brain Injury (TBI), Nursing Home Transition & Diversion (NHTD), and Long Term Home Health Care Program (LTHHCP) in certain counties <sup>1</sup> (see Attachment F)
Residents of Assisted Living Programs
Individuals in receipt of Limited Licensed Home Care Services
Individuals in the Foster Family Care Demonstration

**Table 7: Individuals who may be exempted from MLTC**

Individuals aged 18 through 20 who are nursing home certifiable and require more than 120 days of community based long term care services
Native Americans
Individuals who are eligible for the Medicaid buy in for the working disabled and are nursing home certifiable
Aliessa Court Ordered Individuals

## 11. Population-Specific Program Requirements.

- a. **MMMC Enrollment of Individuals Living with HIV.** The state is authorized to require individuals living with HIV to receive benefits through MMMC. Once the state begins implementing MMMC enrollment in a particular district, individuals living with HIV will have 30 days in which to select a health plan. If no selection is made, the individual will be auto-assigned to an MCO. Individuals living with HIV who are enrolled in an MCO (voluntarily or by default) may request transfer to an HIV Special

<sup>1</sup> New York is using a phased in approach to transition LTHHCP individuals into the MLTC program. There are six phases (see Attachment F).

Needs Plan (SNP) at any time if one or more HIV SNPs are in operation in the individual's district. Further, transfers between HIV SNPs will be permitted at any time.

- b. Restricted Recipient Programs.** The state may require individuals participating in a restricted recipient program administered under 42 CFR §431.54(e) to enroll in MMMC. Furthermore, MCOs may establish and administer restricted recipient programs, through which they identify individuals that have utilized Medicaid services at a frequency or amount that is not medically necessary, as determined in accordance with utilization guidelines established by the state, and restrict them for a reasonable period of time to obtain Medicaid services from designated providers only. The state must adhere to the following terms and conditions in this regard.
  - i.** Restricted recipient programs operated by MCOs must adhere to the requirements in 42 CFR §431.54(e)(1) through (3), including the right to a hearing conducted by the state.
  - ii.** The state must require MCOs to report to the state whenever they want to place a new person in a restricted recipient program. The state must maintain summary statistics on the numbers of individuals placed in restricted recipient programs, and the reasons for those placements, and must provide the information to CMS upon request.
  
- c. Managed care enrollment of individuals using long term services and supports for MMMC and MLTC.** The state is authorized to require certain individuals using long term services and supports to enroll in either mainstream managed care or managed long term care as identified in STC 1. In addition, the populations that are exempted from mandatory enrollment, based on the exemption lists in STCs 9 and 10 may also elect to enroll in managed care plans. Once these individuals begin to enroll in managed care, the state will be required to provide the following protections for the population<sup>2</sup>.
  - i. Person Centered Service Planning.** The state, through its contracts with its MCOs and/or Prepaid Inpatient Health Plans (PIHPs), will require that all individuals utilizing long term services and supports will have a person centered individual service plan maintained at the MCO or PIHP. Person centered planning includes consideration of the current and unique psycho-social and medical needs and history of the enrollee, as well as the person's functional level, and support systems.
    - A.** The state must establish minimum guidelines regarding the person centered plan (PCP) that will be reflected in MCO/PIHP contracts. These must include at a minimum, a description of:
      - 1.** The qualification for individuals who will develop the PCP;
      - 2.** Types of assessments;
      - 3.** How enrollees are informed of the services available to the; and
      - 4.** The MCOs' responsibilities for implementing and monitoring the PCP.

---

<sup>2</sup> All beneficiary protections apply to both MMMC and MLTC, unless otherwise noted in Section V

- B.** The MCO/PIHP contract shall require the use of a person centered and directed planning process intended to identify the strengths, capacities and preferences of the enrollee, as well as to identify an enrollee's long term care needs and the resources available to meet those needs, and to provide access to additional care options as specified by the contract. The person centered plan is developed by the participant with the assistance of the MCO/PIHP, provider and those individuals the participant chooses to include. The plan includes the services and supports that the participant needs.
  - C.** The MCO/PIHP contract shall require that service plans must address all enrollees' assessed needs (including health and safety risk factors) and personal goals, taking into account an emphasis on services begin delivered in home and community based settings.
  - D.** The MCO/PIHP contract shall require that a process is in place that permits the participants to request a change to the person centered plan if the participant's circumstances necessitate a change. The MCO contract shall require that all service plans are updated and/or revised at least annually or when warranted by changes in the enrollee's needs.
  - E.** The MCO/PIHP shall ensure that meetings related to the enrollee's person centered plan will be held at a location, date and time convenient to the enrollee and his/her invited participants.
  - F.** The MCO/PIHP contract shall require development of a backup plan to ensure that needed assistance will be provided in the event that the regular services and supports identified in the individual service plan are temporarily unavailable. The backup plan may include other individual assistance or services.
  - G.** The MCO/PIHP contract shall require that services be delivered in accordance with the service plan, including the type, scope, amount and frequency.
  - H.** The MCO/PIHP contract shall require that enrollees receiving long term services and supports have a choice of provider, where applicable, which has the capacity to serve that individual within the network. The MCO/PIHP must contract with at least two providers in each county in its service area for each covered service in the benefit package unless the county has an insufficient number of providers licensed, certified, or available in that county.
  - I.** The MCO/PIHP contract shall require policies and procedures for the MCO/PIHP to monitor appropriate implementation of the individual service plans, including the qualifications of individuals developing service plans, types of assessments conducted and the method for how enrollees are notified of available services.
- ii.** Verification of MLTC Plan Enrollment. The state shall implement a process for MLTC plans, network and non-network providers for the state to confirm enrollment

of enrollees who do not have a card or go to the wrong provider before developing a person-centered service plan.

- iii.** Health and Welfare of Enrollees. The state through its contracts with its MCOs/PIHPs shall ensure a system is in place to identify, address, and seek to prevent instances of abuse, neglect, and exploitation of its enrollees on a continuous basis. This should include provisions such as critical incident monitoring and reporting to the state, investigations of any incident including, but not limited to, wrongful death, restraints, or medication errors that resulted in an injury. In each quarterly report, the state will provide information regarding any such incidents by plan. The state will also ensure that children and adults receiving MLTC are afforded linkages to child and/or adult protective services through all service entities, including the MCOs/PIHPs.
- iv.** Maintaining Accurate Beneficiary Address. New York will complete return mail tracking for enrollment notification mailings. The state will use information gained from returned mail to make additional outreach attempt through other methods (phone, email, analysis of prior claims, etc.).
- v.** Independent Consumer Support Program. To support the beneficiary's experience receiving and applying to receive long term services and supports in a managed care environment, the state shall create and maintain a permanent independent consumer support program to assist beneficiaries in understanding the coverage model and in the resolution of problems regarding services, coverage, access and rights.
- vi.** Core Elements of the Independent Consumer Support Program.

  - A.** *Organizational Structure.* The Independent Consumer Support Program shall operate independently from any Partnership Plan MCO. Additionally, to the extent possible, the program shall also operate independently of the Department of Human Services. The organizational structure of the program shall support its transparent and collaborative operation with beneficiaries, MCOs, and state government.
  - B.** *Accessibility.* The services of the Independent Consumer Support Program are available to all Medicaid beneficiaries enrolled in Partnership Plan who are in need of LTSS (institutional, residential and community based). The Independent Consumer Support Program must be accessible through multiple entryways (e.g., phone, internet, office) and must reach out to beneficiaries and/or authorized representatives through various means (mail, phone, in person), as appropriate.
  - C.** *Functions.* The Independent Consumer Support Program assists beneficiaries to navigate and access covered LTSS. Where an individual is enrolling in a new delivery system, the services of this program help individuals understand their choices and resolve problems and concerns that may arise between the individual and a provider/payer. The following list encompasses the program's scope of activity.

1. The program shall offer beneficiaries support in the pre-enrollment state, such as unbiased health plan choice counseling and general program-related information.
2. The program shall serve as an access point for complaints and concerns about health plan enrollment, access to services and other related matters.
3. The program shall help enrollees understand the fair hearing, grievance and appeal rights and processes within the health plan and at the state level, and assist them through the process if needed/requested.
4. The program shall conduct trainings with Partnership Plan MCO as well as providers on community-based resources and supports that can be linked with covered plan benefits.

**D. Staffing.** The Independent Consumer Support Program must employ individuals who are knowledgeable about the state's Medicaid programs; beneficiary protections and rights under Medicaid managed care arrangements; and the health and service needs of persons with complex needs, including those with a chronic condition, disability, and cognitive or behavioral needs. In addition, the Independent Consumer Support Program shall ensure that its services are delivered in a culturally competent manner and are accessible to individuals with limited English proficiency.

**E. Data Collection and Reporting.** The Independent Consumer Support Program shall track the volume and nature of beneficiary contacts and the resolution of such contacts on a schedule and manner determined by the state, but no less frequently than quarterly. This information will inform the state of any provider or contractor issues and support the reporting requirements to CMS.

**vii. Independent Consumer Support Program Plan.** The state shall submit a plan to CMS describing the structure and operation of the Independent Consumer Support Program that aligns with the core elements provided in this STC no later than January 1, 2014.

**viii. Network of Qualified Providers.** The provider credentialing criteria described at 42 CFR § 438.214 must apply to providers of long-term services and supports. If the MCO's/PIHP's credentialing policies and procedures do not address non-licensed/non-certified providers, the MCO/PIHP shall create alternative mechanisms to ensure the health and safety of its enrollees. To the extent possible, the MCO/PIHP shall incorporate criminal background checks, reviewing abuse registries as well as any other mechanism the state includes within the MCO/PIHP contract.

**d. MLTC enrollment.** Including the protections afforded individuals in subparagraph (c) of STC 11, the following requirements apply to MLTC plan enrollment:

- i. **Transition of Care Period:** Initial transition into MLTC from fee-for-service. Each enrollee who is receiving community-based long-term services and supports that qualifies for MLTC must continue to receive services under the enrollee's pre-existing service plan for at least 90 days after enrollment, or until a care assessment has been completed by the MCO/PIHP, whichever is later. Any reduction,

suspension, denial or termination of previously authorized services shall trigger the required notice under 42 CFR § 438.404 which clearly articulates the enrollee's right to file an appeal (either expedited, if warranted, or standard), the right to have authorized service continue pending the appeal, and the right to a fair hearing if the plan renders an adverse determination (either in whole or in part) on the appeal. For initial implementation of the auto-assigned population, the plans must submit data for state review on a monthly basis reporting instances when the plan has issued a notice of action that involves a reduction of split shift or live-in services or when the plan is reducing hours by 25 percent or more. The plan will also report the number of appeals and fair hearings requested regarding these reductions. The state shall ensure through its contracts that if an enrollee is to change from one MCO/PIHP to another, the MCO/PIHPs will communicate with one another to ensure a smooth transition and provide the new MCO/PIHP with the individual's current service plan.

**ii.** Assessment of LTSS Need. The following requirements apply until the state implements an independent and conflict-free long-term services and supports (LTSS) assessment process (as required by subparagraph (iii) of this STC).

**A.** MLTC plans conduct the initial assessment for an individual's need for LTSS using a standardized assessment tool designated by the state. The following requirements apply to the activities that must be undertaken by a MLTC plan as it assesses individuals for need for LTSS.

**1.** The state shall ensure all individuals requesting LTSS are assessed in a timely manner.

**a.** The state shall ensure the Semi-Annual Assessment of Members (SAAM) tool (or successor tool designated by the state) to determine if the individual has a need for LTSS.

**b.** In addition to the SAAM tool, the MCO/PIHP may use other assessment tools as appropriate. The state must review and approve all other assessment tools used by the MCO/PIHP.

**2.** The state must ensure through its contracts that each MCO/PIHP must complete the initial assessment in the individual's home of all individuals referred to or requesting enrollment in an MLTC plan within 30 days of that referral or initial contract. MCO/PIHP compliance with this standard shall be reported to CMS in the quarterly reports required under STC 4 in Section VIII. The state shall take corrective action against MLTC plans that do not meet this 30 day requirement.

**a.** The MCO/PIHP shall complete a re-assessment at least annually, or when an enrollee's needs change.

**b.** If the assessed individual is not already a Medicaid recipient, the MCO/PIHP shall:

**1.** Provide the individual with the results of the assessment.

- A. Submit to CMS an initial plan for implementing this transformation by December 31, 2013.
- B. Submit to CMS a final plan with specific action items and timeframes by May 31, 2014.
- C. Report progress on the plan in each quarterly report required under STC 4 in Section VIII.

iv. Marketing Oversight.

- A. The state shall require each MCO/PIHPs through its contracts to meet 42 CFR §438.104, and state marketing guidelines which prohibit cold calls, use of government logos and other standards.
- B. All materials used to market the MCO/PIHP shall be prior approved by the state.
- C. The state shall require through its contracts that each MCO/PIHP provide all individuals who were not referred to the plan by the enrollment broker with information (in a format determined by the state) describing managed long term care, a list of available plans and contact information to reach the enrollment broker for questions or other assistance. The plan shall report the number of individuals receiving these materials to the state on a quarterly basis pursuant to STC 4 in Section VIII.

**e. Demonstration Participant Protections.** The state will ensure that adults in LTSS in MLTC programs are afforded linkages to adult protective services through all service entities, including the MCO's/PIHP's. The state will ensure that these linkages are in place before, during, and after the transition to MLTC as applicable.

**f. Non-duplication of Payment.** MLTC Programs will not duplicate services included in an enrollee's Individualized Education Program under the Individuals with Disabilities Education Act, or services provided under the Rehabilitation Act of 1973.

## V. DEMONSTRATION BENEFITS AND ENROLLMENT

**1. Demonstration Benefits and Cost Sharing.** The following benefits are provided to individuals eligible for the Medicaid managed care components of the demonstration:

**a. Mainstream Medicaid Managed Care (MMMC).** State plan benefits delivered through MCOs or, in certain districts, primary care case management arrangements, with the exception of certain services carved out of the MMMC contract and delivered directly by the state on a fee-for-service basis. All MMMC benefits (regardless of delivery method), as well as the co-payments charged to MMMC recipients, are listed in Attachment A.

**b. Managed Long Term Care.** State plan benefits delivered through MCOs or, in certain districts, prepaid inpatient health plans, with the exception of certain services carved out of the MLTC contract and delivered directly by the state on a fee-for-service basis. All MLTC benefits are listed in Attachment B.

- 2. Alternative Benefit Plan.** The Affordable Care Act Low-Income Adult Group will receive benefits provided through the state's approved Alternative Benefit Plan (ABP) SPA.
- 3. Home and Community Settings Characteristics.** MLTC enrollees, including individuals who receive services under the demonstration's HCBS Expansion program described in STC 15, must receive services in residential settings located in the community, which meet CMS standards for HCBS settings as articulated in current 1915(c) policy and as modified by subsequent regulatory changes, in accordance with the plan submitted by the state (required in Attachment G). This plan shall be due no later than December 31, 2013. Residential settings include characteristics such as providing full access to facilities such as kitchen and cooking facilities, small dining areas, convenient privacy for visitors and easy access to resources and activities in the community. A full list of home and community based characteristics are provided in Attachment C.
- 4. Option for Consumer Directed Personal Assistance Program.** Enrollees shall have the option to elect self-direction. The state shall ensure through its contracts with the MCOs/PIHPs that enrollees are afforded the option to select self-direction and enrollees are informed of CDPAP as a voluntary option to its members. Individuals who select self-direction must have the opportunity to have choice and control over how services are provided and who provides the service.
  - a. Information and Assistance in Support of Participant Direction.** The state/MCO shall have a support system that provides participants with information, training, counseling, and assistance, as needed or desired by each participant, to assist the participant to effectively direct and manage their self-directed services. Participants shall be informed about self-directed care, including feasible alternatives, before electing the self-direction option.
  - b. Participant Direction by Representative.** The participant who self-directs the personal care service may appoint a volunteer designated representative to assist with or perform employer responsibilities to the extent approved by the participant. Services may be directed by a legal representative of the participant. Consumer-directed services may be directed by a non-legal representative freely chosen by the participant. A person who serves as a representative of a participant for the purpose of directing services cannot serve as a provider of personal attendant services for that participant.
  - c. Participant Employer Authority.** The participant (or the participant's representative) must have decision-making authority over workers who provide personal care services.
    - i. Participant.** The participant (or the participant's representative) provides training, supervision and oversight to the worker who provides services. A Fiscal/Employer Agent that follows IRS and local tax code laws functions as the participant's agent in performing payroll and other employer responsibilities that are required by federal and state law.

CMS reserves the right to delay implementation of the benefit transition until such time as appropriate documentation is provided showing evidence of MCO/PIHP readiness. In addition, new services that are not currently authorized under the state plan or demonstration may be added only through approved amendments to the state plan or demonstration.

CMS will notify the state of concerns within 15 days. If no comments are received, the state may proceed with the scheduled benefit transition.

**6. Expanding MLTC enrollment.** Any time the state is ready to expand mandatory MLTC plan enrollment into a new geographic area for populations approved for managed care through an amendment, the state must provide CMS notification at least 90 days prior to the expansion. Such notification will include:

- a. A list of the counties that will have approved populations moving to mandatory enrollment;
- b. A list of MCO/PIHPs with an approved state certificate of authority to operate in those counties demonstrating that enrollees will be afforded choice of plan within the new geographic area;
- c. Confirmation that the MCO/PIHPs in the new geographic area have met the network requirements in Section V for each MCO/PIHP.

The state must also apply the requirements of STC 5 when applicable to the MLTC population or geographic area being added to the MLTC program.

CMS reserves the right to delay implementation of the geographic expansion until such time as notification documentation is provided.

CMS will notify the state of concerns within 15 days. If no comments are received, the state may proceed with the scheduled geographic expansion.

**7. Assurances during expansion of MLTC enrollment.** The assurances below pertain to future MLTC expansions authorized under this demonstration. To provide and demonstrate smooth transitions for beneficiaries, the state must:

- a. Send sample notification letters. Existing Medicaid providers must receive sample beneficiary notification letters via widely distributed methods (mail, email, provider website, etc.) so that providers are informed of the information received by enrollees regarding their managed care transition.
- b. Provide educational tours for enrollees and providers. The educational tour should educate enrollees and providers on the MLTC plan enrollment options, rights and responsibilities and other important program elements. The state must provide webinars, meeting plans, and send notices through outreach and other social media (e.g. state's website). The enrollment broker, choice counseling entities, ombudsman and any group providing enrollment support must participate.

- c. Operate a call center independent of the MLTC plans for the duration of the demonstration. This entity must be able to help enrollees in making independent decisions about plan choice and be able to document complaints about the plans. During the first 60 days of implementation the state must review all call center response statistics to ensure all contracted plans are meeting requirements in their contracts. After the first 60 days, if all entities are consistently meeting contractual requirements the state can lessen the review of call center statistics, but no more than 120 days should elapse between reviews.
- d. Review the outcomes of the auto-assignment algorithm to ensure that MLTC plans with more limited networks do not receive, are the same or larger number of enrollees, as plans with larger networks.
- e. The state shall require MCO/PIHPs to maintain the current worker/recipient relationship for no less than 90 days.

- 8. Operation of the HCBS Expansion Program.** The individuals eligible for this component of the demonstration will receive the same home and community-based services (HCBS) as those individuals determined eligible for and enrolled in the state's Long Term Home Health Care Program (LTHHCP), Nursing Home Transition and Diversion Program (NHTDP) and Traumatic Brain Injury Program (TBIP) authorized under section 1915(c) of the Act. The specific benefits provided to participants in this program are listed in Attachment C.

The state will operate the HCBS Expansion program in a manner consistent with approved LTHHCP, NHTDP and TBIP 1915(c) waiver programs and must comply with all administrative, operational, quality improvement and reporting requirements contained therein. The state shall provide enrollment and financial information about the individuals enrolled in the HCBS Expansion program as requested by CMS.

- 9. Facilitated Enrollment.** Facilitated enrollers, which may include MCOs, health care providers, community-based organizations, and other entities under state contract, will engage in those activities described in 42 CFR § 435.904(d)(2), as permitted by 42 CFR § 435.904(e)(3)(ii), within the following parameters:
- a. Facilitated enrollers will provide program information to applicants and interested individuals as described in 42 CFR §435.905(a).
  - b. Facilitated enrollers must afford any interested individual the opportunity to apply for Medicaid without delay as required by 42 CFR §435.906.
  - c. If an interested individual applies for Medicaid by completing the information required under 42 CFR §435.907(a) and (b) and 42 CFR §435.910(a) and signing a Medicaid application, that application must be transmitted to the LDSS for determination of eligibility.

- d. The protocols for facilitated enrollment practices between the LDSS and the facilitated enrollers must:
  - i. Ensure that choice counseling activities are closely monitored to minimize adverse risk selection and
  - ii. Specify that determinations of Medicaid eligibility are made solely by the LTSS.

## VI. DELIVERY SYSTEMS

**Contracts.** Procurement and the subsequent final contracts developed to implement selective contracting by the state with any provider group shall be subject to CMS approval prior to implementation. Payments under contracts with public agencies, that are not competitively bid in a process involving multiple bidders, shall not exceed the documented costs incurred in furnishing covered services to eligible individuals (or a reasonable estimate with an adjustment factor no greater than the annual change in the consumer price index).

1. **Managed Care Contracts.** No FFP is available for activities covered under contracts and/or modifications to existing contracts that are subject to 42 CFR 438 requirements prior to CMS approval of model contract language. The state shall submit any supporting documentation deemed necessary by CMS. The state must provide CMS with a minimum of 45 days to review and approve changes. CMS reserves the right, as a corrective action, to withhold FFP (either partial or full) for the demonstration, until the contract compliance requirement is met.
2. **Interpretation Services and Culturally Competent Care.** The MCOs must have interpretation services and provide care that is consistent with the individual's culture. MCOs must conduct analyses to determine any gaps in access to these services and will expand its workforce accordingly. The MCOs may also require the use of remote video and voice technology when necessary.
3. **Managed Care Benefit Package.** Individuals enrolled in either MMMC or MLTC must receive from the managed care program the benefits as identified in Attachments A or B, as appropriate. As noted in plan readiness and contract requirements, the state must require that, for enrollees in receipt of LTSS, each MCO/PIHP coordinate, as appropriate, needed state plan services that are excluded from the managed care delivery system but available through a fee-for-service delivery system, and must also assure coordination with services not included in the established benefit package.
4. **Revision of the State Quality Strategy.** The state must update its Quality Strategy to reflect all managed care plans operating under MMMC and MLTC programs proposed through this demonstration and submit to CMS for approval within 90 days of approval of the most recent amendment, which will include the health system for individuals with developmental disabilities goals. The state must obtain the input of recipients and other stakeholders in the development of its revised comprehensive Quality Strategy and make the Strategy available for public comment. The state must revise the strategy whenever significant changes are made, including changes through this demonstration. Pursuant to STC 5 in Section VIII, the

state must also provide CMS with annual reporting on the implementation and effectiveness of the updated comprehensive quality strategy, as it impacts the demonstration.

- 5. Required Components of the State Quality Strategy.** The revised Quality Strategy shall meet all the requirements of 42 CFR 438 Subpart D. The quality strategy must include components relating to managed long term services and supports. The Quality strategy must address the following regarding the population utilizing long term services and supports: level of care assessments, service planning, and health and welfare of enrollees. The state should also incorporate performance measures for outcomes related to quality of life and community integration related to health system transformation for individuals with developmental disabilities.
- 6. Required Monitoring Activities by the State and/or EQRO.** The state's EQR process for the mainstream managed care and MLTC plans shall meet all the requirements of 42 CFR 438 Subpart E. In addition, the state, or its EQRO shall monitor and annually evaluate the MCO/PIHPs performance on specific new requirements under mandatory enrollment of individuals utilizing long term services and supports. The state shall provide an update of the processes used to monitor the following activities as well as the outcomes of the monitoring activities within the annual report in STC 5 in Section VIII. The new requirements include, but are not limited to the following:

  - a. MLTC Plan Eligibility Assessments** - To ensure that approved instruments are being used and applied appropriately and as necessary, and to ensure that individuals being served with LTSS meet the MLTC plan eligibility requirements for plan enrollment. The state will also monitor assessments conducted by the plan where individuals are deemed ineligible for enrollment in an MLTC plan.
  - b. Service Plans** - to ensure that MCOs/PIHPs are appropriately creating and implementing service plans based on enrollee's identified needs.
  - c. MCO/PIHP credentialing and/or verification policies** - to ensure that LTSS services are provided by qualified providers.
  - d. Health and welfare of enrollees** - to ensure that the MCO/PIHP, on an ongoing basis, identifies, addresses, and seeks to prevent instances of abuse, neglect and exploitation.
- 7. Access to Care, Network Adequacy and Coordination of Care Requirements for Long Term Services and Supports (LTSS).** The state shall set specific requirements for MCO/PIHPs to follow regarding providers of LTSS, consistent with 42 CFR 438 Part D. These requirements shall be outlined within each MCO/PIHP contract. These standards should take into consideration individuals with special health care needs, out of network requirements if a provider is not available within the specific access standard, ensuring choice of provider with capacity to serve individuals, time/distance standards for providers who do not travel to the individual's home, and physical accessibility of covered services. The MLTC or mainstream managed care plan is not permitted to set these standards.

- 8. Demonstrating Network Adequacy.** Annually, each MCO/PIHP must provide adequate assurances that it has sufficient capacity to serve the expected enrollment in its service area and offers an adequate coverage of benefits as described in Attachment A and B for the anticipated number of enrollees in the service area.
- a. The state must verify these assurances by reviewing demographic, utilization and enrollment data for enrollees in the demonstration as well as:
    - i. The number and types of providers available to provide covered services to the demonstration population
    - ii. The number of network providers accepting the new demonstration population; and
    - iii. The geographic location of providers and demonstration populations, as shown through GeoAccess, similar software or other appropriate methods.
  - b. The state must submit the documentation required in subparagraphs (i) – (iii) above to CMS with each annual report.
  - c. Enrollees and their representatives must be provided with reference documents to maintain information about available providers and services in their plans.
- 9. Advisory Committee as required in 42 CFR 438.** The state must maintain for the duration of the demonstration a managed care advisory group comprised of individuals and interested parties appointed pursuant to state law by the Legislature and Governor. To the extent possible, the state will attempt to appoint individuals qualified to speak on behalf of seniors and persons with disabilities who are impacted by the demonstration’s use of managed care, including individuals with developmental disabilities, regarding the impact and effective implementation of these changes on individuals receiving LTSS.
- 10. Health Services to Native Americans Populations.** The plan currently in place for patient management and coordination of services for Medicaid-eligible Native Americans developed in consultation with the Indian tribes and/or representatives from the Indian health programs located in participating counties shall continue in force for this extension period.

## **VII. QUALITY DEMONSTRATION PROGRAMS AND CLINIC UNCOMPENSATED CARE FUNDING**

- 1. Hospital-Medical Home (H-MH) Demonstration.** The purpose of this demonstration is to improve the coordination, continuity, and quality of care for individuals receiving primary care in hospital outpatient departments operated by teaching hospitals, as well as other primary care settings used by teaching hospitals to train resident physicians. The demonstration will be instrumental in influencing the next generation of practitioners in the important concepts of patient- centered medical homes. Training sites, in particular, due to the structural discontinuity imposed by rotating residents and attending physicians’ schedules, present a significant opportunity to improve patient experience and care through residency redesign.

During this extension period, entities that serve as clinical training sites for primary care residents will work toward transforming their delivery system consistent with the National Committee on Quality Assurance (NCQA) requirements for medical home recognition under its Physician Practice Connections® - Patient-Centered Medical Home™ program (PPC@PCMH™) and the “Joint Principles” for medical home development articulated by primary care professional associations.

In addition, hospitals which receive funding under this demonstration shall be required to implement a number of patient safety and systemic quality improvement projects.

- 2. H-MH Demonstration Eligibility and Selection.** All teaching institutions in New York State will be eligible to participate in the H-MH demonstration. However, because the state does not intend to use a public competitive process to select awardees, the selection criteria for the H-MH demonstration will include for each:
  - a.** The extent to which the hospital has existing arrangements with training sites in the community (such as federal qualified health centers) to provide clinical experience to its primary care residents;
  - b.** An attestation as to their willingness and commitment to accomplish all milestones outlined in STC 3, including achieving NCQA PPC@PCMH™ Level 2 recognition or above (in accordance with the standards applicable at the time that recognition is awarded) by the end of the second year of the demonstration;
  - c.** An agreement to track and report the clinical performance metrics required in STC 4; and
  - d.** An agreement to implement both the system improvement and patient safety initiatives consistent with STC 5 and 6.

To ensure that a mix of both academic medical centers and community teaching hospitals receive awards under the H-MH demonstration, the Department must submit its recommendations (along with proposed award amounts) to CMS for review before making final awards. An institution that already has achieved at least PPC@-PCMHTM Level 2 recognition under an earlier set of NCQA standards may participate if its goal is to renew or upgrade its recognition under later, more stringent NCQA standards.

- 3. H-MH Milestones related to achievement of National Committee for Quality Assurance (NCQA) PPC@PCMH™ for all awardees.** The key milestone for receiving demonstration funding will be the achievement of NCQA PPC@-PCMHTM Level 2 or Level 3 recognition within two (2) years from the start date of the program. The state will receive from NCQA a monthly ‘roster’ of practices, which have achieved NCQA PPC@-PCMHTM Level 2 or Level 3 recognition. In the interim, programs must demonstrate the achievement of the following milestones throughout the duration of the project:
  - a. A detailed work plan after award.** Each awardee must submit a redesign strategy and detailed work plan to the state that documents how funds will be used for the following approved purposes: consultation services for practice re-design; staff development

patients with behavioral health conditions within the medical home. The project work plan must include details on:

- A.** A strategy for integration which includes a means of improving referrals to behavioral health providers, enhanced communication with mental health/substance abuse providers, process for obtaining appropriate consents for sharing personal health information, and procedures for coordinated case management (particularly for cases in which patients may have more than one provider).
- B.** Developing a linkage to the Office of Mental Health Psychiatric Services and Clinical Knowledge Enhancement System (PSYKES) project, which provides data and recommendations for potential problems of polypharmacy and metabolic syndrome exacerbation for Medicaid members using Medicaid databases within the first year of the program start date. The linkage will require creating systems to receive, and act on, reports generated by PSYKES. The linkage must be completed by the end of Year 1
- C.** Developing training for primary care clinicians in behavioral health care with particular focus on integrating depression screening and pain management with appropriate treatment modalities and referral.
- D.** Assessing demand and capacity to provide co-located services or other approaches to decrease wait times and improve access to behavioral health services.

**iii.** Improved Access and Coordination between Primary and Specialty Care. There is a tremendous opportunity to promote access and coordination between primary and specialty providers who are both providing care within the same delivery system, often in close physical proximity. Despite that opportunity, there are many examples in which the level of coordination is suboptimal, having the greatest adverse impact on those patients with more advanced, chronic diseases.

- A.** Programs will be required to put into place systems that would facilitate the ready access to specialty care when appropriate, with improved bilateral communication between primary and specialty care providers/clinics through transparent, standardized, referral processes. Specific goals include improving timely access to specialists, completed referral forms with required clinical information and reason(s) for referral, timely response of findings/recommendations from the specialist and higher rates of satisfaction on the part of providers and patients with respect to specialty care services.
- B.** Programs will be required to generate measures of access and coordination. These measures should be incorporated into a baseline assessment and annual evaluations and include patient and provider experiences related to wait times, follow up with primary care provider after specialty visit (as appropriate), delayed or rejected referrals, patient/provider satisfaction.
- C.** Identify gaps in care and coordination for specialty services including collection of baseline data on wait times and appointment backlogs; survey primary care providers and specialists regarding the referral process and access and develop

improvement plan based on findings with at least quarterly data collection, which will consider expansion of selected specialists, training of primary care providers in provision of select low level specialty care, inclusion of specialists in team care, protocols for primary-specialty care co-management.

iv. Enhance Interpretation Services and Culturally Competent Care.

- A. Programs will conduct an analysis to determine gaps in access to language services, and implement language access policies and procedures.
  - B. Programs may expand workforce within interpreter services by hiring, training, and/or certifying interpreters, or determining other methods for increasing patients' access to appropriate language services.
  - C. Programs may include use of remote video and voice technology for instantaneous qualified health care interpretations.
  - D. Develop programs to improve staff cultural competence and awareness through evidence based training.
  - E. Develop capacity to generate prescription labels in patient's primary language with easy to understand instructions.
6. **H-MH Quality and Safety Improvement Projects (QSIP).** In addition, each awardee shall implement at least two of the six Quality and Safety Improvement Projects outlined in this STC.

These QSIPs will include interventions that have been demonstrated to produce measurable and significant results across different types of hospital settings, including in safety net hospitals; have a strong evidence base, meaning interventions that have been endorsed by a major national quality organization, with reasonably strong evidence established in the peer reviewed literature, including within the safety net; and are meaningful to hospital patients.

An awardee is precluded from choosing any QSIP for which it has achieved top performance for at least 4 consecutive quarters, in aggregate in all process and outcomes measures within the intervention, where "top performance" is defined as being in the Top Quartile. Each QSIP below has specific measures that an awardee must include; however, awardees may include additional milestones to enable the implementation of the measures specified for the intervention.

Milestones for the QSIPs can include infrastructure, redesign, implementation of evidence-based processes, and measurement and achievement of evidence-based outcomes. Awardees must include for each year a milestone for reporting the data on each QSIP to the Department. Improvement Targets will be determined based on the progress an awardee has already made on the improvement project pursuant to baseline data collected as of January 1, 2012. The 3-year end goals for each measure will be to move from one performance band to the next, except in the case of hospitals that are in the Top Band where the goal will be to move into the Top Quartile. Hospitals will be placed in one of 3 bands based on baseline performance as compared to state or national data on hospital performance, including safety net hospital performance, as follows:

- a. “Lower band” performers, as defined as the bottom one-third (1-33 percentile) of hospitals will target moving into the middle-third performance band:
- b. “Middle band” performers, as defined as the middle third (34-64 percentile) of hospitals, will target moving into the top performance band; and
- c. “Top band” performers, as defined as the top third (66-100 percentile) of hospitals, will target moving into the top quartile.

Hospitals that have achieved performance in the top quartile will be expected to maintain or exceed top performance.

**d. Severe Sepsis Detection and Management**

**i. Elements**

- A. Implement the Sepsis Resuscitation Bundle: to be completed within 6 hours for patients with severe sepsis, septic shock, and/or lactate > 4mmol/L (36mg/dl).
- B. Implement the Sepsis Management Bundle: to be completed within 24 hours for patients with severe sepsis, septic shock, and/or lactate > 4 mmol/L (36 mg/dl).
- C. Make the elements of the Sepsis Bundles more reliable.

**ii. Key Measures**

- A. Percent compliance with four elements of the Sepsis Resuscitation Bundle, as measured by percent of hospitalization with sepsis, severe sepsis or septic shock and/or an infection and organ dysfunction where targeted elements of the Sepsis Resuscitation Bundle were completed.
- B. Sepsis mortality

**e. Central-Line-Associated Bloodstream Infection (CLABSI) Infection Prevention**

**i. Elements**

- A. Implement the central line bundle.
- B. Make the process for delivery all bundle elements more reliable.

**ii. Key Measures**

- A. Compliance with Central Line Bundle
- B. Central Line Bloodstream Infections

**f. Surgical Complications Core Processes (SCIP)**

**i. Elements**

- A. Surgical site infection prevention

- B. Beta blockers continuation
- C. Venous Thromboembolism (VTE) prophylaxis

ii. Key Measures

A. SCIP Composite Process Measure:

1. SCIP-Inf-2: Prophylactic antibiotic selection for surgical patients.
2. SCIP-Inf-3: Prophylactic antibiotics discontinued within 24 hours after surgery end time/48 hours for cardiac patients.
3. SCIP-Inf-4: Cardiac surgery patients with controlled 6 a.m. postoperative serum glucose.
4. SCIP-Inf-6: Surgery patients with appropriate hair removal.
5. SCIP-Inf-9 : Urinary catheter removed on postoperative day 1 (POD 1) or postoperative day 2 (POD 2) with day of surgery being day zero.
6. SCIP-Card- 2: Surgery patients on a beta-blocker prior to arrival who received a beta-blocker during the perioperative period.
7. SCIP-VTE-1: Surgery patients with recommended venous thromboembolism prophylaxis ordered  
SCIP-VTE-2: Surgery patients who received appropriate venous thromboembolism prophylaxis within 24 hours prior to surgery to 24 hours after surgery.

- B. Rate of surgical site infection for Class 1 and 2 wounds within 30 days of surgery.

g. **Venous Thromboembolism (VTE) Prevention and Treatment**

- i. Element – Provide appropriate VTE Prophylaxis, including pharmaceutical and mechanical approaches based on national guidelines
- ii. Key Measures

- A. VTE Discharge Instructions
- B. BTW Prophylaxis

h. **Neonatal Intensive Care Unit (NICU) Safety and Quality**

i. Elements

- A. Participation in Vermont Oxford Network (VON) quality/safety measurement and improvement activities or New York State Obstetric and Neonatal Quality Collaborative (NYSONQC) sponsored Neonatal Enteral Nutrition Project and Statewide Collaborative to decrease NICU central line associated bloodstream infections.
- B. Assess current areas of need for performance improvement based on relative performance of hospital NICU to VON benchmarks and/or state level performance.

- C. Develop improvement projects (at least 2 which may include, but is not limited to, enteral nutrition or central line projects above) focusing on areas of greatest need making use of VON network quality improvement strategies and/or other evidence based care bundles.
- ii. Key Measures. Use of appropriate metrics for quality, safety, morbidity, complications, and risk adjusted mortality based on improvement project, including but not limited to:
    - A. Nosocomial sepsis rates (per 1000 patient days) from NYS NICU Module;
    - B. Central line associated bloodstream infection rates per 1000 central line days using the NYS hospital acquired infection data reporting system;
    - C. Maintenance checklist use per total number of days of central line use; and
    - D. Percent infants discharged from NICU at less than 10th percentile weight born <31 weeks gestation.
- i. **Avoidable Preterm Births: Reducing Elective Delivery Prior to 39 Weeks Gestation.**
    - i. Elements. Use of evidence based interventions for evaluation, measurement, and improvement of preventable preterm births using findings from NICHQ/CMS Neonatal Outcomes Improvement Project and/or California Toolkit to Transform Maternity Care:
      - A. Identification and treatment of chronic medical conditions and high risk behaviors
      - B. Early identification of mothers at high risk for preterm delivery
      - C. Use of antenatal steroids in appropriate patients
      - D. Reducing elective inductions/cesarean sections without appropriate medical or obstetric indication
    - ii. Key Measures
      - A. Percent of scheduled inductions at 36(0/7) to 38(6/7) weeks without medical or obstetrical indication documented of all scheduled deliveries
      - B. Percent of scheduled inductions at 36(0/7) to 38(6/7) weeks without medical or obstetrical indication documented of all scheduled inductions
      - C. Percent of scheduled C-sections at 36(0/7) to 38(6/7) weeks without medical or obstetrical indication documented of all scheduled deliveries
      - D. Percent of scheduled C-sections at 36(0/7) to 38(6/7) weeks without medical or obstetrical indication documented of all scheduled C-sections
      - E. Percent of all scheduled deliveries at 36(0/7) to 38(6/7) weeks without medical or obstetrical indication documented of all scheduled deliveries
      - F. Percent of infants born at 36(0/7) to 38(6/7) weeks gestation by scheduled delivery who went to neonatal intensive care unit
      - G. Percent of mothers informed about risks and benefits of scheduled deliveries 36(0/7) to 38(6/7) weeks gestation documented in the medical record

- H. Percent scheduled deliveries at 36(0/7) to 38(6/7) weeks that have documentation in the medical record of meeting optimal criteria of gestational age assessment
- I. IHI Elective Induction Bundle Elements: Percentage of times that all four of the following elements are in place:

- 1. gestational age  $\geq$  39 weeks
- 2. monitor fetal heart rate for reassurance of fetal status
- 3. pelvic exam: assess to determine dilation, effacement, station, cervical position and consistency, and fetal presentation
- 4. monitor and manage hyperstimulation (tachysystole).

7. **H-MH Funding Distribution.** Awardees will receive demonstration funds based on the number of Medicaid recipients served and the number of primary care residents trained. Eighty percent of an awardee's funds will be based on Medicaid patient volume and twenty percent will be based on primary care residents trained in that facility. The formula will be proportionally allocated using these criteria. Facilities will not be included if they do not satisfy the requirements for one of the supplemental program initiatives. Full or partial funding is contingent on achieving each year's goals. In no instance will an awardee receive funding beyond year 2 unless the awardee has achieved NCQA PPC®-PCMHTM Level 2 or Level 3 recognition.

- a. **Year 1 Funds.** Each awardee will receive one-fourth of the first year's funding amount upon award. The remaining first year payment will be issued once the awardee has documented that the applicable first-year program milestones (as stipulated in STC 3 (a), (b), and (c) above) have been met. If the first year milestones are not met by the end of year 1, the awardee will forfeit the remaining funding for that year but would be allowed to continue to work toward meeting the milestones and eligible for subsequent year funding.
- b. **Year 2 Funds.** Each awardee will receive one-fourth of the second year's funding amount upon completion of the applicable year one milestones. Upon achieving NCQA PPC®-PCMHTM Level 2 or Level 3 accreditation, the remainder of the second year's funds will be made available, provided all other requirements for Quality Service Improvement Programs (QSIP) projects are up to date. If an awardee does not achieve accreditation by the end of year two or, for a hospital awardee, make progress on the additional initiatives that are required as a condition of funding, the remainder of year two funding will be forfeited.
- c. **Year 3 Funds.** Third year funding will be provided only to awardees that have achieved NCQA PPC®-PCMHTM Level 2 or Level 3 recognition and, for hospital awardees, meet the applicable milestones for the additional initiatives as stipulated in the hospital's approved work plan. Awardees will receive one-fourth of the funding amount at the start of the year and the remainder after submission of the third year milestones.

## 8. H-MH Reporting.

- a. The state shall include updates on activities related to the H-MH demonstration in the quarterly operational reports required under STC 4 in Section VIII including updated

expenditure projections reflecting the expected pace of disbursements under the demonstration.

- b. The state shall provide an assessment of the H-MH demonstration by summarizing each awardee's activities during the demonstration year in each annual report required under STC 5 in Section VIII.
- c. The state shall include an assessment of the success of the H-MH demonstration in the evaluation required by Section XI including the milestones in STC 3(c), the hospital improvement projects in STC 2(d) as well as the outcome measures for each supplemental program initiative implemented by the awardees.

**9. Potentially Preventable Readmissions (PPR) Demonstration.** The purpose of this demonstration is to test strategies for reducing the rate of preventable readmission within the Medicaid population, with the related longer-term goal of developing reimbursement policies that provide incentives to help people stay out of the hospital. It is intended to assist hospitals with reducing the rate of PPRs in advance of the implementation of the Hospital Readmissions Reduction Program (authorized by section 3025 of the Patient Protection and Affordable Care Act) on October 1, 2012. Beginning with FFY 2012, hospitals will face reductions in Medicare payments if they have readmission rates higher than what would be expected for specific conditions.

Hospitals will be asked to devise unique strategies that target each hospital's particular experiences, strengths, weaknesses and patient profile. Projects will focus on improved quality and cost savings and will include reporting and evaluation components to ensure that the projects are replicable and sustainable. Activities will include a review of policies and operational procedures that may be contributing to high rates of avoidable readmissions; reengineering the discharge planning process; and appropriate management of post-hospital/transition care; coordination with outpatient and post-discharge providers, including institutions and community providers, to address transitional care needs.

- a. **Eligibility.** All hospitals in the state will be eligible to participate in the PPR demonstration.
- b. **Selection.** The state will develop and issue a Request for Grant Application (RGA). Awards will be made based on the published criteria in the RGA, and funding will be made available over the demonstration extension period as specified in the RGA. The RGA shall also include requirements for evaluating the success of the implemented strategies
- c. **Reporting.**
  - i. Once grantees are in place, the state shall include in the quarterly operational report under STC 4 in Section VIII, the following information:
    - A. A summary of the interventional strategies each grantee intends to implement.
    - B. Baseline assessment of each grantee's readmission rate.
    - C. Interim assessments (as data is available) of each grantee's success in reducing PPRs.

- D. Updated expenditure projections reflecting the expected pace of disbursements under the demonstration.
- ii. The state shall provide a progress report in the implementation of the PPR demonstration in each annual report required under STC 5 in Section VIII.

**10. Clinic Uncompensated Care Funding.** The state shall provide grants to voluntary, non-profit and publicly-sponsored Diagnostic and Treatment Centers (D&TCs) for services delivered to the uninsured throughout the state through an Indigent Care Pool (ICP).

**a. Eligibility.** In order to receive ICP funds, each facility must provide a comprehensive range of primary health care or mental health care services, have at least 5 percent of their visits providing services to uninsured individuals and have a process to collect payments from third-party payers.

**b. Reporting.**

**i.** The state shall include updates on activities related to ICP grants in each quarterly operational report required under STC 4 in Section VIII, including the extent to which actual expenditures for the grants are consistent with projections.

**ii.** The state shall also include the following information on each facility which received a grant in the annual report required in STC 5 in Section VIII.

**A.** The total amount of ICP funds awarded,

**B.** The total amount of funding that each clinic received from other federal agencies, including but not limited to, the Health Resources and Services Administration and the Substance Abuse and Mental Health Services Administration.

**C.** The extent to which the clinic participates in any medical home initiative, including a summary of the initiative.

**D.** The extent to which the clinic has implemented certified electronic health records (EHRs) for its patients.

**E.** The number of providers practicing predominantly within a Federally Qualified Health Center (FQHC) grantee who are meaningful users of certified EHRs consistent with 42 CFR §495.6.

**11. Funding for Quality Demonstrations and Clinic Uncompensated Care.** Federal funds will be used to pay the full cost of these programs. Accordingly, Federal Financial Participation (FFP) will be available for state funds for the Indigent Care Pool (beginning August 1, 2011 and ending December 31, 2014) and the Designated State Health Programs (DSHP) described in STC 11 (beginning August 1, 2011 and ending December 31, 2014), as certified on each quarterly CMS Form 64 expenditure reports.

**a. Limitations on FFP.**

- i.** FFP is limited to no more than \$531.2 million over the demonstration extension period as follows:
  - A.** \$325 million for the H-MH demonstration;
  - B.** \$20 million for the PPR demonstration; and
  - C.** \$186.2 million for the ICP, but only to the extent that the state appropriates and expends at least \$132.2 million over the extension period. Otherwise, FFP for the ICP may be no more than one-half of total ICP spending (both federal and state funds).
- ii.** The state shall be eligible to receive FFP over the demonstration period for its own expenditures for:
  - A.** The Indigent Care Pool (for ICP expenditures made between August 1, 2011 and December 31, 2014); and
  - B.** DSHP (for DSHP expenditures made between August 1, 2011 and December 31, 2014).

**b. Reporting.**

- i.** Updated expenditure projections shall be provided by the state in each quarterly operational report required under STC 4 in Section VIII.
- ii.** Expenditure reporting for the H-MH demonstration. DSHP expenditures used to draw down federal funds for the H-MH demonstration shall be reported on the CMS-64 under waiver name MH Demo – DSHP.
- iii.** Expenditure reporting for the PPR demonstration. DSHP expenditures used to draw down federal funds for the PPR demonstration shall be reported on the CMS-64 under waiver name PPR Demo – DSHP.
- iv.** Expenditure Reporting for Clinic Uncompensated Care.
  - A.** The state's own expenditures for ICP grants shall be reported on the CMS-64 under waiver name ICP – Direct.
  - B.** DSHP expenditures used to draw down federal funds for Clinic Uncompensated Care shall be reported on the CMS-64 under waiver name ICP – DSHP.

- c. Reconciliation and Recoupment.** By the end of the demonstration extension period, if the amount of DSHP claimed over the demonstration period results in the state receiving FFP in an amount greater than what the state actually expended for quality demonstrations and clinic uncompensated care, the state must return to CMS federal funds in an amount that equals the difference between claimed DSHP and actual state expenditures made for these initiatives.
  - i.** As part of the annual report required under STC 5 in Section VIII, the state will report both DSHP claims and expenditures to date for the quality demonstrations and clinic uncompensated care.
  - ii.** The reported claims and expenditures will be reconciled at the end of the demonstration with the state's CMS-64 submissions.
  - iii.** Any repayment required under this subparagraph will be accomplished by the state making an adjustment for its excessive claim for FFP on the CMS-64 by entering an amount in line 10(b) of the Summary sheet equal to the amount that equals the difference between claimed DSHP and actual expenditures made for these initiatives during the extension period.

**12. Designated State Health Programs.** Subject to the conditions outlined in STC 12, FFP may be claimed for expenditures made for the following designated state health programs beginning August 1, 2011 through December 31, 2014. Designated state health program funding described in paragraphs (m) and (n) below begins January 1, 2014.

- a.** Homeless Health Services
- b.** HIV-Related Risk Reduction
- c.** Childhood Lead Poisoning Primary Prevention
- d.** Healthy Neighborhoods Program
- e.** Local Health Department Lead Poisoning Prevention Programs
- f.** Cancer Services Programs
- g.** Obesity and Diabetes Programs
- h.** TB Treatment, Detection and Prevention
- i.** TB Directly Observed Therapy
- j.** Tobacco Control
- k.** General Public Health Work
- l.** Newborn Screening Programs
  
- m.** The state may claim as allowable expenditures under the demonstration the payments made through its state-funded program to provide subsidies for parents and caretaker relatives with incomes above 133 percent of the FPL through 150 percent of the FPL who purchase health insurance through the Marketplace. Subsidies will be provided on behalf of individuals who: (1) are not Medicaid eligible but who are parents or caretaker relatives of individuals under the age of 21; (2) are eligible for the advance premium tax credit (APTC); and (3) whose income is above 133 percent of the FPL through 150 percent of the FPL. Federal financial participation for the premium assistance portion of

QHP subsidies for citizens and eligible qualified aliens will be provided through the Designated State Health Programs pursuant to this STC. Authority to claim federal matching for this program will end on December 31, 2014.

- n. The state may claim as allowable expenditures under the demonstration, the payments made through its state-funded program to provide FHPlus benefits to parents and caretaker relatives with incomes up to and including 150 percent of the FPL who are no longer eligible under the demonstration. Authority to claim federal matching for this program will end on December 31, 2014.

### **13. Designated State Health Programs (DSHP) Claiming Process.**

- a. Documentation of each DSHP's expenditures must be clearly outlined in the state's supporting work papers and be made available to CMS.
- b. Federal funds must be claimed within two years after the calendar quarter in which the state disburses expenditures for the DSHPs in STC 11. Claims may not be submitted for state expenditures disbursed after December 31, 2014.
- c. Sources of non-federal funding must be compliant with section 1903(w) of the Act and applicable regulations. To the extent that federal funds from any federal programs are received for the DSHP listed in STC 11, they shall not be used as a source of non-federal share.
- d. The administrative costs associated with DSHPs in STC 11 and any others subsequently added by amendment to the demonstration shall not be included in any way as demonstration and/or other Medicaid expenditures.
- e. Any changes to the DSHPs listed in STC 11 shall be considered an amendment to the demonstration and processed in accordance with STC 7.

## **VIII. GENERAL REPORTING REQUIREMENTS**

1. **General Financial Requirements.** The state must comply with all general financial requirements set forth in Section IX.
2. **Reporting Requirements Related to Budget Neutrality.** The state must comply with all reporting requirements for monitoring budget neutrality set forth in section IX.
3. **Monthly Calls.** CMS shall schedule monthly conference calls with the state. The purpose of these calls is to discuss any significant actual or anticipated developments affecting the demonstration. Areas to be addressed include, but are not limited to, MCO operations (such as contract amendments and rate certifications), transition and implementation activities, health care delivery, the FHP-PAP program, enrollment of individuals using LTSS and non-LTSS users broken out by duals and non-duals, cost sharing, quality of care, access, benefits,

audits, lawsuits, financial reporting and budget neutrality issues, MCO financial performance that is relevant to the demonstration, progress on evaluations, state legislative developments, services being added to the MMMC and/or MLTC plan benefit package pursuant to Section V, and any demonstration amendments, concept papers, or state plan amendments the state is considering submitting. CMS shall update the state on any amendments or concept papers under review, as well as federal policies and issues that may affect any aspect of the demonstration. The state and CMS shall jointly develop the agenda for the calls.

- 4. Quarterly Operational Reports.** The state must submit progress reports in accordance with the guidelines in Attachment D taking into consideration the requirements in STC 7, no later than 60 days following the end of each quarter (December, March, and June of each demonstration year). The state may combine the quarterly report due for the quarter ending September with the annual report in STC 5. The intent of these reports is to present the state's analysis and the status of the various operational areas.
- 5. Annual Report.** The state must submit an annual report documenting accomplishments, project status, quantitative and case study findings, interim evaluation findings, utilization data, and policy and administrative difficulties in the operation of the demonstration. The state must submit this report no later than 90 days following the end of each demonstration year. Additionally, the annual report must include:
  - a.** A summary of the elements included within each quarterly report;
  - b.** An update on the progress related to the quality strategy as required in Section VI, including:
    - i.** Outcomes of care, quality of care, cost of care and access to care for demonstration populations;
    - ii.** The results of beneficiary satisfaction survey, grievances and appeals;
  - c.** The status of the evaluation required in Section XI and information regarding progress in achieving demonstration evaluation criteria including the results/impact of any demonstration programmatic area defined by CMS that is unique to the demonstration design or evaluation hypotheses;
  - d.** An aggregated enrollment report showing the total number of individuals enrolled in each plan;
  - e.** A summary of the use of self-directed service delivery options in the state at the time when those benefits are included in the demonstration;
  - f.** A listing of the new geographic areas the state has expanded MLTC to;
  - g.** A list of the benefits added to the managed care benefit package;

- h. An updated transition plan which shows the intended transition and timeline for any new benefits and/or populations into the demonstration;
- i. Network adequacy reporting as required in Section V;
- j. Any other topics of mutual interest between CMS and the state related to the demonstration; and
- k. Any other information the state believes pertinent to the demonstration, such as:
  - i. Any policy or administrative difficulties that may impact the demonstration,
  - ii. Any state legislative developments that may impact the demonstration,
  - iii. The status of the health care delivery system under the demonstration with respect to issues and/or complaints identified by beneficiaries,
  - iv. The impact of the demonstration in providing insurance coverage to beneficiaries and uninsured population,
  - v. The existence or results of any audits, investigations or lawsuits that impact the demonstration,
  - vi. The financial performance of the demonstration (budget neutrality), and
  - vii. A summary of the annual post-award forum, including all public comments received regarding the process of the demonstration project.

**6. Transition Plan.** On or before July 1, 2012, and consistent with guidance provided by CMS, the state is required to prepare, and incrementally revise, a Transition Plan consistent with the provisions of the Affordable Care Act (ACA) for individuals enrolled in the demonstration, including how the state plans to coordinate the transition of these individuals to a coverage option available under the ACA without interruption in coverage to the maximum extent possible. The plan must include the required elements and milestones described in paragraphs (a)-(e) outlined below. In addition, the Plan will include a schedule of implementation activities that the state will use to operationalize the Transition Plan. For any elements and milestones that remain under development as of July 1, 2012, the state will include in the Transition Plan a description of the status and anticipated completion date.

- a. **Seamless Transitions.** Consistent with the provisions of the ACA, the Transition Plan will include details on how the state plans to obtain and review any additional information needed from each individual to determine eligibility under all eligibility groups, and coordinate the transition of individuals enrolled in the demonstration (by FPL) (or newly applying for Medicaid) to a coverage option available under the ACA without interruption in coverage to the maximum extent possible. Specifically, the state must:
  - i. Determine eligibility under all January 1, 2014, eligibility groups for which the state is required or has opted to provide medical assistance, including the group described in §1902(a)(10)(A)(i)(VIII) for individuals under age 65 and regardless of disability status with income at or below 133 percent of the FPL;

- ii. Identify demonstration populations not eligible for coverage under the ACA and explain what coverage options and benefits these individuals will have effective January 1, 2014;
- iii. implement a process for considering, reviewing and making preliminary determinations under all January 1, 2014 eligibility groups for new applicants for Medicaid eligibility;
- iv. Conduct an analysis that identifies populations in the demonstration that may not be eligible for or affected by the ACA and the authorities the state identifies that may be necessary to continue coverage for these individuals; and
- v. Develop a modified adjusted gross income (MAGI) calculation for program integrity.

**b. Access to Care and Provider Payments.**

- i. Provider Participation. The state must identify the criteria that will be used for reviewing provider participation in (e.g., demonstrated data collection and reporting capacity) and means of securing provider agreements for the transition.
- ii. Adequate Provider Supply. The state must provide the process that will be used to assure adequate provider supply for the state plan and demonstration populations affected by the demonstration on December 31, 2013. The analysis should address delivery system infrastructure/capacity, provider capacity, utilization patterns and requirements (i.e., prior authorization), current levels of system integration, and other information necessary to determine the current state of the of service delivery. The report must separately address each of the following provider types:
  - A. Primary care providers,
  - B. Mental health services,
  - C. Substance use services and
  - D. Dental.
- iii. Provider Payments. The state will establish and implement the necessary processes for ensuring accurate encounter payments to providers entitled to the prospective payment services (PPS) rate (e.g., certain FQHCs and RHCs) or the all-inclusive rate (e.g., certain Indian Health providers).

- c. **System Development or Remediation.** The Transition Plan for the demonstration is expected to expedite the state's readiness for compliance with the requirements of the Affordable Care Act and other federal legislation. System milestones that must be tested for implementation on or before January 1, 2014 include: Replacing manual administrative controls with automative processes to support a smooth interface among coverage and delivery system options that is seamless to beneficiaries.
- d. **Progress Updates.** After submitting the initial Transition Plan for CMS approval, the state must include progress updates in each quarterly and annual report. The Transition Plan shall be revised as needed.
- e. **Implementation.**

- i. By October 1, 2013, the state must begin to implement a simplified, streamlined process for transitioning eligible enrollees in the demonstration to Medicaid, the Exchange or other coverage options in 2014. In transitioning these individuals from coverage under the waiver to coverage under the state plan, the state will not require these individuals to submit a new application.
- ii. On or before December 31, 2013, the state must provide notice to the individual of the eligibility determination using a process that minimizes demands on the enrollees.

**7. Reporting Requirements Related to Individuals using Long Term Services and**

**Supports.** In each quarterly report required by STC 4 in Section VIII, the state shall report:

- a. Any critical incidents reported within the quarter and the resulting investigations as appropriate;
- b. The number and types of grievance and appeals for this population filed and/or resolved within the reporting quarter for this population;
- c. The total number of assessments for enrollment performed by the plans, with the number of individuals who did not qualify to enroll in an MLTC plan;
- d. The number of individuals referred to an MLTC plan that received an assessment within 30 days;
- e. The number of people who were not referred by the enrollment broker and contacted the plan directly and were provided MLTC materials;
- f. Rebalancing efforts performed by the MLTC plans and mainstream plans once the benefit is added. Rebalancing reporting should include, but is not limited to the total number of individuals transitioning in and out of a nursing facility within the quarter.
- g. Total number of complaints, grievances and appeals by type of issue with a listing of the top 5 reasons for the event.

**8. Final Evaluation Report.** The state shall submit a Final Evaluation Report pursuant to the requirements of section 1115 of the Act.

## **IX. GENERAL FINANCIAL REQUIREMENTS**

**1. Quarterly Expenditure Reports.** The state must provide quarterly expenditure reports using Form CMS-64 to separately report total expenditures for services provided under the Medicaid program, including those provided through the demonstration under section 1115 authority. This project is approved for expenditures applicable to services rendered during the demonstration period. CMS shall provide FFP for allowable demonstration expenditures

only as long as they do not exceed the pre-defined limits on the costs incurred as specified in section X.

**2. Reporting Expenditures under the Demonstration.** The following describes the reporting of expenditures under the demonstration:

**a.** In order to track expenditures under this demonstration, New York must report demonstration expenditures through the Medicaid and State Children’s Health Insurance Program Budget and Expenditure System, following routine CMS-64 reporting instructions outlined in Section 2500 of the State Medicaid Manual. All demonstration expenditures must be reported each quarter on separate Forms CMS-64.9 Waiver and/or 64.9P Waiver, identified by the demonstration project number assigned by CMS (including the project number extension, which indicates the DY in which services were rendered or for which capitation payments were made).

**b.** DY reporting shall be consistent with the following time periods:

Demonstration Year	Time Period
1	10/1/1997 - 9/30/1998
2	10/1/1998 - 9/30/1999
3	10/1/1999 - 9/30/2000
4	10/1/2000 - 9/30/2001
5	10/1/2001 - 3/30/2003
6	04/1/2003 - 9/30/2004
7	10/1/2004 - 9/30/2005
8	10/1/2005 - 9/30/2006
9	10/1/2006 - 09/30/2007
10	10/1/2007 - 09/30/2008
11	10/1/2008 - 09/30/2009
12	10/1/2009 - 09/30/2010
13	10/1/2010 - 09/30/2011
14	10/1/2011 - 09/30/2012
15	10/1/2012 - 09/30/2013
16	10/1/2013 – 12/31/2013
17	1/1/2014 – 3/31/2014
18	4/1/2014 – 12/31/2014

**c.** Demonstration expenditures will be correctly reported on Forms CMS-64.9 Waiver. Quarterly cost settlements and pharmaceutical rebates relevant to the demonstration will be allocated to the demonstration populations specified in subparagraph (g) and offset against current quarter waiver expenditures. Demonstration expenditures net of these

- ix. Demonstration Services 2 - Designated State Health Programs to Support Clinic Uncompensated Care Funding, for expenditures made on or before December 31, 2014 [ICP – DSHP]
- x. Demonstration Services 3 - Designated State Health Programs to Support Medical Home Demonstration, for expenditures made on or before December 31, 2014 [DSHP - HMH Demo]
- xi. Demonstration Services 4 - Designated State Health Programs to Support Potentially Preventable Readmission Demonstration, for expenditures made on or before December 31, 2014 [DSHP - PPR Demo]
- xii. Demonstration Services 5 - Designated State Health Programs for expenditures made for the period of April 1, 2013 through December 31, 2014 in conjunction with deliverables associated with health system transformation for individuals with developmental disabilities. [DSHP - DD]
- xiii. Demonstration Services 6 - Designated State Health Programs for expenditures made for the period January 1, 2014 through December 31, 2014 for the orderly close out of FHPlus adults with children. [DSHP – FHPlus]
- xiv. Demonstration Services 7 - Designated State Health Program for expenditures made for the period January 1, 2014 through December 31, 2014 for the state-funded Marketplace subsidy program who purchases health care coverage in the Marketplace. [DSHP – APTC]

**3. Expenditures Subject to the Budget Neutrality Agreement.** For purposes of this section, the term “expenditures subject to the budget neutrality agreement” must include all Medicaid expenditures in STC 2(e) for individuals who are enrolled in this demonstration, as well as the demonstration services described in subparagraphs x through xiii, subject to limitations enumerated in this paragraph. All expenditures that are subject to the budget neutrality agreement are considered demonstration expenditures and must be reported on Forms CMS-64.9 Waiver and/or 64.9P Waiver.

**4. Mandated Increase in Physician Payment Rates in 2013 and 2014.** Section 1202 of the Health Care and Education Reconciliation Act of 2010 (Pub. Law 110-152) requires state Medicaid programs to reimburse physicians for primary care services at rates that are no less than what Medicare pays, for services furnished in 2013 and 2014, with the Federal Government paying 100 percent of the increase. The entire amount of this increase will be excluded from the budget neutrality test for this demonstration. The specifics of separate reporting of these expenditures will be described in guidance to be issued by CMS at a later date.

- 5. Administrative Costs.** Administrative costs will not be included in the budget neutrality limit, but the state must separately track and report additional administrative costs that are directly attributable to the demonstration. All administrative costs must be identified on the Forms CMS-64.10 Waiver and/or 64.10P Waiver.
- 6. Claiming Period.** All claims for expenditures subject to the budget neutrality cap (including any cost settlements) must be made within 2 years after the calendar quarter in which the state made the expenditures. All claims for services during the demonstration period (including any cost settlements) must be made within 2 years after the conclusion or termination of the demonstration. During the latter 2-year period, the state must continue to identify separately net expenditures related to dates of service during the operation of the demonstration on the CMS-64 waiver forms in order to properly account for these expenditures in determining budget neutrality.
- 7. Reporting Member Months.** The following describes the reporting of member months for demonstration populations:

- a.** For the purpose of calculating the budget neutrality expenditure cap and for other purposes, the state must provide to CMS, as part of the quarterly report required under STC 4 in Section VIII, the actual number of eligible member months for the demonstration populations defined in STC 1, for months prior to or including the ending date indicated in STC 2(e) for each demonstration population. The state must submit a statement accompanying the quarterly report, which certifies the accuracy of this information.

To permit full recognition of “in-process” eligibility, reported counts of member months may be subject to revisions after the end of each quarter. Member month counts may be revised retrospectively for up to 2 years as needed.

- b.** The term “eligible member months” refers to the number of months in which persons are eligible to receive services. For example, a person who is eligible for 3 months contributes 3 eligible member months to the total. Two individuals who are eligible for 2 months each contribute 2 eligible member months, for a total of 4 eligible member months.
  - c.** For the purposes of this demonstration, the term “demonstration eligibles” excludes unqualified aliens and refers to the demonstration populations described in STC 2. Beginning in DY 9, “demonstration eligibles” excludes Demonstration Populations 3 and 4, subject to STC 3(b), as well as portions of Demonstration Populations 1 and 2, as specified in STC 3(a – b).
- 8. Standard Medicaid Funding Process.** The standard Medicaid funding process must be used during the demonstration. New York must estimate matchable demonstration expenditures (total computable and federal share) subject to the budget neutrality expenditure cap and separately report these expenditures by quarter for each federal fiscal year on the

Form CMS-37 for both the Medical Assistance Payments and State and Local Administration Costs. CMS shall make federal funds available based upon the state's estimate, as approved by CMS. Within 30 days after the end of each quarter, the state must submit the Form CMS-64 quarterly Medicaid expenditure report, showing Medicaid expenditures made in the quarter just ended. CMS shall reconcile expenditures reported on the Form CMS-64 with federal funding previously made available to the state, and include the reconciling adjustment in the finalization of the grant award to the state.

- 9. Extent of FFP for the Demonstration.** Subject to CMS approval of the source(s) of the non-federal share of funding, CMS shall provide FFP at the applicable federal matching rates for the demonstration as a whole as outlined below, subject to the limits described in section X:
  - a. Administrative costs, including those associated with the administration of the demonstration.
  - b. Net expenditures and prior period adjustments of the Medicaid program that are paid in accordance with the approved Medicaid state plan and waiver authorities.
  - c. Net expenditures and prior period adjustments, made under approved expenditure authorities granted through section 1115(a)(2) of the Act, with dates of service during the operation of the demonstration.
  
- 10. Sources of Non-Federal Share.** The state certifies that the non-federal share of funds for the demonstration is state/local monies. The state further certifies that such funds shall not be used to match for any other federal grant or contract, except as permitted by law. All sources of non-federal funding must be compliant with section 1903(w) of the Act and applicable regulations. In addition, all sources of the non-federal share of funding are subject to CMS approval.
  - a. CMS may review the sources of non-federal share of funding for the demonstration at any time. The state agrees that all funding sources deemed unacceptable by CMS shall be addressed within the time frames set by CMS.
  - b. Any amendments that impact the financial status of the program shall require the state to provide information to CMS regarding all sources of the non-federal share of funding.
  
- 11. State Certification of Funding Conditions.** The state must certify that the following conditions for the non-federal share of demonstration expenditures are met:
  - a. Units of government, including governmentally operated health care providers, may certify that state or local tax dollars have been expended as the non-federal share of funds under the demonstration.
  - b. To the extent the state utilizes certified public expenditures (CPEs) as the funding mechanism for the title XIX (or under section 1115 authority) payments, CMS must

approve a cost reimbursement methodology. This methodology must include a detailed explanation of the process by which the state would identify those costs eligible under title XIX (or under section 1115 authority) for purposes of certifying public expenditures.

- c. To the extent the state utilizes CPEs as the funding mechanism to claim federal match for payments under the demonstration, governmental entities to which general revenue funds are appropriated must certify to the state the amount of such tax revenue (state or local) used to satisfy demonstration expenditures. The entities that incurred the cost must also provide cost documentation to support the state's claim for federal match.
- d. The state may use intergovernmental transfers to the extent that such funds are derived from state or local tax revenues and are transferred by units of government within the state. Any transfers from governmentally operated health care providers must be made in an amount not to exceed the non-federal share of title XIX payments.
- e. Under all circumstances, health care providers must retain 100 percent of the claimed expenditure. Moreover, no pre-arranged agreements (contractual or otherwise) exist between health care providers and state and/or local government to return and/or redirect any portion of the Medicaid payments. This confirmation of Medicaid payment retention is made with the understanding that payments that are the normal operating expenses of conducting business, such as payments related to taxes, (including health care provider-related taxes), fees, business relationships with governments that are unrelated to Medicaid and in which there is no connection to Medicaid payments, are not considered returning and/or redirecting a Medicaid payment.

**12. Monitoring the Demonstration.** The state will provide CMS with information to effectively monitor the demonstration, upon request, in a reasonable time frame.

## **X. MONITORING BUDGET NEUTRALITY**

1. **Limit on Title XIX Funding.** The state shall be subject to a limit on the amount of federal title XIX funding that the state may receive on selected Medicaid expenditures during the period of approval of the demonstration. The limit is determined by using a per capita cost method, and budget neutrality expenditure caps are set on a yearly basis with a cumulative budget neutrality expenditure limit for the length of the entire demonstration. The data supplied by the state to CMS to set the annual limits is subject to review and audit, and, if found to be inaccurate, will result in a modified budget neutrality expenditure limit.
2. **Risk.** New York shall be at risk for the per capita cost (as determined by the method described below) for demonstration eligibles under this budget neutrality agreement, but not for the number of demonstration eligibles in each of the groups. By providing FFP for all demonstration eligibles, New York shall not be at risk for changing economic conditions that impact enrollment levels. However, by placing New York at risk for the per capita costs for demonstration eligibles under this agreement, CMS assures that federal demonstration expenditures do not exceed the level of expenditures that would have occurred had there been no demonstration.

**3. Demonstration Populations Used to Calculate Budget Neutrality Expenditure Limit.**

The following demonstration populations are used to calculate the budget neutrality expenditure limit subject to the limitations outlined in STC 3 and are incorporated into the following eligibility groups (EGs):

Eligibility Group 1	TANF Children under age 1 through 20 required to enroll in managed care in the counties subject to mandatory managed care enrollment as of October 1, 2006 (Demonstration Population 1)
Eligibility Group 2	TANF Adults aged 21 through 64 required to enroll in managed care in the counties subject to mandatory managed care enrollment as of October 1, 2006 (Demonstration Population 2)
Eligibility Group 5	MLTC Adults age 18 through 64 – Duals (Demonstration Population 10)
Eligibility Group 6	MLTC Adults age 65 and above – Duals (Demonstration Population 11)

**4. Budget Neutrality Expenditure Limit.** The following describes the method for calculating the budget neutrality expenditure limit for the demonstration:

- a.** For each year of the budget neutrality agreement, an annual budget neutrality expenditure limit is calculated for each EG described in STC 3 as follows:
  - i.** An annual EG estimate must be calculated as a product of the number of eligible member months reported by the state in accordance with the requirements outlined in STC 3, for each EG, times the appropriate estimated per member per month (PMPM) costs from the table in subparagraph (iii) below. Should EGs 3 and 4 be incorporated into the budget neutrality expenditure limit, as outlined in STC 5, the PMPM costs may be revised.
  - ii.** The PMPM costs in subparagraph (iii) below are net of any premiums paid by demonstration eligible.
  - iii.** The PMPM costs for the calculation of the annual budget neutrality expenditure limit for the eligibility groups subject to the budget neutrality agreement under this demonstration are specified below.
    - A.** To reflect the additional demonstration year that was authorized through temporary extension (DY 12), the PMPM cost for each EG in DY 11 has been increased by the appropriate growth rate from the prior extension period. These figures are displayed below.

<b>Eligibility Group</b>	<b>DY 11 (10/1/08 –</b>	<b>Trend Rate</b>	<b>DY 12 (10/1/09 –</b>
TANF Children under age 1 through 20	\$549.19	6.7%	\$585.99
TANF Adults 21 through 64	\$751.73	6.6%	\$801.34

- B.** For the current extension period, the PMPM costs for each EG in DY 12 has been increased by the appropriate growth rate included in the President’s federal fiscal year 2011 budget for DYs 13 through 16, as outlined below. The FHPlus Adults with Children and Family Planning Expansion Adults groups will end on December 31, 2013, so no PMPM is defined for those groups for DY 17. The budget neutrality expenditure limit will end March 31, 2014; expenditures made after that date for DSHP must be offset by accumulated savings from DYs 1 through 17.

Eligibility Group	DY 12 (10/1/09 – 9/30/10)`	Trend Rate	DY 13 (10/1/10 – 9/30/11)	DY 14 (10/1/11 – 9/30/12)	DY 15 (10/1/12 – 9/30/13)	DY 16 (10/1/13 – 12/31/13)	DY 17 (1/1/14 – 3/31/14)
TANF Children under age 1 through 20	\$585.99	6.6%	\$624.67	\$665.90	\$709.85	\$756.70	\$756.70
TANF Adults 21 through 64	\$801.34	6.4%	\$852.63	\$907.20	\$965.26	\$1027.04	\$1027.04
MLTC Adults 18 through 64 - Dual		1.19%		\$4009.38	\$4057.09	\$4105.37	\$4105.37
MLTC Adults 65 and above - Dual		3.23%		\$4742.15	\$4895.32	\$5053.44	\$5053.44

- iv.** The annual budget neutrality expenditure limit for the demonstration as a whole is the sum of the project annual expenditure limits for each EG calculated in subparagraph (i) above.
- b.** The overall budget neutrality expenditure limit for the demonstration period is the sum of the annual budget neutrality expenditure limits calculated in subparagraph (a)(iv) above for each year. The federal share of the overall budget neutrality expenditure limit

represents the maximum amount of FFP that the state may receive for expenditures on behalf of demonstration populations and expenditures described in STC 3 in Section VIII during the demonstration period.

- 5. Monitoring of New Adult Group Spending and Opportunity to Adjust Projections.** For each demonstration year, a separate annual budget limit for the new adult group will be calculated as the product of the trended monthly per person cost times the actual number of eligible/member months as reported to CMS by the state under the guidelines set forth in STC 7 in Section VIII. The per capita cost estimates for the new adult group are listed in the table below.

MEG	DY 16 – PMPM
New Adult Group	\$722.57

- a. If the state’s experience of the take up rate for the new adult group and other factors that affect the costs of this population indicates that the new adult group PMPM limit described above may underestimate the actual costs of medical assistance for the new adult group, the state has the opportunity to submit an adjustment to the PMPM limit, along with detailed expenditure data to justify this, for CMS review without submitting an amendment pursuant to Section II. In order to ensure timely adjustments to the PMPM limit for a demonstration year, the revised projection for DY 16 must be submitted to CMS by no later than October 1, 2014.
  - b. The budget limit for the new adult group is calculated by taking the PMPM cost projections for the above group in each demonstration year, times the number of eligible member months for that group and demonstration year, and adding the products together across demonstration years. The federal share of the budget neutrality cap is obtained by multiplying total computable budget neutrality cap by the federal share.
  - c. The state will not be allowed to obtain budget neutrality “savings” from this population.
  - d. If total FFP reported by the state for the new adult group should exceed the federal share of FFP for the budget limit for the new adult group by more than 3 percent following each demonstration year, the state must submit a corrective action plan to CMS for approval.
- 6. Calculating the Federal Medical Assistance Percentage (FMAP) for Continuous Eligibility for the Adult Group.** CMS anticipates that states that adopt continuous eligibility for adults would experience a 2 percent increase in enrollment. Based on this estimate, CMS has determined that 97.4 percent of the member months for the Adult Group will be matched at the enhanced FMAP rate and 2.6 percent will be matched at the regular FMAP rate.
- 7. State Reporting for the FMAP Adjustment.** Individuals in the Adult Group shall be claimed at the enhanced FMAP rate. The state must make an adjustment in the CMS-64W that accounts for the proportion of member months in which beneficiaries are enrolled due to

continuous eligibility and could have been disenrolled due to excess income in absence of continuous eligibility (i.e. 2.6 percent). For the purposes on budget neutrality, the members for the adult group within the 2.6 percent of the population described in this STC will be treated as a hypothetical population. The state is not subject to use their budget neutrality savings towards providing continuous eligibility to this population.

- 8. Future Adjustments to the Budget Neutrality Expenditure Limit.** CMS reserves the right to adjust the budget neutrality expenditure limit to be consistent with enforcement of impermissible provider payments, health care related taxes, new federal statutes, or policy interpretations implemented through letters, memoranda, or regulations with respect to the provision of services covered under the Partnership Plan.
- 9. Enforcement of Budget Neutrality.** CMS shall enforce budget neutrality over the life of the demonstration rather than on an annual basis. DY 16c expenditures, which will consist only of DSHP expenditures in support of the H-MH and PPR demonstrations, will be included in the budget neutrality test for the demonstration. The state may receive FFP for these expenditures to the extent that sufficient accumulated budget neutrality savings are available from prior DYs.
- 10. Exceeding Budget Neutrality.** If at the end of this demonstration period the overall budget neutrality expenditure limit has been exceeded, the excess federal funds must be returned to CMS. If the demonstration is terminated prior to the end of the budget neutrality agreement, an evaluation of this provision shall be based on the time elapsed through the termination date.

## **XI. EVALUATION OF THE DEMONSTRATION**

- 1.** The evaluation design must include a discussion of the goals and objectives set forth in Section II of these STCs, and develop evaluation questions specific to the changes implemented in the demonstration during the extension period.
  - a.** The evaluation questions should include, but are not limited to:
    - i.** To what extent has the provisions of continuous eligibility affected the stability and continuity of coverage and care to adults? How has the implementation of the Statewide Enrollment Center impacted “churning” by demonstration participants?
    - ii.** A quantitative and qualitative assessment of the effectiveness of the provider and enrollee education and outreach efforts, as well as plan oversight and compliance monitoring, in minimizing the impact of the transition of individuals living with HIV into mandatory Medicaid managed care.
    - iii.** To what extent has the mandatory enrollment of individuals living with HIV into MMC impacted their perceptions of care (fee-for-service vs. Safety Net Population/SNP vs. mainstream)?
    - iv.** Has the required enrollment of individuals living with HIV into Medicaid managed care (either mainstream plans or HIV SNPs) impacted quality outcomes, which in

- earlier studies showed that these individuals enrolled in managed care on a voluntary basis received better quality care than in fee-for-service?
- v. An assessment of the successes and failures, along with recommendations for improvement, of the HIV SNP program.
  - vi. Has the state's H-MH demonstration resulted in demonstrable improvements in the quality of care received by demonstration participants?
  - vii. To what extent has the H-MH demonstration produced replicable residency program design features that enhance training in medical home concepts?
  - viii. How has the H-MH demonstration helped the selected facilities improve both their systemic and quality performance under each initiative implemented by the selected facilities?
  - ix. How have the results of the PPR demonstration program informed changes in reimbursement policies that provide incentives to help people stay out of the hospital?
  - x. How has the PPR demonstration program improved quality and cost savings at selected facilities? To what extent are the interventions tested both replicable and sustainable?
  - xi. How has the additional funding provided under the Clinic Uncompensated Care program increased the use of patient-centered medical homes and electronic medical records?
  - xii. How have the results of the Marketplace Subsidy Program for enrollment in a QHP, using childless adults who are not eligible to receive a subsidy as a comparison group, expanded access to health insurance coverage?
- b. The evaluation questions for MLTC goals should include, but are not limited to:
- i. How has enrollment in MLTC plans increased over the length of the demonstration?
  - ii. What are the demographic characteristics of the MLTC population? Are they changing over time?
  - iii. What are the functional and cognitive deficits of the MLTC population? Are they changing over time?
  - iv. Are the statewide and plan-specific overall functional indices decreasing or staying the same overtime?
  - v. Are the average cognitive and plan specific attributes decreasing or staying the same over time?
  - vi. Are the individuals care plans consistent with the functional and cognitive abilities of the enrollees? This evaluation question will be included as there is sufficient data available in 2014 to provide accurate measures. NYS will address this question in the Final Evaluation Plan.
  - vii. Access to care: To what extent are enrollees able to receive timely access to personal, home care and other services such as dental care, optometry and audiology?
  - viii. Quality of care: Are enrollees accessing necessary services such as flu shots and dental care?
  - ix. Patient Safety: Are enrollees managing their medications? What are the fall rates and how are they changing over time?
  - x. Satisfaction: What are the levels of satisfaction with access to, and perceived timeliness and quality of network providers?

**xi. Costs:** What are the PMPM costs of the population?

The draft design must discuss the outcome measures that will be used in evaluating the impact of the demonstration during the period of approval, particularly among the target population. It must discuss the data sources and sampling methodology for assessing these outcomes. The draft evaluation design must include a detailed analysis plan that describes how the effects of the demonstration shall be isolated from other initiatives occurring in the state.

**c.** The state must submit to CMS for approval a draft evaluation design no later than July 1, 2013.

**2. Evaluation Implementation.** The state shall implement the final evaluation design and submit its progress in each of the quarterly and annual progress reports.

**3. Interim Evaluation Report.** The state must submit an interim evaluation report as part of the state's request for any future renewal of the demonstration.

**4. Final Evaluation Report.** The state must submit draft final evaluation reports according to the following schedule.

**a.** By July 31, 2014 the state must submit to CMS a draft final evaluation report, presenting findings from all evaluation activities. Findings from the evaluations of the H-MH and PPR demonstrations may be preliminary findings. CMS shall provide comments within 60 days after receipt of the report. The state shall submit the final evaluation report within 60 days after receipt of CMS comments.

**b.** By April 30, 2015 the state must submit to CMS a draft final evaluation report on the evaluations of the H-MH and PPR demonstrations. CMS shall provide comments within 60 days after receipt of the report. The state shall submit the final evaluation report within 60 days after receipt of CMS comments.

**5. Cooperation with CMS Evaluators.** Should CMS conduct an independent evaluation of any component of the demonstration, the state will cooperate fully with CMS or the independent evaluator selected by CMS. The state will submit the required data to the contractor or CMS.

## **XII. SCHEDULE OF STATE DELIVERABLES FOR THE DEMONSTRATION EXTENSION PERIOD**

<b>Date - Specific</b>	<b>Deliverable</b>	<b>Reference</b>
07/1/2013	Submit Draft Evaluation Plan	Section XI

	Deliverable	Reference
Annual	By January 1st - Annual Report	Section VIII
Quarterly		
	Quarterly Operational Reports	Section VIII
	Quarterly Expenditure Reports	Section IX
	Eligible Member Months	Section IX

## ATTACHMENT A

### Mainstream Medicaid Managed Care Benefits

Inpatient and outpatient hospital services
Clinic services including Rural Health Clinic and Federally Qualified Health Center services
Laboratory and X-ray services
Home health services
Early Periodic Screening, Diagnosis, and Treatment services (for individuals under age 21 only)
Family planning services and supplies
Physicians services including nurse practitioners and nurse midwife services
Dental services
Physical and occupational therapy
Speech, hearing, and language therapy
Prescription drugs, over-the-counter drugs, and medical supplies
Durable Medical Equipment (DME), including prosthetic and orthotic devices, hearing aids, and prescription shoes
Vision care services, including eyeglasses
Intermediate Care Facilities for the Mentally Retarded (ICF/MR)
Nursing facility services
Personal care services
Medical Social Services for persons transitioning from the LTHHCP who received the service under the LTHHCP (non-state plan service)
Home Delivered Meals for persons transitioning from the LTHHCP who received the service under the LTHHCP (non-state plan service)
Case management services
Hospice care services
TB-related services
Inpatient and outpatient behavioral health services (mental health and chemical dependence services)
Emergency medical services, including emergency transportation
Adult day care
Personal Emergency Response Services (PERS)
Renal dialysis
Home and Community Based Services waivers (HCBS)
Care at Home Program (OPWDD)
Non-emergency transportation
Experimental or investigational treatment (covered on a case-by-case basis)

Service	Co-pay
Non-preferred brand-name prescription drugs	\$3

Preferred brand-name prescription drugs	\$1
Generic prescription drugs	\$1

**Note:** One co-pay is charged for each new prescription and each refill. No co-payment for drugs to treat mental illness (psychotropic) and tuberculosis.

## ATTACHMENT B

### Managed Long Term Care Benefits

Home Health Care*
Medical Social Services
Adult Day Health Care
Personal Care
Durable Medical Equipment**
Non-emergent Transportation
Podiatry
Dental
Optometry/Eyeglasses
Outpatient Rehabilitation PT, OT, SP
Audiology/Hearing Aids
Respiratory Therapy
Private Duty Nursing
Nutrition
Skilled Nursing Facilities
Social Day Care
Home Delivered/Congregate Meals
Social and Environmental Supports
PERS (Personal Emergency Response Service)

\*Home Care including Nursing, Home Health Aide, Physical Therapy (PT), Occupational Therapy (OT), Speech Pathology (SP)

\*\*DME including Medical/Surgical, Hearing Aid Batteries, Prosthetic, Orthotics and Orthopedic Footwear

## ATTACHMENT C

### Home and Community-Based Services Expansion Program Benefits

All HCBS Expansion program participants may not receive all benefits listed below. An individual participant's access to the benefits below may vary based on the individual's similarity to an individual determined eligible for and enrolled in the LTHHC, NHTD, or TBI 1915(c) waiver program.

Assistive Technology (including personal emergency response system)
Community Integration Counseling and Services
Community Transition Services
Congregate/Home Delivered Meals
Environmental Modifications
Home and Community Support Services
Home Maintenance
Home Visits by Medical Personnel
Independent Living Skills Training
Intensive Behavioral Programs
Medical Social Services
Moving Assistance
Nutritional Counseling/Education
Peer Mentoring
Positive Behavioral Interventions
Respiratory Therapy
Respite Care/Services
Service Coordination
Social Day Care (including transportation)
Structured Day Program
Substance Abuse Programs
Transportation
Wellness Counseling Services

Home and community-based services (HCBS) must be provided in a setting that has home-like characteristics and not in institutionalized settings, unless an enrollee is in need of short term respite care. Below are the required home and community characteristics that must be in place for HCBS and other long-term services and supports programs:

- Private or semi-private bedrooms including decisions associated with sharing a bedroom.
- Full access to facilities in a home, such as kitchen and cooking facilities and small dining areas.
- All participants must be given an option to receive HCBS in more than one residential setting appropriate to their needs.
- Private or semi-private bathrooms that include provisions for privacy.
- Common living areas and shared common space for interaction between participants, their guests and other residents.
- Enrollees must have access to food storage or a food pantry area at all times.
- Enrollees must be provided with an opportunity to make decisions about their day to day activities including visitors, when and what to eat, in their home and in the community.
- Enrollees will be treated with respect, choose to wear their own clothing, have private space for their personal items, have privacy to visit with friends, family, be able to use a telephone with privacy, choose how and when to spend their free time, have easy access to resources and activities of their choosing in the community.

In provider owned or controlled residential settings, the following additional conditions will be provided to members:

- Privacy in sleeping or living unit.
- Units have lockable entrance doors, with appropriate staff having keys to doors.
- Enrollees share units only at the enrollee's choice.
- Enrollees have freedom to furnish and decorate sleeping or living units.
- The setting is physically accessible to the enrollee.

HCBS LTSS are not provided in institution-like settings except when such settings are employed to furnish short-term respite to individuals.

## ATTACHMENT D

### Quarterly Operational Report Format

Under Section IX, the state is required to submit quarterly reports to CMS. The purpose of the quarterly report is to inform CMS of significant demonstration activity from the time of approval through completion of the demonstration. The reports are due to CMS 60 days after the end of each quarter (except for the report due for the quarter ending on September 30 of each demonstration year, which can be incorporated into the annual report required under Section IX).

The following report guidelines are intended as a framework and can be modified when agreed upon by CMS and the state. A complete quarterly progress report must include an updated budget neutrality monitoring workbook.

#### **NARRATIVE REPORT**

##### **FORMAT: Title Line One –**

Partnership Plan

##### **Title Line Two - Section 1115 Quarterly Report**

##### **Demonstration/Quarter Reporting Period:**

Example:

Demonstration Year: 14 (10/1/11 - 9/30/12)

Federal Fiscal Quarter: 1/2012 (10/11 - 12/11)

##### **Introduction:**

Information describing the goal of the demonstration, what it does, and key dates of approval /operation. (This should be the same for each report.)

##### **Enrollment Information:**

Please complete the following table that outlines all enrollment activity under the demonstration. The state should indicate “N/A” where appropriate. If there was no activity under a particular enrollment category, the state should indicate that by “0”. Please note any changes in enrollment that fluctuate 10 percent or more over the previous quarter as well as the same quarter in the prior demonstration year.

##### **Enrollment Counts**

**Note:** Enrollment counts should be person counts, not participant months

<b>Demonstration Populations (as hard coded in the CMS-64)</b>	<b>Current Enrollees (to date)</b>	<b>No. Voluntary Disenrolled in current Quarter</b>	<b>No. Involuntary Disenrolled in current Quarter</b>
--	--	---	---

<b>Population 1 – TANF Child under age 1 through age 20 in mandatory MC counties</b>			
<b>Population 2 - TANF Adults aged 21 through 64 in mandatory MC counties as of 10/1/06</b>			
<b>Adult Group in MMMC</b>			
<b>Population 9 – HCBS Expansion participants</b>			
<b>Population 10 – MLTC Adults 18 through 64 - Duals</b>			
<b>Population 11 – MLTC Adults age 65 and above - Duals</b>			

**Voluntary Disenrollments:**

- Cumulative Number of Voluntary Disenrollments within Current Demonstration Year
- Reasons for Voluntary Disenrollments

**Involuntary Disenrollments:**

- Cumulative Number of Involuntary Disenrollments within Current Demonstration Year
- Reasons for Involuntary Disenrollments

**Enrollment Information for Specific Sub-populations:**

- Enrollees in the HCBS Expansion program

**Program Operations**

**Outreach/Innovative Activities:** Summarize outreach activities and/or promising practices for the current quarter.

**Operational/Policy Developments/Issues:** Identify all significant program developments/issues/problems that have occurred in the current quarter, including, but not limited to, approval and contracting with new plans, benefit changes, and legislative activity. Also include any anticipated activities or program changes related to health care delivery, benefits, enrollment, grievances, quality of care, access, and other operational issues.

**Update on Progress and Activities related to Quality Demonstrations and Clinic Uncompensated Care Funding:** Identify all activities relating to the implementation of these programs, including but not limited to:

- Release of solicitations and selection of awardees for the quality demonstrations;

- An explanation of grants, contracts or other financial arrangements entered into for purposes of implementing the quality demonstrations of this demonstration; and
- Progress of grantees in meeting the milestones identified in these STCs and any award documents.

**Consumer Issues:** A summary of the types of complaints or problems consumers identified about the program in the current quarter. Include any trends discovered, the resolution of complaints, and any actions taken or to be taken to prevent other occurrences, this should be broken out to show the number of LTSS complaints vs. all other categories identified. Also discuss feedback, issues or concerns received from the Medicaid Managed Care Advisory Review Panel (MMCARP), advocates and county officials.

**Quality Assurance/Monitoring Activity:** Identify any quality assurance/monitoring activity in current quarter.

**Managed Long Term Care Program:** Identify all significant program developments, issues, or problems that have occurred in the current quarter.

**Home and Community-Based Services Expansion Program:** For the quarter ending March 31 each year, attach a copy of the CMS-372 report completed in accordance with Appendix A of the approved Long-Term Home Health Care, the Nursing Home Transition and Diversion, and the Traumatic Brain Injury 1915(c) waivers.

**Demonstration Evaluation:** Discuss progress of evaluation implementation.

**Financial/Budget Neutrality Developments/Issues:** Provide information on:

- Quality demonstration and clinic uncompensated care expenditures – to whom and when
- Designated State Health Programs – amount of FFP claimed for the quarter

**Enclosures/Attachments:** Identify by title any attachments along with a brief description of what information the document contains.

**State Contact(s):** Identify individuals by name, title, mailing address, phone, fax, and email address that CMS may contact should any questions arise.

**Date Submitted to CMS:**

## ATTACHMENT E

### Expiration Dates for Demonstration Components

The following table shows the expiration dates for the various components of the demonstration.

Demonstration Components	Expiration Date
<ul style="list-style-type: none"> <li>• Facilitated Enrollment Services</li>   <li>• Twelve Month Continuous Eligibility Period</li>   <li>• Home and Community-Based Services Expansion Program</li>   <li>• Individuals Moved from Institutional Settings to Community Settings for Long Term Care Services</li>   <li>• Designated State Health Programs associated with health System Transformation for Individuals with Developmental Disabilities</li> </ul>	December 31, 2014
<ul style="list-style-type: none"> <li>• Designated State Health Program that provides transitional Family Health Plus benefits to parents and caretaker relatives with incomes up to 150 percent of the FPL.</li> </ul>	December 31, 2014
<ul style="list-style-type: none"> <li>• Hospital-Medicaid Home Demonstration</li>   <li>• Potentially Preventable Re-Hospitalization Demonstration</li>   <li>• Designated State Health Programs associated with H-MH and PPR Demonstrations</li> </ul>	December 31, 2014

## ATTACHMENT F

### **Mandatory Managed Long Term Care/Care Coordination Model (CCM)**

**Mandatory Population: Dual eligible, age 21 and over, receiving community based long term care services for over 120 days, excluding the following:**

- **Long Term Home Health Care Program (in certain counties, see timeline below);**
- **Nursing Home Transition and Diversion waiver participants;**
- **Traumatic Brain Injury waiver participants;**
- **Nursing home residents;**
- **Assisted Living Program participants; and**
- **Dual eligible that do not require community based long term care services.**

**Voluntary Population:** Dual eligible, age 18 through 20, in need of community based long term care services for over 120 days and assessed as nursing home eligible. Non-dual eligible age 18 and older assessed as nursing home eligible and in need of community based long term care services for over 120 days.

The following requires CMS approval to initiate and reflects the enrollment of the mandatory population only.

#### **Phase I and II: New York City and the suburbs**

**July 1, 2012** - Any new dual eligible case new to service, fitting the mandatory definition in any New York City County will be identified for enrollment and referred to the Enrollment Broker for action.

- Enrollment Broker will provide with educational material, a list of plans/CCMs, and answer questions and provide assistance contacting a plan if requested.
- Plan/CCM will conduct assessment to determine if eligible for community based long term care.
- Plan/CCM transmits enrollment to Enrollment Broker.

In addition, the following identifies the enrollment plan for cases already receiving care. Enrollment will be phased in by service type by borough by zip code in batches. People will be given 60 days to choose a plan according to the following schedule.

**July 1, 2012:** Begin personal care\* cases in New York County

**August 1, 2012:** Continue personal care cases in New York County

**September, 2012:** Continue personal care cases in New York County and begin personal care in Bronx County; and begin consumer directed personal assistance program cases in New York and Bronx counties

**October, 2012:** Continue personal care and consumer directed personal assistance program cases in New York and Bronx counties and begin Kings County

**November, 2012:** Continue personal care and consumer directed personal assistance program cases in New York, Bronx and Kings Counties

**December, 2012:** Continue personal care and consumer directed personal assistance program cases in New York, Bronx and Kings Counties and begin Queens and Richmond counties

**January, 2013:** Continue personal care and consumer directed personal assistance program citywide.

**February, 2013 (and until all people in service are enrolled):** Personal care, consumer directed personal assistance program, citywide.

**March, 2013:** Personal care, consumer directed personal assistance program, adult day health care, home health care over 120 days citywide.

**March, 2013:** Personal care, consumer directed personal assistance program, adult day health care, home health care over 120 days in Nassau, Suffolk and Westchester counties

**April, 2013:** Personal care, consumer directed personal assistance program, adult day health care, home health care over 120 days and long-term home health care program citywide.

**April, 2013:** Personal care, consumer directed personal assistance program, adult day health care, home health care over 120 days and long-term home health care program in Nassau, Suffolk and Westchester Counties

### **Phase III: Rockland and Orange Counties**

Dually eligible community based long term care service recipients in these additional counties as capacity is established. June 2013

### **Phase IV: Albany, Erie, Onondaga and Monroe Counties**

Dually eligible community based long term care service recipients in these additional counties as capacity is established. Anticipated Fall 2013

**Phase V: Other Counties with capacity.**

Dually eligible community based long term care service recipients in these additional counties as capacity is established. Anticipated Spring 2014

**Phase VI:**

**Previously excluded dual eligible groups contingent upon development of appropriate program models:**

- **Nursing Home Transition and Diversion waiver participants;**
- **Traumatic Brain Injury waiver participants;**
- **Nursing home residents;**
- **Assisted Living Program participants;**
- **Dual eligible that do not require community based long term care services.**

## ATTACHMENT G

### Health System Transformation for Individuals with Developmental Disabilities

The receipt of expenditure authority for transformation for the period of April 1, 2013 to March 31, 2014, is contingent upon the state's compliance and CMS' receipt of the following deliverables:

1. Money Follows the Person (MFP)

New York will submit to CMS and receive approval for a detailed MFP operational protocol amendment to the current approved MFP protocol that is consistent with terms and conditions related to the Intellectual and Developmental Disability IDD population, for implementation April 1, 2013.

2. Balancing Incentive Program Work Plan

No later than September 1, 2013, New York will submit to CMS for approval a detailed structural change work plan to implement the Balancing Incentive Program. The work plan must meet all CMS requirements and align the infrastructure requirements for the Balancing Incentive Program and MFP, including reaching the Balancing Incentive Program target expenditure benchmark of 50 per cent across all Medicaid long term services and supports (LTSS) expenditures by October 1, 2015. In addition, the work plan must provide the following deliverables:

- a. To demonstrate its implementation of successful person-centered planning, New York must provide an affirmative commitment that the state will establish an independent process for assuring that individual person-centered plans meet the needs of enrollees served in community-based settings, a description of the process the state will use to ensure that person-centered plans are implemented with fidelity to the established process, and a timeline for implementation of the process. New York will implement the approved process for person-centered planning for demonstration participants in accordance with a timeline approved by CMS and subsequently incorporated into this attachment.
- b. Given the critical nature of available/appropriate residential settings for the populations being served under this demonstration, New York must provide a description of the state's current housing options for persons with IDD, or the "system as is" model. This baseline must include the number of individuals in group homes, small ICF's/IDD, large ICFs/IDD, and non-traditional housing models, the maximum number of individuals living in each residence type, and any required licensure or accreditation for each housing type.
- c. New York must provide a detailed description of the process used to determine whether residential settings for persons transitioned from institutions as part of the demonstration meet CMS standards for home and community-based settings, and /or qualify as residences in the MFP program. This plan must include a

description of the process the state will use to independently assess whether these settings meet the characteristics set forth in the current 1915(c) policy. New York must update its process to comport with subsequent federal regulatory changes, and must provide a description of the updated process and the state's proposed timeline for implementation of the regulatory changes to CMS within 90 days of such final regulatory change.

### 3. 1915(b)/(c) Application

- a. New York must: submit to CMS an approvable 1915(b)/(c) waiver application no later than April 1, 2013, that includes:
  - i. Demonstration of capacity (e.g. the state has enough slots in settings that meet HCBS setting standards or are MFP qualifying settings based on the percentages the state has agreed to meet pursuant to paragraph b of section 4 of this attachment) to serve persons transitioned from ICFs, including those transitioned through MFP;
  - ii. Evidence that the community- based settings in which Medicaid HCBS are provided meet CMS HCBS settings standards; and
  - iii. Outline objectives with regard to competitive employment, person-centered planning, self-direction, and quality measurement/improvement.
  - iv. Assurances that
    1. DISCOs meet the MCO licensure requirement;
    2. DISCOs are regulated as Prepaid Inpatient Health Plans (PIHPs) that are subject to review by External Quality Review Organizations (EQRO);
    3. New York will incorporate DISCOs in the overall managed care quality strategy;
    4. New York will comply with conflict free case management standards required in the Balancing Incentive Program, and
    5. New York will prohibit plans from making eligibility determinations and enrollment.
    6. New York will adopt practice guidelines for care coordinators based on the Council on Quality and Leadership (CQL) personal outcome measures will annually assess managed care quality using personal outcome data. New York will provide a report on its progress toward the development of CQL measures by September 1, 2013. The progress report will include the state's work plan for the implementation of the measures, including the roll-out of the measures, the specific outcome measures to be used, and the baseline against which the measures will be compared. New York will provide quarterly updates on its progress in implementing the work plan.
  - v. In addition, New York must submit as part of the 1915(b)/(c) waiver application an approvable rate methodology that is understandable, delineates all elements in the rate methodology, and describes how all

components are factored into the methodology. The methodology must assure that the rates produced are economic and efficient and lead to quality outcomes for beneficiaries. The rate methodology will apply to all services provided in the waiver and all public providers. In the same amendment, New York will provide the current rate structure for private/voluntary providers, commit to a waiver amendment submission on July 1, 2013 delineating the standard brick methodology to be used to bring all voluntary providers under the full brick methodology rate construction for all services no later than September 2015.

- b. New York will submit amendment requests to existing 1915(c) HCBS waivers by May 1, 2013 to increase slots, by reserving capacity for people being de-institutionalized, to increase HCBS capacity to serve individuals enrolled in 1915(c) programs in the community.

#### 4. Residential Transitions and Supportive Housing

- a. By January 1, 2014, New York will transition a total of 148 residents from the Finger Lakes and Taconic ICFs in accordance with the following milestones:
  - i. 7 residents will be transitioned prior to July 1, 2013,
  - ii. 20 additional people transitioned by October 1, 2013, and
  - iii. the remaining 121 persons transitioned to community-based settings that meet CMS HCBS settings standards referenced in the 1915(i) Notice of Proposed Rulemaking published in the federal register in April 2012.
- b. At least 30% of those persons (or a total of 44 persons) transitioned from institutions, both campus-based and non-campus-based ICFs, will qualify for MFP (i.e. can be transitioned into an MFP qualified residence). New York will transition the balance of the persons in the Finger Lakes and Taconic ICF target population (who are not transitioned to MFP qualified residences) into residential settings that comport with CMS requirements for home and community-based settings as outlined in the 1915(i) NPRM. New York must submit quarterly reports of the total number of persons transitioned to the community, the size and licensure category of the residential settings into which persons were transitioned (e.g. 4 person group home), and an assurance that the residential settings comport with CMS requirements.
- c. No later than August 1, 2013, New York must submit a draft timeline for transition of the residents of the remaining campus and non-campus-based ICF's to community-based settings. New York and CMS will finalize the plan by October 1, 2013. This plan must detail the pace of remaining transitions, taking into account the housing availability chart developed by the state. Upon approval by CMS, the transition plan and related deliverables will be incorporated as an attachment.
- d. New York will provide quarterly updates on the progress for increasing the

availability of supportive housing options, including “non-traditional housing models” such as the “Home of Your Own”, Family Care, Shared Living, Customized Residential Options, and AFI. Each quarterly update will include the number of new housing units that are available to persons being transitioned from ICFs, and meet CMS standards for HCBS settings.

5. Supported Employment Services and Competitive Employment

- a. By May 31, 2013, New York must provide CMS with a baseline count of the number of enrollees receiving supported employment services and the number of enrollees engaged in competitive employment for the most recent period for which data is available (i.e. May 1, 2012 through April 30, 2013). Thereafter, the state must provide CMS with a quarterly report documenting the state’s progress toward the agreed-upon goal of increasing the number of persons engaged in competitive employment, through Supported Employment, by 700 persons above the previous 12 month enrollment, with no exceptions for attrition during the period of April 1, 2013 and March 31, 2014. Given the expected fluctuations triggered by school timelines (e.g. graduations), New York will increase the number of persons in competitive employment by no less than 250 persons by October 1, 2013, with no exceptions for attrition. Only integrated gainful employment at minimum wage or higher will be considered competitive employment. The quarterly report also must include a description of activities the state has undertaken during the quarter to increase the number of demonstration participants engaged in competitive employment.
- b. Effective July 1, 2013, New York will no longer permit new admissions to sheltered workshops. The state will report the number of enrollees that remain in sheltered workshops in each quarterly report as required under paragraph 62.
- c. By October 1, 2013, New York will submit to CMS a draft plan for CMS review, and a final plan no later than January 1, 2014, on its transformation towards competitive employment. Both the draft and final plans must include a detailed proposal/work plan for increases in the number of individuals in competitive employment and the number of students exiting the educational system moving directly into competitive employment. The plan must include a timeline for closing sheltered workshops, and a description of the collaborative work with the New York educational system for training/education to key stakeholders on the availability and importance of competitive employment.
- d. New York will target youth as a priority in its employment initiative. No later than April 1, 2013, New York will submit an amendment request for its 1915(c) waiver for its Pathways to Employment services to shorten the time frame for transition from this service into Supported Employment. The state will report to CMS on an annual basis the number of students who are aging out of the educational system and who have been determined eligible for OPWDD services, the number who enter VR, and the number who enter OPWDD because they are

not found ready by DVR, and any websites/sources for employment data.

6. Consumer Self-Direction

- a. New York will implement a self-directed approach in which demonstration participants and/or their designated representatives will be given the option of self-directing by employer authority and budget authority or, at the preference of the individual, either employer authority or budget authority. Employer authority is present when an individual and/or their designated representative fully controls the recruitment, training, hiring, discharge performance review, performance pay increases, and supervision of individuals who furnish their services. Budget authority is present when an individual has decision-making authority over how funds in their individualized budget for waiver services are spent. As part of the design and implementation of this self-directed approach, New York will include the following components:
- b. New York will increase the number of people offered the option to self-direct their services through increased education to all stakeholders in a consistent manner statewide. This education will be provided to at least 1,500 beneficiaries (with designated representatives as needed) per quarter beginning on April 1, 2013. New York will submit a quarterly report of the number of training/education sessions conducted and the number of persons attending the sessions. New York will share training materials and curricula for these sessions with CMS, and make them available statewide by May 1, 2013.
- c. In the design and implementation of its 1915(b)/(c) waiver and other MLTSS models authorized by this demonstration, New York will incorporate and enhance opportunities for self-direction by demonstration participants. If the state utilizes the agency with choice model of self-direction, New York will assure that these agencies provide maximum control by the beneficiary, and include a performance indicator(s) to assure that beneficiaries exercise choice and control. New York will report to CMS on a quarterly basis its efforts to enhance self-direction, and the results of the performance measurement.
- d. New York will incorporate and document risk mitigation strategies to be used in its 1915(b)/(c) concurrent waiver and other MLTSS models authorized by this demonstration, in which there is meaningful negotiation with the beneficiary and representative as appropriate. If a participant is terminated voluntarily or involuntarily from the self-directed service delivery option, the MCO/PIHP must transition the participant to the traditional agency direction option and must have safeguards in place to ensure continuity of services. Involuntary discharges will be accompanied by the right to a fair hearing so the beneficiary may have the opportunity to defend actions or inactions that resulted in the involuntary discharge. The state retains the right to immediately stop services pending the hearing if they think there is immediate risk of harm to the beneficiary by remaining in the self-direction program.

- e. New York will provide a report to CMS no later than July 1, 2013, on the current number of persons with IDD and other disabilities who self-direct their services under this demonstration. New York will enable a total of 1,245 new beneficiaries to self-direct services for the period of July 1, 2013 through March 31, 2014 subject to the following:
  - i. By October 1, 2013, 350 new beneficiaries will self-direct services;
  - ii. By January 1, 2014, 425 new beneficiaries will self-direct services;
  - iii. By April 1, 2014, 470 new beneficiaries will self-direct services.
- f. By January 1, 2014, New York will submit to CMS for approval the state's policies on self-direction that demonstrate its commitment to and implementation of self-direction.
