I. INTRODUCTION

Oklahoma's SoonerCare Choice demonstration program utilizes an enhanced primary care case management delivery system to serve qualified populations statewide. SoonerCare program objectives include:

- Improving access to preventive and primary care services;
- Increasing the number of participating primary care providers and overall primary care capacity in both urban and rural areas;
- Providing active comprehensive care management to members with complex and/or exceptional health care needs;
- Integrating Indian Health Services' members and providers into the SoonerCare delivery system; and
- Expanding access to affordable health insurance for low-income adults in the workforce, their spouses and college students.

The SoonerCare demonstration was approved for a three-year extension on December 31, 2012. The extension period runs from January 1, 2013, through December 31, 2015. On January 7, 2014, OHCA submitted a request for a correction to our Special Terms and Conditions (STC) regarding the HAN care management populations. This correction was approved by CMS on April 23, 2014. The HAN care management change also required an OHCA policy change and the request was presented to the OHCA Board on February 13, 2014. The policy change was approved on February 13, 2014. On May 14, 2014, OH CA submitted an amendment for the ineligibility of SoonerCare Choice individuals who have other major medical health insurance coverage. This amendment was in response to OHCA's compliance with the Oklahoma Constitution, Article X, Section 23, which prohibits OHCA from spending more money than is allocated. The amendment was approved August 13, 2014. On May 27, 2014 OHCA sent CMS an amendment for the removal of Sunset language pertaining to Insure Oklahoma. The amendment was approved June 27, 2014. The State submitted a request for the SoonerCare Choice and Insure Oklahoma 2016-2018 demonstration waiver renewal for a three-year extension. The request was submitted to CMS on December 29, 2014.

II. ACCOMPLISHMENTS

The SoonerCare Choice program has had many accomplishments and highlights in its nineteenth year of the demonstration. Below are just a few of the program high points for 2014.

- The SoonerCare Choice and Insure Oklahoma programs enrolled 557,063 individuals as of December 2014, providing health coverage to approximately 14 percent of the total Oklahoma population¹.
- CEO Nico Gomez was named an Oklahoman of the Year by Oklahoma Magazine. Mr. Gomez was one of only six men and women honored with this designation.
- In the first quarter of 2014, OHCA began implementation of the SoonerFit Initiative, which was initiated during the third quarter of 2014. The initiative's main goals are to promote obesity reduction best practices to SoonerCare providers and to innovatively communicate physical activity and nutrition recommendations to SoonerCare members through interactive methodologies.
- The SFY 2014 per member per month (PMPM) average for HAN members was \$291.09 while the PMPM average for non-HAN members was \$312.56.
- From December 2013 to December 2014, the Electronic Health Records incentive program had a forty-six percent increase in the number of qualified professionals and hospitals who received incentive payments. An overall total of \$99 million in incentive payments was paid out in 2014.
- Through the collaborative effort of OHCA, State leadership and CMS, the Insure Oklahoma program was approved on June 27, 2014, by CMS for removal of Sunset provision, continuing Insure Oklahoma through December 31, 2015.
- Budget neutrality calculations for 2014 denote estimated state savings of some \$697 million dollars, with an overall cumulative savings of \$3 billion over the life of the demonstration.
- Through the partnership with the Oklahoma State Department of Health (OSDH) and other collaborators including the OHCA, the state of Oklahoma received a \$2 million dollar State Innovation Model (SIM) grant in December 2014 to improve health care quality and affordability. Beginning February 1, 2015, the state will begin a 12-month project to design a model that will improve health system performance, increase quality of care and decrease costs.

| Not for Profit (IP) | 0 | 0 | 0 | 0 |

Breast and Cervical Cancer Program (BCC)

The Breast and Cervical Cancer Program (BCC) program provides treatment to qualified women with breast cancer, cervical cancer or pre-cancerous conditions. This program, also known as Oklahoma Cares, is a partnership of the Oklahoma State Department of Health (OSDH), the Oklahoma Department of Human Services (DHS), the Cherokee Nation, the Kaw Nation and the Oklahoma Health Care Authority (OHCA).

| 2014 Oklahoma Cares Member Enrollments | Quarter Ending Mar | Quarter Ending Jun | Quarter Ending Sept | Quarter Ending Dec |
|--|-----------------------|-----------------------|------------------------|-----------------------|
| SoonerCare Choice | 302 | 301 | 277 | 294 |
| SoonerCare Choice and Traditional Total Current Enrollees | 572 | 549 | 542 | 490 |

Electronic Newborn Enrollment

With the Electronic Newborn Enrollment process, OHCA receives a newborn's information directly from the hospital. OHCA generates a member ID and the newborn is enrolled in SoonerCare. Once benefits are established, OHCA shares the information with DHS.

| 2014 Electronic Newborn Enrollment | Quarter Ending Mar | Quarter Ending Jun | Quarter Ending Sept | Quarter Ending Dec |
|--|-----------------------|-----------------------|------------------------|-----------------------|
| Number of Newborns Assigned to a Primary Care Provider (PCP) | 1,776 | 1,830 | 2,122 | 2,304 |
| Number Needing Assistance with Eligibility or PCP Selection | 328 | 251 | 504 | 384 |

III. ENROLLMENT INFORMATION (Cont'd)

Health Management Program's CareMeasures™ Disease Registry

The CareMeasures™ disease registry is a tool used for tracking patient care opportunities and measuring patient care outcomes for diabetes, hypertension, coronary artery disease, congestive heart failure and asthma. Preventive care measures are also available in the registry. Although practices are encouraged to use CareMeasures™ for their patients, the number of members reportedly enrolled in CareMeasures™ does not reflect patients of payer sources other than SoonerCare Choice. By the end of December 2014, there were some 3,514 members enrolled in the CareMeasures Disease Registry.

Insure Oklahoma Employer Sponsored Insurance Program (ESI)

Insure Oklahoma Employer Sponsored Insurance Program (ESI) is a premium assistance program created to bridge the gap in health care coverage for low-income working adults, self-employed, temporarily unemployed adults, college students and dependent children meeting income qualifications.

| 2014 ESI Program Enrollments | Jan-Mar | | | Apr-Jun | | | Jul-Sept | | | Oct-Dec | | |
|------------------------------|---------------|--------------|-------------------|---------------|--------------|-------------------|---------------|--------------|-------------------|---------------|--------------|-------------------|
| | 0-100% FPL | 101-133% FPL | 134% FPL and Over | 0-100% FPL | 101-133% FPL | 134% FPL and Over | 0-100% FPL | 101-133% FPL | 134% FPL and Over | 0-100% FPL | 101-133% FPL | 134% FPL and Over |
| Employee | 1,956 | 3,825 | 6,297 | 1,834 | 3,537 | 5,909 | 1,708 | 3,259 | 5,536 | 1,756 | 3,189 | 5,656 |
| Spouse | 394 | 741 | 1,174 | 360 | 682 | 1,069 | 342 | 626 | 999 | 351 | 585 | 1,037 |
| Student | 28 | 32 | 57 | 22 | 27 | 57 | 18 | 26 | 57 | 17 | 23 | 61 |
| Dependent Child ⁴ | 0 | 0 | 246 | 0 | 0 | 232 | 0 | 0 | 202 | 0 | 0 | 210 |
| ESI Total | 2,378 | 4,598 | 7,774 | 2,216 | 4,246 | 7,267 | 2,068 | 3,911 | 6,794 | 2,124 | 3,797 | 6,964 |
| Total Enrollment | 14,750 | | | 13,729 | | | 12,773 | | | 12,885 | | |

Insure Oklahoma Individual Plan (IP)

The Insure Oklahoma Individual Plan (IP) is a premium assistance program created to bridge the gap in health care coverage for individuals who are low-income working adults, self-employed, temporarily unemployed adults or a college student who meets income qualifications. These individuals do not have access to ESI.

| 2014 IP Program Enrollments | Jan- Mar | Apr-Jun | Jul-Sept | Oct- Dec |
|-----------------------------|--------------|--------------|--------------|--------------|
| | 0-100% FPL | 0-100% FPL | 0-100% FPL | 0-100% FPL |
| Employee | 3,557 | 3,507 | 3,370 | 3,372 |
| Spouse | 1,098 | 1,056 | 1,008 | 983 |
| Student | 165 | 174 | 158 | 176 |
| IP Total | 4,820 | 4,737 | 4,536 | 4,531 |
| Total Enrollment | 4,820 | 4,737 | 4,536 | 4,531 |

Over the course of the year, OHCA has seen total program enrollment decreases in both the ESI and IP programs. The decrease in enrollments resulted from an uncertainty in the future of the IO programs. New program modifications to the IO IP program took effect January 1, 2014. Individuals with income up to and including 100 percent FPL may be enrolled in IP if qualified.

⁴ Title XXI stand-alone CHIP population.

III. ENROLLMENT INFORMATION (Cont'd)

Perinatal Dental Access Program (PDEN)

The OHCA's Perinatal Dental Access Program (PDEN) program provides a limited benefit package to pregnant and postpartum women 21 and older. Qualified SoonerCare and Insure Oklahoma IP members receive full dental exams, X-rays, cleanings (including scaling and root planing) and certain types of fillings. To comply with the Oklahoma Constitution, Article X, Section 23, which prohibits a state agency from spending more money than is allocated, OHCA ended the PDEN benefit effective July 2014. In OHCA's analysis of the PDEN service, the State determined that of the members who qualified, very few members utilized the service.

| 2014 PDEN Member Participation | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec |
|--|---------|---------|-----------|---------|
| Women Qualified for Services | 19,258 | 18,961 | 15,028 | 0 |
| Women Who Received Services | 1,981 | 2,160 | 971 | 0 |
| Percentage of Qualified Individuals Receiving Services | 10% | 11% | 6% | 0 |

Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA)

Children with physical or intellectual disabilities that are not qualified for Supplemental Security Income because of their parent's income can qualify for SoonerCare benefits if they meet the TEFRA requirements. TEFRA program eligibility for SoonerCare Choice reduced participation in July 2014 due to an amendment excluding individuals that have Creditable Health Insurance Coverage.

| 2014 TEFRA Member Enrollments | Quarter Ending Mar | Quarter Ending Jun | Quarter Ending Sept | Quarter Ending Dec |
|---|--------------------|--------------------|---------------------|--------------------|
| SoonerCare Choice | 329 | 322 | 81 | 74 |
| SoonerCare Choice and Traditional Total Current Enrollees | 506 | 532 | 534 | 553 |

B. Provider Enrollment

Within 77 Oklahoma counties, there are some 9,386 providers contracted for the SoonerCare program, along with some 7,228 providers contracted for Insure Oklahoma.

SoonerCare Choice Provider Enrollment by Type

Providers include physicians, physician assistants (PA) and advanced practice nurses (APNs).

| 2014 Provider Types ⁵ | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec |
|----------------------------------|--------------|--------------|--------------|--------------|
| MD/DO | 1,472 | 1,490 | 1,573 | 1,592 |
| PA | 307 | 316 | 330 | 335 |
| APN | 435 | 462 | 523 | 551 |
| Total PCPs | 2,214 | 2,268 | 2,426 | 2,478 |

⁵ All provider type counts are duplicated for the quarter; therefore, the total does not match the total SoonerCare Choice providers currently enrolled in a given month of the Fast Fact report.

III. ENROLLMENT INFORMATION (Cont'd)

SoonerCare Medical Home Providers by Tier

| 2014 Providers by Tier | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec |
|--|---------|---------|-----------|---------|
| Percentage in Tier 1: Entry Level Medical Home | 57% | 57% | 56% | 55% |

| Agency Internet | 25,670 | 24,802 | 21,636 | 19,384 | 91,492 |
| Agency Electronic | 0 | 0 | 0 | 0 | 0 |
| Total | 68,137 | 62,516 | 53,007 | 48,436 | 232,096 |

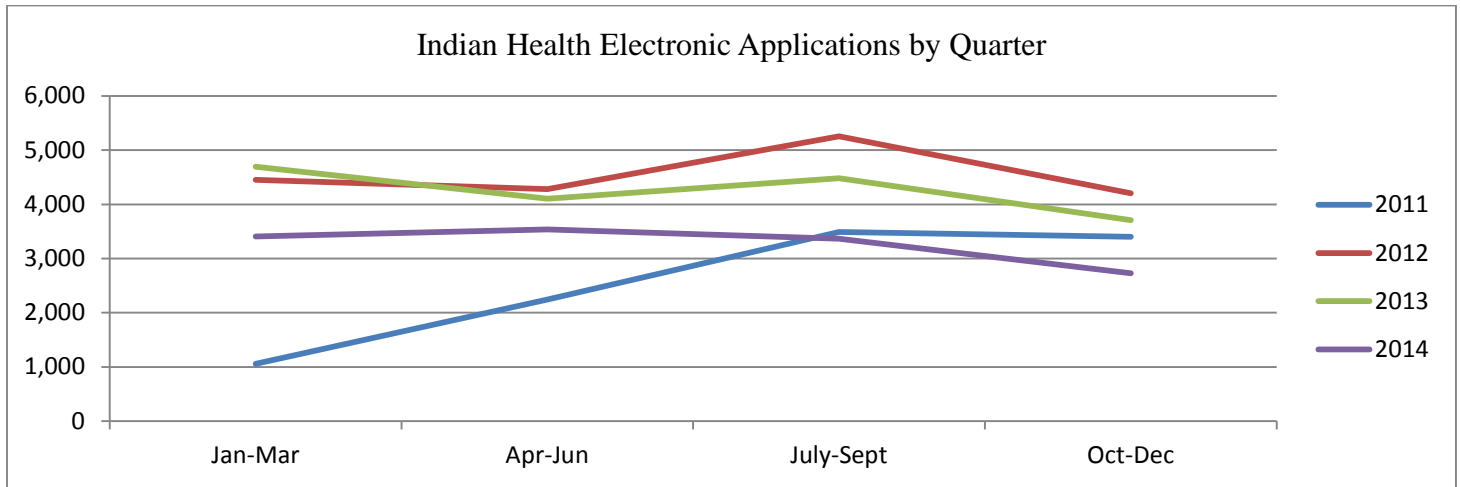

There were a total of 232,096 SoonerCare applications submitted of which 18 were paper applications. All other applications were submitted electronically through either Home or Agency Internet. On October 1, 2013, the agency discontinued OHCA paper applications being used for enrollment. Individuals can however, still enroll using federal paper applications.

The number of Indian Health electronic applications has stayed relatively stable from 2013 to 2014. OHCA continues to partner and communicate with tribal partners on the online and enrollment eligibility system.

B. Innovative Activities

Cesarean Section Quality Initiative

OHCA initiated the Cesarean Section (C-section) Quality Initiative in January 2011, in an attempt to lower the primary C-section rate performed without medical indication. The goal of the initiative is to reduce the first time C-section rate to 18 percent by ensuring providers and hospitals are using practices best suited in performing C-Sections. The OHCA medical staff performs a primary role in this initiative. Medical nurses review the received documentation from providers and determine the medical necessity for the C-section; they also determine if it should be reviewed by the OHCA OB physician.

For the SFY 2014, there were 32,254 SoonerCare deliveries with a 16.8 C-section percentage rate. This figure includes both in state and out-of-state deliveries.

Since implementation of the C-section Quality Initiative program, the primary C-section rate has remained relatively stable. While the initiative has successfully reduced the primary C-section rate to the intended goal, OHCA continues this initiative to further decrease the rate.

Electronic Health Records (EHR)

Under the Health Information Technology for Economic and Clinical Health (HITECH Act), which was enacted under the American Recovery and Reinvestment Act of 2009 (ARRA), incentive payments are available to qualified professionals, critical access hospitals and qualified hospitals that successfully demonstrate meaningful use of certified Electronic Health Record (EHR) technology.

CMS released a new final rule in September of 2014 providing flexibility for providers affected by a delay in implementing 2014 certified EHR technology. To enable OHCA to process attestations for providers affected by this delay, OHCA had to make some system modifications. OHCA completed and made available these changes in December 2014.

During the third quarter (July – September) of 2014, the OHCA Electronic Health Operations staff sent out a survey to EHR providers geared toward the providers experience and adoption of the incentive program. The EHR survey has closed and OHCA is currently analyzing the results for future outreach efforts. Additionally, three qualified professionals and 16 hospitals attested to Stage 2 of meaningful use.

Throughout 2014, OHCA incorporated various changes to the EHR incentive program in accordance with CMS' Stage 2 final rule (42 CFR Parts 412, 413 and 495). Such modifications include changes to the SoonerCare contract effective date, the definition of an encounter, patient volume time period and changes to the Meaningful Use measures. For a complete list and description of the 2013 EHR incentive program changes, refer to [EHR Incentive Program Changes](#).

As of December 31, 2014, a total of 2,226 professionals and 104 hospitals have been paid for the incentive program, which is an 18 percent increase in qualified providers from 2013. The qualified providers have received a total of \$99,914,237.00 in incentive payments for December 2014. OHCA continues to see an increasing trend in the number of qualified professionals and hospitals who choose to participate in the EHR incentive program.

IV. OUTREACH / INNOVATIVE ACTIVITIES / STAKEHOLDER ENGAGEMENT (Cont'd)

| 2014 EHR Qualified Providers | Jan-March | Apr-Jun | July-Sept | Oct-Dec |
|-----------------------------------|--------------|--------------|--------------|--------------|
| Number of Qualified Professionals | 1,954 | 2,178 | 2,217 | 2,226 |
| Number of Qualified Hospitals | 94 | 100 | 104 | 104 |
| Total | 2,048 | 2,278 | 2,321 | 2,330 |

| 2014 Cumulative EHR Incentives Paid | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec |
|-------------------------------------|------------------------|------------------------|------------------------|------------------------|
| Qualified Professionals | 40,183,752 | 44,554,170 | 45,361,670 | 45,510,420 |
| Qualified Hospitals | 57,352,718 | 54,233,263 | 54,403,817 | 54,403,817 |
| Total | \$97,536,470.00 | \$98,787,433.00 | \$99,765,487.00 | \$99,914,237.00 |

High ER Utilization Program

OHCA staff work together to educate and train members and providers how to lower the use of the ER. High ER utilizers include members who visit the ER four or more times in a quarter. Throughout the SFY 2014 the OHCA Member Services (MS) staff performed the outreach activity of sending letters to the High ER Utilization members. These letters are sent to the super users who utilize the ER, four to 14 visits in a quarter. This letter educates the members as to why they should contact their PCP before visiting the ER.

| Letters Mailed SFY 2014 to High ER Superusers | Jan-Mar | April-June | July-Sept | Oct-Dec |
|---|---------|------------|-----------|---------|
| SoonerCare | 1,922 | 1,656 | 1,680 | 1,814 |

Medicaid Management Information System (MMIS) Reprocurement

The MMIS reprocurement project is an initiative to implement system enhancements to the Oklahoma MMIS system. Hewlett Packard Enterprise Services (HP) has conducted the MMIS project using a phased-in approach. Phase I includes the systems takeover and Phase II includes mandates, agency priorities and system enhancements. Some important focal points of the reprocurement enhancements were: the claims tracking system, iCE, the Data Support System (DSS), the Care Management System and Atlantes.

The Secure Provider Portal and the Rules Engine enhancement went live January 2014. In the second quarter HP completed the claims resolution workflow. The claims resolution workflow allows more flexibility in how claims are assigned and routed, thus, streamlining the process.

During the third and fourth quarter OHCA's contractor, Hewlett-Packard Enterprise (HP), reported the reprocurement project to be in its final stages of enhancements and being ready to transition from ICD-9 to ICD-10. ICD is a coding system that tracks medical records including diseases, symptoms, abnormal findings and external causes of injury. HP is currently in the second wave of allowing providers to test ICD-10 usage.

OHCA has prepared and issued two Requests For Information (RFI) for implementation of MMIS reprocurement enhancements. One RFI is for a Data Warehouse and Analytics system and the other is for a Medical Case Management System. OHCA is interviewing candidates and reviewing their demos from the RFI responses and will continue planning at this time. This enhancement is scheduled to go live in October 2015.

IV. OUTREACH / INNOVATIVE ACTIVITIES / STAKEHOLDER ENGAGEMENT (Cont'd)

C. Stakeholder Engagement

Tribal Consultation

OHCA convenes consultation meetings with tribal partners throughout the state in order to better collaborate with the tribes on all program and policy updates and changes. Tribal consultation meetings are held on the first Tuesday of every odd numbered month. In 2014, OHCA held eight tribal consultation meetings with participants from the Absentee Shawnee Tribe of Oklahoma, Cherokee Nation, Cheyenne and Arapaho Health Board, Chickasaw Nation, Choctaw Nation, Citizen Potawatomi Nation, Indian Health Care Resource Center of Tulsa, Indian Health Service's Oklahoma City Area Office, the Indian Health Service's Pawnee Service Unit, Inter-Tribal Health Board, Oklahoma City Indian Clinic, Seminole Nation and Wewoka Indian Health Services, Ponca Tribe of Oklahoma Tribal Epidemiology Center, as well as representatives from Hewlett Packard (HP), the Oklahoma Department of Mental Health and Substance Abuse (ODMHSAS), the Oklahoma State Department of Health (OSDH) and the OHCA.

Throughout the year, OHCA staff presented numerous policy changes, state plan amendments, 1115 Demonstration Waiver and 1915 waiver amendments at the tribal consultation meetings. During the 2014 first quarter Health Policy and Waiver Development and Reporting staff presented proposed policy changes related to updates of Insure Oklahoma (IO) coverage. The policy was revised to align with changes to the waiver Special Terms and Conditions. Additional rule changes were proposed to reflect updated business practices for eligibility regarding TEFRA children. During the 2014 second quarter the Waiver and Policy staff presented final proposed program cuts and changes due to budget constraints, including the exclusion of SoonerCare Choice members with other creditable coverage and raising co-pays to the federal maximum. During the 2014 third quarter the Waiver staff also presented a summary of the 1115 SoonerCare Choice renewal application for extension of the SoonerCare Choice and Insure Oklahoma programs for 2016-2018. A draft of the application was posted on OHCA website, September 9 through November 30, for comment. During the 2014 fourth quarter, the Oklahoma Department of Mental Health and Substance Abuse Services staff presented proposed policy changes to meet budget needs, none of which had a direct impact to the SoonerCare Choice program.

As a follow-up to the Seventh Annual Tribal Consultation, that occurred on October 23, 2013, in Catoosa, Oklahoma, the Tribal Relations unit hosted the 2014 OHCA Tribal Partnership Planning Session on February 26, 2014, in Tulsa. A list of all tribal and non-tribal consultation participants can be found in Attachment 1. The focus of this meeting was to develop a strategic plan to address the health care issues of SoonerCare's tribal citizens. Some of the topics covered were uncompensated care within the tribal health care system, health disparities in tribal communities and dialysis reimbursement.

To continue effective communication with Oklahoma tribes, OHCA also uses the [Native American Consultation Website](#) as a means to notify tribal representatives of all program and policy changes, as well as to receive any feedback or comments. OHCA posts notifications to the website for a minimum of 30 days. OHCA has and will continue to incorporate all suggestions and recommendations from the website and tribal consultation into the decisions, policy and amendments proposed to the agency and CMS.

V. OPERATIONAL/POLICY DEVELOPMENTS

A. SoonerCare and Insure Oklahoma Operations

1. Department Operations

Health Promotion and Community Relation

Community Relations Coordinators

The Community Relations Coordinators (CRC) main objectives and goals are to always answer community, partner and member questions in their respective areas of the state. They also take on the task of educating and answering questions for partners regarding SoonerCare, Insure Oklahoma and other initiatives that may benefit our members. CRC's are able to accomplish this through a variety of ways, such as attending coalition, committee, and task force meetings, performing public outreach around the state and providing printed resources.

The CRCs work with some 700 public, private and nonprofit entities within Oklahoma's 77 counties to enroll qualified children in SoonerCare and promote the importance of preventive care. Furthermore, CRCs facilitate ongoing dialogue between community partners and OHCA to address local issues and collaborate in the development of strategies for improving the health of SoonerCare members. New partnerships were developed over the course of the year bringing the total of active partnerships to nearly 200.

The four regions of the state in which the CRCs collaborate with partners and potential partners include: Northeast, Southeast, Northwest and Southwest. This year some of the collaboration activities included meeting with the Chamber of Commerce in one Northeast community to discuss Insure Oklahoma; attending Garfield County Certified Healthy Luncheons and providing Insure Oklahoma information as well as facilitation of the Community Forum in Ponca City; in the Central/Southwest region working with the Boys and Girls Club on a video project promoting "Healthy is More Fun Than You Think" from the kids' perspective; meeting with various groups, including but not limited to KIBOIS Captain Team and Choctaw Country DHS, to educate on Insure Oklahoma and delivered pharmacy bags to D&D Pharmacy in Poteau and Choctaw Nation Pharmacy in McAlester.

In addition, the CRC's created an [OHCA Community Relations Website](#) to provide OHCA partners with tools, resources and vital information in linking members to the community.

Health Promotions Coordinator

OHCA entered into a three-year contractual agreement with the Tobacco Settlement Endowment Trust (TSET) to fund a Health Promotions Coordinator position. The primary responsibility for the coordinator is to implement tobacco cessation and wellness efforts into existing OHCA projects, including practice facilitation.

In 2014 the Health Promotions Coordinator continued working on the implementation of the OHCA Oklahoma Tobacco Helpline Fax Referral project, as well as working with Member Services to complete the process evaluation for the project. The OHCA Oklahoma Tobacco Helpline Fax Referral program began operation July 2014. This program was designed to decrease the number of SoonerCare pregnant women who use tobacco. The Fax Referral project was expanded to include the Population Care Management unit.

In the first quarter of 2014, OHCA began implementation of the SoonerFit initiative. The initiative's main goals are to promote best practice for obesity reduction to SoonerCare providers and to innovatively communicate physical activity and nutrition recommendations to SoonerCare members through interactive methodologies. The SoonerFit website is now live [SoonerFit.org](#). This program is promoted through member and provider newsletters and promotional materials are given out at community events, health fairs and shared with partners by the Community Relations Coordinators.

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

SoonerQuit/Health Provider Engagement Grant

The SoonerQuit Provider Engagement grant went live July 2014. For this grant's initiative, OHCA will utilize participating PCPs from the Health Management Program practice facilitation model and infuse a tobacco cessation module in the quality improvement activities. OHCA will also continue practice facilitation efforts with obstetrics providers and possibly dental providers.

The practice facilitators completed initial three-week facilitation with six providers during the last quarter of SFY 2014. Four of the providers have integrated the 5A's tobacco cessation counseling methodology into their electronic medical records. All six providers have their own pre-populated Oklahoma Tobacco Helpline fax referral form, which provides OHCA with a monthly fax referral outcome report.

Medical Authorization Unit (MAU)

In 2014, the MAU processed an average of 23,743 prior authorizations a month for an average approval rate of 98 percent.

At the beginning of 2014, MAU staff created a new MAU page on the OHCA website. Providers are now able to click on the [MAU Link](#) and find prior authorization information such as required forms, general information, MAU FAQs and information on imaging and scans. Data has been updated since the December 2014 quarterly report.

| 2014 MAU Activity | Jan- Mar | Apr-Jun | Jul-Sept | Oct-Dec | Totals |
|--|----------|---------|----------|---------|---------------|
| Total MAU Calls Handled | 1,425 | 1,544 | 1,302 | 1,215 | 5,486 |
| Total Prior Authorizations | 28,068 | 26,629 | 20,358 | 19,920 | 94,975 |
| Avg. Number of Reviewers (Analyst or Nurse) | 12 | 12 | 11 | 12 | |
| Average Number of PAs per Reviewer | 498 | 507 | 379 | 324 | 427 |
| Percentage of Total PA Denials | 1% | 1% | 2% | 4% | 2% |
| Number of Denials | 240 | 183 | 256 | 422 | 1,101 |

OHCA partners with MedSolutions, an organization that specializes in managing diagnostic radiologic services, to implement a radiology management program for outpatient radiology scans. All authorization requests for outpatient scans are submitted to MedSolutions via mail, fax, telephone or internet. This partnership allows providers and members to obtain the most appropriate diagnostic imaging service and improve access to high quality, cost-effective care.

OHCA issued a Request for Proposal (RFP) for a new Therapy Management Program toward the end of 2013 and awarded the contract to MedSolutions/Triad in February 2014. The Program was implemented on July 1, 2014. The first few months ran smoothly and MedSolutions/Triad averaged 5,624 prior authorization requests each month.

| 2014 MedSolutions Activity | Jan- Mar | Apr-Jun | Jul-Sept | Oct-Dec | Totals |
|--|----------|---------|----------|---------|---------------|
| Total MedSolutions Calls Handled | 5,679 | 6,041 | 6,001 | 5,375 | 23,096 |
| Total Prior Authorizations | 17,220 | 16,925 | 16,690 | 16,653 | 67,488 |
| Avg. Number of Reviewers (Analyst or Nurse) | 115 | 115 | 115 | 115 | |
| Average Number of PAs per Reviewer | 50 | 49 | 48 | 48 | 49 |
| Percentage of Total PA Denials | 10% | 10% | 11% | 10% | 10% |
| Number of Denials | 1,677 | 1,717 | 1,836 | 1,718 | 6,947 |

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

Member Services

Member Services (MS) continue to send outreach letters to assist specific SoonerCare members with care coordination. These letters include; high ER utilizers, persons with four or more visits to the ER in a quarter; Prenatal and newborn outreach for expectant mothers and mothers with newborns to access prenatal and well child care and immunization early on and Soon-to-be-Sooners outreach for individuals who are initially eligible for SoonerCare as deemed newborns. Members receiving letters may call the SoonerCare helpline and ask for the appropriate “outreach representative” to receive information about their medical home and the particular beneficial education they need.

| 2014 MS Outreach Letters | Jan-Mar | | Apr-Jun | | July-Sept | | Oct-Dec | | Total Letters Mailed | Avg. Response Rate |
|---|---------------------|---------------|---------------------|---------------|---------------------|---------------|---------------------|---------------|----------------------|--------------------|
| | # of Letters Mailed | Response Rate | # of Letters Mailed | Response Rate | # of Letters Mailed | Response Rate | # of Letters Mailed | Response Rate | | |
| Prenatal Outreach – Pat Letters | 3,481 | 38% | 3,599 | 35% | 2,758 | 33% | 1,049 | 33% | 10,887 | 35% |
| Households with Newborns Outreach – Jean Letters | 6,050 | 13% | 5,979 | 14% | 6,691 | 12% | 2,450 | 13% | 21,170 | 13% |
| Soon-to-be-Sooners Outreach – Sonja and Sally Letters | 1,442 | 38% | 1,375 | 37% | 1,458 | 29% | 1,288 | 38% | 5,563 | 35% |
| High ER Utilization Outreach – Ethel Letters | 1,922 | 16% | 1,656 | 18% | 1,680 | 16% | 1,814 | 15% | 7,072 | 16% |

| 2014 MS Activity | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec |
|--|---------|---------|-----------|---------|
| High ER Utilizers Identified for Calls | 27 | 25 | 26 | 32 |
| Calls to BCC Members with Confirmed Cancer Diagnosis | 64 | 85 | 60 | 81 |
| Calls to BCC Members at Renewal Period | 64 | 41 | 65 | 84 |
| Member Service Calls Handled in English | 22,476 | 20,084 | 18,463 | 17,360 |
| Member Service Calls Handled in Spanish | 1,280 | 966 | 986 | 981 |
| Member Inquiries | 15,943 | 14,126 | 12,937 | 11,838 |

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

Population Care Management (PCM)

At the beginning of January 2013, OHCA renamed the Care Management division to Population Care Management (PCM) and incorporated three units within the division: Case Management, the Health Management Program and the Chronic Care Unit.

Case Management (CM)

The Case Management (CM) unit implemented Phase I of the Fetal Infant Mortality Rate (FIMR) initiative in January 2011. CM staff identified the top ten rural counties with the highest infant mortality. These counties include: Atoka, Choctaw, Coal, Garfield, Greer, Jackson, Latimer, Lincoln, McIntosh and Tillman. CM staff monitors the prenatal women within these counties for the duration of their pregnancy through their infants' first birthday.

Existing Open Cases are considered open if successful contact with member is made. Educational materials are sent via mail regarding cases that are not considered open.

| 2014 Phase I: Outreach to FIMR Population – Participating Mothers | Jan | Feb | Mar | Apr | May | Jun | July | Aug | Sept | Oct | Nov | Dec |
|---|-----|-----|-----|-----|-----|-----|------|-----|------|-----|-----|-----|
| New Cases | 133 | 124 | 186 | 147 | 140 | 116 | 155 | 125 | 105 | 138 | 118 | 133 |
| Existing Open Cases | 549 | 571 | 605 | 614 | 618 | 610 | 622 | 611 | 523 | 502 | 492 | 474 |

Phase II of the FIMR initiative began in July 2011. Phase II focuses on educating the prenatal women on their newborn's needs. Staff calls the women after 1 month, 2 months, 4 months, 6 months, 9 months and one year (following the EPSDT periodicity schedule), educating them on topics such as breastfeeding, immunizations, well-child visits, safe sleep and smoking cessation.

| 2014 Phase II: Outreach to FIMR Population – Infants Younger than 1 | Jan | Feb | Mar | Apr | May | Jun | July | Aug | Sept | Oct | Nov | Dec |
|---|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| New Cases | 184 | 157 | 194 | 145 | 150 | 149 | 166 | 169 | 148 | 191 | 139 | 186 |
| Existing Open Cases | 1,825 | 1,854 | 1,880 | 1,854 | 1,853 | 1,861 | 1,854 | 1,714 | 1,506 | 1,476 | 1,390 | 1,371 |

Phase III of this initiative was implemented in August 2012. Phase III targets care management for infants identified with special needs at their first birthday. Since Phase III implementation, CM staff has had very few infants who have needed further care management services.

In order to provide an evaluation of the FIMR project, CM has developed a Logic Model for the external evaluation by the Primary Care Health Policy Division in the Department of Family & Preventive Medicine at the OU Health Sciences Center. The evaluation is in process and OHCA staff is working on an Executive summary. The final evaluation report is expected to be available at the end of the CY2015 second quarter.

CM began a new outreach effort as an outgrowth from the FIMR initiative, known as the Interconception Care (ICC) project. The ICC outreach is for pregnant women ages 13 to 18 who have been identified in the 10 FIMR counties who can remain in active care management until one year post delivery. Care management will specifically focus on contraception utilization, medical and dental well checks, return to school/graduation/or vocation training and increased PCP visits. As of December 2014, approximately 59 members are enrolled in the initiative.

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

During the first quarter of 2013, CM and OHCA's Information Services staff implemented a new non-member health survey located on the [Online Health Assessment on OHCA Enrollment Page](#). The survey was developed to gain basic aggregate statistical health information about persons enrolling in SoonerCare. The survey includes questions relating to chronic illness, tobacco use, obesity and pregnancy. The survey also includes agency telephone numbers for OHCA service areas that non-members can call for assistance. OHCA continued this project through June of 2014. From that time, the PCM unit utilized the information differently based on being able to respond to individual members based on actual results from the questions. The PCM has plans to provide additional case management to members relevant to their survey responses in January 2015.

| 2014 Non-Member Health Survey Results ⁹ | Jan-Mar | Apr-June | July-Sept | Oct-Dec |
|--|---------|----------|-----------|---------|
| Non-members who reported to be pregnant | 214 | 220 | 0 | 0 |
| Non-members who reported to have chronic disease | 705 | 564 | 0 | 0 |
| Non-members who reported that s/he is overweight | 634 | 476 | 0 | 0 |
| Non-members who have a serious medical issue for which they believe they need immediate help | 546 | 346 | 0 | 0 |
| Non-members who reported to use tobacco | 647 | 555 | 0 | 0 |
| Total number of survey responses | 5,335 | 1,701 | 0 | 0 |

| 2014 CM Activity | Quarter Ending Mar | Quarter Ending Jun | Quarter Ending Sept | Quarter Ending Dec |
|--|--------------------|--------------------|---------------------|--------------------|
| Active Cases under Care Management | 3,778 | 3,786 | 3,324 | 3,141 |
| Case Load per Adjusted RN FTE | 154 | 147 | 113 | 107 |
| High-Risk and At-Risk OB - Following | 387 | 362 | 328 | 339 |
| High-Risk and At-Risk OB – New | 184 | 207 | 178 | 214 |
| OK Cares New Enrollment | 54 | 57 | 54 | 56 |
| OK Cares Total Enrollment | 572 | 549 | 542 | 490 |
| Private Duty Nursing Cases – New | 6 | 10 | 2 | 9 |
| Private Duty Nursing Cases - Following | 193 | 207 | 200 | 200 |
| Onsite Evaluations (TEFRA, Private Duty Nursing) | 56 | 55 | 52 | 51 |
| Social Service Referrals (Legislative Inquiry, Resource Referrals, Meals and Lodging Coordination) | 68 | 81 | 102 | 79 |
| Out of State – Clinical Review - New | 52 | 74 | 64 | 46 |
| Out of State – Clinical Review - Following | 37 | 37 | 49 | 31 |

⁹ Results are no longer tracked as of July 2014 due to change in process.

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

Health Management Program (HMP)

To improve health of the SoonerCare members with chronic disease, OHCA partners with Telligen to administer the HMP. This program embeds health coaches into the practices to help members become more invested in their health outcomes and improve self-management of chronic disease. Health coaches coordinate closely with the member's provider on health-related goals, as well as allow the provider to easily refer members to the health coaches. With health coaches embedded into PCP practices this provides for more one-on-one care management.

| 2014 Health Coaches | Jan-March | April-June | July-Sept | Oct-Dec |
|--------------------------|-----------|------------|-----------|---------|
| Number of Health Coaches | 26 | 24 | 28 | 29 |

Next Generation HMP also incorporates practice facilitators which are assigned to each practice participating in the program. Practice Facilitation (PF) occurs in each of the participating practices in the HMP program. Some of the essential functions and core components that the practice facilitators are facilitating in the practices include:

- Practice Facilitator and Health Coach Integration
- Foundation Intervention
- Academic Detailing

In addition to health coaches, the Next Generation HMP also incorporates practice facilitation, which goes hand-in hand with health coaching. Practice facilitators have health coach training and certification, as well as work with the health coaches to coordinate efforts within the practices. By the end of December 2014, there were six practice facilitators assigned to the 40 practices participating in the program. The chart below breaks out the level of practice facilitation services, as well as the number of practices in each practice facilitation tier. The number of Tier 3 practices has been updated since the December 2014 quarterly report.

| Practice Facilitation Tiers | Description | Number of Practices |
|-----------------------------|--|---------------------|
| Tier 1 | Practice has never received practice facilitation; clinic needs full practice facilitation services before deployment of a health coach. | 8 |
| Tier 2 | Practice has received prior practice facilitation but requires additional training before deployment of a health coach. | 5 |
| Tier 3 | Practice has received full practice facilitation, high-functioning practice and ready for deployment of a health coach. | 26 |
| Tier 4 | High-functioning practice; has embedded care management staff due to participation in another initiative or grant program, but practice still requests inclusion in academic detailing and other educational services. | 0 |

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

Over the course of state fiscal year 2014, practice facilitators and health coaches conducted some 201 academic detailing sessions with practices, as well as provided some 335 educational presentations. A few of the topics covered during these trainings included “What is Asthma,” “Obesity Mortality in Oklahoma,” “Importance of Micro Albumin” and “10 Things a Diabetes Patient Should Know.”

During the third quarter, August 2014, a new initiative called mHealth was launched through Telligen. The mHealth initiative is a mobile engagement solution that allows HMP to connect with members via text message. With the assistance of mHealth, HMP members are able to receive text messages that remind members to get their flu shots or other health educational messages, as well as text their blood sugar reading and receive a message based on the result. As of December 2014 the HMP had enrolled 419 members in mHealth.

Chronic Care Unit

OHCA implemented an internal Chronic Care Unit in January 2013 to provide care management services to SoonerCare members identified with chronic disease. Members are identified through comprehensive risk profiling, self-referral and provider referrals. The nurse care managers conduct a comprehensive initial evaluation consisting of a health risk assessment, health literacy survey and depression screening. Once all components of the assessment are completed, the nurse care manager works with the member to develop and/or improve self-management skills through member education, action planning and health coaching. The nurse care managers employ behavior change principles such as motivational interviewing to engage the member to become an active participant in their health care.

The Chronic Care Unit continues to partner with the HMP to assist with case managing SoonerCare members with chronic conditions, whose PCPs do not have an embedded health coach. The Chronic Care unit is currently case managing some 444 SoonerCare members with multiple chronic conditions

With approval of Oklahoma House Bill 2384, OHCA is allowed to prior authorize Hepatitis C medications. Effective July 1, 2014, the Chronic Care Unit partners with agency pharmacy staff as well as the OU College of Pharmacy to implement a process to case manage individuals receiving Hepatitis C who are referred by their providers.

As of December 2014, the Chronic Care Unit has received approximately 665 referrals since the implementation of the new OHCA unit in January 2013.

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

Provider Services

On January 1, 2014 an annual Behavioral Health Screening for all SoonerCare members ages 5 and older, who are enrolled in a Patient-Centered Medical Home, was implemented. This new requirement will allow providers to receive a SoonerExcel incentive payment for conducting the new screen.

Providers and medical homes are continuously updated by Provider Services regarding updates that are needed to continue services with the OHCA. An annual update letter was sent out to providers requiring attestation form regarding compliance with the Deficit Reduction Act of 2005.

During the second quarter of SFY 2014, OHCA sent school administrators a letter, #2014-14, regarding a *Child Health Guide for Schools*, in an effort to promote well-child visits, refer to Attachment 2. This letter focused on the importance of preventive health care for children, the ages well-child checkups should be performed and explains how the Child Health Guide informs parents how to apply for SoonerCare. Included in this letter was an electronic link to the Child Health Guide on the OHCA website page.

Several other provider letters were sent out over the course of SFY 2014 to inform providers of changes for various programs inclusive of Behavioral Health and Prescriptions.

Waiver Development & Reporting (WD&R)

In accordance with required CMS quarterly report documents the WD&R unit submits additional reporting information to CMS during the year. The unit also worked closely with CMS on collaborative efforts to help with outreach efforts and implementation of changes made through amendments to the waiver.

Some of the highlights from the 1115 Waiver unit this year included the unit's submission of the 2013 Sooner Care Choice Annual report, submission of the 2016-2018 SoonerCare Choice/Insure Oklahoma renewal application and removal of the Sunset language from the Insure Oklahoma program. The Waiver staff conducted the annual Post Award Forum on July 8 at the Oklahoma Health Improvement Plan (OHIP) Child Health workgroup, refer to Attachment 3. During the forum, the WD&R Coordinator provided education on the 1115 authority and the use of medical homes, as well as discussed the benefits, services and main objectives of the program.

Monthly monitoring calls with CMS were instrumental in sharing information regarding Insure Oklahoma, Health Management Program, Health Access Network and several State of Oklahoma legislative bills that may have had an impact on the SoonerCare Choice Demonstration Waiver. Other issues that were collaborated on with CMS were Sunset language removal for the Insure Oklahoma program, approval of the State receiving program match for the HMP program and technical corrections for the waiver approval package documents.

On May 14, 2014, the Waiver unit submitted a Third Party Liability amendment to CMS. OHCA amended Special Terms and Conditions #22, by adding individuals with other creditable coverage to the Eligibility Exclusions list. CMS approved the amendment on August 13, 2014 and on October 1, 2014 OHCA submitted to CMS the acceptance letter for the amendment approval contingent on a few technical corrections.

OHCA and State leadership continue to collaborate with CMS on how to sustain the Insure Oklahoma program in the future. The Waiver unit continued to work with CMS on the appropriate federal financial match for the Health Management Program. In June 2014 CMS determined the Health Management Program could claim a program match rather an administration match. OHCA also participated in six formal monthly monitoring calls with CMS, as well as other calls on an as-needed basis.

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

In addition to the above highlights, the chart below is a comprehensive list of the 2014 documents that the OHCA worked with CMS to complete.

| # | Document | Submitted to CMS | Status | Date Approved |
|----|--|-------------------|--------------|-----------------|
| 1. | Acceptance Letter for the SoonerCare 2013-2015 Extension | May 14, 2014 | CMS Received | August 13, 2014 |
| 2. | SoonerCare 2014 Amendment individuals with creditable healthcare coverage to SoonerCare demonstration eligibility exclusion list | May 14, 2014 | CMS Received | August 13, 2014 |
| 3. | SoonerCare Quarterly Report, Jan-Mar 2014 | May 30, 2014 | CMS Received | N/A |
| 4. | Acceptance of the September 6 Special Terms and Conditions, Waiver List and Expenditure Authorities | August 13, 2014 | CMS Received | October 1, 2014 |
| 5. | SoonerCare Quarterly Report, Apr-June 2014 | August 29, 2014 | CMS Received | N/A |
| 6. | SoonerCare Quarterly Report, July-Sept 2014 | November 26, 2014 | CMS Received | N/A |
| 7. | SoonerCare Choice and Insure Oklahoma 1115(a) demonstration application for extension of the demonstration, 2016-2018 | December 29, 2014 | CMS Received | Pending |
| 8. | SoonerCare Quarterly Report, Oct-Dec 2014 | February 27, 2015 | CMS Received | N/A |

2. Program-Specific Operations

Breast and Cervical Cancer Program (BCC)

In 2014, OHCA received over 1,121 applications for the BCC program. Of these applications, 377 were denied for reasons including no medical records, no qualifying abnormality and DHS denials. A total of 744 applications were approved for the BCC program in 2014.

| 2014 BCC Applications | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec | Total |
|---|---------|---------|-----------|---------|--------------|
| Total Applications Received | 293 | 297 | 290 | 241 | 1,121 |
| Number of Applications Denied | 95 | 116 | 97 | 69 | 377 |
| Number of Applications Approved | 198 | 181 | 193 | 172 | 744 |
| Of Applications Received, Diagnosis of Breast Cancer | 118 | 106 | 111 | 214 | 549 |
| Of Applications Received, Diagnosis of Cervical Cancer | 170 | 187 | 178 | 138 | 673 |
| Of Applications Received, Diagnosis of Breast and Cervical Cancer | 5 | 3 | 1 | 0 | 9 |

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

| 2014 BCC Certified Screeners | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec |
|------------------------------|---------|---------|-----------|---------|
| Certified Screeners | 1,012 | 1,025 | 1,021 | 1,029 |

| 2014 Outreach Activities Related to BCC Members | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec |
|---|---------|---------|-----------|---------|
| Care Management Activities Related to BCC Members | 3,337 | 3,101 | 2,949 | 3,024 |
| Number of Calls Made by Member Services to BCC Members at Renewal Period | 64 | 41 | 65 | 84 |
| Number of Call Attempts Member Services Made to Members who had a Verified Cancer Diagnosis | 64 | 85 | 60 | 81 |

Health Access Networks (HAN)

Active HANs in Oklahoma include:

- The University of Oklahoma (OU) Sooner HAN administered by the University of Oklahoma Health Science Center, College of Community Medicine;
- The Oklahoma State University (OSU) Network HAN administered by the Oklahoma State University Center for Health Services; and
- The Partnership for Healthy Central Communities (PHCC) HAN

Since December 2013, the HAN enrollment has stayed relatively stable for the OU Sooner HAN, while enrollment has increased for the OSU Network HAN and PHCC HAN. The OSU Network HAN had a one percent growth and PHCC HAN had a two percent growth in member enrollment. Data has been updated since the December 2014 quarterly report.

| 2014 HAN Enrollment | OU Sooner HAN | PHCC HAN | OSU Network |
|---------------------|---------------|----------|-------------|
| January | 99,300 | 3,459 | 15,150 |
| February | 103,003 | 3,740 | 15,592 |
| March | 101,400 | 3,828 | 15,647 |
| April | 93,531 | 3,592 | 14,432 |
| May | 97,879 | 3,724 | 15,078 |
| June | 99,087 | 3,716 | 15,304 |
| July | 95,585 | 3,376 | 14,627 |
| August | 96,401 | 3,387 | 15,007 |
| September | 97,191 | 3,379 | 15,052 |
| October | 97,682 | 3,402 | 15,118 |
| November | 97,914 | 3,486 | 15,215 |
| December | 96,863 | 3,449 | 14,899 |

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

University of Oklahoma Sooner Health Access Network (OU Sooner HAN)

The OU Sooner HAN completed its fourth year of the pilot program in June 2014. The Sooner HAN has expanded member enrollment across 54 care practices. The total member enrollment as of December 2014 was 96,863.

During the latter part of FY 2014, the OU Sooner HAN began development of an interface between Doc2Doc and the OHCA Provider Portal. This interface aids in the integration of the prior authorization process directly into the Doc2Doc referral tool. The Doc2Doc electronic referral management system continues to be an important part of the OU Sooner HAN's access to specialty care providers. In fiscal year 2014, the Sooner HAN had some 150 specialty locations served by 392 specialty providers actively using Doc2Doc.

In March of 2014, the OU Sooner HAN was invited to Washington, DC to present at the Fundamentals of Care Management training. This training was held at the Institute of Health's International (IHI) Summit. The presentation topic was Improving Patient Care in the Office Practice and Community. Several trainers were able to attend the conference and were able to share their success and challenges with others in the industry. They were also able to network with other organizations that were interested in care management training.

For more detailed information on the OU Sooner HAN's provider network or Doc2Doc, refer to Attachment 4 for the OU Sooner HAN Annual Report.

Oklahoma State University Health Access Network (OSU Network HAN)

The OSU Network HAN completed its third year of the pilot program in June 2014 with an enrollment total of 14,899 individuals by the end of December 2014. For fiscal year 2014, the HAN had some 77 primary care providers in seven practice locations. Providers in the OSU Network HAN continue to work toward the implementation of the Doc2Doc referral tool.

In fiscal year 2014, OSU Network HAN staff developed marketing strategies that include brochures in card-format and case management forms, as well as updated and revised member/provider packets designed for distribution.

The OSU Network HAN participated in Motivational Interviewing Training sessions provided by the OHCA as well as established membership with the Case Management Society of America.

The OSU Network HAN provides ongoing outreach, follow-up educational, support, care coordination and self-management tools to its members. The OSU HAN continues to coordinate its case management efforts with Humana Advantage programs for complex cases served by the OSU physician group.

Refer to Attachment 5 for the OSU Network HAN's Annual report.

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

Partnership for Healthy Central Communities Health Access Network (PHCC HAN)

The PHCC HAN completed its third year of the pilot program in June 2014. By the end of December 2014, enrollment was up to 3,449 participants. For fiscal year 2014, the PHCC HAN had some 21 primary care providers and 602 specialty providers.

PHCC HAN's third year work on the implementation of Doc2Doc in PCP practices made substantial gains. Efforts to achieve full implementation are ongoing. In 2014, the OU Sooner HAN provided on-site training at four PHCC HAN practices.

The PHCC HAN staff developed six brochures base on common ER visit diagnoses, each with health education and health promotion content as well as emphasis on preventive care and services. The topics include: abdominal pain, back pain, cellulitis, and children with fever, headache and urinary tract infection.

The purpose of each brochure is to educate and emphasize the following: specific health problems as specified by the brochure title, appropriate use of PCP visits vs. ER visits and preventive measures associated with each topic.

The PHCC HAN presented at the August Strategic Planning Conference with OHCA, refer to Attachment 6. Their discussion was Asthma Improvement Plan (AIP), which is their care management initiative. The AIP began March 2012 with ten members engaged. By the end of September 2014, there were some 39 members engaged. Outcome measures show improvement since the launch of the initiative, as well as decrease in hospitalizations and emergency room visits and an increase in flu vaccinations.

Additionally, staff participated in multiple meetings and community outreach groups such as: Canadian County Coalition for Children and Families, Infant Mental Health group, Strategic Prevention Framework (SPF)-State Incentive Grant (SIG) through Red Rock, Canadian County against Tobacco Coalition and Canadian County Coalition (CCC) Special Events Committee.

Refer to Attachment 7 to review PHCC HAN's Annual report.

OHCA continued individualized HAN review meetings in fiscal year 2014 and on an as-needed basis.

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

Insure Oklahoma (IO)

Sunset removal language for Insure Oklahoma was submitted to CMS on May 27, 2014, and was approved June 27, 2014. Oklahoma's Governor announced the successful negotiations and extension of the program in a June 30, 2014, press release refer to Attachment 8.

Insure Oklahoma Outreach Activities for 2014 included activities with approximately 8,639 participants and the distribution of 25,570 Insure Oklahoma Brochures. This number does not include brochures ordered online.

Since the Insure Oklahoma program was extended beyond the 2014 calendar year, continued efforts were made to help with sustainability of the program. An Outreach marketing staff person was hired to do outreach around the state with presentations, media, radio and social media regarding Insure Oklahoma. There were also continued efforts in October 2014 toward the completion of the online application for Insure Oklahoma participants.

| 2014 Employer-Sponsored Insurance (ESI) Program Participating Employers | Quarter Ending Mar | Quarter Ending Jun | Quarter Ending Sept | Quarter Ending Dec |

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

SoonerRide

The SoonerRide program was developed to assure that necessary transportation is made available to all eligible SoonerCare members who are in need. The agency contracts directly with ambulance and air providers for all other transportation needs. SoonerRide is contracted with the vendor Logisticare for the non-emergency transportation needs.

For 2014, the SoonerRide program provided some 846,356 trips for SoonerCare Choice and other OHCA covered program members within the 77 state counties.

Throughout the SFY 2014 a random selection of SoonerCare members were selected to participate in a member satisfaction survey. Members were able to rate the program as Excellent, Good, Fair or Poor. The survey results for each quarter revealed overall positive feedback regarding the program.

Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA)

The Governor appointed members to the Blue Ribbon Panel for Developmental Disabilities in response to the significant number of Oklahoma men, women and children with intellectual disabilities. One of the panel's objectives is to address the Developmental Disabilities Service's (DDS) ever-growing waiting list for services. The panel also reviewed more than 3,000 child cases to determine if required criteria are being met for the TEFRA program. To date the Governor's Blue Ribbon panel is moving to finalize their recommendations to the Governor's office regarding numerous ideas that are currently being explored.

In 2014 TEFRA staff also provided educational training for the TEFRA program at the DDS meeting. Two other trainings took place in the fourth quarter of 2014, one in October and one in November.

OHCA internal TEFRA staff continues to have workgroup meetings that focus on review of active cases, operational procedures for level of care criteria for TEFRA and policy that may impact TEFRA.

Additionally, to effectively manage possible growth in the program during the SFY of 2014, TEFRA staff hired a new TEFRA nurse to handle all initial and recertification cases. A new TEFRA analyst and TEFRA coordinator were also hired.

V. OPERATIONAL/POLICY DEVELOPMENTS (Cont'd)

B. Policy Developments

1. Policy and Administrative Status

Throughout SFY 2014, OHCA staff presented numerous proposed permanent rule changes to the Medical Advisory Committee and to the OHCA Board meeting.

During the first quarter of 2014 proposed rule changes specific to the 1115 demonstration included revising Insure Oklahoma program rules to align with the Special Terms and Conditions of the Section 1115 Demonstration Waiver. Rules were also revised to remove children covered under the Individual Plan (IP) and limit adult Individual Plan enrollment to persons with household income at or below 100 percent FPL. Revisions were also made concerning the IP co-payment structure and to remove the references to eligibility income determination. Changes were also presented regarding the TEFRA program rules in order to better match current business practices and federal regulations.

During the second quarter there were rule changes presented that related to program cuts due to the budget shortfall. Other changes included increasing SoonerCare co-pays, eliminating the perinatal dental benefit and making individuals who have creditable health insurance coverage not qualified for the SoonerCare Choice program. The third quarter rule changes related to program cuts in order to comply with Oklahoma Constitution Article X, Section 23. The last quarter rule changes were concerning the 1915c waiver populations.

All proposed rule changes, including 2014 federally mandated changes, were passed through the Oklahoma Legislature during the 2014 legislative session with an effective date of July 1, 2014, with some provisions not going into effect until January 1, 2015.

OHCA continues to encourage stakeholders, providers and the public to make comments on all proposed rule changes by utilizing the OHCA webpage [Proposed Rule Changes Website](#) for comment. Individuals may receive rule-change updates through email notification or the OHCA web alert banner.

The State continues to see growth in the current operations of the SoonerCare Choice program. At the end of SFY 2014 the Insure Oklahoma program experienced a slight decrease in program enrollment in both the Employer Sponsored Insurance (ESI) program and the Individual Plan (IP) program, as there is uncertainty regarding the program's future.

2. Legislative Activity

On February 3, 2014, Governor Mary Fallin delivered her State of the State address at the opening of the legislative session. The governor identified several areas of focus which included: making education and safety in schools a priority, informing State agencies that many State agencies may see up to a five percent budget cut, highlighting much needed repair to our State Capitol building, continuing the State's Insure Oklahoma premium assistance program and proposing provisions for tax breaks.

During the second quarter, May 23, 2014, the Oklahoma's 55th Legislature adjourned with the official sine die on May 30, 2014. OHCA continued to discuss resolutions for the agency's budget shortfall as OHCA prepared the SFY 2015 budget. After receiving a flat appropriation from the Governor, it was determined that the agency would have to make up for a \$104 million shortfall in order to maintain the program as it was administered the year before. The deficit was a combination of a 2.7 percent decrease in Federal Medical Assistance Percentage (FMAP), a \$13.7 million loss in tobacco tax revenue and loss in funds from the Legislature for normal growth and utilization cost.

VI. CONSUMER ISSUES

During the 2014 session, the Oklahoma Legislature tracked a total of 5,152 legislative bills, of which 845 were carry-over bills from the previous session. The OHCA tracked 223 bills, of which 110 were carry-over. Of these bills, few had impact on the SoonerCare demonstration. The legislative bill that was approved and signed by the Governor, which does impact the SoonerCare Choice demonstration, was HB 2402, which permits remaining funeral trust account funds to be placed in an irrevocable trust for the OHCA to recover reimbursement of medical assistance.

After adjournment of the 2014 legislative session, Oklahoma legislators continued addressing State needs through interim studies. Legislators conducted research on some 150 interim studies. The studies with potential impact to the SoonerCare Choice demonstration include the studies relating to health care funding – House study 14-001, 14-007, 14-090 and Senate study 14-03 – as well as studies relating to Access to Care and providing insurance to the uninsured – House study 14-050 and 14-079, and Senate study 14-051. Oklahoma’s 55th Legislature will convene on February 2, 2015. In addition, on May 21, 2014, the Governor approved HB 2906, which directs the OHCA to conduct a study of current and potential emergency department diversion models for persons enrolled in Medicaid and explore options for cost containment that are consistent with the patient-centered medical home program.

A. Member Advisory Task Force (MATF)

The Member Advisory Task Force (MATF) performs four primary roles. It provides information to OHCA regarding issues that are an important part of the members’ health care needs; educates OHCA staff regarding the needs of consumers to assure services are received in a way preferred by members; recommends potential changes to current services/policies; and offers new ideas for services and policies. The MATF is comprised of OHCA staff, staff from the agency contractor, and representatives from the Oklahoma Family Network (OFN)¹¹ and SoonerCare members.

In 2014, the MATF met seven times throughout the year. During the meetings, the MATF made recommendations to the OHCA for improvement and further analysis in OHCA programs, processes and meetings. The chart below includes some of the recommendations from the MATF.

| MATF Highlights |
|--|
| MATF met February 1, 2014 and the meeting was focused on decreased federal match which was due to Oklahoma’s economy doing better than most states. |
| The main focus of the April and May meetings continued to center around OHCA’s flat budget and the agency’s proposed cuts in order to make up for the shortfall. MATF members gave recommendations on how to better communicate with members through electronic media, what should be included in member newsletters and other outreach techniques for the new SoonerFit initiative. |
| The July and September meetings continued talks on the budget, SoonerFit program and outreach recommendations for member notification. The MATF co-chairperson represented the task force in the “Personal Responsibility” conference session of OHCA’s Strategic Planning Conference in August. |
| The December 5 meeting centered on Member Newsletter review, review of the new member packet and review of upcoming rules. |

¹¹ The OFN is a non-profit entity that provides parent-to-parent support, resource coordination and training to families of children with special health care needs of all ages.

VI. CONSUMER ISSUES (Cont'd)

B. Member Inquiries

OHCA offers members access to a toll-free customer service line for all of their inquiries. Calls are classified live on a call-tracking system and detailed notes about the call may be recorded. The call-tracking system takes inquiries across all programs that the OHCA operates, so the Member Inquiries data cannot be attributed solely to the SoonerCare Choice program.

Member inquiry results fluctuate as programs change and/or grow. If there is a complaint about a SoonerCare Choice PCP, specifically, the complaint is forwarded to the appropriate provider representative for review and resolution. If the representative notes a quality concern, the matter is referred to the Quality Assurance department for investigation. For all member inquiries, the Member Services Director is provided the information for monitoring and researching significant changes occurring quarterly and annually.

| 2014 Member Inquiries | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec |
|---------------------------|---------------|---------------|---------------|---------------|
| Program Complaint | 58 | 49 | 35 | 17 |
| Complaint on Provider | 63 | 81 | 66 | 93 |
| Fraud and Abuse | 58 | 60 | 66 | 60 |

VII. QUALITY ASSURANCE / MONITORING ACTIVITIES

A. Quality Assurance (QA)

CAHPS® Member Surveys

OHCA's contracted External Quality Review (EQR) organization, Morpace; to conduct a *Consumer Assessment of Health Care Providers and Systems (CAHPS®) Adult Medicaid Member Satisfaction Survey*, refer to Attachment 9 and *CAHPS® Child Medicaid with CCC Member Satisfaction Survey*, refer to Attachment 10 for the period 2013. OHCA received these reports in June 2014. The objective of the surveys is to capture accurate and complete information about consumer-reported experiences with SoonerCare Choice by:

- Measuring satisfaction levels, health plan use, health and socio-demographic characteristics of members;
- Identifying factors that affect the level of satisfaction;
- Providing a tool that can be used by plan management to identify opportunities for quality improvement; and
- Providing plans with data for HEDIS® and NCQA accreditation.

CAHPS® Adult Survey

Based on Morpace's report for the Adult member satisfaction survey, 309 qualified members completed the survey from the sample size of 1,350 SoonerCare Choice members who received the survey; the survey response rate was 23 percent. Overall results for the adult survey showed fairly high levels of satisfaction in the overall program. The highest summary rate was for the reporting measure *How Well Doctors Communicate* (89.92 percent). The lowest summary rate was for the reporting measure *Shared Decision Making* (49.95 percent).

CAHPS® Child Survey

The CAHPS® child survey had a response rate of 839 members who completed the survey from the sample of 1,650 SoonerCare Choice children who were randomly selected. This is a response rate of 51 percent.

Similar to the CAHPS® adult survey, the overall level of satisfaction for the program was relatively high with the highest reporting measure rating 96.57 percent for *How Well Doctors Communicate* and the lowest rating at 59.75 percent for *Shared Decision Making*. Refer to Appendix A to review the major findings from the CAHPS® survey.

Access Survey

OHCA requires that providers give members 24-hour access and ensure that members receive timely and appropriate services. Provider Services staff place calls to providers after 5:00 pm and report the type of access available. Provider representatives educate any providers who need to improve their after-hours access to comply with contractual standards.

| 2014 Access Survey | Jan-Mar | Apr-Jun | July-Sept | Oct-Dec |
|--|---------|---------|-----------|---------|
| Number of Providers Called | 844 | 880 | 879 | 887 |
| Percent of Providers with 24-hr Access on Initial Survey | 95 | 95 | 89 | 96 |
| Percent of Providers Educated for Compliance | 5% | 5% | 11% | 4% |

VII. QUALITY ASSURANCE / MONITORING ACTIVITIES (Cont'd)

B. Monitoring Activities

HEDIS® Report¹⁶

SoonerCare HEDIS® Quality Measures

| Reported per report year - not data year | 2010 | 2011 | 2012 | 2013 |
|--|-------------|-------------|-------------|-------------|
| Annual Dental Visit | 2010 | 2011 | 2012 | 2013 |

VIII. FINANCIAL / BUDGET NEUTRALITY DEVELOPMENT

A. Budget Neutrality Model

Oklahoma continues to exceed per member per month expenditures for members categorized as Aged, Blind and Disabled. The state believes this situation to be reflective of provider rate increases that will continue to have particular impact for this eligibility group. In the overall life of the waiver, the state has \$3.7 billion in Budget Neutrality savings. Ending December 2014, the state has \$697,896,548 million in savings for the year, refer to Attachment 11.

Oklahoma 1115 Budget Neutrality Model
Cumulative Waiver Years
Through December 31, 2014

| Waiver Year | Member Months (Enrolled and Unenrolled) | Costs Without Waiver | Waiver Costs on HCFA-64 | Variance |
|--------------------------|---|-------------------------|----------------------------|------------------------|
| Waiver Year #1-1996 | 2,337,532 | \$286,138,649 | \$249,006,422 | \$37,132,227 |
| Waiver Year #2-1997 | 2,282,744 | \$297,653,392 | \$281,953,273 | \$15,700,119 |

¹⁷ OHCA has authority to enroll this population, but do not at this time due to systems updates.

X. DEMONSTRATION EVALUATION

A. Hypotheses

| Hypothesis | Do 2014 Outcomes of the Demonstration Confirm the Hypothesis? |
|--|--|
| 1. A Child health checkup rates for children 0 to 15 months old will be maintained at or above 95 percent over the life of the extension period. | Yes |
| 1. B Child health checkup rates for children 3 through 6 years old will increase by three percentage points over the life of the extension period. | No – OHCA has not yet met this measure. OHCA will continue to track this data over the extension period. |
| 1. C Adolescent child health checkup rates will increase by three percentage points over the life of the extension period. | No – OHCA has not yet met this measure. OHCA will continue to track this data over the extension period. |
| 2. The rate of adult members who have one or more preventive health visits with a primary care provider in a year will improve by three percentage points as a measure of access to primary care in accordance with HEDIS [®] guidelines between 2013-2015. | No – OHCA has not yet met this measure. OHCA will continue to track this data over the extension period. |
| 3. The number of SoonerCare primary care practitioners enrolled as medical home PCPs will maintain at or above the baseline data between 2013-2015. | Yes |
| 4. A There will be adequate PCP capacity to meet the health care needs of the SoonerCare members between 2013-2015. The available capacity will equal or exceed the baseline capacity data over the duration of the waiver extension period. | Yes |
| 4. B The time it takes for the member to schedule an appointment should exceed the baseline data between 2013-2015. | Yes |
| 5. The percentage of American Indian members who are enrolled with an Indian Health Services, Tribal or Urban Indian Clinic (I/T/U) with a SoonerCare Choice American Indian primary care case management contract will increase nine percentage points during the 2013-2015 extension period (this is three percentage points each year). | No – OHCA has not yet met this measure. OHCA will continue to track this data over the extension period. |
| 6. The proportion of members qualified for SoonerCare Choice who do not have an established PCP will decrease within 90 days of the primary care claims analysis report. | Yes |
| 7. A Key quality performance measures, asthma and Emergency Room (ER) utilization, tracked for PCPs participating in the HANs will improve between 2013-2015. Decrease asthma-related ER visits for HAN members with an asthma diagnosed identified in the medical record. | Yes |

X. DEMONSTRATION EVALUATION (Cont'd)

| Hypothesis | Do 2015 Outcomes of the Demonstration Confirm the Hypothesis? |
|---|--|
| 7. B Key quality performance measures, asthma and Emergency Room (ER) utilization, tracked for PCPs participating in the HANs will improve between 2013-2015. Decrease 90-day readmissions for related asthma conditions for HAN members with an asthma diagnosis identified in their medical record. | Yes |
| 7. C Key quality performance measures, asthma and Emergency Room (ER) utilization, tracked for PCPs participating in the HANs will improve between 2013-2015. Decrease overall ER use for HAN members. | Yes |
| 8. Average per member per month expenditures for members belonging to a HAN affiliated PCP will continue to be less than those members enrolled with non-HAN affiliated PCPs during the period of 2013-2015. | Yes |
| 9a.(A) The percentage of SoonerCare members identified as qualified for nurse care management, who enroll and are actively engaged, will increase as compared to baseline. | Unknown- OHCA will receive updated data after the reporting time period. |
| 9a.(B) The percentage of members actively engaged in nurse care management in relation to the providers' total SoonerCare Choice panel. | Unknown- OHCA will receive updated data after the reporting time period. |
| 9b. The incorporation of Health Coaches into primary care practices will result in increased PCP contact with nurse care managed members, versus baseline for two successive years and a comparison group of qualified but not enrolled members. | Pending - OHCA will receive updated data after the reporting time period |
| 9c (A). The implementation of Phase II of the SoonerCare HMP, including introduction of physician office-based Health Coaches for nurse care managed members and closer alignment of nurse care management and practice facilitation, will improve the process for identifying qualified members and result in an increase in average complexity of need within the nurse care managed population. Number of members engaged in nurse care management with two or more chronic conditions. | Pending - OHCA will receive updated data after the reporting time period |

X. DEMONSTRATION EVALUATION (Cont'd)

| Hypothesis | Do 2015 Outcomes of the Demonstration Confirm the Hypothesis? |
|--|---|
| <p>9c (B). The implementation of Phase II of the SoonerCare HMP, including introduction of physician office-based Health Coaches for nurse care managed members and closer alignment of nurse care management and practice facilitation, will improve the process for identifying qualified members and result in an increase in average complexity of need within the nurse care managed population.</p> <p>Sum of chronic conditions across all members engaged at any time in a 12-month period.</p> | <p>Pending - OHCA will receive updated data after the reporting time period</p> |
| <p>9c(C). The implementation of Phase II of the SoonerCare HMP, including introduction of physician office-based Health Coaches for nurse care managed members and closer alignment of nurse care management and practice facilitation, will improve the process for identifying qualified members and result in an increase in average complexity of need within the nurse care managed population.</p> <p>Number of members engaged in nurse care management at any time in a 12-month period with at least one chronic condition and one behavioral health condition.</p> | <p>Pending - OHCA will receive updated data after the reporting time period</p> |
| <p>9c (D). The implementation of Phase II of the SoonerCare HMP, including introduction of physician office-based Health Coaches for nurse care managed members and closer alignment of nurse care management and practice facilitation, will improve the process for identifying qualified members and result in an increase in average complexity of need within the nurse care managed population.</p> <p>Sum of chronic impact scores across all members engaged at any time in a 12-month period.</p> | <p>Pending - OHCA will receive updated data after the reporting time period</p> |
| <p>9d. The use of a disease registry by Health Coaches will improve the quality of care for nurse care managed members.</p> | <p>Pending - OHCA will receive updated data after the reporting time period</p> |
| <p>9e. Nurse care managed members will utilize the emergency room at a lower rate than members in a comparison group comprised of qualified but not enrolled members.</p> | <p>Pending - OHCA will receive updated data after the reporting time period</p> |
| <p>9f. Nurse care managed members will have fewer hospital admissions and readmissions than members in a comparison group comprised of qualified but not enrolled members.</p> | <p>Pending - OHCA will receive updated data after the reporting time period</p> |

X. DEMONSTRATION EVALUATION (Cont'd)

| Hypothesis | Do 2015 Outcomes of the Demonstration Confirm the Hypothesis? |
|---|--|
| 9g. Nurse care managed members will report higher levels of satisfaction with their care than members in a comparison group comprised of qualified but not engaged members. | Pending - OHCA will receive updated data after the reporting time period |
| 9h. Total and per member per month expenditures for members enrolled in HMP will be lower than would have occurred absent their participation in nurse care management. | Pending - OHCA will receive updated data after the reporting time period |
| 10. The state's systems performance will ensure seamless coverage between Medicaid and the Marketplace after changes outlined in the Affordable Care Act are effectuated. | Yes |

X. DEMONSTRATION EVALUATION (Cont'd)

OHCA reports the following 2015 annual data and analysis for the SoonerCare Choice program's hypotheses. Refer to page 2, Introduction, of this report to reference the waiver objectives.

Hypothesis 1 - This hypothesis directly relates to SoonerCare Choice waiver objective #1 and #1 of CMS's Three Part Aim:

The rate for age-appropriate well-child and adolescent visits will improve between 2013-2015.

- A. Child health checkup rates for children 0 to 15 months old will be maintained at or above 95 percent over the life of the extension period.*
- B. Child health checkup rates for children 3 through 6 years old will increase by three percentage points over the life of the extension period.*
- C. Adolescent child health checkup rates will increase by three percentage points over the life of the extension period.*

This hypothesis posits that the number of members who have regular visits with their primary care providers is a measure of how much access members have to primary care. One of the objectives of the medical home model of primary care delivery is improvement of access to regular primary care. The measure predicts that as a result of the waiver, rates will be maintained and/or improved for well-child and adolescent visits over the duration of the waiver extension period (2013-2015).

The data used is administrative, derived from paid claims and encounters, following HEDIS[®] measure guidelines. The members included in the measurement group are divided by age cohorts (0-15 months, 3 to 6 years and adolescents 12-21 years) and are limited to those who were enrolled in SoonerCare for 11 or 12 months of the measurement year allowing for a maximum gap in enrollment of 45 days.

The medical home model was implemented in January 2009, so initial effects of the waiver's primary care model begin in CY2009 data.

| Percentage of Child and Adolescent Members with at Least One Checkup Per Year | CY2009 HEDIS [®] 2010 ¹⁸ | CY2010 HEDIS [®] 2011 | CY2011 HEDIS [®] 2012 | CY2012 HEDIS [®] 2013 | CY2013 HEDIS [®] 2014 |
|---|--|--------------------------------|--------------------------------|--------------------------------|--------------------------------|
| 0-15 months | 95.4% | 98.3% | 98.3% | 95.7% | 96.3% |
| 3-6 years | 61.9% | 59.8% | 57.4% | 59.9% | 58.5% |
| 12-21 years | 37.1% | 33.5% | 34.5% | 22.5% | 21.8% |

Hypothesis 1.A Results:

This hypothesis specifies that checkup rates for children 0 to 15 months will be maintained at or above 95 percent over the course of the extension period. OHCA met this measure in HEDIS[®] year 2010 when the percentage of child visits was at 95.4 percent. OHCA has maintained at or above this rate through the baseline data in HEDIS[®] year 2013 (95.7 percent), and through HEDIS[®] year 2014 (96.3 percent).

¹⁸ OHCA started producing HEDIS[®] data internally using a different formula; thus, recalculating 2009 data. In previous years, HEDIS[®] data was produced by a Quality Improvement Organization contractor.

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 1.B Results:

In accordance with the hypothesis, the checkup rates for children ages 3 to 6 years are to increase by 3 percentage points over the extension period, 2013-2015, which would be an average of 1 percentage point per year. Children ages 3-6 years have seen a 1.4 percent decrease in health checkup rates during HEDIS[®] year 2014. In order to meet this measure, OHCA will continue to monitor this group during the 2013-2015 extension period.

Hypothesis 1.C Results:

The evaluation measure hypothesizes that the checkup rate for adolescent's ages 12 to 21 years will also increase 3 percentage points over the period from 2010-2012, which is an average of 1 percentage point per year. Adolescents' ages 12-21 years have had a .7 percent decrease in health checkup rates from HEDIS[®] year 2013, to HEDIS[®] year 2014. OHCA analysis indicates that there is an inverse relationship between increasing age of the child and screening/participation rates. In order to meet this measure, OHCA will continue to monitor this group during the 2013-2015 extension period.

Hypothesis 2 - This hypothesis directly relates to SoonerCare Choice waiver objective #1 and #1 of CMS's Three Part Aim:

The rate of adult members who have one or more preventive health visits with a primary care provider in a year will improve by three percentage points as a measure of access to primary care in accordance with HEDIS[®] guidelines between 2013-2015.

| Access to PCP/Ambulatory Health Care: HEDIS [®] Measures for Adults | CY2009 HEDIS [®] 2010 | CY2010 HEDIS [®] 2011 | CY2011 HEDIS [®] 2012 | CY2012 HEDIS [®] 2013 | CY2013 HEDIS [®] 2014 |
|--|-----------------------------------|-----------------------------------|-----------------------------------|-----------------------------------|-----------------------------------|
| 20-44 years | 83.6% | 84.2% | 83.1% | 82.8% | 81.9% |
| 45-64 years | 90.9% | 91.1% | 91.0% | 87.9% | 87.7% |

Access to primary care providers is determined in accordance with HEDIS[®] guidelines: a member with at least one paid claim or encounter with a primary care provider in a 12-month period is determined to have access to primary care. Only members who were enrolled for 11 or 12 months of the data year who did not have gaps in enrollment of more than 45 days during the year are included in the population for whom the access rate is determined. The adult rate excludes claims for inpatient procedures, hospitalizations, emergency room visits and visits primarily related to mental health and/or chemical dependency.

Hypothesis 2 Results:

This hypothesis postulates that adults' rate of access to primary care providers will improve by three percentage points over the life of the extension, 2013-2015. SoonerCare adults ages 20-44 and 45-64 have not yet attained a three percentage point increase over the 2013-2015 extension period. For HEDIS[®] year 2013, adults' ages 20-44 years with access to a PCP or ambulatory health care decreased 0.9 percentage points, while adults ages 45-64 with access to a PCP or ambulatory health care decreased .2 percentage points. OHCA continues to trend the adult access rates over the extension period to monitor for significant changes in rates for these age groups.

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 3 – This hypothesis directly relates to SoonerCare Choice waiver objective #2 and #1 of CMS's Three Part Aim:

The number of SoonerCare primary care practitioners enrolled as medical home PCPs will maintain at or above the baseline data (1,932 providers) between 2013-2015.

| PCP Enrollments | Dec 2013 | Jan 2014 | Feb 2014 | Mar 2014 | Apr 2014 | May 2014 | Jun 2014 | Jul 2014 | Aug 2014 | Sept 2014 | Oct 2014 | Nov 2014 | Dec 2014 |
|----------------------------------|----------|----------|----------|----------|----------|----------|----------|----------|----------|-----------|----------|----------|----------|
| Number of SoonerCare Choice PCPs | 2,067 | 2,119 | 2,141 | 2,192 | 2,225 | 2,231 | 2,252 | 2,335 | 2,361 | 2,376 | 2,393 | 2,431 | 2,454 |

Hypothesis 3 Results:

This hypothesis measures the state's access to care by tracking the number of SoonerCare primary care providers enrolled as medical home PCPs. OHCA exceeded the baseline data during the first quarter of 2013 and has continued to exceed the baseline through the end of 2014. OHCA exceeded the baseline data by 27 percent at the end of 2014. OHCA believes that the number of Choice PCPs will continue to increase throughout the extension period.

Hypothesis 4 – This hypothesis directly relates to SoonerCare Choice waiver objectives #1 and #2, and #1 of CMS's Three Part Aim:

There will be adequate PCP capacity to meet the health care needs of the SoonerCare members between 2013-2015. Also, as perceived by the member, the time it takes to schedule an appointment should improve between 2013-2015.

- A. The available capacity will equal or exceed the baseline capacity data over the duration of the waiver extension period.*
- B. As perceived by the member, the time it takes for the member to schedule an appointment should exceed the baseline data between 2013-2015.*

Hypothesis 4.A Results:

| SoonerCare Choice PCP Capacity | Baseline Data (December 2012) | PCP Capacity (December 2013) | PCP Capacity (December 2014) |
|----------------------------------|-------------------------------|------------------------------|------------------------------|
| Number of SoonerCare Choice PCPs | 1,932 | 2,067 | 2,454 |
| SoonerCare Choice PCP Capacity | 1,092,850 | 1,149,541 | 1,155,455 |
| Average Members per PCP | 279 | 268 | 219 |

This hypothesis postulates that OHCA will equal or exceed the baseline capacity data (1,092,850; average of 279 members per PCP) over the duration of the extension period. OHCA exceeded the baseline capacity in the beginning of 2014 and has continued to exceed it through the end of 2014.

In addition, the number of SoonerCare Choice PCP providers has increased slightly over the course of the year. There are 2,454 contracted SoonerCare Choice providers who serve SoonerCare members, which is a twenty-seven percent increase from the number of providers in December 2012 the baseline year. SoonerCare Choice providers serve an average of 219 members per provider.

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 4.B Results:

| CAHPS [®] Adult Survey Results | Baseline Data: 2012 CAHPS [®] Survey Response | 2013 CAHPS [®] Survey Response | 2014 CAHPS [®] Survey Response |
|--|--|---|---|
| Positive Responses from the Survey Question: <i>“In the last 6 months, how often did you get an appointment for a check-up or routine care at a doctor’s office or clinic as soon as you needed?”</i> | 89% Responded “Usually” or “Always” | 80% Responded “Usually” or “Always” | 82% Responded “Usually” or “Always” |

| CAHPS [®] Child Survey Results | Baseline Data: 2012 CAHPS [®] Survey Response | 2013 CAHPS [®] Survey Response | 2014 CAHPS [®] Survey Response |
|--|--|---|---|
| Positive Responses from the Survey Question: <i>“In the last 6 months, when you made an appointment for a check-up or routine care for your child at a doctor’s office or clinic, how often did you get an appointment as soon as your child needed?”</i> | 93% Responded “Usually” or “Always” | 90% Responded “Usually” or “Always” | 91% Responded “Usually” or “Always” |

This hypothesis posits that the member’s response to the time it takes to schedule an appointment should exceed the baseline data. OHCA’s contracted External Quality Review Organization (EQRO) Morpace, conducted the CAHPS[®] survey for the period 2013. Results from the CAHPS[®] survey indicate that the majority of survey respondents for both the Adult and Child surveys had satisfactory responses for scheduling an appointment as soon as needed. Eighty two percent of the adult survey respondents felt satisfied in the time it took to schedule an appointment with their PCP, while ninety one percent of child survey respondents indicated they were “Usually” or “Always” satisfied.

More than three-quarters of survey respondents had a positive response about the time it takes to get an appointment with their PCP; OHCA saw a slight increase in positive responses in 2014 compared to the 2013 responses. Compared to the 2012 baseline data, there was a 7 percent decrease in the adult composite response and 2 percent decrease for the child composite response.

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 5 – This hypothesis directly relates to SoonerCare Choice waiver objective #4, and #1 of CMS’s Three Part Aim:

The percentage of American Indian members who are enrolled with an Indian Health Services, Tribal or Urban Indian Clinic (I/T/U) with a SoonerCare Choice American Indian primary care case management contract will increase nine percentage points during the 2013-2015 extension period (this is three percentage points each year).

| 2014 I/T/U Providers | Dec 2012 Base line | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sept | Oct | Nov | Dec |
|--|-----------------------------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|--------|
| Total American Indian/ Alaska Native Members with SoonerCa re Choice and I/T/U PCP | 86,465 | 95,221 | 96,503 | 98,547 | 93,557 | 94,133 | 93,997 | 88,970 | 89,123 | 89,762 | 90,814 | 91,350 | 90,336 |
| IHS Members with I/T/U PCP | 18,195 | 21,838 | 22,579 | 22,658 | 20,803 | 21,480 | 21,699 | 21,908 | 22,387 | 22,035 | 22,339 | 22,558 | 21,901 |
| Percent of IHS Members with I/T/U PCP | 21.04 | 22.93% | 23.40% | 22.99% | 22.24% | 22.82% | 23.08% | 24.62% | 25.12% | 24.55% | 24.60% | 24.69% | 24.24% |
| I/T/U Capacity | 124,400 | 99,400 | 99,400 | 99,900 | 99,900 | 99,900 | 99,900 | 99,900 | 99,900 | 98,400 | 98,400 | 98,400 | 98,400 |

Hypothesis 5 Results:

This hypothesis postulates that the percentage of American Indian members who are enrolled with an I/T/U PCP with a SoonerCare American Indian primary care case management contract will increase nine percentage points during the extension period. The proportion of American Indian members with an I/T/U PCP has increased 3.2 percentage points when comparing December 2012 to December 2014. At this time, OHCA expects the increase of IHS members with an I/T/U PCP to continue. In order to meet this measure, OHCA will continue to monitor this group during the 2013-2015 extension period.

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 6 – This hypothesis directly relates to SoonerCare Choice waiver objective #1 and #1 of CMS's Three Part Aim:

The proportion of members qualified for SoonerCare Choice who do not have an established PCP will decrease within 90 days of the primary care claims analysis report.

| Percentage of Members Aligned with a PCP | Jan | Feb | Mar | Apr | May | Jun | July | Aug | Sept | Oct | Nov | Dec |
|--|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|--------------|
| Primary Care Claims Analysis Report – Members with Claims with no Selected PCP | 848 | 558 | 550 | 727 | 890 | 955 | 1,341 | 1,718 | 1,737 | 924 | 956 | 836 |
| Total Number of Members OHCA Aligned with PCP | 292 | 501 | 316 | 342 | 383 | 531 | 559 | 686 | 861 | 641 | 444 | 503 |
| Percentage | 34.4% | 89.8% | 57.5% | 47.0% | 43.0% | 55.6% | 41.7% | 39.9% | 49.6% | 69.4% | 46.4% | 60.2% |

Hypothesis 6 Results:

OHCA's Primary Care Claims Analysis Report is a monthly report that includes every SoonerCare Choice eligible member with one or more claims who does not have an established PCP. In January, for example, the Primary Care Claims Analysis Report indicated that 848 SoonerCare Choice eligible members had one or more claims, but were not aligned with a PCP. In December, approximately 503 SoonerCare Choice eligible members with claims were not aligned with a PCP.

Once OHCA receives the report, staff aligns SoonerCare Choice eligible members with a PCP from whom they received services. As indicated in the above chart, of the 848 Choice members who were not aligned with a PCP in January, OHCA staff successfully aligned 1,159 members within 90 days of receiving the Primary Care Claims Analysis Report. OHCA aligned over 50 percent of members in February, March, June, October and December at the end of 2014. During the months of July, August and September 2014 there was an increase in SoonerCare enrollment which caused an increase in claims for those months. OHCA has successfully met this measure as OHCA staff has decreased the number of SoonerCare Choice eligible members who do not have an established PCP.

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 7 – This hypothesis directly relates to SoonerCare Choice waiver objective #3 and #2 of CMS's Three Part Aim:

Key quality performance measures, asthma and Emergency Room (ER) utilization, tracked for PCPs participating in the HANs will improve between 2013-2015.

- A. Decrease asthma-related ER visits for HAN members with an asthma diagnosis identified in their medical record.*
- B. Decrease 90-day readmissions for related asthma conditions for HAN members with an asthma diagnosis identified in their medical record.*
- C. Decrease overall ER use for HAN members.*

Hypothesis 7 Results:

This hypothesis posits that the percentage of HAN members with asthma who visit the ER will decrease, 90-day re-admission for asthma conditions will decrease and percent of ER use for HAN members will decrease. During calendar year 2013, OHCA had a meeting with the HANs to refine their reporting methodology for this measure.

| A. 2014 Asthma-Related ER Visits | Total Number of ER Visits by HAN Members with Asthma | All HAN Members with Asthma | Percent of HAN Members with Asthma who Visited the ER |
|----------------------------------|--|-----------------------------|---|
| OU Sooner HAN | 3,950 | 58,055 | 7% |
| PHCC HAN | 72 | 885 | 8% |
| OSU Network HAN | 415 | 4,548 | 9% |

| B. 2014 90-Day Readmissions for HAN Members with Asthma | HAN Members with Asthma who were Readmitted to the Hospital 90 Days after Previous Asthma-Related Hospitalization | HAN Members with Asthma with at least One Inpatient Stay Related to Asthma | Percent of HAN Members with Asthma who had a 90-Day Readmission for Related Asthma Condition(s) |
|---|---|--|---|
| OU Sooner HAN | 589 | 7,133 | 8% |
| PHCC HAN | 0 | 4 | 0% |
| OSU Network HAN | 2 | 66 | 3% |

| C. 2014 ER Use for HAN Members | ER Visits for HAN Members | Total HAN Members | Percent of ER Use for HAN Members |
|--------------------------------|---------------------------|-------------------|-----------------------------------|
| OU Sooner HAN | 29 | 504 | 6% |
| PHCC HAN | 1,938 | 5,273 | 37% |
| OSU Network HAN | 10,073 | 61,405 | 16% |

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 8 – This hypothesis directly relates to SoonerCare Choice waiver objective #3 and #3 of CMS’s Three Part Aim:

Reducing costs associated with the provision of health care services to SoonerCare beneficiaries served by the HANs.

- A. Average per member per month expenditures for members belonging to a HAN affiliated PCP will continue to be less than those members enrolled with non-HAN affiliated PCPs during the period of 2013-2015.*

| HAN Per Member Per Month Dates of Service for SFY 2013 | July 2013 | Aug 2013 | Sept 2013 | Oct 2013 | Nov 2013 | Dec 2013 | Jan 2014 | Feb 2014 | Mar 2014 | Apr 2014 | May 2014 | June 2014 |
|--|-----------|----------|-----------|----------|----------|----------|----------|----------|----------|----------|----------|-----------|
| HAN Members | \$295.86 | \$316.43 | \$295.77 | \$304.31 | \$282.98 | \$262.44 | \$312.61 | \$273.60 | \$289.47 | \$298.97 | \$292.06 | \$268.83 |
| Non-HAN Members | \$371.12 | \$293.59 | \$286.47 | \$391.41 | \$298.06 | \$261.84 | \$317.51 | \$267.06 | \$293.95 | \$408.11 | \$288.34 | \$274.17 |

Hypothesis 8 Results:

This hypothesis postulates that the average per member per month (PMPM) expenditure for HAN members will be less than the PMPM expenditure for non-HAN members. The SFY 2014 per member per month (PMPM) average for HAN members was \$291.09 while the PMPM average for non-HAN members was \$312.56. Although a few points in time the expenditure is slightly higher for HAN members, the overall totals for PMPM expenditures continue to be lower for SoonerCare members enrolled with a HAN PCP, than for SoonerCare members who are not enrolled with a HAN PCP. OHCA expects this trend to continue.

Hypothesis 9a – This hypothesis directly relates to SoonerCare Choice waiver objective #3, HMP objective #3, and #1 of CMS’s Three Part Aim:

The implementation of Phase II of the SoonerCare HMP, including introduction of physician office-based Health Coaches for nurse care managed members and closer alignment of nurse care management and practice facilitation, will yield increased enrollment and active participation (engagement) in the program.

- A. The percentage of SoonerCare members identified as qualified for nurse care management, who enroll and are actively engaged, will increase as compared to baseline.*
- B. The percentage of members actively engaged in nurse care management in relation to the providers’ total SoonerCare Choice panel.*

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 9a (A) Results:

| SoonerCare HMP Members in Nurse Care Management | Engaged in Nurse Care Management |
|---|----------------------------------|
| January 2014 | 3,674 |
| February 2014 | 4,329 |
| March 2014 | 5,040 |
| April 2014 | 5,621 |
| May 2014 | 5,493 |
| June 2014 | 5,360 |
| July 2014 | 5,057 |
| August 2014 | 4,900 |
| September 2014 | 4,745 |
| October 2014 | 4,628 |
| November 2014 | 4,544 |
| December 2014 | 4,370 |

| | | | |
|------------------------|-------|-------|---------------|
| SFY 2013 Baseline Data | 3,252 | 8,091 | 40.19% |
|------------------------|-------|-------|---------------|

This hypothesis posits that the percentage of SoonerCare members identified as qualified for nurse care management, who enroll and are actively engaged, will increase as compared to the baseline data. In July 2013, the methodology for identifying and reporting members eligible for and engaged in the HMP changed due to programmatic and contractual changes. OHCA is confident in the accuracy of the number of members engaged and in the total number of members assigned to HMP practices. However, the methodology used to count the number of members eligible for the HMP did not capture the total eligible population and the data is not available retrospectively. As a result, changes are being implemented and OHCA will begin reporting these numbers in the July-Sept 2015 quarterly report.

Hypothesis 9a (B) Results:

| Actively Engaged HMP Members Aligned with a Health Coach | Total SoonerCare Members Assigned to Panels of Practices with Health Coaches | Individuals Qualified for the HMP Program | Number of HMP Members Actively Engaged in Nurse Care Management | Percentage of HMP Members Aligned with a Health Coach who are Actively Engaged in Nurse Care Management |
|--|--|---|---|---|
| Members | 58,173 | Not available | 4,370 | 7.51%¹⁹ |

In July 2013, the methodology for identifying and reporting members eligible for and engaged in the HMP changed due to programmatic and contractual changes. OHCA is confident in the accuracy of the number of members engaged and in the total number of members assigned to HMP practices. However, the methodology used to count the number of members eligible for the HMP did not capture the total eligible population and the

¹⁹The percent of engaged members out of the total SoonerCare Choice panels who were participating in the HMP.

X. DEMONSTRATION EVALUATION (Cont'd)

data is not available retrospectively. As a result, changes are being implemented and OHCA will begin reporting these numbers in the July-Sept 2015 quarterly report.

Hypothesis 9b – This hypothesis directly relates to SoonerCare Choice waiver objective #3, HMP objective #4, and #1 of CMS's Three Part Aim:

The incorporation of Health Coaches into primary care practices will result in increased PCP contact with nurse care managed members, versus baseline for two successive years and a comparison group of qualified but not enrolled members.

Hypothesis 9b Results:

The Health Management Program (HMP) transitioned to Phase II of the program, Next Generation HMP, in July 2013.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 9c – This hypothesis directly relates to SoonerCare Choice waiver objective #3, HMP objective #2, and #2 of CMS's Three Part Aim:

The implementation of Phase II of the SoonerCare HMP, including introduction of physician office-based Health Coaches for nurse care managed members and closer alignment of nurse care management and practice facilitation will improve the process for identifying qualified members and result in an increase in average complexity of need within the nurse care managed population.

Hypothesis 9c Results:

For Hypothesis 9c, the Health Management Program (HMP) transitioned to Phase II of the program, Next Generation HMP, in July 2013.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 9c (A) Results:

This measure indicates the number of members in nurse care management with multiple chronic conditions. The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 9c (B) Results:

This measure provides the sum of chronic conditions across all members engaged at any time within a 12-month period.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 9c(C) Results:

This measure provides the number of HMP members with a chronic condition and at least one behavioral health condition.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 9c (D) Results:

This measure provides the sum of chronic impact scores across all HMP members engaged at any time in a 12-month period.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 9d – This hypothesis directly relates to SoonerCare Choice waiver objective #3, HMP objective #5, and #2 of CMS's Three Part Aim:

The use of a disease registry by Health Coaches will improve the quality of care for nurse care managed members.

Hypothesis 9d Results:

The Health Management Program (HMP) transitioned to Phase II of the program, Next Generation HMP, in July 2013.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 9e – This hypothesis directly relates to SoonerCare Choice waiver objective #3, HMP objective #1, and #2 of CMS's Three Part Aim:

Nurse care managed members will utilize the emergency room at a lower rate than members in a comparison group comprised of qualified but not enrolled members.

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 9e Results:

In accordance with OHCA's 2013-2015 Evaluation Design, this hypothesis relates to Phase II of the HMP program. The HMP program transitioned to Phase II of the program in July 2013.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 9f – This hypothesis directly relates to SoonerCare Choice waiver objective #3, HMP objective #1, and #2 of CMS's Three Part Aim:

Nurse care managed members will have fewer hospital admissions and readmissions than members in a comparison group comprised of qualified but not enrolled members.

Hypothesis 9f Results:

In accordance with OHCA's 2013-2015 Evaluation Design, this hypothesis relates to Phase II of the HMP program. The HMP program transitioned to Phase II of the program in July 2013.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 9g – This hypothesis directly relates to SoonerCare Choice waiver objective #3, HMP objective #3, and #2 of CMS's Three Part Aim:

Nurse care managed members will report higher levels of satisfaction with their care than members in a comparison group comprised of qualified but not engaged members.

Hypothesis 9g Results:

In accordance with OHCA's 2013-2015 Evaluation Design, this hypothesis relates to Phase II of the HMP program. The HMP program transitioned to Phase II of the program in July 2013.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 9h – This hypothesis directly relates to SoonerCare Choice waiver objective #3, HMP objective #1, and #3 of CMS's Three Part Aim:

Total and PMPM expenditures for members enrolled in HMP will be lower than would have occurred absent their participation in nurse care management.

X. DEMONSTRATION EVALUATION (Cont'd)

Hypothesis 9h Results:

In accordance with OHCA's 2013-2015 Evaluation Design, this hypothesis relates to Phase II of the HMP program. The HMP program transitioned to Phase II of the program in July 2013.

The contract to evaluate the HMP was renewed in 2014, which resulted in the timeline for report deliverables being altered. Annual evaluation reports are now due to OHCA by June 30 of each year to evaluate the work performed during the previous fiscal year. The data necessary to provide outcome for hypothesis 9b-9h are reported in the claims analysis portion of the annual evaluation report, which will not be available until June 30, 2015. The measures in this hypothesis will be updated in the July-Sept 2015 quarterly report.

Hypothesis 10 – This hypothesis directly relates to SoonerCare Choice waiver objective #5 and #1 of CMS's Three Part Aim:

The state's systems performance will ensure seamless coverage between Medicaid and the Marketplace after changes outlined in the Affordable Care Act are effectuated.

Hypothesis 10 Results:

| A. Eligibility Determinations | October 2014 | November 2014 | December 2014 |
|---|--------------|---------------|---------------|
| MAGI Determination – Qualified | 70,525 | 46,218 | 50,859 |
| Determined Qualified – Direct or Transfer Application | 29,750 | 22,745 | 24,028 |
| Determined Qualified at Annual Renewal | 40,775 | 23,473 | 26,831 |

| B. Individuals Determined Not Qualified | October 2014 | November 2014 | December 2014 |
|---|--------------|---------------|---------------|
| Ineligibility Established | 24,137 | 15,213 | 12,652 |
| Inadequate Documentation | 2,790 | 2,900 | 2,313 |

| C. Individuals Disenrolled | October 2014 | November 2014 | December 2014 |
|---|--------------|---------------|---------------|
| Determined Not Qualified at Application (new applicant) | 9,983 | 8,873 | 7,318 |
| Determined Not Qualified at Annual Renewal (current member) | 14,154 | 9,400 | 7,647 |

This hypothesis postulates that the OHCA will ensure seamless coverage between Medicaid and the Marketplace after federal changes are effectuated. OHCA went live with outbound (State to Hub) account transfers on January 23, 2014. The outbound account transfer includes all individuals who are found not qualified for full-benefit Medicaid. Between January 2014 and December 2014, OHCA had some 373,000 applications queued up for the outbound account transfer.

Inbound (Hub to State) account transfers had a go-live date of February 12, 2014. This includes all individuals who apply through the federally facilitated marketplace who are assessed as 'potentially qualified' for full-benefit Medicaid. Approximately 36,000 applications were queued to be sent to OHCA between February 2014 and December 2014.

XI. APPENDICES

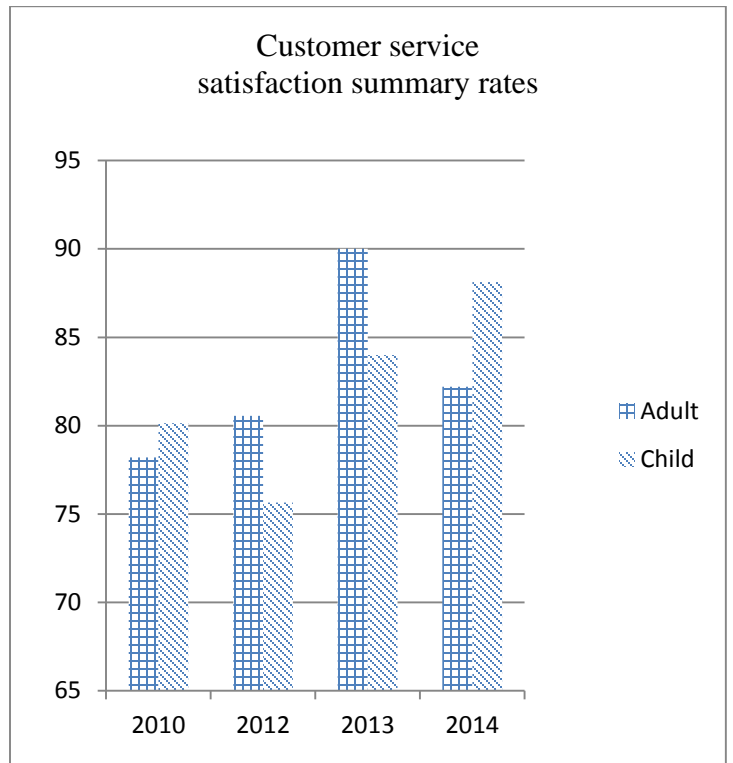

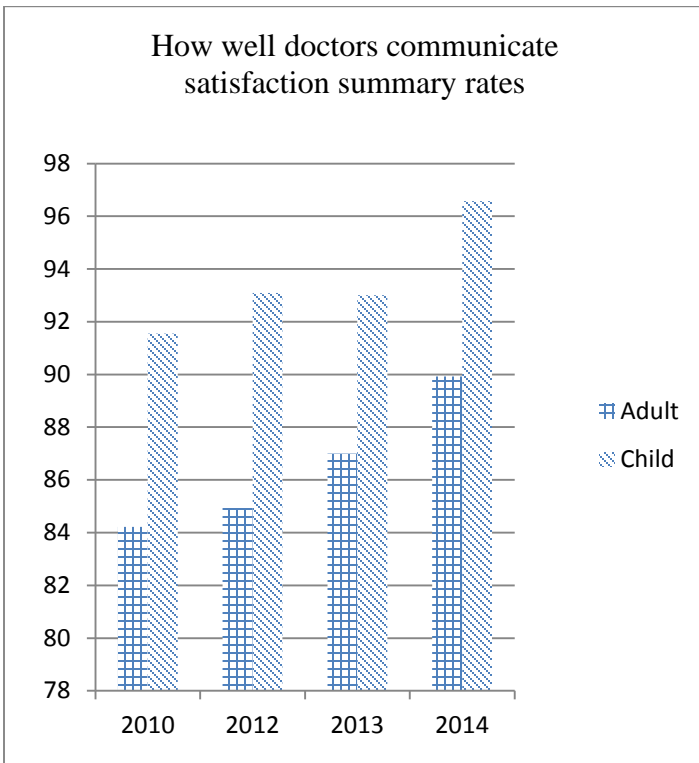

Appendix A

CAHPS® 5.0 Medicaid Adult and Child Member Satisfaction Surveys

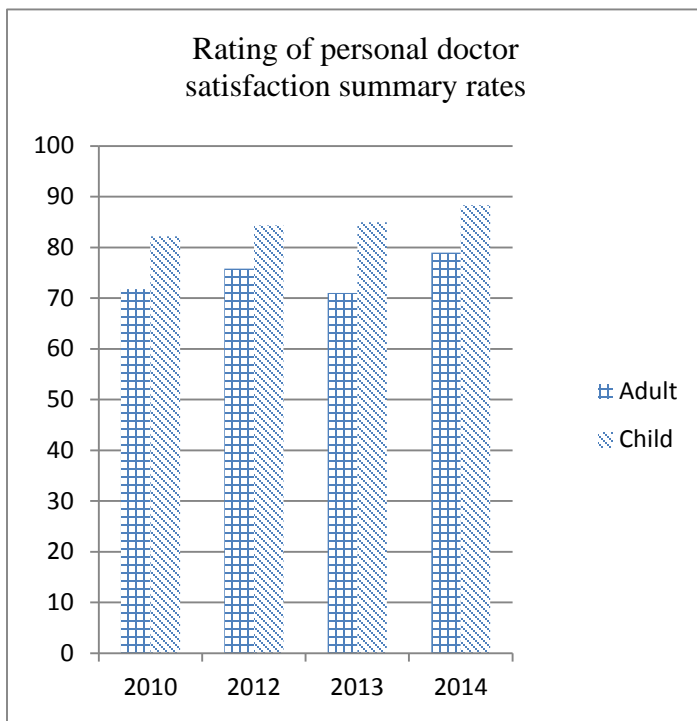

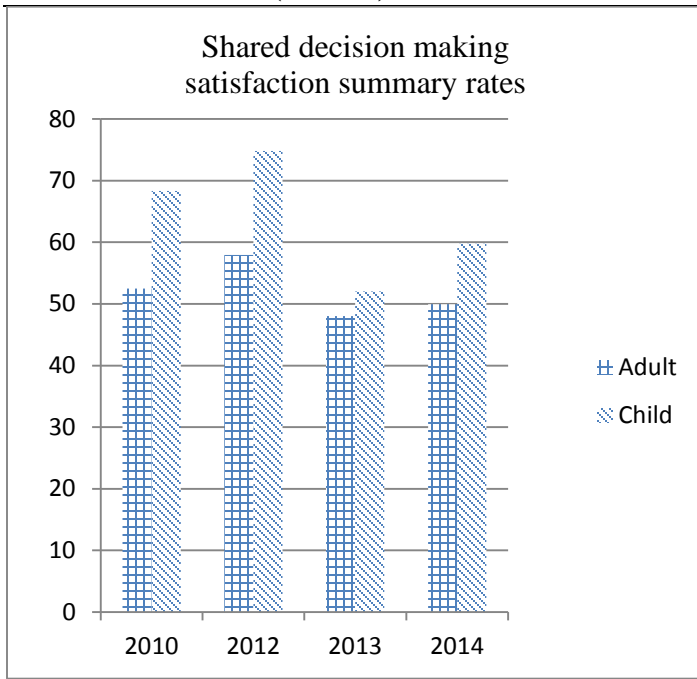

| CAHPS® Adult Survey Reporting Measures | 2010 Summary Rate | 2012 Summary Rate | 2013 Summary Rate | 2014 Summary Rate |
|--|-------------------|-------------------|-------------------|-------------------|
| Getting Needed Care | 77.82% | 80.58% | 79.98% | 82.12% |
| Getting Care Quickly | 81.76% | 82.47% | 79.37% | 82.33% |
| How Well Doctors Communicate | 84.22% | 84.93% | 87.12% | 89.92% |
| Customer Service | 78.21% | 80.56% | 90.34% | 82.20% |
| Shared Decision Making | 52.50% | 57.95% | 47.81% | 49.95% |
| Rating of Health Care | 61.62% | 66.12% | 64.02% | 68.38% |
| Rating of Personal Doctor | 71.77% | 75.80% | 70.73% | 78.95% |
| Rating of Specialist | 74.90% | 79.08% | 74.52% | 82.54% |
| Rating of Health Plan | 64.32% | 68.41% | 61.34% | 73.10% |

| CAHPS® Child Survey Reporting Measures | 2010 Summary Rate | 2012 Summary Rate | 2013 Summary Rate | 2014 Summary Rate |
|--|-------------------|-------------------|-------------------|-------------------|
| Getting Needed Care | 80.04% | 85.75% | 88.73% | 89.04% |
| Getting Care Quickly | 87.13% | 92.70% | 92.74% | 92.12% |
| How Well Doctors Communicate | 91.55% | 93.09% | 93.31% | 96.57% |
| Customer Service | 80.14% | 75.65% | 83.84% | 88.13% |
| Shared Decision Making | 68.31% | 74.82% | 52.45% | 59.75% |
| Rating of Health Care | 78.13% | 85.15% | 82.00% | 85.06% |
| Rating of Personal Doctor | 82.17% | 84.32% | 85.20% | 88.31% |
| Rating of Specialist | 84.69% | 83.49% | 89.33% | 88.73% |
| Rating of Health Plan | 78.40% | 83.85% | 84.05% | 86.17% |
