Program History.

For renewal waivers, please provide a brief history of the program(s) authorized under the waiver. Include implementation date and major milestones (phase-in timeframe; new populations added; major new features of existing program; new programs added).

Under the State's Title XIX State Plan fee-for-service Medicaid non-emergency transportation program, a beneficiary was allowed to arrange his/her own transportation to/from Medicaid covered services with any Medicaid enrolled non-emergency transportation provider. Medicaid enrolled non-emergency transportation providers included taxicabs, wheelchair vans and buses. Volunteer non-emergency transportation providers did not enroll, but they were required to register with the Division of Medical Services (DMS).

Under the State's Section 1915(b)(4) waiver for Medicaid non-emergency transportation (NET), Medicaid beneficiaries must arrange non-emergency medical transportation through the single Prepaid Ambulatory Health Plan (PAHP) that is contracted to broker non-emergency transportation services for the region in which the PAHP resides.

On 8/26/1998, CMS approved Arkansas' request for a waiver of the freedom-of-choice requirement in Section 1902(a)(23) of the Social Security Act. The waiver allows the State to selectively contract with regional PAHPs. Medicaid beneficiaries whose coverage includes transportation are automatically enrolled with their single regional PAHP. The Medicaid State Agency pays each PAHP a monthly capitated rate that is based on the number of Medicaid eligible residing in the PAHP's region.

The initial approval period of the NET 1115(b)(4) waiver was 8/26/1998 - 8/25/2000. This initial approval period was extended by CMS for an additional 12 months (through 8/25/2001). The first 2-year renewal of the NET waiver was for the period 8/26/2001 - 8/25/2003 that was extended by CMS for an additional 2 months and 27 days (through 11/21/2003) while the review/approval process was being completed. Since the initial approval in August 1998, the NET 1115(b)(4) waiver has been renewed a total of eight 2-year renewals. This renewal application will be the ninth 2-year renewal (10/1/2016 - 9/30/2019).

During the first 2-year renewal period, a number of NET-related actions and events took place as well as some new requirements and initiatives:

- 1.) For state fiscal year 2001, an administrative decision was made to pay, retroactively, a full month's capitation for beneficiaries who were eligible for 14 or more days during the month. This capitation policy continues. Previously, a month's rate was paid for each beneficiary eligible on the last day of the month, regardless of the total number of days of eligibility.
- 2.) In 2002, the Arkansas General Assembly ordered the Medicaid State Agency to increase payments to PAHPs because the number of eligible had increased. The capitation rate per eligible remained unchanged until it was increased in 2011.
- 3.) The Medicaid State Agency began conducting outreach throughout the state, making presentations to various stakeholder groups.
- 4.) In another initiative, the Medicaid State Agency combined provider relations, outreach and performance monitoring. This is accomplished by visiting, monthly at a minimum, but as often as is needed, medical providers, PAHPs and DHS local county offices in every region.

- 5.) The Medicaid State Agency began requiring PAHPs to submit monthly their complaint logs with complaint resolutions noted.
- 6.) The Medicaid State Agency began requiring PAHPs to respond to every complaint or inquiry within 24 hours of its receipt.
- 7.) The Medicaid State Agency began requiring PAHPs to regularly submit vehicle maintenance reports.
- 8.) Monitors employed by the Medicaid State Agency began regularly inspection providers' vehicles.
- 9.) Medicaid Managed Care Services (MMCS), a division of Arkansas Foundation for Medical CARE (AFMC) is the contract agent that operates the consumer helpline, conducts consumer satisfaction surveys and outreach activities. MMCS also prints and distributes Medicaid Non-Emergency Transportation (NET) bumper stickers to its NET brokers and brokers' sub-contractors that must be prominently displayed providing a toll-free telephone number to report any complaints or to make comments or ask questions. At this toll-free number, individuals can call and obtain information regarding the NET program and how they can utilize the service. They can also call and report positive/negative feedback regarding the service they've received. This toll-free number is also a means of reporting unsafe or improper driving that is observed by other drivers on the roadways.
- 10.) Drivers are now required to wear name tags prominently displayed and readable.
- 11.) Certification in CPR and First Aid is now required of all drivers and must be renewed upon expiration every two years.
- 12.) Effective SFY 2004, the Medicaid State Agency contracted with Medicaid Managed Care Services (MMCS) to perform the monitoring function for the State's 1115 (b)(4) NET waiver.

 NET Waiver
 - b. **1915(b)(2)** - A locality will act as a central broker (agent, facilitator, negotiator) in assisting eligible individuals in choosing among PCCMs or competing MCOs/PIHPs/PAHPs in order to provide enrollees with more information about the range of health care options open to them.
-- *Specify Program Instance(s) applicable to this authority*
 NET Waiver
 - c. **1915(b)(3)** - The State will share cost savings resulting from the use of more cost-effective medical care with enrollees by providing them with additional services. The savings must be expended for the benefit of the Medicaid beneficiary enrolled in the waiver. Note: this can only be requested in conjunction with section 1915(b)(1) or (b)(4) authority.

 NET Waiver
 - d. **1915(b)(4)** - The State requires enrollees to obtain services only from specified providers who undertake to provide such services and meet reimbursement, quality, and utilization standards which are consistent with access, quality, and efficient and economic provision of covered care and services. B. Delivery Systems (1 of 3)

1. Delivery Systems. The State will be using the following systems to deliver services:

- a. **MCO:** Risk-comprehensive contracts are fully-capitated and require that the contractor be an MCO or HIO. Comprehensive means that the contractor is at risk for inpatient hospital services and any other mandatory State plan service in section 1905(a), or any three or more mandatory services in that section. References in this preprint to MCOs generally apply to these risk-comprehensive entities.
- b. **PIHP:** Prepaid Inpatient Health Plan means an entity that: (1) provides medical services to enrollees under contract with the State agency, and on the basis of prepaid capitation payments or other payment arrangements that do not use State Plan payment rates; (2) provides, arranges for, or otherwise has responsibility for the provision of any inpatient hospital or institutional services for its enrollees; and (3) does not have a comprehensive risk contract. Note: this includes MCOs paid on a non-risk basis.
- The PIHP is paid on a risk basis**
- The PIHP is paid on a non-risk basis**
- c. **PAHP:** Prepaid Ambulatory Health Plan means an entity that: (1) provides medical services to enrollees under contract with the State agency, and on the basis of prepaid capitation payments, or other payment arrangements that do not use State Plan payment rates; (2) does not provide or arrange for, and is not otherwise responsible for the provision of any inpatient hospital or institutional services for its enrollees; and (3) does not have a comprehensive risk contract. This includes capitated PCCMs.
- The PAHP is paid on a risk basis**
- The PAHP is paid on a non-risk basis**
- d. **PCCM:** A system under which a primary care case manager contracts with the State to furnish case management services. Reimbursement is on a fee-for-service basis. Note: a capitated PCCM is a PAHP.
- e. **Fee-for-service (FFS) selective contracting:** State contracts with specified providers who are willing to meet certain reimbursement, quality, and utilization standards.

Section A: Program Description**Part I: Program Overview****C. Choice of MCOs, PIHPs, PAHPs, and PCCMs (1 of 3)****1. Assurances.**

- The State assures CMS that it complies with section 1932(a)(3) of the Act and 42 CFR 438.52, which require that a State that mandates Medicaid beneficiaries to enroll in an MCO, PIHP, PAHP, or PCCM must give those beneficiaries a choice of at least two entities.
- The State seeks a waiver of section 1932(a)(3) of the Act, which requires States to offer a choice of more than one PIHP or PAHP per 42 CFR 438.52. Please describe how the State will ensure this lack of choice of PIHP or PAHP is not detrimental to beneficiaries' ability to access services.

The lack of choice of PAHP is not detrimental to Medicaid beneficiaries' ability to access services because the non-emergency medical transportation broker (PAHP) has a contractual obligation to ensure safe, courteous and punctual pick-up and to transport and deliver in accordance with Arkansas Medicaid regulations each beneficiary in the broker's region who requests covered non-emergency medical transportation. The State further provides adequate safeguards and monitoring to ensure that PAHPs meet their contractual obligations.

Each Medicaid beneficiary is automatically enrolled with the PAHP (non-emergency medical transportation broker) responsible for non-emergency medical transportation in the region/county in which the beneficiary resides.

2. Details. The State will provide enrollees with the following choices (please replicate for each program in waiver):

Program: " Arkansas Non-Emergency Transportation 1915(b)(4) Waiver Renewal (10/01/2017 - 09/30/2019). "

- Two or more MCOs
- Two or more primary care providers within one PCCM system.
- A PCCM or one or more MCOs
- Two or more PIHPs.
- Two or more PAHPs.

Section A: Program Description**Part I: Program Overview****C. Choice of MCOs, PIHPs, PAHPs, and PCCMs (2 of 3)****3. Rural Exception.**

- The State seeks an exception for rural area residents under section 1932(a)(3)(B) of the Act and 42 CFR 438.52 (b), and assures CMS that it will meet the requirements in that regulation, including choice of physicians or case managers, and ability to go out of network in specified circumstances. The State will use the rural exception in the following areas ("rural area" must be defined as any area other than an "urban area" as defined in 42 CFR 412.62 (f)(1)(ii)):

4. 1915(b)(4) Selective Contracting.

c. Enrollment . The State has indicated which populations are mandatorily enrolled and which may enroll on a voluntary basis in Section A.I.E.

This is a **new** program.

Please describe the **implementation schedule** (e.g. implemented statewide all at once; phased in by area; phased in by population, etc.):

This is an **existing program** that will be expanded during the renewal period.

Please describe: Please describe the **implementation schedule** (e.g. new population implemented statewide all at once; phased in by area; phased in by population, etc.):

If a potential enrollee **does not select** an MCO/PIHP/PAHP or PCCM within the given time frame, the potential enrollee will be **auto-assigned** or default assigned to a plan.

i.

Potential enrollees will have **day(s)** / **month(s)** to choose a plan.

ii. There is an auto-assignment process or algorithm.

In the description please indicate the factors considered and whether or not the auto-assignment process assigns persons with special health care needs to an MCO/PIHP/PAHP/PCCM who is their current provider or who is capable of serving their particular needs:

The State automatically enrolls beneficiaries.

on a mandatory basis into a single MCO, PIHP, or PAHP in a rural area (please also check item A.I.C.3).

on a mandatory basis into a single PIHP or PAHP for which it has requested a waiver of the requirement of choice of plans (please also check item A.I.C.1).

on a voluntary basis into a single MCO, PIHP, or PAHP. The State must first offer the beneficiary a choice. If the beneficiary does not choose, the State may enroll the beneficiary as long as the beneficiary can opt out at any time without cause.

Please specify geographic areas where this occurs:

- The State provides **guaranteed eligibility** of months (maximum of 6 months permitted) for MCO/PCCM enrollees under the State plan.
- The State allows otherwise mandated beneficiaries to request **exemption** from enrollment in an MCO/PIHP/PAHP/PCCM.

Please describe the circumstances under which a beneficiary would be eligible for exemption from enrollment. In addition, please describe the exemption process:

- The State **automatically re-enrolls** a beneficiary with the same PCCM or MCO/PIHP/PAHP if there is a loss of Medicaid eligibility of 2 months or less.

C. Enrollment and Disenrollment (5 of 6)

2. Details (Continued)

d. Disenrollment

- The State allows enrollees to **disenroll** from/transfer between MCOs/PIHPs/PAHPs and PCCMs. Regardless of whether plan or State makes the determination, determination must be made no later than the first day of the second month following the month in which the enrollee or plan files the request. If determination is not made within this time frame, the request is deemed approved.
- i. Enrollee submits request to State.
 - ii. Enrollee submits request to MCO/PIHP/PAHP/PCCM. The entity may approve the request, or refer it to the State. The entity may not disapprove the request.
 - iii. Enrollee must seek redress through MCO/PIHP/PAHP/PCCM grievance procedure before determination will be made on disenrollment request.
- The State **does not permit disenrollment** from a single PIHP/PAHP (authority under 1902 (a)(4) authority must be requested), or from an MCO, PIHP, or PAHP in a rural area.
- The State has a **lock-in** period (i.e. requires continuous enrollment with MCO/PIHP/PAHP/PCCM) of months (up to 12 months permitted). If so, the State assures it meets the requirements of 42 CFR 438.56(c).

Please describe the good cause reasons for which an enrollee may request disenrollment during the lock-in period (in addition to required good cause reasons of poor quality of care, lack of access to covered services, and lack of access to providers experienced in dealing with enrollee's health care needs):

- The State does not have a **lock-in**, and enrollees in MCOs/PIHPs/PAHPs and PCCMs are allowed to terminate or change their enrollment without cause at any time. The disenrollment/transfer is effective no later than the first day of the second month following the request.
- The State permits **MCOs/PIHPs/PAHPs and PCCMs to request disenrollment** of enrollees.
- i. MCO/PIHP/PAHP and PCCM can request reassignment of an enrollee.

Please describe the reasons for which enrollees can request reassignment

-
- ii. The State reviews and approves all MCO/PIHP/PAHP/PCCM-initiated requests for enrollee transfers or disenrollments.
 - iii. If the reassignment is approved, the State notifies the enrollee in a direct and timely manner of the desire of the MCO/PIHP/PAHP/PCCM to remove the enrollee from its membership or from the PCCM's caseload.
 - iv. The enrollee remains an enrollee of the MCO/PIHP/PAHP/PCCM until another MCO/PIHP/PAHP/PCCM is chosen or assigned.

Please check each of the monitoring activities below used by the State. A number of common activities are listed below, but the State may identify any others it uses. If federal regulations require a given activity, this is indicated just after the name of the activity. If the State does not use a required activity, it must explain why.

For each activity, the state must provide the following information:

- Personnel responsible (e.g. state Medicaid, other state agency, delegated to plan, EQR, other contractor)
- Detailed description of activity
- Frequency of use
- How it yields information about the area(s) being monitored

- a. **Accreditation for Non-duplication** (i.e. if the contractor is accredited by an organization to meet certain access, structure/operation, and/or quality improvement standards, and the state determines that the organization’s standards are at least as stringent as the state-specific standards required in 42 CFR 438 Subpart D, the state deems the contractor to be in compliance with the state-specific standards)

Section C: Monitoring Results

Renewal Waiver Request

Section 1915(b) of the Act and 42 CFR 431.55 require that the State must document and maintain data regarding the effect of the waiver on the accessibility and quality of services as well as the anticipated impact of the project on the State's Medicaid program. In Section B of this waiver preprint, the State describes how it will assure these requirements are met. For an initial waiver request, the State provides assurance in this Section C that it will report on the results of its monitoring plan when it submits its waiver renewal request. For a renewal request, the State provides evidence that waiver requirements were met for the most recent waiver period. Please use Section D to provide evidence of cost-effectiveness.

CMS uses a multi-pronged effort to monitor waiver programs, including rate and contract review, site visits, reviews of External Quality Review reports on MCOs/PIHPs, and reviews of Independent Assessments. CMS will use the results of these activities and reports along with this Section to evaluate whether the Program Impact, Access, and Quality requirements of the waiver were met.

This is a renewal request.

- This is the first time the State is using this waiver format to renew an existing waiver.** The State provides below the results of the monitoring activities conducted during the previous waiver period.
- The State has used this format previously** The State provides below the results of the monitoring activities conducted during the previous waiver period.

For each of the monitoring activities checked in Section B of the previous waiver request, the State should:

- **Confirm** it was conducted as described in Section B of the previous waiver preprint. If it was not done as described, please explain why.
- **Summarize the results** or findings of each activity. CMS may request detailed results as appropriate.
- **Identify problems** found, if any.
- **Describe plan/provider-level corrective action**, if any, that was taken. The State need not identify the provider/plan by name, but must provide the rest of the required information.
- **Describe system-level program changes**, if any, made as a result of monitoring findings.

The Monitoring Activities were conducted as described:

Yes **No**

If No, please explain:

Provide the results of the monitoring activities:

ACTIVITY - Consumer Self-Report Data (this is Item c. in Section B): The most recent period the NET beneficiary survey covers is 1/1/16 - 6/30/16. The overall results demonstrated an insignificant decrease in total satisfaction composite when compared w/ the results of the previous survey conducted in 2014. Survey results can be found online at <https://afmc.org/health-care-professionals/arkansas-medicaid-providers/surveys-and-reporting/>.

PROBLEMS IDENTIFIED: The overall rating of NET brokers, the rides & NET services decreased from 2014, however this decrease was not significant. There were insignificant decreases in beneficiary satisfaction in the composite "Ease of getting a ride" & each of its components "ride scheduled w/ one phone call", "need of doctor's approval to schedule ride" & "difficulty scheduling ride because spoke different languages".

CORRECTIVE ACTION:(plan/provider level): NOT APPLICABLE, as the survey results were based on beneficiaries' opinions & not actual facts.

PROGRAM CHANGE (system-level): None

ACTIVITY - Data Analysis (non-claims)(this is Item d. in Section B): Information on results of monitoring data analysis and activities is available at <https://afmc.org/health-care-professionals/arkansas-medicaid-providers/net/>

PROBLEMS IDENTIFIED: None

CORRECTIVE ACTION (plan/provider level): None

PROGRAM CHANGE (system-level): None

ACTIVITY - Enrollee Hotlines (this is Item e. in Section B): MMCS manages a NET Helpline. Periodic reporting is provided to DMS on a quarterly basis. The data collected by the Helpline helps DMS evaluate program access & effectiveness & to identify ways to improve service quality. In the calendar year 2016, NET Helpline averaged 1,363 calls per quarter; 96% of the calls were inquiries, & 4% were related to specific issues.

PROBLEMS IDENTIFIED: Two top complaints were 1) Other issues & concerns & 2) No pick-up at residence.

CORRECTIVE ACTION (plan/provider level): NET beneficiary &/or PAHP broker/sub-contracted NET transportation provider education was provided.

PROGRAM CHANGE (system-level): None

ACTIVITY - Network Adequacy Assurance by Plan [Required for MCO/PIHP/PAHP] (this is Item j. in Section B): State monitors encounter data & denial information to evaluate the utilization of transportation services in the NET program. The denials & complaints received by the Helpline are reviewed routinely by MMCS & DMS to ensure beneficiaries are not being denied by the PAHP broker in order to manipulate the capitation system. MMCS' monthly, quarterly & annual reports, based on the Helpline documentation, provides DMS w/ regular status updates to support DMS staff's role in the processes of evaluating access & effectiveness to aid in identifying quality improvement strategies. MMCS distributes the reports to PAHP brokers & sub-contracted NET transportation providers regarding performance. NET Performance Profiles are posted online.

PROBLEMS IDENTIFIED: Based on the NET denial & complaint, no issue was left unresolved.

CORRECTIVE ACTION (plan/provider level): For most issues, corrective action involved the education of PAHP brokers, sub-contracted NET transportation providers &/or beneficiaries. Most issues were resolved immediately after the identification of the issue/problem.

PROGRAM CHANGE (system-level): None

ACTIVITY - On-site Review (this is Item l. in Section B): MMCS monitors transporting of NET beneficiaries during pick-up & drop-off process at the original point of destination (residence), the facilities & medical appointments. Safety factors are observed, such as proper utilization of child safety buzzers, proper placement & installation of rear-facing infant seats, child safety seats & booster seats, as well as loading & unloading of wheelchairs & wheelchair securement. Periodic scheduled & non-scheduled onsite inspections take place by the NET vehicle monitor of the sub-contracted transportation providers' vehicles. NET transportation providers must submit a copy of their inspections to MMCS. The information is entered into a database for tracking. MMCS makes announced & unannounced visits to NET brokers' & transportation providers' business locations to review records, written policies, other required documentation & procedures & listen to call center representatives answer questions & take reservations for quality of service. MMCS' last NET beneficiary satisfaction survey for the period 1/1/16 - 6/30/16 indicated 75% of beneficiaries were satisfied w/ the NET program; 89% were satisfied w/ the timeliness & reliability of the NET transportation drivers; 92% were satisfied w/ the courtesy of drivers and staff and 93% were satisfied w/ the safety of transport/riders.

PROBLEMS IDENTIFIED: Various vehicle infractions that were noted were corrected under the guidance of the MMCS vehicle monitor. Statutory review of Federal & State laws regarding vehicle-operating condition & required safety equipment to reinforce importance of passenger safety were shared w/ NET brokers to increase compliance. Isolated improper utilization of wheelchair lift operations were noted w/ re-training for drivers & attendants to correct the issue. Safety factors are our highest priority.

CORRECTIVE ACTION (plan/provider level): Validation of trip logs, review of policies & procedures, review of performance profiles & improvement recommendations & validation of training of NET transportation providers' new employees at time of hire & continued training thereafter are reviewed.

PROGRAM CHANGE (system-level): None

A. Assurances

a. [Required] Through the submission of this waiver, the State assures CMS:

- The fiscal staff in the Medicaid agency has reviewed these calculations for accuracy and attests to their correctness.
- The State assures CMS that the actual waiver costs will be less than or equal to or the State’s waiver cost projection.
- Capitated rates will be set following the requirements of 42 CFR 438.6(c) and will be submitted to the CMS Regional Office for approval.
- Capitated 1915(b)(3) services will be set in an actuarially sound manner based only on approved 1915(b)(3) services and their administration subject to CMS RO prior approval.
- The State will monitor, on a regular basis, the cost-effectiveness of the waiver (for example, the State may compare the PMPM Actual Waiver Cost from the CMS 64 to the approved Waiver Cost Projections). If changes are needed, the State will submit a prospective amendment modifying the Waiver Cost Projections.
- The State will submit quarterly actual member month enrollment statistics by MEG in conjunction with the State’s submitted CMS-64 forms.

- date of payment.**
- date of service within date of payment. The State understands the additional reporting requirements in the CMS-64 and has used the cost effectiveness spreadsheets designed specifically for reporting by date of service within day of payment. The State will submit an initial test upon the first renewal and then an initial and final test (for the preceding 4 years) upon the second renewal and thereafter.**

B. Expedited or Comprehensive Test

To provide information on the waiver program to determine whether the waiver will be subject to the Expedited or Comprehensive cost effectiveness test. *Note: All waivers, even those eligible for the Expedited test, are subject to further review at the discretion of CMS and OMB.*

- b.** The State provides additional services under 1915(b)(3) authority.
- c.** The State makes enhanced payments to contractors or providers.
- d.** The State uses a sole-source procurement process to procure State Plan services under this waiver.
- e.** The State uses a sole-source procurement process to procure State Plan services under this waiver. *Note: do not mark this box if this is a waiver for transportation services and dental pre-paid ambulatory health plans (PAHPs) that has overlapping populations with another waiver meeting one of these three criteria. For transportation and dental waivers alone, States do not need to consider an overlapping population with another waiver containing additional services, enhanced payments, or sole source procurement as a trigger for the comprehensive waiver test. However, if the transportation services or dental PAHP waiver meets the criteria in a, b, or c for additional services, enhanced payments, or sole source procurement then the State should mark the appropriate box and process the waiver using the Comprehensive Test.*

If you marked any of the above, you must complete the entire preprint and your renewal waiver is subject to the Comprehensive Test. If you did not mark any of the above, your renewal waiver (not conversion or initial waiver) is subject to the Expedited Test:

- Do not complete *Appendix D3*
- Your waiver will not be reviewed by OMB *at the discretion of CMS and OMB.*

The following questions are to be completed in conjunction with the Worksheet Appendices. All narrative explanations should be included in the preprint. Where further clarification was needed, we have included additional information in the preprint.

D. PCCM portion of the waiver only: Reimbursement of PCCM Providers

Under this waiver, providers are reimbursed on a fee-for-service basis. PCCMs are reimbursed for patient management in the following manner (please check and describe):

- a. **Management fees are expected to be paid under this waiver.**
 The management fees were calculated as follows.
 - 1. Year 1: \$ per member per month fee.
 - 2. Year 2: \$ per member per month fee.
 - 3. Year 3: \$ per member per month fee.
 - 4. Year 4: \$ per member per month fee.
- b. **Enhanced fee for primary care services.**
 Please explain which services will be affected by enhanced fees and how the amount of the enhancement was determined.
- c. **Bonus payments from savings generated under the program are paid to case managers who control beneficiary utilization.** Under **D.I.H.d.**, please describe the criteria the State will use for awarding the incentive payments, the method for calculating incentives/bonuses, and the monitoring the State will have in place to ensure that total payments to the providers do not exceed the Waiver Cost Projections (Appendix D5). Bonus payments and incentives for reducing utilization are limited to savings of State Plan service costs under the waiver. Please also describe how the State will ensure that utilization is not adversely affected due to incentives inherent in the bonus payments. The costs associated with any bonus arrangements must be accounted for in Appendix D3. Actual Waiver Cost.
- d. **Other reimbursement method/amount.**
 \$
 Please explain the State's rationale for determining this method or amount.

E. Member Months

Please mark all that apply.

- a. [Required] Population in the base year and R1 and R2 data is the population under the waiver.

- b. For a renewal waiver, because of the timing of the waiver renewal submittal, the State did not have a complete R2 to submit. Please ensure that the formulas correctly calculated the annualized trend rates. *Note: it is no longer acceptable to estimate enrollment or cost data for R2 of the previous waiver period.*
- c. [Required] Explain the reason for any increase or decrease in member months projections from the base year or over time:
The State experienced a period of growth in NET member months in the retrospective period
- d. [Required] Explain any other variance in eligible member months from BY/R1 to P2:
Historic growth trends have been applied to forecast member months in the prospective period
- e. [Required] Specify whether the BY/R1/R2 is a State fiscal year (SFY), Federal fiscal year (FFY), or other period:

F. Appendix D2.S - Services in Actual Waiver Cost

For Conversion or Renewal Waivers:

- a. [Required] Explain if different services are included in the Actual Waiver Cost from the previous period in Appendix D3 than for the upcoming waiver period in Appendix D5.
Explain the differences here and how the adjustments were made on Appendix D5:

- b. [Required] Explain the exclusion of any services from the cost-effectiveness analysis.
For States with multiple waivers serving a single beneficiary, please document how all costs for waiver covered individuals taken into account.

Section D: Cost-Effectiveness

Part I: State Completion Section

G. Appendix D2.A - Administration in Actual Waiver Cost

[Required] The State allocated administrative costs between the Fee-for-service and managed care program depending upon the program structure. *Note: initial programs will enter only FFS costs in the BY. Renewal and Conversion waivers will enter all waiver and FFS administrative costs in the R1 and R2 or BY.*

The allocation method for either initial or renewal waivers is explained below:

- a. The State allocates the administrative costs to the managed care program based upon the number of waiver enrollees as a percentage of total Medicaid enrollees *Note: this is appropriate for MCO/PCCM programs.*
- b. The State allocates administrative costs based upon the program cost as a percentage of the total Medicaid budget. It would not be appropriate to allocate the administrative cost of a mental health program based upon the percentage of enrollees enrolled. *Note: this is appropriate for statewide PIHP/PAHP programs.*

Part I: State Completion Section

H. Appendix D3 - Actual Waiver Cost

- a. The State is requesting a 1915(b)(3) waiver in **Section A.I.A.1.c** and will be providing non-state plan medical services. The State will be spending a portion of its waiver savings for additional services under the waiver.

- b. **The State is including voluntary populations in the waiver.**

Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

- c. **Capitated portion of the waiver only -- Reinsurance or Stop/Loss Coverage:** Please note how the State will be providing or requiring reinsurance or stop/loss coverage as required under the regulation. States may require MCOs/PIHPs/PAHPs to purchase reinsurance. Similarly, States may provide stop-loss coverage to MCOs/PIHPs/PAHPs when MCOs/PIHPs/PAHPs exceed certain payment thresholds for individual enrollees. Stop loss provisions usually set limits on maximum days of coverage or number of services for which the MCO/PIHP/PAHP will be responsible. If the State plans to provide stop/loss coverage, a description is required. The State must document the probability of incurring costs in excess of the stop/loss level and the frequency of such occurrence based on FFS experience. The expenses per capita (also known as the stoploss premium amount) should be deducted from the capitation year projected costs. In the initial application, the effect should be neutral. In the renewal report, the actual reinsurance cost and claims cost should be reported in Actual Waiver Cost.

Basis and Method:

1. **The State does not provide stop/loss protection for MCOs/PIHPs/PAHPs, but requires MCOs/PIHPs/PAHPs to purchase reinsurance coverage privately. No adjustment was necessary.**

2. **The State provides stop/loss protection**

Describe below how the issue of selection bias has been addressed in the Actual Waiver Cost calculations:

- d. **Incentive/bonus/enhanced Payments for both Capitated and fee-for-service Programs:**

1. **[For the capitated portion of the waiver] the total payments under a capitated contract include any incentives the State provides in addition to capitated payments under the waiver program.** The costs associated with any bonus arrangements must be accounted for in the capitated costs (Column D of Appendix D3 Actual Waiver Cost). Regular State Plan service capitated adjustments would apply.

Document

- i. **Document the criteria for awarding the incentive payments.**
- ii. **Document the method for calculating incentives/bonuses, and**
- iii. **Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs do not exceed the Waiver Cost Projection.**

2. **For the fee-for-service portion of the waiver, all fee-for-service must be accounted for in the fee-for-service incentive costs (Column G of Appendix D3 Actual Waiver Cost).)** For PCCM providers, the amount listed should match information provided in D.I.D Reimbursement of

Providers. Any adjustments applied would need to meet the special criteria for fee-for-service incentives if the State elects to provide incentive payments in addition to management fees under the waiver program (See D.I.I.e and D.I.J.e)

Document:

- i. Document the criteria for awarding the incentive payments.
- ii. Document the method for calculating incentives/bonuses, and
- iii. Document the monitoring the State will have in place to ensure that total payments to the MCOs/PIHPs/PAHPs/PCCMs do not exceed the Waiver Cost Projection.

- a. State Plan Services Trend Adjustment** – the State must trend the data forward to reflect cost and utilization increases. The R1 and R2 (BY for conversion) data already include the actual Medicaid cost changes for the population enrolled in the program. This adjustment reflects the expected cost and utilization increases in the managed care program from R2 (BY for conversion) to the end of the waiver (P2). Trend adjustments may be service-specific and expressed as percentage factors. Some states calculate utilization and cost separately, while other states calculate a single trend rate. The State must document the method used and how utilization and cost increases are not duplicative if they are calculated separately. **This adjustment must be mutually exclusive of programmatic/policy/pricing changes and CANNOT be taken twice. The State must document how it ensures there is no duplication with programmatic/policy/pricing changes.**

1. [Required, if the State's BY or R2 is more than 3 months prior to the beginning of P1] The State is using actual State cost increases to trend past data to the current time period (i.e., trending from 1999 to present).

The actual trend rate used is:

Please document how that trend was calculated:

The retrospective period growth trend was carried forward. This trend was determined through evaluation of member month data recorded in the retrospective period by the "On Demand" system. Population figures were calculated independently of all financial matters to ensure adjustment of financial, and population figures remained mutually exclusive and eliminated the possibility of duplication.

2. [Required, to trend BY/R2 to P1 and P2 in the future] When cost increases are unknown and in the future, the State is using a predictive trend of either State historical cost increases or national or regional factors that are predictive of future costs (same requirement as capitated ratesetting regulations) (i.e., trending from present into the future).

- i. State historical cost increases.

Please indicate the years on which the rates are based: base years. In addition, please indicate the mathematical method used (multiple regression, linear regression, chi-square, least squares,

exponential smoothing, etc.). Finally, please note and explain if the State's cost increase calculation includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

ii. **National or regional factors that are predictive of this waiver's future costs.**

Please indicate the services and indicators used. In addition, please indicate how this factor was determined to be predictive of this waiver's future costs. Finally, please note and explain if the State's cost increase calculation includes more factors than a price increase such as changes in technology, practice patterns, and/or units of service PMPM.

CMS market basket forecast figures for the appropriate periods were used in the model. Due to use of a variable payment scale driven by future fuel prices and the unpredictable nature of such costs, it is possible actual waiver costs will be higher or lower than projections. Changes in the cost of gasoline may result in a request to amend the waiver using the prevailing rates.

3. **The State estimated the PMPM cost changes in units of service, technology and/or practice patterns that would occur in the waiver separate from cost increase.**

Utilization adjustments made were service-specific and expressed as percentage factors. The State has documented how utilization and cost increases were not duplicated. This adjustment reflects the changes in utilization between R2 and P1 and between years P1 and P2.

- i. Please indicate the years on which the utilization rate was based (if calculated separately only).
- ii. Please document how the utilization did not duplicate separate cost increase trends.

Part I: State Completion Section

J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (2 of 5)

- b. State Plan Services Programmatic/Policy/Pricing Change Adjustment:** This adjustment should account for any programmatic changes that are not cost neutral and that affect the Waiver Cost Projection. For example, changes in rates, changes brought about by legal action, or changes brought about by legislation. For example, Federal mandates, changes in hospital payment from per diem rates to Diagnostic Related Group (DRG) rates or changes in the benefit coverage of the FFS program. **This adjustment must be mutually exclusive of trend and CANNOT be taken twice. The State must document how it ensures there is no duplication with trend.** If the State is changing one of the aspects noted above in the FFS State Plan then the State needs to estimate the impact of that adjustment. *Note: FFP on rates cannot be claimed until CMS approves the SPA per the 1/2/01 SMD letter. Prior approval of capitation rates is contingent upon approval of the SPA.* The R2 data was adjusted for changes that will occur after the R2 (BY for conversion) and during P1 and P2 that affect the overall Medicaid program.

Others:

- Additional State Plan Services (+)
- Reductions in State Plan Services (-)
- Legislative or Court Mandated Changes to the Program Structure or fee
- Graduate Medical Education (GME) Changes - This adjustment accounts for **changes** in any GME payments in the program. 42 CFR 438.6(c)(5) specifies that States can include or exclude GME payments from the capitation rates. However, GME payments must be included in cost-effectiveness calculations.
- Copayment Changes - This adjustment accounts for changes from R2 to P1 in any copayments that are collected under the FFS program, but not collected in the MCO/PIHP/PAHP capitated program. States must ensure that these copayments are included in the Waiver Cost Projection if not to be collected in the

capitated program. If the State is changing the copayments in the FFS program then the State needs to estimate the impact of that adjustment.

1. The State has chosen not to make an adjustment because there were no programmatic or policy changes in the FFS program after the MMIS claims tape was created. In addition, the State anticipates no programmatic or policy changes during the waiver period.
2. An adjustment was necessary. The adjustment(s) is(are) listed and described below:

- c. **Administrative Cost Adjustment:** This adjustment accounts for changes in the managed care program. The administrative expense factor in the renewal is based on the administrative costs for the eligible population participating in the waiver for managed care. Examples of these costs include per claim claims processing costs, additional per record PRO review costs, and additional Surveillance and Utilization Review System (SURS) costs; as well as actuarial contracts, consulting, encounter data processing, independent assessments, EQRO reviews, etc. *Note: one-time administration costs should not be built into the cost-effectiveness test on a long-term basis. States should use all relevant Medicaid administration claiming rules for administration costs they attribute to the managed care program.* If the State is changing the administration in the fee-for-service program then the State needs to estimate the impact of that adjustment.

1. No adjustment was necessary and no change is anticipated.
2. An administrative adjustment was made.

- d. **1915(b)(3) Adjustment:** The State must document the amount of State Plan Savings that will be used to provide additional 1915(b)(3) services in *Section D.I.H.a* above. The Base Year already includes the actual trend for the State Plan services in the program. This adjustment reflects the expected trend in the 1915(b)(3) services between

the Base Year and P1 of the waiver and the trend between the beginning of the program (P1) and the end of the program (P2). Trend adjustments may be service-specific and expressed as percentage factors.

1. [Required, if the State’s BY is more than 3 months prior to the beginning of P1 to trend BY to P1] The State is using the actual State historical trend to project past data to the current time period (i.e., trending from 1999 to present).

The actual documented trend is:

Please provide documentation.

2. [Required, when the State’s BY is trended to P2. No other 1915(b)(3) adjustment is allowed] If trends are unknown and in the future (i.e., trending from present into the future), the State must use the lower of State historical 1915(b)(3) trend or State’s trend for State Plan Services. Please document both trend rates and indicate which trend rate was used.

2. Please provide documentation.

B. State Plan Service trend

e. Incentives (not in capitated payment) Trend Adjustment: If the State marked **Section D.I.H.d** , then this adjustment reports trend for that factor. Trend is limited to the rate for State Plan services.

1. List the State Plan trend rate by MEG from Section D.I.I.a

2. List the Incentive trend rate by MEG if different from Section D.I.I.a

3. Explain any differences:

Section D: Cost-Effectiveness

Part I: State Completion Section

J. Appendix D4 - Conversion or Renewal Waiver Cost Projection and Adjustments. (5 of 5)

p. Other adjustments including but not limited to federal government changes.

- - If the federal government changes policy affecting Medicaid reimbursement, the State must adjust P1 and P2 to reflect all changes.
 - Once the State’s FFS institutional excess UPL is phased out, CMS will no longer match excess institutional UPL payments.

- Excess payments addressed through transition periods should not be included in the 1915(b) cost effectiveness process. Any State with excess payments should exclude the excess amount and only include the supplemental amount under 100% of the institutional UPL in the cost effectiveness process.
- For all other payments made under the UPL, including supplemental payments, the costs should be included in the cost effectiveness calculations. This would apply to PCCM enrollees and to PAHP, PIHP or MCO enrollees if the institutional services were provided as FFS wrap around. The recipient of the supplemental payment does not matter for the purposes of this analysis.
- **Pharmacy Rebate Factor Adjustment (Conversion Waivers Only) ***: Rebates that States receive from drug manufacturers should be deducted from Base Year costs if pharmacy services are included in the capitated base. If the base year costs are not reduced by the rebate factor, an inflated BY would result. Pharmacy rebates should also be deducted from FFS costs if pharmacy services are impacted by the waiver but not capitated.

Basis and Method:

1. Determine the percentage of Medicaid pharmacy costs that the rebates represent and adjust the base year costs by this percentage. States may want to make separate adjustments for prescription versus over the counter drugs and for different rebate percentages by population. States may assume that the rebates for the targeted population occur in the same proportion as the rebates for the total Medicaid population **which includes accounting for Part D dual eligibles**. Please account for this adjustment in **Appendix D5**.
2. The State has not made this adjustment because pharmacy is not an included capitation service and the capitated contractor’s providers do not prescribe drugs that are paid for by the State in FFS **or Part D for the dual eligibles**.
3. Other

Please describe:

1. No adjustment was made.
2. This adjustment was made. This adjustment must be mathematically accounted for in Appendix D5.
