FORM HCFA-179 (07-92)
A. DIRECT CARE WAGE

The Direct Care Wage Supplemental Annual Payments provide additional funding paid to in-state Psychiatric Residential Treatment Facility (PRTF) providers, to increase the wages and benefits of their direct care workers. The intent is to enhance service delivery by supporting hiring and retention of qualified direct care staff.

The amount available to each provider is calculated as follows:

1. The number of Direct Care Workers (DCWs) reported by each provider per service type, is adjusted based on the percentage of Medicaid youth served by the provider in each service.
2. The adjusted number of DCWs per provider is then allocated as a percentage of the total number of Medicaid DCWs.
3. Based on the percentage of DCWs, each provider is allocated its share of appropriation to be distributed.
4. Provider DCWs x Medicaid percentage) / Total Number of Medicaid DCWs) x Appropriation Amount ($389,348).
5. The data are updated from the previous fiscal year, prior to payment.

The provider certifies that funds expended and being requested for reimbursement are solely used for DCW wage rate increases paid or wage adjustments paid and related payroll benefit expenses.

B. MONTANA MEDICAID REIMBURSEMENT FOR PRTF

PRTF services must be authorized by the Department or the Department's utilization review contractor.

Reimbursement will be made to a PRTF provider for no more than 14 patient days per youth per State Fiscal Year for reserving a bed while the youth is temporarily absent for a Therapeutic Home Visit (THV). A THV is three days or less, unless authorized by the Department.

1. IN-STATE PRTF REIMBURSEMENT

a. In-State PRTF Bundled Per Diem Rate

The bundled per diem rate is a set fee. The bundled per diem rate was set as of July 1, 2021, and is effective for services on or after that date. All rates are published on the Department’s website at www.medicaidprovider.mt.gov. Unless otherwise noted in the State Plan, state developed fee schedule rates are the same for both governmental and private providers.

i. The in-state PRTF bundled per diem rate INCLUDES:

- Services, therapies and items related to treating the youth’s psychiatric condition;
- Services provided by licensed psychologists, licensed clinical social workers, licensed professional counselors, and licensed marriage and family therapists;
- Psychological testing;

Methods and Standards for Establishing Payment Rates
Service 16
Psychiatric Residential Treatment Facilities (PRTF)

- Psychotropic medication and related lab services; and
- Support services necessary for daily living and safety.

ii. The in-state PRTF bundled per diem rate DOES NOT INCLUDE:
- Physician, psychiatrist and mid-level practitioner services;
- Non-psychotropic medication and related lab services;
- Mental health center evaluations for transition age youth to determine whether or not they qualify for adult mental health services and have Severe and Disabling Mental Illness (SDMI); and
- Ancillary services as described in each specific State Plan service in Attachments 4.19B, whether these ancillary services are provided by the PRTF or by a different provider under arrangement with the PRTF.

Medicaid payment is not allowable for treatment or services unless provided in a hospital-based or free standing PRTF as defined in Service 16 of the Supplement to Attachments 3.1A and 3.1B of Montana Medicaid State Plan.

b. PRTF Assessment Service (PRTF-AS) Rate
PRTF-AS services are reimbursed at a higher rate than the bundled PRTF per diem rate. PRTF-AS services are provided by in-state PRTFs and are short-term lengths of stay of 14 days or less. The Department increased the daily PRTF rate 15% for assessment services to incentivize in-state PRTFs to evaluate youth with Serious Emotional Disturbance who have multiple and special treatment needs, and to offset the higher professional staff expenses in a short PRTF stay. Fifteen percent was a negotiated amount between the Department and providers.

If short-term PRTF-AS services will not meet the youth’s needs, a regular PRTF authorization will be requested and the PRTF bundled per diem rate will be paid instead of the higher PRTF-AS rate.

c. Hospital-Based PRTF Continuity of Care Payment
In-state hospital-based PRTFs receive a continuity of care payment as defined in Montana Medicaid State Plan 4.19A.

2. OUT-OF-STATE PRTF REIMBURSEMENT
Out of State PRTFs will be reimbursed a percentage, determined by the department, of their usual and customary charges, not to exceed the percentage published at www.medicaidprovider.mt.gov and not to exceed 100% of the PRTF’s cost of doing business. Services included in the out-of-state PRTF bundled per diem rate are effective July 1, 2021.

a. The out-of-state PRTF bundled per diem rate INCLUDES:

i. All services, therapies and items related to treating the youth’s condition, unless specifically noted;
ii. Services provided by physicians, psychiatrists, mid-level practitioners, licensed psychologists, licensed clinical social workers, licensed professional counselors, and licensed marriage and family therapists;

iii. Psychological testing;

iv. Pharmacy and lab services; and

v. Support services necessary for daily living and safety.

b. The out-of-state PRTF bundled per diem rate DOES NOT INCLUDE:

i. Montana mental health center evaluations for transition age youth to determine whether they qualify for adult mental health services and have a SDMI; and

ii. Ancillary services as described in each specific State Plan service in Attachments 4.19B, provided by a different provider under arrangement with the PRTF.
