Limitations on Amount, Duration and Scope of Services Provided to the Categorically Needy

13(c) Preventive Services: Doula Services

General Description:

Doula services will be used to provide support for pregnant individuals throughout the perinatal period, which may improve birth-related outcomes. Pursuant to 42 C.F.R. Section 440.130(c), doula services are provided as preventive services and must be recommended by a physician or other licensed practitioner of the healing arts within his or her scope of practice under state law to prevent perinatal complications and/or promote the physical and mental health of the beneficiary.

Service Description:

New Jersey intends to provide doula services for pregnant individuals during pregnancy, childbirth and the postpartum period. Doulas support the pregnant individual throughout the pregnancy, childbirth and postpartum experience, with the goal of improving outcomes for birthing parents and infants. Doulas offer support, guidance, evidence-based education, practical support during childbirth, and linkages to community-based resources.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES FOR NON INSTITUTIONAL SERVICES

Reimbursement for Preventive Services: Doula Services

The Doula reimbursement timeframe can run from the date of confirmed conception through 180 days (six months) after delivery, contingent on the client maintaining Medicaid eligibility. New Jersey will reimburse up to $900 for clients with up to 8 service visits, and up to $1,166 for clients with 12 service visits.

Each perinatal service visit will be billed for and reimbursed separately. All visits are reimbursed at fifteen (15) minute increments at $16.62 per unit rate. An initial prenatal visit has a maximum unit capacity of six (6) units to account for assessment while all other visits have a maximum capacity of four (4) units. Reimbursement for attendance during delivery is set at a flat rate of $235.00.

During the postpartum period, there will be a $100.00 additional value-based incentive payment made to the Doula if the Doula performs at least one (1) postpartum service visit and the client is seen by an obstetric clinician for one (1) postpartum visit after a labor and delivery claim.

The effective date, the applicable fee schedules, and link to their electronic publication, can be found on page 36 of Attachment 4.19-B of the State Plan. The rates are the same for both governmental and private providers. All applicable procedure code listings and/or rates are published on the State’s website at www.njmmis.com under the link for “Rates and Code Information” and Medicaid fee for services sections.
