7. Essential Health Benefit: Rehabilitative and habilitative services and devices

Collapse All

The state/territory assures that it is not imposing limits on habilitative services and devices that are more stringent than limits on rehabilitative services (45 CFR 156.115(a)(5)(ii)). Further, the state/territory understands that separate coverage limits must also be established for rehabilitative and habilitative services and devices. Combined rehabilitative and habilitative limits are allowed, if these limits can be exceeded based on medical necessity.
