**12a. Prescribed drugs.**

Medicare Part D drugs are not covered for full benefit dual eligible members, as coverage is provided through Medicare Part D PDPs and MAPDs

Prescription drugs for covered transplantation services shall be provided in accordance with AHCCCS transplantation policies.

AHCCCS only covers over-the-counter medications in place of a covered prescription medication that is clinically appropriate, equally safe and effective, and less costly than the covered prescription medication.

In compliance with Section 1927(b) of the Social Security Act (the Act), the State collects drug rebates in accordance with established policy for drug rebate agreements as provided in Exhibit 12(a) to Attachment 3.1-A.

**12c. Prosthetic devices.**

Prosthetic devices are limited to devices prescribed by a physician or other licensed practitioner to artificially replace missing, deformed or malfunctioning portions of the body and which are medically necessary to the rehabilitation of the member.

Covered prosthetic devices for members age 21 and older do not include hearing aids, cochlear implants, bone anchored hearing aids, percussive vests, microprocessors for controlled joints for the lower limbs in addition to microprocessor-controlled joints for the lower limbs, penile implants, and vacuum devices.

Orthotic devices, which are defined as devices that are prescribed by a physician or other licensed practitioner of the healing arts to support a weak or deformed portion of the body, are not covered except under the following circumstances: Halos to treat cervical fracture instead of surgery; Walking boots instead of surgery or serial casting; Knee orthotics for crutch dependent ambulation instead of a wheelchair.

**12d. Eyeglasses.**

Eye examinations for prescriptive lenses and the provision of prescriptive lenses under EPSDT services.

Adult services are limited to eyeglasses and contact lenses as the sole prosthetic device after a cataract extraction.

**13. Other diagnostic, screening, preventive, and rehabilitative services, i.e., other than those provided elsewhere in the plan.**

**13a. Diagnostic Services.**

Genetic testing is not covered unless the results of the genetic tests are necessary to differentiate between treatment options. Genetic testing is not covered to determine specific diagnoses or syndromes when such determination would not definitively alter the medical treatment of the member.
