Attachment 4.19-B: Physician Services 42 CFR 447.405 Amount of Minimum Payment

The state reimburses for services provided by physicians meeting the requirements of 42 CFR 447.400(a) at the Medicare Part B fee schedule rate using the Medicare physician fee schedule rate in effect in calendar years 2013 and 2014 or, if greater, the payment rates that would be applicable in those years using the calendar year 2009 Medicare physician fee schedule conversion factor. If there is no applicable rate established by Medicare, the state uses the rate specified in a fee schedule established and announced by CMS.

☐ The rates reflect all Medicare site of service and locality adjustments.

x The rates do not reflect site of service adjustments, but reimburse at the Medicare rate applicable to the office setting.

☐ The rates reflect all Medicare geographic/locality adjustments.

☐ The rates are statewide and reflect the mean value over all counties for each of the specified evaluation and management and vaccine billing codes.

The following formula was used to determine the mean rate over all counties for each code: _N/A since there is only one Medicare locality for the State of Idaho

The state is using the Deloitte fee schedule for Idaho. The state will adjust the fee schedule annually on the 1st of January to account for changes in Medicare rates.

Method of Payment

☐ The state has adjusted its fee schedule to make payment at the higher rate for each E&M and vaccine administration code.

x The state reimburses a supplemental amount equal to the difference between the Medicaid rate in effect on the date of service as published in the agency's fee schedule described in Attachment 4.19-B, page 12, Physician Services of the State plan and the minimum payment required at 42 CFR 447.405.

Supplemental payment is made: ☐ monthly x quarterly

Documentation of Vaccine Administration Rates in Effect 7/1/09

The state uses one of the following methodologies to impute the payment rate in effect at 7/1/09 for code 90460, which was introduced in 2011 as a successor billing code for billing codes 90465 and 90471.

x The imputed rate in effect at 7/1/09 for code 90460 equals the rate in effect at 7/1/09 for billing codes 90465 and 90471 times their respective claims volume for a 12 month period which encompasses July 1, 2009. Using this methodology, the imputed rate in effect for code 90460 at 7/1/09 is: \$15.73.

☐ A single rate was in effect on 7/1/09 for all vaccine administration services, regardless of billing code. This 2009 rate is: _____.
