Attention: Karen Barnes

Dear Ms. Steele:

We have reviewed the State's proposed amendment to the Louisiana State Plan submitted under Transmittal Number 17-0011 dated March 3, 2017. This state plan amendment proposes to amend the qualifying criteria for supplemental payments to physicians and other professional service practitioners in order to clarify these provisions.

Based on the information submitted, we have approved the amendment for incorporation into the official Louisiana State Plan with an effective date change of February 21, 2017. A copy of the CMS-179 and approved plan pages are enclosed with this letter.

If you have any questions, please contact Cheryl Rupley at (214) 767-6278 or by email at Cheryl.Rupley@cms.hhs.gov.

Sincerely,

A black rectangular box redacting the signature of Bill Brooks.

Bill Brooks
Associate Regional Administrator

PAYMENTS FOR MEDICAL AND REMEDIAL CARE AND SERVICES

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES - OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1905 (A) OF THE ACT THAT ARE INCLUDED IN THE PROGRAM UNDER THE PLAN ARE DESCRIBED AS FOLLOWS:

Payment Methodology

1. Non-Dentist Providers

The supplemental payment to non-dentist providers will be determined in a manner to bring payments for these services up to the community rate level. The community rate level is defined as the rates paid by commercial payers for the same service. Under this methodology, the terms physician and physician services include services provided by all qualifying non-dentist provider types as set forth in Subsection 2 of both the State Owned or Operated Entities Section and the Non-State Owned or Operated Governmental Entities Section.

The specific methodology to be used in establishing the supplemental payment for physician services is as follows:

- a. For services provided by physicians at a state-owned or operated hospital or at a non-state governmental hospital, the State will collect from the hospital its current commercial physician fees by Current Procedural Terminology (CPT) code for the hospital's top three commercial payers by volume.
- b. The State will calculate the average commercial fee for each CPT code for each physician practice plan or physician that provides services at the hospital.
- c. The State will extract from its paid claims history file for the preceding fiscal year all paid claims for those physicians who will qualify for a supplemental payment. The State will align the average commercial fee for each CPT code as determined in b. above to each Medicaid claim for that physician or physician practice plan and calculate the average commercial payments for the claims. For eligible non-physician practitioners, the maximum allowable Medicaid reimbursement shall be limited to 80 percent of this amount.
- d. The State will also align the same paid Medicaid claims with the Medicare fees for each CPT code for the physician or physician practice plan and calculate the Medicare payment amounts for those claims. The Medicare fees will be the most currently available national non-facility fees.

PAYMENTS FOR MEDICAL AND REMEDIAL CARE AND SERVICES

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES - OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1905 (A) OF THE ACT THAT ARE INCLUDED IN THE PROGRAM UNDER THE PLAN ARE DESCRIBED AS FOLLOWS:

- e. The State will then calculate an overall Medicare to commercial conversion factor by dividing the total amount of the average commercial payments for the claims by the total Medicare payments for the claims. The commercial to Medicare ratio will be re-determined every three years.
- f. After the end of each state fiscal year the State will extract paid Medicaid claims for each qualifying physician or physician practice plan for that year.
- g. The State will then calculate the amount Medicare would have paid for those claims by aligning the claims with the Medicare fee schedule by CPT code. The Medicare fees will be the most currently available national non-facility fees.
- h. The total amount that Medicare would have paid for those claims is then multiplied by the Medicare to commercial conversion factor and the amount Medicaid actually paid for those claims is subtracted to establish the supplemental payment amount for the physician or physician practice plan for that year. Supplemental payments will occur within one-hundred and eighty (180) days of the close of a state fiscal year. However, in the year in which the average commercial rate is being set or updated, payment will be made within 180 days from the computation and final review of the average commercial rate.

2. Dentist Providers

The supplemental payment to dentist providers will be determined in a manner to bring payments for these services up to the community rate level. The community rate level is defined as the rates paid by the Managed Care of North America (MCNA) Commercial National Preferred Provider Organization (PPO) Network Specialist Fee for the same service.

The specific methodology to be used in establishing the supplemental payment for dental services is as follows:

- a. For each year the State will extract paid Medicaid claims for each qualifying dentist or dental practice plan for that year.
- b. The State will then calculate the amount MCNA would have paid for those claims by aligning the claims with the MCNA fee schedule by Current Dental Terminology (CDT) code. The MCNA fees will be the most currently available Commercial National PPO Network Specialist Fee.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES - OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1905 (A) OF THE ACT THAT ARE INCLUDED IN THE PROGRAM UNDER THE PLAN ARE DESCRIBED AS FOLLOWS:

- c. The total amount Medicaid actually paid for those claims is subtracted from the amount that MCNA would have paid for those claims to establish the supplemental payment amount for the dentist or dental practice plan for that year.
3. Effective Date of Payment

The supplemental payment will be made effective for services provided on or after July 1, 2010. This payment is based on the Medicare equivalent of the average commercial rate and is set using the Medicare physician fee schedule for hospital based services rendered by the qualifying providers. After the initial calculation for fiscal year 2010-2011, Louisiana will rebase the Medicare equivalent of the average commercial rate using adjudicated claims data for dates of services from the most recently completed fiscal year. This calculation will be made every three years. A link to the Medicare fee schedule used to determine the payment factor will be posted on the Louisiana Medicaid website at www.lamedicaid.com
