MAR 1 5 2018

Marylou Sudders, Secretary Executive Office of Health and Human Services State of Massachusetts One Ashburton Place, Room 1109 Boston, MA 02108

RE: Massachusetts 17-0015

Dear Secretary Sudders:

We have reviewed the proposed amendment to Attachments 4.19-A of your Medicaid state plan submitted under transmittal number (TN) 17-0015. This amendment makes comprehensive changes and updates reimbursement for inpatient acute hospital (in-state & out-of-state) services. Changes includes delivery system re-design with a partial reduction to state plan supplemental payments to be transition to CMS-approved quality-based MCO-directed payments applicable to the same hospitals (via the Hospital Quality Incentive program described in Attachment Q of the approved Massachusetts 1115 demonstration).

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2), 1902(a)(13), 1902(a)(30), 1903(a) and 1923 of the Social Security Act and the implementing Federal regulations at 42 CFR 447. We are pleased to inform you that Medicaid State plan amendment 17-0015 is approved effective October 1, 2017. We are enclosing the CMS-179 and the amended plan pages.

If you have any questions, please call Novena James-Hailey at (617) 565-1291.

Sincerely,

Kristin Fan
Director

I. Introduction

A. Overview

This attachment describes methods used to determine rates of payment for acute inpatient hospital services for RY18.

- 1. Except as provided in subsection 2, and in subsection 6, below, the payment methodologies specified in this Attachment 4.19-A(1) apply to:
 - RY18 admissions at in-state Acute Hospitals beginning on or after October 1, 2017 through September 30, 2018, and
 - inpatient payments made to in-state Acute Hospitals on an administrative day, psychiatric or rehabilitation per diem basis for RY18 dates of service on or after October 1, 2017 through September 30, 2018.
- 2. In-state Critical Access Hospitals will be paid in accordance with the methods set forth in **Exhibit**1, which is attached hereto and incorporated by reference into this Attachment, for inpatient admissions occurring in RY18 on or after October 1, 2017 through September 30, 2018.
- 3. The supplemental payments for FY18 specified in Sections III.J.1 through III.J.7 apply to dates of service from October 1, 2017 through September 30, 2018.
- 4. The Pay-for-Performance payment methodology specified in **Section III.K** is effective in RY18 beginning October 1, 2017 through September 30, 2018.
- 5. In-state Acute Hospitals are defined in Section II.
- 6. This **Section I.A.6** describes the payment methods to out-of-state acute hospitals for inpatient hospital services. Components of the out-of-state payment methods that are based on the in-state methods will simultaneously adjust effective with the 2nd RY18 Period (as defined in **Section II**) to reflect updates being implemented effective with the 2nd RY18 Period to the in-state method, as applicable.

Except if subsection 6(e) applies, below, payment for out-of-state acute inpatient hospital services is as follows:

(a) Payment Amount Per Discharge.

(i) Out-of-State APAD: Out-of-state acute hospitals are paid an adjudicated payment amount per discharge ("Out-of-State APAD") for inpatient services; provided that, effective for admissions in the 2nd RY18 Period (as defined in **Section II**), payment for Long-Acting Reversible Contraception (LARC) devices (LARC Devices) is governed by **subsection 6(d)**, below, and not this **subsection 6(a)**. The discharge-specific Out-of-State APAD is equal to the sum of the statewide operating standard per discharge and the statewide capital standard

TN: 017-015

per discharge both as in effect for in-state acute hospitals, multiplied by the MassHealth DRG Weight assigned to the discharge using information on the claim.

- (ii) <u>Out-of-State Outlier Payment</u>: If the calculated cost of the discharge exceeds the discharge-specific outlier threshold, the out-of-state acute hospital is also paid an outlier payment for that discharge ("Out-of-State Outlier Payment"). The Out-of-State Outlier Payment is equal to the Marginal Cost Factor in effect for in-state acute hospitals multiplied by the difference between the calculated cost of the discharge and the discharge-specific outlier threshold.
 - a. The "calculated cost of the discharge" equals the out-of-state acute hospital's allowed charges for the discharge, multiplied by the applicable inpatient cost-to-charge ratio. For High MassHealth Volume Hospitals, the inpatient cost-to-charge ratio is hospital-specific. For all other out-of-state acute hospitals, the median instate acute hospital inpatient cost-to-charge ratio in effect, based on MassHealth discharge volume, is used. Effective with the 2nd RY18 Period, an out-of-state acute hospital's charges for a LARC Device (as defined in Section II) will not be included in this calculation.
 - b. The "discharge-specific outlier threshold" equals the sum of the hospital's Out-of-State APAD corresponding to the discharge, and the Fixed Outlier Threshold in effect for in-state acute hospitals.
- (b) Out-of-State Transfer Per Diem: If an out-of-state acute hospital transfers a MassHealth inpatient to another acute hospital, the transferring out-of-state acute hospital is paid for inpatient services provided to that member at a transfer per diem rate ("Out-of-State Transfer Per Diem"), and no other payment methods will apply.
 - a. The Out-of-State Transfer Per Diem equals the sum of the transferring hospital's Out-of-State APAD plus, if applicable, any Out-of-State Outlier Payment, that would have otherwise applied for the period that the member was an inpatient at the transferring hospital, divided by the mean in-state acute hospital all payer length of stay for the applicable APR-DRG that is assigned.
 - b. Payments made on an Out-of-State Transfer Per Diem basis are capped at the transferring hospital's Out-of-State APAD plus, if applicable, any Out-of-State Outlier Payment, that would have otherwise applied for the period that the member was an inpatient at the transferring hospital.
- (c) <u>Out-of-State Psychiatric Per Diem</u>: If an out-of-state acute hospital admits a MassHealth patient primarily for behavioral health services, the out-of-state acute hospital will be paid an all-inclusive psychiatric per diem equal to the psychiatric per diem in effect for in-state acute hospitals, and no other payment methods apply.
- (d) Long-Acting Reversible Contraception (LARC) devices: Effective for admissions in the 2nd RY18 Period (as defined in **Section II**), out-of-state acute hospitals will be paid for LARC Devices (as defined in **Section II**) in accordance with Section 8.d. of Attachment 4.19-B of the State Plan if the LARC procedure occurs immediately post-labor and delivery during the same inpatient hospital labor and delivery stay for clinically appropriate members. No other payment methods apply to such devices.

TN: 017-015

Supersedes: 016-015 Approval Date: Effective Date: 10/01/17

- (e) For medical services payable by MassHealth that are not available in-state, an out-of-state acute hospital that is not a High MassHealth Volume Hospital will be paid the rate of payment established for the medical service under the other state's Medicaid program (or equivalent) or such other rate as MassHealth determines necessary to ensure member access to services.
- (f) For purposes of this **Section I.A.6**, a "High MassHealth Volume Hospital" is any out-of-state acute hospital provider that had at least 150 MassHealth discharges during the most recent federal fiscal year for which complete data is available.
- (g) The payment methods in this Section I.A.6 are the same for private and governmental providers.

B. Non-Covered Services

The payment methods specified in this Attachment do not apply to the following Inpatient Hospital Services:

1. Behavioral Health Services for Members Enrolled with the Behavioral Health Contractor

MassHealth contracts with a Behavioral Health (BH) Contractor to provide Behavioral Health Services to Members enrolled with the BH Contractor. Hospitals are not entitled to, and may not claim for, any payment from EOHHS for any services that are BH Contractor-covered services or are otherwise payable by the BH Contractor.

2. MCO Services

MassHealth contracts with Managed Care Organizations (MCOs) to provide medical services, including Behavioral Health Services, to Members enrolled with the MCO.

3. Air Ambulance Services

In order to receive payment for air ambulance services, providers must have a separate contract with EOHHS for such services.

4. Non-Acute Units and Other Separately Licensed Units in Acute Hospitals

This Attachment shall not govern payment to Acute Hospitals for services provided to Members in separately licensed units within an Acute Hospital or in Non-Acute Units other than Rehabilitation Units (see Section III.H below).

TN: 017-015

II. <u>Definitions</u>

The definitions set forth in the "1st RY18 Period" column, below, apply during the 1st RY18 Period (as defined below). The definitions set forth in the "2nd RY18 Period" column, below, apply during the 2nd RY18 Period (as defined below), unless (i) that column specifies that there is no change to the definition, or (ii) for purposes of the APAD, Outlier Payment, and Transfer per Diem payment methodologies set forth in Sections III.B through III.D, below, the admission occurred in the 1st RY18 Period, in which case the definitions in the 1st RY18 Period column continue to apply.

<u>Defined Term</u>	Definition Applicable During 1st RY18 Period	Definition Applicable During
1st RY18 Period	The "1st RY18 Period" is the portion of RY18 from October 1, 2017 through February 28, 2018.	2 nd RV18 Period No change to definition.
2 nd RY18 Period	The "2 nd RY18 Period" is the portion of RY18 from March 1, 2018 through the end of RY18.	No change to definition.
Accountable Care Organization (ACO)	An entity that enters into a population-based payment model contract with EOHHS as an accountable care organization, where in the entity is held financially accountable for the cost and quality of care for an attributed or enrolled member population. ACOs include Accountable Care Partnership Plans (ACPPs), Primary Care ACOs, and MCO-Administered ACOs.	No change to definition.
Accountable Care Partnership Plan (ACPP)	A type of ACO with which the MassHealth agency contracts under its ACO program to provide, arrange for, and coordinate care and certain other medical services to members on a capitated basis and which is approved by the Massachusetts Division of Insurance as a healthmaintenance organization (HMO), and which is organized primarily for the purpose of providing health care	No change to definition.

<u>Defined Term</u>	Definition Applicable During	Definition Applicable During
	I* RV18 Period services.	2 nd RY18 Period
Acute Hospital	See Hospital.	No change to definition.
Adjudicated Payment Amount Per Discharge (APAD)	A Hospital-specific, DRG-specific all-inclusive facility payment for an acute inpatient hospitalization from admission through discharge, which is the complete fee-for-service payment for such acute hospitalization, excluding the additional payment of any Outlier Payment. The APAD is not paid for Administrative Days or for Inpatient Services that are paid on a transfer per diem, psychiatric per diem or rehabilitation per diem basis under this Attachment. Calculation of the APAD is discussed in Section III.B (utilizing the 1st RY18 Period methodology).	A Hospital-specific, DRG-specific all-inclusive facility payment for an acute inpatient hospitalization from admission through discharge, which is the complete fee-for-service payment for such acute hospitalization, excluding the additional payment of any Outlier Payment. The APAD is not paid for Administrative Days or for Inpatient Services that are paid on a transfer per diem, psychiatric per diem or rehabilitation per diem basis under this Attachment. The APAD is also not payment for LARC Devices, which may be paid separately as described in Section III.I. Calculation of the APAD is discussed in Section III.B (utilizing the 2 nd RY18 Period methodology).
Administrative Day (AD)	A day of inpatient hospitalization on which a Member's care needs can be provided in a setting other than an Acute Hospital, and on which the Member is clinically ready for discharge, but an appropriate institutional or non-institutional setting is not readily available.	No change to definition.
All Patient Refined— Diagnostic Related Group (APR-DRG or DRG)	The All Patient Refined Diagnosis Related Group and Severity of Illness (SOI) assigned using the 3M APR-DRG Grouper, version 33, unless otherwise specified.	The All Patient Refined Diagnosis Related Group and Severity of Illness (SOI) assigned using the 3M APR-DRG Grouper, version 34, unless otherwise specified.
APAD Base Year	The hospital-specific base year for the Adjudicated Payment Amount per Discharge (APAD) is FY12,	The hospital-specific base year for the Adjudicated Payment Amount per Discharge (APAD) is FY16,

	using FY12 -403 cost reports as screened and updated as of June 9, 2014.	using FY16Massachusetts Hospital cost reports as screened and updated as of June 30, 2017.
Average (or Mean) Length of Stay	The sum of non-psychiatric acute inpatient days for relevant discharges, divided by the number of discharges. Average Length of Stay is determined based on MassHealth discharges or all-payer discharges, as specified in this Attachment.	No change to definition
Behavioral Health (BH) Contractor	The entity with which EOHHS contracts to provide Behavioral Health Services to enrolled Members on a capitated basis, and which meets the definition of prepaid inpatient health plan at 42 C.F.R. § 438.2.	No change to definition.
Behavioral Health Services	Services provided to Members who are being treated for psychiatric disorders or substance-related disorders.	No change to definition.
Casemix Index	A measure of intensity of services provided by a Hospital to a group of patients, using the APR-DRG methodology, as specified in this Attachment. A Hospital's Casemix Index is calculated by dividing a Hospital's APR-DRG cumulative MassHealth or all-payer weights (using Massachusetts weights) by the Hospital's MassHealth or all-payer discharges. The weight for each APR-DRG is based on Massachusetts data.	No change to definition.
Center for Health Information and Analysis (CHIA)	The Center for Health Information and Analysis established under M.G.L. c. 12C.	No change to definition.

Community-based Physician	Any physician or physician group practice, excluding interns, residents, fellows, and house officers, who is not a Hospital-Based Physician. For purposes of this definition and related provisions, the term physician includes dentists, podiatrists, and osteopaths.	2 nd RV18 Period No change to definition.
Contract	See RFA and Contract.	No change to definition.
Critical Access Hospital (CAH)	An acute hospital that, prior to October 1, 2017, was designated by CMS as a Critical Access Hospital, and that continues to maintain that status.	No change to definition.
DMH-Licensed Bed	A bed in a Hospital that is located in a unit licensed by the Massachusetts Department of Mental Health (DMH).	No change to definition.
Discharge-Specific Case Cost	The product of the Hospital's MassHealth allowed charges for a specific discharge and the Hospital's inpatient cost to charge ratio as calculated by EOHHS using the Hospital's FY14 -403 cost report.	The product of the Hospital's MassHealth allowed charges for a specific discharge and the Hospital's inpatient cost to charge ratio as calculated by EOHHS using the Hospital's FY16 Massachusetts Hospital cost report. For applicable discharges, a Hospital's charges corresponding to a LARC Device are excluded in calculating the Discharge-Specific Case Cost.
Discharge-Specific Outlier Threshold	The sum of the Pre-Adjusted APAD for a specific discharge (utilizing the methodology applicable to the 1st RY18 Period), and the Fixed Outlier Threshold.	The sum of the Pre-Adjusted APAD for a specific discharge (utilizing the methodology applicable to the 2 ^z RY18 Period), and the Fixed Outlier Threshold.
Excluded Units	Non-Acute Units as defined in this section; any unit which has a separate license from the Hospital;	No change to definition.

III. Payment for Inpatient Services

A. Overview

1. Except as otherwise provided in subsections C through I below, and in Exhibit 1, fee-for-service payments for Inpatient Services provided to MassHealth Members not enrolled in an MCO will be a Hospital-specific, DRG-specific Adjudicated Payment Amount per Discharge (APAD) (see subsection B below).

For qualifying discharges, Hospitals may also be paid an Outlier Payment in addition to the APAD, under the conditions set forth in, and calculated as described in, **subsection C**, below.

Beginning with applicable admissions in the 2nd RY18 Period, payment separate from the APAD may also be made to Hospitals for LARC Devices as described in subsection I.

- 2. Subsections C through I describe non-APAD fee-for-service payments, including, as applicable, Outlier Payments, and payment for psychiatric services, transfer patients, Hospital-Based Physician services, Administrative Days, Rehabilitation Unit services in Acute Hospitals, and, beginning with admissions in the 2nd RY18 Period, payment for LARC Devices. Payment for other unique circumstances is described in subsection J, and Exhibit 1. Pay-for-Performance payments are described in subsection K.
- 3. For Inpatient Services paid on a per diem basis, MassHealth pays the lesser of (i) the per diem rate, or (ii) 100% of the Hospital's actual charge submitted.

B. Calculation of the Adjudicated Payment Amount Per Discharge (APAD)

RY18 is bifurcated into the 1st RY18 Period and the 2nd RY18 Period for purposes of applying the APAD payment methodology. The APAD methodology is set forth in **Section III.B** below. The "1st RY18 Period" column applies to admissions occurring in the 1st RY18 Period, and incorporates applicable definitions in **Section II** that apply to the 1st RY18 Period. The "2nd RY18 Period" column applies to admissions occurring in the 2nd RY18 Period, and incorporates applicable definitions in **Section II** that apply to the 2nd RY18 Period. The 1st RY18 Period APAD methodology is the same methodology that applied during RY17 under approved SPA TN-016-015.

TN: 017-015

1st RY18 Period (for admissions occurring in the 1st RY18 Period)

2nd RY18 Period (for admissions occurring in the 2nd RY18 Period)

1. APAD Overview

The Adjudicated Payment Amount per Discharge (APAD) is a Hospital-specific, DRG-specific all-inclusive facility payment for an acute inpatient hospitalization from admission through discharge.

The components that make up the APAD include (1) the Statewide Operating Standard per Discharge, adjusted for the Hospital's Massachusetts-specific Wage Area Index; (2) the Statewide Capital Standard per Discharge; (3) the discharge-specific MassHealth DRG Weight; and (4) a Hospital-specific adjustment, where applicable, for Potentially Preventable Readmissions (PPR) pursuant to Section IV. Each of these components, and the calculation of the APAD, is described more fully below.

The APAD Base Year is FY12.

1. APAD Overview

The Adjudicated Payment Amount per Discharge (APAD) is a Hospital-specific, DRG-specific all-inclusive facility payment for an acute inpatient hospitalization from admission through discharge (exclusive of any separate payment for a LARC Device, if applicable, as described in Section III.I).

The components that make up the APAD include (1) the Statewide Operating Standard per Discharge, adjusted for the Hospital's Massachusetts-specific Wage Area Index; (2) the Statewide Capital Standard per Discharge; (3) the discharge-specific MassHealth DRG Weight; and (4) a Hospital-specific adjustment, where applicable, for Potentially Preventable Readmissions (PPR) pursuant to **Section IV**. Each of these components, and the calculation of the APAD, is described more fully below.

The APAD Base Year is FY16.

2. Statewide Operating Standard per Discharge

The Statewide Operating Standard per Discharge is determined by multiplying:

- the weighted average of the APAD Base Year standardized cost per discharge, where any Hospital's standardized cost per discharge that exceeds the efficiency standard is limited by the efficiency standard; by
- an outlier adjustment factor of 91.5% and by
- the Inflation Factors for Operating Costs to trend APAD Base Year costs forward to RY17.

2. Statewide Operating Standard per Discharge

The Statewide Operating Standard per Discharge is determined by multiplying:

- the weighted average of the APAD Base Year standardized cost per discharge, where any Hospital's standardized cost per discharge that exceeds the efficiency standard is limited by the efficiency standard; by
- an outlier adjustment factor of 93.0% and by
- the Inflation Factors for Operating Costs to trend APAD Base Year costs forward to the

1st RY18 Period (for admissions occurring in the 1st RY18 Period)

2nd RY18 Period (for admissions occurring in the 2nd RY18 Period)

a. APAD Base Year statewide capital cost per discharge

The APAD Base Year statewide capital cost per discharge is the discharge-weighted average over all Hospitals of the all payer casemix-adjusted capital cost per discharge capped at the capital efficiency standard.

For each Hospital, the total inpatient capital costs include building and fixed equipment depreciation, major moveable equipment depreciation, major moveable equipment, and long- and short-term interest. Total capital costs are allocated to inpatient services through the square-footage-based allocation formula of the 403 cost report. Capital costs for Excluded Units are omitted to derive net inpatient capital costs. Each Hospital's capital cost per discharge is calculated using APAD Base Year cost reports and APAD Base Year HDD by dividing total net inpatient capital costs by the Hospital's total all-payer discharges, net of Excluded Unit discharges.

Each Hospital's capital cost per discharge is then adjusted by the APAD Base Year allpayer Casemix Index.

All Hospitals are then ranked with respect to their casemix-adjusted capital cost per discharge, and the capital efficiency standard is set at the 50th percentile of the cumulative frequency of FY15 discharges where MassHealth is the primary payer in MMIS. Each Hospital's capital cost per discharge that exceeds the capital efficiency standard is then limited by the capital efficiency standard.

The APAD Base Year statewide capital cost

a. APAD Base Year statewide capital cost per discharge

The APAD Base Year statewide capital cost per discharge is the discharge-weighted average over all Hospitals of the all payer casemix-adjusted capital cost per discharge capped at the capital efficiency standard.

For each Hospital, the total inpatient capital costs include the Buildings and Fixtures and Movable Equipment categories reported on the APAD Base Year Massachusetts Hospital cost report. Total capital costs for Buildings and Fixtures are allocated to inpatient services through the square-footage-based allocation formula, and total capital costs for Movable Equipment are allocated to inpatient services through the dollar-value-based allocation formula, of the APAD Base Year Massachusetts Hospital cost report. Capital costs for Excluded Units are omitted to derive net inpatient capital costs. Each Hospital's capital cost per discharge is calculated using APAD Base Year Massachusetts Hospital cost reports by dividing total net inpatient capital costs by the Hospital's total all-payer discharges, net of Excluded Unit discharges.

Each Hospital's capital cost per discharge is then adjusted by the APAD Base Year allpayer Casemix Index.

All Hospitals are then ranked with respect to their casemix-adjusted capital cost per discharge, and the capital efficiency standard is set at the 67th percentile of the cumulative frequency of FY16 discharges where MassHealth is the primary payer in MMIS. Each Hospital's capital cost per discharge that

1 st RY18 Period (for admissions occurring in the 1 st RY18 Period)	2 nd RY18 Period (for admissions occurring in the 2 nd RY18 Period)
per discharge is the statewide average of these adjusted costs per discharge, weighted based on each Hospital's number of FY15 MassHealth discharges.	exceeds the capital efficiency standard is then limited by the capital efficiency standard. The APAD Base Year statewide capital cost per discharge is the statewide average of these adjusted costs per discharge, weighted based on each Hospital's number of FY16 MassHealth discharges.
b. Inflation Factors for Capital Costs	b. Inflation Factors for Capital Costs
The Inflation Factors for Capital Costs reflecting price changes between RY12 and RY17 are applied to trend the APAD Base Year statewide capital cost per discharge forward.	The Inflation Factors for Capital Costs reflecting price changes between RY16 and RY18 are applied to trend the APAD Base Year statewide capital cost per discharge forward to the current Rate Year.
4. MassHealth DRG Weights	4. MassHealth DRG Weights
The MassHealth DRG Weight is the MassHealth relative weight determined by EOHHS for each unique combination of APR-DRG and severity of illness (SOI). The discharge-specific MassHealth DRG Weight is assigned to the discharge based on information contained in a properly submitted inpatient Hospital claim and determined using the 3M APR-DRG Grouper and Massachusetts weights applicable to the 1st RY18 Period (which are unchanged from RY17).	The MassHealth DRG Weight is the MassHealth relative weight determined by EOHHS for each unique combination of APR-DRG and severity of illness (SOI). The discharge-specific MassHealth DRG Weight is assigned to the discharge based on information contained in a properly submitted inpatient Hospital claim and determined using the 3M APR-DRG Grouper and Massachusetts weights applicable to the 2 nd RY18 Period.
5. Potentially Preventable Readmissions (PPR) Adjustment	5. Potentially Preventable Readmissions (PPR) Adjustment
The hospital-specific adjustment for PPRs, if applicable, is calculated as set forth in Section IV , below, utilizing the PPR methodology applicable to the 1 st RY18 Period.	The hospital-specific adjustment for PPRs, if applicable, is calculated as set forth in Section IV , below, utilizing the PPR methodology applicable to the 2 nd RY18 Period.

TN: 017-015

1st RY18 Period (for admissions occurring in the 1st RY18 Period)

2nd RY18 Period (for admissions occurring in the 2nd RY18 Period)

6. Calculation of the APAD

Each APAD is determined by the following steps: (1) multiplying the labor portion of the Statewide Operating Standard per Discharge by the Hospital's Massachusetts-specific Wage Area Index, (2) adding this amount to the non-labor portion of the Statewide Operating Standard per Discharge to result in the Hospital's Wage Adjusted Operating Standard per Discharge, (3) adding the Wage Adjusted Operating Standard per Discharge to the Statewide Capital Standard per Discharge (which result is referred to as the "APAD Base Payment"), (4) multiplying the APAD Base Payment by the discharge-specific MassHealth DRG Weight, and (5) then adjusting that result, where applicable, for Potentially Preventable Readmissions under Section IV. For purposes of step (1) in this subsection 6, above, the Hospital's Massachusetts-specific Wage Area Index which is multiplied by the labor portion of the Statewide Operating Standard per Discharge, is determined as specified in the definition of "Massachusetts-specific Wage Area Index" in Section II, except that for this purpose, Baystate Medical Center's wages and hours were also included in the Springfield area index.

6. Calculation of the APAD

Each APAD is determined by the following steps: (1) multiplying the labor portion of the Statewide Operating Standard per Discharge by the Hospital's Massachusetts-specific Wage Area Index, (2) adding this amount to the non-labor portion of the Statewide Operating Standard per Discharge to result in the Hospital's Wage Adjusted Operating Standard per Discharge, (3) adding the Wage Adjusted Operating Standard per Discharge to the Statewide Capital Standard per Discharge (which result is referred to as the "APAD Base Payment"), (4) multiplying the APAD Base Payment by the discharge-specific MassHealth DRG Weight, and (5) then adjusting that result, where applicable, for Potentially Preventable Readmissions under Section IV. For purposes of step (1) in this subsection 6, above, the Hospital's Massachusetts-specific Wage Area Index which is multiplied by the labor portion of the Statewide Operating Standard per Discharge, is determined as specified in the definition of "Massachusetts-specific Wage Area Index" in Section II, except that for this purpose, Baystate Medical Center's wages and hours were also included in the Springfield area index.

For discharges from Freestanding Pediatric Acute Hospitals for which the MassHealth DRG Weight assigned to the discharge is 3.5 or greater, the APAD Base Payment will be adjusted to include an additional 45% for purposes of step (4), above, in this **subsection 6**, in the calculation of the APAD.

TN: 017-015

The following is an illustrative example of the calculation of the Total Case Payment for a standard APAD claim that does not also qualify for an Outlier Payment under **Section III.C**, below. The example assumes the 2^{nd} RY18 Period applies.

Hospital:	Sample Hospital		
ORG:	203, Chest Pain. Severity of Illness (SOI) = 2.		
Line	Description	Value	Calculation or Source
1	Statewide Operating Standard per Discharge	\$10,998.11	Section III.B.2 (2nd RY18 Period)
2	Hospital wage area	1.0324	Varies by hospital
3	Labor Factor	0.69587	Determined annually
4	Wage Adjusted Operating Standard per Discharge	\$11,246.08	{Line 1 * Line 2 * Line 3) + (Line 1 * (1.0-Line 3
5	Statewide Capital Standard per Discharge	\$774.99	Section III.8.3 (2nd RY18 Period)
6	APAD Base Payment	\$12,021.07	Line 4 + Line 5

TN: 017-015

C. Outlier Payment

RY18 is bifurcated into the 1st RY18 Period and the 2nd RY18 Period for purposes of applying the Outlier Payment methodology. The Outlier Payment methodology is set forth in this Section III.C; provided that, (i) for admissions in the 1st RY18 Period, applicable definitions from Section II that apply to the 1st RY18 Period are incorporated; (ii) for admissions in the 2nd RY18 Period, applicable definitions from Section II that apply to the 2nd RY18 Period are incorporated; and (iii) all references in this Section III.C to the APAD method (or any component of the APAD) shall refer to the APAD (or APAD component) as calculated utilizing the methodology that applies to the specific admission (1st RY18 Period method for admissions in the 1st RY18 Period, or 2nd RY18 Period method for admissions in the 2nd RY18 Period). The 1st RY18 Period Outlier Payment methodology is the same methodology that applied during RY17 under approved SPA TN-016-015.

A Hospital will be paid a discharge-specific Outlier Payment for a discharge in addition to the APAD (see Section III.B., above) if all of the following conditions are met:

- the Hospital's Discharge-Specific Case Cost exceeds the Discharge-Specific Outlier Threshold for that discharge:
- 2. the Hospital continues to fulfill its discharge planning duties as required in MassHealth's regulations:
- 3. the patient is not a patient in a DMH-licensed bed on any part of the discharge; and
- 4. the patient is not a patient in an Excluded Unit within the Hospital.

In cases where an Outlier Payment applies, the Outlier Payment will equal the product of the Marginal Cost Factor and the amount by which the Discharge-Specific Case Cost exceeds the Discharge-Specific Outlier Threshold. In such a case, the adjustment under Section IV for Potentially Preventable Readmissions (PPR), if applicable, is applied against the sum of the Pre-Adjusted APAD and the Outlier Payment.

The following is an illustrative example of the calculation of the Total Case Payment for a claim that also involves an Outlier Payment. The example assumes the 2nd RY18 Period applies.

D. Transfer Per Diem Payments

RY18 is bifurcated into the 1st RY18 Period and the 2nd RY18 Period for purposes of applying the Transfer per diem payment methodology. The Transfer per diem payment methodology is set forth in this **Section III.D**; provided that, (i) for admissions in the 1st RY18 Period, applicable definitions from **Section II** that apply to the 1st RY18 Period are incorporated; (ii) for admissions in the 2nd RY18 Period, applicable definitions from **Section III.D** to the APAD and Outlier Payment methodologies in **Sections III.B** and **III.C** shall refer to the methodology that applies to the specific admission (1st RY18 Period method for admissions in the 1st RY18 Period or 2nd RY18 Period method for admissions in the 2nd RY18 Period and (iv) any other differences in the Transfer per diem methodology as between the 1st RY18 Period and the 2nd RY18 Period are as specified below. The 1st RY18 Period Transfer per diem payment methodology is the same methodology that applied during RY17 under approved SPA TN-016-015.

Hospitals will be paid a transfer per diem under the circumstances specified in this section. In general, total payments made on a transfer per diem basis are capped at the Hospital's Total Transfer Payment Cap.

The transfer per diem rate is case-specific and is calculated as set forth in Section III.D.1, below.

1. Transfer between Hospitals

In general, a Hospital that transfers a patient to another Acute Hospital will be paid at the transfer per diem rate, up to the Transferring Hospital's Total Transfer Payment Cap.

TN: 017-015

In general, the Hospital that is receiving the patient will be paid (a) on a per discharge basis in accordance with the APAD, and, if applicable, Outlier Payment methodology(ies) specified in **Sections III.B and III.C**, above, if the patient is actually discharged from that Hospital; or (b) on a transfer per diem basis, capped at the Hospital's Total Transfer Payment Cap, if the Hospital transfers the patient to another Acute Hospital or back to the Acute Hospital from which it received the patient.

The transfer per diem rate will equal the following. For admissions in the 1st RY18 Period, the "1st RY18 Period" column applies. For admissions in the 2nd RY18 Period, the "2nd RY18 Period" column applies.

1st RY18 Period (for admissions occurring in the 1st RY18 Period)

The transfer per diem rate equals the Transferring Hospital's Total Case Payment amount, divided by the applicable DRG-specific mean all-payer length of stay from the APR-DRG Massachusetts-specific weight file applicable to the 1st RY18 Period. For purposes of this calculation, the Total Case Payment amount is calculated utilizing the APAD, and if applicable, Outlier Payment methodology(ies) set forth in **Section III.B.** and **III.C.**, above, for the period for which the Transferring Hospital is being paid on a transfer per diem basis pursuant to this **Section III.D.** Payment on a transfer per diem basis will be capped at the Transferring Hospital's Total Transfer Payment Cap.

2nd RY18 Period (for admissions occurring in the 2nd RY18 Period)

The transfer per diem rate equals the Transferring Hospital's Total Case Payment amount, divided by the applicable DRGspecific mean all-payer length of stay from the APR-DRG Massachusetts-specific weight file applicable to the 2nd RY18 Period. For purposes of this calculation, the Total Case Payment amount is calculated utilizing the APAD, and if applicable, Outlier Payment methodology(ies) set forth in Section III.B. and III.C., above, for the period for which the Transferring Hospital is being paid on a transfer per diem basis pursuant to this Section III.D. Payment on a transfer per diem basis will be capped at the Transferring Hospital's Total Transfer Payment Cap.

See Table 3: Claim with Transfer (APAD only) and Table 4: Claim with Transfer (APAD and Outlier), respectively, below, for illustrative examples of the calculation of the transfer per diem, Total Transfer Payment Cap, and corresponding Total Transfer Case Payment, that would apply to the case. These illustrative examples apply to all subsections of Section III.D, and assume that the 2nd RY18 Period applies.

2. Transfers within a Hospital

In general, a transfer within a Hospital is not considered a discharge. Consequently, in most cases a transfer between units within a Hospital will be paid on a transfer per diem basis, capped at the Hospital's Total Transfer Payment Cap. This section outlines payment under some specific transfer circumstances.

a. Transfer to/from a Non-Acute, Skilled Nursing, or other Separately Licensed Unit within the Same Hospital

If a patient is transferred from an acute bed to a Non-Acute bed (except for a DMH-licensed bed or any separately licensed unit in the same Hospital), the transfer is considered a discharge. EOHHS will pay the Hospital's discharge-specific APAD for the portion of the stay that preceded the patient's discharge to any such unit.

TN: 017-015

b. MassHealth Payments for Newly Eligible Members, Members Who Change Enrollment in the PCC Plan, Primary Care ACO, Fee-for-Service, or MCO, during a Hospital Stay, or in the Event of Exhaustion of Other Insurance

When a patient becomes MassHealth-eligible, becomes eligible for managed care and is enrolled in an MCO or becomes ineligible for managed care and disenrolled from an MCO during the course of a Hospital stay, or exhausts other insurance benefits after the date of admission and prior to the date of discharge, the MassHealth-covered portion of the acute stay will be paid at the transfer per diem rate, capped at the Hospital's Total Transfer Payment Cap, or if the patient is at the Administrative Day level of care, at the applicable AD per diem rate, in accordance with **Section III.G.**

c. Admissions Following Outpatient Surgery or Procedure

If a patient who requires Inpatient Hospital Services is admitted following an outpatient surgery or procedure at the Hospital, the Hospital shall be paid at the transfer per diem rate, capped at the Hospital's Total Transfer Payment Cap.

d. Transfer between a DMH-licensed Bed and Any Other Bed within the Same Hospital

Payment for a transfer between a DMH-licensed Bed and any other bed within a Hospital will vary depending on the circumstances involved, such as managed care status, whether the Hospital is part of the BH network, and the type of service provided. See also **subsection e**, below.

When a Member who is not enrolled with the BH Contractor transfers between a DMH-licensed Bed and a non-DMH-licensed Bed in the same Hospital during a single admission, EOHHS will pay the Hospital at the transfer per diem rate, capped at the Hospital's Total Transfer Payment Cap for the non-DMH-licensed bed portion of the stay, and on a Psychiatric Per Diem basis (see Section III.E, below) for the DMH-licensed bed portion of the stay.

If the Member is enrolled with the BH Contractor, EOHHS will pay for the non-DMH-licensed bed portion of the stay only if it is for medical treatment. In that case, such payment will be at the transfer per diem rate, capped at the Hospital's Total Transfer Payment Cap.

e. Change of BH Managed Care Status during a Behavioral Health Hospitalization

When a Member is enrolled with the BH Contractor during a behavioral health admission, the portion of the Hospital stay during which the Member is enrolled with the BH Contractor is payable by the BH Contractor. The portion of the Hospital stay during which the Member was not enrolled with the BH Contractor will be paid by EOHHS on a Psychiatric Per Diem basis (see Section III.E, below) for psychiatric services in a DMH-licensed Bed, or at the transfer per diem rate, capped at the

TN: 017-015

Hospital's Total Transfer Payment Cap, for substance-related disorder services and for psychiatric services in a non-DMH-licensed Bed.

E. Payments for Psychiatric Services

1. Overview

- a. Services provided to MassHealth Members in DMH-licensed Beds who are not enrolled with the BH Contractor or an MCO shall be paid on an all-inclusive Psychiatric Per Diem basis.
- b. The Statewide Standard Psychiatric Per Diem Rate is the sum of the three Psychiatric Per Diem Base Year Operating Standards (see subsection 2) and the Psychiatric Per Diem Base Year Capital Standard (see subsection 3), adjusted for the current Rate Year (see subsection 4).
- c. Payment for psychiatric services provided in beds that are not DMH-licensed Beds shall be made on a transfer per diem basis, as described in **Section III.D**, above. See **Sections III.D.2.d and e** for payment rules involving transfers to and from DMH-licensed Beds and BH managed care status.
- d. The Psychiatric Per Diem Base Year is RY04. MassHealth utilizes the costs, statistics, and revenue reported in the 2004 -403 cost reports as screened and updated as of March 10, 2006.
- e. RY18 is bifurcated into the 1st RY18 Period and the 2nd RY18 Period for purposes of applying this Psychiatric Per Diem payment methodology. Differences in the methodology and the final per diem rate that applies to dates of services in the 1st RY18 Period and the 2nd RY18 Period, respectively, are identified in **Section III.E.4**, below. The methodology is otherwise the same for both periods. The 1st RY18 Period methodology is the same methodology that applied during RY17 under approved SPA TN-016-015.

2. Determination of the Psychiatric Per Diem Base Year Operating Standards

a. Standard for Inpatient Psychiatric Overhead Costs

The Standard for Inpatient Psychiatric Overhead Costs is the median of the inpatient psychiatric overhead costs per day for the array of Acute Hospitals providing mental health services in DMH-licensed beds. The median is determined based upon inpatient psychiatric days. The base year Standard for Inpatient Psychiatric Overhead Costs is \$363.28.

b. Standard for Inpatient Psychiatric Direct Routine Costs

The Standard for Inpatient Psychiatric Direct Routine Costs is the median of the inpatient psychiatric direct routine costs per day (minus direct routine physician costs) for the array

TN: 017-015

of Acute Hospitals providing mental health services in DMH-licensed beds. The median is determined based upon inpatient psychiatric days. The base year Standard for Inpatient Psychiatric Direct Routine Costs is \$325.13.

c. Standard for Inpatient Psychiatric Direct Ancillary Costs

The Standard for Inpatient Psychiatric Direct Ancillary Costs is the median of the inpatient psychiatric direct ancillary costs per day for the array of Acute Hospitals providing mental health services in DMH-licensed beds. The median is determined based upon inpatient psychiatric days. The base year Standard for Inpatient Psychiatric Direct Ancillary Costs is \$56.83.

3. Determination of the Psychiatric Per Diem Base Year Capital Standard

The Standard for Inpatient Psychiatric Capital Costs is the median of the inpatient psychiatric capital costs per day for the array of Acute Hospitals providing mental health services in DMH-licensed beds. The median is determined based upon inpatient psychiatric days. The base year Standard for Inpatient Psychiatric Capital Costs is \$30.73.

- a. Each Hospital's base year psychiatric capital cost per day equals the base year psychiatric capital cost divided by the greater of: the actual base year psychiatric days or eighty-five percent (85%) of the base year maximum licensed psychiatric bed capacity, measured in days.
- b. Each Hospital's base year capital costs consist of the Hospital's actual Psychiatric Per Diem Base Year patient care capital requirement for historical depreciation for building and fixed equipment, reasonable interest expenses, amortization, leases, and rental of facilities. Any gains from the sale of property will be offset against the Hospital's capital expenses.

4. Adjustment to Base Year Standards

In calculating the final statewide standard psychiatric per diem rate applicable to dates of service in the 1st RY18 Period, the additional steps set forth in the "1st RY18 Period" column, below, are applied. In calculating the final statewide standard psychiatric per diem rate applicable to dates of service in the 2nd RY18 Period, the additional steps set forth in the "2nd RY18 Period" column, below, are applied.

1 st RY18 Period (for dates of service occurring in the 1 st RY18 Period)	2 nd RY18 Period (for dates of service occurring in the 2 nd RY18 Period)			
The three Psychiatric Per Diem Base Year	The three Psychiatric Per Diem Base Year			
Operating Standards are updated between the Base Operating Standards are updated between the Base				
Year and RY2007 using the Inflation Factors for	Year and RY2007 using the Inflation Factors for			
Operating Costs (see Section II above). The	Operating Costs (see Section II above). The			

TN: 017-015

1" RY18 Period (for dates of service occurring in the 1" RY18 Period)

Psychiatric Per Diem Base Year Capital Standard is updated between the Base Year and RY2007 using the Inflation Factors for Capital Costs (see Section II above).

The Inflation Factors for Operating Costs (see **Section II above**) between RY08 and RY10 and between RY12 and RY16 were then applied to the rate calculated above to determine the Statewide Standard Psychiatric Per Diem Rate applicable to dates of service in the 1st RY18 Period.

The total adjustment to Base Year Costs from the Psychiatric Per Diem Base Year costs for the 1st RY18 Period Psychiatric Per Diem is \$107.55. The Statewide Standard Psychiatric Per Diem Rate applicable to dates of service in the 1st RY18 Period is \$883.52.

2nd RY18 Period (for dates of service occurring in the 2nd RY18 Period)

Psychiatric Per Diem Base Year Capital Standard is updated between the Base Year and RY2007 using the Inflation Factors for Capital Costs (see Section II above).

The Inflation Factors for Operating Costs (see Section II above) between RY08 and RY10 and between RY12 and RY18 were then applied to the rate calculated above to determine the Statewide Standard Psychiatric Per Diem Rate applicable to dates of service in the 2nd RY18 Period.

The total adjustment to Base Year Costs from the Psychiatric Per Diem Base Year costs for the 2nd RY18 Period Psychiatric Per Diem is \$145.02. The Statewide Standard Psychiatric Per Diem Rate applicable to dates of service in the 2nd RY18 Period is \$920.99.

F. Physician Payment

- 1. For physician services provided by Hospital-Based Physicians to MassHealth patients, the Hospital will be paid for the professional component of Hospital-Based Physician services in accordance with Section 8.d. of Attachment 4.19-B of the State Plan.
- 2. Hospitals will be paid for Hospital-Based Physician services only if the Hospital-Based Physician took an active patient care role, as opposed to a supervisory role, in providing the Inpatient Service(s) on the billed date(s) of service.
- 3. Physician services provided by residents and interns are not reimbursable separately. The Hospital-Based Physician may not bill for any professional component of the service that is billed by the Hospital. Hospitals will only be reimbursed separately for professional fees for practitioners who are Hospital-Based Physicians as defined in **Section II**.
- 4. Hospitals shall not be paid for inpatient physician services provided by Community-Based Physicians.

TN: 017-015

G. Payments for Administrative Days

RY18 is bifurcated into the 1st RY18 Period and the 2nd RY18 Period for purposes of applying the payment methodology for Administrative Days. The methodology in the "1st RY18 Period" column of this **Section III.G**, below, applies to dates of service in the 1st RY18 Period and incorporates applicable definitions in **Section II** that apply to the 1st RY18 Period. The methodology in the "2nd RY18 Period" column applies to dates of service in the 2nd RY18 Period and incorporates applicable definitions in **Section II** that apply to the 2nd RY18 Period. The 1st RY18 Period methodology is the same methodology that applied during RY17 under approved SPA TN-016-015.

	1 st RY18 Period (for dates of service occurring in the 1 st RY18 Period)	agramation	2 nd RY18 Period (for dates of service occurring in the 2 nd RY18 Period)
1.	Payments for Administrative Days will be made on a per diem basis as described below. These per diem rates are allinclusive and represent payment in full for all Administrative Days in all Acute Hospitals.	1.	Payments for Administrative Days will be made on a per diem basis as described below. These per diem rates are allinclusive and represent payment in full for all Administrative Days in all Acute Hospitals.
2.	The AD rate is a base per diem payment and an ancillary add-on.	2.	The AD rate is a base per diem payment and an ancillary add-on.
3.	The base per diem payment is \$200.19, which represents the median nursing facility rate that was effective January 1, 2015 for all nursing home rate categories, as determined by EOHHS.	3.	The base per diem payment is \$201.63, which represents the median nursing facility rate that was effective October 1, 2015 for all nursing home rate categories, as determined by EOHHS.
4.	The ancillary add-on is based on the ratio of ancillary charges to routine charges, calculated separately for Medicaid/Medicare Part B eligible patients and Medicaid-only eligible patients on AD status, using MassHealth paid claims for the period October 1, 1997 to September 30, 1998.	4.	The ancillary add-on is based on the ratio of ancillary charges to routine charges, calculated separately for Medicaid/Medicare Part B eligible patients and Medicaid-only eligible patients on AD status, using MassHealth paid claims for the period October 1, 1997 to September 30, 1998.
5.	These ratios are 0.278 and 0.382, respectively.	5.	These ratios are 0.278 and 0.382, respectively.

	1 st HY18 Period (for dates of service occurring in the 1 st RY18 Period)		2 nd RY18 Period (for dates of service occurring in the 2 nd RY18 Period)
	\$260.09 for Medicaid/Medicare Part B eligible patients and \$281.25 for Medicaid-only eligible patients.		are \$268.61 for Medicaid/Medicare Part B eligible patients and \$290.47 for Medicaid-only eligible patients.
6.	The Hospital may not bill for more than one APAD even if the patient fluctuates between acute status and AD status.	6.	The Hospital may not bill for more than one APAD even if the patient fluctuates between acute status and AD status.

H. Rehabilitation Unit Services in Acute Hospitals

RY18 is bifurcated into the 1st RY18 Period and the 2nd RY18 Period for purposes of applying the Rehabilitation Unit per diem payment. The methodology in the "1st RY18 Period" column of this **Section III.H**, below, applies to dates of service in the 1st RY18 Period and incorporates applicable definitions in **Section II** that apply to the 1st RY18 Period. The methodology in the "2nd RY18 Period" column applies to dates of service in the 2nd RY18 Period and incorporates applicable definitions in **Section II** that apply to the 2nd RY18 Period. The 1st RY18 Period methodology is the same methodology that applied during RY17 under approved SPA TN-016-015.

1st RY18 Period (for dates of service occurring in the 1st RY18 Period)	2 nd RY18 Period (for dates of service occurring in the 2 nd RY18 Period)
A DPH-licensed Acute Hospital with a Rehabilitation Unit may bill a per diem rate for Rehabilitation Services provided in the Rehabilitation Unit.	A DPH-licensed Acute Hospital with a Rehabilitation Unit may bill a per diem rate for Rehabilitation Services provided in the Rehabilitation Unit.
For dates of service in the 1 st RY18 Period, the per diem rate for such Rehabilitation Services will equal the median MassHealth RY17 Rehabilitation Hospital group per diem rate for Chronic Disease and Rehabilitation hospitals. Acute Hospital Administrative Day rates (see Section III.G above) will be paid for all days that a patient remains in the Rehabilitation Unit while not at hospital level of care.	For dates of service in the 2 nd RY18 Period, the per diem rate for such Rehabilitation Services will equal the median MassHealth RY18 Rehabilitation Hospital group per diem rate for Chronic Disease and Rehabilitation hospitals. Acute Hospital Administrative Day rates (see Section III.G above) will be paid for all days that a patient remains in the Rehabilitation Unit while not at hospital level of care.

TN: 017-015

I. Payment for LARC Device

This **Section III.I** applies to qualifying admissions in the 2nd RY18 Period, and does not apply to admissions in the 1st RY18 Period. The definitions applicable to the 2nd RY18 Period from **Section II** are incorporated.

A Hospital may be paid separate from the APAD for a LARC Device if the LARC procedure is performed immediately after labor and delivery during same inpatient hospital labor and delivery stay for clinically appropriate members. For qualifying discharge, Hospitals will be reimbursed for LARC Devices in accordance with Section 8.d. of Attachment 4.19-B of the State Plan.

J. Payment for Unique Circumstances

1. High Public Payer Hospital Supplemental Payment

a. Eligibility

In order to qualify for this supplemental payment, a Hospital must have received greater than 63% of its Gross Patient Service Revenue (GPSR) in FY2016 from government payers and uncompensated care as determined by the Hospital's FY2016 Massachusetts Hospital Cost Report.

b. Supplemental Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, EOHHS will make a supplemental payment to qualifying Hospitals.

The supplemental payment amount for each qualifying hospital will be determined by apportioning a total of \$6.5 million to qualifying hospitals on a pro rata basis according to each qualifying hospital's number of MCO, Primary Care ACO, and PCC Plan inpatient discharges in FY18, with each qualifying hospital's FY18 MCO and Primary Care ACO discharge volume weighted at 60% and each qualifying hospital's FY18 PCC Plan discharge volume weighted at 40%.

For purposes of this calculation, "MCO, Primary Care ACO, and PCC Plan inpatient discharges in FY18" refer to paid inpatient discharges from the qualifying hospital for MassHealth Members enrolled in an MCO, a Primary Care ACO, or the PCC Plan, as determined by EOHHS utilizing, for the MCO discharge volume, MCO encounter data submitted by each MCO for FY18 and residing in the MassHealth data warehouse as of March 31, 2019, and for the PCC Plan and Primary Care ACO discharge volume, Medicaid paid claims data for FY18 residing in MMIS as of March 31, 2019, for which MassHealth is primary payer. "MCO" for purposes of this Section III.J.1 refers to all MCOs as defined in Section II, except Senior Care Organizations and One Care plans. Only MCO encounter data and MMIS paid claims data pertaining to qualifying High Public Payer Hospitals (as specified in Section III.J.1.a) is considered in determining the pro rata share.

TN: 017-015

2. Essential MassHealth Hospitals

a. Eligibility

In order to qualify for payment as an Essential MassHealth Hospital, a Hospital must itself meet, or be within a system of Hospitals, any one of which meets, at least four of the following criteria, as determined by EOHHS, provided that all Hospitals within such system are owned or controlled, directly or indirectly, by a single entity that (i) was created by state legislation prior to 1999; and (ii) is mandated to pursue or further a public mission:

- (1) The Hospital is a non-state-owned public Acute Hospital.
- (2) The Hospital meets the current MassHealth definition of a non-profit teaching Hospital affiliated with a Commonwealth-owned medical school.
- (3) The Hospital has at least 7% of its total patient days as Medicaid days.
- (4) The Hospital is an acute care general Hospital located in Massachusetts which provides medical, surgical, emergency and obstetrical services.
- (5) The Hospital enters into a separate contract with EOHHS relating to payment as an Essential MassHealth Hospital.

Based on these criteria, Cambridge Health Alliance (CHA) and the UMass Memorial Health Care, Inc. Hospitals (UMass Hospitals) are the only Hospitals eligible for this payment.

b. Supplemental Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, including 42 CFR 447.271, EOHHS will make a supplemental payment to Essential MassHealth Hospitals. This payment is based on approval by EOHHS of the Hospital's accurately submitted and certified EOHHS Office of Medicaid Uniform Medicaid and Low Income Uncompensated Care Cost & Charge Report (UCCR) for the hospital fiscal year corresponding with the payment.

For the UMass Hospitals, the Federal Fiscal Year 2018 (FFY18) inpatient payment amount will be \$6,000 times the total number of inpatient days for admissions beginning during FFY18, not to exceed \$52.03 million. Notwithstanding such maximum amount, EOHHS may make inpatient payments to the UMass Hospitals of up to an additional 10% of such amount, subject to compliance with all applicable federal rules and payment limits, including 42 CFR 447.271, and satisfying all other conditions of this **Section III.J.2.b** as it applies to the UMass Hospitals, so long as the total FFY18 inpatient and outpatient Essential MassHealth Hospital supplemental payment amounts to the UMass Hospitals under this paragraph and

TN: 017-015

under **Section III.F.2** of Attachment 4.19-B(1) (TN-017-016) do not exceed \$68.0 million in the aggregate.

For CHA, the Federal Fiscal Year inpatient payment amount will be the difference between the non-state-owned public hospital Upper Payment Limit (calculated on an annual basis) and other payments made under this Attachment, not to exceed \$5.94 million. Notwithstanding such maximum amount, EOHHS may make inpatient payments to CHA of up to an additional 10% of such amount, subject to compliance with all applicable federal rules and payment limits, including 42 CFR 447.271, and satisfying all other conditions of this **Section III.J.2.b** as it applies to CHA, so long as the total inpatient and outpatient Essential MassHealth Hospital supplemental payment amounts to CHA for the Federal Fiscal Year under this paragraph and under **Section III.F.2** of Attachment 4.19-B(1) (TN-017-016) do not exceed \$20.0 million in the aggregate.

The 10% provisions referenced above in this section may be invoked if, upon reconciliation, an applicable outpatient hospital limit would be exceeded if the UMass Hospitals or CHA (as applicable) were paid their maximum FFY18 outpatient Essential MassHealth Hospital Supplemental Payment amount under **Section III.F.2** of Attachment 4.19-B(1) (TN-017-016), or if the UMass Hospitals or CHA (as applicable) have insufficient outpatient utilization or otherwise to support the payment of such maximum outpatient payment amount.

Essential MassHealth Hospital payments will be made after EOHHS' receipt of the hospital's certified UCCR, finalization of payment data and applicable payment amounts, and receipt of any necessary approvals, but no later than 1 year after receipt of the hospital's final reconciliation UCCR (which must be submitted by 45 days after the Hospital's Medicare 2552 Report for the payment year has been finalized by Medicare's Fiscal Intermediary).

3. High Medicaid Volume Freestanding Pediatric Acute Hospitals

a. Eligibility

Based on the definition of High Medicaid Volume Freestanding Pediatric Acute Hospital as defined in **Section II**, Boston Children's Hospital is the only Hospital eligible for this payment.

b. Supplemental Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, EOHHS will make a supplemental payment to High Medicaid Volume Freestanding Pediatric Acute Hospitals to account for high Medicaid volume.

The supplemental payment amount is determined by EOHHS based on data filed by each qualifying Hospital in its financial and cost reports, and projected Medicaid volume for the hospital Federal Fiscal Year. The Federal Fiscal Year payment is based on Medicaid payment and cost data. The payment equals the variance between the Hospital's inpatient Medicaid payments and inpatient Medicaid costs, not to exceed \$3,850,000. High Medicaid Volume Freestanding Pediatric Acute Hospital payments will be made after

TN: 017-015

finalization of payment data, applicable payment amounts, and obtaining any necessary approvals.

4. Acute Hospitals with High Medicaid Discharges

a. Eligibility

In order to qualify for payment as an Acute Hospital with High Medicaid Discharges, a Hospital must be an Acute Hospital that has more than 2.7% of the statewide share of Medicaid discharges, determined by dividing each Hospital's total Medicaid discharges as reported on the Hospital's Massachusetts Hospital Cost Report by the total statewide Medicaid discharges for all Hospitals.

b. Supplemental Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, EOHHS will make a supplemental payment to Acute Hospitals that have higher Medicaid discharges when compared with other participating MassHealth Hospitals.

The payment amount is based on Medicaid payment, cost and charge data for the federal fiscal year. The payment equals the variance between the Hospital's inpatient Medicaid payment and inpatient Medicaid costs, not to exceed the Hospital's Health Safety Net Trust Fund-funded payment amount for the federal fiscal year. Interim payments to Acute Hospitals with High Medicaid Discharges will be reconciled within 12 months after final settlement of the applicable Health Safety Net year.

5. Freestanding Pediatric Acute Hospitals with High Complexity Cases

a. Eligibility

Based on the definition of Freestanding Pediatric Acute Hospital as defined in **Section II**, Boston Children's Hospital, and the two Shriners Hospitals (Shriners Hospital Boston, and Shriners Hospital – Springfield) are the only hospitals eligible for this payment.

b. Supplemental Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, EOHHS will make a supplemental payment to Freestanding Pediatric Acute Hospitals to account for the complex pediatric cases they provide care for.

The supplemental payment amount for each qualifying hospital will be determined by apportioning a total of \$7.6 million to qualifying hospitals on a pro-rata basis according to each qualifying hospital's number of inpatient discharges occurring in FY17, based on Medicaid paid claims data on file as of March 31, 2018.

TN: 017-015

6. Pediatric Specialty Units with High Complexity Cases

Eligibility

In order to qualify for this payment, a Hospital must have a Pediatric Specialty Unit as defined in Section II. Based on this criteria, Tufts Medical Center is the only hospital eligible for this payment.

Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, EOHHS will make a supplemental payment to qualifying Hospitals with Pediatric Specialty Units to account for the complex pediatric cases they provide care for.

The supplemental payment amount for each qualifying hospital will be determined by apportioning a total of \$2.5 million to qualifying hospitals on a pro-rata basis according to each qualifying hospital's number of inpatient discharges occurring in FY17, based on Medicaid paid claims data on file as of March 31, 2018.

7. High Medicaid Volume Safety Net Hospital Supplemental Payment

Eligibility a.

In order to qualify for this payment, a Hospital must be a High Medicaid Volume Safety Net Hospital as defined in Section II, and must enter into a separate payment agreement with EOHHS relating to payment as a High Medicaid Volume Safety Net Hospital. Based on these criteria, Boston Medical Center is the only hospital eligible for this payment.

b. Payment Methodology

Subject to compliance with all applicable federal rules and payment limits, including 42 CFR 447.271, EOHHS will make a supplemental payment to High Medicaid Volume Safety Net Hospitals to account for high Medicaid volume. The payment amount will be based on Medicaid payment and charge data for the federal fiscal year. The payment will be an amount up to the variance between the Hospital's FY18 MMIS-based inpatient hospital charges and its other inpatient hospital payments made under this Attachment for the applicable federal fiscal year, not to exceed \$13.5 million.

8. Infant and Pediatric Outlier Payment Adjustments

Infant Outlier Payment Adjustment

In accordance with 42 U.S.C. § 1396a(s), EOHHS will make an annual infant outlier payment adjustment to Acute Hospitals for inpatient services furnished to infants under one year of age involving exceptionally high costs or exceptionally long lengths of stay

TN: 017-015

Supersedes: 016-015 **Approval Date:** Effective Date: 10/01/17

based on the prior year's claims data from the Medicaid Management Information System (MMIS).

i. Eligibility

In order to qualify for an infant outlier payment, a Hospital must provide services to infants less than one year of age, and must have one of the following during the Rate Year for individuals less than one year of age:

- An average Medicaid inpatient length of stay that equals or exceeds the statewide weighted average plus two standard deviations; or
- An average cost per inpatient Medicaid discharge that equals or exceeds the Hospital's average cost per Medicaid inpatient discharge plus two standard deviations for individuals of all ages.

Payment to Hospitals

Annually, each Hospital that qualifies for an infant outlier adjustment receives an equal portion of \$50,000. For example, if two Hospitals qualify for an outlier adjustment, then each Hospital receives \$25,000.

b. **Pediatric Outlier Payment Adjustment**

In accordance with 42 U.S.C. § 1396a(s), EOHHS will make an annual pediatric outlier payment adjustment to Acute Hospitals for inpatient services furnished to children greater than one year of age and less than six years of age involving exceptionally high costs or exceptionally long lengths of stay based on the prior year's discharge data from MMIS.

i. Eligibility

In order to qualify for a pediatric outlier payment, a Hospital must provide services to children greater than one year of age and less than six years of age, and must have one of the following during the Rate Year for individuals within this age range:

- An average Medicaid inpatient length of stay that equals or exceeds the statewide weighted average plus two standard deviations; or
- An average cost per inpatient Medicaid discharge that equals or exceeds the Hospital's average cost per Medicaid inpatient discharge plus two standard deviations for individuals of all ages.

TN: 017-015

Effective Date: 10/01/17 Supersedes: 016-015 **Approval Date:** MAR 1 5 2018

ii. Payment to Hospitals

Annually, each Acute Hospital qualifying for a pediatric outlier adjustment will receive \$1,000.

K. Pay-for-Performance (P4P) Payment

Pay-for-Performance (P4P) is MassHealth's method for quality scoring and converting quality scores to P4P payments contingent upon Hospital adherence to quality standards and achievement of performance thresholds and benchmarks. P4P incentive payments will be based on pay-for-performance (see subsection 3, below).

A Hospital will qualify to earn P4P payments if it meets data validation requirements and achieves performance thresholds for P4P measures listed below. Each measure is evaluated using the methods outlined below to produce measure rates which result in performance scores that are converted into incentive payments. A Hospital's performance scores are calculated as described in **subsection 3.c**, below.

The P4P program applies to inpatient services for MassHealth Members where Medicaid is the primary payer. In general, payment calculations are based on a combination of performance scores, which utilize all-Medicaid payer data, and the number of eligible discharges, which includes only individuals enrolled in the Primary Care Clinician (PCC) Plan and members with feefor-service coverage. The P4P payments are calculated based on 2017 data as described below.

1. Performance Measures

Quality performance goals and measures focus on areas where improvement is likely to have most impact on the health outcomes for this Member population:

- maternity;
- racial and ethnic health disparities;
- care coordination;
- emergency department care;
- tobacco treatment; and
- newborn.

The specific clinical process measures for which RY18 P4P incentive payments will be based are identified in the following tables, organized by Quality Measure Category:

TN: 017-015

Measure ID#	Maternity	
MAT-4	Cesarean Birth, Nulliparous term singleton vertex	
MAT-5	Appropriate deep vein thrombosis prophylaxis for cesarean sections	

Measure ID#	Health Disparities	
HD-2	Health Disparities - Clinical Composite Measure	

Measure ID#	Care Coordination Measure Set	
CCM-1	Reconciled medication list received at discharge (inpatient)	
CCM-2	Transition record with specified data received at discharge (inpatient)	
CCM-3	Timely transmission of transition record (inpatient)	

Measure ID#	Emergency Department Throughput Measure Set	
ED-1	Median time from ED arrival to ED departure for admitted ED patient	
ED-2	Median time from admit decision to ED departure for admitted patients	

Measure ID#	Tobacco Treatment	
TOB-1	Tobacco use screening	
TOB-2	Tobacco use treatment provided or offered	
TOB-3	TOB-3 Tobacco use treatment provided or offered at discharge	

Measure ID#	Newborn Measure Set	
NEWB-1	Exclusive breast milk feeding	
NEWB-2	Newborn Bilirubin screening	

2. Data Validation Requirements

In order to ensure the accuracy and reliability of the submitted data, all reported measures are subject to data validation requirements. The submitted electronic data must meet a minimum reliability standard. The minimum reliability standard is defined as an 80 percent

TN: 017-015

match for data elements. Hospitals are considered to have "passed" validation if the overall agreement score of 80 percent has been met, based on the first three quarters of data (Q1-2017, Q2-2017 and Q3-2017) required for performance evaluation.

3. Payment Methodology

P4P incentive payments will be based on pay-for-performance. Incentive payments based on the pay-for-performance approach are available with respect to the maternity, health disparities, care coordination, emergency department, tobacco treatment and newborn measure categories.

Incentive payments are calculated by multiplying the Hospital's eligible Medicaid discharges by the quality measure category per discharge amount and the total performance score.

Incentive payments will be made as lump sum payments to eligible Hospitals, after finalization of the performance measure data and applicable payment amounts.

a. Eligible Medicaid Discharges

For purposes of this Section III.K.3.a., "FY17 MMIS Discharge Data" refers to Hospital discharge data from MMIS paid claims for FY17 PCC Plan and Fee-for-Service discharges, only, for which MassHealth is the primary payer.

Eligible Medicaid discharges are used to determine the volume of a Hospital's discharges that are included in the RY18 Pay-for-Performance payment calculations. The volume of eligible Medicaid discharges is determined as follows utilizing FY17 MMIS Discharge Data as the data source:

- For the individual measures (maternity, tobacco treatment, care coordination, emergency department and newborn), the eligible Medicaid discharges will be determined based on the number of Hospital discharges in the FY17 MMIS Discharge Data that meet specific ICD requirements for each measure category. For certain measures (MAT, ED TOB, and NEWB), the ICD requirements are published in the Specifications Manual for National Hospital Inpatient Quality Measures (available at https://manual.jointcommission.org/pin/view/Manual/WebHome). Specifications for the remaining measures are available on the MassHealth Quality Exchange website at <a href="https://mass.gov/mass.health/mass.gov/m
- For the clinical health disparities composite measure (HD-2), the eligible Medicaid discharges will be determined based on the total number of "unique discharges" from the underlying individual measure categories considered as a whole, so that each unique discharge is only counted once. A unique discharge is a single paid claim from the FY17 MMIS Discharge Data for a Hospital discharge that meets the ICD population requirement for one or

TN: 017-015

more of the underlying individual measure categories (maternity, care coordination, tobacco treatment and newborn), and that meets the criteria for the composite measure calculation. HD-2 will not include the emergency department or newborn measure sets.

b. Quality Measure Category per Discharge Amount

The final per-discharge amounts will be determined by dividing the maximum allocated amount for each measure by the statewide eligible Medicaid discharges for each measure.

i. Maximum Allocated Amount

Incentive payments under the RFA will cumulatively total no more than the maximum amount allotted for each quality measure category in the following table:

Quality Measure Category	Maximum Allocated Amount	
Maternity	\$ 6,000,000	
Health Disparities -Clinical	\$ 2,000,000	
Care Coordination	\$ 6,000,000	
Emergency Department Throughput	\$ 4,000,000	
Tobacco Treatment	\$ 4,000,000	
Newborn	\$ 3,000,000	
TOTAL	\$25,000,000	

ii. Statewide Eligible Medicaid Discharges

The statewide eligible Medicaid discharges for each measure category are the sum of all eligible Medicaid discharges (see **subsection a** above) for Acute Hospitals for that category.

c. Total Performance Score

i. Individual Clinical Measure Categories

The total performance score is a percentage of quality points earned out of the total possible points for the relevant individual measure categories (maternity, care coordination, emergency department, tobacco treatment and newborn).

TN: 017-015

(Total Awarded Quality Points/Total Possible Points) x 100% = Total Performance Score

For each relevant individual clinical measure category, the quality points awarded are the sum of the higher of the attainment or the improvement points earned for each measure. These points are awarded for each measure category based on each Hospital's performance during the Comparative Measurement Period relative to the attainment threshold (the median performance of all Hospitals in the Baseline Measurement Period) and the benchmark (the mean of the top decile of all Hospitals in the Baseline Measurement Period).

The performance score Periods are as follows:

	Comparative Measurement Period	Baseline Measurement Period
Clinical Process Measures	CY 2017	CY 2016

Performance benchmarks for the maternity, care coordination, tobacco treatment and newborn measures are calculated based on Hospital data reported to MassHealth. Performance benchmarks for the nationally-reported hospital quality measure (emergency department throughput) is calculated based on state-level data reported to the CMS Hospital Compare website.

If the Hospital failed validation for a measure in the previous reporting year, data from that period is considered invalid for use in calculating year over year performance. Therefore, the Hospital would not be eligible for improvement points. However, it may be eligible for attainment points in the current reporting year based on calculation of the current reporting year's data for the measure if it passed validation in the current year and if the hospital has passed validation and established a baseline rate for the measure in a prior year.

(A) Attainment Points

A Hospital can earn points for attainment based on relative placement between the attainment threshold and benchmark, as follows:

• if a Hospital's score for a measure is equal to or less than the attainment threshold, it will receive zero points for attainment,

TN: 017-015 Supersedes: 016-015

Approval Date: MAR 15 2018 Effective Date: 10/01/17

- if a Hospital's score for a measure is greater than the attainment threshold but below the benchmark, it will receive 1-9 points for attainment, and
- if a Hospital's score for a measure is greater than or equal to the benchmark, it will receive the maximum 10 points for attainment.

(B) Improvement Points

The Hospital can earn points for improvement based on how much its performance score on the measure has improved from the Baseline Measurement Period as follows:

- if a Hospital's score for a measure is less than or equal to its score for the Baseline Measurement Period, it will receive zero (0) points for improvement.
- if a Hospital's score for a measure is greater than its score for the Baseline Measurement Period, it will receive 0-9 points for improvement.

(C) Example

The following is an example pay-for-performance calculation for the individual clinical Maternity measures, provided for illustrative purposes only.

Statewide calculations	
Maximum allocated amount	\$6,000,000
Statewide eligible Medicaid discharges	10,257
Quality measure category per-discharge amount	\$6,000,000/10,257 = \$585
Hospital-specific calculations	
Hospital's awarded Maternity quality points (sum of measure-specific attainment or improvement points)	32
Maximum possible Maternity quality points	40
Performance score for maternity	(32 points / 40 points) x 100% = 80%
Eligible Medicaid discharges	500
Hospital-specific total incentive payment, maternity	500 x \$585 x 80% = \$234,000

TN: 017-015

Supersedes: 016-015

ii. Clinical Health Disparities Composite Measure Category

The clinical health disparities composite measure for each hospital is comprised of aggregate data from specific individual clinical measure categories (maternity, care coordination, tobacco treatment and newborn) on which the hospital is eligible to report. The Hospital's composite measure compares the Hospital's performance among race/ethnicity groups and all groups combined, and is converted to a disparity composite value. The composite measure and disparity composite value are calculated only for Hospitals that report on more than one racial group in their electronic data files.

The health disparities measure will be assessed on a target attainment level using the following methods.

(A) Setting Performance Thresholds

- 1. Decile Thresholds. Performance will be assessed using a method that determines the Hospital's rank, relative to other Hospitals, based on the decile threshold system. Hospitals that meet the measure calculation criteria are divided into ten groups or deciles based on their disparity composite value, so that approximately the same number of Hospitals falls into each decile group.
- 2. Target Attainment Threshold. The target attainment threshold represents the minimum level of performance that must be achieved to earn incentive payments. The target attainment is defined as the boundary for a disparity composite value that falls above the 2nd decile group, as shown in the "Decile Performance Thresholds" table below.

(B) Assessing Performance.

The Hospital's clinical health disparity composite performance score will be calculated using the following methods:

- 1. Disparity Composite Value Ranking. All Hospital disparity composite values are rounded to six decimal places. All composite values are then divided into ten equal groups and ranked from highest to lowest so approximately the same number of Hospitals falls in each decile group.
- 2. Conversion Factor. Each decile group is assigned a weighted conversion factor associated with the decile threshold, as shown in the table below:

TN: 017-015

Decile Performance Thresholds

Performance Threshold	Decile Group	Conversion Factor	
Top Decile	10 th decile	1.0	
	9th decile	.90	
	8th decile	.80	
	7 th decile	.70	
	6 th decile	.60	
	5 th decile	.50	
	4 th decile	.40	
Target Attainment	3 rd decile	.30	
Lower Deciles	2 nd decile	(zero)	
	1st decile	(zero)	

To meet the target attainment threshold, the Hospital's disparity composite value must exceed the value above the 2nd decile cut-off point to fall in the next decile. Disparity composite values that fall into the 1st and 2nd decile group are assigned a conversion factor of zero. A disparity composite value that falls within the same given decile group are assigned the same conversion factor.

(C) Clinical Health Disparities Composite Total Performance Score.

The total performance score for the health disparities composite measure is the assigned conversion factor as shown in the preceding table, multiplied by 100%. Performance scores are calculated only for Hospitals that meet the measure calculation criteria and validation requirements, using only the Hospital's current year reported data.

TN: 017-015

IV. Potentially Preventable Readmissions (PPRs)

RY18 is bifurcated into the 1st RY18 Period and the 2nd RY18 Period for purposes of applying the Potentially Preventable Readmission (PPR) adjustment (if applicable) as part of the APAD, Outlier Payment and Transfer per Diem payment methodologies set forth in Sections III.B through III.D, above. The PPR methodology set forth in 1st RY18 Period column, below, applies when the 1st RY18 Period APAD, Outlier Payment or Transfer per Diem payment methodology(ies) apply. The PPR methodology set forth in the 2nd RY18 Period column, below, applies when the 2nd RY18 Period APAD, Outlier Payment or Transfer per Diem payment methodology(ies) apply. The 1st RY18 Period methodology is the same methodology that applied during RY17 under approved SPA TN-016-015.

1st RY18 Period

2nd RY18 Period

Hospitals with a greater number of Actual Potentially Preventable Readmission (PPR) Chains than Expected PPR Chains, based on data specified in **Section IV.B**, below, will be subject to a percentage payment reduction per discharge calculated using the methodology described below. This reduction will be applied to Hospitals identified using the methodology described below.

Hospitals with a greater number of Actual Potentially Preventable Readmission (PPR) Chains than Expected PPR Chains, based on data specified in **Section IV.B**, below, will be subject to a percentage payment reduction per discharge calculated using the methodology described below. This reduction will be applied to Hospitals identified using the methodology described below.

A. Definitions

Actual PPR Chains: The actual number of PPR Chains for a specific Hospital.

Actual PPR Volume: The number of Actual PPR Chains for the time period.

Actual PPR Rate: The number of Initial Admissions with one or more qualifying Clinically Related PPRs within a 30-day period divided by the total number of At-risk Admissions.

APR-DRG: The All Patient Refined-Diagnostic Related Group and Severity of Illness (SOI) combination assigned using the 3M PPR Grouper, version 32.

A. Definitions

Actual PPR Chains: The actual number of PPR Chains for a specific Hospital.

Actual PPR Volume: The number of Actual PPR Chains for the time period.

Actual PPR Rate: The number of Initial Admissions with one or more qualifying Clinically Related PPRs within a 30-day period divided by the total number of At-risk Admissions.

APR-DRG: The All Patient Refined-Diagnostic Related Group and Severity of Illness (SOI) combination assigned using the 3M PPR Grouper, version 33.

TN: 017-015

1st RY18 Period

At-risk Admissions: The number of Total Admissions considered at risk for readmission, as determined by the 3M PPR methodology, excluding mental health and substance abuse primary diagnoses.

Clinically Related: A requirement that the underlying reason for readmission be plausibly related to the care rendered during or immediately following a prior Hospital admission.

Expected PPR Chains: The number of PPR Chains a Hospital, given its mix of patients as defined by APR-DRG category, would have experienced had its rate of PPRs been identical to that experienced by a reference or normative set of Hospitals.

Expected PPR Rate: The number of Expected PPR Chains divided by the total number of Atrisk Admissions. The expected rate for each APR-DRG is the statewide average Actual PPR Rate for that APR-DRG.

Excess PPR Volume: The number of Actual PPR Chains above the number of Expected PPR Chains, as calculated by the 3M PPR methodology, for a specific Hospital. For a Hospital for which the number of Actual PPR Chains is equal to or less than the number of Expected PPR Chains, there is no Excess PPR Volume.

Hospital Discharge Volume: The number of Hospital discharges in FY15 for which an APAD was paid, as determined by EOHHS based on claims in MMIS as of March 31, 2016 and for which MassHealth is the primary payer.

Initial Admission: An admission that is followed by a Clinically Related readmission

2nd RY18 Period

At-risk Admissions: The number of Total Admissions considered at risk for readmission, as determined by the 3M PPR methodology, excluding mental health and substance abuse primary diagnoses.

Clinically Related: A requirement that the underlying reason for readmission be plausibly related to the care rendered during or immediately following a prior Hospital admission.

Expected PPR Chains: The number of PPR Chains a Hospital, given its mix of patients as defined by APR-DRG category, would have experienced had its rate of PPRs been identical to that experienced by a reference or normative set of Hospitals.

Expected PPR Rate: The number of Expected PPR Chains divided by the total number of Atrisk Admissions. The expected rate for each APR-DRG is the statewide average Actual PPR Rate for that APR-DRG.

Excess PPR Volume: The number of Actual PPR Chains above the number of Expected PPR Chains, as calculated by the 3M PPR methodology, for a specific Hospital. For a Hospital for which the number of Actual PPR Chains is equal to or less than the number of Expected PPR Chains, there is no Excess PPR Volume.

Hospital Discharge Volume: The number of Hospital discharges in FY16 for which an APAD was paid, as determined by EOHHS based on claims in MMIS as of June 7, 2017 and for which MassHealth is the primary payer.

Initial Admission: An admission that is followed by a Clinically Related readmission

TN: 017-015

1st RY18 Period

2nd RY18 Period

within a specified readmission time interval. Subsequent readmissions relate back to the care rendered during or following the Initial Admission. The Initial Admission initiates a PPR Chain.

Potentially Preventable Readmission (PPR): A readmission chain (return hospitalization within the specified readmission time interval) that is Clinically Related to the Initial Admission.

PPR Chain: A PPR or a sequence of PPRs. A PPR Chain can extend beyond 30 days, as long as the time between each discharge and subsequent readmission is within the 30-day time frame. Therefore, if Patient X is admitted on September 4th, readmitted on September 20th, and readmitted again on October 18th, that sequence is calculated as one (1) PPR Chain.

Readmission: A return hospitalization to an acute care Hospital that follows a prior Initial Admission from an acute care Hospital. Intervening admissions to non-acute care facilities are not considered readmissions. A readmission may be to an in-state or out-of-state acute care Hospital.

Total Admissions: The total number of Medicaid Fee For Service/PCC Plan admissions for the time period.

B. Determination of Readmission Rates and Volumes

PPRs are identified in adjudicated and paid inpatient Hospital claims residing in MMIS as of March 31, 2016, for which MassHealth is the primary payer, by using the 3M PPR software version 32. The time period for

within a specified readmission time interval. Subsequent readmissions relate back to the care rendered during or following the Initial Admission. The Initial Admission initiates a PPR Chain.

Potentially Preventable Readmission (PPR): A readmission chain (return hospitalization within the specified readmission time interval) that is Clinically Related to the Initial Admission.

PPR Chain: A PPR or a sequence of PPRs. A PPR Chain can extend beyond 30 days, as long as the time between each discharge and subsequent readmission is within the 30-day time frame. Therefore, if Patient X is admitted on October 4th, readmitted on October 20th, and readmitted again on November 18th, that sequence is calculated as one (1) PPR Chain.

Readmission: A return hospitalization to an acute care Hospital that follows a prior Initial Admission from an acute care Hospital. Intervening admissions to non-acute care facilities are not considered readmissions. A readmission may be to an in-state or out-of-state acute care Hospital.

Total Admissions: The total number of Medicaid Fee For Service/PCC Plan admissions for the time period.

B. Determination of Readmission Rates and Volumes

PPRs are identified in adjudicated and paid inpatient Hospital claims residing in MMIS as of June 7, 2017, for which MassHealth is the primary payer, by using the 3M PPR software version 33. The time period for identifying

TN: 017-015

1st RY18 Period

identifying Total and At-risk Admissions was from September 1, 2014 to August 31, 2015, based on date of discharge. The time period for identifying PPRs associated with these Atrisk Admissions was from September 1, 2014

III.D, as applicable to the 2nd RY18 Period.

V. Other Provisions

A. Federal Limits

If any portion of the reimbursement methodology is not approved by CMS or is in excess of applicable federal limits, EOHHS may recoup or offset against future payments, any payment made to a Hospital in excess of the approved methodology. Any such recovery shall be proportionately allocated among affected Hospitals.

B. Future Rate Years

Adjustments may be made each Rate Year to update rates and shall be made in accordance with the Hospital RFA and Contract in effect on that date.

C. Errors in Calculation of PPR

As set forth below, EOHHS will make corrections to a Hospital's final Hospital-specific potentially preventable readmission (PPR) calculations that apply to the 2nd RY18 Period retroactive to the effective date of the state plan. Such corrections of the Hospital's 2nd RY18 Period PPR calculations will apply to applicable 2nd RY18 Period inpatient rates of the Hospital

TN: 017-015

and will not affect computation of any statewide average or statewide standard amounts or of any of the efficiency standards applied to operating costs or to capital costs, and shall not affect the APAD, PPR calculations or any other rate or rate component of any other Hospital.

1. Incorrect Determination of Potentially Preventable Admissions (PPR)

In the event of an error in the calculation of a Hospital's PPR applicable to the 2nd RY18 Period made by EOHHS, resulting in an amount not consistent with the methodology and where the effect of the error is a decrease in the Hospital's estimated total APAD and Outlier Payments for the 2nd RY18 Period of 2% or more, a Hospital may request a correction to its 2nd RY18 Period PPR calculations, consistent with the RFA and contract, which shall be at the sole discretion of EOHHS.

D. New Hospitals/Hospital Change of Ownership

For any newly participating Hospital, or any Hospital which is party to a merger, sale of assets, or other transaction involving the identity, licensure, ownership or operation of the Hospital during the effective period of the state plan, EOHHS, in its sole discretion, shall determine, on a case-by-case basis (1) whether the Hospital qualifies for payment under the state plan, and, if so, (2) the appropriate rates of payment. Such rates of payment shall be determined in accordance with the provisions of the state plan to the extent EOHHS deems possible. EOHHS's determination shall be based on the totality of the circumstances. Any such rate may, in EOHHS's sole discretion, affect computation of the statewide average or statewide standard payment amount and/or any efficiency standard.

E. Data Sources

When groupers used in the calculation of the APAD and per diem rates are changed and modernized, it may be necessary to adjust the base payment rate so that overall payment levels are not affected solely by the grouper change. This aspect of "budget neutrality" has been a feature of the Medicare Diagnosis-Related Group (DRG) program since its inception. EOHHS reserves the right to update to a new grouper.

If data sources specified in this Attachment are not available, or if other factors do not permit precise conformity with the provisions of this Attachment, EOHHS shall select such substitute data sources or other methodology(ies) that EOHHS deems appropriate in determining Hospitals' rates.

TN: 017-015

VI. Provider Preventable Conditions

<u>Citation</u> Payment Adjustment for Provider Preventable Conditions

42 CFR 447,434,438 and 1902(a) (4), 1902 (a) (6)

and 1903

The Medicaid agency meets the requirements of 42 CFR Part 447, Subpart A, and sections 1902 (a) (4), 1902 (a) (6) and 1903 with respect to non-payment for provider-preventable conditions.

Health Care-Acquired Conditions

The State identifies the following Health-Care Acquired Conditions for non-payment under Attachment 4.19-A(1), (Acute Inpatient Hospital Services) under this State plan.

► Hospital Acquired Conditions as identified by Medicare other than Deep Vein Thrombosis (DVT)/ Pulmonary Embolism (PE) following total knee replacement or hip replacement surgery in pediatric and obstetric patients.

Other Provider-Preventable Conditions

The State identifies the following Other Provider-Preventable Conditions for non-payment under Attachment 4.19-A(1), (Acute Inpatient Hospital Services) under this State plan.

- Wrong surgical or other invasive procedure performed on a patient; surgical or other invasive procedure performed on the wrong body part; surgical or other invasive procedure performed on the wrong patient.
- Additional Other Provider-Preventable Conditions identified below.
- 1. Intraoperative or immediately postoperative / post procedure death in a ASA class 1 patient
- 2. Patient death or serious injury associated with the use of contaminated drugs, devices or biologics provided by the healthcare setting.
- 3. Patient death or serious injury associated with the use or function of a device in patient care, in which the device is used or functions other than as intended.
- 4. Patient death or serious injury associated with patient elopement (disappearance)
- 5. Patient suicide, attempted suicide, or self-harm resulting in serious injury, while being cared for in a healthcare setting.
- 6. Patient death or serious injury associated with a medication error (e.g., errors involving the wrong drug, wrong dose, wrong patient, wrong time, wrong rate, wrong preparation or wrong route of administration)
- 7. Maternal death or serious injury associated with labor or delivery in a low-

TN: 017-015

- risk pregnancy while being cared for in a healthcare setting.
- 8. Death or serious injury of a neonate associated with labor and delivery in a low-risk delivery.
- 9. Unstageable pressure ulcer acquired after admission / presentation in a healthcare setting.
- 10. Patient death or serious injury resulting from the irretrievable loss of an irreplaceable biological specimen,
- 11. Patient death or serious injury resulting from failure to follow up or communicate laboratory, pathology, or radiology test results.
- 12. Death or serious injury of a patient or staff associated with the introduction of a metallic object into the MRI area.
- 13. Patient death or serious injury associated with the use of physical restraints or bedrails while being cared for in a health care setting.
- 14. Death or serious injury of a patient or staff member resulting from a physical assault (i.e., battery) that occurs within or on the grounds of a healthcare setting.

No reduction in payment for a provider preventable condition will be imposed on a provider when the condition defined as a PPC for a particular patient existed prior to the initiation of treatment for that patient by that provider.

Reduction in provider payment may be limited to the extent that the following apply: (i) the identified provider preventable conditions would otherwise result in an increase in payment; (ii) the State can reasonably isolate for nonpayment the portion of the payment directly related to treatment for, and related to, the provider preventable condition.

A State plan must ensure that nonpayment for provider-preventable conditions does not prevent access to services for Medicaid beneficiaries.

Payment Method:

EOHHS will pay hospitals in accordance with the requirements of 42 CFR Part 447, Subpart A, and sections 1902(a)(4), 1902(a)(6) and 1903 with respect to non-payment for provider-preventable conditions.

Provider preventable conditions ("PPCs") are defined as those conditions that are identified as Health Care-Acquired Conditions ("HCACs") and Other Provider-Preventable Conditions ("OPPCs") listed above. The OPPCs include the three National Coverage Determinations (the "NCDs") and the Additional Other Provider Preventable Conditions ("Additional OPPCs") that are listed above.

When a Hospital reports a PPC that the Hospital indicates was not present on admission, MassHealth will reduce payments to the Hospital as follows:

TN: 017-015

1. APAD, Outlier Payment, and Transfer per diem payments:

- a. MassHealth will not pay the APAD, Outlier Payment, or Transfer per diem payment if the Hospital reports that only PPC-related services were delivered during the inpatient admission, and will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
- b. MassHealth will pay the APAD, Outlier Payment, or Transfer per diem payment, in each case as adjusted to exclude PPC-related costs or services, if the Hospital reports that non-PPC related services were also delivered during the inpatient admission, and will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.

2. Psychiatric, Rehabilitation, or Administrative Day Per Diem payments:

- a. MassHealth will not pay the per diem if the Hospital reports that only PPC-related services were delivered on that day, and will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
- b. MassHealth will pay the per diem if the Hospital reports that non-PPC related services were also delivered on that day, but will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.
- 3. Inpatient Hospital payments for Hospital-Based Physician Services: MassHealth will not pay for inpatient Hospital-based physician services reported as PPC-related services.
- 4. Follow-up Care in Same Hospital: If a hospital reports that it provided follow-up inpatient hospital services that were solely the result of a previous PPC (inpatient or outpatient) that occurred while the member was being cared for at a facility covered under the same hospital license, MassHealth will not pay for the reported follow-up services. If the Hospital reports that non-PPC-related services were provided during the follow-up stay, payment will be made, but adjusted in the case of APAD, Outlier payment, or Transfer per diem payments to exclude the PPC-related costs or services, and MassHealth will exclude all reported PPC-related costs/services when determining future year payment rates that are calculated using a data source that would otherwise include the PPC.

The federal non-payment provision also applies to third-party liability and crossover payments by MassHealth.

Charges for service, including co-payments or deductibles, deemed non-billable to MassHealth are not billable to the member.

In the event that individual cases are identified throughout the PPC implementation period, the Commonwealth shall adjust reimbursement according to the methodology above.

TN: 017-015

Supersedes: 016-015

Approval Date:

VII. Serious Reportable Events

The non-payment provisions set forth in this Section VII apply to the following serious reportable events (SREs):

- 1. Discharge or release of a patient/resident of any age, who is unable to make decisions, to other than an authorized person
- 2. Any incident in which systems designated for oxygen or other gas to be delivered to a patient contains no gas, the wrong gas or are contaminated by toxic substances
- 3. Any instance of care ordered by or provided by someone impersonating a physician, nurse, pharmacist, or other licensed health care provider.
- 4. Abduction of a patient/resident of any age.
- 5. Sexual abuse/assault on a patient or staff member within or on the grounds of the healthcare setting.

Hospitals are prohibited from charging or seeking payment from MassHealth or the Member for Hospital and Hospital-Based Physician services that are made necessary by, or are provided as a result of, a serious reportable event occurring on premises covered under the Hospital license that was preventable, within the Hospital's control, and unambiguously the result of a system failure, as described in DPH regulations at 105 CMR 130.332 as in effect on the date of service. Non-reimbursable Hospital and Hospital-Based Physician services include:

- 1. All services provided during the inpatient admission during which a preventable SRE occurred; and
- 2. All services provided during readmissions and follow-up outpatient visits as a result of a non-billable SRE provided:
 - a. at a facility under the same license as the Hospital at which a non-billable SRE occurred; or
 - b. on the premises of a separately licensed hospital with common ownership or a common corporate parent of the Hospital at which a non-billable SRE occurred.
- 3. Charges for services, including co-payments or deductibles, deemed non-billable to MassHealth are not billable to the Member.

The non-payment provision also applies to third-party liability and crossover payments by MassHealth.

A Hospital not involved in the occurrence of a preventable SRE that also does not meet the criteria in number 2 above, and that provides inpatient or outpatient services to a patient who previously incurred an SRE may bill MassHealth for all medically necessary Hospital and Hospital-Based Physician services provided to the patient following a preventable SRE.

TN: 017-015

State Plan under Title XIX of the Social Security Act State: Massachusetts

Methods Used to Determine Rates of Payment for Acute Inpatient Hospital Services
Exhibit 1: RY18 Payment Method for Critical Access Hospitals Effective
October 1, 2017 through September 30, 2018

EXHIBIT 1

Rate Year 2018 Payment Method Applicable to Critical Access Hospitals Effective October 1, 2017 through September 30, 2018

Section I. Overview

The payment methods set forth in this Exhibit 1 apply to Critical Access Hospitals for RY18 (October 1, 2017 through September 30, 2018).

Section II. Payment Method - General

EOHHS will pay Critical Access Hospitals an amount equal to 10 percent of the Hospital's allowable costs as determined by EOHHS utilizing the Medicare cost-based reimbursement methodology for the hospital's state plan services in RY18 (October 1, 2017 through September 30, 2018), as more fully described below. Interim payments will be made to Critical Access Hospitals based on the rates and methods set forth in this **Exhibit 1**, which payments are provisional in nature and subject to the completion of a cost review and settlement for the time period beginning October 1, 2017 through September 30, 2018, as described in **Section II(B)** of this **Exhibit 1**, below. Subject to this **Exhibit 1**, **Attachment 4.19-A(1)** otherwise applies to Critical Access Hospitals. If a Hospital loses its designation as a Critical Access Hospital, the payment methods for such hospital shall revert to the standard acute hospital rate methodologies, and payments may be adjusted accordingly. Reversion to any such rate methodologies shall not affect the payment rates to other participating acute hospitals for the applicable rate year.

(A) Payment for Inpatient Services

For inpatient admissions occurring in RY18, Critical Access Hospitals (CAHs) will be paid for Inpatient Services in accordance with **Attachment 4.19-A(1)** with the following changes.

Critical Access Hospitals will be paid an Adjudicated Payment Amount per Discharge (APAD) for those Inpatient Services for which all other in-state acute hospitals are paid an APAD.

Notwithstanding **Section III.B** of **Attachment 4.19-A(1)**, for inpatient admissions occurring in 1st RY18 Period, the APAD for each Critical Access Hospital is calculated, as follows, utilizing FY15 cost and discharge data:

(1) EOHHS calculated a cost per discharge for inpatient services for each Critical Access Hospital, which was determined by dividing the amount reported on worksheet E-3, part VII, column 1, line 40, of the Hospital's FY15 CMS-2552-10 cost report, by the Hospital's number of FY15 Medicaid (MassHealth) discharges. The Hospital's Medicaid (MassHealth) discharge volume was derived from FY15 paid claims data residing in MMIS as of May 24, 2016 for which MassHealth is the primary payer.

TN: 017-015

State Plan under Title XIX of the Social Security Act State: Massachusetts

Methods Used to Determine Rates of Payment for Acute Inpatient Hospital Services
Exhibit 1: RY18 Payment Method for Critical Access Hospitals Effective
October 1, 2017 through September 30, 2018

- (2) EOHHS then multiplied the cost per discharge amount by the Inflation Factors for Operating Costs between RY15 and RY17, resulting in the 1st RY18 Period cost per discharge for each Critical Access Hospital.
- (3) EOHHS then divided each Critical Access Hospital's 1st RY18 Period cost per discharge, as determined above, by each Hospital's FY15 inpatient casemix index (CMI), as determined by EOHHS.
- (4) That result is the 1st RY18 Period CAH-Specific Total Standard Rate per Discharge. This is an all-inclusive rate that replaces the APAD Base Payment used in the APAD calculations for all other Hospitals for admissions in the 1st RY18 Period.
- (5) The Critical Access Hospital's APAD for a specific discharge is then determined by multiplying the 1st RY18 Period CAH-Specific Total Standard Rate per Discharge by the applicable 1st RY18 Period discharge-specific MassHealth DRG Weight.
- (6) Critical Access Hospitals will not be subject to any adjustment under Section IV of Attachment 4.19-A(1).

Notwithstanding Section III.B of Attachment 4.19-A(1), for inpatient admissions occurring in 2nd RY18 Period, the APAD for each Critical Access Hospital is calculated, as follows, utilizing FY16 cost and discharge data:

- (1) EOHHS calculated a cost per discharge for inpatient services for each Critical Access Hospital, which was determined by dividing the amount reported on worksheet E-3, part VII, column 1, line 21, of the Hospital's FY16 CMS-2552-10 cost report, by the Hospital's number of FY16 Medicaid (MassHealth) discharges. The Hospital's Medicaid (MassHealth) discharge volume was derived from FY16 paid claims data residing in MMIS as of May 23, 2017 for which MassHealth is the primary payer.
- (2) EOHHS then multiplied the cost per discharge amount by the Inflation Factors for Operating Costs between RY16 and RY18, resulting in the 2nd RY18 Period cost per discharge for each Critical Access Hospital.
- (3) EOHHS then divided each Critical Access Hospital's 2nd RY18 Period cost per discharge, as determined above, by each Hospital's FY16 inpatient casemix index (CMI), as determined by EOHHS.
- (4) That result is the 2nd RY18 Period CAH-Specific Total Standard Rate per Discharge. This is an all-inclusive rate that replaces the APAD Base Payment used in the APAD calculations for all other Hospitals for admissions in the 2nd RY18 Period.
- (5) The Critical Access Hospital's APAD for a specific discharge is then determined by multiplying the 2nd RY18 Period CAH-Specific Total Standard Rate per Discharge by the applicable 2nd RY18 Period discharge-specific MassHealth DRG Weight.
- (6) Critical Access Hospitals will not be subject to any adjustment under Section IV of Attachment 4.19-A(1).

The following is an illustrative example of the calculation of the Total Case Payment for a CAH's standard APAD claim that does not also qualify for an Outlier Payment. This example assumes the 2nd RY18 Period applies.

Outlier Payments and transfer per diem rates for Critical Access Hospitals are calculated and paid as described in Sections III.C and III.D of Attachment 4.19-A(1), respectively, except that the APAD used for purposes of those calculations is the CAH's APAD as calculated as set forth in Section II.A of Exhibit 1, above (as applicable to admissions in the 1st RY18 Period or 2nd RY18 Period, respectively), and that Section IV of Attachment 4.19-A(1) does not apply to CAHs.

(B) Post RY18 Cost Review and Settlement

EOHHS will perform a post-Rate Year 2018 review to determine whether the Critical Access Hospital received aggregate interim payments in an amount equal to 101% of allowable costs utilizing the Medicare cost-based reimbursement methodology for the hospital's state plan services for RY18 as such amount is determined by EOHHS ("101% of allowable costs"). EOHHS will utilize the Critical Access Hospital's FY18 CMS-2552-10 cost reports (including completed Medicaid (Title XIX) data worksheets) and such other information that EOHHS determines is necessary, to perform this post RY18 review. "Aggregate interim payments" for this purpose shall include all state plan payments to the hospital for RY18, but excluding, if applicable, any state plan payments to a Critical Access Hospital under Section III.K of Attachment 4.19-A(1), and any supplemental payments made to a Critical Access Hospital based on its status as a qualifying Hospital as defined in Section III.J.1 of Attachment 4.19-A(1).

If the Critical Access Hospital was paid less than 101% of allowable costs, EOHHS will pay the Critical Access Hospital the difference between 101% of allowable costs and the aggregate interim payments. If the Critical Access Hospital was paid more than 101% of allowable costs, the Critical Access Hospital shall pay to EOHHS, or EOHHS may recoup or offset against future payments, the amount that equals the difference between the aggregate interim payments and 101% of allowable costs.

This post Rate Year 2018 review and settlement will take place within twelve (12) months after EOHHS has obtained all accurate and complete data needed to perform the review and settlement calculation. EOHHS estimates that it will have accurate and complete data by September 30, 2019. Assuming this date, the settlement will be complete by September 30, 2020.
