Baltimore, Maryland 21201

RE: State Plan Amendment 12-10

Dear Mrs. Tucker:

We have reviewed the proposed amendment to Attachment 4.19-D of your Medicaid State plan submitted under transmittal number (TN) 12-10. This amendment modifies the methods and standards for making Medical Assistance payments to nursing facilities (NFs). Specifically, this SPA implements changes in the occupancy standards used in developing per diem rates.

We reviewed this amendment pursuant to sections 1902(a)(3), 1902(a)(13), 1902(a)(30), and 1903(a) of the Social Security Act (the Act) and the regulations at 42 CFR 447 Subpart C. We are approving Medicaid State plan amendment 12-10 effective November 1, 2012. We are enclosing the Form-179 and the amended plan pages.

If you have any questions, please call Gary Knight at (304) 347-5723.

Sincerely,

↓      L      /  
Cindy Mann  
Director  
Centers for Medicaid & CHIP Services

23. REMARKS:			

4.19(d) Nursing facility payment rates are based on Maryland regulations COMAR 10.09.10 in order to account for the cost of services required to attain or maintain the highest practicable physical, mental, and psychosocial well-being of each resident eligible for Medicaid benefits. Payment rates for nursing facilities are the sum of per diem reimbursement calculations in 4 cost centers: administrative/routine, other patient care, capital, and nursing service; and payment for therapy services. Payments in the aggregate may not exceed Medicare upper limits as specified at 42 CFR 447.272.

In accordance with the Omnibus Budget Reconciliation Act of 1987, nursing facility payment rates, effective October 1, 1990, take into account the costs of nursing facilities' compliance with the requirements of Sections 1919(b) (other than paragraph (3)(F)), 1919(c), and 1919(d) of the Social Security Act.

During State fiscal periods beginning on or after July 1, 2009, rates are not revised using updated cost data.

Nursing facilities that are owned and operated by the State are not paid in accordance with the provisions described below, but are reimbursed reasonable costs based upon Medicare principles of reasonable cost as described at 42 CFR 413. Aggregate payments for these facilities may not exceed Medicare upper payments limits as specified at 42 CFR 447.272.

#### Administrative/Routine Costs

The Administrative/Routine cost center includes the following expenses: administrative, medical records, nurse aide registry fees, training, dietary, laundry, housekeeping, operation and maintenance, and capitalized organization and start-up costs. There are 4 reimbursement groups in this cost center; based on geographic location, as specified under COMAR 10.09.10.24A (which is appended to this attachment).

Provider's per diem costs are calculated at the actual occupancy of the nursing facility beds or at the Statewide average occupancy of nursing facility beds plus 1.5 percent (0.8 percent effective November 1, 2012 for rate periods for which the Statewide average occupancy is determined from data for periods prior to July 1, 2012), whichever is higher, for the calculation of ceilings, current interim costs and final costs. During the period November 1, 2012 through June 30, 2013, per diem rates shall be adjusted to reflect the difference between calculating rates based upon an occupancy standard of Statewide average plus 1.5 percent and Statewide average plus 0.8 percent, multiplied by 1.5.

Although an interim Administrative/Routine rate is calculated for each provider, based on indexed cost report data, the final per diem reimbursement rate, after cost settlement, is the sum of:

- (1) The provider's allowable per diem costs for covered services according to the principles of reasonable cost reimbursement established under 42 CFR Part 413, subject to the ceiling calculated for the provider's reimbursement class, and

A facility's net capital value rental per diem component is calculated as follows. At a minimum of every 4 years, each facility's building(s), nonmovable equipment and land are appraised. Using indices established by regulation, these appraisal amounts are indexed to the midpoint of the State fiscal year for which rates are being set. (Building value and nonmovable equipment are indexed by Quarterly Index for Construction, Baltimore, from Marshall Valuation Service - mean of indices for reinforced concrete and masonry bearing walls. Land value is indexed by Maryland land value statistics from the Bureau of Appraisal Review, Office of Real Estate, State Highway Administration, Department of Transportation. See COMAR 10.09.10.22 which is appended to this attachment.) The per bed value is subject to a ceiling which is established in accordance with COMAR 10.09.10.10G(4) (which is appended to this attachment.) The resulting allowable per bed value is then increased by adding an equipment allowance, which is also indexed each year based on indices set in regulation. (Quarterly Index for Hospital Equipment from Marshall Valuation Service. See COMAR 10.09.10.22 which is appended to this attachment.) The facility's allowable debt, that amount that does not exceed allowable capital value, is subtracted from the allowable capital value to arrive at the facility's net capital value. Net capital value is multiplied by the appropriate rental rate established at COMAR 10.09.10.10G(9) (which is appended to this attachment) to arrive at the provider's total net capital value rental. The per diem payment is derived by dividing this amount by the actual occupancy of the nursing facility beds plus 95 percent of licensed capacity of the non-nursing facility beds, or the Statewide average occupancy of nursing facility beds plus 1.5 percent (0.8 percent effective November 1, 2012 for rate periods for which the Statewide average occupancy is determined from data for periods prior to July 1, 2012), plus 95 percent of licensed capacity of the non-nursing facility beds, whichever is higher. During the period November 1, 2012 through June 30, 2013, per diem rates shall be adjusted to reflect the difference between calculating rates based upon a minimum occupancy of the nursing facility beds at Statewide average plus 1.5 percent and Statewide average plus 0.8 percent, multiplied by 1.5.

For leased facilities, the above procedure is modified as follows. A debt amount is calculated based on the assumptions that the original portion mortgaged was equal to 85 percent of the appraised value at the time the provider's original lease for the facility was executed, and that the mortgage was taken for a 20 year period with amortization calculated with constant payments. A mortgage interest rate is calculated using indices established at COMAR 10.09.10.10D (which is appended to this attachment).

A facility's recurring capital cost per diem component is calculated as follows. The sum of all recurring costs: taxes, insurance, allowable interest (interest on mortgage debt that does not exceed the facility's allowable capital value) and central office capital costs, are divided by actual occupancy of the nursing facility beds or the Statewide average occupancy of nursing facility beds plus 1.5 percent (0.8 percent effective November 1, 2012 for rate periods for which the Statewide average occupancy is determined from data for periods prior to July 1, 2012), whichever is higher. During the period November 1, 2012 through June 30, 2013, per diem rates shall be adjusted to reflect the difference between calculating rates based upon an occupancy standard of Statewide average plus 1.5 percent and Statewide average plus 0.8 percent, multiplied by 1.5. For leased facilities, taxes and insurance costs are included whether paid by the lessor or the lessee.

The interim capital per diem payment is subject to final reconciliation at cost settlement.
