Dear Mr. Fitton:

Enclosed for your records is an approved copy of the following State Plan Amendment:

- Transmittal: #13-010- Public Entity Adjustment Program
- Effective: April 1, 2013

This approval package is being reissued because the original letter identified the effective date as October 13, 2013 in error instead of April 1, 2013. If you have any questions, please contact Leslie Campbell at (312) 353-1557 or Leslie.Campbell@cms.hhs.gov.

Sincerely,

/s/
Verlon Johnson
Associate Regional Administrator
Division of Medicaid & Children's Health Operations

STATE PLAN UNDER TITLE XIX OF THE SOCIAL SECURITY ACT

State of MICHIGAN

Policy and Methods for Establishing Payment Rates (Other than Inpatient Hospital and Long Term Care Facilities)

The payment adjustment will be the lesser of:

- The difference between 95.7% of the average commercial rate for services provided on or after January 17, 2010. The average commercial rate is established separately for each public entity. It is derived by calculating a weighted average by procedure code, of a minimum of five non-governmental payers whose combined business constitutes not less than 50% of a practice or practice groups' commercial business. In order to derive the average commercial rate for procedures, each participating public entity must submit commercial fee schedules for the taxable entity most representative of the primary provider group of the public entity's medical group. The fee schedules submitted must clearly demonstrate pricing information by procedure code by commercial payer. Additionally, the public entity must indicate the percent of business each commercial payer constitutes of their total commercial business revenue. A weighted average by procedure code will be calculated at the public entity level from the submitted fee schedules. The state will calculate average rates on an annual basis using fee schedules in effect for the calendar year which includes the first quarter of the fiscal year for which the average rates will be applied. Beginning April 1, 2013, providers participating in the Public Entity Adjustment Program shall receive the difference between 100% of the average commercial rate and the total base payments already made to the providers by Medicaid and any other payer.
- The difference between the practitioner FFS Medicaid fee screens and the practitioner's customary charge.

Services to beneficiaries enrolled in Medicaid Managed Care Organizations (MMCOs) are not included in the payment adjustments. No provider will receive payments that in aggregate exceed their customary charges.

Practitioners will receive a base payment equal to the FFS payment to other practitioners when they bill for services. For each fiscal quarter, the public entity will provide a listing of the identification numbers for their practitioners/ practitioner groups that are affected by this payment adjustment to the MSA. The MSA will generate a report, which includes the identification numbers and utilization data for the affected practitioners/ practitioner groups. This report will be provided to the public entity. The public entity must review the report and acknowledge the completeness and accuracy of the report. After receipt of this confirmation, the MSA will approve and process the payment adjustments for each fiscal quarter within 60 days. The process includes a reconciliation that takes into account all valid claim replacements affecting claims that were previously processed.

After the MSA confirms the accuracy of the payment adjustments, the adjustments will be sent to the practitioners/ practitioner groups through the identification number used to bill Medicaid under the FFS program.

Service providers may bill Medicaid for vaccines/toxoids which they have purchased. Medicaid reimburses the provider up to Medicare reimbursement rates.
