Voluntary Benefit Package Selection Assurances - Eligibility Group under Section 1902(a)(10)(A)(i)(VIII) of the Act

ABP2a

The state/territory has fully aligned its benefits in the Alternative Benefit Plan using Essential Health Benefits and subject to 1937 requirements with its Alternative Benefit Plan that is the state's approved Medicaid state plan that is not subject to 1937 requirements. Therefore the state/territory is deemed to have met the requirements for voluntary choice of benefit package for individuals exempt from mandatory participation in a section 1937 Alternative Benefit Plan.

These assurances must be made by the state/territory if the Adult eligibility group is included in the ABP Population.

- The state/territory shall enroll all participants in the "Individuals at or below 133% FPL Age 19 through 64" (section 1902(a)(10)(A)(i)(VIII)) eligibility group in the Alternative Benefit Plan specified in this state plan amendment, except as follows: A beneficiary in the eligibility group at section 1902(a)(10)(A)(i)(VIII) who is determined to meet one of the exemption criteria at 45 CFR 440.315 will receive a choice of a benefit package that is either an Alternative Benefit Plan that includes Essential Health Benefits and is subject to all 1937 requirements or an Alternative Benefit Plan that is the state/territory's approved Medicaid state plan not subject to 1937 requirements. The state/territory's approved Medicaid state plan includes all approved state plan programs based on any state plan authority, and approved 1915(c) waivers, if the state has amended them to include the eligibility group at section 1902(a)(10)(A)(i)(VIII).
- The state/territory must have a process in place to identify individuals that meet the exemption criteria and the state/territory must comply with requirements related to providing the option of enrollment in an Alternative Benefit Plan defined using section 1937 requirements, or an Alternative Benefit Plan defined as the state/territory's approved Medicaid state plan that is not subject to section 1937 requirements.
- Once an individual is identified, the state/territory assures it will effectively inform the individual of the following:
 - a) Enrollment in the specified Alternative Benefit Plan is voluntary;
 - b) The individual may disenroll from the Alternative Benefit Plan defined subject to section 1937 requirements at any time and instead receive an Alternative Benefit Plan defined as the approved state/territory Medicaid state plan that is not subject to section 1937 requirements; and
 - c) What the process is for transferring to the state plan-based Alternative Benefit Plan.
- The state/territory assures it will inform the individual of:
 - a) The benefits available as Alternative Benefit Plan coverage defined using section 1937 requirements as compared to Alternative Benefit Plan coverage defined as the state/territory's approved Medicaid state plan and not subject to section 1937 requirements; and
 - b) The costs of the different benefit packages and a comparison of how the Alternative Benefit Plan subject to 1937 requirements differs from the Alternative Benefit Plan defined as the approved Medicaid state/territory plan benefits.
