- 4.19 (m) Medicaid Reimbursement for Administration of Vaccines under the Pediatric Immunization Program
- 1928(c)(2)(C)  
(ii) of the Act
- (i) A provider may impose a charge for the administration of a qualified pediatric vaccine as stated in 1928(c)(2)(C)(ii) of the Act. Within this overall provision, Medicaid reimbursement to providers will be administered as follows.
- (ii) The State:
- \_\_\_ sets a payment rate at the level of the regional maximum established by the DHHS Secretary.
- \_\_\_ is a Universal Purchase State and sets a payment rate at the level of the regional maximum established in accordance with State law.
- \_\_\_ sets a payment rate below the level of the regional maximum established by the DHHS Secretary.
- X is a Universal Purchase State and sets a payment rate below the level of the regional maximum established by the Universal Purchase State.
- The State pays the following rate for the administration of a vaccine: rate = \$6.20 for the first vaccine and \$3.50 for each additional vaccine administered on the same day
- (iii) Medicaid beneficiary access to immunization is assured through the following methodology:
- NH has been a Universal Purchase and Distribution State since 1991 and continues to pay for administration of the vaccine. The Medicaid Office works closely with the Division of Public Health's Vaccine program, and vaccines are distributed through an extensive Medicaid provider network of practitioners that are typically already utilized by Medicaid recipients. Medicaid recipients may call the Medicaid client services unit to find available providers, as well as to access information about language interpreter services as needed.
