4. Describe the public process utilized for both the design of the program and its initial implementation. In addition, describe what methods the state will use to ensure ongoing public involvement once the state plan program has been implemented. *(Example: public meeting, advisory groups.)*

Pursuant to 42 CFR 438.50(b)(4), the State shall provide public notice to promote public involvement in the design and initial implementation of the program as well as during contract procurement. The public notice shall be a notice of publication published in a newspaper in Southern Nevada and in a newspaper in Northern Nevada. The Medical Care Advisory Committee (MCAC) advises the DHCFP regarding provisions of services for the health and medical care of Medicaid beneficiaries. Under the PCCM, an outreach plan is required and designed to educate stakeholders on its activities within the State.

1932(a)(1)(A)

5. The state plan MCO program will /will not implement mandatory enrollment into managed care on a statewide basis. If not statewide, mandatory / voluntary enrollment will be implemented in the following county/area(s):

For Native Americans, children defined as the Severely Emotionally Disturbed (SED), adults defined as Seriously Mentally Ill (SMI) and children who qualify as Children with Special Health Care Needs (CSHCN) in Urban Clark and Washoe counties, enrollment is voluntary and beneficiaries may "opt out" of the MCOs.

Nevada Medicaid Newly Eligibles, defined as childless adults ages 19-64, and the expanded parent and caretakers ages 19-64, who are made eligible as part of the Patient Protection and Affordable Care Act (PPACA) expansion population and who are receiving the Alternative Benefit Plan, cannot opt out of managed care, where available, based on a determination of Serious Mental Illness (SMI).

H. Enrollment process.

1932(a)(4)
42 CFR 438.50

1. Definitions

An existing provider-recipient relationship is one in which the provider was the main source of Medicaid services for the recipient during the previous year. This may be established through state records of previous managed care enrollment or fee-for-service experience or through contact with the recipient.

- i. A provider is considered to have "traditionally served" Medicaid recipients if it has experience in serving the Medicaid population.

1932(a)(4)
42 CFR 438.50

2. State process for enrollment by default.

Describe how the state's default enrollment process will preserve:

- i. the existing provider-recipient relationship (as defined in H.1.i).

New members will be allowed the opportunity to select an MCO with their Primary Care Provider (PCP) in network. Returning Medicaid beneficiaries will be assigned to their former MCO and PCP. The MCO will then ensure that the prior provider-beneficiary relationship is preserved if the provider is still in that MCO's network.

The State will provide new Medicaid beneficiaries with the websites and phone numbers of the State's contracted Medicaid MCOs. New Medicaid beneficiaries will be asked to complete

Condition or Requirement

12. Pre-Admission Screening and Resident Review (PASRR) and Level of Care (LOC) Assessments

A PASRR and LOC are reimbursed by FFS. Conducting a PASRR and LOC will not prompt MCO disenrollment. However, if the beneficiary is admitted into a nursing facility as the result of a PASRR and LOC, the MCO is responsible for the first 45 days of admission for the beneficiary (see 3., above).

13. Seriously Emotionally Disturbed/Severely Mentally Ill SED/SMI, with limitations

The MCO must ensure enrollees who are referred for evaluation for SED/SMI or who have been determined SED/SMI by the health plan are obtaining the medically necessary evaluations and that enrollees are transitioned, as necessary, to another provider in order to obtain their mental health services if such services are not available within the network. The MCO is required to notify the DHCFP if a Title XIX Medicaid beneficiary elects to disenroll with the MCO following the determination of SED/SMI and forward the enrollee's medical records to the provider from whom the enrollee will receive the covered mental health services. However, in the event the Medicaid enrollee, who has received such a determination, chooses to remain enrolled with the MCO, the MCO will be responsible for providing all patient care.

Nevada Medicaid Newly Eligibles, defined as childless adults ages 19-64, and the expanded parent and caretakers ages 19-64, who are made eligible as part of the PPACA expansion population and who are receiving the Alternative Benefit Plan, cannot opt out of managed care, where available, based on a determination of Serious Mental Illness (SMI).

1932 (a)(1)(A)(ii) M. Selective contracting under a 1932 state plan option

To respond to items #1 and #2, place a check mark. The third item requires a brief narrative.

The state will ___/will not X intentionally limit the number of entities it contracts under a 1932 state plan option.

1. ___ The state assures that if it limits the number of contracting entities, this limitation will not substantially impair beneficiary access to services.
2. Describe the criteria the state uses to limit the number of entities it contracts under a 1932 state plan option. (Example: a limited number of providers and/or enrollees.)
3. ___ The selective contracting provision is not applicable to this state plan.

Employer Sponsored Insurance and Payment of Premiums

ABP9

The state/territory provides the Alternative Benefit Plan through the payment of employer sponsored insurance for participants with such coverage, with additional benefits and services provided through a Benchmark or Benchmark-Equivalent Benefit Package.

Yes

Provide a description of employer sponsored insurance, including the population covered, the amount of premium assistance by population, employer sponsored insurance activities including required contribution, cost-effectiveness test requirements, and benefit information:

Nevada Medicaid may pay insurance premiums through Employer-Based Group Health Plans for individuals and families when it is cost effective for the agency. In determining cost-effectiveness, the fiscal agent uses a formula as set forth in the State Plan or considers whether the individual has catastrophic illness or condition (e.g., AIDS or AIDS-related conditions, Down Syndrome, cerebral palsy, cystic fibrosis, fetal alcohol syndrome, etc.)

DHCFP's Health Insurance Premium Payment (HIPP) program, as of 11/22/2013, covered 92 fee-for-service recipients. The monthly HIPP premiums that are paid by the State totaled \$40,883, the average monthly claims cost avoided by the State due to HIPP coverage was \$198,506. This means that the HIPP program saved the State \$157,623 (\$198,506 - \$40,883) in November 2013. This means that the annual savings of the HIPP program is estimated to be \$1,891,476 (\$157,623 * 12).

The HIPP program is eligible to any fee-for-service recipient that has access to an employer sponsored group health plan that provides physician and major medical coverage. The cost-effectiveness test is as follows: 1) The recipient and their family are eligible if the Medicaid recipient has a catastrophic illness; 2) If the recipient does not have a catastrophic condition then the recipient and their family are eligible if the previous six month average of Medicaid paid claims is more than twice the monthly HIPP coverage premium.

The HIPP payments are generally made directly to the employer or the health insurer; however, the payments could be made to the recipient as a last resort. DHCFP or its agent validates that the HIPP coverage is in effect every thirty to sixty days.

The state/territory otherwise provides for payment of premiums.

Yes

Provide a description including the population covered, the amount of premium assistance by population, required contributions, cost-effectiveness test requirements, and benefits information.

Other Information Regarding Employer Sponsored Insurance or Payment of Premiums:

The state assures that ESI coverage is established in sections 3.2 and 4.22(h) of the state's approved Medicaid state plan. The beneficiary will receive a benefit package that includes a wrap of benefits around the employer sponsored insurance plan that equals the benefit package to which the beneficiary is entitled. For a Medicaid beneficiary who receives coverage in a health plan in the individual market through the state's approved Medicaid state plan that provides premium assistance under section 1905(a) and regulations codified at 42 CFR §435.1015, the state assures that the Medicaid beneficiary will receive a benefit package that includes a wrap of benefits around the individual market health plan that equals the benefit package to which the beneficiary is entitled. The beneficiary will not be responsible for payment of premiums or other cost sharing that exceeds nominal levels as established at 42 CFR part 447 subpart A.

i. The additional benefits, on top of the ESI, to which the beneficiary is entitled include those called out in ABP 7 (FQHC/RHC services, family planning services, etc.)
