RE: TN 09-24

Dear Ms. Bachrach:

We have reviewed the proposed amendment to Attachment 4.19-A of your Medicaid State plan submitted under transmittal number (TN) 09-24. Effective April 1, 2009, this amendment proposes to extend several inpatient hospital reimbursement rate adjustments.

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2) 1902(a)(13), 1902(a)(30), 1903(a), and 1923 of the Social Security Act and the regulations at 42 CFR 447 Subpart C. I am pleased to inform you that New York 09-24 is approved effective April 1, 2009 and have enclosed the HCFA-179 and the approved plan page.

If you have any questions, please contact Tom Brady at 518-396-3810 or Rob Weaver at 410-786-5914.

Sincerely,

Cindy Mann  
Director

Center for Medicaid and State Operations (CMSO)

**Attachment 4.19-A  
(04/09)**

- (2) a factor of ¼ percent of a general hospital's trended reimbursable inpatient operating cost as defined in §86-1.54 of this Subpart, shall be allocated to costs of general hospitals for technology advances, provided, however, this allocation shall not apply for the periods April 1, 1996 through March 31, 1999, and July 1, 1999 through March 31, 2009[;], and on or after April 1, 2009 through March 31, 2011.
- (3) a factor of ¼ percent of a general hospital's trended reimbursable inpatient operating cost as defined in §86-1.54 of this Subpart shall be allocated to the costs of general hospitals for increased activities related to quality assurance and patient discharge planning; and
- (4) the balance of the [one hundred and thirty] \$130 million [dollars] after deducting the dollar value of the allocation specified in subclauses (1), (2) and (3) above shall be allocated to costs of general hospitals based on the ratio of each general hospital's 1985 costs incurred in excess of the trend factor between 1981 and 1985 in the following discrete areas, summed, to the total sum of such cost over trend of all general hospitals applied to such balance: malpractice insurance costs, infectious and other waste disposal costs, water charges, direct medical education expenses, working capital interest costs of hospitals that qualified for distributions pursuant to §86-1.36 of this Subpart, costs of distinct psychiatric units excluded from the case based payment, and ambulance costs. For the purpose of this sub-clause, 1985 cost incurred in excess of trend factor between 1981 and 1985 shall be calculated for each such discrete area based on a general hospital's inpatient operating costs.

provided to beneficiaries of title XVIII of the Federal Social Security Act and excluding direct medical education costs.

(b) Effective January 1, 1991 through March 31, 1995, and effective on and after April 1, 1996, \$33 million shall be allocated for technology advances and changes in medical practice. Amounts allocated to each general hospital shall be based on a fixed amount per bed determined by multiplying the number of certified inpatient beds for each general hospital as of June 30, 1990 by the result of dividing the \$33 million by the sum of the certified inpatient beds for all general hospitals. Provided, however, this allocation shall not apply for the periods April 1, 1996 through March 31, 1999 and July 1, 1999 through March 31, 2009, and on or after April 1, 2009 through March 31, 2011.

(c) \$26 million shall be allocated to costs of general hospitals based on the costs incurred in excess of the trend factor between 1985 and 1989 in the following discrete areas: infectious and other waste disposal costs, universal precautions, working capital interest costs, costs for asbestos removal, costs of low osmolality contrast media, malpractice costs, water and sewer charges, ambulance costs, service contracts, prosthetic and orthotic devices and costs related to designation as a trauma center and contracted nursing services.

(1) If the 1989 costs incurred in excess of the trend factor between 1985 and 1989 summed for each discrete area for all general hospitals is greater than or equal to \$26 million, the \$26 million shall be allocated to costs of general hospitals based on the ratio of each general hospital's 1989 costs incurred in excess of the trend factor in such discrete areas, summed, to the total sum of such cost over trend of all general hospitals.

(2) If the 1989 costs incurred in excess of the trend factor between 1985 and 1989 summed for all general hospitals is less than \$26 million, the allocated costs to each general hospital

(DRGs) 475, 483, 540, 701-716 and 798-801.

(b) \$63 million shall be allocated to general hospitals for labor adjustments. Such amount shall be allocated as follows:

(1) An amount equal to \$55 million shall be allocated for labor cost increases incurred prior to June 30, 1993. Amounts allocated to each general hospital shall be based on the general hospital's share of the statewide total of inpatient and outpatient reimbursable operating costs based on 1990 data excluding costs related to inpatient services provided to beneficiaries of title XVIII of the Federal Social Security Act (Medicare) and excluding direct medical education costs, as determined pursuant to §86-1.54(g)(3);

(2) An amount equal to \$8 million shall be allocated for labor adjustments to general hospitals located in the counties of Ulster, Sullivan, Orange, Dutchess, Putnam, Rockland, Columbia, Delaware and Westchester, to account for prior disproportionate increases in unreimbursed labor costs. Each general hospital determined pursuant to this subclause shall receive a portion of the \$8 million equal to the general hospital's portion of the total inpatient and outpatient reimbursable operating costs based on 1990 data for all hospitals located in the counties identified pursuant to this subclause, excluding costs related to services provided to beneficiaries of title XVIII of the Federal Social Security Act (Medicare) and excluding direct medical education costs, as determined pursuant to §86-1.54(g)(3).

(c) \$55 million shall be allocated for increased activities related to regulatory compliance universal precautions and infection control related to AIDS, tuberculosis, and other infectious diseases including the training of employees with regard to infection control, and for infectious and other waste disposal costs. A fixed amount per bed shall be allocated to the costs of each general hospital based on the total number of inpatient beds for which each hospital is certified as of August 24, 1993. Provided however, this allocation shall not apply for the periods April 1, 1996 through March 31, 1999 and July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011.

(d) An amount equal to \$3 million shall be allocated to the costs of each general hospital in the following manner and which meet the following criteria:

- d. For rates of payment for discharges in 1991 and thereafter, a general hospital having less than 201 certified acute non-exempt inpatient beds that is classified as a rural hospital for purposes of determining payment for inpatient services provided to beneficiaries of Title XVIII of the federal Social Security Act (Medicare) since the hospital is located in a rural area as defined by federal law (see 42 U.S.C. §1395ww (d)(2)(D)) or defined as a rural hospital under state law may choose to have its DRG specific operating cost component be 100 [percent]% of the hospital's hospital-specific average reimbursable inpatient operating cost per discharge determined pursuant to §86-1.54 (a) of this Subpart multiplied by the service intensity weight for each DRG set forth in §86-1.62 of this Subpart, provided however, commencing April 1, 1996 through July 31, 1996, the reimbursable inpatient operating cost component of case based rates of payment per diagnosis-related group excluding the costs of graduate medical education as determined pursuant to §86-1.54(g), §86-1.54(h)(1)(iii) and §86-1.54(h)(2), shall be reduced by [five percent] 5%, and commencing August 1, 1996 through March 31, 1997, the reimbursable inpatient operating cost component of case based rates of payment per diagnosis-related group, excluding the costs of graduate medical education as determined pursuant to §86-1.54(g), §86-1.54(h)(1)(iii) and §86-1.54(h)(2), shall be reduced by [two and five-tenths percent] 2.5%, and commencing April 1, 1997 through March 31, 1999, and July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011, the reimbursable inpatient operating cost component of case based rates of payment per diagnosis-related group, excluding the costs of graduate medical education as determined pursuant to §86-1.54(g), §86-1.54(h)(1)(iii) and §86-1.54 (h)(2), shall be reduced by [three and thirty-three hundredths percent] 3.33% to encourage improved productivity and efficiency. In order to exercise this option for 1991 or subsequent rate years, the general hospital shall notify the Department of such election in writing by no later than December first of the preceding rate year or a later date as determined by the Commissioner.
- e. As for discharges on or after April 1, 1995 through March 31, 1999, and July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011. The DRG case-based rates of payment for patients assigned to one of the twenty most common diagnosis-related groups, will be held to the lower of the facility specific amount or the average amount, as determined pursuant to subdivision (c) of this section for all hospitals assigned to the same peer group. The twenty most common diagnosis-related groups shall be determined using discharge data two years prior to the rate year, but excluding beneficiaries of title XVIII (Medicare) of the federal social security act and patients assigned to diagnosis-related groups for human immunodeficiency virus (HIV) infection, acquired immune deficiency syndrome, alcohol/drug use or alcohol/drug induced organic mental disorders, and exempt unit or exempt hospital patients.

**Development of DRG case-based rates of payment per discharge[.]**

(a) The hospital-specific average reimbursable inpatient operating cost per discharge shall be determined by dividing hospital-specific non-Medicare reimbursable operating costs determined pursuant to paragraph (1) of this subdivision by non-Medicare discharges determined pursuant to paragraph (2) of this subdivision and dividing this result by the hospital-specific case mix index determined pursuant to paragraph (3) of this subdivision.

- (1) Hospital-specific non-Medicare reimbursable operating costs shall be the hospital's 1987 reimbursable operating costs trended to the rate year pursuant to §86-1.58 of this [S]subpart including any adjustments made pursuant to §86-1.52(a)(iii)(a)(iv), and (v) of this [S]subpart but excluding the following costs:
  - (i) Medicare costs as defined in subdivision (c) of this section including any costs of a Medicare patient's stay paid for by or on behalf of a secondary payor;
  - (ii) ALC costs as defined in subdivision (d) of this section;
  - (iii) Exempt unit costs as defined in subdivision (e) of this section;
  - (iv) Transfer costs as defined in subdivision (f) of this section;
  - (v) Short-stay outlier costs as defined in subdivision (f) of this section; and
  - (vi) High-cost outlier costs as defined in subdivision (f) of this section.
  - (vii) For rates of payment for discharges occurring on or after April 1, 1995 through March 31, 1999, and July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011, the reimbursable base year inpatient administrative and general costs of a general hospital shall include reported administrative and general data, data processing, non-patient telephone, purchasing, admitting, and credit and collection costs.

to paragraph (a)(3) of this section. The group average wage and case mix adjusted operating cost per discharge shall be based on hospital-specific reimbursable operating costs which shall be calculated as follows:

(1) The following costs shall be subtracted from the sum of the hospital's allowable 1987 reimbursable operating costs trended to the rate year pursuant to §86-1.58 of this subpart and any adjustments made pursuant to §86-1.52 (a)(1)(iii)(a), (iv), and (v)(a).

- i. Medicare costs as defined in subdivision (c) of this section including any costs of a Medicare patient's stay paid for by or on behalf of a secondary payor;
- ii. ALC costs as defined in subdivision (d) of this section;
- iii. exempt unit costs as defined in subdivision (e) of this section;
- iv. direct GME costs as defined in subdivision (g) of this section; and
- v. hospital-specific operating costs as defined in subdivision (g) of this section.
- vi. For rates of payment for discharges occurring on or after April 1, 1995 through March 31, 2000, and July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011, the reimbursable base year inpatient administrative and general costs of a general hospital shall include reported administrative and general data, data processing, non-patient telephone, purchasing, admitting, and credit and collection costs. Excluding providers reimbursed on an initial budget basis, administrative and general costs shall not exceed the statewide average of total reimbursable base year inpatient administrative and general costs. This limitation shall be expressed as a percentage reduction of the operating cost component of the rate promulgated by the Commissioner for each general hospital. Reimbursable base year administrative and general costs, for purposes of this paragraph shall mean those base year administrative and general costs remaining after application of all other efficiency standards, including, but not limited to, peer group cost ceilings or guidelines.

(2) The hospital-specific portion of the \$40 million base enhancement specified in §86-1.52(a)(1)(iii)(b) of this [S]subpart shall be added to the costs determined for each hospital in

Development of Outlier Rates of Payment[.]

- (a) Short Stay Outliers. Payments for short stay outlier days shall be made at a per diem calculated by multiplying the days of actual length of stay below the short stay threshold by the short stay per diem rates defined in this subdivision. The short stay per diem rate shall be determined by dividing the hospital's DRG case-based rate of payment determined pursuant to §86-1.52(a)(1) by the hospital's group average arithmetic inlier LOS for the DRG and multiplying the result by the short stay adjustment factor of 150 [percent] %. For rate periods April 1, 1996 through March 31, 1999, and July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011, the short stay adjustment factor shall be 100 [percent] %. In cases where the group average arithmetic inlier length of stay for the DRG is equal to one, the short stay adjustment factor shall not be applied. Budgeted capital costs determined pursuant to §86-1.59 of this [S]Subpart shall be added to the per diem.
- (b) Long stay outliers. Payments for long stay outlier days shall be made at a per diem rate calculated by multiplying the days of the actual length of stay in excess of the long stay outlier threshold by 60 [percent] % of the per diem obtained by dividing the group average DRG operating cost per discharge defined in §86-1.54 (b) of this [S]Subpart by the hospital's group average arithmetic inlier length of stay for the DRG. For rate periods April 1, 1996 through March 31, 1999, and July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011, 50 [percent] % of the per diem shall be used in the calculation. This result shall be multiplied by the percent for the group average reimbursable inpatient operating cost determined pursuant to §86-1.53 of this [S]subpart. These payments shall include a health care services allowance of .614 [percent] % for rate year 1994 and .637 [percent] % for the period January 1, 1995 through June 30, 1995, of the hospital's non-Medicare reimbursable inpatient costs computed without consideration of inpatient uncollectible amounts and after application of the trend factor described in §86-1.58.
- (1) For the period April 1, 1995 through December 31, 1995, a health care services allowance of 1.42 [percent] % of the hospital's non-Medicare reimbursable inpatient costs computed without consideration of inpatient uncollectible amounts and after application of the trend factor described in §86-1.58; and

- (f) Trend factors used to project reimbursable operating costs to the rate period commencing April 1, 1996 through March 31, 1997, shall not be applied in the development of the rates of payment. This section shall not apply to trend factors or final trend factors used for the January 1, 1995 through December 31, 1995 or January 1, 1996 to March 31, 1996, rate period for purposes of projecting allowable operating costs to subsequent rates periods.
- (g) Trend factors used to project reimbursable operating costs to rate periods commencing July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011, shall reflect no trend factor projections or adjustments for the period April 1, 1996 through March 31, 1997.
- (h) For rate periods on and after April 1, 2000, the Commissioner shall establish trend factors for rates of payment for hospitals to project for the effects of inflation. The factors shall be applied to the appropriate portion of reimbursable costs calculated pursuant to [section] §86-1.54 of this subpart.
- (1) In developing trend factors for such rates of payment, the Commissioner shall use the most recent Congressional Budget Office estimate of the rate year's U.S. Consumer Price Index for all urban consumers published in the Congressional Budget Office Economic and Budget Outlook after June first of the rate year prior to the year for which rates are being developed.
  - (2) After the final U.S. Consumer Price Index (CPI) for all urban consumers is published by the [Untied] United States Department of Labor, Bureau of Labor Statistics, for a particular rate year, the Commissioner shall reconcile such final CPI to the projection used in paragraph (1) of this subdivision and any difference will be included in the prospective trend factor for the current year.
  - (3) At the time adjustments are made to the trend factors in accordance with this subdivision, adjustments shall be made to all inpatient rates of payment affected by the trend factor adjustment.

Capital expense reimbursement for DRG case based rates of payment. Capital expense shall not include capital expense allocated to exempt units and designated AIDS centers.

(a) The allowable costs of fixed capital (including but not limited to depreciation, rentals and interest on capital debt or, for hospitals financed pursuant to Article 28-B of the Public Health Law, amortization in lieu of depreciation, and interest and other approved expenses associated with both fixed capital and major movable equipment) and major movable equipment shall, with the exception noted in subdivisions (c), (g), (h), (i) and (j) of this section, be reimbursed based on budgeted data and shall be reconciled to total actual expense for the rate year and shall be determined and computed in accordance with the provisions of §86-1.23, §86-1.24, §86-1.29, §86-1.30 and §86-1.32 of this [S]subpart. In order for budgeted expenses to be reconciled to actual:

- (1) Rates of payment for a general hospital shall be adjusted to reflect the dollar difference between budgeted capital related inpatient expenses included in the computation of rates of payment for a prior rate period and actual capital related inpatient expenses for the same prior rate period. For rates commencing April 1, 1995 through March 31, 1999, and July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011, if a factor for the reconciliation of budgeted to actual capital related inpatient expenses for a prior year is included in the capital related inpatient expenses component of rates of payment, such component shall be reduced by the difference between the applicable reconciled capital related inpatient expenses for such prior year, and capital related inpatient expenses for such prior year calculated based on a determination of costs related to services provided to beneficiaries of the Title XVIII [f]Federal [s]Social [s]Security [a]Act (Medicare) based on the hospital's average capital related inpatient expenses computed on a per diem basis.
- (2) This amount shall be adjusted to reflect increases or decreases in volume for the same rate period.
- (3) Capital related inpatient expenses included in the computation of payment rates based on budget shall not be included in the computation of

transferred out patient days and which shall be reconciled to actual rate year days) and the non-exempt hospital's average budgeted capital cost per day calculated using total non-exempt budgeted days. Budgeted capital costs shall be reconciled to actual capital costs for the non-exempt hospital in the rate year after these data are available based upon the non-Medicare share of capital costs derived by subtracting Medicare capital costs from total capital costs. Medicare capital costs shall be determined based upon the hospital's average capital related inpatient per diem effective through March 31, 1999, and from July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011. Total Medicare capital these ancillary costs added to the routine portion of Medicare inpatient capital, adjusted shall be for secondary payors.

- (3) Allocation to payments for transfer patients and short-stay patient. Budgeted capital costs shall be allocated to payments for transferred patients and short-stay patients based on estimated non-exempt unit non-Medicare days reconciled to actual rate year days.
- (f) Payment for budgeted allocated capital costs.
- (1) Capital per diems for exempt units and hospitals shall be calculated by dividing the allocated non-Medicare capital costs identified in paragraph (e)(1) of this section by the 1985 exempt unit days, reconciled to rate year days and actual rate year exempt unit or hospital approved capital expense.
  - (2) Capital payments for DRG case-based rates shall be determined by dividing the budgeted capital allocated to such rates by the hospital's most recently available annual non-Medicare, non-exempt unit discharges.
  - (3) Capital payments for transferred and short stay patients shall be the non-exempt hospital's average budgeted capital cost per day determined pursuant to paragraphs (2) and (3) of subdivision (e) of this section.
- (g) Effective April 1, 1995 through March 31, 1999, and July 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011, the capital related inpatient expense component of the rate shall be based on the budgeted capital related expense applicable to the rate year decreased to reflect the percentage amount by which the budget for the applicable base year's capital related inpatient expense exceeded actual expense.

to the final determinations on all facility appeals statewide submitted in accordance with this subparagraph.

(iii) The case mix adjustment percentage determined pursuant to this paragraph shall be prospectively applied and subsequently reconciled upon the conclusion of the appeal process as identified in subparagraph (ii) of this subparagraph.

(iv) For the rate years commencing January 1, 1997 through September 30, 1999, the maximum allowable increase in the Medicaid statewide average reported case mix in an historical rate year shall not exceed, on a cumulative basis, [one percent] 1% from the 1996 Medicaid statewide average reported case mix for the 1997 rate year and an additional [one percent] 1% per year from the 1996 Medicaid statewide average reported case mix. Effective for the period October 1, 1999 through March 31, 2009, and on and after April 1, 2009 through March 31, 2011, the maximum allowable increase in the Medicaid statewide average reported case mix shall not exceed [four percent] 4% for the period October 1, 1999 through December 31, 2000, plus an additional [one percent] 1% per year thereafter. The methodology used to adjust rates of payment for the periods commencing January 1, 1997, and thereafter shall be the same as that described in subparagraphs (i) - (iii) of this paragraph, however, the data used to determine any and all case mix indexes shall be based on discharges for only those patients that are eligible for medical assistance pursuant to title eleven of article five of the social services law, including such patients enrolled in health maintenance organizations. In addition, the 1996 adjustment determined pursuant to subparagraphs (i) - (iii) of this paragraph shall be added to the adjustments determined in this subparagraph.
