(04/10)**

For state fiscal years beginning April 1, 2003 and ending March 31, 2005, the Department of Health is authorized to pay government general hospitals, operated by the State of New York or by the State University of New York additional payments for inpatient hospital services as medical assistance payments for patients eligible for federal financial participation under Title XIX of the federal social security act pursuant to the federal laws and regulations governing disproportionate share payments to hospitals 175 percent of each such government general hospital's medical assistance and uninsured patient losses after all other medical assistance, including disproportionate share payments to such government general hospital, based initially on reported 2000 reconciled data. Such payments for the periods ending March 31, 2004 and March 31, 2005, shall be further reconciled to actual reported 2003 and 2004 data respectively, provided, however, that such payments for all eligible hospitals shall be reduced to the extent such payments would result in the exceeding of the State's disproportionate share allotment limit, as determined in accordance with federal statute and regulations, provided, however, that such reduction shall be based on each such hospital's proportionate share of the sum of all such payments that would be made without regard to such allotment limit. Such payments may be added to rates of payment or made as aggregate payments to an eligible government general hospital.
