Such rates of payment shall be further adjusted to reflect costs associated with the recruitment and retention of non-supervisory workers. For programs providing services in local social service districts which include a city with a population of over one million persons, [rates shall be adjusted in accordance with a memorandum of understanding between the State of New York and the local social service districts] such rate adjustments will be calculated by allocating the total dollars available for the applicable rate period to each individual provider proportionally based on total claimed hours of services for personal care services provided in the district to recipients of medical assistance.
