Service Intensity Weights (SIW) and average length-of-stay (LOS).

1. The table of SIWs and statewide average LOS for each effective period is published on the New York State Department of Health website at: <http://www.health.ny.gov/nvsdoh/hospital/drg/index.htm> and reflects the cost weights and LOS assigned to each All-Patient Refined (APR) diagnosis related group (DRG) patient classification category. The SIWs assigned to each APR-DRG indicates the relative cost variance of that APR-DRG classification from the average cost of all inpatients in all APR-DRGs. Such SIWs are developed using three years of Medicaid fee-for-service cost data, Medicaid managed care data and commercial third party payor data as reported to the Statewide Planning and Research Cooperative System (SPARCS) for the years set forth in paragraph (2) below. Costs associated with hospitals that do not have an ancillary charge structure or associated with hospitals and services exempt from the case payment methodology, and costs associated with statistical outliers are excluded from the SIW calculations.
2. For periods on and after December 1, 2009 through December 31, 2010, the SIW and statewide average LOS table shall be computed using SPARCS and reported cost data from the 2005, 2006 and 2007 calendar years as submitted to the Department by September 30, 2009.
3. For periods on and after January 1, 2011 through December 31, 2011, the SIW and statewide average LOS table shall be computed using SPARCS and reported cost data from the 2006, 2007 and 2008 calendar years as submitted to the department by June 30, 2010.

4. For the rate periods on and after December 1, 2009, additional adjustments to the inpatient rates of payment for eligible general hospitals to facilitate improvements in hospital operations and finances will be made, in accordance with the following:
- a. General hospitals eligible for distributions pursuant to this section shall be those nongovernmental hospitals with total Medicaid discharges equal to or greater than seventeen and one-half percent for 2007, and a total reduction in Medicaid inpatient revenue, as a result of the application of otherwise applicable rate-setting methodologies in effect for the period December 1, 2009 through March 31, 2010, in excess of 9.7%.
 - b. For the period December 1, 2009 through March 31, 2010, \$33.5 million dollars shall be allocated, [to eligible hospitals such that no hospital's reduction in Medicaid inpatient revenue, as a result of the hospital acute care rate methodology changes that are effective December 1, 2009, exceeds 9.7%.] The allocation amount for each eligible hospital shall equal the amount of inpatient Medicaid revenue for that hospital that existed using the Medicaid reimbursement provisions in effect immediately prior to the revisions instituted on December 1, 2009, multiplied by that hospital's percentage of reduced Medicaid revenue that is in excess of the threshold set forth in paragraph (a)(ii).
 - c. For periods on or after April 1, 2010, funds distributed pursuant to this section shall be allocated to eligible hospitals based on a proportion of the eligible hospital's allocation of the funds distributed for the period December 1, 2009 through March 31, 2010, to the total funds distributed for that period applied to the appropriate funds available for the applicable periods below:
 - i. for the period April 1, 2010 through March 31, 2011, \$75 million;
 - ii. for the period April 1, 2011 through March 31, 2012, \$50 million; and
 - iii. for the period April 1, 2012 through March 31, 2013, \$25 million.
 - d. Payments made pursuant to this section shall be added to rates of payments and not be subject to retroactive adjustment or reconciliation. The amount per discharge to be added to the rates shall be established by dividing the total allocated funds in accordance with paragraph (b) and (c) by the hospital's total reported Medicaid discharges in the applicable base period.
 - e. Each hospital receiving funds pursuant to this section shall, as a condition for eligibility for such funds, adopt a resolution of the Board of Directors of each such hospital setting forth its current financial condition, including ongoing board oversight, and shall, after two years, issue a report as adopted by each such Board of Directors setting forth what progress has been achieved regarding such improvement, provided, however, if such report fails to set forth adequate progress, as determined by the Commissioner, the Commissioner will deem such facility ineligible for further distributions pursuant to this section and will redistribute such further distributions to other eligible facilities in accordance with the provisions of this section. The Commissioner shall be provided with copies of all such resolutions and reports.

 - c. For the periods on and after April 1, 2011, funds distributed pursuant to this section shall be allocated to eligible hospitals based on a proportion of the eligible hospital's allocation of the funds distributed for the period October 20, 2010 through March 31, 2011, to the total funds distributed for that period applied to the appropriate funds for the applicable periods below:
