

**New York  
51(a)(2)**

**Attachment 4.19-D  
(04/11)**

- (k) For rates of payment effective for nursing home services provided on and after January 1, 2009 through March 31, 2009, the otherwise final trend factor attributable to the 2008 calendar year period shall be adjusted such that any increase to the average trend factor for the period April 1, 2008 through December 31, 2008 shall be reduced, on an annualized basis, by 1.3% and no retroactive adjustment to such 2008 trend factor shall be made for the period April 1, 2008 through December 31, 2008. Effective on and after April 1, 2009, the otherwise applicable final trend factor attributable to the 2008 calendar year period shall be zero.
- (l) For rates of payment effective for nursing home services provided on and after January 1, 2009 through March 31, 2009, a trend factor equal to the otherwise applicable trend factor attributable to the period January 1, 2009 through December 31, 2009, as calculated in accordance with paragraph (f) of this section, less 1% shall be applied. Effective on and after April 1, 2009, the otherwise applicable trend factor attributable to the 2009 calendar year period shall be zero.
- (m) For rates of payment effective for nursing home services provided for the period January 1, 2010 through March 31, 2010, the otherwise applicable trend factor attributable to the 2010 calendar year period shall be zero.
- (n) For rates of payment effective for inpatient services provided by residential health care facilities on or after April 1, 2010, except for residential health care facilities that provide extensive nursing, medical, psychological, and counseling support services to children, the otherwise applicable trend factor attributable to:
  - i. the 2010 through 2012 calendar year periods shall be no greater than zero.
  - ii. the 2013 calendar year period shall be no greater than zero through March 31, 2013.

Effective July 1, 1994, payment rates for the 1994 rate setting cycle will be calculated using the proxy data described in this section that is available through the third quarter of 1993. Proxy data, which becomes available subsequent to the third quarter of 1993, will not be considered in setting or adjusting 1994 payment rates.

[  
\*This means that since the rates for the April 1, 1996 through March 31, 1997 period are based on 1983 base year costs trended to this period, the rate impacts of any differences between, say, the final value of the 1995 trend factor and the preliminary 1995 trend factor value that may have been used when initially calculating the rate, would be incorporated into the rates for the April 1, 1996 through March 31, 1997 rate period.]
