DIVISION OF MEDICAID AND CHILDREN'S HEALTH OPERATIONS

DMCHO: JH:SPA-NY-18-0004-Approval

July 24, 2018

Ms. Donna Frescatore
State Medicaid Director
Office of Health Insurance Programs
NYS Department of Health
One Commerce Plaza, Suite 1211
Albany, NY 12210

Dear Ms. Frescatore:

This is to notify you that New York State Plan Amendment (SPA) #18-0004 has been approved for adoption into the State Medicaid Plan with an effective date of January 1, 2018. This SPA amends and updates the State's APG system for Freestanding Clinic services.

Enclosed are copies of the Plan Pages for SPA #18-0004 and the HCFA-179 form, as approved.

If you have any questions regarding this amendment, please call Joanne Hounsell at 212.616.2446 or e-mail at Joanne.Hounsell@cms.hhs.gov.

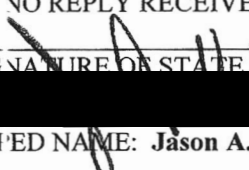

Sincerely,

Michael Melendez, LMSW
Associate Regional Administrator
Division of Medicaid and Children's Health Operations

APG Reimbursement Methodology – Freestanding Clinics

For the purposes of sections pertaining to the Ambulatory Patient Group, and excepted as otherwise noted, the term freestanding clinics shall mean freestanding Diagnostic and Treatment Centers (D&TCs) and shall include freestanding ambulatory surgery centers.

For dates of service beginning September 1, 2009 through December 31, [2017] 2018, for freestanding Diagnostic and Treatment Center (D&TC) and ambulatory surgery center services, the operating component of rates shall be reimbursed using a methodology that is prospective and associated with resource utilization to ensure that ambulatory services are economically and efficiently provided. The methodology is based upon the Ambulatory Patient Group (APG) classification and reimbursement system. This methodology incorporates payments for the separate covered Medicaid benefits in accordance with the payment methods for these services. Reimbursement for the capital component of these rates shall be made as an add-on to the operating component as described in the APG Rate Computation section.

The Ambulatory Patient Group patient classification system is designed to explain the amount and type of resources used in an ambulatory visit by grouping patients with similar clinical characteristics and similar resource use into a specific APG. Each procedure code associated with a patient visit is assigned to an APG using the grouping logic developed by 3M Health Information Systems (3M). When evaluation and management codes are coded, the APG grouping logic also uses the diagnosis code to make the APG assignment. Ultimately, the procedures and diagnoses coded for a patient visit will result in a list of APGs that correspond on a one-for-one basis with each procedure coded for the visit.
