Our Reference: SPA OK 16-08

Becky Pasternik-Ikard
State Medicaid Director
2401 NW 23rd Street, Suite 1A
Oklahoma City, Oklahoma 73107

Dear Ms. Pasternik-Ikard:

Enclosed is a copy of approved Oklahoma State Plan Amendment (SPA) No. 16-08, with an effective date of January 1, 2016. This amendment was submitted to implement a three percent reduction for Dental Providers. Oklahoma Health Care Authority (OHCA) has stated that the current rates reflect previously implemented 3.25% reductions and 7.75% reductions from its pool of applicable rate structures, and the proposed reduction excludes services financed through appropriations to other state agencies, services provided under a waiver, and services where a reduction could severely limit access or not cover costs in the aggregate. This resulted in a decrease in provider payments, creating a budget impact of (\$965,491) for Federal Fiscal Year (FFY) 2016 and (\$2,244,004) for 2017.

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2), 1902(a)(13), 1902(a)(30), and 1903(a) of the Social Security Act and the implementing Federal regulations at 42 CFR 447 Subpart C.

Because the proposed SPA would reduce or restructure provider payment rates, OHCA was also required to demonstrate compliance with 42 CFR 447.204(b)(2) and 42 CFR 447.204(b)(3) by completing an analysis of the effect of the change in payment rates on access and a specific analysis of the information and concerns expressed in input from affected stakeholders. The State must adhere to the public process requirements set forth in 42 CFR 447.204 and establish monitoring plan procedures in compliance with 42 CFR 447.203(b)(6)(ii). To demonstrate compliance with these requirements, the State submitted the following to CMS with the proposed SPA:

- a. The State utilized an analysis of multiple data sources that encompassed a comparative rate analysis, assessment of the available provider network, number of

members with a paid claim in the past State Fiscal Year and utilization of services over time to determine that access was currently sufficient and access would not be negatively impacted by the proposed rate reduction. The State concluded that the data reflected adequate access to laboratory services across the State.

- b. Several stakeholder meetings were conducted in 2015 with providers, advocates, and beneficiaries to engage in discussion regarding the extent of the agency's budget challenges, rate modifications and the reasons for the modifications. OHCA posted the proposed rate cut information on the agency web page for the entire month of December 2015 to advise providers, members, and the public of the pending rate reduction. On December 4, 2015, a public notice of the proposed rate reduction and public hearings appeared in the five major newspapers of the state. The rate reduction was addressed at the meeting of the State Plan Amendment Rate Committee held December 9, 2015, and the meeting of the Board held December 10, 2015. No comments were submitted to the posting on the agency web page and the State has not received complaints from the public regarding this rate reduction in response to any other public notifications.
- c. In compliance with the regulations at 42 CFR 447.203(b)(6)(ii), the State has affirmed that all expenditures by provider type will be monitored through the Medicaid Management Information System by the Finance Division. The Finance Division will report any fluctuations in payments on a monthly basis, and if reductions in expenditures/utilization of five percent or more are noted, the State will do further analyses as to the type and location of the reductions and canvass those that do change, so that action may be taken. In addition to monitoring Helpline calls and reported expenditures, the State has implemented a process for immediate notification to the Director of Provider Services if any provider requests to terminate a contract. The Provider Services department is continually making site visits for the purposes of recruitment and education, and will continue making personal contacts with the provider community if a network decrease is noted, and recruit additional providers to ensure that the network is sufficient.

Additionally, the agency will monitor complaints from recipients and advocates to determine whether an access problem arises in accordance with the regulation at 42 CFR 447.203(b)(6)(ii). If the analyses and reported problems from providers and recipients increase, then the agency will intensify interventions to improve access and assist with each situation on a case-by-case basis, including utilizing the methods described above.

Based on CMS's review of this information, the State has satisfactorily documented access to care consistent with the requirements of 42 CFR 447.204(b)(2) and 42 CFR 447.204b(3); described the monitoring procedures required at 42 CFR 447.203(b)(6)(ii); and conducted the public process and notice described in 42 CFR 447.204 and 447.205. CMS will be periodically contacting the State to understand how the State's monitoring activities are progressing. CMS reminds the State that for all changes in policies or rates that could potentially affect access to care or quality of care, notifications to providers, consumers, and other stakeholders must specifically list those services and programs affected by those changes. Such public notice issued by the State should follow the guidance as described in the Center for Medicaid & Chip

Services Informational Bulletin “Reminder of Federal Requirements: Notice and public process requirements for changes to Medicaid payment rates” issued June 22, 2016.

This letter affirms that OK 16-08 is approved effective January 1, 2016 as requested by the State.

We are enclosing the HCFA-179 and the following amended plan pages.

METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES OTHER TYPES OF CARE

Payment to Dentists for General Dental and Orthodontic Services

Dentists are reimbursed a fee for service rate for general dental and orthodontic services. The same rate is paid for each service regardless of where the service was provided. The agency's rates were set as of 1/1/2007 and are effective for services on or after that date. All rates are published on the agency's website located at www.okhca.org. A uniform rate is paid to governmental and non-governmental providers.

Effective for services provided on or after 04-01-10, the rates in effect on 03-31-10 will be decreased by 3.25%.

Effective for services provided on or after 01-01-16, the rates in effect on 12-31-15 will be decreased by 3%.

In addition, the reimbursement methodology for amalgam or posterior composite resin restorations which is the mean of the 2009 reimbursement rates for each, will be reduced by 3.00% along with all other dental fees effective 07-01-10.

Effective for services provided on or after 07-01-14, the rates in effect on 06-30-14 will be decreased by 7.75%.

Effective for services provided on or after 01-01-16, the rates in effect on 12-31-15 will be decreased by 3%.

Payments to Dentists Working at a Governmental Hospital Based Children's Dental Clinic

The State reimburses these dentists a fee for service amount that equals the average commercial fee schedule, which is calculated in the following manner. For each of the dental procedures rendered by dentists in this dental clinic, the State determined the average commercial allowed amount paid per procedure code by the top five commercial payers. The fee schedule amount for each dental procedure code equals an average of the payment by the top payers. The average commercial fee schedule rate provides for payment in-full and is not an add-on payment to the regular Medicaid rate. The agency's rates were set as of 1/1/2007 and are effective for services on or after that date. All rates are published on the agency's website located at www.okhca.org. A uniform rate is paid to governmental and non-governmental providers.

Effective for services on or after 04-01-10, the rates in effect on 03-31-10 will be decreased by 3.25%.

Effective for services provided on or after 01-01-16, the rates in effect on 12-31-15 will be decreased by 3%.

In addition, the reimbursement methodology for amalgam or posterior composite resin restorations which is the mean of the 2009 reimbursement rates for each, will be reduced by 3.00% along with all other dental fees effective 07-01-10.

Effective for services provided on or after 07-01-14, the rates in effect on 06-30-14 will be decreased by 7.75%.

Effective for services provided on or after 01-01-16, the rates in effect on 12-31-15 will be decreased by 3%.
