Dear Secretary Smith:

This letter is being sent with the Centers for Medicare and Medicaid Services’ (CMS) approval of Vermont’s State Plan Amendment (SPA) #20-0011, consistent with the State Medicaid Director letter (SMD) #10-020 published on October 1, 2010 (relating to SPA review process), to address concerns that the state has not implemented a tracking system that complies with federal statute and regulations. Vermont’s SPA #20-0011 proposes to eliminate cost sharing on preventive dental services and this policy has been approved.

During review of SPA #20-0011, CMS identified a cost sharing policy that is not consistent with federal requirements. Sections 1916A(a)(2)(B), (b)(1)(B)(ii) and (b)(2)(A) of the Social Security Act (the Act), implemented at 42 CFR §447.56(f), set an aggregate cap on the total premiums and cost sharing charged to a given beneficiary (or, in the case of a family with multiple beneficiaries, all beneficiaries in the household) to five percent of the beneficiary’s family income. This five percent aggregate cap may be applied, at state option, on either a monthly or quarterly basis (“aggregate cap period”).

As discussed on multiple phone calls with the state, the state has not yet implemented a system to track beneficiaries’ premiums and cost sharing payments prior to beneficiaries reaching their household aggregate cap. As part of a SPA approved in 2016, the state had agreed to integrate tracking functionality into its eligibility and claims systems and review claims history after the quarter ended to reimburse any beneficiary who exceeded his/her aggregate cap in the prior quarter as a temporary mitigation. However, three years later, the state has still not integrated tracking functionality into its information systems due to project delays. CMS believes three years exceed a temporary mitigation. CMS has supplied some options for the state to consider as it re-examines its compliance with the tracking requirements.

During a phone call on June 25, 2020 CMS reiterated the need for the state to track cost sharing and premiums consistent with statutory and regulatory requirements. Tracking cost sharing and premiums is not integral to the purpose of SPA #20-0011. In accordance with SMD #10-020, CMS
explained to the state the option it has to resolve this issue separately from the approval of the SPA. The state informed CMS that it would like to address the steps needed to comply with federal policy concerning cost sharing and premium tracking separately. This letter initiates that separate process.

Please respond within 90-days of receipt of this letter by submitting a plan to bring the state plan into compliance with tracking requirements. During this 90-day period, CMS welcomes the opportunity to work with you and your staff. Should you or your staff have any questions, please contact Stephanie Kaminsky, Director, Division of Medicaid Eligibility and Policy at Stephanie.Kaminsky@cms.hhs.gov.

Sincerely,

/s/
