RE: Washington State Plan Amendment (SPA) Transmittal Number 12-003

Dear Mr. Porter:

We have reviewed the proposed amendment to Attachment 4.19-A, 4.19-B and 4.19-D of your Medicaid State plan submitted under transmittal number (TN) 12-003. The purpose of this amendment is to modify the State plan to implement a non-payment policy for Health Care Acquired Conditions (HCAC) and Other Provider Preventable Conditions (OPPC). Washington SPA 12-003 was submitted in response to a companion letter that had been issued for Washington SPA 11-020.

We conducted our review of your submittal according to the statutory requirements at sections 1902(a)(2), 1902(a)(13), 1902(a)(30), 1903(a) and 1923 of the Social Security Act and the implementing Federal regulations at 42 CFR 447 Subpart C.

Medicaid State plan amendment 12-003 is approved effective January 1, 2012. We are enclosing the HCFA-179 and the amended plan pages.

If you have any questions, please contact Joe Fico of the National Reimbursement Team at (206) 615-2380.

Cindy Mann,
Director, CMCS

C. GENERAL REIMBURSEMENT POLICIES (cont.)

12. Inpatient vs. Outpatient Stay Policy

> Through October 31, 2004, stays of less than, approximating, or exceeding 24 hours where an inpatient admission was not appropriate will be reimbursed on an outpatient basis. Stays of less than 24 hours involving the death of the patient, transfer to another acute care hospital, a delivery, or initial care of a newborn are considered inpatient and are reimbursed under the respective inpatient payment method designated for the hospital and/ or the covered services. On and after November 1, 2004, a new clinical-based inpatient vs. outpatient stay determination rule is in effect.

> An inpatient stay is an admission to a hospital based on an evaluation of the client using objective clinical indicators for the purpose of providing medically necessary inpatient care, including assessment, monitoring, and therapeutic services as required to best manage the client's illness or injury, and that is documented in the client's medical record.

An outpatient hospital stay consists of outpatient hospital services that are within a hospital's licensure and provided to a client who is designated as an outpatient based on an evaluation of the client using objective clinical indicators for the purpose of providing medically necessary ambulatory care, including assessment, monitoring, and therapeutic services as required to best manage the client's illness or injury, and that is documented in the client's medical record.

13. Medicare Related Policies

Medicare crossovers refer to hospital patients who are eligible for Medicare benefits and Medical Assistance. For clients, the state considers the Medicare DRG payment to be payment in full. The state will pay the Medicare deductible and co-insurance related to the inpatient hospital services. Total Medicare and Medicaid payments to a provider cannot exceed the Agency's rates or fee schedule as if they were paid solely by Medicaid using the payment method that would have applied had the claim been paid by Medicaid (i.e. DRG, RCC, per diem or per case rate).

In cases where the Medicare crossover client's Part A benefits, including lifetime reserve days, are exhausted, and the Medicaid outlier threshold status is reached, the state will pay for those allowed charges beyond the threshold using the outlier policy described in C.3. above.

The state applies the following rules for HCAC claims:

- (a) If Medicare denies payment for a claim at a higher rate for the increased costs of care under its HCAC or POA indicator policies:
 - (i) The state limits payment to the maximum allowed by Medicare.
 - (ii) The state does not pay for care considered non-allowable by Medicare: and
 - (iii) The client cannot be held liable for payment.
- (b) If Medicare denies payment for a claim under its National Coverage Determination authority from Section 1862(a)(1)(A) of the Social Security Act (42 U.S.C. 1935) for an adverse health event:
 - (i) The state does not pay the claim, any Medicare deductible, and/or any coinsurance related to the inpatient hospital services; and
 - (ii) The client cannot be held liable for payment.
