POLICY AND METHODS USED IN ESTABLISHING PAYMENT RATES FOR EACH OF THE OTHER TYPES OF CARE OR SERVICE LISTED IN SECTION 1905 (A) OF THE ACT THAT IS INCLUDED IN THE PROGRAM UNDER THE PLAN (cont.)

IX. Other Non-institutional Services (cont.)

F. Early and Periodic Screening, Diagnostic and Treatment (EPSDT)

Except as otherwise noted in the plan state developed fee schedule rates are the same for both governmental and private providers of EPSDT services. The Medicaid agency pays the lesser of the usual and customary charge or a fee based on an agency fee schedule. The fee schedule was last updated on July 1, 2012 and is effective for services on or after that date. All rates are published on the agency's website at <http://www.hca.wa.gov/medicaid/rbrvs/Pages/index.aspx>. In conformance with 1905 (r) of the Act, all medically necessary diagnosis and treatment services are provided regardless of whether the service is included in the plan. Limitations do not apply other than based on medical necessity.

School-based health care services

School-Based Health Care Services (SBHS) rates are based on Resource-Based Relative Value Scale (RBRVS) methodology under WAC 182-531-1850, (revised 07/01/2012), in which the State uses CMS-established relative value units multiplied by the conversion factors specific to Washington State and to Medicaid. The rates are based on relative values established by CMS. The State's conversion factor is adjusted annually based on utilization and budget neutrality from year-to-year. The rates paid for SBHS are no different than the rates paid to similar providers within the community outside of the school setting.

The fee schedule was last updated on July 1, 2012, and is effective for services on and after that date. All rates are published on the Agency's website at <http://www.hca.wa.gov/medicaid/rbrvs/Pages/index.aspx>.
