Data Source: Statistical Enrollment Data System (SEDS) Combined CHIP Enrollment Total Report and Form CMS-64.EC (As of 5/30/2018).

<sup>i</sup> The combined "CHIP and Medicaid" column data for FY 2016 and FY 2017 are accurate; however, some Title XIX Medicaid children may be reported with the Title XXI CHIP data.

<sup>ii</sup> Due to reporting system updates, CHIP enrollment totals for FY 2016 are estimates as a result of the exclusion of certain unborn CHIP enrollees in reporting.

<sup>iii</sup> Due to system challenges and data limitations, the Separate CHIP data for FY 2016 are artificially low.

<sup>iv</sup> The combined "CHIP and Medicaid" column data for FY 2016 and FY 2017 are accurate; however, some Title XIX Medicaid children may be reported with the Title XXI CHIP children, and vice versa.

<sup>v</sup> Title XXI funded Medicaid enrollees are included in Medicaid enrollment counts, rather than in CHIP for FY 2016 and FY 2017.

Therefore, the CHIP enrollment totals are artificially low and the Medicaid enrollment totals are artificially high for both fiscal years.

<sup>vi</sup> Due to reporting system challenges, FY 2016 enrollment totals are the most recent annual data available.

<sup>vii</sup> Due to eligibility and enrollment system and data limitations, certain CHIP enrollees were assigned to Title XIX Medicaid.

Therefore, the CHIP enrollment totals are artificially low in FY 2016.

<sup>viii</sup> Due to de-duplication of data and other data quality improvement efforts made in Quarter 1 of FY 2017, the Separate CHIP and Medicaid Expansion totals are artificially low in FY 2017.
