

# FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

## Preamble

Section 2108(a) and Section 2108(e) of the Social Security Act (the Act) provide that each state and territory\* must assess the operation of its state child health plan in each federal fiscal year and report to the Secretary, by January 1 following the end of the federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the state must assess the progress made in reducing the number of uncovered, low-income children. The state is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The state is also out of compliance if any section of this report relevant to the state's program is incomplete.

The framework is designed to:

- Recognize the **diversity** of state approaches to CHIP and allow states **flexibility** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide **consistency** across states in the structure, content, and format of the report, **AND**
- Build on data **already collected** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance **accessibility** of information to stakeholders on the achievements under Title XXI

The CHIP Annual Report Template System (CARTS) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: Program Challenges and Accomplishments

\* - When "state" is referenced throughout this template it is defined as either a state or a territory.

**\*Disclosure**. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, write to: CMS, 7500 Security Blvd., Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

**DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.**

State/Territory: HI

Name of State/Territory

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: Edie Mayeshiro

CHIP Program Name(s): All, Hawaii

CHIP Program Type:

- CHIP Medicaid Expansion Only
- Separate Child Health Program Only
- Combination of the above

Reporting Period: 2019 **(Note: Federal Fiscal Year 2019 starts 10/1/2018 and ends 9/30/2019)**

Contact Person/Title: Edie Mayeshiro

Address: 601 Kamokila Blvd.

City: Kapolei State: HI Zip: 96707

Phone: 808-692-8134 Fax: 808-692-8173

Email: emayeshiro@dhs.hawaii.gov

Submission Date: 12/24/2019

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

## Section I. Snapshot of CHIP Program and Changes

- 1) To provide a summary at-a-glance of your CHIP program, please provide the following information. If you would like to make any comments on your responses, please explain in the narrative section below this table.

Provide an assurance that your state’s CHIP program eligibility criteria as set forth in the CHIP state plan in section 4, inclusive of PDF pages related to Modified Adjusted Gross Income eligibility, is accurate as of the date of this report.

Please note that the numbers in brackets, e.g., [500] are character limits in the Children’s Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

### CHIP Medicaid Expansion Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO  
 YES  
 N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: **[500]**

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: **[500]**

99% Managed care for all groups

Carve out FFS for DD/ID services under 1915c waiver, SHOTT program, Emergency Services for Ineligible Aliens group

### Separate Child Health Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO
- YES
- N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: **[500]**

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: **[500]**

2) Have you made changes to any of the following policy or program areas during the reporting period? Please indicate “yes” or “no change” by marking the appropriate column.

	Medicaid Expansion CHIP Program			Separate Child Health Program		
	Yes	No Change	N/A	Yes	No Change	N/A
a) Applicant and enrollee protections (e.g., changed from the Medicaid Fair Hearing Process to State Law)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b) Application	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c) Benefits	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
d) Cost sharing (including amounts, populations, & collection process)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
e) Crowd out policies	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
f) Delivery system	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
g) Eligibility determination process	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Yes	No Change	N/A	Yes	No Change	N/A
h) Implementing an enrollment freeze and/or cap	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
i) Eligibility levels / target population	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
j) Eligibility redetermination process	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
k) Enrollment process for health plan selection	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
l) Outreach (e.g., decrease funds, target outreach)	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

n) Prenatal care eligibility expansion (Sections 457.10, 457.350(b)(2), 457.622(c)(5), and 457.626(a)(3) as described in the October 2, 2002 Final Rule)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
o) Expansion to “Lawfully Residing” children	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
p) Expansion to “Lawfully Residing” pregnant women	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
q) Pregnant Women state plan expansion	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
r) Methods and procedures for prevention, investigation, and referral of cases of fraud and abuse	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
s) Other – please specify						
a)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
b)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c)	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

3) For each topic you responded “yes” to above, please explain the change and why the change was made, below:

**Medicaid Expansion CHIP Program**

Topic	List change and why the change was made
a) Applicant and enrollee protections (e.g., changed from the Medicaid Fair Hearing Process to State Law)	
b) Application	
c) Benefits	

Topic	List change and why the change was made
d) Cost sharing (including amounts, populations, & collection process)	
e) Crowd out policies	
f) Delivery system	
g) Eligibility determination process	
h) Implementing an enrollment freeze and/or cap	
i) Eligibility levels / target population	
j) Eligibility redetermination process	
k) Enrollment process for health plan selection	
l) Outreach	Renewed contract from 7/01/2019 to 6/30/2020. Added community partners in Maui county to assist with outreach, education and enrollment assistance on Maui, Molokai, and Lanai.
m) Premium assistance	
n) Prenatal care eligibility expansion (Sections 457.10, 457.350(b)(2), 457.622(c)(5), and 457.626(a)(3) as described in the October 2, 2002 Final Rule)	
o) Expansion to “Lawfully Residing” children	
p) Expansion to “Lawfully Residing” pregnant women	
q) Pregnant Women State Plan Expansion	
r) Methods and procedures for prevention, investigation, and referral of cases of fraud and abuse	The Department of Human Services combined the SNAP/TANF fraud unit with the Medicaid Provider Fraud and Beneficiary Fraud units for increased efficiency and better utilization of resources. The State also submitted and CMS approved a State Plan Amendment to increased RAC program contingency reimbursement percentage from 12.5 to 17%.
s) Other – please specify	
a)	
b)

Enter any Narrative text related to Section I below. **[7500]**

## Section II Program’s Performance Measurement and Progress

This section consists of two subsections that gather information about the CHIP and/or Medicaid program. Section IIA captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your state. Section IIB captures progress towards meeting your state’s general strategic objectives and performance goals.

---

### Section IIA: Enrollment And Uninsured Data

---

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your state for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated Number Ever Enrolled Year) in your state’s 4<sup>th</sup> quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response. If the information displayed in the table below is inaccurate, please make any needed updates to the data in SEDS and then refresh this page in CARTS to reflect the updated data.

Program	FFY 2018	FFY 2019	Percent change FFY 2018-2019
CHIP Medicaid Expansion Program	29375	30522	3.9
Separate Child Health Program	0	0	

- A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**  
The “unduplicated member count” of CHIP beneficiaries enrolled increased by 4.2% from FFY 2018 to FFY 2019, which is lower than the ten percent threshold.
2. The tables below show trends in the number and rate of uninsured children in your state. Three year averages in Table 1 are based on the Current Population Survey. The single year estimates in Table 2 are based on the American Community Survey (ACS). CARTS will fill in the single year estimates automatically, and significant changes are denoted with an asterisk (\*).If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3.

Table 1: Number and percent of uninsured children under age 19 below 200 percent of poverty, Current Population Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Std. Error	Rate	Std. Error
1996 - 1998	14	4.4	4.5	1.4
1998 - 2000	17	15.1	5.4	1.5
2000 - 2002	14	3.2	4.3	1.0
2002 - 2004	10	2.6	3.1	.8
2003 - 2005	8	2.4	2.4	.7
2004 - 2006	7	2.0	2.2	.7
2005 - 2007	8	3.0	2.4	.8
2006 - 2008	7	2.0	2.5	.8
2007 - 2009	6	2.0	1.9	.7
2008 - 2010	4	1.0	1.3	.3
2009 - 2011	6	1.0	1.7	.3
2010 - 2012	6	1.0	2.0	0

Table 2: Number and percent of uninsured children under age 19 below 200 percent of poverty, American Community Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Margin of Error	Rate	Margin of Error
2013	6	2.0	2.0	.5
2014	5	2.0	1.6	.6
2015	2	1.0	.8	.2
2016	3	2.0	1.1	.5
2017	2	1.0	.7	.3
2018	4	2.0	1.1	.5
Percent change 2017 vs. 2018	100.0%	N/A	57.1%	N/A

A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. **[7500]**

The number and percentage of uninsured children in the state has been extremely low. In the most recent year of data available (2018), approximately 4000 uninsured children live in Hawaii, representing 1.1% of the total number of children under the age of 19 who live at or below 200% of the Federal Poverty Level. These estimates place Hawaii as the state with the third lowest number and fourth lowest percentage of uninsured children < 200% FPL. The increase (doubling) in uninsured children since 2017 falls within the error margin, making it difficult to confirm whether a true increase occurred; however, the increase may also be related to system upgrades leading to enhanced income verifications the program conducted beginning in 2018, leading to a slight increase in

disenrollments from Medicaid. The program will continue to monitor uninsurance rates to identify any concerning trends.

- B. Please note any comments here concerning ACS data limitations that may affect the reliability or precision of these estimates. **[7500]**

We have no specific concerns related to the ACS, except that the sampling for the survey may limit its accuracy in identifying concerning trends for the state. The prevalence of uninsured children in Hawaii is very low and it is unclear whether the increases in the number and percentage of uninsured children reported in 2018 is due to measurement error or represents a true increase compared to 2017. That said, no alternative method currently exists to derive these numbers.

3. Please indicate by checking the box below whether your state has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

- Yes (please report your data in the table below)  
 No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Topic	Description
Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

- A. Please explain why your state chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.

**[7500]**

- B. What is your state's assessment of the reliability of the estimate? Please provide standard errors, confidence intervals, and/or p-values if available.

**[7500]**

- C. What are the limitations of the data or estimation methodology?

**[7500]**

D. How does your state use this alternate data source in CHIP program planning?  
**[7500]**

Enter any Narrative text related to Section IIA below. **[7500]**

Hawaii will remain vigilant to other indicators (qualitative or quantitative) that may suggest a true increase in the number of uninsured children, and take action as appropriate.

## Section IIB: State Strategic Objectives And Performance Goals

This subsection gathers information on your state's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP state plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your state with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2017 and FFY 2018) will be populated with data from previously reported data in CARTS. If you reported data in the two previous years' reports and you want to update/change the data, please enter that data. If you reported no data for either of those two years, but you now have data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2019).

In this section, the term performance measure is used to refer to any data your state provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are state-specific, and should be listed in the appropriate subsections within the space provided for each objective.

**NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.**

**In addition, please do not report the same data that were reported for Child Core Set reporting. The intent of this section is to capture goals and measures that your state did not report elsewhere. As a reminder, Child Core Set reporting migrated to MACPRO in December 2015. Historical data are still available for viewing in CARTS.**

Additional instructions for completing each row of the table are provided below.

### A. Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be:** "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday."

### B. Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- **New/revised:** Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- **Continuing:** Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- **Discontinued:** Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

### **C. Status of Data Reported:**

Please indicate the status of the data you are reporting for each goal, as follows:

- **Provisional:** Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2019.

**Explanation of Provisional Data** – When the value of the Status of Data Reported field is selected as “Provisional”, the state must specify why the data are provisional and when the state expects the data will be final.

- **Final:** Check this box if the data you are reporting are considered final for FFY 2019.
- **Same data as reported in a previous year’s annual report:** Check this box if the data you are reporting are the same data that your state reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

### **D. Measurement Specification:**

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which states may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

#### **HEDIS® Version:**

Please specify HEDIS® Version (example 2016). This field must be completed only when a user selects the HEDIS® measurement specification.

#### **“Other” measurement specification explanation:**

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected.

### **E. Data Source:**

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

## **F. Definition of Population Included in Measure:**

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure.

For measures related to increasing access to care and use of preventative care, please

- Check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.
- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, denominator includes only children enrolled in managed care in certain counties, technological limitations preventing reporting on the full population defined, etc.). Please report information on exclusions in the definition of the denominator (including the proportion of children excluded), The provision of this information is important and will provide CMS with a context so that comparability of denominators across the states and over time can occur.

## **G. Deviations from Measure Specification**

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that states must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

- Year of Data (e.g., partial year),
- Data Source (e.g., use of different data sources among health plans or delivery systems),
- Numerator (e.g., coding issues),
- Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),
- Other.

When one or more of the types are selected, states are required to provide an explanation.

Please report the year of data for each performance measure. The year (or months) should correspond to the period in which enrollment or utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

## **H. Date Range: available for 2019 CARTS reporting period.**

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

## **I. Performance Measurement Data (HEDIS® or Other):**

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on

whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator). The reporting unit for each measure is the state as a whole. If states calculate rates for multiple reporting units (e.g., individual health plans, different health care delivery systems), states must aggregate data from all these sources into one state rate before reporting the data to CMS. In the situation where a state combines data across multiple reporting units, all or some of which use the hybrid method to calculate the rates, the state should enter zeroes in the “Numerator” and “Denominator” fields. In these cases, it should report the state-level rate in the “Rate” field and, when possible, include individual reporting unit numerators, denominators, and rates in the field labeled “Additional Notes on Measure,” along with a description of the method used to derive the state-level rate.

## **J. Explanation of Progress:**

The intent of this section is to allow your state to highlight progress and describe any quality-improvement activities that may have contributed to your progress. Any quality-improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality-improvement activity is a state-wide initiative to inform individual families directly of their children’s immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality-improvement plans. In this section, your state is also asked to set annual performance objectives for FFY 2020, 2021 and 2022. Based on your recent performance on the measure (from FFY 2017 through 2019), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your state set for the year, as well as any quality-improvement activities that have helped or could help your state meet future objectives.

## **K. Other Comments on Measure:**

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

**Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIA, Questions 2 and 3)**

FFY 2017	FFY 2018	FFY 2019
<p><b>Goal #1 (Describe)</b> Continue informational and outreach activities about Medicaid programs, including Title XXI Medicaid expansion, and to maintain total Medicaid enrollment of children under age 19.</p>	<p><b>Goal #1 (Describe)</b> Maintain or increase the new enrollment of children into Medicaid and CHIP.</p>	<p><b>Goal #1 (Describe)</b> Maintain the prevalence of newly enrolled children in Medicaid and CHIP. The previously reported measure only focused on Medicaid enrollment, whereas now, all children enrolled (whether through Medicaid or CHIP) are included in the counts.</p>
<p><b>Type of Goal:</b>  <input type="checkbox"/> New/revised. <i>Explain:</i>  <input checked="" type="checkbox"/> Continuing.  <input type="checkbox"/> Discontinued. <i>Explain:</i></p>	<p><b>Type of Goal:</b>  <input checked="" type="checkbox"/> New/revised. <i>Explain:</i>  <input type="checkbox"/> Continuing.  <input type="checkbox"/> Discontinued. <i>Explain:</i>                      Maintain the prevalence of newly enrolled children in Medicaid and CHIP. FFY 2017	FFY 2018	FFY 2019
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b> Note that Hawaii’s fiscal situation has improved, thus, one would expect enrollment to decrease slightly. Although for FFY’17, Medicaid enrollment of children under age 19 years increased by &lt; 1%, overall, Hawaii’s uninsured rate for children is near functional zero.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Continue informational and outreach activities about Medicaid programs, including Title XXI Medicaid expansion, and to maintain total Medicaid enrollment of children under age 19, educate and encourage use of on-line portal for applications.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b> This data was not reported in the 2017 Annual Report. However 2017 numbers are available to the program and reveal that the prevalence of new enrollees in 2017 was 12.8%, which is comparable to the 2018 data. Therefore, the State of Hawaii maintained the same rate of new enrollment in FFY 2018 as in FFY 2017.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> We continue to conduct informational and outreach activities about Medicaid programs to reach and enroll children at risk of being uninsured. Additionally, the division continues to collaborate with other divisions, offices, etc. within and outside the department as well as with external agencies to increase access to Medicaid, and continues to encourage the use of an on-line portal for applications through notices, and on our website.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2019 compare with the Annual Performance Objective documented in your 2018 Annual Report?</b></p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b></p>

FFY 2017	FFY 2018	FFY 2019
<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2018:</b> Relying on previous years' reports, we expect Hawaii's uninsured rate for children to continue to be near functional zero; therefore, our objective is to maintain overall insured enrollment.</p> <p><b>Annual Performance Objective for FFY 2019:</b> For total Medicaid enrollees under age 19, our projection for 2019 is to maintain overall insured enrollment.</p> <p><b>Annual Performance Objective for FFY 2020:</b> For total Medicaid enrollees under age 19, our projection for 2020 is to maintain overall insured enrollment.</p> <p><i>Explain how these objectives were set:</i> Per the U.S. Census Bureau Current Population Survey (CPS) Table Creator for 2016, Hawaii uninsured children rate is approximately 1.2%. However, the age group is limited to children up to 17 years old. As a result, United Health Foundation's 2016 America's Health Rankings, Health of Women and Children Report is also sourced. As per the report, 98.8% of Hawaii's children under age 17 have health insurance coverage of any type.</p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2019:</b> 12.8%  <b>Annual Performance Objective for FFY 2020:</b> 12.8%  <b>Annual Performance Objective for FFY 2021:</b> 12.8%</p> <p><i>Explain how these objectives were set:</i> The need for new enrollment into Medicaid is driven in part by the state's economy. At this time, in the absence of any significant economic trends, it is anticipated that the rate of new enrollment will remain stable over the next several years. The purpose of tracking this measure is to ensure that the program is continually enrolling new children who become eligible for Medicaid in an effort to keep the number of uninsured children at a minimum. At this time, the State of Hawaii has the fewest number of uninsured children in the nation.</p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2020:</b>  <b>Annual Performance Objective for FFY 2021:</b>  <b>Annual Performance Objective for FFY 2022:</b></p> <p><i>Explain how these objectives were set:</i></p>
<p><b>Other Comments on Measure:</b> As the above space is limited, continued here:  Locating these children remains a challenge; once located, convincing their parent(s)/guardian(s) to enroll them is another challenge. We will continue to work on both.</p> <p>That said, for FFY'18, we anticipate our Medicaid population to remain unchanged.</p>	<p><b>Other Comments on Measure:</b></p>	<p><b>Other Comments on Measure:</b></p>

<p><b>Additional notes on measure:</b> Data have been revised.</p>	<p><b>Additional notes on measure:</b></p>	<p><b>Additional notes on measure:</b></p>
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b> For FFY'17, CHIP enrollment of children under age 19 years increased by approximately 7%. Our goal to maintain insured enrollment of the CHIP population was met.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> We continue the following quality improvement activities that involve the SCHIP and Medicaid (XIX) populations:</p> <ol style="list-style-type: none"> <li>1) Continue &amp; expand outreach activities for dental services, and other preventative services.</li> <li>2) Pursuing value based payment structures to increase quality of services.</li> </ol>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b> As Hawaii's overall fiscal stability has increased, the number of children qualifying for Medicaid under CHIP has increased because the CHIP program has a higher FPL threshold for eligibility. For FFY'18, CHIP enrollment rose by 4.3%. This increase during FFY2018 is comparable to the increase observed in FFY 2017 of 3.5% (revised data are presented above). The robust increase over the past three years suggests that continued increases are imminent.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> We continue informational and outreach activities about Medicaid programs, including Title XXI Medicaid expansion, and to maintain total Medicaid enrollment of children under age 19, educate the public about available programs. Additionally, the division continues to collaborate with other divisions, offices, etc. within and outside the department as well as with external agencies to increase access to Medicaid, and continues to encourage the use of an on-line portal for applications through notices, and on our website.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2019 compare with the Annual Performance Objective documented in your 2018 Annual Report?</b> Compared to a target of +5.2% for FFY 2019, Hawaii experienced a decrease in CHIP enrollment over the course of FFY 2019 of -1.1%, resulting in fewer CHIP beneficiaries enrolled at the beginning of FFY 2019 compared to FFY 2018. The anticipated increase in enrollment in CHIP was likely tempered by the implementation of enhanced and automated methods for income verification that have resulted in a decline in enrollment during FFY 2019.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> We continue informational and outreach activities about Medicaid programs, including Title XXI Medicaid expansion, and to maintain total Medicaid enrollment of children under age 19, educate the public about available programs. Additionally, the division continues to collaborate with other divisions, offices, etc. within and outside the department as well as with external agencies to increase access to Medicaid, and continues to encourage the use of an on-line portal for applications through notices, and on our website. Quality improvement efforts to increase robustness of eligibility verifications led to a decrease in potentially inappropriate enrollment, improving the quality of the measure, and the agency's ability to report on the measure with accuracy.</p>

FFY 2017	FFY 2018	FFY 2019
<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2018:</b> Relying on previous years' reports, we expect Hawaii's uninsured rate for children to continue to be near functional zero; therefore, our objective is to maintain overall insured enrollment.</p> <p><b>Annual Performance Objective for FFY 2019:</b> For total CHIP enrollees under age 19, our projection for 2019 is to maintain overall insured enrollment.</p> <p><b>Annual Performance Objective for FFY 2020:</b> For total CHIP enrollees under age 19, our projection for 2020 is to maintain overall insured enrollment.</p> <p><i>Explain how these objectives were set:</i> Per the U.S. Census Bureau Current Population Survey (CPS) Table Creator for 2016, Hawaii uninsured children rate is approximately 1.2%. However, the age group is limited to children up to 17 years old. As a result, United Health Foundation's 2016 America's Health Rankings, Health of Women and Children Report is also sourced. As per the report, 98.8% of Hawaii's children under age 17 have health insurance coverage of any type.</p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2019:</b> +5.2%  <b>Annual Performance Objective for FFY 2020:</b> +6.0%  <b>Annual Performance Objective for FFY 2021:</b> +6.8%</p> <p><i>Explain how these objectives were set:</i> Based on the trend observed, an increase in CHIP enrollment is expected. Based upon data available for FFY 2016-2018, the growth curve is expected to be modeled by a simple linear formula: <math>y = 0.8x + 1.9667</math>, where <math>x</math> = number of years since the baseline measurement, which is used to set targets for FFY 2019, 2020 and 2021.</p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2020:</b> +5.2%  <b>Annual Performance Objective for FFY 2021:</b> +6.0%  <b>Annual Performance Objective for FFY 2022:</b> +6.8%</p> <p><i>Explain how these objectives were set:</i> The decrease in total CHIP enrollment in FFY 2019 may be a byproduct of disenrollments processed as a result of an enhanced income verification system Hawaii implemented in FFY 2018 &amp; FFY 2019 (anticipated to result in a one-time trend disruption). Therefore, FFY 2019 data was not used to set targets. Rather, given past trends, an increase in CHIP enrollment is expected. Since the anticipated increase of 5.2% did not occur in FFY 2019, the same target is applied to FFY 2020.</p>
<p><b>Other Comments on Measure:</b> As the above space is limited, continued here:  Locating these children remains a challenge; once located, convincing their parent(s)/guardian(s) to enroll them is another challenge. We will continue to work on both.</p> <p>That said, for FFY'18, we anticipate our CHIP population to remain unchanged.</p>	<p><b>Other Comments on Measure:</b></p>	<p><b>Other Comments on Measure:</b></p>

<p><b>Additional notes on measure:</b> Data has been revised.</p>	<p><b>Additional notes on measure:</b></p>	<p><b>Additional notes on measure:</b></p>

FFY 2017	FFY 2018	FFY 2019
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b> Hawaii’s fiscal situation has and continues to improve, thus, one would expect enrollment to decrease slightly. Although for FFY’17, Medicaid enrollment of children under age 19 years increased by &lt;1% Hawaii’s uninsured rate for children is near functional zero.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> The Health Care Outreach Branch assists persons who need assistance with completing their applications. These applicants may have been admitted to, or released from, a facility, as well as those living in the community. This process has a residual effect as applicants with children and other family members are encouraged to also apply for their entire family.</p> <p>Rapid responses for displaced workers and community fairs have also had a residual effect in reaching potential Medicaid eligibles.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b> Hawaii’s fiscal situation has continued to improve, thus, one would expect enrollment to stabilize. As anticipated, for FFY’18, Medicaid enrollment of children under age 19 years decreased by 2.7% from the previous year. The decrease during FFY2018 is comparable to the decreased observed in FFY 2017 of 2.7% (revised data are presented above). The decrease in the overall number of children does not represent a source of concern, as ACS data demonstrates a steady decline in the number of low-income children who are uninsured, and our CHIP enrollment reflects an increase in enrollment.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> We continue informational and outreach activities about Medicaid programs, including Title XXI Medicaid expansion, and to maintain total Medicaid enrollment of children under age 19, educate the public about available programs. Additionally, the division continues to collaborate with other divisions, offices, etc. within and outside the department as well as with external agencies to increase access to Medicaid, and continues to encourage the use of an on-line portal for applications through notices, and on our website.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2019 compare with the Annual Performance Objective documented in your 2018 Annual Report?</b></p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b></p>

FFY 2017	FFY 2018	FFY 2019
<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2018:</b> Hawaii’s uninsured rate for children to continue to be near functional zero; therefore, our objective is to maintain overall insured enrollment.</p> <p><b>Annual Performance Objective for FFY 2019:</b> For total Medicaid enrollees under age 19, our projection for 2019 is to maintain overall insured enrollment.</p> <p><b>Annual Performance Objective for FFY 2020:</b> For total Medicaid enrollees under age 19, our projection for 2020 is to maintain overall insured enrollment.</p> <p><i>Explain how these objectives were set:</i> Per the U.S. Census Bureau Current Population Survey (CPS) Table Creator for 2016, Hawaii uninsured children rate is approximately 1.2%. However, the age group is limited to children up to 17 years old. As a result, United Health Foundation’s 2016 America’s Health Rankings, Health of Women and Children Report is also sourced. FFY 2017	FFY 2018	FFY 2019
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b></p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b></p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b> Not applicable. This measure was not reported in the 2017 Annual Report. However, 2017 HEDIS data is available on this measure, and a comparison of the two years demonstrates a slight decrease in this measure, from 88.13% in 2017 to 87.54% in 2018. Therefore, more work is needed to enhance screenings in this population.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Reporting on the HEDIS measure (Children and Adolescents' Access to Primary Care Practitioners) is an annual requirement for Medicaid managed care organizations in the State of Hawaii. As such, they are expected to prioritize all measures they report to the state. All health plans are strongly encouraged to complete EPSDT screenings, and monthly meetings are held by the division to assess progress and address barriers to screenings. The Division also works closely with the Department of Health to supports its efforts to increase screenings among all children, including adolescents.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2019 compare with the Annual Performance Objective documented in your 2018 Annual Report?</b></p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b></p>
<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2018:</b>  <b>Annual Performance Objective for FFY 2019:</b>  <b>Annual Performance Objective for FFY 2020:</b></p> <p><i>Explain how these objectives were set:</i></p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2019:</b> 88.4%  <b>Annual Performance Objective for FFY 2020:</b> 89.3%  <b>Annual Performance Objective for FFY 2021:</b> 90.2%</p> <p><i>Explain how these objectives were set:</i> A 10% Target Setting Method over a 10-year period (equivalent to a 1% change per year over the previous year) was used to set targets. A 10% increase over 10 years would represent an increase of 8.75%. In order to achieve this increase, the prevalence is targeted to increase by 0.875% per year.</p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2020:</b>  <b>Annual Performance Objective for FFY 2021:</b>  <b>Annual Performance Objective for FFY 2022:</b></p> <p><i>Explain how these objectives were set:</i></p>

**Objectives Related to Use of Preventative Care (Immunizations, Well Child Care)**

FFY 2017	FFY 2018	FFY 2019
<p><b>Goal #1 (Describe)</b></p>	<p><b>Goal #1 (Describe)</b> Achieve an annual 1% increase in the prevalence of well-care visits among adolescents.</p>	<p><b>Goal #1 (Describe)</b> Achieve an annual 1% increase in the prevalence of well-care visits among adolescents</p>
<p><b>Type of Goal:</b>  <input type="checkbox"/> New/revised. <i>Explain:</i>  <input type="checkbox"/> Continuing.  <input type="checkbox"/> Discontinued. <i>Explain:</i></p>	<p><b>Type of Goal:</b>  <input checked="" type="checkbox"/> New/revised. <i>Explain:</i>  <input type="checkbox"/> Continuing.  <input type="checkbox"/> Discontinued. <i>Explain:</i>                      No objective was previously reported in this section. Increasing preventive screening and immunization among adolescents is a recent area of focus in the State of Hawaii. A law was recently passed requiring seventh grade physical examinations prior to entry into seventh grade as a strategy to promote HPV vaccinations. Given the efforts currently underway to enhance screening, this is an important measure to track improvement and progress.</p>	<p><b>Type of Goal:</b>  <input type="checkbox"/> New/revised. <i>Explain:</i>  <input checked="" type="checkbox"/> Continuing.  <input type="checkbox"/> Discontinued. <i>Explain:</i></p>
<p><b>Status of Data Reported:</b>  <input type="checkbox"/> Provisional.  <i>Explanation of Provisional Data:</i>  <input type="checkbox"/> Final.  <input type="checkbox"/> Same data as reported in a previous year’s annual report.  <i>Specify year of annual report in which data previously reported:</i></p>	<p><b>Status of Data Reported:</b>  <input type="checkbox"/> Provisional.  <i>Explanation of Provisional Data:</i>  <input checked="" type="checkbox"/> Final.  <input type="checkbox"/> Same data as reported in a previous year’s annual report.  <i>Specify year of annual report in which data previously reported:</i></p>	<p><b>Status of Data Reported:</b>  <input type="checkbox"/> Provisional.  <i>Explanation of Provisional Data:</i>  <input checked="" type="checkbox"/> Final.  <input type="checkbox"/> Same data as reported in a previous year’s annual report.  <i>Specify year of annual report in which data previously reported:</i></p>

FFY 2017	FFY 2018	FFY 2019
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b></p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b></p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b> Not applicable. This measure was not reported in the 2017 Annual Report. However, 2017 HEDIS data is available on this measure, and a comparison of the two years demonstrates an increase in this measure, from 43.49% in 2017 to 47.45% in 2018. Still, more work is needed to enhance screenings in this population.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Reporting on the HEDIS measure (Adolescent Well-Care Visit) is an annual requirement for Medicaid managed care organizations in the State of Hawaii. As such, they are expected to prioritize all measures they report to the state. In 2019, enhancing adolescent well care visits has been identified as a pay for performance measure, with financial incentives for plans to conduct quality improvement activities in this area. The Division also works closely with the Department of Health to support its efforts to increase screenings among all children, including adolescents.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2019 compare with the Annual Performance Objective documented in your 2018 Annual Report?</b> Data in 2019 represents an increase from data reported in 2018, from 47.45% in 2018 to 50.59% in 2019 (a 6.6% increase). The target of 48.0% for FFY 2019 was exceeded.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Reporting on the HEDIS measure (Adolescent Well-Care Visit) is an annual requirement for Medicaid managed care organizations in the State of Hawaii. As such, they are expected to prioritize all measures they report to the state. In 2019, enhancing adolescent well care visits was identified as a pay for performance measure, with financial incentives for plans to conduct quality improvement activities in this area. The Division also works closely with the Department of Health to support its efforts to increase screenings among all children, including adolescents.</p>

1. What other strategies does your state use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**

At this time, a variety of HEDIS measures are calculated and reported to the Medicaid CORE set. Data for the EPSDT report is collected and reported annually. All indicators demonstrate that access to coverage and care and receipt of developmental screenings is good for all children enrolled in Medicaid, including CHIP children, with room for improvement in most areas. Mirroring national trends, care gaps among older children including adolescents are larger than those among younger children. Therefore, this report has focused on gaps in care among older children in Hawaii.

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

In previous years, the Division has had limited analytic capacity to expand beyond required reporting. However, efforts are underway to expand analytics capacity within the division. A new Health Analytics Office, created in 2019 within the division, will be able to support future analytic capacity. In addition, the program implemented a population-health focused vision (called the HOPE vision) into its Managed Care program in the new Request for Proposals issued in 2019. The new contract cycle will have several priorities aligned with improving behavioral health integration and prevention for the entire population including CHIP children. Objectives and measures will be set to track implementation and progress towards improving health outcomes. Data are expected to be available by 2021.

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

At this time, the managed care plans select two areas for performance improvement annually with input from the Med-QUEST division and our External Quality Review Organization. The performance improvement projects (PIPs) chosen for 2019-2021 (ongoing at this time) include adolescent well-care visits, and follow-up after hospitalization for mental illness. The PIP tied to adolescent well-care visits will support indicators chosen for this report. The PIPs for 2019-21 are in progress; therefore, no information is available at this time to assess effectiveness. Quality measures reported in future years should reflect the impact of the PIPs on such areas as adolescent well-care visits.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program's performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives. **[7500]**

Substantial outreach efforts are underway to ensure access to healthcare coverage to uninsured residents of Hawaii who may be eligible for Medicaid. Our Health Care Outreach Branch is dedicated to identifying uninsured individuals, including among hard to reach populations, and providing assistance in filling out applications to enhance coverage. The MQD website has been streamlined to provide substantial information to the public. An online application portal has been implemented to enhance convenience and accessibility. Additionally, the division is currently undergoing a business process redesign to enhance responsiveness and efficiency and metrics related to CMS performance reporting are collected.

The CAHPS survey is conducted to assess satisfaction of child beneficiaries in odd years. The 2017 Child CAHPS survey indicated an aggregate 69.1% satisfaction with the the health plan, and 72.9% satisfaction with the healthcare provider. Among various composite measures captured by CAHPS, 94.4% of beneficiaries were satisfied with the communication received by doctors, although more improvement was needed in other areas including getting needed care (82.8%), getting care quickly (86.4%) and shared decision making (82.7%). As a result, getting

needed care, the composite measure with the lowest rate of satisfaction, was selected as a performance improvement project for 2019. The data from the 2019 CAHPS survey has not been released.

Enter any Narrative text related to Section IIB below. [7500]

The Division has recently acquiring funding to establish a Health Analytics Office that will enhance access to data and resources to support reporting on additional goals in the future. The adolescent well care measure is reported to the Medicaid Core Set as well; while we understand that the CARTS report provides an opportunity to identify new goals and targets not reported elsewhere, no other data is available for reporting at this time. Increasing immunizations remains a key focus of the program; however, recent challenges with the state immunization registry have compromised our ability to collect and report accurate data on this measure. Substantial efforts are underway to restore the state immunization registry and enhance collection of adolescent immunization data in the state. Improvements that result will pave the way for this report to transition to the use of other measures to track health outcomes.

## Section III: Assessment of State Plan and Program Operation

**Please reference and summarize attachments that are relevant to specific questions**

Please note that the numbers in brackets, e.g., [7500] are character limits in the CHIP Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

### Section IIIA: Outreach

1. How have you redirected/changed your outreach strategies during the reporting period? **[7500]**

The Department has added community partners to the procurement contract. This will enable greater availability to individuals on the islands of Maui, Molokai and Lanai. By expanding business associate agreements to work with several non-profit organizations who target the chronically homeless and transitional homeless populations, we have increased access and helped remove barriers to obtaining medical assistance for these areas.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? **[7500]**

Outreach events, partnering with schools and working with transitional housing agencies and offices. Increased access to Medicaid as well as the federal marketplace by way of these outreach events.

3. Which of the methods described in Question 2 would you consider a best practice(s)? **[7500]**

All three are equally important as they address different populations and areas.

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

Yes  
 No

Have these efforts been successful, and how have you measured effectiveness? **[7500]**

Yes, we have been able to increase enrollment for these populations and decrease or correct incorrect terminations, as well as correct enrollments. This also is an important contribution to program integrity.

5. What percentage of children below 200 percent of the federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? **[5]**

(Identify the data source used). **[7500]**

Based on the SEDS FFY 2019 report, a total of 2,489 new CHIP enrollees and 3,148 new Medicaid enrollees were children below 200 percent of the FPL. According to the ACS 2018 data reported in the current report, Hawaii has a total of ~4,000 uninsured children live at or below 200% FPL in 2017. Because of the large error margin, the data is inconclusive on whether there is a true increase in the number of uninsured children. We believe that substantial efforts to reduce the prevalence of uninsured children in the state have been successful in closing the gap.

Enter any Narrative text related to Section IIIA below. **[7500]**

The State continues to look for ways to grow the outreach program through increased partnerships with other agencies and non-profit organizations. The Outreach Branch has been instrumental in assisting applicant and beneficiaries who need special help to apply for medical assistance. Many of these individuals would have relied on hospital emergency rooms to access services, and now they are enrolled in a health plan.

### Section IIIB: Substitution of Coverage (Crowd-out)

Please answer the following questions as they apply to your state's program (some questions are not applicable to Medicaid expansion programs.) Medicaid expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A. Please include percent calculations in your responses when applicable and requested.

1. Does your separate CHIP program require a child to be uninsured for a minimum amount of time prior to enrollment (waiting period)?

- No  
 Yes  
 N/A

If no, skip to question 5. If yes, answer questions 2-4:

2. How many months does your program require a child to be uninsured prior to enrollment?
3. To which groups (including FPL levels) does the period of uninsurance apply? **[1000]**
4. List all exemptions to imposing the period of uninsurance **[1000]**

**Please answer questions 5, 7, 8 (and 6 and 9 if applicable) regardless of the response the state provided to question 1.**

5. Does your program match prospective enrollees to a database that details private insurance status?

- No  
 Yes  
 N/A

6. If answered yes to question 5, what database? **[1000]**

7. What percent of individuals screened for CHIP eligibility cannot be enrolled because they have group health plan coverage? **[5]**

a. Of those found to have had employer sponsored insurance and have been uninsured for only a portion of the state's waiting period, what percent meet the state's exemptions and federally required exemptions to the waiting period [(# individuals subject to the waiting period that meet an exemption/total # of individuals subject to the waiting period)\*100]? **[5]**

8. Do you track the number of individuals who have access to private insurance?

- Yes  
 No

9. If yes to question 8, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last federal fiscal year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)\*100]? **[5]**

Enter any Narrative text related to Section IIIB below. **[7500]**

The state continues to add upgrades/improvements for our their eligibility system. An analysis of the percent of individuals that are enrolled in CHIP who have access to private health insurance at the time of application is not currently available. The division is currently building analytics capacity and will be able to produce this data in the future.

## Section IIIC: Eligibility

This subsection should be completed by all states. Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

### Section IIIC: Subpart A: Eligibility Renewal and Retention

1. Do you have authority in your CHIP state plan to provide for presumptive eligibility, and have you implemented this?

Yes

No

If yes,

- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? **[5]**
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination? **[5]**
2. Select the measures from those below that your state employs to simplify an eligibility renewal and retain eligible children in CHIP.

Conducts follow-up with clients through caseworkers/outreach workers

Sends renewal reminder notices to all families

- How many notices are sent to the family prior to disenrolling the child from the program? **[500]**

2

- At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the state?) **[500]**

4

Other, please explain: **[500]**

Passive renewals using most recent information on file for beneficiaries.

3. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. [7500]

All methods have proven effective to retain eligible children in Medicaid. Using passive renewal to recertify children and their families is particularly effective as it ensures continued coverage for eligible individuals.

## Section IIIC: Subpart B: Eligibility Data

**Table 1. Data on Denials of Title XXI Coverage in FFY 2019**

States are required to report on all questions (1, 1.a., 1.b., and 1.c) in FFY 2019. Please enter the data requested in the table below and the template will tabulate the requested percentages. If you are unable to provide data in this section due to the single streamlined application, please note this in the response to question 2.

Measure	Number	Percent
1. Total number of denials of title XXI coverage	704	100
a. Total number of procedural denials	641	91.1
b. Total number of eligibility denials	40	5.7
i. Total number of applicants denied for title XXI and enrolled in title XIX		
<input type="checkbox"/> (Check here if there are no additional categories)	23	3.3
c. Total number of applicants denied for other reasons Please indicate:		

2. Please describe any limitations or restrictions on the data used in this table:

Information on total number of applicants denied for title XXI and enrolled in title XIX is not available at this time. The division is currently building analytics capacity and will be able to produce this data in the future.

### Definitions:

1. The “the total number of denials of title XXI coverage” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2019. This definition only includes denials for title XXI at the time of initial application (not redetermination).
  - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2019 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
  - b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2019 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.)
    - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX.

- c. The “total number of applicants denied for other reasons” is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

## Table 2. Redetermination Status of Children

For tables 2a and 2b, reporting is required for FFY 2019.

### Table 2a. Redetermination Status of Children Enrolled in Title XXI.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XXI and eligible to be redetermined	27651	100%			
2. Total number of children screened for redetermination for title XXI	27651	100	100%		
3. Total number of children retained in title XXI after the redetermination process	22473	81.27	81.27		
4. Total number of children disenrolled from title XXI after the redetermination process	5178	18.73	18.73	100%	
a. Total number of children disenrolled from title XXI for failure to comply with procedures	1643			31.73	
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria	2685			51.85	100%
i. Disenrolled from title XXI because income too high for title XXI (If unable to provide the data, check here <input type="checkbox"/> )	1508				56.16
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input checked="" type="checkbox"/> )					
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid Expansion and this data is not relevant check here <input type="checkbox"/> )	957				35.64
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: residency, failure to provide information (If unable to provide the data check here <input type="checkbox"/> )	220				8.19
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/> )	850			16.42	

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

The total number of children who are enrolled in title XXI and eligible for redetermination was not available. For the purposes of facilitating automated calculations, the number entered into (2) was also populated into (1). The division is currently building analytics capacity and will be able to produce this data in the future.

#### Definitions:

- The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2019, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state

uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2019 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2019.
4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2019. This includes those children that states may define as “transferred” to Medicaid for title XIX eligibility screening.
  - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2019 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
  - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their state’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
  - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.  
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

**Table 2b. Redetermination Status of Children Enrolled in Title XIX.**

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XIX and eligible to be redetermined	91563	100%			
2. Total number of children screened for redetermination for title XIX	91563	100	100%		
3. Total number of children retained in title XIX after the redetermination process	82982	90.63	90.63		
4. Total number of children disenrolled from title XIX after the redetermination process	8581	9.37	9.37	100%	
a. Total number of children disenrolled from title XIX for failure to comply with procedures	5517			64.29	
b. Total number of children disenrolled from title XIX for failure to meet eligibility criteria	1174			13.68	100%
i. Disenrolled from title XIX because income too high for title XIX (If unable to provide the data, check here <input type="checkbox"/> )	400				34.07
ii. Disenrolled from title XIX for other eligibility reason(s) Please indicate: residency, failure to provide information (If unable to provide the data check here <input type="checkbox"/> )	774				65.93
c. Total number of children disenrolled from title XIX for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/> )	1890			22.03	

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

The total number of children who are enrolled in title XIX and eligible for redetermination was not available. For the purposes of facilitating automated calculations, the number entered into (2) was also populated into (1). The division is currently building analytics capacity and will be able to produce this data in the future.

---

**Definitions:**

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2019, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.
2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2019 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2019.
4. The “total number of children disenrolled from title XIX after the redetermination process” is defined as the total number of children who are disenrolled from title XIX following the redetermination process in FFY 2019. This includes those children that states may define as “transferred” to CHIP for title XXI eligibility screening.
  - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XIX for failure to successfully complete the redetermination process in FFY 2019 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
  - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XIX for no longer meeting one or more of their state’s Medicaid eligibility criteria (i.e., income too high, etc.).
  - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XIX for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.  
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XIX (line 4).

### Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XIX and Title XXI, Second Quarter FFY 2018

The purpose of tables 3a and 3b is to measure the duration, or continuity, of Medicaid and CHIP enrollees' coverage. This information is required by Section 402(a) of CHIPRA. **Reporting on this table is required.**

The measure is designed to capture continuity of coverage for a cohort of children in title XIX and title XXI for 18 months of enrollment. This means that reporting spans two CARTS reports over two years, with enrollment status at 6 months being reported in the first reporting year, and 12 and 18 month enrollment status reported in the second reporting year. **States identify a new cohort of children every two years. States identify newly enrolled children in the second quarter of FFY 2018 (January, February, and March of 2018) for the FFY 2018 CARTS report. This same cohort of children will be reported on in the FFY 2019 CARTS report for the 12 and 18 month status of children newly identified in quarter 2 of FFY 2018. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary.**

**The FFY 2019 CARTS report is the second year of reporting in the cycle of two CARTS reports on the cohort of children identified in the second quarter of FFY 2018.** For the FFY 2018 report, States only reported on lines 1-4a of the tables. **In the FFY 2019 report, no updates will be made to lines 1-4a. For the FFY 2019 report, data will be added to lines 5-10a.** The next cohort of children will be identified in the second quarter of the FFY 2020 (January, February and March of 2020).

**Instructions:** For this measure, please identify newly enrolled children in both title XIX (for Table 3a) and title XXI (for Table 3b) in the second quarter of FFY 2018, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2018 must have birthdates after July 2001 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2018 must have birthdates after August 2001, and children enrolled in March 2018 must have birthdates after September 2001. Each child newly enrolled during this time frame needs a unique identifier or "flag" so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary. Please follow the child based on the child's age category at the time of enrollment (e.g., the child's age at enrollment creates an age cohort that does not change over the 18 month time span)

Please enter the data requested in the tables below, and the template will tabulate the percentages. In the FFY 2019 report you will enter data on lines 5-7a related to the 12-month enrollment status of children identified on line 1. You will also enter data on lines 8-10a related to the 18-month enrollment status of children identified on line 1. **Only enter a "0" (zero) if the data are known to be zero. If data are unknown or unavailable, leave the field blank.**

**Note that all data must sum correctly in order to save and move to the next page.** The data in each individual row must add across to sum to the total in the "All Children Ages 0-16" column for that row. And in each column, the data within each time period (6, 12 and 18 months) must each sum up to the data in row 1, which is the number of children in the cohort. This means that in each column, rows 2, 3 and 4 must sum to the total in row 1; rows 5, 6 and 7 must sum to row 1; and rows 8, 9 and 10 must sum to row 1. These tables track a child's enrollment status over time, so when data are added or modified at each milestone (6, 12, and 18 months), there should always be the same total number of children accounted for in line 1 "All Children Ages 0-16" over the entire 18 month period. **Rows numbered with an "a" (e.g., rows 3a and 4a) are excluded from the totals because they are subsets of their respective rows. The system will not move to the next section of the report until all applicable sections of the table for the reporting year are complete and sum correctly to line 1.**

### Table 3 a. Duration Measure of Children Enrolled in Title XIX

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in Medicaid—“Newly enrolled” is defined as not enrolled in title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XIX in December 2017, etc.)

**Definitions:**

1. The “total number of children newly enrolled in title XIX in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XIX, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
2. The total number of children that were continuously enrolled in title XIX for 6 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
3. The total number who had a break in title XIX coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XIX by the end of the 6 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2018
  - 3.a. From the population in #3, provide the total number of children who were enrolled in title XXI during their break in coverage.
4. The total number who disenrolled from title XIX, 6 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
  - 4.a. From the population in #4, provide the total number of children who were enrolled in title XXI in the month after their disenrollment from title XIX.
5. The total number of children who were continuously enrolled in title XIX for 12 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019

6. The total number of children who had a break in title XIX coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 12 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XIX by the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XIX by the end of January 2019
  - + the number of children with birthdates after September 2001 who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XIX by the end of February 2019
 6.a. From the population in #6, provide the total number of children who were enrolled in title XXI during their break in coverage.
  
7. The total number of children who disenrolled from title XIX 12 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
  - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
  - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
 7.a. From the population in #7, provide the total number of children, who were enrolled in title XXI in the month after their disenrollment from title XIX.
  
8. The total number of children who were continuously enrolled in title XIX for 18 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019
  
9. The total number of children who had a break in title XIX coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 18 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2019
 9.a. From the population in #9, provide the total number of children who were enrolled in title XXI during their break in coverage.
  
10. The total number of children who were disenrolled from title XIX 18 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
 10.a. From the population in #10, provide the total number of children who were enrolled in title XXI (CHIP) in the month after their disenrollment from title XIX.

### Table 3b. Duration Measure of Children Enrolled in Title XXI

Specify how your “newly enrolled” population is defined:

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in CHIP—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XXI in December 2017, etc.)

Table 3b. Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XXI in the second quarter of FFY 2018	392	100%	84	100%	113	100%	137	100%	58	100%

Table 3b. Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>Enrollment status 6 months later</b>										
2. Total number of children continuously enrolled in title XXI	274	69.9	61	72.62	91	80.53	89	64.96	33	56.9
3. Total number of children with a break in title XXI coverage but re-enrolled in title XXI	4	1.02	2	2.38	0		2	1.46	0	
3.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )	1	0.26	1	1.19	0		0		0	
4. Total number of children disenrolled from title XXI	114	29.08	21	25	22	19.47	46	33.58	25	43.1
4.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )	46	11.73	13	15.48	6	5.31	20	14.6	7	12.07
<b>Enrollment status 12 months later</b>										
5. Total number of children continuously enrolled in title XXI	199	50.77	31	36.9	76	67.26	65	47.45	27	46.55
6. Total number of children with a break in title XXI coverage but re-enrolled in title XXI	13	3.32	3	3.57	2	1.77	7	5.11	1	1.72
6.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )	4	1.02	3	3.57	0		1	0.73	0	
7. Total number of children disenrolled from title XXI	180	45.92	50	59.52	35	30.97	65	47.45	30	51.72
7.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )	64	16.33	12	14.29	14	12.39	28	20.44	10	17.24
<b>Enrollment status 18 months later</b>										
8. Total number of children continuously enrolled in title XXI	132	33.67	36	42.86	45	39.82	34	24.82	17	29.31
9. Total number of children with a break in title XXI coverage but re-enrolled in title XXI	26	6.63	11	13.1	4	3.54	9	6.57	2	3.45
9.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )	12	3.06	9	10.71	1	0.88	1	0.73	1	1.72
10. Total number of children disenrolled from title XXI	234	59.69	37	44.05	64	56.64	94	68.61	39	67.24
10.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )	70	17.86	7	8.33	20	17.7	31	22.63	12	20.69

**Definitions:**

1. The “total number of children newly enrolled in title XXI in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.

2. The total number of children that were continuously enrolled in title XXI for 6 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
  
3. The total number who had a break in title XXI coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2018
  - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
  - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.
  
5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019
  
6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XXI by the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XXI by the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XXI by the end of February 2019
  - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
  - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
  - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
  - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.
  
8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019
  
9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2019
  - 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.

10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:  
the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019  
+ the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019  
+ the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019  
10.a. From the population in #10, provide the total number of children who were enrolled in title XIX (Medicaid) in the month after their disenrollment from XXI.

## Section IIID: Cost Sharing

1. Describe how the state tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year? If the state checks N/A for this question because no cost sharing is required, please skip to Section IIIE.

a. Cost sharing is tracked by:

Enrollees (shoebox method)

If the state uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**

Health Plan(s)

State

Third Party Administrator

N/A (No cost sharing required)

Other, please explain. **[7500]**

2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased?

Yes

No

3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**

4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the state's CHIP program during the federal fiscal year. **[500]**

5. Has your state undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?

Yes

No If so, what have you found? **[7500]**

6. Has your state undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?

Yes

No If so, what have you found? **[7500]**

7. If your state has increased or decreased cost sharing in the past federal fiscal year, how is the state monitoring the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**

Enter any Narrative text related to Section IIID below. **[7500]**

### **Section IIIE: Employer sponsored insurance Program (including Premium Assistance)**

1. Does your state offer an employer sponsored insurance program (including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI Demonstration) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.  
 No, skip to Program Integrity subsection.

Check all that apply and complete each question for each authority

- Purchase of Family Coverage under the CHIP state plan (2105(c)(3))  
 Additional Premium Assistance Option under CHIP state plan (2105(c)(10))  
 Section 1115 Demonstration (Title XXI)

2. Please indicate which adults your state covers with premium assistance. (Check all that apply.)

- Parents and Caretaker Relatives  
 Pregnant Women

3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**

4. What benefit package does the ESI program use? **[7500]**

5. Are there any minimum coverage requirements for the benefit package?

- Yes  
 No

6. Does the program provide wrap-around coverage for benefits?

- Yes  
 No

7. Are there limits on cost sharing for children in your ESI program?

- Yes  
 No

8. Are there any limits on cost sharing for adults in your ESI program?

- Yes  
 No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

- Yes
- No

If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum **[7500]**?

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

Number of childless adults ever-enrolled during the reporting period

Number of adults ever-enrolled during the reporting period

Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2019.

Children  
Parents

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

16. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

Population	State	Employer	Employee
Child			
Parent			

17. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

	Low	High
Children		
Parent		

18. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

19. Please provide the income levels of the children or families provided premium assistance.

Income level of	From	To
Children	% of FPL <b>[5]</b>	% of FPL <b>[5]</b>
Parents	% of FPL <b>[5]</b>	% of FPL <b>[5]</b>

20. Is there a required period of uninsurance before enrolling in premium assistance?

- Yes  
 No

If yes, what is the period of uninsurance? **[500]**

21. Do you have a waiting list for your program?

- Yes  
 No

22. Can you cap enrollment for your program?

- Yes  
 No

23. What strategies has the state found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]**

Enter any Narrative text related to Section III E below. **[7500]**

### Section III F: Program Integrity

**COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS, I.E., THOSE THAT ARE NOT MEDICAID EXPANSIONS)**

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:

(1) prevention:

Yes

No

(2) investigation:

Yes

No

(3) referral of cases of fraud and abuse?

Yes

No

Please explain: **[7500]**

Do managed health care plans with which your program contracts have written plans?

Yes

No

Please Explain: **[500]**

2. For the reporting period, please report the

Number of fair hearing appeals of eligibility denials

Number of cases found in favor of beneficiary

3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

Provider Credentialing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

Provider Billing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

Beneficiary Eligibility

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

Are these cases for:

CHIP

Medicaid and CHIP Combined

4. Does your state rely on contractors to perform the above functions?

Yes, please answer question below.

No

5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain: **[7500]**

6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?

Yes

No

Please Explain: **[500]**

Enter any Narrative text related to Section III F below. **[7500]**

## Section III G: Dental Benefits:

Please ONLY report data in this section for children in Separate CHIP programs and the Separate CHIP part of Combination programs. Reporting is required for all states with Separate CHIP programs and Combination programs. If your state has a Combination program or a Separate CHIP program but you are not reporting data in this section on children in the Separate CHIP part of your program, please explain why. Explain: [7500]

1. **Information on Dental Care for Children in Separate CHIP Programs (including children in the Separate CHIP part of Combination programs). Include all delivery system types, e.g. MCO, PCCM, FFS.**

Data for this table are based on the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

- a. **Annual Dental Participation Table for Children Enrolled in Separate CHIP programs and the Separate CHIP part of Combination programs (for Separate CHIP programs, please include ONLY children receiving full CHIP benefits and supplemental benefits).**

FFY 2019	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
<b>Total Individuals Enrolled for at Least 90 Continuous Days<sup>1</sup></b>	29063	84	2468	5131	8004	8460	4916
<b>Total Enrollees Receiving Any Dental Services<sup>2</sup> [7]</b>	26816	68	2243	4684	7425	7856	4540
<b>Total Enrollees Receiving Preventive Dental Services<sup>3</sup> [7]</b>	21877	49	1834	3697	5994	6534	3769

<sup>1</sup> **Total Individuals Enrolled for at Least 90 Continuous Days** – Enter the total unduplicated number of children who have been continuously enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days in the federal fiscal year, distributed by age. For example, if a child was enrolled January 1st to March 31st, this child is considered continuously enrolled for at least 90 continuous days in the federal fiscal year. If a child was enrolled from August 1st to September 30th and from October 1st to November 30th, the child would not be considered to have been enrolled for 90 continuous days in the federal fiscal year. Children should be counted in age groupings based on their age at the end of the fiscal year. For example, if a child turned 3 on September 15th, the child should be counted in the 3-6 age grouping.

<sup>2</sup> **Total Enrollees Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999 or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

<sup>3</sup> **Total Enrollees Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CDT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

FFY 2019	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Enrollees Receiving Dental Treatment Services <sup>4</sup> [7]	11927	20	557	2214	3762	3251	2123

b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a sealant on at least one permanent molar tooth<sup>5</sup>? [7]

2. Does the state provide supplemental dental coverage?

- Yes  
 No

If yes, how many children are enrolled? [7]

What percent of the total number of enrolled children have supplemental dental coverage? [5]

Enter any Narrative text related to Section III G below. [7500]

<sup>4</sup> **Total Enrollees Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (or equivalent CDT codes D2000 - D9999 or equivalent CPT codes, that is, only those CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services, and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

Report all dental services data in the age category reflecting the child's age at the end of the federal fiscal year even if the child received services while in two age categories. For example, if a child turned 10 on September 1st, but had a cleaning in April and a cavity filled in September, both the cleaning and the filling would be counted in the 10-14 age category.

<sup>5</sup> **Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth, as defined by HCPCS code D1351 (or equivalent CDT code D1351), based on an unduplicated paid, unpaid, or denied claim. For this line, include sealants placed by any dental professional for whom placing a sealant is within his or her scope of practice. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, 31, and additionally, for those states that cover sealants on third molars, also known as wisdom teeth, the teeth numbered 1, 16, 17, 32.

Report all sealant data in the age category reflecting the child's age at the end of the federal fiscal year even if the child was factually a different age on the date of service. For example, if a child turned 6 on September 1st, but had a sealant applied in July, the sealant would be counted in the age 6-9 category.

### Section IIIH: CHIPRA CAHPS Requirement:

CHIPRA section 402(a)(2), which amends reporting requirements in section 2108 of the Social Security Act, requires Title XXI Programs (i.e., CHIP Medicaid Expansion programs, Separate Child Health Programs, or a combination of the two) to report CAHPS results to CMS starting December 2013. While Title XXI Programs may select any CAHPS survey to fulfill this requirement, CMS encourages these programs to align with the CAHPS measure in the Children’s Core Set of Health Care Quality Measures for Medicaid and CHIP (Child Core Set). Starting in 2013, Title XXI Programs should submit summary level information from the CAHPS survey to CMS via the CARTS attachment facility. We also encourage states to submit raw data to the Agency for Healthcare Research and Quality’s CAHPS Database. More information is available in the Technical Assistance fact sheet, Collecting and Reporting the CAHPS Survey as Required Under the CHIPRA: <https://www.medicaid.gov/medicaid/quality-of-care/downloads/cahpsfactsheet.pdf>

If a state would like to provide CAHPS data on both Medicaid and CHIP enrollees, the agency must sample Title XIX (Medicaid) and Title XXI (CHIP) programs separately and submit separate results to CMS to fulfill the CHIPRA Requirement.

#### Did you Collect this Survey in Order to Meet the CHIPRA CAHPS Requirement?

- Yes
- No

#### If Yes, How Did you Report this Survey (select all that apply):

- Submitted raw data to AHRQ (CAHPS Database)
- Submitted a summary report to CMS using the CARTS attachment facility (NOTE: do not submit raw CAHPS data to CMS)
- Other. Explain:

#### If No, Explain Why:

Select all that apply (Must select at least one):

- Service not covered
- Population not covered
  - Entire population not covered
  - Partial population not coveredExplain the partial population not covered:
- Data not available
  - Explain why data not available
    - Budget constraints
    - Staff constraints
    - Data inconsistencies/accuracyPlease explain:
    - Data source not easily accessibleSelect all that apply:
  - Requires medical record review
  - Requires data linkage which does not currently exist
  - Other:

Information not collected.

Select all that apply:

Not collected by provider (hospital/health plan)

Other:

Other:

Small sample size (less than 30)

Enter specific sample size:

Other. Explain:

**Definition of Population Included in the Survey Sample:**

Definition of population included in the survey sample:

Denominator includes CHIP (Title XXI) population only.

Survey sample includes CHIP Medicaid Expansion population.

Survey sample includes Separate CHIP population.

Survey sample includes Combination CHIP population.

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded:

**Which Version of the CAHPS® Survey was Used?**

CAHPS® 5.0.

CAHPS® 5.0H.

Other. Explain:

**Which Supplemental Item Sets were Included in the Survey?**

No supplemental item sets were included

CAHPS Item Set for Children with Chronic Conditions

Other CAHPS Item Set. Explain: The HEDIS Supplemental Set (without the children with chronic conditions (CCC) measurement set)

**Which Administrative Protocol was Used to Administer the Survey?**

NCQA HEDIS CAHPS 5.0H administrative protocol

HRQ CAHPS administrative protocol

Other administrative protocol. Explain: NCQA HEDIS CAHPS 5.0H standard administrative protocol with modifications to allow respondents to complete the survey in one of four non-English languages if needed, including Chinese, Ilocano, Korean, or Vietnamese.

Enter any Narrative text related to Section IIIH below. **[7500]**

### Section III I: Health Service Initiatives (HSI) Under the CHIP State Plan

Pursuant to Section 2105(a)(1)(D)(ii) of the Social Security Act, states have the option to use up to 10 percent of actual or estimated Federal expenditures to develop state-designed Health Services Initiatives (HSI) (after first funding costs associated with administration of the CHIP state plan), as defined in regulations at 42 CFR 457.10, to improve the health of low-income children.

All states with approved HSI program(s) described in the CHIP state plan should answer “Yes” to question 1, and complete questions 2 and 3. If the state has an approved HSI that is not currently operating using Title XXI funds, please check “Yes”, to question 1, include the program name and description in the table for question 2, and indicate in the narrative portion of this section that the state is not currently implementing the program.

1) Does your state operate HSI(s) to provide direct services or implement public health initiatives using Title XXI funds?

Yes, please answer questions below.

No, please skip to Section IV.

2) In the table below, please provide a brief description of each HSI program operated in the state in the first column. In the second column, please list the populations served by each HSI program. In the third column, provide estimates of the number of children served by each HSI program. In the fourth column, provide the percentage of the population served by the HSI who are children below your state’s CHIP FPL eligibility threshold.

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low-income Children Served by HSI Program <sup>6</sup>

<sup>6</sup> The percent of children served by the HSI program who are below the CHIP FPL threshold in your state should be reported in this column.

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low-income Children Served by HSI Program <sup>6</sup>

3) Please define a metric for each of your state's HSI programs that is used to measure the program's impact on improving the health of low-income children. In the table below, please list the HSI program title in the first column, and include a metric used to measure that program's impact in the second column. In the third column, please provide the outcomes for metrics reported in the second column. States that are already reporting to CMS on such measures related to their HSI program(s) do not need to replicate that reporting here and may skip to Section IV.

HSI Program	Metric	Outcome

Enter any Narrative text related to Section III I below. **[7500]**

## Section IV. Program financing for State Plan

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-federal funds).

(Note: This reporting period equals federal fiscal year 2019. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

### COST OF APPROVED CHIP PLAN

<b>Benefit Costs</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>
Insurance payments			
Managed Care	50089410	51000000	52000000
Fee for Service	8149763	8000000	8000000
<b>Total Benefit Costs</b>	<b>58239173</b>	<b>59000000</b>	<b>60000000</b>
(Offsetting beneficiary cost sharing payments)	-3054580	-3000000	-3000000
<b>Net Benefit Costs</b>	<b>\$ 55184593</b>	<b>\$ 56000000</b>	<b>\$ 57000000</b>

<b>Administration Costs</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>
Personnel	1799473	1800000	1800000
General Administration	1623721	1700000	1700000
Contractors/Brokers (e.g., enrollment contractors)			
Claims Processing			
Outreach/Marketing costs			
Other (e.g., indirect costs)	-1553		
Health Services Initiatives			
<b>Total Administration Costs</b>	<b>3421641</b>	<b>3500000</b>	<b>3500000</b>
<b>10% Administrative Cap (net benefit costs ÷ 9)</b>	<b>6131621</b>	<b>6222222</b>	<b>6333333</b>

	<b>2019</b>	<b>2020</b>	<b>2021</b>
<b>Federal Title XXI Share</b>	<b>53179297</b>	<b>46963350</b>	<b>40601550</b>
<b>State Share</b>	<b>5426937</b>	<b>12536650</b>	<b>19898450</b>
<b>TOTAL COSTS OF APPROVED CHIP PLAN</b>	<b>58606234</b>	<b>59500000</b>	<b>60500000</b>

2. What were the sources of non-federal funding used for state match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement
- Other (specify) **[500]**

3. Did you experience a short fall in CHIP funds this year? If so, what is your analysis for why there were not enough federal CHIP funds for your program? **[1500]**

4. In the tables below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month (PMPM) cost rounded to a whole number. If you have CHIP enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

### A. Managed Care

Year	Number of Eligibles	PMPM (\$)
2019	351736	\$142
2020	358000	\$143
2021	365000	\$143

### A. Fee For Service

Year	Number of Eligibles	PMPM (\$)
2019	19503	\$35
2020	19500	\$34
2021	19500	\$34

Enter any Narrative text related to Section IV below. **[7500]**

In the table for this section, on the row labeled “Offsetting Beneficiary cost sharing payments”, the negative amounts listed for each year are due to rebates and other offesets received by the state, NOT cost sharing payments. Hawaii does not have a cost sharing program for this population.

## Section V: Program Challenges and Accomplishments

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

The Med-QUEST Division (MQD) is committed to laying the foundation for innovative programs that support and create healthy families and healthy communities. To accomplish this goal, MQD is building the Hawai'i 'Ohana Nui Project Expansion (HOPE) program, a five-year initiative to develop and implement a roadmap to achieve this vision of healthy families and healthy communities. MQD's vision is that the people of Hawai'i embrace health and wellness. MQD's mission is to empower Hawaii's residents to improve and sustain wellbeing by developing, promoting and administering innovative and high-quality healthcare programs with aloha. The vision and mission will serve as the "North Star" and guide the work developed through the HOPE. Program.

The goal of the plan is to achieve the Triple Aim of better health, better care, and sustainable costs for our community. Within five years, MQD anticipates that the investments in healthy families and healthy communities will translate to improved health and well-being, measurably lower prevalence of illness, and a more sustainable growth rate in healthcare spending. The goal is to bring the growth of health care spending more closely in line with the growth of our economy, so that we can invest a greater share of our productivity gains in education, housing and other priorities that have an even greater impact on health and well-being than the Medicaid delivery system. The HOPE program foundation is building multi-generational, culturally appropriate approaches that invest in children and families over their life course to nurture well-being and improve individual and population health outcomes.

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

One of our main challenges is access to data as well as being able to generate better data reports for the Medicaid program. With the addition of our Health Analytics Office, we will be able to better address some of these issues. Another challenge is workforce shortages and access to specialty services, such as behavioral services, especially for our rural and neighbor island areas. We are working to increase use of telehealth to provide better access to services. We are also working on establishing support services, such as a pediatric behavior hot line, to assist providers in the field as the work with our children. We plan on possible use of an HSI as a way to help fund such a project in the future.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

In addition to our continuing work on the HOPE initiative, we have expanded our Outreach Branch. This has increased access Statewide for individuals to receive personalized help to apply for both Medicaid and the federal marketplace in collaboration with other State offices and agencies as well as many non-profit agencies and FQHCs and various outreach events throughout the year. for both Medicaid and the federal marketplace in collaboration with other State offices and agencies as well as many non-profit agencies and FQHCs and various outreach events throughout the year.

We also continue our collaborative work across sectors, to include:

- 1) Our work with our NGA Technical Advisory team as we work towards establishing a Child, Youth and Family Cabinet with the support of our Governor David Ige. Med-QUEST staff accompanied the Director of Human Services, along with select staff from the

Executive Office of Early Learning, the Department of Health and the Department of Education to Annapolis, Maryland, as part of the grant Hawaii was awarded by NGA, to learn best practices for cross sector collaboration to best serve the children and families of Hawaii. The experience we had as well as the lesson we learned from other states was as memorable, as it was inspiring and valuable as we go forward to accomplish our vision. NGA has committed to work with us as we go forward with our work on the Children, Youth and Family Cabinet.

2) Med-QUEST staff continues to work with the Department of Health and Executive Office on Early Learning, as well as stakeholders, as part of their Preschool Development Grant Birth Through Five (PDG-5).

3) Continued work with School Based Claiming through our partnership with the Department of Education(DOE). Med-QUEST staff were able to attend the National Alliance for Medicaid in Education (NAME) conference to learn more about Medicaid School Based Claiming and to better assist DOE as they learn to maximize Medicaid resources for their eligible students.

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

We plan to work on one or two HSI for 2020. We tentatively plan to partner with Vision to Learn to start. The second HSI may be used for a children's psychiatric hotline for preschool providers. We have seen the successes other states have had with this option and hope to utilize this for our children in Hawaii.

Enter any Narrative text related to Section V below. **[7500]**

Hawaii will continue using innovation, best practices we have learned along our journey, and most of all using the "Ohana Nui", or "Two Gen" approach as we serve our children, youth and families. In order to provide better health care and better outcomes, we are incorporating the social determinants in our approach to services and continue to collaborate with our SNAP and TANF programs, Department of Health, Department of Education, Department of Public Safety, and other agencies, both public and private, to help the people of Hawaii thrive.
