

# FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

## Preamble

Section 2108(a) and Section 2108(e) of the Social Security Act (the Act) provide that each state and territory\* must assess the operation of its state child health plan in each federal fiscal year and report to the Secretary, by January 1 following the end of the federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the state must assess the progress made in reducing the number of uncovered, low-income children. The state is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The state is also out of compliance if any section of this report relevant to the state's program is incomplete.

The framework is designed to:

- Recognize the **diversity** of state approaches to CHIP and allow states **flexibility** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide **consistency** across states in the structure, content, and format of the report, **AND**
- Build on data **already collected** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance **accessibility** of information to stakeholders on the achievements under Title XXI

The CHIP Annual Report Template System (CARTS) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: Program Challenges and Accomplishments

\* - When "state" is referenced throughout this template it is defined as either a state or a territory.

**\*Disclosure**. According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, write to: CMS, 7500 Security Blvd., Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

**DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.**

State/Territory: IN

Name of State/Territory

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: Benjamin Brown

CHIP Program Name(s): All, Indiana

CHIP Program Type:

- CHIP Medicaid Expansion Only
- Separate Child Health Program Only
- Combination of the above

Reporting Period: 2019 **(Note: Federal Fiscal Year 2019 starts 10/1/2018 and ends 9/30/2019)**

Contact Person/Title: Benjamin Brown, CHIP Manager

Address: 402 W. Washington St.

City: Indianapolis State: IN Zip: 46204

Phone: 317-234-8946 Fax: \_\_\_\_\_

Email: Ben.Brown@fssa.IN.gov

Submission Date: 12/30/2019

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

## Section I. Snapshot of CHIP Program and Changes

- 1) To provide a summary at-a-glance of your CHIP program, please provide the following information. If you would like to make any comments on your responses, please explain in the narrative section below this table.

Provide an assurance that your state’s CHIP program eligibility criteria as set forth in the CHIP state plan in section 4, inclusive of PDF pages related to Modified Adjusted Gross Income eligibility, is accurate as of the date of this report.

Please note that the numbers in brackets, e.g., [500] are character limits in the Children’s Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

### CHIP Medicaid Expansion Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO  
 YES  
 N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: **[500]**

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: **[500]**

### Separate Child Health Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO
- YES
- N/A

Enrollment fee amount: 0

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL
22	33	158	175
33	50	175	200
42	53	200	225
53	70	225	250

Yearly Maximum Premium Amount per Family: \$840

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: **[500]**

If a family has one child enrolled in S-CHIP, the premium amounts are \$22, \$33, \$42, \$52 at each level. For families that have two or more children enrolled in S-CHIP, the premium amounts are \$33, \$50, \$53, and \$70 at each level.

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: **[500]**

2) Have you made changes to any of the following policy or program areas during the reporting period? Please indicate “yes” or “no change” by marking the appropriate column.

	Medicaid Expansion CHIP Program			Separate Child Health Program		
	Yes	No Change	N/A	Yes	No Change	N/A
a) Applicant and enrollee protections (e.g., changed from the Medicaid Fair Hearing Process to State Law)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Application	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c) Benefits	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d) Cost sharing (including amounts, populations, & collection process)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e) Crowd out policies	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

	Yes	No Change	N/A	Yes	No Change	N/A
f) Delivery system	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g) Eligibility determination process	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
h) Implementing an enrollment freeze and/or cap	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
i) Eligibility levels / target population	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
j) Eligibility redetermination process	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
k) Enrollment process for health plan selection	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
l) Outreach (e.g., decrease funds, target outreach)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
m) Premium assistance	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
n) Prenatal care eligibility expansion (Sections 457.10, 457.350(b)(2), 457.622(c)(5), and 457.626(a)(3) as described in the October 2, 2002 Final Rule)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
o) Expansion to “Lawfully Residing” children	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
p) Expansion to “Lawfully Residing” pregnant women	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
q) Pregnant Women state plan expansion	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
r) Methods and procedures for prevention, investigation, and referral of cases of fraud and abuse	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
s) Other – please specify						
a)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
c)	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

3) For each topic you responded “yes” to above, please explain the change and why the change was made, below:

**Medicaid Expansion CHIP Program**

Topic	List change and why the change was made
a) Applicant and enrollee protections (e.g., changed from the Medicaid Fair Hearing Process to State Law)

## Section II Program's Performance Measurement and Progress

This section consists of two subsections that gather information about the CHIP and/or Medicaid program. Section IIA captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your state. Section IIB captures progress towards meeting your state's general strategic objectives and performance goals.

---

### Section IIA: Enrollment And Uninsured Data

---

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your state for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated Number Ever Enrolled Year) in your state's 4<sup>th</sup> quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response. If the information displayed in the table below is inaccurate, please make any needed updates to the data in SEDS and then refresh this page in CARTS to reflect the updated data.

Program	FFY 2018	FFY 2019	Percent change FFY 2018-2019
CHIP Medicaid Expansion Program	89823	88058	-1.96
Separate Child Health Program	45485	47070	3.48

- A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**
2. The tables below show trends in the number and rate of uninsured children in your state. Three year averages in Table 1 are based on the Current Population Survey. The single year estimates in Table 2 are based on the American Community Survey (ACS). CARTS will fill in the single year estimates automatically, and significant changes are denoted with an asterisk (\*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3.

Table 1: Number and percent of uninsured children under age 19 below 200 percent of poverty, Current Population Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Std. Error	Rate	Std. Error
1996 - 1998	123	26.9	7.8	1.7
1998 - 2000	122	26.1	7.8	1.6
2000 - 2002	109	16.6	6.8	1.0
2002 - 2004	100	15.8	6.0	.9
2003 - 2005	95	16.5	5.7	1.0
2004 - 2006	80	16.0	4.8	.9
2005 - 2007	66	14.0	3.9	.8
2006 - 2008	54	13.0	3.3	.8
2007 - 2009	69	14.0	4.1	.8
2008 - 2010	72	9.0	4.2	.5
2009 - 2011	75	10.0	4.3	.6
2010 - 2012	81	11.0	4.8	0

Table 2: Number and percent of uninsured children under age 19 below 200 percent of poverty, American Community Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Margin of Error	Rate	Margin of Error
2013	91	6.0	5.5	.4
2014	74	6.0	4.5	.4
2015	68	7.0	4.2	.5
2016	55	5.0	3.4	.3
2017	59	7.0	3.6	.4
2018	56	7.0	3.5	.4
Percent change 2017 vs. 2018	-5.1%	N/A	-2.8%	N/A

A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. [7500]

B. Please note any comments here concerning ACS data limitations that may affect the reliability or precision of these estimates. [7500]

3. Please indicate by checking the box below whether your state has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

- Yes (please report your data in the table below)  
 No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Topic	Description
Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

A. Please explain why your state chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.

**[7500]**

B. What is your state's assessment of the reliability of the estimate? Please provide standard errors, confidence intervals, and/or p-values if available.

**[7500]**

C. What are the limitations of the data or estimation methodology?

**[7500]**

D. How does your state use this alternate data source in CHIP program planning?

**[7500]**

Enter any Narrative text related to Section IIA below. **[7500]**

## Section IIB: State Strategic Objectives And Performance Goals

This subsection gathers information on your state's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP state plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your state with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2017 and FFY 2018) will be populated with data from previously reported data in CARTS. If you reported data in the two previous years' reports and you want to update/change the data, please enter that data. If you reported no data for either of those two years, but you now have data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2019).

In this section, the term performance measure is used to refer to any data your state provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are state-specific, and should be listed in the appropriate subsections within the space provided for each objective.

**NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.**

**In addition, please do not report the same data that were reported for Child Core Set reporting. The intent of this section is to capture goals and measures that your state did not report elsewhere. As a reminder, Child Core Set reporting migrated to MACPRO in December 2015. Historical data are still available for viewing in CARTS.**

Additional instructions for completing each row of the table are provided below.

### A. Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be:** "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday."

### B. Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- **New/revised:** Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- **Continuing:** Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- **Discontinued:** Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

### **C. Status of Data Reported:**

Please indicate the status of the data you are reporting for each goal, as follows:

- **Provisional:** Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2019.

**Explanation of Provisional Data** – When the value of the Status of Data Reported field is selected as “Provisional”, the state must specify why the data are provisional and when the state expects the data will be final.

- **Final:** Check this box if the data you are reporting are considered final for FFY 2019.
- **Same data as reported in a previous year’s annual report:** Check this box if the data you are reporting are the same data that your state reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

### **D. Measurement Specification:**

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which states may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

#### **HEDIS® Version:**

Please specify HEDIS® Version (example 2016). This field must be completed only when a user selects the HEDIS® measurement specification.

#### **“Other” measurement specification explanation:**

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected.

### **E. Data Source:**

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

## **F. Definition of Population Included in Measure:**

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure.

For measures related to increasing access to care and use of preventative care, please

- Check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.
- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, denominator includes only children enrolled in managed care in certain counties, technological limitations preventing reporting on the full population defined, etc.). Please report information on exclusions in the definition of the denominator (including the proportion of children excluded). The provision of this information is important and will provide CMS with a context so that comparability of denominators across the states and over time can occur.

## **G. Deviations from Measure Specification**

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that states must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

- Year of Data (e.g., partial year),
- Data Source (e.g., use of different data sources among health plans or delivery systems),
- Numerator (e.g., coding issues),
- Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),
- Other.

When one or more of the types are selected, states are required to provide an explanation.

Please report the year of data for each performance measure. The year (or months) should correspond to the period in which enrollment or utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

## **H. Date Range: available for 2019 CARTS reporting period.**

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

## **I. Performance Measurement Data (HEDIS® or Other):**

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on

whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator). The reporting unit for each measure is the state as a whole. If states calculate rates for multiple reporting units (e.g., individual health plans, different health care delivery systems), states must aggregate data from all these sources into one state rate before reporting the data to CMS. In the situation where a state combines data across multiple reporting units, all or some of which use the hybrid method to calculate the rates, the state should enter zeroes in the “Numerator” and “Denominator” fields. In these cases, it should report the state-level rate in the “Rate” field and, when possible, include individual reporting unit numerators, denominators, and rates in the field labeled “Additional Notes on Measure,” along with a description of the method used to derive the state-level rate.

## **J. Explanation of Progress:**

The intent of this section is to allow your state to highlight progress and describe any quality-improvement activities that may have contributed to your progress. Any quality-improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality-improvement activity is a state-wide initiative to inform individual families directly of their children’s immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality-improvement plans. In this section, your state is also asked to set annual performance objectives for FFY 2020, 2021 and 2022. Based on your recent performance on the measure (from FFY 2017 through 2019), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your state set for the year, as well as any quality-improvement activities that have helped or could help your state meet future objectives.

## **K. Other Comments on Measure:**

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

**Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIA, Questions 2 and 3)**

FFY 2017	FFY 2018	FFY 2019
<p><b>Goal #1 (Describe)</b> Maintain state's uninsured rate for population at or below 200% FPL below the 25th percentile of states nationally.</p>	<p><b>Goal #1 (Describe)</b> Maintain state's uninsured rate for population at or below 200% FPL below the 25th percentile of states nationally.</p>	<p><b>Goal #1 (Describe)</b> Maintain state's uninsured rate for population at or below 200% FPL below the 25th percentile of states nationally.</p>

FFY 2017	FFY 2018	FFY 2019
<p><b>Performance Measurement Data:</b> Described what is being measured: Data from CPS 2015, 2016 and 2017 was used. Then Indiana’s 3-year average is ranked with all other states’ 3-year average to determine what percentile group Indiana places in. We ranked the results into percentiles.</p> <p>Numerator: 56000 Denominator: 708000 Rate: 7.9</p>	<p><b>Performance Measurement Data:</b> Described what is being measured: Data from CPS 2016, 2017 and 2018 was used. Then Indiana’s 3-year average is ranked with all other states’ 3-year average to determine what percentile group Indiana places in. We ranked the results into percentiles.</p> <p>Numerator: 46000 Denominator: 665000 Rate: 6.9</p>	<p><b>Performance Measurement Data:</b> Described what is being measured: Data from CPS 2017, 2018 and 2019 was used. Then Indiana’s 3-year average is ranked with all other states’ 3-year average to determine what percentile group Indiana places in. We ranked the results into percentiles.</p> <p>Numerator: 39000 Denominator: 671000 Rate: 5.8</p>
<p><b>Additional notes on measure:</b> The percentiles across states are as follows: 25th 5.14% 50th 6.43% 75th 8.79% Therefore, Indiana’s rate is above the 50th percentile.</p>	<p><b>Additional notes on measure:</b> Additional notes on measure: The percentiles across states are as follows: 25th 4.91% 50th 6.24% 75th 8.67% Therefore, Indiana’s rate is above the 50th percentile.</p>	<p><b>Additional notes on measure:</b></p>
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b> The uninsured rate for this population, per CPS, decreased in this year’s study period compared to last year’s study period. However, other states’ uninsured rates for children also decreased. Whereas in previous years, Indiana has been below the 25th percentile, the State has not met its objective in the last four reporting periods. Indiana’s uninsured rate has improved while other state’s uninsured rates have improved even greater.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Indiana received approval to expand its SCHIP program to children in families up to 250% of the FPL. Enrollment began in October 2008.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b> The uninsured rate for this population, per CPS, decreased in this year’s study period compared to last year’s study period. However, other states’ uninsured rates for children also decreased. Whereas in previous years, Indiana has been below the 25th percentile, the State has not met its objective in the last four reporting periods. FFY 2017	FFY 2018	FFY 2019
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b> The enrollment number increased 18.1% from the enrollment reported last year for September 30, 2016 (8,835 enrollees) and 49.5% from September 30, 2015. Retroactive eligibility and other data warehouse changes caused a change to last year's reported number.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Indiana's data collection efforts were updated to track the children at the higher income levels so that they could be identified separately from other CHIP enrollees.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b> The enrollment number increased 13.2% from the enrollment reported last year for September 30, 2017 (10,160 enrollees) and 30.1% from September 30, 2016. Retroactive eligibility and other data warehouse changes caused a slight change to last year's reported number.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Indiana's data collection efforts were updated to track the children at the higher income levels so that they could be identified separately from other CHIP enrollees.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2019 compare with the Annual Performance Objective documented in your 2018 Annual Report?</b> The enrollment number increased 32.3% from the enrollment reported last year for September 30, 2018 (11,505 enrollees). Retroactive eligibility caused a slight change in what had been reported in last year's reported number for September 2018. Similarly, we expect that the number shown here for September 30, 2019 may go down after final income verification is completed.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Indiana's data collection efforts were updated to track the children at the higher income levels so that they could be identified separately from other CHIP enrollees.</p>
<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2018:</b> Continue increasing enrollment among children in families 200-250% FPL to reach 11,500 children  <b>Annual Performance Objective for FFY 2019:</b> Continue increasing enrollment among children in families 200-250% FPL to reach 12,500 children  <b>Annual Performance Objective for FFY 2020:</b> Continue increasing enrollment among children in families 200-250% FPL to reach 13,500 children</p> <p><i>Explain how these objectives were set:</i></p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2019:</b> Continue increasing enrollment among children in families 200-250% FPL to reach 12,000 children  <b>Annual Performance Objective for FFY 2020:</b> Continue increasing enrollment among children in families 200-250% FPL to reach 12,500 children  <b>Annual Performance Objective for FFY 2021:</b> Continue increasing enrollment among children in families 200-250% FPL to reach 13,500 children</p> <p><i>Explain how these objectives were set:</i> Review of the number of uninsured children in Indiana by FPL</p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2020:</b> Maintain enrollment for children in families 200-250% FPL above 15,000 children with an increase of 1% above the prior year.  <b>Annual Performance Objective for FFY 2021:</b> Maintain enrollment for children in families 200-250% FPL above 15,000 children with an increase of 1% above the prior year.  <b>Annual Performance Objective for FFY 2022:</b> Maintain enrollment for children in families 200-250% FPL above 15,000 children with an increase of 1% above the prior year.</p> <p><i>Explain how these objectives were set:</i> Review of the number of uninsured children in Indiana by FPL</p>

FFY 2017	FFY 2018	FFY 2019
<p><b>Other Comments on Measure:</b> This objective does not appear in Indiana’s CHIP State Plan. Indiana’s CHIP was ultimately approved for children up to 250% FPL, not 300%. Therefore, the goal of 13,500 additional children is probably overly aggressive.</p>	<p><b>Other Comments on Measure:</b> This objective does not appear in Indiana’s CHIP State Plan. Then, the percentage change across the two years is calculated             Numerator: 17702            Denominator: 1346316            Rate: 1.3</p>

FFY 2017	FFY 2018	FFY 2019
<p><b>Additional notes on measure:</b> Numerator: All lapsed children in a state fiscal year. Denominator: All children enrolled in the state fiscal year. Rate: For FFY 2016, 0.47%; for FFY 2017, 0.39%. The decrease is 16.8%.</p>	<p><b>Additional notes on measure:</b> Numerator: All lapsed children in a state fiscal year. Denominator: All children enrolled in the state fiscal year. Rate: For FFY 2017, 0.52%; for FFY 2018, 0.41%. The decrease is 20.0%.</p>	<p><b>Additional notes on measure:</b> Numerator: All lapsed children in a state fiscal year. Denominator: All children enrolled in the state fiscal year. Rate: For FFY 2018, 0.41%; for FFY 2019, 0.82%. This was an increase of 99%, not a decrease.</p>
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b> The churn rate continues to drop each year and the State once again met its goal to reduce the churn rate year-to-year by more than 5%.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Having a combined Medicaid/CHIP eligibility application so that people stay within Hoosier Healthwise even if they move between CHIP and Medicaid helps to reduce the churn rate. Also, the OMPP instituted member lock in for a 12 month period with an MCO which may be helping to lower the churn rate.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b> The churn rate continues to drop each year and the State once again met its goal to reduce the churn rate year-to-year by more than 5%.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Having a combined Medicaid/CHIP eligibility application so that people stay within Hoosier Healthwise even if they move between CHIP and Medicaid helps to reduce the churn rate. Also, the OMPP instituted member lock in for a 12 month period with an MCO which may be helping to lower the churn rate.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2019 compare with the Annual Performance Objective documented in your 2018 Annual Report?</b> The churn rate has been extremely low in the last few years, so it has been difficult to continually improved upon these results.</p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Having a combined Medicaid/CHIP eligibility application so that people stay within Hoosier Healthwise even if they move between CHIP and Medicaid helps to reduce the churn rate. Also, the OMPP instituted member lock in for a 12-month period with an MCO which may be helping to lower the churn rate.</p>
<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2018:</b> Reduce the churn rate among Medicaid children by 5% from the FFY17 rate. <b>Annual Performance Objective for FFY 2019:</b> Reduce the churn rate among Medicaid children by 5% from the FFY18 rate. <b>Annual Performance Objective for FFY 2020:</b> Reduce the churn rate among Medicaid children by 5% from the FFY19 rate.</p> <p><i>Explain how these objectives were set:</i></p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2019:</b> Reduce the churn rate among Medicaid children by 5% from the FFY18 rate. <b>Annual Performance Objective for FFY 2020:</b> Reduce the churn rate among Medicaid children by 5% from the FFY19 rate. <b>Annual Performance Objective for FFY 2021:</b> Reduce the churn rate among Medicaid children by 5% from the FFY20 rate.</p> <p><i>Explain how these objectives were set:</i> Based on previous studies of churn rates that had been conducted.</p>	<p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2020:</b> Maintain the churn rate among Medicaid children below 0.7%. <b>Annual Performance Objective for FFY 2021:</b> Maintain the churn rate among Medicaid children below 0.6%. <b>Annual Performance Objective for FFY 2022:</b> Maintain the churn rate among Medicaid children below 0.5%.</p> <p><i>Explain how these objectives were set:</i> Based on previous studies of churn rates that had been conducted.</p>
<p><b>Other Comments on Measure:</b> The State has had this goal for a number of years and the churn rate continues to drop. At the historically low rate of 0.39% average per month, continuing to see a 5% reduction in the churn rate each year may start to become unsustainable in the next three years.</p>	<p><b>Other Comments on Measure:</b> The State has had this goal for a number of years and the churn rate continues to drop. At the historically low rate of 0.41% average per month, continuing to see a 5% reduction in the churn rate each year may start to become unsustainable in the next three years.</p>	<p><b>Other Comments on Measure:</b> The State has had this goal for a number of years and the churn rate has been very low in the last five years. A rate below 0.5% may be unachievable.</p>

1. What other strategies does your state use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**

In each of the last 19 years, the Office of Medicaid Policy and Planning (OMPP) has contracted with an outside vendor to conduct an independent evaluation of the CHIP program. The findings from this evaluation are presented in a report to the Indiana Legislature. The 2018 evaluation was submitted to the Legislature and has been included in this report as Attachment A. Refer to Question #4 below for findings.

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

The OMPP had in place numerous initiatives related to outcomes for the CHIP population as part of its overall quality strategy for children. Specifically, targeted areas of focus for the Hoosier Healthwise (HHW) program—of which CHIP members are enrolled in—include pay-for-performance in the MCO contracts for Well-Child Visits (including the HEDIS measures for First 15 Months of Life, 6 or More Visits; Third through Sixth Years of Life; and Adolescent Well-Care Visits). Other initiatives in HHW pertaining to children are to improve the EPSDT participation rate, Follow-up After Hospitalization for Mental Illness within 7 Days, reduction in the level of inappropriate Emergency Department use and targets against HEDIS benchmarks for prenatal and post-partum care.

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

As part of its External Quality Review (EQR) conducted in CY 2019, the OMPP's External Quality Review Organization (Burns & Associates, or B&A) conducted a study on well care visits and primary care visits. The experience period was Calendar Year 2018 with December 31 as the anchor date. B&A used the HEDIS specifications for W15, W34 and AWC to compute rates using the administrative method only.

#### Key Findings:

? Statewide rate for six or more well visits for the W15 HEDIS population was 46.9% for both male and female members. There are disparities on among race/ethnicities with Caucasians at 48.6%, African-Americans at 36.4%, Hispanics at 51.4%, and other race/ethnicities at 59.8%. The rate also varied across eight regions in the state from 42.3% in the Northwest to 54.4% in the Southeast region.

? There appears to be a potential opportunity to increase the well visit rates, since an additional approximately 12% of the W15 denominator children had primary care visits that were not classified as well care visits.

? Statewide rate for a well visit for the W34 HEDIS population was 65.3% in the Hoosier Healthwise program and 70.8% in the Hoosier Care Connect program. No meaningful difference in the rate for male and female members. The rate is similar for ages 3, 4 and 5 but lower for children age 6. There are disparities among race/ethnicities with Caucasians and African-Americans at 63% but Hispanics at 72% in the Hoosier Healthwise program. The rate also varied across eight regions in the state from 62.2% in the East Central and 67.4% in the Southwest region.

? There appears to be a potential opportunity to increase the well visit rates, since an additional approximately 21% to 24% of the W34 denominator children had primary care visits that were not classified as well care visits across the four managed care entities.

? Statewide rate for a well visit for the AWC HEDIS population was 51.0% in the Hoosier Healthwise program and 44.0% in the Hoosier Care Connect program. Female members had higher rates in both programs than males (3-5 percentage points higher). The rate is highest for age 12 members (60%) and descends the higher the age of the member to age 18 (41%). There are disparities among race/ethnicities with Caucasians at 48%, African-Americans at 51% but Hispanics at 60% in the Hoosier Healthwise program. The rate also varied across eight regions in the state from 46.4% in the East Central and 54.7% in the Southwest region.

? There appears to be significant opportunity to increase the well visit rates, since an additional approximately 28% to 34% of the AWC denominator adolescents had primary care visits that were not classified as well care visits across the four managed care entities.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program's performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives. **[7500]**

Attachment A: Independent Evaluation of the Indiana Children's Health Insurance Program for CY 2018

The Independent Evaluation reported on enrollment trends in Indiana's CHIP, access to services and utilization trends, and results from HEDIS measures and a CAHPS Child survey. Related to the CAHPS survey, composite scores were tabulated on a number of measures. All three managed care entities (MCEs) scored 87 to 90 percent Rating of Health Care, 88 to 92 percent on Rating of Personal Doctor, and 86 to 90 percent on Rating of Health Plan. All three MCEs scored responses of "usually" or "always" near 90% of the time for the measure on Getting Care Quickly. The range was 87 to 91 percent for Customer Service.

Related to accessibility of services, an analysis was completed to determine the accessibility to primary medical providers and dentists for CHIP members. Claims of actual services received from CY 2018 were used to determine providers that were actually seeing CHIP members. The distance from each CHIP member's home to a provider seeing CHIP members was tabulated. It was found that only 0.3 percent of all CHIP members live more than ten miles from an available primary medical provider. There are 1.1 percent of CHIP members who live more than ten miles from an available dentist.

The report also contained the results from HEDIS 2018 that measured the access to primary care practitioners. All three MCEs reported that 95 to 96 percent of its members age 12 to 24 months have access; for children age 25 months to six years, 86 to 88 percent; for children age 7 to 11, 91 to 92 percent; for children age 12 to 19 years, 91 to 92 percent.

Related to utilization, the percentage of CHIP children enrolled at least nine months in FFYs 2016, 2017 and 2018 in Indiana's CHIP were reviewed to see how many used primary care services, emergency room visits, preventive dental visits, or had a pharmacy script during these time periods. The overall rate of usage for primary care visits was 79-82% in each of the three years; emergency room visits held steady at 21% in all three years; preventive dental visit use was from 60% to 66% in the three years; and pharmacy scripts dropped from 65% to 62% over the three years studied.

The report also includes comparisons across various demographic cohorts, such as by MCE, by age and by race/ethnicity. The key findings were found in the examination of this three-year set

of data, but these same variations have also held true for the past five years in CHIP (even if the actual values have changed slightly):

? Primary care visits were more prevalent among the youngest members, as 91 to 93 percent of children ages 5 and younger had a visit in the three years studied. The percentage was lower for children in the other age groups (near 80% for age 6-12 and 77 % for age 13-18).

? When comparing the rates across race/ethnicities, Caucasian children were more likely to have had a primary care visit than other race/ethnicities (usually four percentage points higher each year).

? In addition to more actual children having a primary care visit, there is also a disparity in the number of visits per 1,000 CHIP children for primary care. The rate for Caucasian children is 270 visits per 1,000 children, which is 35 to 50 percent higher than what was found for minority populations.

Enter any Narrative text related to Section IIB below. [7500]

## Section III: Assessment of State Plan and Program Operation

**Please reference and summarize attachments that are relevant to specific questions**

Please note that the numbers in brackets, e.g., [7500] are character limits in the CHIP Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

### Section IIIA: Outreach

1. How have you redirected/changed your outreach strategies during the reporting period? **[7500]**

Indiana has not changed outreach strategy during the reporting period. The State has continued the same strategies from previous years.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? **[7500]**

Indiana relies on its contract MCOs for television, billboard, and radio advertisements that promote CHIP as part of the Hoosier Healthwise program. In addition to television, billboard, and radio advertisements, MCOs and the State team attend community-based events where families and children are present. Booths with Hoosier Healthwise materials are a way to reach significant numbers of members directly. Community events can include health fairs, school based events, and the State Fair. It is difficult to measure effectiveness of any one advertisement or event. Members may see an advertisement sponsored by one MCO but then enroll in another MCO.

3. Which of the methods described in Question 2 would you consider a best practice(s)? **[7500]**

While there are not specific “best practices”, Indiana generally sees a lot of positive interaction at the community events where information about the program is physically provided to the potential member.

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

Yes  
 No

Have these efforts been successful, and how have you measured effectiveness? **[7500]**

5. What percentage of children below 200 percent of the federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? **[5] 66**

(Identify the data source used). **[7500]**

Source: U.S. Census Bureau's 2017-2019 Current Population Surveys, Annual Social and Economic Supplements. The Census Bureau's Table Creator was used. <https://data.census.gov/mdat/#/> For each CPS year (2016, 2017, 2018 measurement years), the number of children in Indiana age 0-18 below 200% FPL were identified. Of these, the number of children that were covered by Medicaid or CHIP was identified. A weighted average across the three years of the percentage of children covered by Medicaid or CHIP was calculated.

Enter any Narrative text related to Section IIIA below. **[7500]**

### Section IIIB: Substitution of Coverage (Crowd-out)

Please answer the following questions as they apply to your state's program (some questions are not applicable to Medicaid expansion programs.) Medicaid expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A. Please include percent calculations in your responses when applicable and requested.

1. Does your separate CHIP program require a child to be uninsured for a minimum amount of time prior to enrollment (waiting period)?

- No  
 Yes  
 N/A

If no, skip to question 5. If yes, answer questions 2-4:

2. How many months does your program require a child to be uninsured prior to enrollment? 3
3. To which groups (including FPL levels) does the period of uninsurance apply? **[1000]**

Children who qualify for S-CHIP between 158% and 250% FPL that had previous private coverage.

4. List all exemptions to imposing the period of uninsurance **[1000]**

(i) The premium paid by the family for coverage of the child under the group health plan exceeded 5 percent of household income;

(ii) The child's parent is determined eligible for advance payment of the premium tax credit for enrollment in a QHP through the Exchange because the ESI in which the family was enrolled is determined unaffordable in accordance with 26 CFR 1.36B-2(c)(3)(v).

(iii) The cost of family coverage that includes the child exceeds 9.5 percent of the household income.

(iv) The employer stopped offering coverage of dependents (or any coverage) under an employer-sponsored health insurance plan;

(v) A change in employment, including involuntary separation, resulted in the child's loss of employer-sponsored insurance (other than through full payment of the premium by the parent under COBRA);

(vi) The child has special health care needs; and

(vii) The child lost coverage due to the death or divorce of a parent.

**Please answer questions 5, 7, 8 (and 6 and 9 if applicable) regardless of the response the state provided to question 1.**

5. Does your program match prospective enrollees to a database that details private insurance status?

- No  
 Yes  
 N/A

6. If answered yes to question 5, what database? **[1000]**

7. What percent of individuals screened for CHIP eligibility cannot be enrolled because they have group health plan coverage? **[5]**
- a. Of those found to have had employer sponsored insurance and have been uninsured for only a portion of the state's waiting period, what percent meet the state's exemptions and federally required exemptions to the waiting period [(# individuals subject to the waiting period that meet an exemption/total # of individuals subject to the waiting period)\*100]? **[5]**
8. Do you track the number of individuals who have access to private insurance?
- Yes  
 No
9. If yes to question 8, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last federal fiscal year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)\*100]? **[5]**

Enter any Narrative text related to Section IIIB below. **[7500]**

## Section IIIC: Eligibility

This subsection should be completed by all states. Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

### Section IIIC: Subpart A: Eligibility Renewal and Retention

1. Do you have authority in your CHIP state plan to provide for presumptive eligibility, and have you implemented this?
- Yes  
 No
- If yes,
- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? **[5]**
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination? **[5]**
2. Select the measures from those below that your state employs to simplify an eligibility renewal and retain eligible children in CHIP.
- Conducts follow-up with clients through caseworkers/outreach workers
- Sends renewal reminder notices to all families
- How many notices are sent to the family prior to disenrolling the child from the program? **[500]**  
Two. The renewal notice and the reminder notice.
  - At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the state?) **[500]**  
The reminder notice is sent approximately 2 to 4 weeks before current eligiibilty period would expire.

- Other, please explain: [500]

MCOs are encouraged to remind families to complete their annual redetermination.

3. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. [7500]

Although there has not been any evaluation over effectiveness of strategies, Indiana believes it helps that MCOs are engaged with families to remind them the need to complete annual redetermination so that health coverage continues.

### Section III C: Subpart B: Eligibility Data

**Table 1. Data on Denials of Title XXI Coverage in FFY 2019**

States are required to report on all questions (1, 1.a., 1.b., and 1.c) in FFY 2019. Please enter the data requested in the table below and the template will tabulate the requested percentages. If you are unable to provide data in this section due to the single streamlined application, please note this in the response to question 2.

Measure	Number	Percent
1. Total number of denials of title XXI coverage	30175	100
a. Total number of procedural denials	23104	76.6
b. Total number of eligibility denials	5220	17.3
i. Total number of applicants denied for title XXI and enrolled in title XIX		
<input type="checkbox"/> (Check here if there are no additional categories)	1851	6.1
c. Total number of applicants denied for other reasons Please indicate:  <u>Various reasons including: failure to provide insurance info, failure to cooperate in verifying resources, and voluntary withdrawal</u>		

2. Please describe any limitations or restrictions on the data used in this table:

#### Definitions:

1. The “the total number of denials of title XXI coverage” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2019. This definition only includes denials for title XXI at the time of initial application (not redetermination).
  - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2019 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
  - b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2019 (i.e., income too high, income too low for title

XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your state's specified waiting period, etc.)

- i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX.
- c. The "total number of applicants denied for other reasons" is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

## Table 2. Redetermination Status of Children

For tables 2a and 2b, reporting is required for FFY 2019.

### Table 2a. Redetermination Status of Children Enrolled in Title XXI.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XXI and eligible to be redetermined	75308	100%			
2. Total number of children screened for redetermination for title XXI	75308	100	100%		
3. Total number of children retained in title XXI after the redetermination process	72264	95.96	95.96		
4. Total number of children disenrolled from title XXI after the redetermination process	3044	4.04	4.04	100%	
a. Total number of children disenrolled from title XXI for failure to comply with procedures					
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria					100%
i. Disenrolled from title XXI because income too high for title XXI (If unable to provide the data, check here <input type="checkbox"/> )					
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input type="checkbox"/> )					
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid Expansion and this data is not relevant check here <input type="checkbox"/> )					
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/> )					
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/> )					

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

The results for lines 4a, 4b and 4c could not be completed due to limitations in the State's eligibility system. Multiple reason codes are entered into this system for any individual beneficiary; therefore, the individuals we reported in line 4 could not be defined in mutually exclusive categories in lines 4a, 4b and 4c.

#### Definitions:

- The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2019, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose

eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2019 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state ).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2019.
4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2019. This includes those children that states may define as “transferred” to Medicaid for title XIX eligibility screening.
  - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2019 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
  - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their state’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
  - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.

The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

### Table 2b. Redetermination Status of Children Enrolled in Title XIX.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XIX and eligible to be redetermined	5548	100%			
2. Total number of children screened for redetermination for title XIX	5548	100	100%		
3. Total number of children retained in title XIX after the redetermination process	5346	96.36	96.36		
4. Total number of children disenrolled from title XIX after the redetermination process	202	3.64	3.64	100%	
a. Total number of children disenrolled from title XIX for failure to comply with procedures					
b. Total number of children disenrolled from title XIX for failure to meet eligibility criteria					100%
i. Disenrolled from title XIX because income too high for title XIX (If unable to provide the data, check here <input type="checkbox"/> )					
ii. Disenrolled from title XIX for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/> )					
c. Total number of children disenrolled from title XIX for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/> )					

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

The results for lines 4a, 4b and 4c could not be completed due to limitations in the State’s eligibility system. Multiple reason codes are entered into this system for any individual beneficiary; therefore, the individuals we reported in line 4 could not be defined in mutually exclusive categories in lines 4a, 4b and 4c.

**Definitions:**

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2019, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.
2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2019 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2019.
4. The “total number of children disenrolled from title XIX after the redetermination process” is defined as the total number of children who are disenrolled from title XIX following the redetermination process in FFY 2019. This includes those children that states may define as “transferred” to CHIP for title XXI eligibility screening.
  - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XIX for failure to successfully complete the redetermination process in FFY 2019 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
  - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XIX for no longer meeting one or more of their state’s Medicaid eligibility criteria (i.e., income too high, etc.).
  - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XIX for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XIX (line 4).

### Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XIX and Title XXI, Second Quarter FFY 2018

The purpose of tables 3a and 3b is to measure the duration, or continuity, of Medicaid and CHIP enrollees' coverage. This information is required by Section 402(a) of CHIPRA. **Reporting on this table is required.**

The measure is designed to capture continuity of coverage for a cohort of children in title XIX and title XXI for 18 months of enrollment. This means that reporting spans two CARTS reports over two years, with enrollment status at 6 months being reported in the first reporting year, and 12 and 18 month enrollment status reported in the second reporting year. **States identify a new cohort of children every two years. States identify newly enrolled children in the second quarter of FFY 2018 (January, February, and March of 2018) for the FFY 2018 CARTS report. This same cohort of children will be reported on in the FFY 2019 CARTS report for the 12 and 18 month status of children newly identified in quarter 2 of FFY 2018. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary.**

**The FFY 2019 CARTS report is the second year of reporting in the cycle of two CARTS reports on the cohort of children identified in the second quarter of FFY 2018.** For the FFY 2018 report, States only reported on lines 1-4a of the tables. **In the FFY 2019 report, no updates will be made to lines 1-4a. For the FFY 2019 report, data will be added to lines 5-10a.** The next cohort of children will be identified in the second quarter of the FFY 2020 (January, February and March of 2020).

**Instructions:** For this measure, please identify newly enrolled children in both title XIX (for Table 3a) and title XXI (for Table 3b) in the second quarter of FFY 2018, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2018 must have birthdates after July 2001 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2018 must have birthdates after August 2001, and children enrolled in March 2018 must have birthdates after September 2001. Each child newly enrolled during this time frame needs a unique identifier or "flag" so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary. Please follow the child based on the child's age category at the time of enrollment (e.g., the child's age at enrollment creates an age cohort that does not change over the 18 month time span)

Please enter the data requested in the tables below, and the template will tabulate the percentages. In the FFY 2019 report you will enter data on lines 5-7a related to the 12-month enrollment status of children identified on line 1. You will also enter data on lines 8-10a related to the 18-month enrollment status of children identified on line 1. **Only enter a "0" (zero) if the data are known to be zero. If data are unknown or unavailable, leave the field blank.**

**Note that all data must sum correctly in order to save and move to the next page.** The data in each individual row must add across to sum to the total in the "All Children Ages 0-16" column for that row. And in each column, the data within each time period (6, 12 and 18 months) must each sum up to the data in row 1, which is the number of children in the cohort. This means that in each column, rows 2, 3 and 4 must sum to the total in row 1; rows 5, 6 and 7 must sum to row 1; and rows 8, 9 and 10 must sum to row 1. These tables track a child's enrollment status over time, so when data are added or modified at each milestone (6, 12, and 18 months), there should always be the same total number of children accounted for in line 1 "All Children Ages 0-16" over the entire 18 month period. **Rows numbered with an "a" (e.g., rows 3a and 4a) are excluded from the totals because they are subsets of their respective rows. The system will not move to the next section of the report until all applicable sections of the table for the reporting year are complete and sum correctly to line 1.**

**Table 3 a. Duration Measure of Children Enrolled in Title XIX**

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in Medicaid—“Newly enrolled” is defined as not enrolled in title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XIX in December 2017, etc.)

Table 3a. Duration Measure, Title XIX	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16

**Definitions:**

1. The “total number of children newly enrolled in title XIX in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XIX, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
2. The total number of children that were continuously enrolled in title XIX for 6 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
3. The total number who had a break in title XIX coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XIX by the end of the 6 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2018
 3.a. From the population in #3, provide the total number of children who were enrolled in title XXI during their break in coverage.
4. The total number who disenrolled from title XIX, 6 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
 4.a. From the population in #4, provide the total number of children who were enrolled in title XXI in the month after their disenrollment from title XIX.
5. The total number of children who were continuously enrolled in title XIX for 12 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019

6. The total number of children who had a break in title XIX coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 12 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XIX by the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XIX by the end of January 2019
  - + the number of children with birthdates after September 2001 who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XIX by the end of February 2019
 6.a. From the population in #6, provide the total number of children who were enrolled in title XXI during their break in coverage.
  
7. The total number of children who disenrolled from title XIX 12 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
  - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
  - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
 7.a. From the population in #7, provide the total number of children, who were enrolled in title XXI in the month after their disenrollment from title XIX.
  
8. The total number of children who were continuously enrolled in title XIX for 18 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019
  
9. The total number of children who had a break in title XIX coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 18 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2019
 9.a. From the population in #9, provide the total number of children who were enrolled in title XXI during their break in coverage.
  
10. The total number of children who were disenrolled from title XIX 18 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
 10.a. From the population in #10, provide the total number of children who were enrolled in title XXI (CHIP) in the month after their disenrollment from XIX.

### Table 3b. Duration Measure of Children Enrolled in Title XXI

Specify how your “newly enrolled” population is defined:

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in CHIP—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XXI in December 2017, etc.)

Table 3b. Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent

9. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
9.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )										
10. Total number of children disenrolled from title XXI										
10.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )										

**Definitions:**

1. The “total number of children newly enrolled in title XXI in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.

2. The total number of children that were continuously enrolled in title XXI for 6 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
  
3. The total number who had a break in title XXI coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2018
  - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
  - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.
  
5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019
  
6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XXI by the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XXI by the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XXI by the end of February 2019
  - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
  - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
  - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
  - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.
  
8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019
  
9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2019
  - 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.

10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
- 10.a. From the population in #10, provide the total number of children who were enrolled in title XIX (Medicaid) in the month after their disenrollment from XXI.

Enter any Narrative text related to Section IIIC below. **[7500]**

Data corresponding to Table 3b is located in the attachment labeled IIIC Eligibility Table 3b Duration. The system responded with error: "Integers only, no decimals..."; however, integers were the only characters entered on multiple attempts.

## Section IIID: Cost Sharing

1. Describe how the state tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year? If the state checks N/A for this question because no cost sharing is required, please skip to Section IIIE.

a. Cost sharing is tracked by:

Enrollees (shoebox method)

If the state uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**

When enrolled in the program, members are informed of the 5% cap. The member is given necessary contact information to notify the state if they believe they have reached the cap.

- Health Plan(s)  
 State  
 Third Party Administrator  
 N/A (No cost sharing required)  
 Other, please explain. **[7500]**

2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased?  
 Yes  
 No

3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**

Providers are given information on cost sharing cap through the child's managed care entity (MCE).

4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the state's CHIP program during the federal fiscal year. **[500]**

0

5. Has your state undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?

Yes  
 No If so, what have you found? **[7500]**

6. Has your state undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?

Yes  
 No If so, what have you found? **[7500]**

7. If your state has increased or decreased cost sharing in the past federal fiscal year, how is the state monitoring the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**

Indiana has not changed any cost sharing.

Enter any Narrative text related to Section IIID below. **[7500]**

### **Section IIIE: Employer sponsored insurance Program (including Premium Assistance)**

1. Does your state offer an employer sponsored insurance program (including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI Demonstration) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.  
 No, skip to Program Integrity subsection.

Check all that apply and complete each question for each authority

- Purchase of Family Coverage under the CHIP state plan (2105(c)(3))  
 Additional Premium Assistance Option under CHIP state plan (2105(c)(10))  
 Section 1115 Demonstration (Title XXI)

2. Please indicate which adults your state covers with premium assistance. (Check all that apply.)

- Parents and Caretaker Relatives  
 Pregnant Women

3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**

4. What benefit package does the ESI program use? **[7500]**

5. Are there any minimum coverage requirements for the benefit package?

- Yes  
 No

6. Does the program provide wrap-around coverage for benefits?

- Yes  
 No

7. Are there limits on cost sharing for children in your ESI program?

- Yes  
 No

8. Are there any limits on cost sharing for adults in your ESI program?

- Yes  
 No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

- Yes
- No

If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum **[7500]**?

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

Number of childless adults ever-enrolled during the reporting period

Number of adults ever-enrolled during the reporting period

Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2019.

Children  
Parents

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

16. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

Population	State	Employer	Employee
Child			
Parent			

17. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

	Low	High
Children		
Parent		

18. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

19. Please provide the income levels of the children or families provided premium assistance.

Income level of	From	To
Children	% of FPL <b>[5]</b>	% of FPL <b>[5]</b>
Parents	% of FPL <b>[5]</b>	% of FPL <b>[5]</b>

20. Is there a required period of uninsurance before enrolling in premium assistance?

- Yes  
 No

If yes, what is the period of uninsurance? **[500]**

21. Do you have a waiting list for your program?

- Yes  
 No

22. Can you cap enrollment for your program?

- Yes  
 No

23. What strategies has the state found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]**

Enter any Narrative text related to Section III E below. **[7500]**

### Section III F: Program Integrity

**COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS, I.E., THOSE THAT ARE NOT MEDICAID EXPANSIONS)**

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:

(1) prevention:

Yes

No

(2) investigation:

Yes

No

(3) referral of cases of fraud and abuse?

Yes

No

Please explain: **[7500]**

Do managed health care plans with which your program contracts have written plans?

Yes

No

Please Explain: **[500]**

2. For the reporting period, please report the

Number of fair hearing appeals of eligibility denials

Number of cases found in favor of beneficiary

3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

Provider Credentialing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

Provider Billing

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

Beneficiary Eligibility

Number of cases investigated

Number of cases referred to appropriate law enforcement officials

Are these cases for:

CHIP

Medicaid and CHIP Combined

4. Does your state rely on contractors to perform the above functions?

Yes, please answer question below.

No

5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain: **[7500]**

6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?

Yes

No

Please Explain: **[500]**

Enter any Narrative text related to Section III F below. **[7500]**

## Section III G: Dental Benefits:

Please ONLY report data in this section for children in Separate CHIP programs and the Separate CHIP part of Combination programs. Reporting is required for all states with Separate CHIP programs and Combination programs. If your state has a Combination program or a Separate CHIP program but you are not reporting data in this section on children in the Separate CHIP part of your program, please explain why. Explain: [7500]

1. **Information on Dental Care for Children in Separate CHIP Programs (including children in the Separate CHIP part of Combination programs). Include all delivery system types, e.g. MCO, PCCM, FFS.**

Data for this table are based on the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

- a. **Annual Dental Participation Table for Children Enrolled in Separate CHIP programs and the Separate CHIP part of Combination programs (for Separate CHIP programs, please include ONLY children receiving full CHIP benefits and supplemental benefits).**

FFY 2019	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
<b>Total Individuals Enrolled for at Least 90 Continuous Days<sup>1</sup></b>	127695	87	7384	13478	34719	43607	28420
<b>Total Enrollees Receiving Any Dental Services<sup>2</sup> [7]</b>	73515	0	1958	7360	22969	26410	14818
<b>Total Enrollees Receiving Preventive Dental Services<sup>3</sup> [7]</b>	70130	0	1694	6980	22186	25574	13696

<sup>1</sup> **Total Individuals Enrolled for at Least 90 Continuous Days** – Enter the total unduplicated number of children who have been continuously enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days in the federal fiscal year, distributed by age. For example, if a child was enrolled January 1st to March 31st, this child is considered continuously enrolled for at least 90 continuous days in the federal fiscal year. If a child was enrolled from August 1st to September 30th and from October 1st to November 30th, the child would not be considered to have been enrolled for 90 continuous days in the federal fiscal year. Children should be counted in age groupings based on their age at the end of the fiscal year. For example, if a child turned 3 on September 15th, the child should be counted in the 3-6 age grouping.

<sup>2</sup> **Total Enrollees Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999 or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

<sup>3</sup> **Total Enrollees Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CDT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

FFY 2019	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Enrollees Receiving Dental Treatment Services <sup>4</sup> [7]	28183	0	145	1978	9761	9694	6605

b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a sealant on at least one permanent molar tooth<sup>5</sup>? [7]  
6387

2. Does the state provide supplemental dental coverage?

- Yes  
 No

If yes, how many children are enrolled? [7]

What percent of the total number of enrolled children have supplemental dental coverage? [5]

Enter any Narrative text related to Section IIIG below. [7500]

<sup>4</sup> **Total Enrollees Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (or equivalent CDT codes D2000 - D9999 or equivalent CPT codes, that is, only those CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services, and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

Report all dental services data in the age category reflecting the child's age at the end of the federal fiscal year even if the child received services while in two age categories. For example, if a child turned 10 on September 1st, but had a cleaning in April and a cavity filled in September, both the cleaning and the filling would be counted in the 10-14 age category.

<sup>5</sup> **Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth, as defined by HCPCS code D1351 (or equivalent CDT code D1351), based on an unduplicated paid, unpaid, or denied claim. For this line, include sealants placed by any dental professional for whom placing a sealant is within his or her scope of practice. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, 31, and additionally, for those states that cover sealants on third molars, also known as wisdom teeth, the teeth numbered 1, 16, 17, 32.

Report all sealant data in the age category reflecting the child's age at the end of the federal fiscal year even if the child was factually a different age on the date of service. For example, if a child turned 6 on September 1st, but had a sealant applied in July, the sealant would be counted in the age 6-9 category.

### Section IIIH: CHIPRA CAHPS Requirement:

CHIPRA section 402(a)(2), which amends reporting requirements in section 2108 of the Social Security Act, requires Title XXI Programs (i.e., CHIP Medicaid Expansion programs, Separate Child Health Programs, or a combination of the two) to report CAHPS results to CMS starting December 2013. While Title XXI Programs may select any CAHPS survey to fulfill this requirement, CMS encourages these programs to align with the CAHPS measure in the Children’s Core Set of Health Care Quality Measures for Medicaid and CHIP (Child Core Set). Starting in 2013, Title XXI Programs should submit summary level information from the CAHPS survey to CMS via the CARTS attachment facility. We also encourage states to submit raw data to the Agency for Healthcare Research and Quality’s CAHPS Database. More information is available in the Technical Assistance fact sheet, Collecting and Reporting the CAHPS Survey as Required Under the CHIPRA: <https://www.medicaid.gov/medicaid/quality-of-care/downloads/cahpsfactsheet.pdf>

If a state would like to provide CAHPS data on both Medicaid and CHIP enrollees, the agency must sample Title XIX (Medicaid) and Title XXI (CHIP) programs separately and submit separate results to CMS to fulfill the CHIPRA Requirement.

#### Did you Collect this Survey in Order to Meet the CHIPRA CAHPS Requirement?

- Yes
- No

#### If Yes, How Did you Report this Survey (select all that apply):

- Submitted raw data to AHRQ (CAHPS Database)
- Submitted a summary report to CMS using the CARTS attachment facility (NOTE: do not submit raw CAHPS data to CMS)
- Other. Explain:

#### If No, Explain Why:

Select all that apply (Must select at least one):

- Service not covered
- Population not covered
  - Entire population not covered
  - Partial population not coveredExplain the partial population not covered:
- Data not available
  - Explain why data not available
    - Budget constraints
    - Staff constraints
    - Data inconsistencies/accuracyPlease explain:
    - Data source not easily accessibleSelect all that apply:
  - Requires medical record review
  - Requires data linkage which does not currently exist
  - Other:

Information not collected.

Select all that apply:

Not collected by provider (hospital/health plan)

Other:

Other:

Small sample size (less than 30)

Enter specific sample size:

Other. Explain:

**Definition of Population Included in the Survey Sample:**

Definition of population included in the survey sample:

Denominator includes CHIP (Title XXI) population only.

Survey sample includes CHIP Medicaid Expansion population.

Survey sample includes Separate CHIP population.

Survey sample includes Combination CHIP population.

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded:

**Which Version of the CAHPS® Survey was Used?**

CAHPS® 5.0.

CAHPS® 5.0H.

Other. Explain:

**Which Supplemental Item Sets were Included in the Survey?**

No supplemental item sets were included

CAHPS Item Set for Children with Chronic Conditions

Other CAHPS Item Set. Explain:

**Which Administrative Protocol was Used to Administer the Survey?**

NCQA HEDIS CAHPS 5.0H administrative protocol

HRQ CAHPS administrative protocol

Other administrative protocol. Explain:

Enter any Narrative text related to Section IIIH below. **[7500]**

The summary of the CAHPS report is in the attachment to this section.

### Section III I: Health Service Initiatives (HSI) Under the CHIP State Plan

Pursuant to Section 2105(a)(1)(D)(ii) of the Social Security Act, states have the option to use up to 10 percent of actual or estimated Federal expenditures to develop state-designed Health Services Initiatives (HSI) (after first funding costs associated with administration of the CHIP state plan), as defined in regulations at 42 CFR 457.10, to improve the health of low-income children.

All states with approved HSI program(s) described in the CHIP state plan should answer “Yes” to question 1, and complete questions 2 and 3. If the state has an approved HSI that is not currently operating using Title XXI funds, please check “Yes”, to question 1, include the program name and description in the table for question 2, and indicate in the narrative portion of this section that the state is not currently implementing the program.

1) Does your state operate HSI(s) to provide direct services or implement public health initiatives using Title XXI funds?

Yes, please answer questions below.

No, please skip to Section IV.

2) In the table below, please provide a brief description of each HSI program operated in the state in the first column. In the second column, please list the populations served by each HSI program. In the third column, provide estimates of the number of children served by each HSI program. In the fourth column, provide the percentage of the population served by the HSI who are children below your state’s CHIP FPL eligibility threshold.

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low-income Children Served by HSI Program <sup>6</sup>
Poison Treatment Advice And Prevention	Hoosier children under 19 years of age	28,907	37
Lead Testing, Prevention Programs, and Abatement	Medicaid or CHIP-eligible individual, under the age of 19, or Medicaid pregnant woman is currently residing or visited regularly.	157	78.5

<sup>6</sup> The percent of children served by the HSI program who are below the CHIP FPL threshold in your state should be reported in this column.

HSI Program	Population Served by HSI Program	Number of Children Served by HSI Program	Percent of Low-income Children Served by HSI Program <sup>6</sup>

3) Please define a metric for each of your state's HSI programs that is used to measure the program's impact on improving the health of low-income children. In the table below, please list the HSI program title in the first column, and include a metric used to measure that program's impact in the second column. In the third column, please provide the outcomes for metrics reported in the second column. States that are already reporting to CMS on such measures related to their HSI program(s) do not need to replicate that reporting here and may skip to Section IV.

HSI Program	Metric	Outcome
Poison Treatment Advice And Prevention	2% of all callers will be contacted and asked: if caller was: a. pleased, with the advice given, and b. would qualify for Medicaid/CHIP.	For FFY 2019 (October 2018 - September 2019), there were 28,907 pediatric(0-19 years) patients managed outside of a health care facility. 610 responded to survey requests (2.75%) with: a) 1. Approximately 74% of those answered "Strongly Agree" to all case management questions. 2) 100% of those responding would call the poison center again and recommend others to call it. b)161 of the 610 respondents confirmed that they received State Medical Assistance.
Lead Testing, Prevention Programs, and Abatement	<ul style="list-style-type: none"> <li>•Number of houses identified with high levels of lead hazards in each of the targeted area(s)</li> <li>•The number of homes in each of the targeted areas scheduled for lead hazard abatement.</li> <li>•The number of homes in each of the targeted areas in which lead hazard abatement has occurred.</li> <li>•Number of houses abated for pregnant women.</li> </ul>	Currently reporting to CMS on the listed measures.

## Section IV. Program financing for State Plan

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-federal funds).

(Note: This reporting period equals federal fiscal year 2019. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

### COST OF APPROVED CHIP PLAN

<b>Benefit Costs</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>
Insurance payments			
Managed Care	199280173	211236983	205993658
Fee for Service	45629451	48470724	47268083
<b>Total Benefit Costs</b>	<b>244909624</b>	<b>259707707</b>	<b>253261741</b>
(Offsetting beneficiary cost sharing payments)	-9907506	-10949074	-10677317
<b>Net Benefit Costs</b>	<b>\$ 235002118</b>	<b>\$ 248758633</b>	<b>\$ 242584424</b>

<b>Administration Costs</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>
Personnel	126541	135399	142169
General Administration	5306	5677	5961
Contractors/Brokers (e.g., enrollment contractors)	4328429	4631419	4862989
Claims Processing	873867	935038	981789
Outreach/Marketing costs	2415079	2584134	2713341
Other (e.g., indirect costs)	5232601	5598883	5878827
Health Services Initiatives	120965	3742094	3854364
<b>Total Administration Costs</b>	<b>13102788</b>	<b>17632644</b>	<b>18439440</b>
<b>10% Administrative Cap (net benefit costs ÷ 9)</b>	<b>26111346</b>	<b>27639848</b>	<b>26953825</b>

	<b>2019</b>	<b>2020</b>	<b>2021</b>
<b>Federal Title XXI Share</b>	<b>246045635</b>	<b>233332120</b>	<b>198586956</b>
<b>State Share</b>	<b>2059271</b>	<b>33059157</b>	<b>62436908</b>
<b>TOTAL COSTS OF APPROVED CHIP PLAN</b>	<b>248104906</b>	<b>266391277</b>	<b>261023864</b>

2. What were the sources of non-federal funding used for state match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement
- Other (specify) **[500]**

3. Did you experience a short fall in CHIP funds this year? If so, what is your analysis for why there were not enough federal CHIP funds for your program? **[1500]**

Indiana did not experience a short fall in CHIP Funds this year.

4. In the tables below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month (PMPM) cost rounded to a whole number. If you have CHIP enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

### A. Managed Care

Year	Number of Eligibles	PMPM (\$)
2019	110730	\$150
2020	110619	\$159
2021	111172	\$154

### A. Fee For Service

Year	Number of Eligibles	PMPM (\$)
2019	10553	\$360
2020	10542	\$383
2021	10595	\$372

Enter any Narrative text related to Section IV below. **[7500]**

## Section V: Program Challenges and Accomplishments

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

The State of Indiana continues to operate in a sound fiscal environment and has not experienced budgets shortfalls. We have maintained our CHIP program without needing to limit enrollment and have not expended all allocated CHIP funds

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

FFY 2019 was period categorized by transition, evident in the transition between Indiana CHIP Directors. However, the program did not incur any setbacks and member satisfaction remained high with approximately 87% of our members providing favorable ratings of their health plan.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

Although not astounding, Indiana CHIP program was able to meet all of it's reporting deadlines and timeliness requirements while experiencing staff turnover. In addition to the annual reporting requirements, the CHIP program successfully submitted Managed Care SPA in June 2019, HSI reports, and made significant strides in advancing it's compliance effort with Mental Health Parity SPA.

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

No changes are planned for the next fiscal year at this time.

Enter any Narrative text related to Section V below. **[7500]**
