**METHODS AND STANDARDS FOR ESTABLISHING PAYMENT RATES
FOR NURSING FACILITIES**

STANDARD NURSING FACILITIES SERVING ADULTS *(continued)*

B. RATE SETTING PROCESS

Beginning July 1, 2007, the Oklahoma Health Care Authority uses the following method to adjust rates of payment for nursing facilities:

1. DEFINITIONS:

Base Rate Component is the rate in effect on June 30, 2005, defined as \$103.20 per day. Included in the base rate is the QOC Fee. Any changes to the base rate will be made through future Plan changes if required. For the rate period beginning September 01, 2012, the base rate will be \$106.29. For the rate period beginning July 1, 2013, the base rate will be \$107.24. For the rate period beginning July 1, 2016, the base rate will be \$107.57 per patient day. For the rate period beginning July 1, 2017, the base rate will be \$107.79 per patient day. For the rate period beginning July 1, 2018, the base rate will be \$107.98 per patient day. For the rate period beginning October 1, 2018, the base rate will be \$108.12 per patient day. For the rate period beginning July 1, 2019, the base rate will be \$108.31 per patient day. For the rate period beginning October 1, 2019, fifty percent (50%) of new funding shall be allocated toward an increase of the existing base rate and distributed accordingly. For the rate period beginning October 1, 2019, the base rate will be \$120.57 per patient day. For the rate period beginning July 1, 2020, the base rate will be \$121.30 per patient day.

Direct Care Cost Component is defined as the component established based on each facilities relative expenditures for Direct Care which are those expenditures reported on the annual costs reports for salaries (including professional fees and benefits), for registered nurses, licensed practical nurses, nurse aides, and certified medication aides.

Other Cost Component is defined as the component established based on monies available each year for all costs other than direct care and incentive payment totals, i.e., total allowable routine and ancillary costs (including capital and administrative costs) of nursing facility care less the Direct Care Costs and incentive payment totals.

Incentive Rate Component is defined as the component earned each quarter under the Pay-for-Performance (PFP) program.

Rate Period is defined as the period of time between rate calculations.

2. GENERAL:

The estimated total available funds will include the estimated savings or loss to the program as a result of the automatic cost of living adjustment on Social Security benefits as published in the federal register and the resulting effect to the spend-down required of the recipients. For Regular Nursing facilities, the effect is \$.32 per day for each one (1) percent change in the SSI determined from the average effect of SSI increases from CY 2004 to CY 2009.

Individual rates of payment will be established as the sum of the Base Rate plus add-ons for Direct Care, Other Costs, and the Pay-for-Performance (PFP) Quality of Care Rating System.

3. Since July 1, 2007, Nursing Facilities Serving Adults and AIDS Patients have been able to earn additional reimbursement for "points" earned in an Oklahoma Quality Rating Program. This program, which was originally called "Focus on Excellence," was revised by statute in 2019, and is now called "Pay-for-Performance".

Pay-for-Performance (PFP) Program

For the period beginning October 1, 2019 and until changed by amendment, qualifying facilities participating in the pay-for-performance program have the potential to earn an average of the \$5.00 quality incentive per Medicaid patient per day. Facility(s) baseline is calculated annually and will remain the same for a 12-month period. Facility(s) will meet or exceed five-percent (5%) relative improvement or the CMS national average each quarter for the following metrics:

- (1) Decrease percent of high risk/unstageable pressure ulcer for long stay residents;
- (2) Decrease percent of unnecessary weight loss for long stay residents;
- (3) Decrease percent of use of anti-psychotic medications for long stay residents; and
- (4) Decrease percent of urinary tract infection for long stay residents.

If either quality metric listed above is substituted or removed by CMS; an alternative CMS Long Stay quality metric may be chosen.

Payment to nursing facilities for meeting the metrics will be awarded quarterly as follows:

- A facility may earn a minimum of \$1.25 per Medicaid patient per day for each qualifying metric.
- A facility receiving a deficiency of "1" or greater related to a specific quality measure within the PFP Quality of Care Rating System is disqualified from receiving an award related to that PFP measure for that quarter.
- Funds that remain as a result of payment not earned, shall be pooled and redistributed to facilities who achieve the metrics each quarter based on facilities' individual performance in the PFP program.
