

# **FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT**

## **Preamble**

Section 2108(a) and Section 2108(e) of the Act provides that the State and Territories \*must assess the operation of the State child health plan in each Federal fiscal year, and report to the Secretary, by January 1 following the end of the Federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the State must assess the progress made in reducing the number of uncovered, low-income children. The State is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The State is also out of compliance if any section of this report relevant to the State's program is incomplete.

To assist States in complying with the statute, the National Academy for State Health Policy (NASHP), with funding from the David and Lucile Packard Foundation, has coordinated an effort with States and CMS over the years to design and revise this Annual Report Template. Over time, the framework has been updated to reflect program maturation and corrected where difficulties with reporting have been identified.

The framework is designed to:

- Recognize the ***diversity*** of State approaches to CHIP and allow States ***flexibility*** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide ***consistency*** across States in the structure, content, and format of the report, **AND**
- Build on data ***already collected*** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance ***accessibility*** of information to stakeholders on the achievements under Title XXI.

The CHIP Annual Report Template System (CARTs) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: 1115 Demonstration Waivers (Financed by CHIP)
- Section VI: Program Challenges and Accomplishments

\* - When "State" is referenced throughout this template, "State" is defined as either a state or a territory.

**FRAMEWORK FOR THE ANNUAL REPORT OF  
THE CHILDREN'S HEALTH INSURANCE PLANS  
UNDER TITLE XXI OF THE SOCIAL SECURITY ACT**

**DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.**

State/Territory: RI  
(Name of State/Territory)

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: \_\_\_\_\_  
**Deborah J. Florio**

CHIP Program Name(s): All, Rite Care/Rite Share

CHIP Program Type:

- CHIP Medicaid Expansion Only  
 Separate Child Health Program Only  
 Combination of the above

Reporting Period: 2011 Note: Federal Fiscal Year 2011 starts 10/1/2010 and ends 9/30/2011.

Contact Person/Title: Deborah J. Florio, Administrator, CCFH

Address: RI Executive Office of Health & Human Services,  
74 West Rd, Hazard Bldg #74, 1st Fl

City: Cranston State: RI Zip: 02920

Phone: (401) 462-0140 Fax: (401) 462-6352

Email: DFlorio@ohhs.ri.gov

Submission Date: 3/1/2012

*(Due to your CMS Regional Contact and Central Office Project Officer by January 1<sup>st</sup> of each year)*

## SECTION I: SNAPSHOT OF CHIP PROGRAM AND CHANGES

- 1) To provide a summary at-a-glance of your CHIP program characteristics, please provide the following information. You are encouraged to complete this table for the different CHIP programs within your state, e.g., if you have two types of separate child health programs within your state with different eligibility rules. If you would like to make any comments on your responses, please explain in narrative below this table. Please note that the numbers in brackets, e.g., [500] are character limits in the Children's Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

		CHIP Medicaid Expansion Program				Separate Child Health Program

## SECTION II: PROGRAM'S PERFORMANCE MEASUREMENT AND PROGRESS

---

This section consists of three subsections that gather information on the initial core set of children's health care quality measures for the CHIP and/or Medicaid program as well as your State's progress toward meeting its general program strategic objectives and performance goals. Section IIA captures data on the initial core set of measures to the extent data are available. Section IIB captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your State. Section IIC captures progress towards meeting your State's general strategic objectives and performance goals.

### SECTION IIA: REPORTING OF THE INITIAL CORE SET OF CHILDREN'S HEALTH CORE QUALITY MEASURES

Section 401(a) of the Children's Health Insurance Program Reauthorization Act of 2009 (CHIPRA) (Pub.L. 111-3) required the Secretary of the Department of Health and Human Services to identify an initial core set of child health care quality measures for voluntary use by State programs administered under titles XIX and XXI, health insurance issuers and managed care entities that enter into contract with such programs, and providers of items and services under such programs. Additionally, Section 401(a)(4) required the development of a standardized reporting format for states that volunteer to report on the initial core set of measures. This section of CARTS will be used for standardized reporting on the initial core set of measures.

States that volunteer are required to report using the standardized methodologies and specifications and report on the populations to which the measures are applied. Below are the measure stewards and general description of the measures. Please reference the Technical Specifications and Resource Manual for the Initial Core Set of Children's Health Care Quality Measures for detailed information for standardized measure reporting.

The Technical Specifications and Resource Manual for the Initial Core Set of Children's Health Care Quality Measures can be found:

<http://www.cms.gov/MedicaidCHIPQualPrac/Downloads/CHIPRACoreSetTechManual.pdf>

**The reporting of the Initial Care Set of Measures 1-23 is voluntary. Title XXI programs are required to report results from the CAHPS Child Medicaid Survey and the Supplemental Items for the Child Questionnaires on dental care, access to specialist care, and coordination of care from other health providers, by December 31, 2013.**

	Measure	Measure Steward	Description	Reporting
1	Prenatal and Postpartum Care: Timeliness of Prenatal Care	NCQA/HEDIS	The percentage of deliveries of live births between November 6 of the year prior to the measurement year and November 5 of the measurement year that received a prenatal care visit in the first trimester or within 42 days of enrollment	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
2	Frequency of Ongoing Prenatal Care	NCQA/HEDIS	Percentage of deliveries between November 6 of the year prior to the measurement year and November 5 of the measurement year that received the following number of visits: < 21 percent of expected visits 21 percent – 40 percent of expected visits 41 percent – 60 percent of expected visits 61 percent – 80 percent of expected visits ≥ 81 percent of expected visits	Measure is voluntary.
3	Percentage of live births weighing less than 2,500 grams	CDC	Percentage of resident live births that weighed less than 2,500 grams in the State reporting period	Measure is voluntary.
4	Cesarean Rate for Nulliparous Singleton Vertex	California Maternal Care Collaborative	Percentage of women who had a cesarean section (C-section) among women with first live singleton births (also known as nulliparous term singleton vertex [NTSV] births) at 37 weeks of gestation or later	Measure is voluntary.
5	Childhood Immunization Status	NCQA/HEDIS	Percentage of children who turned 2 years old during the measurement year who had specific vaccines by their second birthday.	Measure is voluntary.
6	Immunizations for Adolescents	NCQA/HEDIS	Percentage of adolescents who turned 13 years old during the measurement year who had specific vaccines by their thirteenth birthday.	Measure is voluntary.
7	Weight Assessment and Counseling for Nutrition and Physical Activity for Children/Adolescents: BMI Assessment for Children/Adolescents	NCQA/HEDIS	Percentage of children, 3 through 17 years of age, whose weight is classified based on BMI percentile for age and gender.	Measure is voluntary.
8	Developmental Screening in the First Three Years of Life	Child and Adolescent Health Measurement Initiative and NCQA	Percentage of children screened for risk development, behavioral, and social delays using a standardized, screening tool in the first, second, and third year of life	Measure is voluntary.
9	Chlamydia Screening	NCQA/HEDIS	Percentage of women 16- 20 who were identified as sexually active who had at least one test for Chlamydia during the measurement year	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
10	Well Child Visits in the First 15 Months of Life	NCQA/HEDIS	Percentage of children who had zero, one, two, three, four, five, and six or more well child visits with a primary care practitioner during their first 15 months of life	Measure is voluntary.
11	Well Child Visits in the 3 <sup>rd</sup> , 4 <sup>th</sup> , 5 <sup>th</sup> , and 6 <sup>th</sup> Years of Life	NCQA/HEDIS	Percentage of children age 3 to 6 years old who had one or more well-child visits with a primary care practitioner during the measurement year.	Measure is voluntary.
12	Adolescent Well-Care Visits	NCQA/HEDIS	Percentage of adolescents age 12 through 21 years who had at least one comprehensive well-care visit with a primary care practitioner or an OB/GYN practitioner during the measurement year.	Measure is voluntary.
13	Percentage of Eligibles who Received Preventive Dental Services	CMS	Percentage of eligible children ages 1-20 who received preventive dental services	Measure is voluntary.
14	Children and Adolescents' Access to Primary Care Practitioners	NCQA/HEDIS	Percentage of children and adolescents 12 months – 19 years of age who had a visit with a primary care practitioner (PCP). Four separate percentages are reported: <ul style="list-style-type: none"> <li>• Children 12- 24 months and 25 months – 6 years who had a visit with a PCP during the measurement year</li> <li>• Children 7 – 11 years and adolescents 12 – 19 years who had a visit with a PCP during the measurement year or the year prior to the measurement year</li> </ul>	Measure is voluntary.
15	Appropriate Testing for Children with Pharyngitis	NCQA/HEDIS	Percentage of children who were diagnosed with pharyngitis, dispensed an antibiotic and who received a group A streptococcus test for the episode	Measure is voluntary.
16	Otitis Media with Effusion – avoidance of inappropriate use of systemic antimicrobials in children – ages 2-12	American Medical Association/ Physician Consortium for Performance Improvement	Percentage of children ages 2 months through 12 years with a diagnosis of otitis media with effusion (OME) who were not prescribed systemic antimicrobials	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
17	Percentage of Eligibles who Received Dental Treatment Services	CMS	Percentage of eligible children Ages 1-20 who received dental treatment services	Measure is voluntary.
18	Ambulatory Care: Emergency Department Visits	NCQA/HEDIS	The number of emergency department visits per child/adolescent per year as a function of all children and adolescents enrolled and eligible during the measurement year	Measure is voluntary.
19	Pediatric central-line associated blood stream infections – NICU and PICU	CDC	Rate of central line-associated blood stream infections (CLABSI) in the pediatric and neonatal intensive care units during periods selected for surveillance	Measure is voluntary.
20	Annual percentage of asthma patients (2-20 yo) with 1 or more asthma-related emergency room visits	Alabama Medicaid	Percentage of children 2-20 years of age diagnosed with asthma during the measurement year with one or more asthma-related ER visits	Measure is voluntary.
21	Follow-Up Care for Children Prescribed Attention-Deficit Hyperactivity Disorder (ADHD) Medication	NCQA/HEDIS	Percentage of children newly prescribed ADHD medication who had at least three follow-up care visits within a 10-month period, one of which was within 30 days from the time when the first ADHD medication was dispensed. Two rates are reported: one for the initiation phase and one for the continuation and maintenance phase	Measure is voluntary.
22	Annual Pediatric hemoglobin A1C testing	NCQA	Percentage of children with diabetes and an HbA1c test during the measurement year.	Measure is voluntary.
23	Follow-up after hospitalization for mental illness	NCQA/HEDIS	Percentage of discharges for children 6 years of age and older who were hospitalized for treatment of selected mental health disorders and who had an outpatient visit, an intensive outpatient encounter or partial hospitalization with a mental health practitioner	Measure is voluntary.

	Measure	Measure Steward	Description	Reporting
24	Consumer Assessment Of Healthcare Providers And Systems (CAHPS®) Health Plan Survey 4.0H (Child version including Medicaid and Children with Chronic Conditions supplemental items)	NCQA/HEDIS	Survey on parents' experience with their child's care	<p><b>Reporting Required in 2013</b></p> <p>Title XXI programs are <u>required</u><sup>1</sup> to report results from the CAHPS Child Medicaid Survey and the Supplemental Items for the Child Questionnaires on dental care, access to specialist care, and coordination of care from other health providers, by December 31, 2013.</p> <p>If States are already working with the <b>Agency for Healthcare Research and Quality (AHRQ)</b> to report CAHPS, they can continue doing so. We ask that States indicate in CARTS that they have submitted CAHPS data to AHRQ and using the CARTS attachment facility, provide a copy of the CAHPS results to CMS (do not submit raw data on CAHPS to CMS).</p>

This section contains templates for reporting performance measurement data for each of the core child health measures. Please report performance measurement data for the three most recent years (to the extent that data are available). In the first and second columns, data from the previous to years' annual reports (FFY 2009 and FFY 2010) will be populated with data from previously reported data in CARTS; enter data in these columns only if changes must be made. If you previously reported no data for either of those years, but you now have recent data for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2011). Additional instructions for completing each row of the table are provided below.

**If Data Not Reported, Please Explain Why:**

Beginning in 2011, the CARTS application will require States to provide information on why they chose not to report a measure(s) in Section IIA. The CARTS user will be prompted to provide this information for each measure during data entry. If the CARTS User skips these questions during the data entry process, he/she will be prompted to respond to them before being able to certify the Annual Report.

If you cannot provide a specific measure, please check the box that applies to your State for each measure as follows:

- Population not covered: Check this box if your program does not cover the population included in the measure.

---

<sup>1</sup> P.L. 111-3, §402(a)(2)(e)

- Data not available: Check this box if data are not available for a particular measure in your State. Please provide an explanation of why the data are currently not available.
- Small sample size: Check this box if the denominator size for a particular measure is less than 30. If the denominator size is less than 30, your State is not required to report a rate on the measure. However, please indicate the exact denominator size in the space provided.
- Other: Please specify if there is another reason why your state cannot report the measure.

Although the Initial Core Set of Measures is voluntarily reported, if the State is not reporting data on a specific measure, it is important to complete the reason why the State is not reporting the measure. It is important for CMS to understand why each State and why all States as a group may not be reporting on specific measures. Your selection of a reason for not reporting and/or provision of an “other” reason for not reporting will assist CMS in that understanding.

**Status of Data Reported:**

Please indicate the status of the data you are reporting, as follows:

- Provisional: Check this box if you are reporting data for a measure, but the data are currently being modified, verified, or may change in any other way before you finalize them for the current CARTS reporting period.

**Explanation of Provisional Data** – When the value of the Status of Data Reported field is selected as “Provisional”, the State must specify why the data are provisional and when the State expects the data will be final.

- Final: Check this box if the data you are reporting are considered final for the current CARTS reporting period.
- Same data as reported in a previous year’s annual report: Check this box if the data you are reporting are the same data that your State reported in another annual report. Indicate in which year’s annual report you previously reported the data.

**Measurement Specification:**

For each measure, please indicate whether the measure is based on HEDIS® technical specifications, the specifications developed by other measure stewards listed in the Technical Specifications and Resource Manual (e.g. CMS, CDC, AMA/PCPI), or “other” measurement specifications. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed. States should use the technical specifications outlined in the Technical Specifications and Resource Manual for the Initial Core Set of Children’s Health Care Quality Measures.

**HEDIS® Version:**

Please specify HEDIS® Version (example 2009, 2010). This field must be completed only when a user selects the HEDIS® measurement specification.

**“Other” measurement specification explanation:**

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected,

**Data Source:**

For each measure, please indicate the source of data or methodology used to calculate the measure – administrative data (such as claims and encounters) (specify the kind of administrative data used); hybrid methods (combining administrative data and medical records) (specify how the two were used to create the rate); survey data (specify the survey used); or other source (specify the other source).

**Definition of Population included in the Measure:**

**Numerator:** Please indicate the definition of the population included in the numerator for each measure.

**Denominator:** Please indicate the definition of the population included in the denominator for each measure by checking one box to indicate whether the data are for the CHIP population only, the Medicaid population only, or include both CHIP and Medicaid (Title XIX) children combined.

If the denominator reported is not fully representative of the population defined above (the CHIP population only, the Medicaid population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator, including those who are excluded from the denominator. For example, please note if the denominator excludes children enrolled in managed care in certain counties or certain plans or if it excludes children in fee-for-service or PCCM. Also, please report the number of children excluded. The provision of this information is important and will provide CMS with a context so that comparability of denominators can be assessed across the States and over time.

#### **Deviation from Measure Technical Specification**

If the data provided for a measure deviates from the measure technical specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that States must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

Year of Data (e.g., partial year),

Data Source (e.g., use of different data sources among health plans or delivery systems),

Numerator (e.g., coding issues),

Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),

Other (please describe in detail).

When one or more of the types are selected, States are required to provide an explanation.

#### **Year of Data: not available for the 2011 CARTS reporting period.**

Please report the year of data for each measure. The year (or months) should correspond to the *period in which utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

#### **Date Range: available for 2011 CARTS reporting period.**

Please define the date range for the reporting period based on the “From” time period as the month and year that corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year that corresponds to the end period in which utilization took place. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

#### **Initial Core Set Measurement Data (HEDIS® or Other):**

In this section, please report the numerators and denominators for each measure (or component). The template provides two sections for entering the data, depending on whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

**Note: 2011 CARTS will calculate the rate when you enter the numerator and denominator.**

**For CARTS versions prior to 2011 States were able to enter a rate without entering a numerator and denominator (If you typically calculate separate rates for each health plan or delivery system, report the aggregate state-level rate for each measure [or component]. The preferred method is to calculate a single state-level “weighted rate” based on the distribution of the eligible population included in each separate rate.) Beginning in 2011, CARTS will be requiring States to report numerators and denominators rather than providing them the option of only reporting the rate. If States reported a rate in years prior to 2011, that data will be able to be edited if the need arises.**

**Explanation of Progress:**

The intent of this section is to allow your State to demonstrate how you are using the measures. Please highlight progress and describe any quality improvement activities that may have contributed to your progress. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2012, 2013, and 2014. Based on your recent performance on the measure (from FFY 2009 through 2011), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years.

In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

**Other Comments on Measure:**

Please use this section to provide any other comments on the measure, such as data limitations or plans to report on a measure in the future.

**NOTE: Please do not reference attachments in this table. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.**

**CHIPRA Quality Demonstration States have the option of reporting State developed quality measures through CARTS. Instructions may be found on page 25 in the web-based template and after core measure 24 on the Word template.**

**EQRO Requirement: States with CHIP managed care that have existing external quality review organization (EQRO) reports are required to submit EQRO reports as an attachment.**

**Is the State submitting an EQRO report as an attachment to the 2011 CARTS?**

Yes       No

**If yes, please provide a further description of the attachment. [7500]**

The appended aggregate annual external quality review (EQR) technical report provides an independent analysis and evaluation of the services provided to enrollees in Rlte Care and Rhody Health Partners during reporting year 2010; trended data have been presented for the period spanning 2008 – 2010. This report, which was prepared by Island Peer Review Organization (IPRO, Incorporated), was sent by Rhode Island Medicaid to our Regional and Federal CMS Officers on 11/02/2011.

In its aggregate technical report, IPRO concluded (p. 7) that the Rhode Island Medicaid managed care program, and its participating Health Plans, have had a positive impact on the accessibility, timeliness, and quality of care for Medicaid recipients. Furthermore, IPRO recognized that our State’s three Medicaid participating Health Plans were ranked as 7th, 8th, and 26th by the National Committee for Quality Assurance (NCQA) and Consumers Report in their 2010 Health Plan Honor Roll, which is the national ranking of Medicaid managed care plans. These rankings placed all three of Rhode Island Medicaid’s participating Health Plans among the Nation’s top fifteen (15) percent of Medicaid Health Plans, making 2010 the sixth consecutive year that this distinction has been achieved. Rhode Island takes justifiable pride in this accomplishment and we believe that this could not have occurred without the inputs from Rhode Island’s external quality review organization, IPRO, Incorporated, and our Federal partners at CMS.

**If the State is not submitting an EQRO report as an attachment to the 2011 CARTS, please explain. [7500]**

**Explanation of Progress:**

**How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report?** The performance on this voluntary measure improved by approximately one percentage point from FFY 2010 to FFY 2011.

**What quality improvement activities that involve the Medicaid and/or CHIP program and benefit Medicaid and/or CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?** Rhode Island includes this HEDIS® measure in its annual Performance Goal Program, which is the Nation’s second oldest “Pay for Performance” program among State Medicaid agencies. Performance on this measure is also evaluated by the National Committee for Quality Assurance (NCQA). Rhode Island’s participating Health Plans are required by contract to maintain NCQA accreditation and to do so they must submit their final, audited HEDIS® data annually to the NCQA for ongoing accreditation.

**Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.**

**Annual Performance Objective for FFY 2012:** Rhode Island has set the following benchmark goal for performance on this measure in HEDIS® 2012: Attainment of the 90th or 75th percentile, based on Quality Compass® 2011 for Medicaid Health Plans.

**Annual Performance Objective for FFY 2013:** Rhode Island has set the following benchmark goal for performance on this measure in HEDIS® 2013: Attainment of the 90th or 75th percentile, based on Quality Compass® 2012 for Medicaid Health Plans.

**Annual Performance Objective for FFY 2014:** Rhode Island has set the following benchmark goal for performance on this measure in HEDIS® 2014: Attainment of the 90th or 75th percentile, based on Quality Compass® 2013 for Medicaid Health Plans.

*Explain how these objectives were set:* These objectives are based upon Attachment M of Rhode Island’s contract with its Medicaid participating Health Plans.

**Other Comments on Measure:**

**MEASURE 11: Well Child Visits in the 3<sup>rd</sup>, 4<sup>th</sup>, 5<sup>th</sup>, and 6<sup>th</sup> Years of Life**

FFY 2009	FFY 2010	FFY 2011
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report?</b> Rhode Island did not report on this voluntary measure in either FFY 2010 or FFY 2011.</p> <p><b>What quality improvement activities that involve the Medicaid and/or CHIP program and benefit Medicaid and/or CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> Rhode Island requires its Medicaid Managed Care Plans to use the NCQA’s HEDIS® reporting specifications, as outlined in the NCQA’s HEDIS® Technical Specifications, Volume 2. Rhode Island proposes that CMS not include “HEDIS®-like” measures in the list of voluntary quality measures, due to the anticipated increase in cost and administrative burden of executing such measures.</p> <p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2012:</b> Rhode Island currently lacks the necessary resources to report on this voluntary measure.</p> <p><b>Annual Performance Objective for FFY 2013:</b> Rhode Island currently lacks the necessary resources to report on this voluntary measure.</p> <p><b>Annual Performance Objective for FFY 2014:</b> Rhode Island currently lacks the necessary resources to report on this voluntary measure.</p> <p><i>Explain how these objectives were set:</i></p>		
<p><b>Other Comments on Measure:</b> RI requires its Medicaid managed care plans to use the NCQA’s HEDIS® reporting specifications,as outlined in the NCQA’s HEDIS® Technical Specifications,Volume 2. There is not a pediatric HbA1C measure in HEDIS®. As noted in Rhode Island’s 03/01/2010 correspondence which was submitted to the AHRQ regarding the proposed set of voluntary measures for CHIP, the State expressed its concern about the inclusion of “HEDIS®-like” measures, due to their anticipated significant administrative costs.</p>		

Mental Health

**Reporting of State-specific measures:**

In addition to reporting the CHIPRA core set quality measures, if your State has developed State-specific quality measures as part of the CHIPRA Quality Demonstration Grant project, the State may report that data in CARTS. The State may attach documents/data regarding the state-specific measures by using the CARTS attachment facility. Please provide a brief description of the attachment in the space provided when submitting the attachment.

**Is the State attaching any state-specific quality measures as a CARTS attachment?**

Yes  No

## SECTION IIB: ENROLLMENT AND UNINSURED DATA

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your State for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated # Ever Enrolled Year) in your State's 4<sup>th</sup> quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response.

Program	FFY 2010	FFY 2011	Percent change FFY 2010-2011
CHIP Medicaid Expansion Program	21510	23185	7.79
Separate Child Health Program	1743	1630	-6.48

- A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**

Not applicable.

2. The table below shows trends in the three-year averages for the number and rate of uninsured children in your State based on the Current Population Survey (CPS), along with the percent change between 1996-1998 and 2009-2010. Significant changes are denoted with an asterisk (\*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3. CARTS will fill in this information automatically, but in the meantime, please refer to the CPS data attachment that was sent with the FFY 2011 Annual Report Template.

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number	Std. Error	Rate	Std. Error
1996 - 1998	11	3.7	4.8	1.7
1998 - 2000	8	3.2	3.3	1.3
2000 - 2002	7	1.7	2.6	.7
2002 - 2004	9	2.0	3.4	.7
2003 - 2005	10	2.7	3.7	1.0
2004 - 2006	9	3.0	3.2	1.0
2005 - 2007	9	3.0	3.7	1.1

2006 - 2008	10	3.0	4.3	1.2
2007 - 2009	13	3.0	5.3	1.3
2008 - 2010	1	2.0	4.6	.6
Percent change 1996-1998 vs. 2008-2010	.0%	NA	-4.2%	NA

- A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. **[7500]**

The federally provided three-year average data in the table above are incorrect for 2008 – 2010. Reviewing the Census Bureau data provided at <http://www.census.gov/hhes/www/hlthins/data/children/uninsured/liuc10.xls>, the correct figure for 2008 – 2010 should be 11 not 1. The Percent change 1996-1998 vs. 2008-2010 is correct for the number three-average number of uninsured (i.e., 0%), because that number for 2008-2010 was unchanged from the number for 1996-1998. However, the actual percentage change from 1996-1998 to 2008-2010 was -4.2 percent. This reflects the increase in the denominator of children in the 2008–2010 time period. The decreased percentage is noteworthy. Hard economic times and ever-mounting pressures on the State budget not withstanding, Rhode Island has maintained its Medicaid/CHIP coverage levels for children.

- B. Please note any comments here concerning CPS data limitations that may affect the reliability or precision of these estimates. **[7500]**

In using CPS data, it is important to keep in mind that the Current Population Survey “was not designed as a health insurance survey.”<sup>1</sup> While the CPS provides valuable trend information, “comparisons with other surveys have indicated that its estimates for the uninsured tend to be somewhat higher than other major surveys, indicating that underreporting may be a larger problem for the CPS than for some other major surveys that ask questions about insurance coverage.”<sup>2</sup> The underreporting for Rhode Island may be considerable. For example, in March 2001 new questions were added to the CPS specifically dealing with SCHIP coverage. Data for Rhode Island showed SCHIP coverage estimates to be 83 percent less than the actual SCHIP coverage in the State (as reported to CMS)<sup>3</sup>.

CPS reports on insurance coverage (or lack thereof) “in the previous calendar year”<sup>4</sup>, with a sample size of 1,620 Rhode Island households for 2002. In comparison to the Survey of Income and Program Participation (SIPP), also conducted by the U.S. Census Bureau, CPS underreports “health insurance coverage when compared with estimates from SIPP.”<sup>5</sup> Thus, the level of uninsurance in Rhode Island may actually be less than that reported by using CPS data.

In August 2007 when the 2006 Health Insurance estimated were released the US Census Bureau stated that, “The 2005 and 2006 Current Population Survey (CPS) Annual Social and Economic (ASEC) data have been revised to improve consistency of estimates.”<sup>6</sup> The reason for this adjustment was because some non-policy holders were designated as uninsured or missing when they actually had private coverage.<sup>7</sup> Because the new data was not consistent with earlier data the US Census Bureau introduced a new set of historical tables and discontinued the original series. RI uses the new revised tables for uninsured

rates. As recommended by the Census Bureau, RI uses CPS/ASEC two year moving averages when comparing RI uninsured rates from year to year (i.e., trends) and three year average uninsured rates when comparing across the states. 8,9

3. Please indicate by checking the box below whether your State has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

Yes (please report your data in the table below)

No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

- A. Please explain why your State chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children. **[7500]**

- B. What is your State's assessment of the reliability of the estimate? What are the limitations of the data or estimation methodology? (Provide a numerical range or confidence intervals if available.) **[7500]**
  
  - C. What are the limitations of the data or estimation methodology? **[7500]**
  
  - D. How does your State use this alternate data source in CHIP program planning? **[7500]**
4. How many children do you estimate have been enrolled in Medicaid as a result of CHIP outreach activities and enrollment simplification? Describe the data source and method used to derive this information **[7500]**

The State has no basis for estimating this.

## SECTION IIC: STATE STRATEGIC OBJECTIVES AND PERFORMANCE GOALS

This subsection gathers information on your State's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP State Plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your State with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2009 and FFY 2010) will be populated with data from previously reported data in CARTS. If you previously reported data in the 2 previous years reports (2009 and/or 2010) and you want to update/change the data please enter that data. If you previously reported no data for either of those years, but you now have recent data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2011).

Note that the term *performance measure* is used differently in Section IIA versus IIC. In Section IIA, the term refers to the four core child health measures. In this section, the term is used more broadly, to refer to any data your State provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are State-specific, and should be listed in the appropriate subsections within the space provided for each objective.

**NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.**

**In addition, please do not report the same data that were reported in Sections IIA or IIB. The intent of this section is to capture goals and measures that your State did not report elsewhere in Section II.**

Additional instructions for completing each row of the table are provided below.

### Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be: "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13<sup>th</sup> birthday."**

### Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- New/revised: Check this box if you have revised or added a goal. Please explain how and why the goal was revised.

- Continuing: Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- Discontinued: Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

### **Status of Data Reported:**

Please indicate the status of the data you are reporting for each goal, as follows:

- Provisional: Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2010.

**Explanation of Provisional Data** – When the value of the Status of Data Reported field is selected as “Provisional”, the State must specify why the data are provisional and when the State expects the data will be final.

- Final: Check this box if the data you are reporting are considered final for FFY 2011.
- Same data as reported in a previous year’s annual report: Check this box if the data you are reporting are the same data that your State reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

### **Measurement Specification:**

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which States may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

### **HEDIS® Version:**

Please specify HEDIS® Version (example 2009, 2010). This field must be completed only when a user select the HEDIS® measurement specification.

### **“Other” measurement specification explanation:**

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected,

### **Data Source:**

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

### **Definition of Population Included in Measure:**

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure

For measures related to increasing access to care and use of preventative care, please check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.

- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, please note if the denominator excludes children enrolled in managed care in certain counties or certain plans or if it excludes children in fee-for-service or PCCM. Also, please report the number of children excluded. The provision of this information is important and will provide CMS with a context so that comparability of denominators can be assessed across the States and over time.

### **Deviations from Measure**

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that States must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected..

The five types (and examples) of deviations are:

Year of Data (e.g., partial year),

Data Source (e.g., use of different data sources among health plans or delivery systems),

Numerator (e.g., coding issues),

Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),

Other.

When one or more of the types are selected, states are required to provide an explanation.

### **Year of Data: not available for the 2011 CARTS reporting period.**

Please report the year of data for each performance measure. The year (or months) should correspond to the *period in which enrollment or utilization took place*. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

### **Date Range: available for 2011 CARTS reporting period.**

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do *not* report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

### **Performance Measurement Data (HEDIS® or Other):**

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

**Note: CARTS will calculate the rate when you enter the numerator and denominator.**

**For CARTS versions prior to 2011 States were able to enter a rate without entering a numerator and denominator** (If you typically calculate separate rates for each health plan, report the aggregate state-level rate for each measure [or component]). The preferred method is to calculate a “weighted rate”

by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator.) **Beginning in 2011, CARTS will be requiring States to report numerators and denominators rather than providing them the option of only reporting the rate. If States reported a rate in years prior to 2011, that data will be able to be edited if the need arises.**

**Explanation of Progress:**

The intent of this section is to allow your State to highlight progress and describe any quality improvement activities that may have contributed to your progress. Any quality improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality improvement activity is a state-wide initiative to inform individual families directly of their children's immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality improvement plans. In this section, your State is also asked to set annual performance objectives for FFY 2012, 2013, and 2014. Based on your recent performance on the measure (from FFY 2009 through 2011), use a combination of expert opinion and "best guesses" to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your State set for the year, as well as any quality improvement activities that have helped or could help your State meet future objectives.

**Other Comments on Measure:**

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

**Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIB, Questions)**

<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2009 compare with the Annual Performance Objective documented in your 2008 Annual Report?</b> RItE Care health plans have demonstrated a high level of performance on this important access to care measure during the past three FFYs. Performance increased from 92.8% FFY 2008 to 93.7% in FFY 2009.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2010 compare with the Annual Performance Objective documented in your 2009 Annual Report?</b> RItE Care Health Plans have demonstrated a high level of performance on this important access to care measure during the past three FFYs. Performance increased from 93.7% in FFY 2009 to 95.1% in FFY 2010.</p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2011 compare with the Annual Performance Objective documented in your 2010 Annual Report?</b> Health Plans have demonstrated a high level of performance on this important access to care measure during the past three FFYs. Performance increased from 95.1% in FFY 2010 to 95.7% in FFY 2011.</p>

FFY 2009	FFY 2010	FFY 2011
<p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> This HEDIS® access to care measure has been an integral one for the RItE Care program and is included in the series of quantitative measures which comprise RItE Care’s Performance Goal Program. As IPRO, Inc., the State’s EQRO, noted in its July 2009 annual external quality review aggregate report:</p> <p>“The RItE Care program, including each of the three Health Plans, has had a positive impact on the accessibility, timeliness and quality of services for Medicaid recipients that each of the Plans’ Excellent NCQA accreditation status would imply.”</p> <p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2010:</b> The 90th percentile for Medicaid HEDIS ®, based on the NCQA’s Quality Compass ® 2009.</p> <p><b>Annual Performance Objective for FFY 2011:</b> The 90th percentile for Medicaid HEDIS ®, based on the NCQA’s Quality Compass ® 2010.</p> <p><b>Annual Performance Objective for FFY 2012:</b> The 90th percentile for Medicaid HEDIS ®, based on the NCQA’s Quality Compass ® 2011.</p>	<p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> This HEDIS® access to care measure has been an integral one for the RItE Care program and is included in the series of quantitative measures which comprise RItE Care’s Performance Goal Program. As IPRO, Inc., the State’s EQRO, noted in its September 2010 annual external quality review aggregate report:</p> <p>“IPRO’s external quality review concludes that the RItE Care program, and its three participating Health Plans, have had a positive impact on the accessibility, timeliness and quality of services for Medicaid recipients as would be expected, given the Health Plans’ Excellent NCQA accreditation status.”</p> <p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2011:</b> Rhode Island has set the following benchmark goal for performance on this measure in HEDIS® 2011: Attainment of the 90th or 75th percentile, based on Quality Compass® 2010 for Medicaid Health Plans.</p> <p><b>Annual Performance Objective for FFY 2012:</b> Rhode Island has set the following benchmark goal for performance on this measure in HEDIS® 2012: Attainment of the 90th or 75th percentile, based on Quality Compass® 2011 for Medicaid Health Plans.</p>	<p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b> This HEDIS® access to care measure has been an integral one for the RItE Care program and is included in the series of quantitative measures which comprise the Performance Goal Program. As IPRO, Inc., the State’s EQRO, noted in its October 2011 annual external quality review aggregate report: “IPRO’s external quality review concludes that the RItE Care program, and its three participating Health Plans, have had a positive impact on the accessibility, timeliness and quality of services for Medicaid recipients as would be expected, given the Health Plans’ Excellent NCQA accreditation status and rankings among the top 15 percent of Medicaid Health Plans in 2010 by the NCQA.”</p> <p><b>Please indicate how CMS might be of assistance in improving the completeness or accuracy of your reporting of the data.</b></p> <p><b>Annual Performance Objective for FFY 2012:</b> Rhode Island has set the following benchmark goal for performance on this measure in HEDIS® 2012: Attainment of the 90th or 75th percentile, based on Quality Compass® 2011 for Medicaid Health Plans.</p> <p><b>Annual Performance Objective for FFY 2013:</b> Rhode Island has set the following benchmark goal for performance on this measure in HEDIS® 2013: Attainment of the 90th or 75th percentile, based on Quality Compass® 2012 for Medicaid Health Plans.</p>

FFY 2009	FFY 2010	FFY 2011
<p><i>Explain how these objectives were set:</i> Health Plans performance is benchmarked against the NCQA's Quality Compass®</p>	<p><b>Annual Performance Objective for FFY 2013:</b> Rhode Island has set the following benchmark goal for performance on this measure in HEDIS® 2013: Attainment of the 90th or 75th percentile, based on Quality Compass® 2012 for Medicaid Health Plans.</p> <p><i>Explain how these objectives were set:</i> These objectives are based upon Attachment M of Rhode Island's contract with its Medicaid participating Health Plans.</p>	<p><b>Annual Performance Objective for FFY 2014:</b> Rhode Island has set the following benchmark goal for performance on this measure in HEDIS® 2014: Attainment of the 90th or 75th percentile, based on Quality Compass® 2013 for Medicaid Health Plans.</p> <p><i>Explain how these objectives were set:</i> These objectives are based upon Attachment M of Rhode Island's contract with its Medicaid participating Health Plans.</p>
<p><b>Other Comments on Measure:</b> On an annual basis, Rite Care Health Plans performance on this HEDIS® measure (Children and Adolescents' Access to Primary Care Practitioners (CAP)) is compared to national benchmarks for Medicaid plans which report to the National Committee for Quality Assurance (NCQA), as documented in the NCQA's Quality Compass®.</p>	<p><b>Other Comments on Measure:</b> On an annual basis, Rite Care Health Plans' performance on this HEDIS measure is compared to national benchmarks for Medicaid plans which report to NCQA as documented in NCQA's Quality Compass.</p>	<p><b>Other Comments on Measure:</b> On an annual basis, Health Plans' performance on this HEDIS® measure is compared to national benchmarks for Medicaid plans which report to NCQA as documented in NCQA's Quality Compass®.</p>

<b>Other Comments on Measure:</b>	<b>Other Comments on Measure:</b>	<b>Other Comments on Measure:</b>

1. What other strategies does your State use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**

CMS stated on pages 4 and 5 of its August 2009 Assessment of Medicaid and SCHIP Quality Improvement Activities for the State of Rhode Island:

“Rhode Island is actively involved in quality improvement efforts and has activities underway in many of the above referenced assessment areas. Rhode Island requires National Committee for Quality Assurance (NCQA) certification across its Medicaid managed care network and publishes an annual HEDIS/CAHPS report, comparing audited results from managed care organizations (MCOs). It is noteworthy that all three of the MCOs participating in the State’s Medicaid program are listed in the rating of the ten best Medicaid MCOs in the United States. Rhode Island makes incentive payments to MCOs based on their performance in the preceding calendar year.

We note that the State uses nationally recognized HEDIS measures to track performance measures captured in Section IV of the audited Quality Summary. The CAHPS measures are also used to assess beneficiary satisfaction.

Rhode Island has a comprehensive Quality Strategy which describes the State’s overall quality objectives and outlines the means by which the State plans to reach those objectives.

The State’s EQRO Annual Technical Report consolidates findings and recommendations for all plans reviewed, clearly describing how the review was designed and conducted and frankly addressing plan strengths and weaknesses. All MCOs were found to offer adequate networks of providers and services, and to effectively deliver covered benefits to enrollees. In its most recent Annual Technical Report, Rhode Island’s External Quality Review Organization, IPRO, has submitted a comprehensive document that synthesizes findings and recommendations for all plans and frankly discusses plan strengths and weaknesses.”

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

The State of Rhode Island will continue implementation of its overall quality strategy. The State re-procured its Health Plan contracts effective in SFY 2011. As part of this process, the Performance Goal Program was revised to make greater use of HEDIS® measures for the access and quality domains. This was done to capitalize on available information that is already validated, so as not to duplicate efforts.

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

No new focused studies have been conducted. A focused study is planned for 2012.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program’s performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives health coverage initiatives. **[7500]**

The State has made a concerted effort to make its reports and analyses available on-line. Accordingly, DHS reports on Rlthe Care and Rlthe Share may be accessed on-line.

Enter any Narrative text below **[7500]**.

Please list attachments here and summarize findings or list main findings.

Monitoring Quality and Access in Medicaid Managed Care -- This report provides an overview of findings from the 2011 Performance Goal Program. Trended findings have been provided for the three-year interval spanning CY 2008 – 2010. As noted on p. 2 of the attached report, Medicaid managed care has demonstrated a strong and consistent three-year trend on the medical home/preventive care measures, with performance that exceeds the NCQA's Quality Compass® 90th percentile.

Health Plan-specific Annual EQR Technical Reports and Aggregate Annual EQR Technical Report dated October 2011 – As IPRO, Inc., the State's EQRO, noted in its October 2011 annual external quality review aggregate report: "IPRO's external quality review concludes that the Rlte Care program, and its three participating Health Plans, have had a positive impact on the accessibility, timeliness and quality of services for Medicaid recipients as would be expected, given the Health Plans' Excellent NCQA accreditation status and rankings among the top 15 percent of Medicaid Health Plans in 2010 by the NCQA."

Attachment M of the Rhode Island Medicaid Managed Care Contract – This details the Performance Goal Program.

## SECTION III: ASSESSMENT OF STATE PLAN AND PROGRAM OPERATION

---

Please reference and summarize attachments that are relevant to specific questions

### A. OUTREACH

1. How have you redirected/changed your outreach strategies during the reporting period? [7500]

The State has not redirected or changed its outreach strategy.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? [7500]

Historically, contracting with community-based organization (CBOs) that were compensated directly for enrolling children was the most effective.

3. Which of the methods described in Question 2 would you consider a best practice(s)? [7500]

Contracting with CBOs.

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

Yes

No

Have these efforts been successful, and how have you measured effectiveness? [7500]

5. What percentage of children below 200 percent of the Federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? [5]

(Identify the data source used). [7500]

### B. SUBSTITUTION OF COVERAGE (CROWD-OUT)

*All states should answer the following questions. Please include percent calculations in your responses when applicable and requested.*

1. Do you have substitution prevention policies in place?

Yes

No

If yes, indicate if you have the following policies:

Imposing waiting periods between terminating private coverage and enrolling in CHIP

Imposing cost sharing in approximation to the cost of private coverage

Monitoring health insurance status at the time of application

Other, please explain [7500]

Mandatory enrollment in RItE Share, the State's premium assistance program.

2. Describe how substitution of coverage is monitored and measured and how the State evaluates the effectiveness of its policies. [7500]

Applicants/enrollees are required to enroll in Rite Share if they have access to ESI. Thus, the initial application or redetermination is the trigger point to prevent substitution. Another trigger point is if TPL data matches show an enrollee has access to ESI.

3. Identify the trigger mechanism or point at which your substitution prevention policy is instituted or modified if you currently have a substitution policy. **[7500]**

Rhode Island has had an exemplary approach to preventing crowd-out (i.e., substituting public for private coverage) that includes:

- Mandatory enrollment in Rite Share, the State's premium assistance program, if the CHIP- or Medicaid-eligible individual has access to employer-sponsored insurance (ESI)
- Mandatory payment of a portion of the premium for CHIP or Medicaid coverage
- Data matching with the insurers in the State

***All States must complete the following questions***

4. At the time of application, what percent of CHIP applicants are found to have Medicaid [(# applicants found to have Medicaid/total # applicants) \* 100] **[5]**  
and what percent of applicants are found to have other group insurance [(# applicants found to have other insurance/total # applicants) \* 100] **[5]**?  
Provide a combined percent if you cannot calculate separate percentages. **[5]**

5. What percent of CHIP applicants cannot be enrolled because they have group health plan coverage **[5]**

- a. Of those found to have had other, private insurance and have been uninsured for only a portion of the state's waiting period, what percent meet your state's exemptions to the waiting period (if your state has a waiting period and exemptions) [(# applicants who are exempt/total # of new applicants who were enrolled)\*100]? **[5]**

6. Does your State have an affordability exception to its waiting period?

- Yes  
 No

If yes, please respond to the following questions. If no, skip to question 7.

- a. Has the State established a specific threshold for defining affordability (e.g., when the cost of the child's portion of the family's employer-based health insurance premium is more than X percent of family income)?

- Yes  
 No

If the State has established a specific threshold, please provide this figure and whether this applies to net or gross income. If no, how does the State determine who meets the affordability exception? **[7500]**

- b. What expenses are counted for purposes of determining when the family exceeds the affordability threshold? (e.g., Does the State consider only premiums, or premiums and other cost-sharing charges? Does the State base the calculation on the total premium for

family coverage under the employer plan or on the difference between the amount of the premium for employee-only coverage and the amount of the premium for family coverage? Other approach?) [7500]

c. What percentage of enrollees at initial application qualified for this exception in the last Federal Fiscal Year? (e.g., Number of applicants who were exempted because of affordability exception/total number of applicants who were enrolled). [5]

d. Does the State conduct surveys or focus groups that examine whether affordability is a concern?

Yes

No

If yes, please provide relevant findings. [7500]

7. If your State does not have an affordability exception, does your State collect data on the cost of health insurance for an individual or family? [7500]

Yes

8. Does the State's CHIP application ask whether applicants have access to private health insurance?

Yes

No

If yes, do you track the number of individuals who have access to private insurance?\_

Yes

No

If yes, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last Federal Fiscal Year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)\*100]? [5]

## C. ELIGIBILITY

*(This subsection should be completed by all States)*

*Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.*

### Section IIIC: Subpart A: Overall CHIP and Medicaid Eligibility Coordination

1. Does the State use a joint application for establishing eligibility for Medicaid or CHIP?

Yes

No

If no, please describe the screen and enroll process. [7500]

2. Please explain the process that occurs when a child’s eligibility status changes from Medicaid to CHIP and from CHIP to Medicaid. Have you identified any challenges? If so, please explain. **[7500]**

After birth, unborn children automatically become Medicaid-eligible for the first year of life irrespective of any changes in income.

3. Are the same delivery systems (such as managed care or fee for service,) or provider networks used in Medicaid and CHIP? **[7500]**

Yes

No

If no, please explain. **[7500]**

4. Do you have authority in your CHIP State plan to provide for presumptive eligibility, and have you implemented this?  Yes  No

If yes

- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? [5]
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination those children are determined eligible and enrolled? [5]

**Section IIIC: Subpart B: Initial Eligibility, Enrollment, and Renewal for CHIP (Title XXI) and Medicaid (Title XIX) Programs**

**Table B1**

*This section is designed to assist CMS and the States track progress on the “5 out of 8” eligibility and enrollment milestones. It will not be used to determine CHIPRA performance bonus payments.*

Program Feature	Question	Medicaid	CHIP
Continuous Eligibility	<p>1. Does the State provide continuous eligibility for 12 months for children regardless of changes in circumstances other than the situations identified below:</p> <p>a. child is no longer a resident of the State;</p> <p>b. death of the child;</p> <p>c. child reaches the age limit;</p> <p>d. child/representative requests disenrollment;</p> <p>e. child enrolled in a separate CHIP program files a Medicaid application, is</p>	<p>In accordance with section 1902(e)(12) of the Act</p> <p><input type="checkbox"/> Yes</p> <p><input checked="" type="checkbox"/> No</p>	<p><input type="checkbox"/> Yes</p> <p><input checked="" type="checkbox"/> No</p>

	determined eligible for Medicaid and is enrolled in Medicaid without a coverage gap.		
Liberalization of Asset (or Resource Test) Requirements	2. Does the State have an assets test?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	3. If there is an assets test, does the State allow administrative verification of assets?	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A	<input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> N/A
Elimination of In-Person Interview	4. Does the State require an in-person interview to apply?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
	5. Has the State eliminated an in-person requirement for renewal of CHIP eligibility?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Use of Same Application and Renewal Forms and Procedures for Medicaid and CHIP	6. Does the State use the same application form, supplemental forms, and information verification process for <i>establishing</i> eligibility for Medicaid and CHIP?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
	7. Does the State use the same application form, supplemental forms, and information verification process for <i>renewing</i> eligibility for Medicaid and CHIP?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	
Automatic/Administrative Renewal	8. For renewals of Medicaid or CHIP eligibility, does the State provide a preprinted form populated with eligibility information available to the State, to the child or the child's parent or other representative, along with a notice that eligibility will be renewed and continued based on such information unless the State is provided other information that affects eligibility?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No

	9. Does the State do an ex parte renewal? Specifically, does the State renew Medicaid or CHIP eligibility to the maximum extent possible based on information contained in the individual's Medicaid file or other information available to the State, before it seeks any information from the child's parent or representative?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
		If exparte is used, is it used for All applicants <input type="checkbox"/> Yes <input type="checkbox"/> No A subset of applicants <input type="checkbox"/> Yes <input type="checkbox"/> No	If exparte is used, is it used for All applicants <input type="checkbox"/> Yes <input type="checkbox"/> No A subset of applicants <input type="checkbox"/> Yes <input type="checkbox"/> No
Presumptive Eligibility	10. Does the State provide presumptive eligibility to children who appear to be eligible for Medicaid and CHIP to enroll pending a full determination of eligibility?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
Express Lane Eligibility	11. Are you utilizing the Express Lane option in making eligibility determinations and/or renewals for both Medicaid and CHIP?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	
			If yes, which Express Lane Agencies are you using? <input type="checkbox"/> Supplemental Nutrition Assistance Program (SNAP), formerly Food Stamps <input type="checkbox"/> Tax/Revenue Agency <input type="checkbox"/> Unemployment Compensation Agency <input type="checkbox"/> Women, Infants, and Children (WIC) <input type="checkbox"/> Free, Reduced School Lunch Program <input type="checkbox"/> Subsidized Child Care Program <input type="checkbox"/> Other, please explain. [7500]
			If yes, what information is the Express Lane Agency providing? <input type="checkbox"/> Income <input type="checkbox"/> Resources <input type="checkbox"/> Residency <input type="checkbox"/> Age <input type="checkbox"/> Citizenship <input type="checkbox"/> Other, please explain. [7500]
Premium Assistance	12. Has the State implemented premium assistance as added or modified by CHIPRA?	In accordance with section 2105(c)(10) of the Act, as added by section 301(a)(1) of CHIPRA. <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	In accordance with section 2105(c)(10) of the Act, as added by section 301(a)(1) of CHIPRA. <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

**Section IIIC: Subpart C: Eligibility Renewal and Retention  
CHIP (Title XXI) and Medicaid (Title XIX) Programs**

1. What additional measures, besides those described in Tables B1 or C1, does your State employ to simplify an eligibility renewal and retain eligible children in CHIP?

Conducts follow-up with clients through caseworkers/outreach workers

Sends renewal reminder notices to all families

- How many notices are sent to the family prior to disenrolling the child from the program?

**[500]**

Three

- At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the State?) **[500]**

These are sent at 60 days, 30 days and 10 days. Also Health Plans are sent notices approximately 30 days prior to termination. Recipients are sent a renewal reminder letter and application approximately six weeks before the recertification is due. If they do not respond, a reminder letter is sent on or about the sixth day of the month in which they are closing.

Other, *please explain*: **[500]**

2. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. **[7500]**

No evaluation analyses of this type were conducted during FFY 2011. Rite Care enrollment had grown steadily over time, then declined, and has increased recently due to the difficult state of Rhode Island's economy. Rite Share enrollment has steady, however, even in the State's down economy. There has also been a fair amount of "churning" of the enrolled population. Eligibility for Rite Care is normally re-determined at 12-month intervals.

### Section IIIC: Subpart D: Eligibility Data

**Table 1. Application Status of Title XXI Children in FFY 2011**

States are required to report on questions 1 and 2 in FFY 2011. Reporting on questions 2.a., 2.b., and 2.c. is voluntary in FFY 2011 and FFY 2012. Reporting on questions 2.a., 2.b., and 2.c. is required in 2013. Please enter the data requested in the table below and the template will tabulate the requested percentages.

	Number	Percent
1. Total number of title XXI applicants	0	100
2. Total number of application denials	0	
a. Total number of procedural denials		
b. Total number of eligibility denials		
i. Total number of applicants denied for title XXI and enrolled in title XIX		
c. Total number of applicants denied for other reasons Please indicate: (Check here if there are no additional categories <input type="checkbox"/> )		

3. Please describe any limitations or restrictions on the data used in this table: The State does not have a separate application process for Title XXI. Applicants apply for the combined

Medicaid/CHIP Program, and identified as CHIP eligible after determination of their eligibility for the combined program.

**Definitions:**

1. The “total number of title XXI applicants,” including those that applied using a joint application form, is defined as the total number of applicants that had an eligibility decision made for title XXI in FFY 2011. This measure is for applicants that have not been previously enrolled in title XXI or they were previously enrolled in title XXI but had a break in coverage, thus requiring a new application. Please include only those applicants that have had a Title XXI eligibility determination made in FFY 2011 (e.g., an application that was determined eligible in September 2011, but coverage was effective October 1, 2011 is counted in FFY 2011).
2. The “the total number of denials” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2011. This definition only includes denials for title XXI at the time of initial application (not redetermination).
  - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2011 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
  - b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2011 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your State’s specified waiting period, etc.)
    - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX
  - c. The “total number of applicants denied for other reasons” is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

**Table 2. Redetermination Status of Children Enrolled in Title XXI**

For this table, States may voluntarily report in 2011 and 2012. Reporting is required for 2013.

**Is the State reporting this data in the 2011 CARTS?**

- Yes (complete) State is reporting all measures in the redetermination table.
- Yes (but incomplete) Please describe which measures the State did not report on, and why the State did not report on these measures.  
Explain: [7500]
- No If the State is not reporting any data, please explain why.  
Explain: [7500]

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

	Number	Percent			
1. Total number of children who are eligible to be redetermined		100%			
2. Total number of children screened for redetermination			100%		
3. Total number of children retained after the redetermination process					
4. Total number of children disenrolled from title XXI after the redetermination process				100%	

a. Total number of children disenrolled from title XXI for failure to comply with procedures					
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria					100%
i. Disenrolled from title XXI because income too high for title XXI (If unable to provide the data, check here <input type="checkbox"/> )					
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input type="checkbox"/> )					
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid expansion and this data is not relevant check here <input type="checkbox"/> )					
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/> )					
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/> )					

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any State policies or procedures that may have impacted the redetermination outcomes data.

**Definitions:**

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in Federal Fiscal Year (FFY) 2011, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total number may include children whose eligibility can be renewed through administrative redeterminations, whereby the State sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes. This total may also include ex parte redeterminations, the process when a State uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility.
2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the State for redetermination in FFY 2011 (i.e., those children whose families have

returned redetermination forms to the State, as well as administrative redeterminations and ex parte redeterminations).

3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2011.
4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2011. This includes those children that States may define as “transferred” to Medicaid for title XIX eligibility screening.
  - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2011 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
  - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their State’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your State’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
  - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.

The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

**Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XXI, Second Quarter FFY 2012**

The purpose of this table is to measure title XXI enrollees’ duration, or continuity, of public coverage (title XIX and title XXI). This information is required by CHIPRA, Section 402(a). **Reporting is not required until 2013, but States will need to identify newly enrolled children in the second quarter of FFY 2012 (January, February, and March of 2012). If your eligibility system already has the capability to track a cohort of enrollees over time, an additional “flag” or unique identifier may not be necessary.**

**Instructions:** For this prospective duration measure, please identify newly enrolled children in title XXI in the second quarter of FFY 2012, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2012 must have birthdates after July 1995 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18<sup>th</sup> month of coverage. Similarly, children enrolled in February 2012 must have birthdates after August 1995, and children enrolled in March 2012 must have birthdates after September 1995. Each child newly enrolled during this time frame needs a unique identifier or “flag” so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional “flag” or unique identifier may not be necessary. Please follow the child based on the child’s age category at the time of enrollment (e.g., the child’s age at enrollment creates an age cohort that does not change over the 18 month time span). Please enter the data requested in the table below and the template will tabulate the percentages.

Specify how your “newly enrolled” population is defined:

**Not Previously Enrolled in CHIP or Medicaid**—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2012, he/she would not be enrolled in either title XXI or title XIX in December 2011, etc.)

**Not Previously Enrolled in CHIP**—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2012, he/she would not be enrolled in title XXI in December 2011, etc.)

Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XXI in the second quarter of FFY 2012		100%		100%		100%		100%		100%
<b>Enrollment Status 6 months later</b>										
2. Total number of children continuously enrolled in title XXI										
3. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
3.a. Total number of children enrolled in										

Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )										
4. Total number of children disenrolled from title XXI										
4.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )										
<b>Enrollment Status 12 months later</b>										
5. Total number of children continuously enrolled in title XXI										
6. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
6.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )										
7. Total number of children disenrolled from title XXI										
7.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )										

Enrollment Status 18 months later										
8. Total number of children continuously enrolled in title XXI										
9. Total number of children with a break in title XXI coverage but re-enrolled in title XXI										
9.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )										
10. Total number of children disenrolled from title XXI										
10.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )										

**Definitions:**

1. The “total number of children newly enrolled in title XXI in the second quarter of FFY 2012” is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
  
2. The total number of children that were continuously enrolled in title XXI for 6 months is defined as the sum of:
  - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who were continuously enrolled through July 2012
  - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who were continuously enrolled through August 2012
  - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who were continuously enrolled through September 2012

3. The total number who had a break in title XXI coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
  - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who disenrolled and re-enrolled in title XXI by July 2012
  - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who disenrolled and re-enrolled in title XXI by August 2012
  - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who disenrolled and re-enrolled in title XXI by September 2012
  - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and were disenrolled by July 2012
  - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and were disenrolled by August 2012
  - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and were disenrolled by September 2012
  - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.
  
5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
  - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and were continuously enrolled through January 2013
  - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and were continuously enrolled through February 2013
  - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and were continuously enrolled through March 2013
  
6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
  - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who disenrolled and then re-enrolled in title XXI by January 2013
  - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who disenrolled and then re-enrolled in title XXI by February 2013
  - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who disenrolled and then re-enrolled in title XXI prior to March 2013
  - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 1995, who were enrolled in January 2012 and were disenrolled by January 2013
  - + the number of children with birthdates after August 1995, who were enrolled in February 2012 and were disenrolled by February 2013
  - + the number of children with birthdates after September 1995, who were enrolled in March 2012 and were disenrolled by March 2013
  - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.

8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
  - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and were continuously enrolled through July 2013
  - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and were continuously enrolled through August 2013
  - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and were continuously enrolled through September 2013
  
9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
  - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and who disenrolled and re-enrolled in title XXI by July 2013
  - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and who disenrolled and re-enrolled in title XXI by August 2013
  - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and who disenrolled and re-enrolled in title XXI by September 2013
  - 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 1995, who were newly enrolled in January 2012 and disenrolled by July 2013
  - + the number of children with birthdates after August 1995, who were newly enrolled in February 2012 and disenrolled by August 2013
  - + the number of children with birthdates after September 1995, who were newly enrolled in March 2012 and disenrolled by September 2013

## D. COST SHARING

1. Describe how the State tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year?
  - a. Cost sharing is tracked by:
    - Enrollees (shoebox method)  
If the State uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**
    - Health Plan(s)
    - State
    - Third Party Administrator
    - N/A (No cost sharing required)
    - Other, please explain. **[7500]**  
Cost-sharing is set actuarially so that it does not exceed five percent of family income.
2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased? **[7500]**  Yes  No
3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**  
Not applicable; providers are not responsible for collecting cost-sharing.
4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the State's CHIP program during the Federal fiscal year. **[500]**  
Zero
5. Has your State undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?  
 Yes  
 No  
  
If so, what have you found? **[7500]**  
The State tracks non-payment of monthly premiums continuously and reports monthly on disenrollments for non-payment.
6. Has your State undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?  
 Yes  
 No  
  
If so, what have you found? **[7500]**
7. If your state has increased or decreased cost sharing in the past federal fiscal year, has the state undertaken any assessment of the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**  
  
Not applicable

## E. EMPLOYER SPONSORED INSURANCE PROGRAM (INCLUDING PREMIUM ASSISTANCE PROGRAM(S)) UNDER THE CHIP STATE PLAN OR A SECTION 1115 TITLE XXI DEMONSTRATION

1. Does your State offer an employer sponsored insurance program (including a premium assistance program) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.  
 No, skip to Program Integrity subsection.

### Children

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP State Plan (2105(c)(3))  
 Additional Premium Assistance Option under CHIP State Plan (2105(c)(10))  
 Section 1115 Demonstration (Title XXI)  
 Premium Assistance Option (applicable to Medicaid expansion) children (1906)  
 Premium Assistance Option (applicable to Medicaid expansion) children (1906A)

### Adults

- Yes, Check all that apply and complete each question for each authority.
- Purchase of Family Coverage under the CHIP State Plan (2105(c)(10))  
 Additional Premium Assistance Option under CHIP State Plan (2105(c)(3))  
 Section 1115 Demonstration (Title XXI)  
 Premium Assistance option under the Medicaid State Plan (1906)  
 Premium Assistance option under the Medicaid State Plan (1906A)
2. Please indicate which adults your State covers with premium assistance. (Check all that apply.)
- Parents and Caretaker Relatives  
 Childless Adults  
 Pregnant Women
3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**

RIte Share became mandatory for Medicaid-eligible individuals whose employers offered an approved health plan. Enrollment of both employees and employers in the RIte Share program has continued to grow.

Since February 2001, RI Medicaid has been transitioning RIte Care members into RIte Share. At the time RIte Share became mandatory, RI Medicaid estimated that there were 7,000 workers, employed by 4,500 companies, who were eligible to be transitioned to RIte Share. However, not all workers are eligible for commercial health insurance through their employers because of, for example, part-time employment or probationary periods.

In order to transition to a RIte Care member to RIte Share, employers must provide RI Medicaid with information about their health insurance plan and employee contributions. Changes in commercial health insurance products present additional challenges to RIte Share. For example, more and more employers are adopting health plans with front-end deductibles and greater differentials in coverage levels for in-network benefits. An employer can mitigate large rate increases through the magnitude of deductibles. For example, a \$200 deductible could reduce the premium rate by, say, 3 to 4

percent, whereas, a \$750 deductible could reduce the premium rate by, say, 9 or 10 percent. Thus, while plan design changes can mitigate the cost of commercial coverage to a certain extent, the cost of coverage may still prove to be too much for employers (and employees) particularly in a “down economy”.

Monthly premium shares are collected in two ways:

- For RIte Care members, RI Medicaid sends a bill to the member. Payments can be made by check, debit or credit card, or with cash at community cash payment sites.
- For RIte Share members, RI Medicaid deducts the monthly premium share from the amount it reimburses the member for the employee’s share of employer coverage.

Effective November 13, 2006, premium collection payments may be made using a credit card by telephone or through the Internet. This is an optional method of payment for which there is a small fee charged to a member’s credit card. Members continue to be able to mail in payments as well as make cash payments at community sites.

The monthly invoices were updated to incorporate this payment information as was the RIte Share Website.

RIte Share has accomplished its purpose and has saved the State a considerable amount – for every 1,000 enrolled in RIte Share, the State saves \$1 million in RIte Care. Several circumstances, however, make it challenging for RIte Share to realize its full potential for enrollment:

- Employers are not required to submit information about their health insurance benefits to the Rhode Island Medicaid, making it difficult to transition RIte Care members to RIte Share.
- Federal ERISA laws pre-empt any State law that would require employers to enroll RIte Share-eligible families in the employer-sponsored health insurance outside of open enrollment periods.
- Federal Medicaid rules mandate different levels of benefits for family members (children, adults, and pregnant women) making it complex for RIte Share to offer different levels of wrap-around coverage within a family.
- Increases in premiums are being passed on to employees, making it more difficult to meet cost-effectiveness tests for Federal financial participation (FFP).
- Employers are adopting health plans with increased member cost-sharing (e.g., high deductibles) and scaled-down benefits that make it harder to “wrap-around”.
- Health Savings Accounts (HSAs) and other flexible benefit programs make it more difficult to mandate that employees take up coverage.

Despite these challenges, RIte Share makes ESI coverage affordable for many families while saving the State money.

4. What benefit package does the ESI program use? **[7500]**

The State uses Medicaid coverage, with coverage of commercial deductibles, and wraparound for Medicaid-covered services as necessary.

5. Are there any minimum coverage requirements for the benefit package?

- Yes  
 No

6. Does the program provide wrap-around coverage for benefits?

- Yes  
 No

7. Are there any limits on cost sharing for children in your ESI program?

- Yes  
 No

8. Are there any limits on cost sharing for adults in your ESI program?

- Yes  
 No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

Yes  No If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum [7500]? Cost-sharing is set actuarially so that it does not exceed five percent of family income.

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

_____	Number of childless adults ever-enrolled during the reporting period
<u>22</u>	Number of adults ever-enrolled during the reporting period
<u>10497</u>	Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2011

Children \_\_\_\_\_  
Parents \_\_\_\_\_

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

Enrollment in Rlte Share has remained steady despite the State's poor economy. This can be attributed, in large part, to the streamlined processes in place to identify Rlte Care enrollees with other insurance and transition them off Rlte Care into Rlte Share whenever possible. By doing this, the State is saving the managed care capitation costs. At the same time, as noted in our response to Question 3 (shown above), the State continues to save money as more individuals are enrolled in Rlte Share.

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

Employers continue to seek participation in Rlte Share and enrollment in Rlte Share has remained steady in a very difficult economy. At the same time, as noted in our response to Question 3 (shown above), the State continues to save money as more individuals are enrolled in Rlte Share.

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

The State plans to eliminate paying co-pays in excess of the Medicaid fee schedule, effective 10/01/2011. However, providers are prohibited from balance-billing the beneficiaries.

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

See Substitution of Coverage (Crowd-Out) 3.

16. Identify the total state expenditures for providing coverage under your ESI program during the reporting period. **[7500]**

The total state expenditures for those covered under the CHIP State Plan for FFY 11 totals \$463,083.

17. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

Children	Parent
State:	State:
Employer:	Employer:
Employee:	Employee:

18. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

Children	Low	High
Parents	Low	High

19. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

Within Rlte Share, there is no specific minimum employer contribution.

20. Do you have a cost effectiveness test that you apply in determining whether an applicant can receive coverage (e.g., the state's share of a premium assistance payment must be less than or equal to the cost of covering the applicant under CHIP or Medicaid)?

- Yes  
 No

21. Please provide the income levels of the children or families provided premium assistance.

	From		To
Income level of Children:	0	% of FPL[5]	250 % of FPL[5]
Income level of Parents:	0	% of FPL[5]	175 % of FPL[5]

22. Is there a required period of uninsurance before enrolling in premium assistance? **[500]**

- Yes  
 No

If yes, what is the period of uninsurance? **[500]**

23. Do you have a waiting list for your program?

- Yes  
 No

24. Can you cap enrollment for your program?

- Yes  
 No

25. What strategies has the State found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]** Rhode Island has found that mandatory enrollment in premium assistance and streamlining employer enrollment requirements have been effective in reducing administrative barriers.

26.

27.

Enter any Narrative text below. **[7500]**

**F. PROGRAM INTEGRITY (COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS (I.E. THOSE THAT ARE NOT MEDICAID EXPANSIONS))**

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:

- (1) prevention:  Yes  No  
 (2) investigation:  Yes  No  
 (3) referral of cases of fraud and abuse?  Yes  No

Please explain: **[7500]**

In its Medicaid Managed Care Services Contract (09/01/2010), Rhode Island Medicaid has issued mandatory requirements for MCOs which pertain to Compliance; Fraud and Abuse Prevention, Detection, and Reporting; Provider Credentialing; and Inspections of Work Performed.

On a monthly basis, staff from Rhode Island Medicaid's Center for Child & Family Health conduct oversight and management meetings with the State's Medicaid-participating Health Plans. These monthly meetings are conducted separately with each MCO; these agendas focus upon both standing and emerging items. Each of the following content areas is addressed on a cyclic, quarterly basis: (a) Medicaid managed care operations (Jan./Apr./July/Oct.); (b) Medicaid managed care financial performance (Feb/May/Aug./Nov.); and (c) Medicaid program integrity and/or quality improvement (March/June/Sept./Dec.).

In addition to the monthly oversight and management meetings, all of the MCOs participate in regular meetings hosted by Rhode Island Medicaid's SURS Committee to discuss open fraud and abuse investigations. All of the MCOs also participate in regular meetings with representatives of Rhode Island Medicaid and the Rhode Island Department of the Attorney General's Medicaid Fraud Control Unit (MFCU).

Rhode Island instituted mandatory quarterly fraud and abuse investigation reporting in 2006 for all Medicaid-participating Health Plans. These reports are submitted by the Health Plans to Rhode Island Medicaid and to the Rhode Island Department of the Attorney General's Medicaid Fraud Control Unit (MFCU). Please note that because investigations can span multiple quarters, the following enumeration is not an unduplicated one. In addition, the count of open cases includes any investigations that were initiated by the Health Plans at the request of the Rhode Island DAG's MFCU. The following figures document the open investigations that were listed by the Health Plans on their quarterly reports for FFY 2011, covering the Fourth Quarter of CY 2010 through and including the Third Quarter of CY 2011:

Q-4 CY 2010 = 55

Q-1 CY 2011 = 58

Q-2 CY 2011 = 65

Q-3 CY 2011 = 40

Therefore, the response to Question Three (please see below) is a total of the open cases reported by the Health Plans during FFY 2011. These figures do not represent an unduplicated count, because investigations can easily span more than one reporting quarter. These counts are duplicative in nature, as some clinicians may have been included on the report of more than one Health Plan during the same quarter. Also, the "Provider Credentialing" count includes investigations that were initiated by the Health Plans following their receipt of notice from the State Department of Health about licensure disciplinary actions. In many of these cases, the clinicians in question had not been participating in the Health Plans' provider networks.

With regard to beneficiary eligibility, Health Plans are to notify the FRED Unit at the RI DHS if there is a suspicion of fraud or abuse on the part of a Medicaid managed care enrollee. The Health Plans do not conduct their own investigations when beneficiary fraud or abuse is suspected.

Rhode Island is currently unable to provide the information requested for Question Two. But it is anticipated that the State will have the ability to report this information in the CHIP report for FFY 2012.

Each MCO submits a quarterly report of its open and closed fraud and abuse investigations to the State's Medicaid Fraud Control Unit (MFCU) at the Rhode Island Department of the Attorney and to Rhode Island Medicaid at the State's Executive Office of Health and Human Services (EOHHS). These reports are discussed at the meetings that each MCO participates in with Medicaid's SURS Committee and with the MFCU, which were described above.

Medicaid participating Health Plans are obliged to report any suspected cases of provider or vendor fraud and/or abuse to Rhode Island's Medicaid Fraud Control Unit (MFCU) within five (5) business days following the close of an initial investigation. This requirement is in addition to the obligation for Health Plans to report on the status of their open and closed fraud and abuse investigations on a quarterly basis. A standardized MFCU referral template is used by Health Plans to make a referral to the MFCU in a secure, timely, and thorough manner when a Health Plan's initial investigation concludes that a case has reached the level of suspected case of fraud and abuse on the part of a provider or vendor.

Rhode Island Medicaid's program integrity efforts with its Medicaid-participating MCOs were cited as an "effective practice" in the CMS MIG's Rhode Island Comprehensive PI Review Final Report (December 2010), specific to "exceptional communication practices between the State agency and the MCOs and transparent program integrity practices within the State's MCOs regarding open fraud and abuse cases and investigations" (pgs. 2 and 3).

Do managed health care plans with which your program contracts have written plans?

Yes

No

Please Explain: **[500]**

Please refer to the top of this item, which describes the contract requirements pertaining to compliance and fraud and abuse prevention, detection, and reporting.

2. For the reporting period, please report the

\_\_\_\_\_ Number of fair hearing appeals of eligibility denials

\_\_\_\_\_ Number of cases found in favor of beneficiary

3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:

a. Provider Credentialing

52 \_\_\_\_\_ Number of cases investigated

\_\_\_\_\_ Number of cases referred to appropriate law enforcement officials

b. Provider Billing

166 \_\_\_\_\_ Number of cases investigated

\_\_\_\_\_  
\_\_\_\_\_

Number of cases referred to appropriate law enforcement officials

c. Beneficiary Eligibility

5

Number of cases investigated

\_\_\_\_\_

Number of cases referred to appropriate law enforcement officials

Are these cases for:

CHIP

Medicaid and CHIP Combined

4. Does your state rely on contractors to perform the above functions?

Yes, please answer question below.

No

5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain : **[7500]**  
Health Plans are obligated to report suspected cases of member/enrollee fraud or abuse to Rhode Island Medicaid’s Fraud Unit for investigation. Health Plans use the State’s form that is titled “Program Ineligibility, Misuse, and Fraud” when making referrals of suspected member/enrollee fraud. Copies of such referrals are also sent securely to Rhode Island Medicaid’s Legal Unit and to the EOHHS’ Center for Child and Family Health.

As noted in our response to Item 1, staff from Rhode Island Medicaid’s Center for Child and Family Health conduct regularly scheduled oversight and management meetings with the State’s Medicaid-participating Health Plans. These monthly meetings are convened separately with each MCO. On at least a quarterly basis, agenda focus upon Medicaid program integrity and/or quality improvement. For example, at the March 2011 series of meetings, each Health Plan presented an overview of its internal audit functions as well as its credentialing and recredentialing processes. (Rhode Island Medicaid requires its participating MCOs to maintain accreditation by the National Committee for Quality Assurance (NCQA). NCQA credentialing and recredentialing standards are used to guide these processes.) At the June 2011 series of meetings, each Health Plan presented an overview of its program integrity and compliance oversight of the Plan’s current major subcontractors (such as behavioral health subcontractors and pharmacy benefit managers).

On an annual basis, Health Plans are obliged to submit updated copies of their Corporate Compliance Plan and associated documentation, as well as completed Ownership and Controlling Interest forms, to Rhode Island Medicaid’s Center for Child and Family Health. The latter series of forms must be submitted for the Health Plan itself as well as its major subcontractors.

In addition to the Center for Child and Family Health’s monthly oversight and management meetings, all of the MCOs participate in regular meetings hosted by Rhode Island Medicaid’s SURS Committee to discuss open fraud and abuse investigations. The SURS Committee’s participants include representatives of Rhode Island Medicaid’s fee-for-service program as well as the State’s Fiscal Intermediary, Hewlett Packard. All of the MCOs also participate in regular meetings with representatives of Rhode Island Medicaid and the Rhode Island Department of the Attorney General’s Medicaid Fraud Control Unit (MFCU).

As noted in our response to Item 1, Rhode Island Medicaid’s program integrity efforts with its Medicaid-participating MCOs were cited as an “effective practice” in the CMS MIG’s Rhode Island Comprehensive PI Review Final Report (December 2010), specific to “exceptional communication

practices between the State agency and the MCOs and transparent program integrity practices within the State's MCOs regarding open fraud and abuse cases and investigations" (pages 2 and 3).

6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?

Yes

No

Please explain: **[500]**

As noted in our response to Item 1, Rhode Island Medicaid enhanced the mandatory requirements for MCOs in its Medicaid Managed Care Services Contract (09/01/2010), specific to Fraud and Abuse Prevention, Detection, and Reporting. Responses to Items 1 and 5 outline Rhode Island Medicaid's robust approach to oversight and monitoring of the Health Plans' fraud, waste, and abuse prevention, detection, and reporting functions.

## G. DENTAL BENEFITS – Reporting is required in 2010 CARTS

Is the State reporting this data in the 2011 CARTS?

Yes If yes, then please complete G1 and G2.

No If the State is not reporting data, please explain why.  
Explain: [7500]

### 1. Information on Dental Care for CHIP Children (Include all delivery types, i.e. MCO, PCCM, FFS).

Data for this table are based from the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

#### a. Annual Dental Participation Table for CHIP Enrolled Children (Include children receiving full CHIP benefits and supplemental benefits) .

Please check which populations of CHIP children are included in the following table:

Medicaid Expansion

Separate CHIP

Both Medicaid Expansion and Separate CHIP

State: RI FFY: RI	Age Group						
	Total	< 1	1-2*	3-5	6-9	10-14	15-18
<b>Total Enrollees Receiving Any Dental</b>	42183	25	1519	6992	11820	12412	8023

Services <sup>1</sup>							
Total Enrollees Receiving Preventive Dental Services <sup>2</sup>	39567	25	1384	6840	11424	11435	7191
Total Enrollees Receiving Dental Treatment Services <sup>3</sup>	18613	0	120	1811	4731	6452	4701

\*Includes 12-month visit

<sup>1</sup>**Total Eligibles Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in CHIP for at least 90 continuous days and receiving at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (CDT codes D0100 - D9999).

<sup>2</sup>**Total Eligibles Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in CHIP for at least 90 continuous days and receiving at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 -(CDT codes D1000 - D1999).

<sup>3</sup>**Total Eligibles Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in CHIP for at least 90 continuous days and receiving at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (CDT codes D2000 - 09999).

b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a protective sealant on at least one permanent molar tooth<sup>4</sup>? [7]

2783

<sup>4</sup>**Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in CHIP for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth regardless of whether the sealant was provided by a dentist or a non-dentist, as defined by HCPCS code D1351 (CDT code D1351).

2. Does the State provide supplemental dental coverage?  Yes  No

If yes, how many children are enrolled? [7]

What percent of the total amount of children have supplemental dental coverage? [5]

## SECTION IV: PROGRAM FINANCING FOR STATE PLAN

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-Federal funds). (Note: This reporting period =Federal Fiscal Year 2011. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

### COST OF APPROVED CHIP PLAN

	2011	2012	2013
<b>Benefit Costs</b>			
Insurance payments	454271	506959	565759
Managed Care	39308474	42667391	56974646
Fee for Service	0		
<b>Total Benefit Costs</b>	39762745	43174350	57540405
(Offsetting beneficiary cost sharing payments)	-110173	-1229515	-1372119
<b>Net Benefit Costs</b>	\$ 39652572	\$ 41944835	\$ 56168286

### Administration Costs

Personnel	119867	133770	149285
General Administration	97539	108852	121477
Contractors/Brokers (e.g., enrollment contractors)	512868	572353	638737
Claims Processing	18222	20335	22694
Outreach/Marketing costs	1001	1117	1247
Other (e.g., indirect costs)	463	517	577

Fee for Service		\$		\$		\$

Enter any Narrative text below. **[7500]**

## SECTION V: 1115 DEMONSTRATION WAIVERS (FINANCED BY CHIP)

Please reference and summarize attachments that are relevant to specific questions.

- If you do not have a Demonstration Waiver financed with CHIP funds skip to Section VI. If you do, please complete the following table showing whom you provide coverage to.

		CHIP Non-HIFA Demonstration Eligibility				HIFA Waiver Demonstration Eligibility				
* Upper % of FPL are defined as Up to and Including										
Children	From		% of FPL to		% of FPL *	From		% of FPL to		% of FPL *
Parents	From		% of FPL to		% of FPL *	From		% of FPL to		% of FPL *
Childless Adults	From		% of FPL to		% of FPL *	From		% of FPL to		% of FPL *
Pregnant Women	From		% of FPL to		% of FPL *	From		% of FPL to		% of FPL *

- Identify the total number of children and adults ever enrolled (an unduplicated enrollment count) in your CHIP demonstration during the reporting period.

\_\_\_\_\_ Number of **children** ever enrolled during the reporting period in the demonstration

\_\_\_\_\_ Number of **parents** ever enrolled during the reporting period in the demonstration

\_\_\_\_\_ Number of **pregnant women** ever enrolled during the reporting period in the demonstration

\_\_\_\_\_ Number of **childless adults** ever enrolled during the reporting period in the demonstration  
(\*Only report for 1<sup>st</sup> Quarter of the FFY)

- What have you found about the impact of covering adults on enrollment, retention, and access to care of children? You are required to evaluate the effectiveness of your demonstration project, so report here on any progress made in this evaluation, specifically as it relates to enrollment, retention, and access to care for children. **[1000]**

- Please provide budget information in the following table for the years in which the demonstration is approved. *Note: This reporting period (Federal Fiscal Year 2011 starts 10/1/2010 and ends 9/30/2011).*

COST PROJECTIONS OF DEMONSTRATION (SECTION 1115 or HIFA)	2011	2012	2012	2014	2015

When was your budget last updated (please include month, day and year)? [500]

Please provide a description of any assumptions that are included in your calculations. **[7500]**

Other notes relevant to the budget: **[7500]**

## **SECTION VI: PROGRAM CHALLENGES AND ACCOMPLISHMENTS**

---

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

Federal Fiscal Year 2011 continued to be a trying one for the State from a budgetary perspective. The economy worsened and public programs, overall, continued to be stressed as a result.

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

The most significant challenge was the ongoing budget crisis due to the economy.

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

The State's most significant accomplishment has been maintaining RItE Care and RItE Share in the face of severe economic constraints. Unlike a number of other States, eligibility was not capped or otherwise reduced and/or benefits sharply reduced.

During FFY 2011 all of Rhode Island's Medicaid-participating Health Plans achieved a high ranking by the NCQA and Consumers Report among all Medicaid plans in the Nation. This marked the sixth consecutive year in which all Medicaid-participating Health Plans have achieved national distinction.

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

As one of the State's with the most severe budget problems, the State faces potential cutbacks in both eligibility and benefits – the specifics of which will not become clear until the SFY 2013 budget cycle is completed, which would affect the last quarter of FFY 2012.

Enter any Narrative text below. **[7500]**
