

**TRANSMITTAL NO. 37 - FEDERAL UPPER LIMIT DRUG LIST  
NOVEMBER 20, 2001**

The following list of multiple source drugs meets the criteria set forth in 42 CFR 447.332 and Section 1927(e) of the Social Security Act, as amended by OBRA 1993. Payment for multiple source drugs identified and listed below must not exceed, in the aggregate, payment levels determined by applying to each drug entity a reasonable dispensing fee (established by the State and specified in the State plan), plus an amount based on the limit per unit which CMS has determined to be equal to 150 percent applied to the lowest price listed (in package sizes of 100 units, unless otherwise noted) in any of the published compendia of cost information of drugs. The listing is based on data current as of April 2001 from First Data Bank (Blue Book), Medi-Span, and the Red Book. This list does not reference the commonly known brand names. However, the brand names are included in the electronic FUL listing provided to the state agencies. The FUL price list and electronic listing are available at [http://www.cms.hhs.gov/Reimbursement/05\\_FederalUpperLimits.asp](http://www.cms.hhs.gov/Reimbursement/05_FederalUpperLimits.asp).

In accordance with current policy, Federal financial participation will not be provided for any drug on the FUL listing for which the FDA has issued a notice of an opportunity for a hearing as a result of the Drug Efficacy Study and Implementation (DESI) program, and which has been found to be a less than effective or is identical, related or similar (IRS) to the DESI drug. The DESI drug is identified by the Food and Drug Administration or reported by the drug manufacturer for purposes of the Medicaid drug rebate program.

**The November 20, 2001 FUL list should be implemented no later than January 22, 2002.**
