

CMS WEB-BASED TRAINING FOR FORM CMS-416 DENTAL DATA REPORTING – HYPERLINKS

This document is a compilation of the hyperlinks included in the web-based video training on Form CMS-416 Dental Data Reporting, produced as part of the Centers for Medicare & Medicaid Services' (CMS's) Oral Health Initiative (OHI) in June 2016. CMS launched the OHI in 2010 with specific national and state goals to improve the oral health of children enrolled in Medicaid and the Children's Health Insurance Program (CHIP). The data collected on the Form CMS-416 tracks levels of utilization for Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) services for children enrolled in Medicaid/CHIP, and enables states and CMS to track progress towards OHI goals. Hyperlinks are listed in the order in which they first appear in the modules.

Module 1: Overview of the Early and Periodic Screening, Diagnostic and Treatment (EPSDT) Benefit

The objectives of this module are to provide an understanding of history, goals, and basic requirements of the EPSDT benefit, and to provide a general overview of the Form CMS-416 and the OHI.

CMS Web-Based Training. This site, Learn How to Report the CMS 416 Dental Data, hosts all of the web-based trainings on Form CMS-416 Dental Data Reporting, produced as part of the OHI.
