

**Children and Adults Health Programs Group**

**Antipsychotic Drug Use in Children (ADC) Affinity Group**

**Expression of Interest Form**

The ADC Group will focus on strategies to improve the quality of care for children who are prescribed antipsychotic drugs. The group also will identify and encourage strategies aimed at reporting on the 2016 Child Core Set measure for Medicaid/CHIP: Use of Multiple Concurrent Antipsychotics in Children and Adolescents. State teams are expected to have the support of the Medicaid Medical Director or some other senior leadership in the agency.
