¹ Puerto Rico and the U.S. Virgin Islands were never part of MAX but are included in TAF.

² The month and year in which the state began to submit T-MSIS data instead of MSIS data.

³ The last year of MAX may be based fully on MSIS data or on a combination of MSIS and T-MSIS data. MAX was produced for all states and the District of Columbia in 2011, 2012, and 2013; for 33 states in 2014; and for 21 states in 2015. For the remaining states, their 2014 and 2015 data are captured in TAF and TAF RIF.

⁴ TAF RIF was not built for periods before 1/2014.

⁵ Only traditional Medicaid data are available for Montana. Separate CHIP and Medicaid expansion program data, from Montana's third-party administration system, are not available.

⁶ Only Medicaid data are available for Wyoming. Separate CHIP data are not available.
