DEPARTMENT OF HEALTH & HUMAN SERVICES
Centers for Medicare & Medicaid Services
7500 Security Boulevard, Mail Stop S2-26-12
Baltimore, Maryland 21244-1850

October 6, 2026

Christy Donohue, Commissioner
Department of Health and Human Resources
350 Capitol Street, Room 251
Charleston, WV 25301-3706

Dear Ms. Christy Donohue:

In accordance with 42 CFR 438.6(c), the Centers for Medicare & Medicaid Services (CMS) has reviewed and is approving West Virginia's submission of a proposal for a state directed payment (SDP) under Medicaid managed care plan contract(s). The proposal was received by CMS on June 10, 2026, and a final revised preprint was received on September 16, 2026. The proposal has a control name of WV_Fee_Oth1_Renewal_20260701-20270630.

CMS has completed our review of the following Medicaid managed care SDP(s):

- The Uniform Increase for eligible Acute Care Hospitals established by the state for Specialty Physician Services for the rating period covering July 1, 2026 through June 30, 2027, incorporated in the capitation rates through a separate payment term amount up to $47,949,316.

This letter satisfies the regulatory requirement in 42 CFR 438.6(c)(2) for SDPs described in 42 CFR 438.6(c)(1). This letter pertains only to the actions identified above and does not apply to other actions currently under CMS's review. This letter does not constitute approval of any specific Medicaid financing mechanism used to support the non-federal share of expenditures associated with these actions. All relevant federal laws and regulations apply. CMS reserves its authority to enforce requirements in the Social Security Act and the applicable implementing regulations.

The state is required to submit contract action(s) and related capitation rates that include all SDPs, including those that do not require written prior approval as specified in 42 CFR 438.6(c)(2)(i). Additionally, all SDPs must be addressed in the applicable rate certifications. CMS recommends that states share this letter and the preprint(s) with the certifying actuary. Documentation of all SDPs must be included in the initial rate certification as outlined in Section I, Item 4, Subsection D, of the Medicaid Managed Care Rate Development Guide. The state and its actuary must ensure all documentation outlined in the Medicaid Managed Care Rate Development Guide is included in the initial rate certification. Failure to provide all required documentation in the rate certification will cause delays in CMS review.

Approval of this SDP proposal for the applicable rating period does not preclude CMS from requesting additional materials from the state, revision to the SDP proposal design, or any other modifications to the proposal for this rating period or future rating periods, if CMS determines that such modifications are required for the state to meet relevant federal requirements.

CMS approval of this SDP preprint is conditioned on the state's continued compliance with Medicaid program integrity requirements, including 42 CFR 438 and 42 CFR 455. The state

must ensure that the state and its managed care plans appropriately support program integrity activities, including the prevention, detection, investigation, referral, and resolution of fraud, waste, and abuse through appropriate staffing, oversight, controls, data, analytics, reporting, audits, and other actions. The state is responsible for monitoring all aspects of the managed care program, including the performance of every managed care plan related to program integrity as required in 42 CFR 438.66(b)(9). Any material changes to managed care plans' program integrity responsibilities must be clearly effectuated through the state's managed care contracts submitted to CMS for review and approval in accordance with 42 CFR 438.3(a).

If you have any questions concerning this letter, please contact StateDirectedPayment@cms.hhs.gov.

Sincerely,

MEAGAN T. KHAU -S

Date: 2026.10.06 14:03:47 -04'00'

Meagan Khau
Deputy Director, Managed Care Group
Center for Medicaid and CHIP Services

Section 438.6(c) Preprint

42 C.F.R. § 438.6(c) provides States with the flexibility to implement delivery system and provider payment initiatives under MCO, PIHP, or PAHP Medicaid managed care contracts (i.e., state directed payments). 42 C.F.R. § 438.6(c)(1) describes types of payment arrangements that States may use to direct expenditures under the managed care contract. Under 42 C.F.R. § 438.6(c)(2)(ii), contract arrangements that direct an MCO's, PIHP's, or PAHP's expenditures under paragraphs (c)(1)(i) through (c)(1)(ii) and (c)(1)(iii)(B) through (D) must have written approval from CMS prior to implementation and before approval of the corresponding managed care contract(s) and rate certification(s). This preprint implements the prior approval process and must be completed, submitted, and approved by CMS before implementing any of the specific payment arrangements described in 42 C.F.R. § 438.6(c)(1)(i) through (c)(1)(ii) and (c)(1)(iii)(B) through (D). Please note, per the 2020 Medicaid and CHIP final rule at 42 C.F.R. § 438.6(c)(1)(iii)(A), States no longer need to submit a preprint for prior approval to adopt minimum fee schedules using State plan approved rates as defined in 42 C.F.R. § 438.6(a).

Submit all state directed payment preprints for prior approval to: StateDirectedPayment@cms.hhs.gov.

SECTION I: DATE AND TIMING INFORMATION

1. Identify the State's managed care contract rating period(s) for which this payment arrangement will apply (for example, July 1, 2020 through June 30, 2021):
   July 1, 2026 - June 30, 2027
2. Identify the State's requested start date for this payment arrangement (for example, January 1, 2021). *Note, this should be the start of the contract rating period unless this payment arrangement will begin during the rating period.* July 1, 2026
3. Identify the managed care program(s) to which this payment arrangement will apply:
   Mountain Health Trust, including MCO contracts with UniCare Health Plan of West Virginia, Aetna Better Health of West Virginia, Highmark Health Options West Virginia, and The Health Plan
4. Identify the estimated **total dollar amount** (federal and non-federal dollars) of this state directed payment: $47,949,316
   a. Identify the estimated federal share of this state directed payment: $39,118,251
   b. Identify the estimated non-federal share of this state directed payment: $8,831,065

   Please note, the estimated total dollar amount and the estimated federal share should be described for the rating period in Question 1. If the State is seeking a multi-year approval (which is only an option for VBP/DSR payment arrangements (42 C.F.R. § 438.6(c)(1)(i)-(ii))), States should provide the estimates per rating period. For amendments, states should include the change from the total and federal share estimated in the previously approved preprint.

5. Is this the initial submission the State is seeking approval under 42 C.F.R. § 438.6(c) for this state directed payment arrangement? ☐ Yes ☒ No

6. If this is not the initial submission for this state directed payment, please indicate if:

a. ☐ The State is seeking approval of an amendment to an already approved state directed payment.

b. ☒ The State is seeking approval for a renewal of a state directed payment for a new rating period.

i. If the State is seeking approval of a renewal, please indicate the rating periods for which previous approvals have been granted:

SFY 2022 - SFY 2026; SFY 2027 submitted for approval

c. Please identify the types of changes in this state directed payment that differ from what was previously approved.

☐ Payment Type Change
☐ Provider Type Change
☐ Quality Metric(s) / Benchmark(s) Change
☐ Other; please describe:

☒ No changes from previously approved preprint other than rating period(s).

7. ☒ Please use the checkbox to provide an assurance that, in accordance with 42 C.F.R. § 438.6(c)(2)(ii)(F), the payment arrangement is not renewed automatically.

SECTION II: TYPE OF STATE DIRECTED PAYMENT

8. In accordance with 42 C.F.R. § 438.6(c)(2)(ii)(A), describe in detail how the payment arrangement is based on the utilization and delivery of services for enrollees covered under the contract. The State should specifically discuss what must occur in order for the provider to receive the payment (e.g., utilization of services by managed care enrollees, meet or exceed a performance benchmark on provider quality metrics).

Managed care plans will make separate, directed payments to in-state licensed hospital providers serving Medicaid managed care enrollees. Hospital eligibility will be determined annually for each state fiscal year as of July 1. Hospitals will receive quarterly access payments based on utilization of hospital physician services by managed care enrollees for the rating period (July 1, 2026 through June 30, 2027). Hospitals will be monitored in accordance with the quality metric(s) listed in Table 8.

a. ☒ Please use the checkbox to provide an assurance that CMS has approved the federal authority for the Medicaid services linked to the services associated with the SDP (i.e., Medicaid State plan, 1115(a) demonstration, 1915(c) waiver, etc.).

b. Please also provide a link to, or submit a copy of, the authority document(s) with initial submissions and at any time the authority document(s) has been renewed/revised/updated.

https://bms.wv.gov/cms/waiver-approvals

9. Please select the general type of state directed payment arrangement the State is seeking prior approval to implement. (Check all that apply and address the underlying questions for each category selected.)

a. ☐ **VALUE-BASED PAYMENTS / DELIVERY SYSTEM REFORM:** In accordance with 42 C.F.R. § 438.6(c)(1)(i) and (ii), the State is requiring the MCO, PIHP, or PAHP to implement value-based purchasing models for provider reimbursement, such as alternative payment models (APMs), pay for performance arrangements, bundled payments, or other service payment models intended to recognize value or outcomes over volume of services; or the State is requiring the MCO, PIHP, or PAHP to participate in a multi-payer or Medicaid-specific delivery system reform or performance improvement initiative.

If checked, please answer all questions in Subsection IIA.

b. ☒ **FEE SCHEDULE REQUIREMENTS:** In accordance with 42 C.F.R. § 438.6(c)(1)(iii)(B) through (D), the State is requiring the MCO, PIHP, or PAHP to adopt a minimum or maximum fee schedule for network providers that provide a particular service under the contract; or the State is requiring the MCO, PIHP, or PAHP to provide a uniform dollar or percentage increase for network providers that provide a particular service under the contract. **[Please note, per the 2020 Medicaid and CHIP final rule at 42 C.F.R. § 438.6(c)(1)(iii)(A), States no longer need to submit a preprint for prior approval to adopt minimum fee schedules using State plan approved rates as defined in 42 C.F.R. § 438.6(a).]**

If checked, please answer all questions in Subsection IIB.

SUBSECTION IIA: VALUE-BASED PAYMENTS (VBP) / DELIVERY SYSTEM REFORM (DSR):

This section must be completed for all state directed payments that are VBP or DSR. This section does not need to be completed for state directed payments that are fee schedule requirements.

10. Please check the type of VBP/DSR State directed payment the State is seeking prior approval for. *Check all that apply; if none are checked, proceed to Section III.*

- ☐ Quality Payment/Pay for Performance (Category 2 APM, or similar)
- ☐ Bundled Payment/Episode-Based Payment (Category 3 APM, or similar)
- ☐ Population-Based Payment/Accountable Care Organization (Category 4 APM, or similar)
- ☐ Multi-Payer Delivery System Reform
- ☐ Medicaid-Specific Delivery System Reform
- ☐ Performance Improvement Initiative
- ☐ Other Value-Based Purchasing Model

11. Provide a brief summary or description of the required payment arrangement selected above and describe how the payment arrangement intends to recognize value or outcomes over volume of services. If "other" was checked above, identify the payment model. The State should specifically discuss what must occur in order for the provider to receive the payment (e.g., meet or exceed a performance benchmark on provider quality metrics).

12. In Table 1 below, identify the measure(s), baseline statistics, and targets that the State will tie to provider performance under this payment arrangement (provider performance measures). Please complete all boxes in the row. To the extent practicable, CMS encourages states to utilize existing, validated, and outcomes-based performance measures to evaluate the payment arrangement, and recommends States use the CMS Adult and Child Core Set Measures when applicable. If the state needs more space, please use Addendum Table 1.A and check this box: ☐

TABLE 1: Payment Arrangement Provider Performance Measures

Measure Name and NQF # (if applicable)	**Measure Steward/ Developer**[1]	**Baseline**[2] **Year**	**Baseline**[2] **Statistic**	**Performance Measurement Period**[3]	**Performance Target**	**Notes**[4]
Example: Percent of High-Risk Residents with Pressure Ulcers – Long Stay	*CMS*	*CY 2018*	*9.23%*	*Year 2*	*8%*	*Example notes*
a.						
b.						
c.						
d.						
e.						

1. Baseline data must be added after the first year of the payment arrangement
2. If state-developed, list State name for Steward/Developer.
3. If this is planned to be a multi-year payment arrangement, indicate which year(s) of the payment arrangement that performance on the measure will trigger payment.
4. If the State is using an established measure and will deviate from the measure steward's measure specifications, please describe here. Additionally, if a state-specific measure will be used, please define the numerator and denominator here.

13. For the measures listed in Table 1 above, please provide the following information:

a. Please describe the methodology used to set the performance targets for each measure.

b. If multiple provider performance measures are involved in the payment arrangement, discuss if the provider must meet the performance target on each measure to receive payment or can providers receive a portion of the payment if they meet the performance target on some but not all measures?

c. For state-developed measures, please briefly describe how the measure was developed?

14. Is the State seeking a multi-year approval of the state directed payment arrangement?
☐ Yes ☐ No

a. If this payment arrangement is designed to be a multi-year effort, denote the State's managed care contract rating period(s) the State is seeking approval for.

b. If this payment arrangement is designed to be a multi-year effort and the State is **NOT** requesting a multi-year approval, describe how this application's payment arrangement fits into the larger multi-year effort and identify which year of the effort is addressed in this application.

15. Use the checkboxes below to make the following assurances:

a. ☐ In accordance with 42 C.F.R. § 438.6(c)(2)(iii)(A), the state directed payment arrangement makes participation in the value-based purchasing initiative, delivery system reform, or performance improvement initiative available, using the same terms of performance, to the class or classes of providers (identified below) providing services under the contract related to the reform or improvement initiative.

b. ☐ In accordance with 42 C.F.R. § 438.6(c)(2)(iii)(B), the payment arrangement makes use of a common set of performance measures across all of the payers and providers.

c. ☐ In accordance with 42 C.F.R. § 438.6(c)(2)(iii)(C), the payment arrangement does not set the amount or frequency of the expenditures.

d. ☐ In accordance with 42 C.F.R. § 438.6(c)(2)(iii)(D), the payment arrangement does not allow the State to recoup any unspent funds allocated for these arrangements from the MCO, PIHP, or PAHP.

SUBSECTION IIB: STATE DIRECTED FEE SCHEDULES:
This section must be completed for all state directed payments that are fee schedule requirements. This section does not need to be completed for state directed payments that are VBP or DSR.

16. Please check the type of state directed payment for which the State is seeking prior approval. *Check all that apply; if none are checked, proceed to Section III.*

a. ☐ Minimum Fee Schedule for providers that provide a particular service under the contract *using rates other than State plan approved rates* [1] (42 C.F.R. § 438.6(c)(1)(iii)(B))

b. ☐ Maximum Fee Schedule (42 C.F.R. § 438.6(c)(1)(iii)(D))

c. ☒ Uniform Dollar or Percentage Increase (42 C.F.R. § 438.6(c)(1)(iii)(C))

[1] Please note, per the 2020 Medicaid and CHIP final rule at 42 C.F.R. § 438.6(c)(1)(iii)(A), States no longer need to submit a preprint for prior approval to adopt minimum fee schedules that use State plan approved rates as defined in 42 C.F.R. § 438.6(a).

17. If the State is seeking prior approval of a fee schedule (options a or b in Question 16):

a. Check the basis for the fee schedule selected above.

i. ☐ The State is proposing to use a fee schedule based on the **State-plan approved rates** as defined in 42 C.F.R. § 438.6(a). [2]

ii. ☐ The State is proposing to use a fee schedule based on the **Medicare or Medicare-equivalent rate**.

iii. ☐ The State is proposing to use a fee schedule based on an **alternative fee schedule established by the State**.

1. If the State is proposing an alternative fee schedule, please describe the alternative fee schedule (e.g., 80% of Medicaid State-plan approved rate)

b. Explain how the state determined this fee schedule requirement to be reasonable and appropriate.

18. If using a maximum fee schedule (option b in Question 16), please answer the following additional questions:

a. ☐ Use the checkbox to provide the following assurance: In accordance with 42 C.F.R. § 438.6(c)(1)(iii)(C), the State has determined that the MCO, PIHP, or PAHP has retained the ability to reasonably manage risk and has discretion in accomplishing the goals of the contract.

b. Describe the process for plans and providers to request an exemption if they are under contract obligations that result in the need to pay more than the maximum fee schedule.

c. Indicate the number of exemptions to the requirement:

i. Expected in this contract rating period (estimate)

ii. Granted in past years of this payment arrangement

d. Describe how such exemptions will be considered in rate development.

[2] Please note, per the 2020 Medicaid and CHIP final rule at 42 C.F.R. § 438.6(c)(1)(iii)(A), States no longer need to submit a preprint for prior approval to adopt minimum fee schedules that use State plan approved rates as defined in 42 C.F.R. § 438.6(a).

19. If the State is seeking prior approval for a uniform dollar or percentage increase (option c in Question 16), please address the following questions:

a. Will the state require plans to pay a ☐ uniform dollar amount **or** a ☒ uniform percentage increase? (*Please select only one.*)

b. What is the magnitude of the increase (e.g., $4 per claim or 3% increase per claim?)

West Virginia is proposing a uniform percentage increase of 112% above base payments. Each quarterly payment pool will be distributed uniformly to hospitals based on activity during the quarter with payment allocations relative to volume and t

c. Describe how will the uniform increase be paid out by plans (e.g., upon processing the initial claim, a retroactive adjustment done one month after the end of quarter for those claims incurred during that quarter).

West Virginia is renewing a directed payment program that provides qualifying physicians working for eligible acute care hospitals with additional access fee dollars for Medicaid members' utilization. Payments for physicians will be contingent upon quarterly member utilization within the rating period, based upon the category of aid (TANF, Pregnant Women, Expansion, SSI), and determined with three months of paid claims run-out. The hospital/physician employment DPP will be allocated by a single pool distributed evenly among all physicians based upon utilization. Even quarterly distributions will be determined by dividing the budget pool by actual utilization for that quarter (uniform dollar amount = available budget/relevant relative value units (RVU) for that quarter). RVUs will be based on WV Medicaid's fee schedule. Payments will be distributed by the MCOs quarterly with the initial payments to be issued in the quarter ended March 31, 2027. Once funds are issued to MCOs, payments are made to providers within ten business days. Prior to each installment, DOM will collect the necessary non-federal share of funds through the inpatient and outpatient hospital provider taxes. Next matching federal funds will be drawn and funds will be distributed to each MCO based on service utilization. The MCOs will be directed to make the payments to each provider based on the quarterly distribution calculations.

d. Describe how the increase was developed, including why the increase is reasonable and appropriate for network providers that provide a particular service under the contract

The goals of this program are long-term, with the objective of creating and maintaining a larger specialized workforce that gives additional access options for quality care to WV Medicaid managed care members, without the difficulty of having to travel out-of-state for care. WV hospitals have exceptional difficulty attracting and employing qualified practitioners. By being able to recruit and retain providers within the state, local access to hospital physicians by members should increase, and with improved healthcare communication by providers within the state, the quality of their care can be better monitored and improved through collaboration with in-state facilities. Surveyed hospital providers reported up to five commercial payment rates within July through December, 2025. These were used to calculate an average commercial rate (ACR) per unit. Each per unit ACR was multiplied by the reported Medicaid units for the survey period. Commercial equivalent payments were then compared to Medicaid payments reported on the survey to determine a ratio of commercial equivalent payments to Medicaid. The ratio is multiplied by SFY 2025 Medicaid managed care base payments to calculate equivalent commercial payments for the base period. Applying the ratio to base payments allows for the variation in services performed and varying rates across each service. The Medicaid base rate per visit is projected to the payment period by applying the unit cost trend developed for the SFY 2027 rate certification. For the rate demonstration, projected Medicaid base payments, state directed payments, and commercial equivalent payments are divided by base period visits. The resulting rates are compared to demonstrate Medicaid payment rates do not exceed the ACR for managed care services. MCOs are required to report the date and amount of payments made to providers. The state will use these reports to ensure all payments are made as directed. Any discrepancies will be addressed with the MCO and corrected. This uniform increase approach was developed to ensure critically needed funding is directed to West Virginia hospitals for physician services. See Preprint Table 2 reflecting the reasonableness of payment amounts.

SECTION III: PROVIDER CLASS AND ASSESSMENT OF REASONABLENESS

20. In accordance with 42 C.F.R. § 438.6(c)(2)(ii)(B), identify the class or classes of providers that will participate in this payment arrangement by answering the following questions:

a. Please indicate which general class of providers would be affected by the state directed payment (check all that apply):

- ☐ inpatient hospital service
- ☐ outpatient hospital service
- ☐ professional services at an academic medical center
- ☐ primary care services
- ☒ specialty physician services
- ☐ nursing facility services
- ☐ HCBS/personal care services
- ☐ behavioral health inpatient services
- ☐ behavioral health outpatient services
- ☐ dental services
- ☒ Other: See 20(b)

b. Please define the provider class(es) (if further narrowed from the general classes indicated above).

Physicians and specialty physicians, employed by eligible acute care hospitals, or contracted and billed by eligible acute care hospitals.

c. Provide a justification for the provider class defined in Question 20b (e.g., the provider class is defined in the State Plan.) If the provider class is defined in the State Plan, please provide a link to or attach the applicable State Plan pages to the preprint submission. Provider classes cannot be defined to only include providers that provide intergovernmental transfers.

Directed payments to the providers listed in Question 20b of this preprint advance the goals and objectives in the State Medicaid Managed Care Quality Strategy by providing additional funding to promote a health care delivery system that consistently offers effective communication and team-based approaches to better coordinate care across the full continuum of health care.

21. In accordance with 42 C.F.R. § 438.6(c)(2)(ii)(B), describe how the payment arrangement directs expenditures equally, using the same terms of performance, for the class or classes of providers (identified above) providing the service under the contract.

Quarterly payments are based on utilization by members of the services of qualified physicians employed by eligible acute care hospitals, or contracted and billed by eligible acute care hospitals. Units are defined based on RVUs which are consistently defined across all providers in the program.

22. For the services where payment is affected by the state directed payment, how will the state directed payment interact with the negotiated rate(s) between the plan and the provider? Will the state directed payment:

a. ☐ Replace the negotiated rate(s) between the plan(s) and provider(s).

b. ☐ Limit but not replace the negotiated rate(s) between the plans(s) and provider(s).

c. ☒ Require a payment be made in addition to the negotiated rate(s) between the plan(s) and provider(s).

23. For payment arrangements that are intended to require plans to make a payment in addition to the negotiated rates (as noted in option c in Question 22), please provide an analysis in Table 2 showing the impact of the state directed payment on payment levels for each provider class. This provider payment analysis should be completed distinctly for each service type (e.g., inpatient hospital services, outpatient hospital services, etc.).

This should include an estimate of the base reimbursement rate the managed care plans pay to these providers as a percent of Medicare, or some other standardized measure, and the effect the increase from the state directed payment will have on total payment. *Ex: The average base payment level from plans to providers is 80% of Medicare and this SDP is expected to increase the total payment level from 80% to 100% of Medicare.*

If the state needs more space, please use Addendum 2.A and check this box: ☐

TABLE 2: Provider Payment Analysis

Provider Class(es)	Average Base Payment Level from Plans to Providers (absent the SDP)	Effect on Total Payment Level of State Directed Payment (SDP)	Effect on Total Payment Level of Other SDPs	Effect on Total Payment Level of Pass-Through Payments (PTPs)	Total Payment Level (after accounting for all SDPs and PTPs
Ex: Rural Inpatient Hospital Services	*80%*	*20%*	*N/A*	*N/A*	*100%*
a. Physician Services	34.1%	37.8%			71.9%
b.					
c.					
d.					
e.					
f.					
g.					

24. Please indicate if the data provided in Table 2 above is in terms of a percentage of:

- **a.** ☐ Medicare payment/cost
- **b.** ☐ State-plan approved rates as defined in 42 C.F.R. § 438.6(a) *(Please note, this rate cannot include supplemental payments.)*
- **c.** ☒ Other; Please define: Average commercial rates.

25. Does the State also require plans to pay any other state directed payments for providers eligible for the provider class described in Question 20b? ☐ Yes ☒ No

If yes, please provide information requested under the column "Other State Directed Payments" in Table 2.

26. Does the State also require plans to pay pass-through payments as defined in 42 C.F.R. § 438.6(a) to any of the providers eligible for any of the provider class(es) described in Question 20b? ☐ Yes ☒ No

If yes, please provide information requested under the column "Pass-Through Payments" in Table 2.

27. Please describe the data sources and methodology used for the analysis provided in response to Question 23.

The data sources utilized to determine the analysis in Question 23 include the aggregation of each eligible provider's ACR% and Average Commercial Reimbursement. To calculate the Average Commercial Rate, a sample of providers representing different populations, geographies, and hospital types in West Virginia submitted data from their top five commercial payers. ACRs were calculated and applied to Medicaid claims data to determine the Statewide Average Commercial Rate (ACR) per unit. The SFY 2027 Medicaid managed care rate per unit was estimated by adjusting the SFY 2025 Medicaid managed care payment per unit by the unit cost trend by physician service type developed by actuary for SFY 2027 rate certification. The estimated SFY 2027 Medicaid managed care rate per unit and SFY 2027 State Directed Payment per unit were compared to the Statewide ACR per unit.

28. Please describe the State's process for determining how the proposed state directed payment was appropriate and reasonable.

In aggregate, payment levels after directed payments do not exceed 100% of average commercial rates. The goals of this program are long-term, with the objective of creating and maintaining a larger specialized workforce that gives additional access options for quality care to WV Medicaid managed care members, without the difficulty of having to travel out-of-state for care. WV hospitals have exceptional difficulty attracting and employing qualified practitioners. By being able to recruit and retain providers within the state, local access to hospital physicians by members should increase, and with improved healthcare communication by providers within the state, the quality of their care can be better monitored and improved upon, through collaboration with in-state facilities.

SECTION IV: INCORPORATION INTO MANAGED CARE CONTRACTS

29. States must adequately describe the contractual obligation for the state directed payment in the state's contract with the managed care plan(s) in accordance with 42 C.F.R. § 438.6(c). Has the state already submitted all contract action(s) to implement this state directed payment? ☒ Yes ☐ No

a. If yes:

i. What is/are the state-assigned identifier(s) of the contract actions provided to CMS?

MCR-WV-0009-MHTWVHBEXPANSION-WVCHIP

ii. Please indicate where (page or section) the state directed payment is captured in the contract action(s).

Section 7.5.6

b. If no, please estimate when the state will be submitting the contract actions for review.

SECTION V: INCORPORATION INTO THE ACTUARIAL RATE CERTIFICATION

Note: Provide responses to the questions below for the first rating period if seeking approval for multi-year approval.

30. Has/Have the actuarial rate certification(s) for the rating period for which this state directed payment applies been submitted to CMS? ☒ Yes ☐ No

a. If no, please estimate when the state will be submitting the actuarial rate certification(s) for review.

b. If yes, provide the following information in the table below for each of the actuarial rate certification review(s) that will include this state directed payment.

Table 3: Actuarial Rate Certification(s)

Control Name Provided by CMS (List each actuarial rate certification separately)	Date Submitted to CMS	Does the certification incorporate the SDP?	If so, indicate where the state directed payment is captured in the certification (page or section)
i. MCR-WV-MHP-20260701-20270630-CERTIFICATION-20260422	06/18/2026	Yes	Section I.4.D (pg 36-41) and appendix H
ii.			
iii.			
iv.			
v.			

Please note, states and actuaries should consult the most recent Medicaid Managed Care Rate Development Guide for how to document state directed payments in actuarial rate certification(s). The actuary's certification must contain all of the information outlined; if all required documentation is not included, review of the certification will likely be delayed.)

c. If not currently captured in the State's actuarial certification submitted to CMS, note that the regulations at 42 C.F.R. § 438.7(b)(6) requires that all state directed payments are documented in the State's actuarial rate certification(s). CMS will not be able to approve the related contract action(s) until the rate certification(s) has/have been amended to account for all state directed payments. Please provide an estimate of when the State plans to submit an amendment to capture this information.

31. Describe how the State will/has incorporated this state directed payment arrangement in the applicable actuarial rate certification(s) (please select one of the options below):

- **a.** ☐ An adjustment applied in the development of the monthly base capitation rates paid to plans.
- **b.** ☒ Separate payment term(s) which are captured in the applicable rate certification(s) but paid separately to the plans from the monthly base capitation rates paid to plans.
- **c.** ☐ Other, please describe:

32. States should incorporate state directed payment arrangements into actuarial rate certification(s) as an adjustment applied in the development of the monthly base capitation rates paid to plans as this approach is consistent with the rate development requirements described in 42 C.F.R. § 438.5 and consistent with the nature of risk-based managed care. For state directed payments that are incorporated in another manner, particularly through separate payment terms, provide additional justification as to why this is necessary and what precludes the state from incorporating as an adjustment applied in the development of the monthly base capitation rates paid to managed care plans.

Quarterly payment by separate term allows for state and MCO administrative ease in reviewing and tracking payments. It also ensures that the application of the uniform dollar increases are applied correctly and distributed uniformly among participating providers even in times of changing utilization patterns.

33. ☒ In accordance with 42 C.F.R. § 438.6(c)(2)(i), the State assures that all expenditures for this payment arrangement under this section are developed in accordance with 42 C.F.R. § 438.4, the standards specified in 42 C.F.R. § 438.5, and generally accepted actuarial principles and practices.

SECTION VI: FUNDING FOR THE NON-FEDERAL SHARE

34. Describe the source of the non-federal share of the payment arrangement. Check all that apply:

- **a.** ☐ State general revenue
- **b.** ☐ Intergovernmental transfers (IGTs) from a State or local government entity
- **c.** ☒ Health Care-Related Provider tax(es) / assessment(s)
- **d.** ☐ Provider donation(s)
- **e.** ☐ Other, specify:

35. For any payment funded by **IGTs (option b in Question 34)**,

- **a.** Provide the following (respond to each column for all entities transferring funds). If the state needs more space, please use Addendum Table 4.A and check this box: ☐

Table 4: IGT Transferring Entities

Name of Entities transferring funds (enter each on a separate line)	Operational nature of the Transferring Entity (State, County, City, Other)	Total Amounts Transferred by This Entity	Does the Transferring Entity have General Taxing Authority? (Yes or No)	Did the Transferring Entity receive appropriations? If not, put N/A. If yes, identify the level of appropriations	Is the Transferring Entity eligible for payment under this state directed payment? (Yes or No)
i.					
ii.					
iii.					
iv.					
v.					
vi.					
vii.					
viii.					
ix.					
x.					

b. ☐ Use the checkbox to provide an assurance that no state directed payments made under this payment arrangement funded by IGTs are dependent on any agreement or arrangement for providers or related entities to donate money or services to a governmental entity.

c. Provide information or documentation regarding any written agreements that exist between the State and healthcare providers or amongst healthcare providers and/or related entities relating to the non-federal share of the payment arrangement. This should include any written agreements that may exist with healthcare providers to support and finance the non-federal share of the payment arrangement. Submit a copy of any written agreements described above.

36. For any state directed payments funded by **provider taxes/assessments (option c in Question 34)**,

a. Provide the following (respond to each column for all entries). If there are more entries than space in the table, please provide an attachment with the information requested in the table.

Table 5: Health Care-Related Provider Tax/Assessment(s)

Name of the Health Care-Related Provider Tax / Assessment (enter each on a separate line)	Identify the permissible class for this tax / assessment	Is the tax / assessment broad-based?	Is the tax / assessment uniform?	Is the tax / assessment under the 6% indirect hold harmless limit?	If not under the 6% indirect hold harmless limit, does it pass the "75/75" test?	Does it contain a hold harmless arrangement that guarantees to return all or any portion of the tax payment to the tax payer?
i. SB 546 Health Care Provider Tax	Inpatient hospital services and outpatient hospital services	No	Yes	Yes		No
ii.						
iii.						
iv.						
v.						

b. If the state has any waiver(s) of the broad-based and/or uniform requirements for any of the health care-related provider taxes/assessments, list the waiver(s) and its current status:

Table 6: Health Care-Related Provider Tax/Assessment Waivers

Name of the Health Care-Related Provider Tax/Assessment Waiver (enter each on a separate line)	Submission Date	Current Status (Under Review, Approved)	Approval Date
i. Tax on acute care hospitals	09/01/2011	Approved (for broad-based waiver)	06/01/2012
ii.			
iii.			
iv.			
v.			

37. For any state directed payments funded by **provider donations (option d in Question 34)**, please answer the following questions:

a. Is the donation bona-fide? ☐ Yes ☐ No

b. Does it contain a hold harmless arrangement to return all or any part of the donation to the donating entity, a related entity, or other provider furnishing the same health care items or services as the donating entity within the class?
☐ Yes ☐ No

38. ☒ **For all state directed payment arrangements**, use the checkbox to provide an assurance that in accordance with 42 C.F.R. § 438.6(c)(2)(ii)(E), the payment arrangement does not condition network provider participation on the network provider entering into or adhering to intergovernmental transfer agreements.

SECTION VII: QUALITY CRITERIA AND FRAMEWORK FOR ALL PAYMENT ARRANGEMENTS

39. ☒ Use the checkbox below to make the following assurance, "In accordance with 42 C.F.R. § 438.6(c)(2)(ii)(C), the State expects this payment arrangement to advance at least one of the goals and objectives in the quality strategy required per 42 C.F.R. § 438.340."

40. Consistent with 42 C.F.R. § 438.340(d), States must post the final quality strategy online beginning July 1, 2018. Please provide:

- **a.** A hyperlink to State's most recent quality strategy: https://bms.wv.gov/media/24906/download?inline
- **b.** The effective date of quality strategy. July 1, 2024

41. If the State is currently updating the quality strategy, please submit a draft version, and provide:

- **a.** A target date for submission of the revised quality strategy (month and year):
- **b.** Note any potential changes that might be made to the goals and objectives.

Note: The State should submit the final version to CMS as soon as it is finalized. To be in compliance with 42 C.F.R. § 438.340(c)(2) the quality strategy must be updated no less than once every 3-years.

42. To obtain written approval of this payment arrangement, a State must demonstrate that each state directed payment arrangement expects to advance at least one of the goals and objectives in the quality strategy. In the Table 7 below, identify the goal(s) and objective(s), as they appear in the Quality Strategy (include page numbers), this payment arrangement is expected to advance. If additional rows are required, please attach.

Table 7: Payment Arrangement Quality Strategy Goals and Objectives

Goal(s)	Objective(s)	Quality strategy page
Example: Improve care coordination for enrollees with behavioral health conditions	*Example: Increase the number of managed care patients receiving follow-up behavior health counseling by 15%*	*5*
a. Improve the health and wellness of the state's Medicaid and the WVCHIP populations through use of preventive services.	Increase the number of enrollees receiving preventative care, attending well and preventive visits, and timely maternal and child health services.	Page 13, Table 1
b. Provide supports for whole-person wellness and empower individuals to self-manage their health.	Increase number of enrollees receiving smoking cessation services and weight management counseling.	Page 13, Table 1
c.		
d.		

43. Describe how this payment arrangement is expected to advance the goal(s) and objective(s) identified in Table 7. If this is part of a multi-year effort, describe this both in terms of this year's payment arrangement and in terms of that of the multi-year payment arrangement.

The payment arrangement promotes the goal to improve the health and wellness of populations by incentivizing ongoing improvement in effective communication and care coordination. Strengthening the relationship between practitioners and patients through improved communication overall and coordination at discharge, will advance the quality of patient care and associated outcomes, including patient satisfaction.

The goals of high clinical quality and care at the appropriate time in the new quality strategy will be supported by focusing on the selected measures because they support health care delivery with high clinical quality and care at the appropriate time to deter avoidable use of emergency and acute care. Good communication between the doctor and the patient during care and support improve the patients' understanding for following care instructions after discharge and are evidence-based ways to achieve planned outcomes and avoid unnecessary returns to the hospital.

44. Please complete the following questions regarding having an evaluation plan to measure the degree to which the payment arrangement advances at least one of the goals and objectives of the State's quality strategy. To the extent practicable, CMS encourages States to utilize existing, validated, and outcomes-based performance measures to evaluate the payment arrangement, and recommends States use the CMS Adult and Child Core Set Measures, when applicable.

a. ☒ In accordance with 42 C.F.R. § 438.6(c)(2)(ii)(D), use the checkbox to assure the State has an evaluation plan which measures the degree to which the payment arrangement advances at least one of the goals and objectives in the quality strategy required per 42 C.F.R. § 438.340, and that the evaluation conducted will be *specific* to this payment arrangement. *Note:* States have flexibility in how the evaluation is conducted and may leverage existing resources, such as their 1115 demonstration evaluation if this payment arrangement is tied to an 1115 demonstration or their External Quality Review validation activities, as long as those evaluation or validation activities are *specific* to this payment arrangement and its impacts on health care quality and outcomes.

b. Describe how and when the State will review progress on the advancement of the State's goal(s) and objective(s) in the quality strategy identified in Question 42. For each measure the State intends to use in the evaluation of this payment arrangement, provide in Table 8 below: 1) the baseline year, 2) the baseline statistics, and 3) the performance targets the State will use to track the impact of this payment arrangement on the State's goals and objectives. Please attach the State's evaluation plan for this payment arrangement.

TABLE 8: Evaluation Measures, Baseline and Performance Targets

Measure Name and NQF # (if applicable)	**Baseline Year**	**Baseline Statistic**	**Performance Target**	**Notes[1]**
Example: Flu Vaccinations for Adults Ages 19 to 64 (FVA-AD); NQF # 0039	*CY 2019*	*34%*	*Increase the percentage of adults 18–64 years of age who report receiving an influenza vaccination by 1 percentage point per year*	*Example notes*
i. HCAHPS Composite Measure 2: Doctor Communication	2019	94.5%	There will be two tiers of performance targets: Tier 1: Hospitals in Tier 1 are those with baseline performance below 96.5%. The performance goal for hospitals in Tier 1 is to improve by 1% over SFY 2026. Tier 2: Hospitals in Tier 2 are those with baseline performance at or above 96.5%. The performance goal for hospitals in Tier 2 is to meet or exceed 96.5%.	State evaluation of this measure is a "met" or "unmet" of the performance target.
ii. HCAHPS Composite Measure 6: Discharge Information	2019	86.3%	There will be 2 tiers of performance targets. Tier 1: Hospitals in Tier 1 are those with baseline performance below 91.5%. The performance goal for hospitals in Tier 1 is to improve by 0.5% over SFY 2026. Tier 2: Hospitals in Tier 2 are those with baseline performance at or above 91.5%. The performance goal for hospitals in Tier 2 is to meet or exceed 92.5%.	State evaluation of this measure is a "met" or "unmet" of the performance target.
iii.				
iv.				

1. If the State will deviate from the measure specification, please describe here. If a State-specific measure will be used, please define the numerator and denominator here. Additionally, describe any planned data or measure stratifications (for example, age, race, or ethnicity) that will be used to evaluate the payment arrangement.

c. If this is any year other than year 1 of a multi-year effort, describe (or attach) prior year(s) evaluation findings and the payment arrangement's impact on the goal(s) and objective(s) in the State's quality strategy. Evaluation findings must include 1) historical data; 2) prior year(s) results data; 3) a description of the evaluation methodology; and 4) baseline and performance target information from the prior year(s) preprint(s) where applicable. If full evaluation findings from prior year(s) are not available, provide partial year(s) findings and an anticipated date for when CMS may expect to receive the full evaluation findings.

Over time the payment arrangement has had some success in improving the measured scores. The base line data was a high year and the subsequent report have reflected a drop. Since then, the state has seen increasingly improved statistics thereafter. For both measures, the statewide average across providers has increased over the three-year period from SFY 2023 through SFY 2025.
